Donna Scrivner, Pittsburg County Treasurer
Pittsburg County Courthouse
McAlester, Oklahoma 74501

Dear Ms. Scrivner:

For the purpose of complying with 74 O.S. § 212, we have performed the following procedures:

- Determine whether bank reconciliations are properly performed, visually verify the certificates of deposit, and confirm the investments.
- Determine whether subsidiary records are reconciled to the general ledger.
- Determine whether deposits and invested funds are secured by pledged collateral.

All information included in the bank reconciliations, the investment ledger, the subsidiary ledgers, and the general ledger is the representation of the County Treasurer.

Our county treasurer statutory engagement was limited to the procedures performed above and was less in scope than an audit performed in accordance with generally accepted auditing standards. Accordingly, we do not express an opinion on any basic financial statement of Pittsburg County.

Based on our procedures performed, we have presented our findings in the accompanying schedule.

This report is intended for the information and use of the management of the County. This restriction is not intended to limit the distribution of this report, which is a matter of public record.

SCHEDULE OF FINDINGS AND RESPONSES

Finding 2014-1—Segregation of Duties (Repeat Finding)

Condition: The Treasurer has implemented some controls regarding the collections process; however, some duties have not been adequately segregated. One deputy performs the duties of preparing the deposit, delivering the deposit to the bank, and reconciling bank statements. Further, no independent review of the bank reconciliation is performed to ensure timeliness and accuracy.

Cause of Condition: Procedures have not been designed to adequately segregate the duties.

Effect of Condition: A single person having responsibility for more than one area of recording, authorization, custody of assets, and execution of transactions could result in unrecorded transactions, misstated financial reports, clerical errors, or misappropriation of funds not being detected in a timely manner.

Recommendation: OSAI recommends management be aware of these conditions and realize that concentration of duties and responsibilities in a limited number of individuals is not desired from a control point of view. The most effective controls lie in management's overseeing of office operations and a periodic review of operations. OSAI recommends management provide segregation of duties so that no one employee is able to perform all accounting functions. In the event that segregation of duties is not possible due to limited personnel, OSAI recommends implementing compensating controls to mitigate the risks involved with a concentration of duties. Compensating controls would include separating key processes and/or critical functions of the office, and having management review and approval of accounting functions.

Management Response: We have changed the person who prepares the deposit; they will no longer take the deposit to the bank. The review of bank reconciliation was always done, but was not signed or initialed. That will be done.

Criteria: Accountability and stewardship are overall goals of management in the accounting of funds. To help ensure a proper accounting of funds, the duties of receiving, receipting, recording, depositing cash and checks, reconciliations, and transaction authorization should be segregated.
