Penny Dowell, Grant County Treasurer  
Grant County Courthouse  
Medford, Oklahoma 73759

Dear Ms. Dowell:

For the purpose of complying with 74 O.S. § 212, we have performed the following procedures:

- Determine whether bank reconciliations are properly performed, visually verify the certificates of deposit, and confirm the investments.
- Determine whether subsidiary records are reconciled to the general ledger.
- Determine whether deposits and invested funds are secured by pledged collateral.

All information included in the bank reconciliations, the investment ledger, the subsidiary ledgers, and the general ledger is the representation of the County Treasurer.

Our county treasurer statutory engagement was limited to the procedures performed above and was less in scope than an audit performed in accordance with generally accepted auditing standards. Accordingly, we do not express an opinion on any general-purpose financial statements of the County.

Based on our procedures performed, we have presented our findings in the accompanying schedule.

This report is intended for the information and use of the management of the County. This restriction is not intended to limit the distribution of this report, which is a matter of public record.

**SCHEDULE OF FINDINGS AND RESPONSES**

**Finding 2012-1— Segregation of Duties**

Criteria: Accountability and stewardship are overall goals of management in the accounting of funds. To help ensure a proper accounting of funds, key duties and responsibilities should be segregated among different individuals to reduce the risk of error or fraud. No one individual should have the ability to authorize transactions, have physical custody of funds, and record transactions.

Condition: The County Treasurer's office has three deputies. The Treasurer does not formally segregate the duties of receipting, posting, and depositing daily collections. The Treasurer has one change drawer from which she and all deputies make change. The Treasurer selects a deputy randomly to prepare the deposit and take the monies to the bank. That same deputy may have been the one issuing and posting most of the receipts during the day.

Effect: A single person having responsibility for more than one area of recording, authorization, custody of assets, and execution of transactions, could result in unrecorded transactions, misstated financial reports, clerical errors, or misappropriation of funds not being detected in a timely manner.

Recommendation: OSAI recommends management be aware of these conditions and realize that concentration of duties and responsibilities in a limited number of individuals is not desired from a control point of view. The most effective controls lie in management's overseeing of office operations and a periodic review of operations. OSAI recommends management provide segregation of duties so that no one employee is able to perform all accounting functions. In the event that segregation of duties is not possible due to limited personnel, OSAI recommends implementing compensating controls to mitigate the risks involved with a concentration of duties. Compensating controls would include separating key processes and/or critical functions of the office, and having management review and approve accounting functions.

Management Response: I am attempting to find a better way to segregate duties with the office staff that I currently have. I will continue to make improvements to the proper segregation of duties including double checking each other's work.
