INDEPENDENT AUDITOR'S REPORT

The Board of Education
Great Plains Technology Center No. 9
Lawton, Oklahoma

Report on the Financial Statements

I have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Great Plains Technology Center No. 9, Comanche County, Oklahoma, as of and for the year ended June 30, 2021, which collectively comprise the basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinion

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Great Plains Technology Center as of June 30, 2021, and the respective changes in its financial position and, where applicable, cash flows for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Auditing Standards Board who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

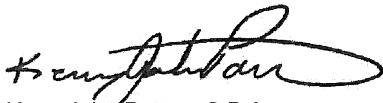

Other Supplementary Information

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basis financial statements. The Schedule of Expenditures of Federal Awards is presented for additional analysis as required by U.S. Office of Management and Uniform Guidance, *Audits of States, Local Governments, and Nonprofit Organizations* and is not a required part of the basic financial statements.

The Schedule of Expenditures of Federal Awards is the responsibility of management and was derived from and relates directly to the underlying accounting records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial and other additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the supplementary information including the Schedule of Expenditures of Federal Awards is fairly stated in all material respects in relation to the financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, I have also issued my report dated February 28, 2022, on my consideration of Great Plains Technology Center No. 9, Comanche County, Oklahoma's, internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of my audit.

Kerry John Patten, C.P.A.
Broken Arrow, OK

MANAGEMENT DISCUSSION AND ANALYSIS

Great Plains Technology Center
Management Discussion and Analysis (Unaudited)
Year Ended June 30, 2021

This section of Great Plains Technology Center's (the Center) financial statements presents management's discussion and analysis of the Center's financial performance during the year ended June 30, 2021. Since this management's discussion and analysis is designed to focus on current activities, resulting change, and current known facts, it should be read in conjunction with the Center's basic financial statements and footnotes. The overview of the financial statements and financial analysis is presented for fiscal year 2021.

Financial Analysis of the Center as a Whole

The basic financial statements of the Center are the government-wide financial statements; fund financial statements; and the notes to the financial statements. The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the Center.

Governmental-wide Financial Statements

The governmental-wide financial statements are designed to provide end users with a broad overview of the Center's financials, which can be comparable to private sector financial statements.

Statement of Net Position

The statement of net position is presented in categories, namely assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position. The assets are classified between current and non-current assets. Current assets include cash and cash equivalents, short-term investments, accounts receivable, and other assets. Non-current assets include capital assets and an OPEB asset. Capital assets include land, buildings and improvements, infrastructure, equipment, and construction in progress. Capital assets, with the exception of land and construction in progress, are shown net of depreciation.

Deferred outflows of resources are consumptions of net assets that are applicable to a future period. It includes costs associated with pensions. Deferred inflows of resources are acquisitions of net assets that are applicable to a future period. It includes credits associated with pensions.

Liabilities are also classified between current and noncurrent. Current liabilities include accounts payable, accrued expenses, unearned revenue, and the portion of noncurrent liabilities expected to be paid in the upcoming fiscal year. These liabilities represent obligations due within one year. Non-current liabilities include the portion of accrued compensated absences and net pension obligation expected to be paid in fiscal year 2023 or thereafter.

Changes in net position	\$ 3,111,319
Net position - beginning, as restated	\$ 15,756,786
Net position-ending	\$ 18,868,105

Both of the government-wide financial statements distinguish functions of the Center that are principally supported by taxes and intergovernmental revenues from other functions that are intended to recover all or a significant portion of their costs through user fees and charges. The governmental activities of the Center include vocational and technical education focusing on career development and administration.

Fund Financial Statements

The fund financial statements present activities in each fund as a separate column. Governmental funds are used to account for all or most of the government's general activities. The measurement focus of governmental funds is on the sources uses and balance of current financial resources. The Center has presented the following governmental funds: general fund, special revenue fund (building), and fiduciary funds (activity). The general fund is used to account for all financial transactions except

Great Plains Technology Center
Management Discussion and Analysis (Unaudited)
Year Ended June 30, 2021

Fund Financial Statements (Cont.)

those required to be accounted for in another fund. Major revenue sources include local property taxes and state funding under the State Career Technology Formula Operations Allocation Program. Expenditures include all costs associated with the daily operations of the center except for programs funded for building repairs and maintenance, and school construction funded through the Special Revenue Fund.

The special revenue fund is the Center's building fund. It is a special revenue fund and consists of monies derived from property taxes levied for the purpose of creating, remodeling, or repairing buildings and for purchasing furniture and equipment.

Fiduciary funds are used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the Center. When these assets are held under the terms of a formula trust agreement, either a private purchase trust fund or a permanent fund is used. The Center's fiduciary funds have been excluded from the government-wide financial statements.

As of the close of fiscal year 2021, the Center reported the following fund balances:

- General Fund- \$8,518,840
- Building Fund- \$7,453,922
- Activity Fund- \$151,759

Governmental Funds
Notes to the Financial Statements

The notes to the financial statements provide additional information that is essential to the full understanding of the data provided in the government-wide and fund financial statements. Required supplementary information is also reported after the notes to the financial statements.

Economic Outlook

The Oklahoma economy rebounded toward the end of fiscal year 2021 resulting in a slight increase in the state appropriation for the Center for fiscal year 2022. With the uncertainty of how the coronavirus will continue to affect the Center's operations and future enrollment, management continues to look for cost-saving measures and is monitoring expenditures to ensure resources are used in the most effective and efficient manner. The Center remains fully committed to increasing and improving student success and student learning inside the classroom while continuing to be an engaged partner with higher education, business industry, civic, and governmental organizations.

Contacting the Center's Financial Management

This financial report is designed to provide community members, taxpayers, customers, students, and others with a general overview of the Center's finances. It also documents accountability for money received. If you have questions about this report or need additional financial information, contact the Director of Finance at the Center via phone at 580-250-5676 or via email at lbillen@greatplains.edu.

GREAT PLAINS TECHNOLOGY CENTER NO. 9
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES
IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2021

Net change in fund balances-governmental funds \$ 3,666,825

Amounts reported for governmental activities in the statement of revenues, expenditures, and changes in net assets are different because:

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities those costs are shown in the statement of Net Position as noncurrent assets and allocated over their estimated useful lives as annual depreciation expenses in the statement of activities. This is the amount by which depreciation exceeds capital outlays in the period.

Capital outlay expenditures	\$ 942,566	
Loss on fixed asset disposal	3,553	
Depreciation expense	<u>(1,163,427)</u>	(217,308)

Property taxes receivable will be collected this year, but are not available soon enough to pay current period's expenditures, therefore they are deferred in the funds. This is the amount of change in the deferred taxes. 443,556

Some expenses (compensated absences) reported in the Statement of Activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds. This is the amount of change in compensated absences. (250,238)

Governmental funds report district pension contributions as expenditure. However, the Statement of Activities reports the cost of pension benefits earned net of employee contributions as pension expense. (531,516)

Change in net position of governmental activities \$ 3,111,319

The notes to the financial statement are an integral part of this statement.

NOTES TO THE FINANCIAL STATEMENTS

**GREAT PLAINS TECHNOLOGY CENTER NO. 9
COMANCHE COUNTY, OKLAHOMA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2021**

1. Summary of Significant Accounting Policies

The financial statements of the Great Plains Technology Center No. 9 (the "Center") have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP") as applied to government units. The governmental Accounting Standards Board ("GASB") is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Center's accounting policies are described below.

A. Reporting Entity

In accordance with the Governmental Accounting Standards Board Statement No. 14, "The Financial Reporting Entity," the Center has presented the entities, which comprise the primary government in the fiscal year 2021 basic financial statements.

The Center is a corporate body for public purposes created under Title 70 of the Oklahoma Statutes and, accordingly, is a separate entity for operating and financial reporting purposes. The Center is part of the public school system of Oklahoma under the general direction and control of the Oklahoma State Board of Career and Technology Education and is financially dependent on the State of Oklahoma for support. The general operating authority for the public school system is the Oklahoma School Code contained in Title 70, Oklahoma Statutes.

The governing body of the Center is the Board of Education composed of five elected members. The appointed superintendent is the executive officer of the Center.

As required by accounting principles generally accepted in the United States of America, the basic financial statements present the reporting entity which consists of the primary government, organizations for which the primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion could cause the Center's basic financial statements to be misleading or incomplete.

B. Basis of Presentation

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the Center. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities are normally supported by taxes and intergovernmental revenues.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include: 1) tuition or fees paid by students or citizens of the Center and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items, including state aid, that are not properly included among program revenues are reported as general revenues.

Separate financial statements are provided for governmental funds, and fiduciary funds.

Fund Financial Statements

The Technology Center segregates transactions related to certain functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Statements for governmental activities present each fund as a separate column on the fund financial statements.

Governmental funds are used to account for all or most of a government's general activities. The measurement focus of governmental funds is on the sources uses and balance of current financial resources. The Center has presented the following governmental funds:

**GREAT PLAINS TECHNOLOGY CENTER NO. 9
COMANCHE COUNTY, OKLAHOMA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2021**

Summary of Significant Accounting Policies (continued)

General Fund – The General Fund is used to account for all financial transactions except those required to be accounted for in another fund. Major revenue sources include local property taxes and state funding under the State Career Technology Formula Operations Allocation Program.

Expenditures include all costs associated with the daily operations of the center except for programs funded for building repairs and maintenance, and school construction funded through the Special Revenue Fund.

Special Revenue Fund – The Center's Building Fund is a Special Revenue Fund and consists of monies derived from property taxes levied for the purpose of creating, remodeling or repairing buildings and for purchasing furniture and equipment.

Fiduciary Fund Types

Fiduciary funds are used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the Center. When these assets are held under the terms of a formula trust agreement, either a private purpose trust fund or a permanent fund is used.

Private- Purpose Trust Funds – Private-Purpose Trust Funds are used to report trust arrangements under which principal and income benefit individuals, private organizations, or other governments.

The Center's Fiduciary Funds have been excluded from the government-wide financial statements.

Account Groups

GASB Statement No. 94 eliminates the presentation of account groups, but provides for these records to be maintained and incorporates the information into the governmental column in the government-wide statement of net position.

C. Basis of Accounting

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

Property taxes and interest and certain state and federal grants associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

Summary of Significant Accounting Policies (continued)

D. Budgets and Budgetary Accounting

A budget is legally adopted by the Board of Education for the General Fund and Special Revenue Fund that includes revenues and expenditures.

These budgets are prepared on a budgetary basis of accounting. Budgetary control is maintained by fund, function, and activity and budgeted expenditures may not exceed appropriations at the fund level. Amendments may be made to the budget without approval by the governing body at the function and activity levels. Fund level budgetary amendments require approval of the governing body.

Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrance accounting – under which purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable fund balance – is utilized in all governmental funds of the Center. Appropriations which are not spent lapse at the end of the fiscal year and encumbrances are reversed. On the first day of the following fiscal year, the encumbrances are reinstated and the expenditures are applied against that year's budget.

E. Net Position and Fund Balances

The government-wide financial statements utilize a net position presentation. Net position is categories of investment in fixed assets (net of related debt), restricted net position and unrestricted net position.

Net Investment in Capital Assets – is intended to reflect the portion of net position, which is associated with non-liquid capital related debt. The net related debt is debt less the outstanding liquid assets and any associated unamortized cost.

Restricted Net Position – are liquid assets generated from revenues and not bond proceeds, which have third party (statutory bond covenant or granting agency) limitations on their use. The Center would typically use restricted net assets first, as appropriate opportunities arise, but reserve the right to selectively defer the use thereof to a future project or replacement equipment acquisition.

Unrestricted Net Position – represent unrestricted liquid assets.

Governmental Fund Financial Statements – The Center has adopted Governmental Accounting Standards Board Statement No. 54, which redefined how fund balances of the governmental funds are presented in the financial statements. The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the Center is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications available in the governmental fund financial statements are as follows:

Nonspendable – Amounts that are not in a spendable form such as prepaid expenses, inventory, or required to be maintained intact such as the corpus of permanent fund.

Restricted – Amounts that are designated for specific purposes by their providers such as bondholders, grantors, or imposed by law through constitutional provisions or enabling legislation. The Building Fund is restricted by statute to certain capital related costs.

Committed – Amounts designated for specific purposes by the Center's highest level of decision making authority (Board of Education) and cannot be used for any other purposes unless the same highest level (Board of Education) takes action to remove or change the designation.

The Center commits a portion of the fund balance to honor the commitments made by the Center for encumbrances (purchase orders) for which goods or services have not yet been received. The fund balance committed to encumbrances will be equivalent to the purchase orders rolled forward from one fiscal year to the next fiscal year

**GREAT PLAINS TECHNOLOGY CENTER NO. 9
COMANCHE COUNTY, OKLAHOMA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2021**

Summary of Significant Accounting Policies (continued)

Assigned – Amount the Center intends to use for specific purposes; intent can be expressed by the governing body or by an official to which the governing body delegates the authority.

The Center assigns a portion of the fund balance in the general fund for funding the cash flow needs during the first half of each fiscal year. The superintendent and the chief financial officer will determine the amount of assigned fund balance at the end of each fiscal year.

Unassigned – Amounts that are available for any purposes; reported only in the general fund. Fund Balance represents the funds not restricted in use by statute nor encumbered by purchase order or legal contract.

F. Assets, Liabilities and Cash Fund Balances

Cash and Investments – The Center considers all cash on hand, demand deposits and investments to be cash and investments. Investments consist of direct obligations of the United States Government and Agencies. All investments are recorded at cost, which approximates market value.

Property Tax Revenue and Receivables – The Center is authorized by state law to levy property taxes which consist of ad valorem taxes on real and personal property within the Center. The County Assessor, upon receipt of the certification of tax levies from the county excise board, extends the tax levies on the tax roll for submission to the county treasurer prior to October 1. The county treasurer must commence tax collection within fifteen days of receipt of the tax rolls. The first half of taxes is due prior to January 1. The second half is due prior to April 1.

If the first payment is not made timely, the entire tax becomes due and payable on January 2. The second half of taxes becomes delinquent on April 1 of the year following the year of assessment. If taxes are delinquent and unpaid for a period of three years or more, the real estate may be sold for such taxes.

Uncollected taxes assessed on valuations made each year are recorded in the Center's combined financial statements. Uncollectible personal and real property taxes are deemed to be immaterial because the property can be sold for the amount of taxes due.

Inventories – The cost of consumable materials and supplies on hand are immaterial to the financial statements, and the Technology Center has therefore chosen to report these items as expenditures/expenses at the time of purchase.

Capital Assets – Capital assets, which include property, plant and equipment, are reported in the government-wide financial statements.

All purchased capital assets are valued at cost when historical records exist and at an estimated historical cost where no historical records exist. Donated capital assets are valued at their fair market value on the date donated.

The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related fixed assets, as applicable.

Assets capitalized have an original cost of \$2,500 or more. Depreciation has been calculated using the straight-line method. Estimated useful lives are as follows:

Buildings and structures	15-40 years
Equipment	5-15 years
Vehicles	5-10 years

**GREAT PLAINS TECHNOLOGY CENTER NO. 9
COMANCHE COUNTY, OKLAHOMA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2021**

Summary of Significant Accounting Policies (continued)

Compensated Absences – The Center's policy regarding vacation time permits employees to accumulate earned, but unused vacation leave. Unused vacation leave may be carried over at the end of a fiscal year, but not to exceed 200 hours. Upon separation of employment, an employee can be paid up to 120 unused hours of accumulated vacation days at the employees' current daily rate of pay. The liability for these compensated absences is recorded as debt in the government wide financial statements. The current portion of this debt is based on historical trends. In the fund financial statements, governmental funds report only the compensated absence liability payable from expendable available financial resources.

G. Revenue, Expenses and Expenditures

Revenues are classified by source as follows:

Local – Revenue from local sources is revenue produced within the Center, which includes ad valorem taxes. It is available for current educational expenses and for other purposes authorized by the Technology Center.

Intermediate – Revenue from intermediate sources is revenue from funds collected by an intermediate administrative unit or political sub-division, like a county or municipality, and redistributed to the Technology Center.

State – Those revenues received from the State, which are dedicated or are appropriated by the State legislature. Some of this aid is restricted for specific purposes.

The Center receives revenue from the State to administer certain categorical educational programs. State Board of Education rules require that revenue earmarked for these programs be expended only for the program for which the money is provided and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same categorical programs. The State Department of Career & Technology Education requires that categorical educational program revenues be accounted for in the general fund.

Federal – Revenue from Federal sources is money originating from the Federal government and made available to the Technology Center either as direct grants or under various programs passed-through the State Department of Career & Technology Education.

Expenditures are classified by function as follows:

Instruction Expenditures – Instruction expenditures include the activities dealing directly with the interaction between teachers and students. Teaching may be provided for students in a school classroom, in another location, such as a home or hospital, and in other learning situations, such as those involving co curricular activities. It may also be provided through some other approved medium, such as television, radio, telephone and correspondence.

Support Services Expenditures – Support services expenditures provide administrative, technical (such as guidance and health) and logistical support to facilitate and enhance instruction. These services exist as adjuncts for fulfilling the objective of instruction, community services and enterprise programs, rather than as entitles within them.

Operation of Non-Instructional Services Expenditures – Activities concerned with providing non-instructional services to students, staff, and the community.

Facilities Acquisition and Construction Services Expenditures – Consist of activities involved with the acquisition of land and buildings; remodeling buildings; the construction of buildings and additions to buildings; initial installation or extension of service systems and other built-in equipment; and improvement to sites.

**GREAT PLAINS TECHNOLOGY CENTER NO. 9
COMANCHE COUNTY, OKLAHOMA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2021**

Summary of Significant Accounting Policies (continued)

Other Outlays Expenditures – A number of outlays of governmental funds are not properly classified as expenditures, but still require budgetary or accounting control. These are classified as Other Outlays. These include debt service payments (principal and interest).

Other Uses Expenditures – This includes scholarships provided by private gifts and endowments; student aid and staff awards supported by outside revenue sources (i.e., foundations). Also, expenditures for self-funded employee benefit programs administered either by the Center or a third party administrator.

Repayment Expenditures – Repayment expenditures represent checks/warrants issued to outside agencies for refund or restricted revenue previously received for overpayments, non-qualified expenditures, and other refunds to be repaid from Center funds.

Deferred outflows of resources: Deferred outflows are the consumption of net position by the center that are applicable to a future reporting period. At June 30, 2021, the center's deferred outflows of resources were comprised of deferred outflows related to pensions.

Deferred inflows of resources: Deferred inflows are the acquisition of net position by the center that are applicable to a future reporting period. At June 30, 2021, the center deferred inflows of resources were comprised of deferred inflows to pensions.

2. Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

3. Deposit Categories of Credit Risk

Collateral is required for demand deposits and certificates of deposit for all amounts not covered by federal deposit insurance. The Center's investment policies are governed by state statute. Permissible investments include:

1. Direct obligations of the United States Government to the payment of which the full faith and credit of the government is pledged.
2. Obligations to the payment of which the full faith and credit of the state is pledged.
3. Certificates of deposits of banks when such certificates of deposits are secured by acceptable collateral as in the deposit of other public monies.
4. Savings accounts or savings certificates of savings and loan associations to the extent that such accounts or certificates are fully insured by the Federal Savings and Loan Insurance Corporation.
5. Repurchase agreements that have underlying collateral consisting of those items specified in paragraphs 1 and 2 of this section including obligations of the United States, its agencies and instrumentalities, and where collateral has been deposited with a trustee of custodian bank in an irrevocable trust or escrow account established for such purposes.

**GREAT PLAINS TECHNOLOGY CENTER NO. 9
COMANCHE COUNTY, OKLAHOMA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2021**

Deposit Categories of Credit Risk (continued)

6. County, municipal or technology center direct debt obligations for which an ad valorem tax may be levied or bond and revenue anticipation notes, money judgments against such county, municipality or school district ordered by a court of record or bonds or bond and revenue anticipation notes issued by a public trust for which such county, municipality or school district is a beneficiary thereof. All collateral pledged to secure public funds shall be valued at no more than market value.
7. Money market mutual funds regulated by the Securities and Exchange Commission and which investments consist of obligations of the United States, its agencies and instrumentalities, and investments in those items listed above.
8. Warrants, bonds or judgments of the school district.
9. Qualified pooled investment programs, the investments of which consist of those items specified above, as well as obligations of the United States agencies and instrumentalities, regardless of the size of the district's budget. To be qualified, a pooled investment program for school funds must be governed through an Interlocal cooperative agreement formed pursuant to Title 70 Section 5-117b, and the program must competitively select its investment advisors and other professionals. Any pooled investment program must be approved by the Board of Education.
10. Investment programs administer by the State Treasurer
11. Any other investment that is authorized by laws.

Custodial Credit Risk:

Deposits and Investments - The Center's demand deposits totaling \$1,427,589 at June 30, 2021, are required by law to be collateralized by the amount that is not federally insured. The Center has a written investment policy, which permits investments as authorized by State Statute.

Certificates of deposit totaling \$14,500,000 at June 30, 2021, are collateralized at least by the amount not federally insured. As of June 30, 2021, the Center had no deposits exposed to custodial credit risk.

Interest Rate Risk:

Investments are made based upon prevailing market conditions at the time of the transaction with the intent to hold the instrument until maturity. However, the Center has no formal written policy addressing interest rate risk.

Credit Risk:

The Center has no formal written policy addressing credit risk.

**GREAT PLAINS TECHNOLOGY CENTER NO. 9
COMANCHE COUNTY, OKLAHOMA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2021**

4. Accounts Receivable

Receivables consist of all revenues earned at year end and not yet received. Ad valorem tax collectable but not available, are deferred in the fund financial statements in accordance with the modified accrual basis of accounting, but included in the government-wide financial statements in accordance with the accrual basis of accounting. The technology center had the following receivables at June 30, 2021:

	General Fund	Building Fund	Total
Ad Valorem Tax	\$ 374,599	200,402	\$ 575,001
Interest	2,023	1,425	3,448
Due from Other Governments	57,800	-	57,800
Miscellaneous	199,638	9,998	209,636
Total – Accrual Basis	<u>634,060</u>	<u>211,825</u>	<u>845,885</u>

**GREAT PLAINS TECHNOLOGY CENTER NO. 9
COMANCHE COUNTY, OKLAHOMA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2021**

6. Interfund Transactions

Interfund transactions are accounted for as revenues, expenditures, or expenses. Transactions that constitute reimbursements to a fund, or expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the fund that is reimbursed. Nonrecurring or nonroutine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers.

7. Employee Retirement System

Description of Plan

The **Center** participates in the state-administrated Teacher's Retirement System of Oklahoma (the "system"), which is a cost-sharing multiple-employer public employee retirement system. The supervising authority for the management and operation of the System is a 13-member Board of Trustees, which acts as a fiduciary for investment of the funds and the application of plan interpretations. The System provides retirement and disability benefits, annual cost of living adjustments, death benefits and other benefits to plan members and beneficiaries. Oklahoma State Statutes establish benefit provisions and may be amended only through legislative action. The Center has no responsibility or authority for the operation and administration of the system nor has it any liability, except for contribution requirements. The Oklahoma Teachers' Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for the System. The report may be obtained by writing to the Oklahoma Teachers' Retirement System, P.O. Box 53624, Oklahoma City, Oklahoma 73152.

Basis of Accounting

The System has prepared its financial statements in accordance with accounting principles generally accepted in the United State of America and using the economic resources measurement focus. The financial statements are prepared using the accrual basis of accounting, under which expenses are recorded when the liability is incurred, revenues are recorded in the accounting period they are earned and become measurable, and investment purchase and sales are recorded as of their trade dates. Member and employer contributions are established by Oklahoma Statutes as percentage of salaries and are recognized when due, pursuant to legal requirements. Benefits and refunds are recognized when due and payable in accordance with the terms of the Oklahoma Statutes. Administrative expenses are funded through investment earnings.

Funding Policy

The District, the State of Oklahoma, and the participating employee make contributions. The contribution rates for the District and its employees are established by and may be amended by Oklahoma Statutes. The rates are applied to the employee's earnings plus employer-paid fringe benefits. The required contribution for the participating members is 7.0% of compensation. The contribution rate for employers is 9.5%. The State of Oklahoma contributes a percentage of its revenues from sales taxes, use taxes, corporate income taxes, individual income taxes, and lottery proceeds to the System. This percentage has been 5.00% since FY 2008. HB 2741 passed during the 2020 legislative session which temporarily reduced the rate to 3.50% for FY 2021. HB 2894 passed during the 2021 legislative session which restored the rate to 5.00% for FY 2022 and then changed the rate to 5.25% for FY 2023 through FY 2027. The rate is scheduled to return back to 5.00% beginning in FY 2028. The lottery proceeds contributed to the System were not impacted by this legislation. The matching contribution rate for FY 2021 is 7.7% of applicable payroll. The District is allowed by the Oklahoma Teacher's Retirement System to make the required contributions on behalf of participating members. The school is required to pay 16.5% for any compensated retired teachers already receiving retirement benefits.

Annual Pension Cost

The Center's total contributions for 2021, 2020, and 2019, were \$1,006,108, \$985,090, and \$969,800, respectively. The Center's total payroll for fiscal year 2020-21 amounted to \$10,166,706.

**GREAT PLAINS TECHNOLOGY CENTER NO. 9
COMANCHE COUNTY, OKLAHOMA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2021**

Employee Retirement System (continued)

On Behalf Contributions

The State of Oklahoma makes retirement contributions each year for teachers employed by Oklahoma School Districts. The contribution amounts are based on the teacher's years of service and amounts paid are prescribed by O.S. 70 Section 17-108.2 subsection A. During fiscal year 2020-21, the State of Oklahoma's contribution was \$87,253. The Center recognized revenue and expenditures of this amount during the year.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2021, the Center reported a liability of \$20,218,370 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2020. The center's proportion of the net pension liability was based on the Center's contributions received by the pension plan relative to the total contributions received by pension plan for all participating employers as of June 30, 2021. Based upon this information, the center's proportion was .20421431 percent.

For the year ended June 30, 2021, the Center recognized pension expense of \$531,512. At June 30, 2021, the Center reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 984,269	342,436
Changes of assumptions	2,479,529	292,106
Net difference between projected and actual earnings on pension plan investments	1,742,831	-
Differences in center's proportionate share of contributions and changes in proportion	-	319,042
System contributions during measurement date	-	16,156
Center contributions subsequent to the measurement date	1,006,108	-
Total	\$ <u>6,212,737</u>	<u>969,740</u>

**GREAT PLAINS TECHNOLOGY CENTER NO. 9
COMANCHE COUNTY, OKLAHOMA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2021**

Employee Retirement System (continued)

Deferred outflows of resources and deferred inflows of resources will be recognized in pension expense as follows:

Year ended,		
2021	\$	675,030
2022		964,011
2023		1,327,011
2024		1,095,726
2025		<u>175,111</u>
	\$	<u><u>4,236,889</u></u>

Actuarial assumptions: The total pension liability as of June 30, 2021, was determined based on an actuarial valuation prepared as of June 30, 2020 using the following actuarial assumptions:

- Actuarial Cost method-Entry Age Normal
- Amortization Method-Level Percentage of Payroll
- Amortization Period-Amortization over an open 30-year period
- Asset Valuation Method-5-year smooth market
- Inflation – 2.50 percent
- Salary Increases-Composed of 3.00 percent wage inflation, plus .75 percent productivity increase rate, plus step-rate promotional increase for members with less than 25 years of service.
- Investment Rate of Return-7.50 percent, net of expenses and compounded annually.
- Retirement Age-Experience-based table of rates based on age, service, and gender. Adopted by the Board in May 2015 in conjunction with the five-year experience study for the period ending June 30, 2014
- Payroll Growth Rate-2.75 percent per year. This increase rate has no allowance for the future membership growth.

**GREAT PLAINS TECHNOLOGY CENTER NO. 9
COMANCHE COUNTY, OKLAHOMA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2021**

Employee Retirement System (continued)

The target asset allocation and best estimate of arithmetic expected real rates of return for each major asset class as of June 30, 2018, are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic Equity	38.5%	7.5%
International Equity	19.0%	8.5%
Fixed Income	23.5%	2.5%
Real Estate*	9.0%	4.5%
Alternative Assets	10.0%	6.1%
Total	<u>100.00%</u>	

*The Domestic All Cap Equity total expected return is a combination of 3 rates – US Large cap, US Mid Cap and US Small Cap.

**The Real Estate total expected return is a combination of US Direct Real Estate (unlevered) and US Value added Real Estate (unlevered).

Discount rate – A single discount rate of 7.50% was used to measure the total pension liability as of June 30, 2021. This single discount rate was based solely on the expected rate of return on pension plan investments of 7.50%. Based on the stated assumptions and the projection of cash flows, the pension plan's fiduciary net position and future contributions were projected to be available to finance all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine total pension liability.

Sensitivity of the Center's proportionate share of the net pension liability to changes in the discount rate

The following presents the Center's proportionate share of the net pension liability calculated using the discount rate of 7.50%, as well as what the Center's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.50%) or 1-percentage point higher (8.50%) than the current rate:

	1% Decrease <u>(6.50%)</u>	Current Discount Rate <u>(7.50%)</u>	1% Increase <u>(8.50%)</u>
Center's proportionate share of the net pension liability	<u>26,984,657</u>	<u>20,218,370</u>	<u>14,616,937</u>

Pension plan fiduciary net position – Detailed information about the pension plan's fiduciary net position is available in the separately issued TRS financial report that can be obtained at <http://www.ok.gov/trs/> or by writing to the Oklahoma Teachers Retirement System, P.O. Box 53624, Oklahoma City, Oklahoma 73152 or by calling 405-521-2387.

**GREAT PLAINS TECHNOLOGY CENTER NO. 9
COMANCHE COUNTY, OKLAHOMA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2021**

8. OTHER POST-EMPLOYMENT BENEFITS (OPEB)

Plan Description – The Center as the employer, participates in the Supplemental Health Insurance Program – a cost sharing multiple-employer defined benefit OPEB plan administered by the Oklahoma Teachers Retirement System (OTRS). Title 74 O. S. Sec. 1316.3 defines the health insurance benefits. The authority to establish and amend benefit provisions rests with the State Legislature. OTRS issues a publicly available financial report that can be obtained at www.ok.gov/TRS

Benefits Provided – OTRS pays a medical insurance supplement to eligible members who elect to continue their employer provided health insurance. The supplement payment is between \$100 and \$105 per month, remitted to the Oklahoma Management Enterprise Services Employees Group Insurance Division, provided the member has ten (10) years of Oklahoma service prior to retirement.

Contributions – Employer and employee contributions are made based upon the TRS Plan provisions contained in Title 70, as amended. However the statutes do not specify or identify any particular contribution source to pay the health insurance subsidy. Based on the contribution requirements of Title 70 employers and employees contribute a single amount based on a single contribution rate as described in Note 7; from this amount OTRS allocates a portion of the contributions to the supplemental health insurance program. The cost of the supplemental health insurance program averages 1.5% of normal cost, as determined by an actuarial valuation. Contributions allocated to the OPEB plan from the Center were \$1,949.

OPEB Liabilities (Assets), OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB – At June 30, 2021, the Center reported an asset of \$21,106 for its proportionate share of the new OPEB asset. The net OPEB asset was measured as of June 30, 2020, and the total OPEB asset used to calculate the net OPEB asset was determined by an actuarial valuation as of June 30, 2020. The Center's proportion of the net OPEB asset was based on the Center's contributions received by the OPEB plan relative to the total contributions received by the OPEB plan for all participating employers as of June 30, 2020. Based upon this information, the Center's proportion was 0.21304398% percent.

For the year ended June 30, 2021, the District recognized OPEB expense of \$1,112. At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ -	\$ 46,366
Net difference between projected and actual earnings on OPEB plan investments	45,665	-
Changes in Proportion	1,254	-
Contributions during measurement date	3,094	30
District contributions subsequent to the measurement date	1,891	
Total	<u>\$ 98,001</u>	<u>\$ 46,396</u>

**GREAT PLAINS TECHNOLOGY CENTER NO. 9
COMANCHE COUNTY, OKLAHOMA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2021**

OTHER POST-EMPLOYMENT BENEFITS (OPEB) (continued)

The \$1,949 reported as deferred outflows of resources related to OPEB resulting from Center contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability (asset) in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended June 30:		
2021	\$	(2,690)
2022		10,338
2023		17,661
2024		16,717
2025		6,281
Thereafter		<u>1,407</u>
	\$	<u><u>49,714</u></u>

Actuarial Assumptions – The total OPEB liability (asset) as of June 30, 2021, was determined based on an actuarial valuation prepared as of June 30, 2020 using the following actuarial assumptions:

- Actuarial Cost method-Entry Age
- Inflation – 2.50%
- Salary Increases-Composed of 3.00% inflation, plus .75 percent productivity increase rate, plus step-rate promotional increases for members with less than 25 years of service.
- Investment Rate of Return-7.50%
- Retirement Age-Experience-based table of rates based on age, service, and gender. Adopted by the Board in May 2015 in conjunction with the five year experience study for the period ending June 30, 2014
- Mortality Rates after Retirement – Males: RP-2000 Combined Healthy mortality table for males with White Collar Adjustments. Generational mortality improvements in accordance with Scale BB from the table's base year of 2000. Females: GRS Southwest Region Teacher Mortality Table, scaled at 105%. Generational mortality improvements in accordance with Scale BB from the table's base year of 2012.
- Mortality Rates for Active Members – RP-2000 Employee Mortality tables, with male rates multiplied by 60% and female rates multiplied by 50%.
- Health care trend rate – not applicable as the benefit provided is a set dollar amount not impacted by health care costs.

Asset Class	Target Asset Allocation	Long-Term Expected Real Rate of Return
Domestic Equity	38.5%	7.5%
International Equity	19.0%	8.5%
Fixed Income	23.5%	2.5%
Real Estate**	9.0%	4.5%
Alternative Assets	<u>10.0%</u>	6.1%
Total	<u><u>100.00%</u></u>	

**GREAT PLAINS TECHNOLOGY CENTER NO. 9
COMANCHE COUNTY, OKLAHOMA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2021**

OTHER POST-EMPLOYMENT BENEFITS (OPEB) (continued)

** The Real Estate total expected return is a combination of US Direct Real Estate (unlevered) and US Value added Real Estate (unlevered).

Discount Rate – A single discount rate of 7.50% was used to measure the total OPEB liability (asset) as of June 30, 2021. This single discount rate was based solely on the expected rate of return on OPEB plan investments of 7.50%. Based on the stated assumptions and the projection of cash flows, the OPEB plan's fiduciary net position and future contributions were projected to be available to finance all projected future payments of current plan members. Therefore, the long term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability (asset). The projection of cash flows used to determine this single discount rate assumed that plan member and employer contributions will be made at the statutory levels and remain a level percentage of payrolls. The projection of cash flows also assumed that the State's contribution plus the matching contributions will remain a constant percent of projected member payroll based on the past five years of actual contributions.

Sensitivity of the Net OPEB Liability (Asset) to Changes in the Discount Rate – The following presents the net OPEB liability (asset) of the employer calculated using the discount rate of 7.5%, as well as what the Plan's net OPEB liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point higher (8.5%) than the current rate:

	1% Decrease (6.5%)	Current Discount Rate (7.5%)	1% Increase (8.5%)
Employer's Net OPEB Liability (asset) \$	76,616	(21,106)	(103,972)

OPEB Plan Fiduciary Net Position – Detailed information about the OPEB plan's fiduciary net position is available in the separately issued financial report of the OTRS; which can be located at www.ok.gov/TRS.

9. Non-Current Debt

The Center's non-current debt consisted of compensated absences. Compensated absences represent the estimated liability for employees' accrued vacation for which employees are entitled to be paid upon termination. The retirement of this liability is paid from the General Fund or Building Fund based upon the assignment of the employee at termination. The government wide statements reflect the total estimated liability of the compensated absences in the Statement of Net Position. In the Statement of Activities, the compensated absences are recognized as expenses when earned.

Noncurrent liabilities consist of compensated absences that are due in more than a year. A summary of changes in noncurrent liabilities follows:

	Balance July 1, 2020	Additions	Retirements	Balance June 30, 2021
Compensated Absences \$	290,728	-	32,004	258,724
Total \$	290,728	-	32,004	
Less: Amounts Due within One Year				8,486
Total Long-Term Debt			\$	250,238

10. Capital Lease Commitments

The Center had no capital lease commitments at June 30, 2021.

**GREAT PLAINS TECHNOLOGY CENTER NO. 9
COMANCHE COUNTY, OKLAHOMA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2021**

11. Litigation

The Center is contingently liable for lawsuits and other claims in the ordinary course of its operations. The settlement of such contingencies under the budgetary process would require appropriation of revenues yet to be realized and would not materially affect the financial position of the Center at June 30, 2021.

12. Contingent Liabilities

The Center receives significant financial assistance from the United States government in the form of grants and other federal assistance. Entitlement to the resources is generally conditioned upon compliance with terms and conditions of the grant agreements and applicable federal regulations, including the expenditure of the resources for eligible purposes. Substantially all grants are subject to financial and compliance audits by the grantors. Any disallowances as a result of these audits become a liability of the Center. The Center estimates that no material liabilities will result from such audits.

13. Risk Management

Insurance Coverage

The Center purchases commercial insurance policies covering property casualty loss, public liability, school board member, and administrator liability.

The Center participates in the Oklahoma Public Schools Unemployment Compensation Account under the sponsorship of the Oklahoma State School Boards Association and the cooperative council for Oklahoma School Administration. The account was established to let school districts self-insure unemployment benefits for school employees. The funds are held in the name of each school district as reserves to pay unemployment claims. Each school district is individually liable for that portion of the benefits paid from the fund attributable to wages paid by the school district in the same manner as if no group account had been established. The reserve funds may be withdrawn from the account upon request of the school district. At June 30, 2021, the Great Plains Technology Center had reserves on deposit with the Oklahoma Public Schools Unemployment Compensation Accounting totaling \$10,966. This amount has been shown as prepaid insurance on the financial statements.

14. Surety Bonds

The Superintendent is bonded by Travelers Casualty and Surety Company, bond number 10760725 for the penal sum of \$100,000 for the term of September 26, 2020, to September 25, 2021.

The Director of Finance is bonded by Travelers Casualty and Surety Company, bond number 107346909 for the penal sum of \$100,000 for the term of November 12, 2020, to November 11, 2021.

The Accountant is bonded by Travelers Casualty and Surety Company, bond number 10760716 for the penal sum of \$100,000 for the term of September 26, 2020, to September 25, 2021.

The Accounts Payable clerk is bonded by Travelers Casualty and Surety Company, bond number 10760719 for the penal sum of \$100,000 for the term of September 26, 2020, to September 25, 2021.

The Treasurer is bonded by Travelers Casualty and Surety Company, bond number 10760721 for the penal sum of \$100,000 for the term of September 26, 2020, to September 25, 2021.

15. Tax Abatement

The State of Oklahoma has authorized by Oklahoma Statute 62-850, the creation of tax increment financing (TIF) districts. These districts are intended to provide incentives and exemptions from taxation within certain areas to encourage investment, development, and economic growth. The City of Lawton has created a TIF district. This TIF district reduces the ad valorem taxes remitted to the Center over the term of the agreements.

Oklahoma Statute Title 31 offers a homestead exemption of up to 1 acre of property in an urban area or 160 acres in a rural area. These homestead exemptions reduce the ad valorem taxes remitted to the Center.

For the year ended June 30, 2021, abated property taxes from the TIF districts were \$618,755.

16. Restatement of Fund Balance

The Center's June 30, 2020 Net Position was adjusted in accordance with GASB No. 84 which requires Fiduciary Activities to be reported in the Government Fund Schedules.

	<u>Government Funds</u>	<u>Government- Wide</u>

The accompanying notes are an integral part of this schedule.

**GREAT PLAINS TECHNOLOGY CENTER NO. 9
COMANCHE COUNTY, OKLAHOMA
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
FOR THE YEAR ENDED JUNE 30, 2021**

1. For all federal programs, the Center uses the fund types prescribed by the Oklahoma State Department of Career and Technology Education and conforms to the system of accounting authorized by the State of Oklahoma. General Funds are used to account for resources restricted, or designated for, specific purposes by a grantor. Federal and state financial assistance generally is accounted for in the General Fund.
2. The accounting and financial reporting treatment applied to a fund is determined by its' measurement focus. The Governmental Fund types are accounted for using a current financial measurement focus. All Federal grant funds were accounted for in the General and Agency Funds. With this measurement focus, only current assets and current liabilities and the fund balance are included on the balance sheet. Operating statements of these funds present increases and decreases in net current assets.

The modified accrual basis of accounting is used for the Governmental Fund types and accrual basis for Agency Funds. This basis of accounting recognizes revenue in the accounting period in which they become susceptible to accrual, i.e., both measurable and available, and expenditures in the accounting period in which the fund liability is incurred, and certain compensated absences and claims and judgments, which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Federal grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant, and accordingly, when such funds are received, they are recorded as deferred revenue until earned.

3. The District has not elected to use the de minimus indirect cost rate allowed under the Uniform Guidance.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Honorable Board of Education
Great Plains Technology Center No. 9
Comanche County, Oklahoma

I have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Great Plains Technology Center No. 9, Comanche County, Oklahoma (Center), as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Center's financial statements, and have issued my report thereon dated February 28, 2022.

Internal Control over Financial Reporting

In planning and performing my audit of the financial statements, I considered the Center's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing my opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Center's internal control. Accordingly, I do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

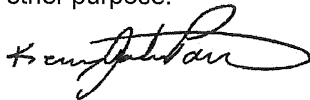

My consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during my audit I did not identify any deficiencies in internal control that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Center's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*. I noted certain immaterial instances of noncompliance that I have reported to management in the "Schedule of Comments" on page 50 of this report.

Purpose of this Report

This report is solely to describe the scope of my testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM;
REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON THE SCHEDULE OF
EXPENDITURES OF FEDERAL AWARDS REQUIRED BY THE UNIFORM GUIDANCE**

The Honorable Board of Education
Great Plains Technology Center No. 9
Comanche County, Oklahoma

Report on Compliance for Each Major Federal Program

I have audited the compliance of Great Plains Technology Center No. 9, Comanche County, Oklahoma (Center's) compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could have a direct and material effect on each of the Center's major federal programs for the year ended June 30, 2021. The Center's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

My responsibility is to express an opinion on compliance for each of the Center's major federal programs based on my audit of the types of compliance requirements referred to above. I conducted my audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and Uniform Guidance require that I plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major program occurred. An audit includes examining on a test basis, evidence about the Center's compliance with those requirements and performing such other procedures as I consider necessary in the circumstances.

I believe that my audit provides a reasonable basis for my opinion on compliance for each major federal program. However, my audit does not provide a legal determination of the Center's compliance.

Opinion on Each Major Federal Program

In my opinion, Great Plains Technology Center No. 9 Comanche County, Oklahoma, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

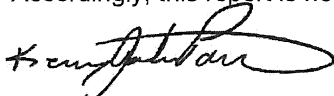

Report on Internal Control Over Compliance

Management of Great Plains Technology Center No. 9, Comanche County, Oklahoma (Center), is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing my audit of compliance, I considered the Center's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with Uniform Guidance, but not for the purpose of expressing an opinion on effectiveness of internal control over compliance. Accordingly, I do not express an opinion on the effectiveness of the Center's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program, on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected on, a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

My consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. I did not identify any deficiencies in internal control over compliance that I considered to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of my testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**GREAT PLAINS TECHNOLOGY CENTER NO. 9
COMANCHE COUNTY, OKLAHOMA
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
FOR THE YEAR ENDED JUNE 30, 2021**

A. SUMMARY OF AUDIT RESULTS

1. The auditor's report expresses an unqualified opinion on the basic financial statements of Great Plains Technology Center.
2. There were no audit findings reported as a deficiency in internal control, which the auditor considers to be "significant deficiencies" as defined in A.I.C.P.A. standards.
3. No instances of noncompliance material to the financial statements of Great Plains Technology Center which would be required to be reported in accordance with Government Auditing Standards were disclosed in the audit.
4. There were no audit findings reported of deficiencies in internal control over major programs, which the auditor considers to be "significant deficiencies" as defined by A.I.C.P.A. standards.
5. The auditor's report on compliance for the major federal award programs for Great Plains Technology Center expresses an unqualified opinion on all major federal programs.
6. There were no audit findings relative to major federal award programs for Great Plains Technology Center that are required to be reported in accordance with Uniform Guidance.
7. The programs tested as major programs included: Educational Stabilization Fund under the Coronavirus Aid, Relief, and Economic Security Act Higher Education Emergency Relief (84.425E, 84.425N, and 84.425F).
8. The threshold for distinguishing Types A and B programs was \$750,000.00.
9. Great Plains Technology Center did qualify as a low-risk auditee.

B. FINDINGS – FINANCIAL STATEMENTS AUDIT

1. No matters were reported.

C. FINDINGS AND QUESTIONED COSTS – MAJOR FEDERAL AWARD PROGRAMS AUDIT

1. No matters were reported.

**GREAT PLAINS TECHNOLOGY CENTER NO. 9
COMANCHE COUNTY, OKLAHOMA
SUMMARY OF PRIOR AUDIT FINDINGS
JULY 1, 2020 TO JUNE 30, 2021**

The summary of prior audit findings is required to report the status of all audit findings reported in the prior audit's schedule of findings and questioned costs relative to federal awards.

The Center had no prior year audit findings relative to federal award programs.

**GREAT PLAINS TECHNOLOGY CENTER NO. 9
COMANCHE COUNTY, OKLAHOMA
SCHEDULE OF COMMENTS
JULY 1, 2020 TO JUNE 30, 2021**

The following conditions, while not representing material weaknesses in the system of internal accounting control, represent areas noted during my review of the school's accounting system in which I feel improvements in the internal control and/or operational efficiency may be attained. I have also noted, as required, any noncompliance with State Department of Education Regulations.

Condition: Activity Fund P.O. #2100319 to The Great Plains Technology Center Foundation in the amount of \$12,235.38 represented an honorarium on behalf of a donor to a Robotics Program which the Technology Center closed.

Activity fund P.O. #2110396 to Lawton Country Club representing payment for 25 dozen custom golf balls for The Great Plains Technology Foundation Golf Tournament.

O.S. Title 70 Section 5-145, subsection J prohibits a public school district directly or indirectly transferring any funds to any local foundation or render services or provide anything of value to any local foundation without receiving documented adequate payment or reimbursement therefor according to written contract.

Recommendation: We recommend the Technology Center comply, in all respects, with laws and regulations pertaining to transactions between the Technology Center and local Foundation.

Previous Year's Audit Comments

There are no other items in the 2019-20 audit report, which have been repeated in this report.

I would like to express my appreciation for the courtesies and cooperation extended to us by Center administrators and employees during the course of this audit.

**GREAT PLAINS TECHNOLOGY CENTER NO. 9
COMANCHE COUNTY, OKLAHOMA
SCHEDULE OF ACCOUNTANT'S PROFESSIONAL LIABILITY INSURANCE AFFIDAVIT
JULY 1, 2020 TO JUNE 30, 2021**

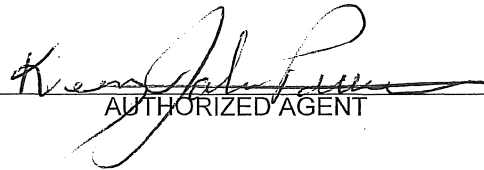

State of Oklahoma)
County of Tulsa)

The undersigned auditing firm of lawful age, being first duly sworn on oath, says that said firm had in full force and effect Accountant's Professional Liability Insurance in accordance with the "Oklahoma Public School Audit Law" at the time of audit contract and during the entire audit engagement with Great Plains Technology Center for the audit year 2020-21.
