## TO THE BOARD OF DIRECTORS OF THE McCURTAIN COUNTY EMERGENCY MEDICAL SERVICE AUTHORITY

For the purpose of complying with 19 O.S. § 1706.1, we have performed the following procedures:

- Determined charges for services were billed and collected in accordance with Authority Policies.
- Determined that receipts were properly deposited and accurately reported in the accounting records.
- Determined cash balances were accurately reported in the accounting records.
- Determined whether deposits and invested funds for the fiscal year ended June 30, 2020 were secured by pledged collateral.
- Determined that disbursements were properly supported, were made for purposes outlined in 19 O.S. § 1710.1 and were accurately reported in the accounting records.
- Determined that all purchases requiring bids complied with 19 O.S. § 1723 and 61 O.S. §101-139.
- Determined that payroll expenditures were accurately reported in the accounting records and supporting documentation of leave records was maintained.
- Determined that fixed assets records were properly maintained.
- Determined whether the Authority's collections, disbursements, and cash balances for the fiscal year ended June 30, 2020 were accurately presented on the estimate of needs.

All information included in the records of the Authority is the representation of the McCurtain County Emergency Medical Service Authority.

Our emergency medical service district statutory engagement was limited to the procedures performed above and was less in scope than an audit performed in accordance with generally accepted auditing standards. Accordingly, we do not express an opinion on any basic financial statement of the McCurtain County Emergency Medical Service Authority.

Based on our procedures performed, we have presented our findings in the accompanying schedule.

This report is intended for the information and use of the management of the McCurtain County Emergency Medical Service Authority. This restriction is not intended to limit the distribution of this report, which is a matter of public record.

#### SCHEDULE OF FINDINGS AND RESPONSES

#### Finding 2020-001 – Lack of Internal Controls Over the Billing Process (Repeat Finding)

**Condition:** Upon inquiry of the McCurtain County emergency Medical Service Authority (the Authority) employees, observation of the billing process and a test of forty-five (45) patient accounts, the following weaknesses were noted:

- Four (4) delinquent accounts that were written-off as uncollectable were not approved by the Board.
- In one (1) instance, a patient account reflected an overpayment that had not been refunded.

**Cause of Condition:** Policies and procedures have not been designed and implemented by the Board to sufficiently monitor the billing process to ensure delinquent patient accounts are reviewed and approved to be written-off as uncollectable, patients are refunded in a timely manner for overpayments, and that all patients are billed in accordance with the Authority's policies.

Effect of Condition: These conditions have resulted in loss of revenue from ambulance runs, and could result in unrecorded transactions, misstated financial reports, undetected errors, and misappropriation of funds.

**Recommendation:** The Oklahoma State Auditor & Inspector's Office (OSAI) recommends the Authority Board design and implement policies and procedures to ensure accounts written-off are approved by the Board, overpayments on patient accounts are refunded timely, and all runs are billed in accordance with the Authority's policies.

### **Management Response:**

**Chairman of the Board:** Policies were implemented in fiscal year 2020-2021 to ensure the Board has approved account balances to write-off as uncollectable. The Board now approves the write-off of delinquent accounts older than twelve (12) months old, and refunds and billing processes have been designed and implemented by the Board.

**Criteria:** The United States Government Accountability Office's *Standards for Internal Control in the Federal Government* (2014 version) aided in guiding our assessments and conclusion. Although this publication (GAO Standards) addresses controls in the federal government, this criterion can be treated as best practices and may be applied as a framework for an internal control system for state, local, and quasi-governmental entities.

The GAO Standards – Principle 10 – Design Control Activities – 10.03 states in part:

Accurate and timely recording of transactions

Transactions are promptly recorded to maintain their relevance and value to management in controlling operations and making decisions. This applies to the entire process or life cycle of a transaction or event from its initiation and authorization through its final

classification in summary record. In addition, management designs control activities so that all transactions are completely and accurately recorded.
