For the purpose of complying with 19 O.S. § 171, we have performed the following procedures for December 27, 2010:

- Verify that equipment items on hand agree with inventory records as per 19 O.S. § 178.1.
- Verify that consumable items on hand agree with consumable inventory records maintained per 19 O.S. § 1502.
- Verify that machinery and equipment acquisitions, dispositions, and expenditures are in accordance with 19 O.S. § 333.

Information addressed in this report is the representation of the respective county officers.

Our county officer turnover engagement was limited to the statutory procedures described above and was less in scope than an examination or audit performed in accordance with auditing standards generally accepted in the United States of America, the objective of which would be the expression of an opinion. Accordingly, we do not express an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

Based on procedures performed, machinery and equipment acquisitions, dispositions, and expenditures were in accordance with the statutory requirements. With respect to equipment items on hand agreeing with inventory records, and consumable items on hand agreeing with consumable inventory records, our findings are presented in the accompanying schedule of findings and responses.

This report is intended solely for the information and use of the management of the County and should not be used for any other purpose. This report is also a public document pursuant to the Oklahoma Open Records Act (51 O.S. § 24A.1 et seq.), and shall be open to any person for inspection and copying.

SCHEDULE OF FINDINGS AND RESPONSES

Finding 2011-1 – Lack of Inventory

Criteria: An important aspect of internal controls is the safeguarding of assets. Internal controls over safeguarding of assets constitute a process, affected by an entity's governing body, management, and other personnel, designed to provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the entity's assets and safeguard assets from loss, damage, or misappropriation.

Title 19 O.S. § 178.1 states in part:

The board of county commissioners in each county of this state shall take, or cause to be taken, an inventory of all working tools, apparatus, machinery and equipment belonging to the county or leased or otherwise let to it or to any department thereof, other than that which is affixed to and made a part of lands and buildings, the cost of which as to each complete working unit thereof is more than Five Hundred Dollars (\$500.00), and thereafter maintain or cause to be maintained a continuous inventory record...biennially thereafter, or oftener...

Title 19 O.S. § 421 states in part:

From and after the effective date of this act, each board of county commissioners of the several counties in the state shall within thirty (30) days after the disposition of any tools, apparatus, machinery, and equipment belonging to the county or leased or otherwise let to it or any department thereof, the original cost of which is more than Five Hundred Dollars (\$500.00), whether sold, exchanged, junked, leased or let where authorized by statute, shall enter, or cause to be entered, in the minutes of the proceedings of the board the fact of such disposition, including complete description of item, serial number, the date property was acquired, the name and address of the person or firm from whom property was acquired, the cost price at time of acquisition or contract price if acquired under lease-rental agreement, the date of disposition, the name and address of the person or firm to whom property transferred, the price received therefore and the reason for disposition.

Condition: From test work performed, we were unable to locate a Dansuser post-hole digger valued at \$1,000.

Effect: Inventory items were not accurately accounted for and could result in misappropriation of inventory.

Recommendation: OSAI recommends the Board of County Commissioners cause to be taken a biennial inventory of all working tools, apparatus, machinery, and equipment belonging to the County. OSAI also recommends that these inventories be documented and filed with the County Clerk.

Finding 2011-2 – Consumable Inventory

Criteria: Title 19 O.S. § 1502.A.1.b.(2) states in part:

...an inventory system shall be administered for all supplies and materials of a county purchased in lots of Five Hundred Dollars (\$500.00) or more for use in the construction and maintenance of roads and bridges.

Condition: Based on test work performed for consumable inventory, we noted the following variances in the consumable stock records.

Effect: Consumable inventory items were not accurately accounted for and could result in misappropriation of inventory.

Recommendation: OSAI recommends management take steps to ensure that consumable inventory records be maintained and updated on a daily basis.

Incoming Commissioner Douglas M. Smith –
