To The Council on Law Enforcement Education And Training (CLEET)

We have applied the procedures enumerated below to certain aspects of internal control for the period July 1, 2002 through June 30, 2003.

1. We reviewed management’s internal controls over financial records and operations, and observed documentation regarding those controls.

2. We reviewed procedures for remitting required portions of fees to the State of Oklahoma.

3. We reviewed the Council’s policies and procedures, and observed whether they were being followed.

The purpose of these procedures was to identify, on a limited basis, the adequacy of certain aspects of internal controls in place at the Council on Law Enforcement Education And Training. Our findings resulting from the above procedures are included in the attached comments and recommendations section of this report.

Our procedures were more limited than would be necessary to express an opinion on any of the items referred to above or to express an opinion on the effectiveness of the Council’s internal controls or any part thereof. Accordingly, we do not express such opinions. Alternatively, we have identified the procedures we performed and the findings resulting from those procedures. Had we performed additional procedures or had we made an audit of the effectiveness of the Council’s internal control, other matters might have come to our attention that would have been reported to you.

Our findings resulting from the above procedures are included in the attached comments and recommendations section of this report.

Sincerely,

[Signature]

Comments and Recommendations

Comment 03-415-001

Control Category: Capital Assets

Criteria: Effective internal control procedures should ensure proper stewardship and accountability of publicly owned capital assets.

Condition: The Council has not performed a physical count of capital assets since 1999.

Effect: Misappropriation of capital assets could occur.

Recommendation: We recommend the Council perform a physical count of capital assets annually.

Management’s Corrective Action Plan
Contact Person: Dr. Jeanie Nelson, Executive Director
Anticipated Completion Date: October 2004
Corrective Action Planned: We concur with the finding. Although great care is taken to tag and add items to our inventory, we recognized the difficulty of maintaining control of items moving between divisions and particularly of broken or obsolete items. In May 2002, we purchased two portable bar code scanners/readers and a customized inventory program to record information required by the State of Oklahoma for asset tracking. We have begun a physical inventory of storage sheds to remove obsolete and damaged items to Surplus Property. We expect to have a complete physical inventory of all items reconciled to the new system by October 2004. Thereafter, we will conduct a physical inventory annually to insure items are removed to surplus property in a timely manner, and that all state assets are accounted for.
