**SCHEDULE OF FINDINGS AND RESPONSES**

**Finding 2022-001 – Lack of Internal Controls Over Financial Reporting (Repeat Finding)**

**Condition:** Upon inquiry of the Choctaw County Ambulance Authority (the Authority) employees and observation of the Authority’s Estimate of Needs, the following weakness was noted:

- Four (4) certificates of deposit totaling \$135,000 were not reported on the Estimate of Needs and financial statement.

**Cause of Condition:** Policies and procedures have not been designed and implemented regarding the preparation and approval of complete and accurate financial information as reported on the Estimate of Needs, financial statement, and bank reconciliations.

**Effect of Condition:** These conditions could result in an incomplete and incorrect Estimate of Needs, financial statement, and bank reconciliations.

**Recommendation:** The Oklahoma State Auditor and Inspector’s Office (OSAI) recommends management review the Estimate of Needs, financial statement, and bank reconciliations prior to submitting it to the Authority Board for approval to ensure that financial information is completely and accurately presented.

**Management Response:**

**Board Response:** Upon further review of the findings the Choctaw County Ambulance Authority has now included the Four (4) certificates of deposits totaling \$135,000 on the Estimate of Needs prepared by our CPA and now listed on the financial statement as a current asset that the Board of Directors will sign-off on each month.

All reportable findings for fiscal year 2022 have been resolved and/or corrected for future compliance.

**Criteria:** The United States Government Accountability Office’s *Standards for Internal Control in the Federal Government* (2014 version) aided in guiding our assessments and conclusion. Although this publication (GAO Standards) addresses controls in the federal government, this criterion can be treated as best practices and may be applied as a framework for an internal control system for state, local, and quasi-governmental entities.

The GAO Standards – Principle 10 – Design Control Activities – 10.03 states in part:

*Accurate and timely recording of transaction*

Transactions are promptly recorded to maintain their relevance and value to management in controlling operations and making decisions. This applies to the entire process or life cycle of a transaction or event from its initiation and authorization through its final classification in summary records. In addition, management designs control activities so that all transactions are completely and accurately recorded.
