Carol Lindley, County Treasurer  
McIntosh County Courthouse  
Eufaula, Oklahoma 74432

Dear Ms. Lindley:

For the purpose of complying with 74 O.S. § 212, we have performed the following procedures for April 30, 2009:

- Review bank reconciliations, visually verify certificates of deposit, and confirm investments.
- Determine whether subsidiary records reconcile to the general ledger.
- Review pledged collateral securing deposits and invested funds.

All information included in the bank reconciliations, the investment ledger, the subsidiary ledgers, and the general ledger is the representation of the County Treasurer.

Our county treasurer statutory engagement was limited to the procedures performed above and was less in scope than an audit performed in accordance with generally accepted auditing standards. Accordingly, we do not express an opinion on any general-purpose financial statements of McIntosh County.

Based on the above reconciliations, visual verification, and confirmation procedures performed, the cash and investments of the County are supported by bank records and are adequately secured to prevent loss in the event of a bank failure. With respect to the matter of segregation of duties, and the cash and investments of the County being supported by accounting records, our findings are included in the accompanying schedule of findings and responses.

This report is intended for the information and use of the management of the County. This restriction is not intended to limit the distribution of this report, which is a matter of public record.

Sincerely,

A handwritten signature in blue ink that reads "Steve Burrage".

## **SCHEDULE OF FINDINGS AND RESPONSES**

### **Finding 2009–1–Segregation of Duties**

Criteria: Accountability and stewardship are overall goals in evaluating management's accounting of funds. To help ensure a proper accounting of funds, the duties of receiving, receipting, recording, depositing cash and checks, reconciliations, and transaction authorization should be segregated.

Condition: Based on inquiries of personnel and testwork performed, it was noted that receiving, receipting, recording, depositing cash and checks, reconciliations, and transaction authorization within the office was not properly segregated to assure adequate internal control structure.

Effect: This condition could result in unrecorded transactions, misstated financial reports, undetected errors, or misappropriation of funds.

Recommendation: OSAI recommends management be aware of these conditions and realize that concentration of duties and responsibilities in a limited number of individuals is not desired from a control point of view. The most effective controls lie in management's knowledge of office operations and a periodic review of operations.

Views of responsible officials and planned corrective actions: We concur with the State Auditor's finding. Management does have knowledge of office operations and will perform a periodic review of these operations.

### **Finding 2009–2–Cash on Hand**

Criteria: Safeguarding controls are an aspect of internal controls. Safeguarding controls relate to the prevention or timely detection of unauthorized transactions and unauthorized access to assets. Failures to perform tasks that are part of internal controls such as reconciliations not prepared or not timely prepared are deficiencies in internal control. Further, account reconciliations should be performed on a monthly basis.

Condition: Cash on hand does not agree to the general ledger balance. While performing the cash counts, we observed \$200 cash on hand in the Court Clerk's office which was not posted on the general ledger.

Effect: This condition could result in the misappropriation of county assets.

Recommendation: OSAI recommends that the County Treasurer reconcile cash on hand to the general ledger on a daily basis.

Views of responsible officials and planned corrective actions: We concur with the State Auditor's finding. We will take measures to correct this issue.
