**SCHEDULE OF FINDINGS AND RESPONSES**

**Finding 2022-006 – Lack of Internal Controls and Noncompliance Over the Competitive Bidding Process**

**Condition:** Upon inquiry of the Grove Emergency Medical Service District (the District) Administrator, observation of the Board meeting minutes, and the test of the competitive bidding process, the following exception was noted:

- The District purchased a monitor/defibrillator in the amount of \$33,443 and could not provide evidence that state statute regarding the competitive bidding processes were followed.

**Cause of Condition:** Policies and procedures have not been designed and implemented to ensure that disbursements for equipment are competitively bid in compliance with state statute.

**Effect of Condition:** This condition resulted in noncompliance with state statute regarding solicitation and acceptance of bids and could result in inaccurate records, incomplete information, or misappropriation of assets.

**Recommendation:** The Oklahoma State Auditor & Inspector’s Office (OSAI) recommends the District design and implement policies and procedures to ensure the District follows the competitive bidding requirements for the purchase of vehicles and equipment in accordance with 19 O.S. § 1723 and ensure all documentation is retained.

**Management Response:**

**Chairman of the Board:** The District recognizes the competitive bidding requirements for the purchase of vehicles and equipment in accordance with 19 O.S. § 1723. However, The District's needs for medical equipment are generally supplied by a particular vendor that is the only carrier of the equipment. The District will document the bidding process moving forward to show all requirements of the EMS District are met.

**Auditor Response:** OSAI recommends the Board design and implement policies and procedures to comply with the bidding requirements in accordance with Title 19 O.S. § 1723.

**Criteria:** The United States Government Accountability Office’s *Standards for Internal Control in the Federal Government* (2014 version) aided in guiding our assessments and conclusion. Although this publication (GAO Standards) addresses controls in the federal government, this criterion can be treated as best practices and may be applied as a framework for an internal control system for state, local, and quasigovernmental entities.
