Independent Auditor's Report

To the Board of Education
Norman Independent School District No. 29
Norman, Oklahoma

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Norman Independent School District No. 29 (the District) as of and for the year ended June 30, 2018 and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of the Norman Independent School District No. 29, as of June 30, 2018, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

What inspires you, inspires us. | eidebailly.com

Emphasis of Matter

Implementation of GASB No. 75

As discussed in Notes 1 and 6 to the financial statements, the District has adopted the provisions of GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, which had no net impact on beginning net position. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison schedule – General Fund, the schedule of District's proportionate share of the net pension liability, the schedule of District's contributions - pension, the schedule of District's proportionate share of the net OPEB liability (asset), and the schedule of District's contributions - OPEB on pages 4 through 11 and 34 through 39 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining nonmajor fund financial statements; the budgetary comparison schedule – Building Fund; the budgetary comparison schedule – Child Nutrition Fund; the combining schedule of changes in assets and liabilities – all activity funds; the schedule of statutory, fidelity, and honesty bonds; and the schedule of accountants' professional liability insurance affidavit are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the financial statements.

The combining nonmajor fund financial statements, the combining schedule of changes in assets and liabilities – all activity funds, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining nonmajor fund financial statements, the combining schedule of changes in assets and liabilities – all activity funds, and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The budgetary comparison schedule – Building Fund; budgetary comparison schedule – Child Nutrition Fund; the schedule of statutory, fidelity and honesty bonds; and the schedule of accountants’ professional liability insurance affidavit have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 11, 2019 on our consideration of the District’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District’s internal control over financial reporting and compliance.

Oklahoma City, Oklahoma
January 11, 2019

This section of Norman Independent School District's (NISD or the District) annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year that ended on June 30, 2018. Please read it in conjunction with the District's financial statements, which immediately follow this section.

These statements reflect the implementation of GASB statements 68 and 71 all addressing the accounting and presentation of pension plans which impacts the district-wide financial statements but not the fund financial statements for both years presented. For the District, this includes the District's portion of the unfunded liability of the Oklahoma Teachers Retirement System (OTRS) to the district-wide financial statements. While the implementation of these standards have had a significant impact on the statements by decreasing net position, management does not believe that it indicates a true negative impact on the financial condition of the institution.

The District adopted GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* (GASB 75). GASB 75 was issued in June 2015 and replaces the requirements of Statements No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, and No. 57, *OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans, for OPEB*. The Statement establishes standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures. The provisions of GASB No. 75 are effective for fiscal years beginning after June 15, 2017. The adoption of GASB No. 75 resulted in no change to net position as of July 1, 2017.

FINANCIAL HIGHLIGHTS

- The District's financial status increased by approximately \$3.9 million from last year. Total net position increased approximately 12 percent over the course of the year.
 - Overall revenues were \$146.7 million and overall expenses were \$142.8 million.
 - The District's portion of the net pension liability decreased by \$24.3 million due to a smaller overall pension liability for Oklahoma Teachers Retirement System.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts -- management's discussion and analysis (this section), the basic financial statements, and supplementary information (required and other). The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are *district-wide financial statements* that provide both *short-term* and *long-term* information about the District's *overall* financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the District, reporting the District's operation in more detail than the district-wide statements.
- The *governmental funds* statements tell how *basic* services like regular and special education were financed in the *short term* as well as what remains for future spending.

The financial statements also include *notes* that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of supplementary information (required and other) that further explains and supports the financial statements with a comparison of the District's budget for the year.

Figure A-1
Major Features of District-Wide and Fund Financial Statements

	<u>District-wide Statements</u>	<u>Fund Financial Statements Governmental Funds</u>
Scope	Entire district (except fiduciary funds)	The activities of the district that are not proprietary or fiduciary, such as special education and building Maintenance
Required financial statements	1) Statement of net position 2) Statement of activities	1) Balance Sheet 2) Statement of revenues, expenditures, and changes in fund balances
Accounting basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus
Type of asset/liability information	All assets and liabilities, both financial and capital, short-term and long-term	Generally assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets or long-term liabilities included
Type of inflow/outflow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due and payable

Figure A-1 summarizes the major features of the District's financial statements. The remainder of this overview section of management's discussion and analysis highlights the structure and contents of each of the statements.

District-wide Statements

The district-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes *all* of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid. As stated above, the district-wide statements were significantly impacted by the implementation of new standards related to recording the District's portion of the net pension liability.

The two district-wide statements report the District's *net position* and how they have changed. Net position – the difference between the District's assets plus deferred outflows of resources and liabilities plus deferred inflows of resources – is one way to measure the District's financial health or *position*.

- Over time, increases or decreases in the District's net position are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the overall health of the District, you need to consider additional non-financial factors such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the district-wide financial statements, the District's activities are categorized as governmental activities.

- *Governmental activities* – The District's basic services are included here, such as regular and special education, transportation, and administration. Property taxes and state aid formula finance most of these activities.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's *funds*, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by State law and by bond covenants.
- The District establishes other funds to control and manage money for particular purposes (like repaying its long-term debts) or to show that it is properly using certain revenues.

The District's basic services are included in *governmental funds*, which generally focus on 1) how cash and other financial assets that can readily be converted to cash flow in and out and 2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed *short-term* view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the district-wide statements, we provide additional information with the governmental funds statements that explain the relationship (or differences) between them.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Table A-1
Norman Public School's Net Position
(in millions of dollars)

	FY2018	FY2017
Assets		
Current and other assets	\$ 58.0	\$ 58.2
Capital assets	228.1	232.0
Total assets	286.1	290.2
Deferred outflows of resources - pensions/OPEB	24.6	39.3
Liabilities		
Current and other liabilities	9.0	7.9
Long term debt, including current maturities	143.6	154.3
Net pension liability	106.5	130.8
Total liabilities	259.1	293.0
Deferred inflows of resources - pensions/OPEB	14.2	3.0
Net position		
Net investment in capital assets	91.3	86.1
Restricted	29.7	29.9
Unrestricted	(83.6)	(82.5)
	\$ 37.4	\$ 33.5

Net Position.

As a result of the pension standards reflected in both fiscal years presented, the District's unrestricted net position is in a deficit position, increasing by \$1.1 million in FY18. (See Table A-1). Again, management does not believe that this indicates a true negative impact on the financial condition of the institution.

The District's change in financial position is the product of many factors. A growth during the year in taxes had a favorable impact on net position. Other notable factors were the slight decrease in Federal and state grants and State entitlement payments to school districts increased.

Table A-2
Changes in Norman Public School's Net Position
(in millions of dollars)

	FY2018	FY2017
Revenues		
Program Revenues		
Charges for services	\$ 6.1	\$ 6.3
Federal and state grants	16.5	16.6
General revenues		
Property taxes	62.9	61.2
Other taxes	13.6	13.1
State entitlement	46.8	45.0
Other	0.8	0.3
Total revenues	146.7	142.5
Expenses		
Program expenses		
Instruction	72.7	72.1
Support services	52.4	46.3
Non-instruction	8.8	20.5
Interest on long-term debt	1.4	1.0
Depreciation - unallocated	7.5	7.1
Total expenses	142.8	147.0
Increase (Decrease) in net position	\$ 3.9	\$ (4.5)

Changes in net position. The District's total revenues increased \$4.2 million to \$146.7 million. (See Table A-2) Property taxes and state entitlement funds accounted for most of the District's revenue, with each contributing about 75 cents of every dollar raised. Another 11.2 percent came from state and federal aid for specific programs, and the remainder from fees charged for services and miscellaneous sources. Total revenues surpassed expenses, increasing net position by \$3.9 million.

The total cost of all programs and services decreased by \$4.2 million between the two years. The District's expenses are predominantly related to educating and caring for students (80-90 percent). The purely administrative activities of the District accounted for less than 1 percent of total costs.

The most significant contributors to the fluctuation in net position were the funds used to purchase or build capital assets, and also the funds necessary for repayment of principal on long-term debt issues. Repayments on long-term debt this year were larger than debt issued in FY18. The net pension liability and the related deferred inflows and outflows of resources also created significant fluctuations largely due to actuarial factors related to the liability.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As the District completed the year, its governmental funds reported *combined* fund balances of \$44.1 million, compared to last year's ending fund balances of \$46.2 million. In comparison to FY17's net increase in fund balance of \$0.5 million, this year's decrease was \$2.1 million largely due to the variance in bond proceeds in FY18 in comparison to FY17.

General Fund Budgetary Highlights

At the beginning of the 2018 fiscal year, the District's State Entitlement funds (the State Aid Formula funds) were increased by approximately \$640,000 from the previous fiscal year. This was due to legislation enacted to generate additional revenue enhancements such as cigarette fees, tax on vehicle purchases, and elimination of some gross production tax breaks and rebates.

This initial allocation in State Aid was increased by \$1,065,000 in January, when the mid-term adjustments were made by the State Department of Education. Our District's first nine weeks student enrollment increased by 191 students from the prior year. Also, our District reported higher student counts in the weighted categories, thus providing a 528 overall student growth in the State Aid funding formula for the District.

- Due to the Supreme Court striking down the cigarette fee passed as unconstitutional, a \$215 million budget hole was created in the State budget. As a result, our district State Aid was reduced \$361,000 in March.
- After failing to approve several comprehensive revenue proposals, lawmakers used some \$170 million in one-time revenues to help fill the budget hole while also cutting some state agency budgets by 2 percent for the four remaining months of 2018.
- Actual revenues were higher than expected at mid-year, due largely to a high collection rate of property tax revenues. Also, County 4-mill ad valorem revenue, school land earnings, and motor vehicle collections revenue increased.
- The actual expenditures were below budget, due primarily to the shifting of expenses to other funds and by expenditure budgets that remained unspent at June 30, 2018.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

By the end of 2018, the District had invested nearly \$8 million in a broad range of capital assets, including new classroom additions, athletic facilities, computer and audiovisual equipment, and building improvements.

The District anticipates spending approximately \$4 million for capital projects in 2019, with some of the major projects as follows:

- \$500,000 to finalize renovations at the two high schools
- \$2,500,000 for various elementary and middle school site improvements

See additional information regarding Capital Assets in Note 3 to the Notes to the Financial Statements.

Long-term Debt

At year-end the District had \$143.6 million in total long-term debt outstanding (including compensated absences). This is a decrease from last year's amount of \$154.3 million.

- The District continued to pay down its debt, retiring \$22 million of outstanding bonds.
- \$29,480,000 in new debt was issued during the year.

In February 2014, the District patrons voted on and approved five-year bond issue. This issue, for \$126 million, is funded with lease revenue bonds. General obligation bonds will be sold for five years, to make the annual lease revenue payments required. The bonds will be issued in a timely manner over five years to match current millage rates to assure citizens will not face any additional taxes.

See additional information regarding Long-term Debt in Note 4 to the Notes to the Financial Statements.

FACTORS BEARING ON THE DISTRICT'S FUTURE

At the time these financial statements were prepared and audited, the District was aware of the following existing circumstances that could significantly affect its financial health in the future:

- Even though the legislature provided a slight increase to State funding for education going into 2018, state aid funding for public schools remained \$179 million below 2008 levels, while enrollment increased by over 50,000 students.
- Education funding hasn't kept pace with skyrocketing healthcare costs, increasing enrollment or the growth in student needs.
- Oklahoma's neighboring states invest substantially more in common education on a per-student basis. Other states in our region reached Oklahoma's current level of per student education investment a decade ago.
- Oklahoma educators reached a breaking point in April 2018, and held a walkout at the Capitol, demanding increased pay for salaries and for operational expenditures. After two weeks, lawmakers passed legislation that promised to increase certified and support salaries beginning in 2019.
- The funding approved by lawmakers for education is just a start and doesn't come close to fully funding education. There is widespread agreement that lawmakers must do more to fund our schools and provide teachers and other employees a fair and competitive salary.
- Oklahoma's historic teacher shortage will continue to grow without a long-term vision and funding plan for education that's focused on providing a high-quality education for every child.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designated to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Chief Financial Officer's Office, Norman Public School District, 131 South Flood, Norman, OK 73069.

Ending Fund Balances	<u>\$ 7,940,598</u>	<u>\$ 23,750,490</u>	<u>\$ 5,190,532</u>	<u>\$ 7,227,801</u>	<u>\$ 44,109,421</u>

Norman Independent School District No. 29

Cleveland County, Oklahoma

Reconciliation of Statement of Revenues, Expenditures, and Changes in Fund Balances – Governmental Funds

Year Ended June 30, 2018

Total net changes in fund balances - governmental funds \$ (2,105,070)

The change in net position reported in the statement of activities is different because:

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities those costs are shown in the statement allocated over their estimated useful lives as annual depreciation expenses in the statement of activities. This is the amount by which depreciation exceeds capital outlays during the period.

Capital asset additions	\$ 3,616,790	
Depreciation	<u>(7,512,549)</u>	(3,895,759)

Because some property taxes will not be collected for several months after the District's fiscal year ends, they are not considered as "available" revenues in the governmental funds and are, instead counted as unavailable revenues. They are, however, recorded as revenues in the statement of activities.

322,456

In the statement of activities, compensated absences are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially the amounts actually paid). This year, vacation and sick leave used exceeded amounts earned.

21,592

Long term debt, such as bond proceeds, are reported as financing sources in governmental funds and thus contribute to the change in fund balance. In the statement of net position, however issuing debt increases long-term liabilities and does not affect the statement of activities. Similarly, repayment of principal is an expenditure in the governmental funds but reduces the liability in the statement of net position.

Debt issued	\$ (29,480,000)	
Debt repaid	<u>40,595,000</u>	11,115,000

Changes in net pension liabilities are not recorded in the fund financial statements but is recorded in the statement of activities.

24,261,916

Changes in net OPEB asset are not recorded in the fund financial statements but is recorded in the statement of activities.

717,757

Changes in deferred outflows/inflows of resources related to the net pension liability are not current financial resources and are not recorded in the fund financial statements but are recorded in the governmental activities.

Deferred outflows of resources	\$ (14,659,936)	
Deferred inflows of resources	<u>(11,207,437)</u>	(25,867,373)

Bond premiums are shown as a liability on the statement of net position and as revenue in the governmental fund. The bond premium is amortized against interest expense using the effective interest method.

(442,153)

Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds when it is due, and thus requires the use of current financial resources when paid. In the statement of activities, however, interest expense is recognized as the interest accrued, regardless of when it is due.

(235,835)

Change in net position of governmental activities

\$ 3,892,531

Note 1 - Summary of Significant Accounting Policies

The Norman Independent School District No. 29 (the District) is a corporate body for public purposes created under Title 70 of the Oklahoma Statutes and accordingly is a separate entity for operating and financial reporting purposes. The District is part of the public school system of Oklahoma under the general direction and control of the State Board of Education and is financially dependent on the State of Oklahoma for support. The general operating authority for the public school system is the Oklahoma School Code contained in Title 70 of the Oklahoma Statutes.

The District's financial statements are prepared in accordance with generally accepted accounting principles promulgated by the Governmental Accounting Standards Board (GASB).

The Reporting Entity - The governing body of the District is the Board of Education composed of elected members. The appointed superintendent is the executive officer of the District. There are no component units included within the reporting entity.

Basic Financial Statements – Government-Wide Statements - The District's basic financial statements include both government-wide (reporting the District as a whole) and fund financial statements (reporting the District's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental. Governmental Activities include programs primarily supported by taxes, State aid, grants and other intergovernmental revenue.

In the government-wide Statement of Net Position, the District's governmental activities are reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. These statements also recognize deferred outflows of resources and deferred inflows of resources. The District's net position are reported in three parts – net investment in capital assets; restricted net position; and unrestricted net position.

The government-wide Statement of Activities reports both the gross and net cost of each of the District's programs and functions. The functions are also supported by general government revenues. The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. Direct expenses are those that are clearly identifiable with a specific function. Program revenues must be directly associated with the function. Charges for services include charges and fees to students, or customers who purchase, use or directly benefit from the goods, services, or privileges provided by a given function. Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants.

All interfund transactions are eliminated in the district-wide statements.

The net costs are normally covered by general revenue (property taxes, State and Federal aid, other taxes etc.).

The government-wide focus is more on the sustainability of the District as an entity and the change in the District's net position resulting from the current year's activities. Major individual governmental funds are reported in separate columns in the fund financial statements.

Basic Financial Statements – Fund Financial Statements - Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, current liabilities, deferred inflows of resources, and fund balances are included on the balance sheet. The fund financial statements provide reports on the financial condition and results of operations of governmental fund categories.

The District reports the following major governmental funds:

- **General Fund** is the primary operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.
- **Debt Service Fund** is used to account for the accumulation of funds for the periodic payment of principal and interest on general long-term debt.
- **2018 Bond Fund** is used to account for the financial resources to be used for the acquisition or construction of major capital facilities as approved by the voters for the 2018 bond issue.

Additionally, the District reports the following fund types included in the Other Governmental Funds column:

Governmental Funds:

1. Special Revenue Funds – The District accounts for resources restricted for specific purposes by the District or a grantor in a special revenue fund.
2. Capital Project Funds – The proceeds from long-term financing and revenues and expenditures related to authorized construction and other capital asset acquisitions are accounted for in a capital projects fund.

Basis of Accounting - Basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

Accrual: The government-wide financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when a liability is incurred. Property taxes are recognized as revenue in the year in which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Modified Accrual: The funds' financial statements are presented on the modified accrual basis of accounting. Under modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e. both measurable and available. "Available" means collectible within the current period or within 60 days after year end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt, if any, is recognized when due.

Inventories - Inventories in the general fund consist of expendable supplies held for the District’s use and are carried at cost using the first-in, first-out method. Inventories are accounted for using the consumption method where materials and supplies are recorded as an expenditure when used rather than when purchased.

On the government-wide financial statements, United States Department of Agriculture (USDA) food commodities are recorded as revenue at fair value at the date of receipt and as an expense when used. USDA food commodities are not reported in the governmental funds.

Capital Assets - Capital assets purchased with an original cost of \$2,500 or more are reported at historical cost or acquisition value on the date of donation if acquired by gift. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

School Buildings	50 years
Site Improvements	20 years
Portable Classrooms	25 years
Kitchen Equipment	15 years
Business Machines and Computers	5 years
Licensed Vehicles	8 years
Audio Visual Equipment, Musical Instruments	10 years

Compensated Absences - Certified District employees earn sick leave starting the first day of the school year, as defined for each individual. Support personnel are eligible for paid sick leave benefits after 90 days. Sick leave is accrued at different rates depending on number of contract days worked. Unused sick leave is cumulative up to 185 days. Upon termination, resignation, retirement or death, unused sick leave is reimbursable up to a maximum of 120 days at rates varying from \$5 per day for the first 30 days to \$25 per day for the last 20 days. Vacation days accrue by month only after the completion of the full month. The rate of accrual is based on the number of contract days an employee works. Vacation may be accumulated up to 80 days. Reimbursement for unused vacation is paid at 100% of the employee's current rate of pay.

Deferred Outflows/Inflows of Resources – Deferred outflows represent a consumption of net position that applies to a future period(s) and so they will not be recognized as an outflow of resources (expense) until then. The District’s deferred outflows of resources were comprised of statutorily required pension contributions, changes in actuarial assumptions, and changes in proportion that are applicable to future reporting periods.

Deferred inflows are the acquisition of net position by the District that is applicable to a future reporting period. The District’s deferred inflows of resources were comprised of amounts recognized as receivables but not revenues in the governmental funds because the revenue recognition criteria (availability) has not been met and, at the government-wide level, changes in net pension liability and the net OPEB asset related to experience that are applicable to future reporting periods.

Budgets and Budgetary Accounting - The District is required by state law to prepare an annual budget. The District by resolution of the Board of Education has adopted the School District Budget Act. This act requires that within the thirty-day period preceding the beginning of each fiscal year, a budget shall be approved by the governing body. The original budget is to be amended after the June financial activity has been recorded, the annual allocations have been released, and the property tax valuations have been certified for all affected counties within the district.

A budget is legally adopted by the Board of Education for the General Fund and Special Revenue Funds that includes revenues and expenditures.

Deposits - The District considers all cash on hand, demand deposits, money market checking and certificates of deposit, held at an individual bank which are subject to early withdrawal penalties no matter what the maturity period, to be cash. All short-term cash surpluses are maintained in a cash pool, the earnings from which are allocated to each fund based on month-end deposit balances. State statutes require collateral for deposits in excess of insured amounts. The collateral's market value must exceed the insured deposit.

Property Tax Revenues - The District is authorized by state law to levy property taxes which consist of ad valorem taxes on real and personal property within the District. The County Assessor, upon receipt of the certification of tax levies from the county excise board, extends the tax levies on the tax roll for submission to the county treasurer prior to October 1. The county treasurer must commence tax collection within fifteen days of receipt of the tax rolls. The first half of taxes are due prior to January 1. The second half is due prior to April 1.

If the first payment is not made timely, the entire tax becomes due and payable on January 1. Second half taxes become delinquent on April 1 of the year following the year of assessment. If not paid by the following October 1, the property is offered for sale for the amount of taxes due. The owner has two years to redeem the property by paying the taxes and penalty owed. If at the end of two years the owner has not done so, the purchaser is issued a deed to the property.

Property taxes receivable by the District include uncollected taxes assessed in prior years. Delinquent property tax receivable is recognized as revenue in the government-wide financial statements. Only the portion of the property taxes receivable that meets the revenue recognition criteria is reported as revenue in the fund financial statements. No provision has been made for uncollectible amounts because uncollectible amounts are considered insignificant.

State Revenues - Revenues from state sources for current operations are primarily governed by the state aid formula under the provisions of Article XVIII, Title 70, Oklahoma Statutes. The State Board of Education administers the allocation of state aid funds to school districts based on information accumulated from the districts. Approximately 40% of the District's revenue comes from state sources.

After review and verification of reports and supporting documentation, the State Department of Education may adjust subsequent fiscal period allocations of money for prior year errors disclosed by review. Normally, such adjustments are treated as reductions or additions of revenue of the year when the adjustment is made.

The District receives revenue from the state to administer certain categorical educational programs. State Board of Education rules require that revenue earmarked for these programs be expended only for the programs for which the money is provided and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same categorical programs. The State Department of Education requires that categorical educational program revenues be accounted for in the general fund.

Interfund Transfers - During the course of normal operations, the District has transactions between funds including expenditures and transfers of resources to provide services, purchase assets and service debt. Transactions that are normal and recurring between funds are recorded as transfers.

Bond Premium - Bond premiums are deferred and amortized over the life of the bonds using the effective interest method.

Pensions - For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Oklahoma Teachers Retirement System (OTRS) and additions to/deductions from OTRS's fiduciary net position have been determined on the same basis as they are reported by OTRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

OPEB - For purposes of measuring the net OPEB asset, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Oklahoma Teachers Retirement System (OTRS) and additions to/deductions from OTRS's fiduciary net position have been determined on the same basis as they are reported by OTRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Net Position and Fund Balance - District-Wide Financial Statements – When the District incurs an expense for which it may use either restricted or unrestricted net position, it uses restricted net position first unless unrestricted net position will have to be returned because they were not used.

Net position on the Statement of Net Position include the following:

Net investment in Capital Assets - The component of net position that reports the difference between capital assets less both the accumulated depreciation and the outstanding balance of debt, including premiums and discounts, excluding unspent proceeds, that is directly attributable to the acquisition, construction or improvement of these capital assets.

Restricted for Debt Service - The component of net position that reports the amount of funds restricted for payment of principal and interest on debt. This amount is restricted by enabling legislation and debt covenants.

Restricted for Buildings - The component of net position that reports the excess of property taxes and other revenue collected in excess of expenses for operation of the District's buildings. This amount is restricted by enabling legislation.

Restricted for School Organizations - The component of net position that reports the assets restricted for use by student organizations and extracurricular activities. This amount is restricted by regulations of the Oklahoma State Department of Education.

Restricted for Child Nutrition - The component of net position that reports the assets restricted for use by Child Nutrition program.

Restricted for OPEB – The component of net position that reports the net OPEB asset restricted for other post-employment benefits and deferred outflows of resources, netted against its related deferred inflows of resources.

Unrestricted – The difference between the sum of assets and deferred outflows of resources and the sum of liabilities and deferred inflows of resources that is not reported as restricted for any particular purpose.

Governmental Fund Financial Statements – The District follows Governmental Accounting Standards Board Statement No. 54, *Fund Balance Reporting and Governmental Fund Types*, which defines how fund balances of the governmental funds are presented in the financial statements. The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

Nonspendable: This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact. The District has classified inventory as being nonspendable as these items are not expected to be converted to cash or are not expected to be converted to cash within the next year.

Restricted: This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation. The District has classified school construction and building maintenance expenditures as being restricted because their use is restricted by state statute or legislation regarding use of expenditures. Debt service resources are to be used for future servicing of the debt and are restricted through debt covenants. Food service resources are to be used for the District's child nutrition program and are restricted through federal and state regulations. The District has classified school program activities, miscellaneous site grants and grant carryover as being restricted because their use is imposed by the Oklahoma State Department of Education or other authority regarding use of expenditures. Other purposes are restricted for insurance purposes and scholarship purposes from contributors.

Committed: This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the Board of Education. These amounts cannot be used for any other purpose unless the Board of Education removes or changes the specified use by taking the same type of action (resolution) that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements. There were no committed balances as of June 30, 2018.

Assigned: This classification includes amounts that are constrained by the District's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the Board of Education or through the Board of Education delegating this responsibility to management through the budgetary process. The District has no assigned funds as of June 30, 2018.

Unassigned: This classification includes the residual fund balance for the General Fund. The unassigned classification would also include any negative residual fund balance of any other governmental fund that cannot be eliminated by offsetting of assigned fund balance amounts. The District has not established a formal stabilization arrangement regarding minimum funding requirements. The Board of Education, however, has made it a goal to achieve and maintain a minimum fund balance of 5% in the general fund of the current year total revenue collections as well as a minimum fund balance in the building fund of 35% of the current year total revenue collections.

As of June 30, 2018, fund balances are comprised of the following:

	General Fund	Debt Service Fund	2018 Bond Fund	Other Governmental Funds	Total Governmental Funds
Fund balances:					
Nonspendable					
Inventory	\$ 151,551	\$ -	\$ -	\$ -	\$ 151,551
Restricted for:					
School construction	-	-	5,190,532	1,090,985	6,281,517
Building maintenance	-	-	-	2,575,233	2,575,233
Debt service reserve	-	23,750,490	-	-	23,750,490
School programs	-	-	-	2,049,612	2,049,612
Food services	-	-	-	1,062,760	1,062,760
Insurance purposes	-	-	-	426,377	426,377
Gifts from donors	-	-	-	22,834	22,834
Miscellaneous site grants and Astellas grant carryover	199,662	-	-	-	199,662
Federal and state grants carryover	161,406	-	-	-	161,406
Total restricted	<u>361,068</u>	<u>23,750,490</u>	<u>5,190,532</u>	<u>7,227,801</u>	<u>36,529,891</u>
Unassigned	7,427,979	-	-	-	7,427,979
Total fund balances	<u>\$ 7,940,598</u>	<u>\$ 23,750,490</u>	<u>\$ 5,190,532</u>	<u>\$ 7,227,801</u>	<u>\$ 44,109,421</u>

The District would typically use restricted fund balances first, followed by committed resources, and then assigned resources, as appropriate opportunities arise, but reserves the right to selectively spend unassigned resources first to defer the use of these other classified funds.

New Accounting Pronouncement - The District adopted GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* (GASB 75). GASB 75 was issued in June 2015 and replaces the requirements of Statements No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, and No. 57, *OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans, for OPEB*. The Statement establishes standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures. The provisions of GASB No. 75 are effective for fiscal years beginning after June 15, 2017. The adoption of GASB No. 75 resulted in no change to net position as of July 1, 2017.

Note 2 - Cash

Deposits - At June 30, 2018, the bank balance of deposits and cash pools was \$55,609,188. Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. State statutes require collateral for amounts in excess of federally insured amounts. The deposit policy for custodial credit risk requires compliance with the provisions of state law. The bank balance was completely covered by federal depository insurance and by collateral held by the District's third-party agent in the District's name.

Interest Rate Risk – The District does not have a formal policy that limits investment maturities as a means of managing its exposure to fair value losses from increasing interest rates.

Note 3 - Capital Assets

Capital asset activity for the year ended June 30, 2018, was as follows:

	Beginning Balances	Increases	Decreases	Ending Balances
Capital Assets not being depreciated:				
Land	\$ 3,024,091	\$ 82,808	\$ -	\$ 3,106,899
Construction in Progress	73,652,645	910,970	53,902,225	20,661,390
Total capital assets not being depreciated	<u>76,676,736</u>	<u>993,778</u>	<u>53,902,225</u>	<u>23,768,289</u>
Capital Assets being depreciated:				
Buildings	109,690,920	-	-	109,690,920
Improvements	134,023,494	53,948,255	-	187,971,749
Furniture and Equipment	3,662,884	172,273	-	3,835,157
Musical Instruments	235,419	19,228	-	254,647
Computers	594,575	32,350	-	626,925
Vehicles	9,360,559	2,353,131	198,494	11,515,196
Total capital assets being depreciated	<u>257,567,851</u>	<u>56,525,237</u>	<u>198,494</u>	<u>313,894,594</u>
Less accumulated depreciation for:				
Buildings	62,192,318	1,977,548	-	64,169,866
Improvements	30,175,476	4,605,864	-	34,781,340
Furniture and Equipment	2,230,473	210,674	-	2,441,147
Musical Instruments	731,363	13,128	-	744,491
Computers	427,911	45,700	-	473,611
Vehicles	6,478,594	659,635	198,494	6,939,735
Less total accumulated depreciation	<u>102,236,135</u>	<u>7,512,549</u>	<u>198,494</u>	<u>109,550,190</u>
Total capital assets being depreciated, net	<u>155,331,716</u>	<u>49,012,688</u>	<u>-</u>	<u>204,344,404</u>
Governmental activity capital assets, net	<u>\$ 232,008,452</u>	<u>\$ 50,006,466</u>	<u>\$ 53,902,225</u>	<u>\$ 228,112,693</u>

Depreciation is not allocated by function in the statement of activities.

Note 4 - Long-term Liabilities

The long-term liability balances and activity for the year were as follows:

	Beginning	Additions	Reductions	Ending Balance	Amounts Due Within 1 Year
Bonds Payable	\$ 77,470,000	\$ 29,480,000	\$ (22,015,000)	\$ 84,935,000	\$ 22,120,000
Bond Premium	1,651,432	786,526	(344,373)	2,093,585	534,039
Compensated Absences	1,438,882	583,343	(604,935)	1,417,290	1,417,290
Lease Revenue Payable	73,700,000	-	(18,580,000)	55,120,000	23,185,000
Total governmental activity long-term liabilities	<u>\$ 154,260,314</u>	<u>\$ 30,849,869</u>	<u>\$ (41,544,308)</u>	<u>\$ 143,565,875</u>	<u>\$ 47,256,329</u>

Bonds payable at June 30, 2018 are composed of the following individual general obligation bond issues:

Original Issue Amount	Annual Installment	Maturity Date	Interest Rate	Outstanding Amount at June 30, 2018
\$ 28,780,000	\$ 7,195,000	3/1/2019	1-2%	\$ 7,195,000
2,000,000	500,000	5/1/2019	1-2%	500,000
8,000,000	2,000,000	3/1/2020	1.25 - 2%	4,000,000
23,760,000	5,940,000	3/1/2021	.05-3%	17,820,000
25,940,000	6,485,000	3/1/2022	2-3%	25,940,000
29,480,000	7,370,000 *	3/1/2023	2-3%	29,480,000
				<u>\$ 84,935,000</u>

* First payment due March 1, 2020

Payments on bonds are made by the debt service fund with property taxes. Compensated absences are generally liquidated by the general fund.

The annual requirements to amortize all bond debt outstanding as of June 30, 2018 including interest payments are as follows:

Period Ending June 30	Principal	Interest	Total Debt Service
2019	\$ 22,120,000	\$ 2,081,400	\$ 24,201,400
2020	21,795,000	1,656,500	23,451,500
2021	19,795,000	1,171,200	20,966,200
2022	13,855,000	636,750	14,491,750
2023	7,370,000	221,100	7,591,100
	<u>\$ 84,935,000</u>	<u>\$ 5,766,950</u>	<u>\$ 90,701,950</u>

State statutes prohibit the District from becoming indebted in an amount exceeding the revenue to be received for any fiscal year without approval by the District's voters. Bond issues have been approved by the voters and issued by the District for various capital improvements. These bonds are required to be fully paid serially within 25 years from the date of issue. General obligation bonded debt of the District is limited by state law to 10% of the assessed valuation of the District. The legal debt limit for general obligation bonds at June 30, 2018 is approximately \$96.1 million.

Proceeds of general obligation bond issues are recorded in the capital project funds and at least 85% of the proceeds are restricted to the use for which they were approved in the bond elections.

See additional discussion of lease revenue payable at Note 11.

Note 5 - Employee Retirement System

Plan Description - The District contributes to the state-administered Oklahoma Teachers' Retirement System ("the System" or "OTRS"), a cost-sharing, multiple-employer public employee retirement plan (the Plan). The System is administered by a board of trustees. OTRS provides retirement, disability and death benefits to plan members and beneficiaries. Oklahoma State Statute 70, Article 17 assigns the authority to establish and amend benefit provisions to the OTRS Board of Trustees. Detailed information about the pension plan's fiduciary net position is available in the separately issued financial report of the System; which can be located at www.ok.gov/OTRS.

Policy - Under the System, contributions are made by the District, the State of Oklahoma, and the participating employees. Participation is required for all teachers and other certified employees and is optional for all other regular employees of public educational institutions who work at least 20 hours per week.

Contributions - The contribution rates for the District and its employees, which are not actuarially determined, are established by statute and applied to the employee's earnings, plus employer-paid fringe benefits. The District was required by statute to contribute 9.5% of applicable compensation for the year ended June 30, 2018. Plan members are required to contribute 7% of their annual covered salary. The District pays full-time employees' contribution as allowed by statute. A portion of the contributions received by OTRS are allocated to the Supplemental Health Insurance program; see Note 6. Contributions to the pension plan from the District were \$6,883,569 for the year ended June 30, 2018. The State of Oklahoma also made on-behalf contributions to OTRS, of which \$4,489,362 was recognized by the District; these on-behalf payments did not meet the criteria of a special funding situation.

Benefits - Benefit provisions include:

- Members become 100% vested in retirement benefits earned to date after five years of credited Oklahoma service. Members who joined the System on June 30, 1992 or prior are eligible to retire at maximum benefits when age and years of creditable service total 80. Members joining the System after June 30, 1992 are eligible for maximum benefits when their age and years of creditable service total 90. Members whose age and service do not equal the eligible limit may receive reduced benefits as early as age 55, and at age 62 receive unreduced benefits based on their years of service. The maximum retirement benefit is equal to 2% of final compensation for each year of credited service.
- Final compensation for members who joined the System prior to July 1, 1992 is defined as the average salary for the three highest years of compensation. Final compensation for members joining the System after June 30, 1992 is defined as the average of the highest five consecutive years of annual compensation in which contributions have been made. The final average compensation is limited for service credit accumulated prior to July 1, 1995 to \$40,000 or \$25,000, depending on the member's election. Monthly benefits are 1/12 of this amount. Service credits accumulated after June 30, 1995 are calculated based on each member's final average compensation, except for certain employees of the two comprehensive universities.
- Upon the death of a member who has not yet retired, the designated beneficiary shall receive the member's total contributions plus 100% of interest earned through the end of the fiscal year, with interest rates varying based on time of service. A surviving spouse of a qualified member may elect to receive, in lieu of the aforementioned benefits, the retirement benefit the member was entitled to at the time of death as provided under the Joint Survivor Benefit Option.
- Upon the death of a retired member, the System will pay \$5,000 to the designated beneficiary, in addition to the benefits provided for the retirement option selected by the member.
- A member is eligible for disability benefits after ten years of credited Oklahoma service. The disability benefit is equal to 2% of final average compensation for the applicable years of credited service.
- Upon separation from OTRS, members' contributions are refundable with interest based on certain restrictions provided in the plan, or by the IRC.
- Members may elect to make additional contributions to a tax-sheltered annuity program up to the exclusion allowance provided under the IRC under Code Section 403(b).

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - At June 30, 2018, the District reported a liability of \$106,571,969 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2017. The District's proportion of the net pension liability was based on the District's contributions received by the pension plan relative to the total contributions received by pension plan for all participating employers as of June 30, 2017. Based upon this information, the District's proportion was 1.6095%, an increase of 0.0418% from the proportion at June 30, 2016.

For the year ended June 30, 2018, the District recognized pension expense of \$12,396,550 in compensation and benefits expense. At June 30, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ 7,275,952
Changes of assumptions	12,647,163	6,370,673
Net difference between projected and actual earnings on pension plan investments	1,514,875	-
Changes in District's proportionate share of contributions	3,473,369	-
Differences between District contributions and proportionate share of contributions	-	11,670
District contributions subsequent to the measurement date	6,883,569	-
Total	\$ 24,518,976	\$ 13,658,295

The \$6,883,569 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2019.

Other than contributions provided subsequent to the measurement date, deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:

2019	\$	(89,397)
2020		5,149,696
2021		3,060,495
2022		(2,977,637)
2023		(1,166,045)
Total	\$	3,977,112

Actuarial Assumptions - The total pension liability as of June 30, 2018, was determined based on an actuarial valuation prepared as of June 30, 2017 using the following actuarial assumptions:

- Actuarial Cost Method - Entry Age Normal
- Inflation – 2.50%
- Future Ad Hoc Cost-of-living increases – None
- Salary Increases - Composed of 3.25% wage inflation, including 2.50% price inflation, plus a service-related component ranging from 0.00% to 8.00% based on years of service.
- Investment Rate of Return – 7.50%
- Retirement Age - Experience-based table of rates based on age, service, and gender. Adopted by the Board in May 2015 in conjunction with the five-year experience study for the period ending June 30, 2014.
- Mortality Rates after Retirement- Males: RP-2000 Combined Healthy Mortality Table for males with White Collar Adjustments. Generational mortality improvements in accordance with Scale BB from the table's base year of 2000. Females: GRS Southwest Region Teacher Mortality Table, scaled 105%. Generational mortality improvements in accordance with Scale BB from the table's base year of 2012.
- Mortality Rates for Active Members - RP-2000 Employee Mortality tables, with male rates multiplied by 60% and female rates multiplied by 50%.

The actuarial assumptions used in the July 01, 2017, valuation were based on the results of an actuarial experience study for the period from Fiscal Year 2010 to Fiscal Year 2014.

The target asset allocation and best estimates of arithmetic expected real rates of return for each major asset class as of June 30, 2017 are summarized in the following table:

Asset Class	Target Asset Allocation	Long-Term Expected Real Rate of Return
Domestic Equity	38.5%	7.5%
International Equity	19.0%	8.5%
Fixed Income	23.5%	2.5%
Real Estate**	9.0%	4.5%
Alternative Assets	10.0%	6.1%
Total	100.00%	

** The Real Estate total expected return is a combination of US Direct Real Estate (unlevered) and US Value added Real Estate (unlevered)

Discount Rate - A single discount rate of 7.5% was used to measure the total pension liability as of June 30, 2017. Based on the stated assumptions and the projection of cash flows, the pension plan’s fiduciary net position and future contributions were projected to be available to finance all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The projection of cash flows used to determine this single discount rate assumed that plan member and employer contributions will be made at the current statutory levels and remain a level percentage of payrolls. The projection of cash flows also assumed that the State’s contribution plus the matching contributions will remain a constant percent of projected member payroll based on the past five years of actual contributions.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate - The following presents the net pension liability of the employers calculated using the discount rate of 7.5%, as well as what the Plan's net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.5%) or 1-percentage-point higher (8.5%) than the current rate:

	1% Decrease (6.5%)	Current Discount Rate (7.5%)	1% Increase (8.5%)
Employers' net pension liability	\$ 152,150,863	\$ 106,571,969	\$ 73,292,689

Pension plan fiduciary net position - Detailed information about the pension plan’s fiduciary net position is available in the separately issued financial report of the OTRS; which can be located at www.ok.gov/OTRS.

Note 6 - Other Post-Employment Benefits (OPEB)

Plan description - The District as the employer, participates in the Supplemental Health Insurance Program—a cost-sharing multiple-employer defined benefit OPEB plan administered by the Oklahoma Teachers Retirement System (OTRS). Title 74 O. S. Sec. 1316.3 defines the health insurance benefits. The authority to establish and amend benefit provisions rests with the State Legislature. OTRS issues a publicly available financial report that can be obtained at www.ok.gov/OTRS.

Benefits provided - OTRS pays a medical insurance supplement to eligible members who elect to continue their employer provided health insurance. The supplement payment is between \$100 and \$105 per month, remitted to the Oklahoma Management Enterprise Services Employees Group Insurance Division, provided the member has ten (10) years of Oklahoma service prior to retirement.

Contributions - Employer and employee contributions are made based upon the TRS Plan provisions contained in Title 70, as amended. However, the statutes do not specify or identify any particular contribution source to pay the health insurance subsidy. Based on the contribution requirements of Title 70 employers and employees contribute a single amount based on a single contribution rate as described in Note 5; from this amount OTRS allocates a portion of the contributions to the supplemental health insurance program. The cost of the supplemental health insurance program averages 1.5% of normal cost, as determined by an actuarial valuation. Contributions allocated to the OPEB plan from the District were \$109,299.

OPEB Liabilities (Assets), OPEB Expense (Benefit), and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB – At June 30, 2018, the District reported an asset of \$717,757 for its proportionate share of the net OPEB asset. The net OPEB asset was measured as of June 30, 2017, and the total OPEB asset used to calculate the net OPEB asset was determined by an actuarial valuation as of June 30, 2017. The District’s proportion of the net OPEB asset was based on the District’s contributions received by the OPEB plan relative to the total contributions received by the OPEB plan for all participating employers as of June 30, 2017. Based upon this information, the District’s proportion was 1.6095% percent.

For the year ended June 30, 2018, the District recognized OPEB benefit of (\$26,620). At June 30, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ 192,653
Net difference between projected and actual earnings on OPEB plan investments	-	393,693
Differences between District contributions and proportionate share of contributions	-	217
District contributions subsequent to the measurement date	109,299	-
Total	\$ 109,299	\$ 586,563

The \$109,299 reported as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability (asset) in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense (benefit) as follows:

Year ended June 30:

2019	\$	(134,140)
2020		(134,140)
2021		(134,140)
2022		(134,140)
2023		(35,717)
Thereafter		(14,286)
Total	<u>\$</u>	<u>(586,563)</u>

Actuarial Assumptions- The total OPEB liability (asset) as of June 30, 2017, was determined based on an actuarial valuation prepared as of June 30, 2017 using the following actuarial assumptions:

- Actuarial Cost Method - Entry Age
- Inflation - 2.50%
- Future Ad Hoc Cost-of-living Increases - None
- Salary Increases - Composed of 3.25% inflation, including 2.50% price inflation, plus a service-related component ranging from 0.00% to 8% based on years of service.
- Investment Rate of Return – 7.50%
- Retirement Age - Experience-based table of rates based on age, service, and gender. Adopted by the Board in May 2015 in conjunction with the five year experience study for the period ending June 30, 2014.
- Mortality Rates after Retirement – Males: RP-2000 Combined Mortality Table for males with White Collar Adjustments. Generational mortality improvements in accordance with Scale BB from table’s base year of 2000. Females: GRS Southwest Region Teacher Mortality Table, scaled at 105%. Generational mortality improvements in accordance with Scale BB from the table’s base year of 2012.
- Mortality Rates for Active Members – RP – 2000 Employer Mortality tables, with male rates multiplied by 60% and female rates multiplied by 50%.
- Health care trend rate – not applicable as the benefit provided is a set dollar amount not impacted by health care costs.

The target asset allocation and best estimates of arithmetic expected real rates of return for each major asset class as of June 30, 2017 are summarized in the following table:

Asset Class	Target Asset Allocation	Long-Term Expected Real Rate of Return
Domestic Equity	38.5%	7.5%
International Equity	19.0%	8.5%
Fixed Income	23.5%	2.5%
Real Estate**	9.0%	4.5%
Alternative Assets	10.0%	6.1%
Total	100.00%	

** The Real Estate total expected return is a combination of US Direct Real Estate (unlevered) and US Value added Real Estate (unlevered)

Discount Rate- A single discount rate of 7.50% was used to measure the total OPEB liability (asset) as of June 30, 2017. This single discount rate was based solely on the expected rate of return on OPEB plan investments of 7.50%. Based on the stated assumptions and the projection of cash flows, the OPEB plan's fiduciary net position and future contributions were projected to be available to finance all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability (asset). The projection of cash flows used to determine this single discount rate assumed that plan member and employer contributions will be made at the current statutory levels and remain a level percentage of payrolls. The projection of cash flows also assumed that the State's contribution plus the matching contributions will remain a constant percent of projected member payroll based on the past five years of actual contributions.

Sensitivity of the Net OPEB Liability (Asset) to Changes in the Discount Rate-The following presents the net OPEB liability (asset) of the employer calculated using the discount rate of 7.5%, as well as what the Plan's net OPEB liability (asset) would be if it were calculated using a discount rate that is 1-percentage point lower (6.5%) or 1-percentage-point higher (8.5%) than the current rate:

	1% Decrease (6.5%)	Current Discount Rate (7.5%)	1% Increase (8.5%)
Employers' net opeb liability (asset)	\$ (30,044)	\$ (717,757)	\$ (1,305,740)

OPEB plan fiduciary net position - Detailed information about the OPEB plan's fiduciary net position is available in the separately issued financial report of the OTRS; which can be located at www.ok.gov/OTRS.

Note 7 - Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions and natural disasters for which the District carries commercial insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

Note 8 - Operating Leases

The District has leases with vendors for the use of copier machines and postal equipment at District locations. The postal equipment lease is renewable at the District's option for one year increments through June 30, 2018. The total lease expense paid by the District for the year ended June 30, 2018 on these leases was approximately \$160,000.

Note 9 - Disaggregation of Payable Balances

Governmental Activities:	Vendors	Salaries and Benefits	Accrued Interest	Total Payables
General and other governmental funds	\$ 1,208,630	\$ 6,747,297	\$ -	\$ 7,955,927
Reconciliation of balances in fund financials to government-wide statements	-	-	970,810	970,810
Total governmental activities	\$ 1,208,630	\$ 6,747,297	\$ 970,810	\$ 8,926,737

Note 10 - Schedule of Transfers

The transfers for the year ended June 30, 2018 are as follows:

Transfer From	Transfer To	Amount	Nature of Transfer
Debt Service Fund	Building Fund	\$ 653,048	Intrafund Transfer
Student Activity Fund	General Fund	2,320	Operating Transfer
	Total Transfers between Funds	\$ 655,368	

Transfers are used for (1) reimbursement of funds collected by one fund that are accounted for in another fund and (2) return of funds in excess of budgetary requirements.

Note 11 - Contingencies and Commitments

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

The District is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, the District believes the resolution of these matters will not have a material adverse effect on the financial condition of the District. Should a judgment be awarded against the District, it would be levied through the District's sinking fund over a three-year period pursuant to state law.

The District has outstanding construction commitments of approximately \$610,000 as of June 30, 2018.

During the year ended June 30, 2018, the District did not reduce insurance coverage from coverage levels in place as of June 30, 2017. No settlements have exceeded coverage levels in place during 2018.

Note 12 - Sublease Agreement

The District entered into a sublease agreement in 2014 with the Cleveland County Education Facilities Authority (the Authority) in which the Authority advanced \$91,850,000 in educational facilities lease revenue bonds, Series 2014 (lease revenue bonds), to the District for the acquisition and construction of buildings, improvements, and furniture and equipment.

The following schedule presents the payment activity of the lease revenue bonds per the agreement:

Date	Principal Payments	Coupon Rate	Interest Payments	Total Payments
7/1/2018	\$ 23,185,000	5.00%	\$ 2,176,375	\$ 25,361,375
7/1/2019	31,935,000	5.00%	798,375	32,733,375
	<u>\$ 55,120,000</u>		<u>\$ 2,974,750</u>	<u>\$ 58,094,750</u>

The trustee bank holds the cash and makes payments after authorization from the District.

The District will use future general obligation bonds for repayment of the lease revenue bonds to the Authority, estimated as follows:

<u>Date</u>	<u>Estimated General Obligation Bonds to be Issued</u>
7/1/2018	\$ 25,480,000
7/1/2019	<u>32,820,000</u>
	<u>\$ 58,300,000</u>

Annual fees, which vary annually by approximately \$31,000 to \$97,000, will be an estimated total of \$120,000.

Upon payment of the lease purchase acquisition payments, legal title will go to the District for all construction, acquisition and renovations completed with the revenue lease bonds. The estimated capitalizable sublease activity of \$77,904,411 has been included on the statement of net position as capital assets and a long-term lease. Capitalized interest relating to construction projects is also included with capital assets as such interest is incurred.

Lease bond revenue projects in process at June 30, 2018 totaled approximately \$13 million.

Budgeting – Oklahoma statutes required that the District Board of Education approve a budget within thirty days of the beginning of each fiscal year. The school district’s budget is to contain a budget summary accompanied by a minimum of the following for each fund in tabular form:

1. Actual revenues and expenditures for the immediate prior fiscal year.
2. Revenues and expenditures for the current fiscal year as shown by the budget as amended.
3. Estimated revenues and expenditures for the budget year.

A public hearing on the proposed budget must be held within forty-five days preceding the beginning of the budgetary year.

The District shall amend the original budget after June 30 of each year after the June financial activity has been recorded, the annual Foundation and Salary Incentive Aid allocation has been released, and the property tax valuations have been certified for all affected counties with the District.

District's covered payroll	\$ 66,718,456	\$ 64,343,044	\$ 64,127,709	\$ 61,128,259
District's proportionate share of the net pension liability as a percentage of its covered payroll	160%	203%	147%	135%
Plan fiduciary net position as a percentage of the total pension	69.32%	62.24%	70.31%	72.43%

Notes to Schedule:

Only four fiscal years are presented because 10-year data is not yet available.

The amounts present for each fiscal year were determined as of 6/30

The Plan's net pension liability increased between 2015 and 2016 due to changes in assumptions adopted by the System's Board. The most notable change was the lowering of the System's discount rate from 8.0% to 7.5%.

Norman Independent School District No. 29
Cleveland County, Oklahoma
Schedule of District's Contributions to Oklahoma Teachers Retirement System
Year Ended June 30, 2018

	<u>2018</u>	<u>*2017</u>	<u>2016</u>	<u>2015</u>
Contractually required contribution	\$ 6,586,047	\$ 6,586,047	\$ 6,660,331	\$ 6,468,241
Contributions in relation to the contractually required contribution	<u>6,586,047</u>	<u>6,586,047</u>	<u>6,660,331</u>	<u>6,468,241</u>
Contribution deficiency (excess)	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>
District's covered payroll	\$ 70,488,085	\$ 66,718,456	\$ 64,343,044	\$ 64,127,709
Contributions as a percentage of covered payroll	9.34%	9.87%	10.35%	10.09%

Notes to Schedule:

Only four fiscal years are presented because 10-year data is not yet available.

*Amount of contributions reduced by \$74,284 due to implementation of GASB Statement No. 75. Amounts prior to 2017 have not been determined.

Norman Independent School District No. 29
 Cleveland County, Oklahoma

Note A – Basis of Presentation

The accompanying schedule of expenditures of federal awards includes the federal grant activity of the Norman Independent School District No. 29 (the District), and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of the Uniform Guidance. The District received federal awards both directly from federal agencies and indirectly through pass-through entities. No federal financial assistance has been provided to a subrecipient.

Note B – Significant Accounting Policies

Governmental fund types account for the District's federal grant activity. Therefore, expenditures in the schedule of expenditures of federal awards are recognized on the modified accrual basis – when they become a demand on current available financial resources. The District's summary of significant accounting policies is presented in Note 1 in the District's basic financial statements.

The District has not elected to use the 10% de minimis cost rate.

Note C — Food Donation

Nonmonetary assistance is reported in the Schedule at the fair market value of the commodities received and disbursed. At June 30, 2018, the District had food commodities totaling \$151,551 in inventory.

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

To the Board of Education
Norman Independent School District No. 29
Norman, Oklahoma

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Norman Independent School District No. 29 (the District) as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise Norman Independent School District No. 29's basic financial statements, and have issued our report thereon dated January 11, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

A handwritten signature in cursive script that reads "Eide Bailly LLP".

Independent Auditor’s Report on Compliance for Each Major Federal Program and Report on Internal Control Over Compliance Required by the Uniform Guidance

To the Board of Education
Norman Independent School District No. 29
Norman, Oklahoma:

Report on Compliance for Each Major Federal Program

We have audited Norman Independent School District No. 29’s compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Norman Independent School District No. 29’s major federal programs for the year ended June 30, 2018. Norman Independent School District No. 29’s major federal programs are identified in the summary of auditor’s results section of the accompanying schedule of findings and questioned costs.

Management’s Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor’s Responsibility

Our responsibility is to express an opinion on the compliance for each of Norman Independent School District No. 29’s major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Norman Independent School District No. 29’s compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Norman Independent School District No. 29’s compliance.

Opinion on Each Major Federal Program

In our opinion, Norman Independent School District No. 29 complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect of each of its major Federal programs for the year ended June 30, 2018.

What inspires you, inspires us. | eidebailly.com

Report on Internal Control over Compliance

Management of Norman Independent School District No. 29 is responsible for establishing and maintaining effective internal control over compliance with the compliance requirements referred to above. In planning and performing our audit of compliance, we considered Norman Independent School District No. 29's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Norman Independent School District No. 29's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a compliance requirement will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
