

The State of **OKLAHOMA**

COMPREHENSIVE ANNUAL FINANCIAL REPORT *2016*

Fiscal Year Ended June 30, 2016

Though all of the eight states along historic Route 66 display pride in ownership of their piece of the pavement, Oklahoma seems to do it the best. Perhaps that is as it should be, given that the Mother Road was born in Oklahoma on Nov. 11, 1926, when Cyrus Avery of Tulsa conceived the idea to link Chicago all the way to Los Angeles. Moreover, Oklahoma has more miles of the original highway than any other state, they were the first to install historic markers along the old route, the first to have a state-sponsored Route 66 museum, and ironically, the first to lose part of the original road when I-44 barreled through, dealing a deathblow to many service businesses between Tulsa and Oklahoma City.

State of Oklahoma
Office of Management and Enterprise Services

December 21, 2016

To the Honorable Mary Fallin, Governor
Members of the Legislature, and
Citizens of the State of Oklahoma

The Office of Management and Enterprise Services (OMES) is pleased to present the Comprehensive Annual Financial Report (CAFR) for the State of Oklahoma for the fiscal year ended June 30, 2016. This report is presented in three sections — introductory, financial and statistical — as the primary means of reporting the state government's financial activities. Its objectives are to provide a clear picture of the government as a single, unified entity and to provide traditional fund based financial statements. The CAFR has been prepared in conformity with relevant Governmental Accounting Standards Board statements.

The Introductory Section contains an overview of the state's economic performance, a review of current initiatives and summary financial data. The Financial Section contains Management's Discussion and Analysis, Government-wide Financial Statements and Fund Financial Statements for governmental funds, proprietary funds, fiduciary funds and similar component units, and major component units. The Financial Section also includes the Notes to the Financial Statements, Required Supplementary Information and Other Supplementary Information. The Statistical Section contains selected financial and demographic information. Management's discussion and analysis contains complementary information, and readers are encouraged to review this section.

PROFILE OF THE GOVERNMENT

Management of the state, through OMES, is responsible for the accuracy, fairness and completeness of the financial statements presented in this report. The statements have been prepared in accordance with generally accepted accounting principles. To the best of our knowledge and belief, the information presented is accurate in all material respects and includes all disclosures necessary for an understanding of the state's financial position and activities. The governor and Legislature govern all funds and accounts for every executive agency, board, commission, public trust, authority, college and university whose data are presented in this report. The financial reporting entity, the State of Oklahoma, includes these funds, organizations, agencies, boards, commissions and authorities. In accordance with Governmental Accounting Standards Board Statement 61, the state financial reporting entity includes 19 component units. There are six major component units, seven nonmajor component units, and six fiduciary component units. The major and nonmajor component units are discretely presented in the Financial Statements. The fiduciary component units are presented in the fiduciary fund and similar component units' financial statements, along with the other fiduciary activities of the state. The fiduciary activities are not included in the Government-wide Financial Statements because the resources of these funds are not available to support the state's own programs.

State finances are governed by rules designed to ensure sound, conservative management. The Legislature cannot appropriate more than 95 percent of the general revenue expected to be collected in the coming year. The state Board of Equalization, an independent board not subject to legislative control, establishes the legislative appropriation authority. Unlike many states that use seasonal borrowing to meet cash demands, Oklahoma maintains a cash flow reserve sufficient to meet fluctuating cash needs. General obligation indebtedness is prohibited without a vote of the people. When revenue receipts are less than estimated, the Director of Finance is mandated by the Oklahoma Constitution to declare a revenue shortfall and reduce appropriations as required to allow appropriations to be covered by current year tax collections.

The state's financial statements have been audited by the Office of the State Auditor and Inspector. The goal of the independent audit was to provide reasonable assurance that the financial statements of the state for the fiscal year ended June 30, 2016, are free of material misstatement. The audit was conducted in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the comptroller general of the United States. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and the significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded that, based upon the audit, there was a reasonable basis for rendering an unqualified opinion and that the State of Oklahoma's financial statements for the fiscal year ended June 30, 2016, are fairly presented in conformity with generally accepted accounting principles. The independent auditor's report is presented as the first component of the Financial Section of this report.

Internal Controls

Management of the State of Oklahoma is responsible for the establishment and maintenance of internal accounting controls designed to ensure assets are safeguarded and financial transactions are properly recorded and adequately documented. Such internal controls require estimates and judgments from management so that, in attaining reasonable assurance as to the adequacy of such controls, the cost does not exceed the benefit obtained.

Budget and Fiscal Policy

The budget process begins when each agency, other than the Legislature, that expends money through the state treasury submits an annual budget request to OMES. Copies are also provided to the legislative fiscal staffs. These requests are reviewed and analyzed for the governor by OMES. The governor then makes formal recommendations in the executive budget which is presented to the Legislature on the first day of the legislative session. During the legislative session, legislative committees review agency needs and recommend appropriation levels. Then the Legislature must approve all appropriation bills to fund agency operations for the next fiscal year. Appropriation bills provide for state appropriated funds and establish spending limits for state agencies. The governor can accept, reject or line-item veto particular legislative appropriations. Before encumbering or spending money in the fiscal year, each agency must submit a budget work program to OMES. The program outlines, by object of expenditure, fund source and program category, how the agency plans to spend the available state, federal and revolving funds during the fiscal year. OMES must approve an agency's budget work program before agencies can encumber or spend available funds.

Oklahoma's Constitution restricts total appropriations to 95 percent of estimated general revenues. The Board of Equalization is responsible for approving the official itemized estimate of revenues based upon information provided by OMES and the Oklahoma Tax Commission and sets the amount of legislative appropriations authority. The board is comprised of six elected officials and the president of the state Board of Agriculture. The six elected officials are the governor, the state auditor and inspector, the state treasurer, the lieutenant governor, the attorney general, and the superintendent of public instruction.

The constitution requires that collections in excess of the Board of Equalization's itemized estimate of General Revenue Fund revenues be deposited to the Stabilization, or "Rainy Day" Fund each year until the balance of the Rainy Day Fund equals 15 percent of the prior fiscal year's General Revenue Fund certified appropriations authority. In November 2004, Oklahoma voters enacted restrictions on the use of the Rainy Day Fund. Up to one-fourth of the July 1 balance each year may be appropriated upon an emergency declaration by the governor with concurrence of two-thirds of the House and Senate, or by a declaration of an emergency by the House speaker and Senate's president pro tempore with concurrence of three-fourths of the members of each legislative body. Up to three-eighths of the fund may be accessed if the Board of Equalization is forecasting a decline in state revenues for the coming fiscal year and up to three-eighths may be utilized in the event of a current year revenue shortfall.

The state also has an oversight process for the issuance of debt. The Council on Bond Oversight is responsible for the review and approval of all debt issued by the state, its agencies and public trusts, and performs an assessment of all capital leases.

Proprietary Operations

The state's proprietary operations are comprised of governmental agencies and quasi-governmental agencies providing goods or services to the public on a user charge basis. These activities are financed and operated in a manner similar to private business enterprises. They operate with the intent to recover the costs of operations from those directly benefiting from the goods or services. Some of the activities included in the state's proprietary operations are power generating plants, turnpikes, medical services, and insurance and financing services for both public and private entities.

Capital Assets

These financial statements include the capital assets of the state. A discussion of capital assets accounting is included in the management discussion and analysis that is part of the basic financial statements. More detailed information about capital assets can be found in the notes to the financial statements.

ECONOMIC CONDITIONS AND OUTLOOK

The sharp drop in oil prices since mid-2014 negatively affected the economies of all oil and gas states and will likely remain a drag on Oklahoma's economy in 2017, but there are some encouraging signs as state industries outside the oil and gas sector have helped the state weather the prolonged energy market downturn.

Oklahoma's economy has been hit hard by a decline in mining and manufacturing jobs. Consisting almost completely of oil and gas jobs, mining lost 21,000 jobs, a 33 percent decline, from a peak in 2014 through July 2016, according to U.S. Bureau of Labor Statistics numbers. Employment in Oklahoma's manufacturing sector - much of which produces goods for the oil and gas sector - declined more than 10 percent, about 16,000 factory jobs, since 2014.

Such job losses are intertwined with Oklahoma's unemployment rate increase over the past year. Up by 1 percent for the year, the state's unemployment rate stood at 5.2 percent, according to U.S. Department of Labor numbers. That is up from a low of 4 percent in late 2014.

While the oil and gas price decline will continue to pose significant challenges for the Oklahoma economy, the state has still been able to maintain some momentum buoyed by several years of economic growth.

Oklahoma's recent gross domestic product (GDP) - the output of goods and services produced by labor and property used as the broadest measure of economic activity - fell 3 percent over the four quarters through the first quarter of 2016, below the national average growth rate of 2.1 percent.

Oklahoma's GDP growth rate still remains among the strongest states over the past decade, according to numbers compiled by the U.S. Congress Joint Economic Committee. Since the end of the Great Recession in 2009, Oklahoma GDP growth has averaged 2.5 percent, compared with a national average annual growth rate of 1.9 percent.

While Oklahoma's real GDP contracted in the first quarter of 2016, slipping 0.5 percent, several industries performed above that level, according to the Bureau of Economic Analysis. Construction added 0.7 percent to the state's GDP growth; health care and social assistance added 0.21 percent; retail added 0.22 percent; and agriculture, forestry, fishing and hunting was the largest contributor, adding 0.83 percent to Oklahoma's GDP.

Those gains helped balance the mining losses of 0.73 percent, the largest drag on the state's 2016 first quarter GDP numbers, and transportation and warehousing's decline of 0.53 percent.

The Oklahoma City area grew by 2.8 percent and ranked 108th out of 382 metro areas, outpacing the U.S. metropolitan area average real GDP growth of 2.5 percent in 2015, according to U.S. Bureau of Economic Analysis statistics. Tulsa grew 0.7 percent, ranking 256th, and Lawton grew 0.6 percent, ranking 264th.

There are signs the decline in Oklahoma manufacturing may be nearing an end, wrote Chad Wilkerson, vice president and Oklahoma City branch executive of the Federal Reserve Bank of Kansas City, in a September *Oklahoma Economist* article, "Is the collapse in Oklahoma manufacturing ending?"

The Kansas City Federal Reserve Bank's recent survey data suggest Oklahoma manufacturers are becoming less pessimistic and expect flat to slightly higher activity over the next six months, Wilkerson noted. To see sizable gains in production, oil prices will need to move substantially higher.

Employment in the energy and manufacturing sectors started falling in late 2014 when oil prices began a decline as the world oil supply increased following a surge in supply from Saudi Arabia and Iraq occurring simultaneously with steady oil production growth in North America.

Current and expected oil and natural gas prices remain below levels firms say they need to ramp up economic activity, according to an October 2016 survey from the Federal Reserve Bank of Kansas City. In September 2016, oil averaged about \$45 per barrel and natural gas nearly \$3 per million British thermal units (BTU). Survey respondents said oil prices would need to be \$53 a barrel and natural gas to be \$3.45 per million BTU to be profitable.

The firms surveyed projected prices for oil to be \$49 per barrel by year-end 2016 and \$57 by year-end 2017. Natural gas prices were projected at \$2.97 per million BTU by the end of 2016 and \$3.33 per million BTU by year-end 2017.

"For the first time in two years, firms reported rising business activity and revenues last quarter," Wilkerson said. "On average, though, firms need energy prices to be slightly higher than recent prices in order to be profitable." The economic downturn is evident in gross receipts to the Oklahoma Treasury - the state's share of personal and corporate income taxes, sales taxes, gross production taxes, motor vehicle taxes and other collections.

In September 2016, gross receipts were almost 10 percent lower compared to the same month of the prior year, continuing a 19-month contraction in the broad measure of state economic activity. The last time September collections were lower was in 2010. Collections for the past 12 months were the lowest since March 2012.

"As has been the story for almost two years, Oklahoma is feeling the effects of a supply driven downturn in energy prices that has spilled over into the rest of the economy," Treasurer Ken Miller said. "We are monitoring discussions within OPEC on reducing oil production volumes. Should an agreement to dial back production come to fruition, it could spur oil prices and turn the current negative cycle."

The same challenges were reflected in Oklahoma's General Revenue Fund (GRF) - the key indicator of state government's fiscal status and the predominant funding source for the annual appropriated state budget. GRF collections are revenues that remain after rebates, refunds and mandatory apportionments are subtracted from the gross receipts.

GRF collections in October 2016 missed the official monthly estimate by 10.8 percent and fell below the estimate for the first four months of fiscal year 2017 by 1.8 percent as income and sales tax collections continued to slide.

Oklahoma state government builds a 5 percent cushion into every appropriated state budget to prevent mandatory budget reductions if revenues fall below the official estimate. If revenues are projected to fall more than 5 percent below the estimate for the remainder of the fiscal year, a revenue failure is declared and mandatory appropriation reductions must occur to maintain a balanced budget.

Secretary of Finance, Administration and Information Technology Preston L. Doerflinger said the trends indicated that it is important to prepare for another tough budget year.

"Such numbers show that Oklahoma's economic turnaround has not yet begun," Doerflinger said. "While the state can't control all facets of the economy, such as oil prices, we must be proactive and prepare for tough challenges ahead."

Collections are down as low oil and gas prices have contributed to a September 2016 unemployment rate that had Oklahoma tied with Wyoming for the biggest increase in unemployment over the past year, according to U.S. Department of Labor numbers.

In September 2016, Oklahoma private-sector employment fell by 4,200 jobs. Over the past year, Oklahoma businesses have shed 11,000 jobs, compared to a decrease of 300 jobs during the previous year. There were 95,300 Oklahoma residents unemployed in September 2016, according to the Bureau of Labor Statistics.

Since February 2010, the national low point for private-sector employment, Oklahoma businesses added 108,500 jobs, an increase of 9.1 percent. Nationally, private payrolls have increased 14.3 percent over the same time. The greatest percentage gains in job growth since February 2010 are construction, 27.7 percent, or 18,000 jobs; leisure and hospitality, 21.5 percent, or 29,600 jobs; and trade, transportation and utilities, 10.5 percent, or 28,800 jobs.

Oklahoma's score on the Mid-America Business Conditions Index, a leading economic indicator for a nine-state region, reflects the state's increasing unemployment rate. The index rates states from 0-100. A score below 50 indicates a slowdown in economic growth in the next three to six months. Oklahoma scored 40.3 in September 2016 and dipped to 38.8 in October, below growth neutral for the fifth straight month. Both scores were the lowest in the region also including Arkansas, Iowa, Kansas, Minnesota, Missouri, Nebraska, North Dakota and South Dakota.

"Both durable goods producers and nondurable goods manufacturers linked to energy continue to lose jobs," said Ernie Goss, director of Creighton University's Economic Forecasting Group, which conducts the monthly survey.

Oklahoma has taken several steps to help its workforce diversify and meet the challenges of the energy sector slump. Economic development entities designed to grow sustainable and consistent high-tech industries to counter the cyclical nature of staple industries like agriculture and energy are having success.

Gov. Fallin's vision for the Oklahoma Works initiative is to close the skills gap in its workforce and teach people the skills needed to meet the demand of Oklahoma's growing businesses. A coalition of state agencies, educational institutions, businesses and other partners are facilitating quality employment for workers and ready availability of highly skilled talent for business and industry.

The Oklahoma Department of Career and Technology Education system is a model program. The system offers services in 29 technology center districts operating on 58 campuses, 390 comprehensive school districts, 13 skills centers campuses that include three juvenile facilities and 28 adult basic education service providers. Annually, enrollment in CareerTech classes is about 500,000.

Complete College America is an ambitious program to increase the number of higher-education degrees and certificates earned in Oklahoma by an average of 1,700 per year, from 30,500 in 2011 to 50,900 by 2023, to keep Oklahoma competitive in a global economy. Four years into the program, Oklahoma is ahead of its goal.

In the 2014-15 school year, there were 38,109 degrees and certificates awarded at Oklahoma public and private universities and colleges, according to the Oklahoma State Regents for Higher Education. Degrees in science, technology, engineering and mathematics (STEM) have increased nearly 28 percent during the last five years. In 2014-15, nearly 6,500 degrees were granted in the STEM disciplines, more than a 6 percent increase from the previous year.

The efforts to diversify and increase workforce skills will be needed. With the energy sector not yet back in the position to boost the Oklahoma economy, the state will need other industries to help drive economic growth.

Two of the state's 10 fastest-growing industries, non-energy sector transportation equipment manufacturing - primarily aerospace - and arts, entertainment and recreation - spectator sports, museums and casinos, among other things - are mostly unrelated to oil and gas. Other industries important to the Oklahoma economy that reside largely outside of oil and gas are agriculture, hospitals and outpatient health care, and the federal government, including military.

While not doing as well as more diversified oil and gas states like Texas, Oklahoma's economy has outperformed other oil and gas states, wrote Wilkerson in a June 2016 *Oklahoma Economist* article, "How is Oklahoma's economy performing relative to other oil and gas states?" North Dakota and Wyoming have similar-sized oil and gas sectors as Oklahoma, but experienced much sharper declines in economic activity when oil prices fell.

Wilkerson wrote: "With Oklahoma already weathering the storm better than some states, the moderate improvement in oil and natural gas prices in the second quarter of 2016 is coming at a good time. ... While prices will likely need to be sustained at that level or slightly higher for some time for increased oil and gas activity to occur, the higher prices could mean declines in the sector may be nearing an end. Other challenges to Oklahoma's economy remain, including continued cuts in state government agencies and funding. However, the state's still relatively good overall economic condition - despite huge energy sector job losses - provides encouragement for the year ahead."

Some other highlights of Oklahoma's economy include:

- 2016 Fortune 500 companies NGL Energy Partners (167), Devon Energy (216), Chesapeake Energy (223), ONEOK Inc. (348), and Williams (364) are headquartered in Oklahoma.
- Three other Oklahoma-based companies, Love's Travel Stops and Country Stores (22), QuikTrip (33) and Hobby Lobby Stores (106) are on Forbes magazine's list of largest private companies in 2016.
- Twenty-five Oklahoma companies made the 2016 Inc. top 5,000 fastest-growing private-sector companies in the nation.
- The Mercatus Center at George Mason University in its 2016 fiscal condition rankings listed Oklahoma eighth overall, ranking 13th in terms of cash solvency, 16th in terms of budget solvency, fifth in terms of long-run solvency, 15th in terms of service-level solvency and second in terms of trust-fund solvency.

Highlights of the fiscal year 2016 and fiscal year 2017 executive branch budgets include (expressed in millions):

	Amount Appropriated		Percentage of Total Appropriations		Increase (Decrease) from Prior Year		Percentage Increase (Decrease)	
	2016	2017	2016	2017	2016	2017	2016	2017
Department of Education	\$ 2,485	\$ 2,427	34%	36%	\$ (2)	\$ (58)	(0%)	(2%)

FINANCIAL INFORMATION

Governmental Functions

Most financial operations of the state are reported in governmental fund types, which are the General Fund and the Permanent Funds. Following are schedules of revenues and expenditures for these governmental funds. Note that the following tables present data according to generally accepted accounting principles (GAAP) for the fiscal year ended June 30, 2016, while previous tables have presented budgetary data for this and later periods. Transfers are primarily from the General Fund to support public institutions of higher education.

Governmental Funds: Revenues and Other Financing Sources - GAAP Basis
(expressed in millions)

	2016 Amount	Percentage of Total	Increase (Decrease) from Prior Year	Percentage Increase (Decrease)
Taxes	\$ 8,242	48.7%	\$ (428)	(4.9%)
Licenses, permits and fees	683	4.0%	(16)	(2.3%)
Interest and investment revenue	255	1.5%	(64)	(20.1%)
Federal grants	6,668	39.4%	15	0.2%
Sales and services	212	1.3%	32	17.8%
Other revenues	730	4.3%	(80)	(9.9%)
Other financing sources:				
Transfers	85	0.5%	1	1.2%
Bond and note proceeds	40	0.2%	(149)	(78.8%)
Other	20	0.1%	(85)	(81.0%)
Total revenues and other financing sources	<u>\$ 16,935</u>	<u>100.0%</u>	<u>\$ (774)</u>	<u>(4.4%)</u>

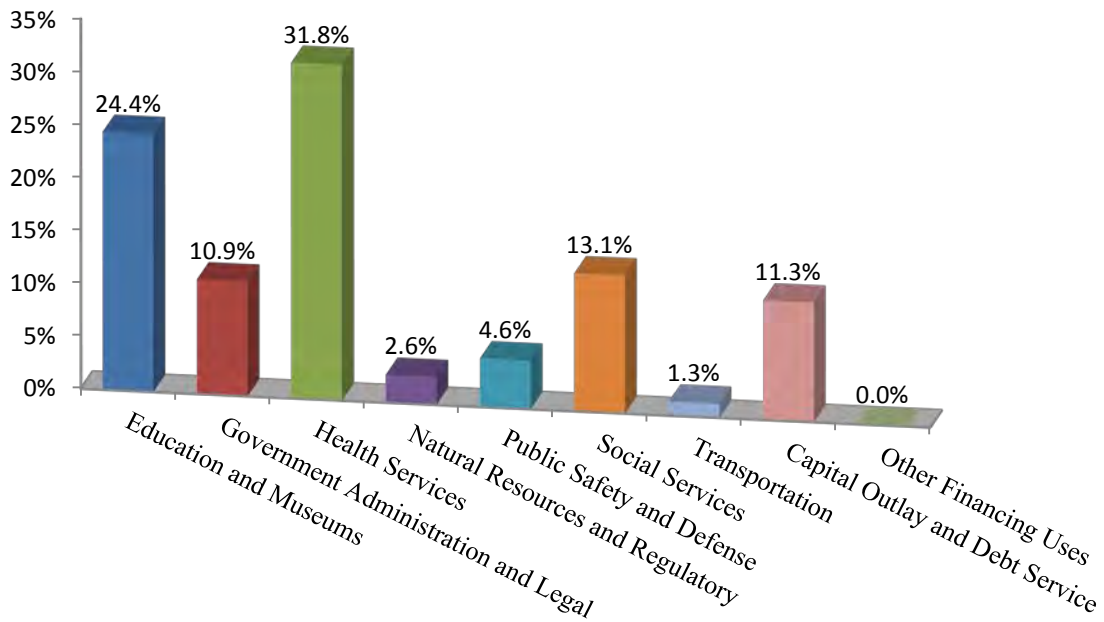

Governmental Funds: Expenditures and Other Financing Uses - GAAP Basis
(expressed in millions)

	2016 Amount	Percentage of Total	Increase (Decrease) from Prior Year	Percentage Increase (Decrease)
Education	\$ 4,373	24.3%	\$ (86)	(1.9%)
Government administration	1,700	9.5%	(145)	(7.9%)
Health services	5,704	31.8%	68	1.2%

Financing Sources (GAAP Basis) – Fiscal Year 2016**

**Governmental Funds Expenditures and Other
Financing Uses (GAAP Basis) – Fiscal Year 2016**

Revenue Collections and Estimates

As noted in a preceding subsection, the budget is prepared using cash available plus 95 percent of the itemized revenue estimate as approved by the state Board of Equalization. It should be noted that taxes deposited into the budgetary General Revenue Fund, as defined by Oklahoma law, are approximately 75 percent of the total tax revenues of the governmental funds, as defined by GAAP. However, the budgetary General Revenue Fund should not be confused with the General Fund as presented in the accompanying GAAP-basis financial statements, as the two terms are not interchangeable. For example, the GAAP-basis General Fund includes revenues deposited to the state Transportation Fund, federal grant proceeds, revolving fund revenues, fees and charges as well as other money used in the general operations of government which are not considered in the Board of Equalization's estimates of tax revenues.

During 2015, the most recent data available, receipts from three of the five major taxes were less than revenues of the prior year. The taxes combined for \$5.0 billion, or 102.7 percent of total receipts for the same categories in the prior year. The total of major taxes collected increased \$37 million or 0.8 percent from that of the previous year. As compared to fiscal year 2014, collections from income taxes increased by \$130 million, or 5.6 percent; sales taxes increased by \$60 million, or 3.1 percent; motor vehicle taxes decreased \$34 million, or 14.7 percent; and gross production taxes on gas and oil decreased by \$120 million, or 36 percent.

Oklahoma has established an enviable record in recent years for its revenue forecasting results. Since enactment of a constitutional amendment in 1985 establishing new revenue estimating procedures, collections have exceeded the estimate in 17 years and dipped below the estimate 13 years. The comparison of estimated revenues to actual collections for fiscal year 2015 is as follows:

Revenue Collections Compared to Itemized Estimate for Fiscal 2015
(expressed in millions)

	Itemized Estimate	Actual Collections	Over (Under) Estimate	Percentage Collected
Individual and Corporate				
Income tax	\$ 2,326.1	\$ 2,464.2	\$ 138.1	105.9%
Sales tax	2,134.1	2,019.7	(114.4)	94.6%
Motor vehicle tax	236.1	194.5	(41.6)	82.4%
Gross production tax	290.3	213.4	(76.9)	73.5%
Subtotal Major Taxes	4,986.6	4,891.8	(94.8)	98.1%
Other sources	758.5	834.7	76.2	110.0%
Total	\$ 5,745.1	\$ 5,726.5	\$ (18.6)	99.7%

The 15-year comparative history of estimated to actual collections is shown in the following table:

Budgetary General Revenue Fund Comparisons (expressed in millions)					
Fiscal Year	Itemized Estimate	Actual Collections	Over (Under) Estimate	Percentage Collected	
2001	\$ 4,456	\$ 4,693	\$ 237	105.3%	
2002	4,829	4,413	(416)	91.4%	
2003	4,725	4,186	(539)	88.6%	
2004	4,396	4,613	217	104.9%	
2005	4,545	4,957	412	109.1%	
2006	5,149	5,715	566	111.0%	
2007	5,708	5,966	258	104.5%	
2008	5,845	5,981	136	102.3%	
2009	5,981	5,544	(437)	92.7%	
2010	5,415	4,622	(793)	85.4%	
2011	4,889	5,138	249	105.1%	
2012	5,236	5,564	328	106.3%	
2013	5,601	5,604	3	100.1%	
2014	5,889	5,627	(262)	95.6%	
2015	5,745	5,727	(18)	99.7%	
Fifteen-Year Average	\$ 5,227	\$ 5,223	\$ (4)	99.9%	

The status of three important fund balances affecting the new year's fiscal picture is explained as follows:

Cash-Flow Committed Fund – Each year, 10 percent of the General Revenue Fund's certified appropriation level is set aside to meet anticipated monthly cash flow needs for the new fiscal year. At the close of fiscal year 2016, the amount the state set aside was \$336.1 million.

General Revenue Fund – In fiscal year 2016, there were amendments to the budget that added \$160.7 million. \$27.0 million was added to the budget for prior year carry-over compared to a \$53.6 million carry-over in fiscal year 2015. Carry-over funds reflect the difference between the 95 percent appropriation limit and actual receipts up to 100 percent of the estimate. Funds required to replenish or increase the cash-flow committed fund also come from this source. An additional \$47.1 million was added to fund a portion of the ad valorem reimbursement to schools. The Office of Management and Enterprise services was awarded an additional \$8.1 million to cover debt service payments for bonds associated with the project to restore the State Capitol Building. In addition, the Department of Education was given \$51.0 million and the Department of Correction was given \$27.6 million in supplementary funding.

Constitutional "Rainy Day" Fund - At the start of each fiscal year, collections that exceed the estimate for the preceding year are automatically deposited in the Rainy Day Fund until the total balance equals 15 percent of the prior year's certified collections for the General Revenue Fund. As a result of different triggers for making the funds available for use, any amounts deposited to the fund are split between unassigned and restricted fund balance. For the fiscal year beginning July 1, 2016, the restricted portion had a balance of \$77.6 million and the unassigned portion had a balance of \$25.9 million, giving the total Constitutional Fund a balance of \$103.5 million.

FOR THE FUTURE

State government will focus on critical issues to ensure Oklahoma capitalizes on its potential for growth. Sustained efforts in creating a business friendly environment are essential for creating a bright, strong future. In addition, the state will continue to improve the efficiency of government through consolidations of information technology and financial services.

Oklahoma's executive management will continue to lead in promoting these key areas to improve the lives of Oklahomans. With the governor's leadership, Oklahoma will invest in a high quality educational system where all students can succeed, advance the improved health of Oklahoma's citizens and encourage investors to allow their money to work and grow in Oklahoma, creating more jobs and higher incomes.

CERTIFICATE OF ACHIEVEMENT

The Government Finance Officers Association of the United States and Canada awarded a Certificate of Achievement for Excellence in Financial Reporting to the State of Oklahoma for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2015. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of a state and local government financial report.

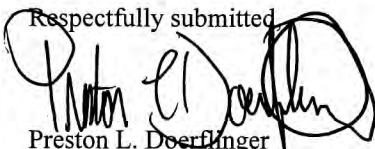

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized CAFR, whose contents conform to program standards. The CAFR must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. Since 1996, the State of Oklahoma has received the Certificate of Achievement. We believe our current report continues to conform to the Certificate of Achievement program requirements, and we are submitting it to GFOA.

ACKNOWLEDGMENTS

The Office of Management and Enterprise Services is pleased to recognize and commend the efforts of the numerous individuals across the state that made this Comprehensive Annual Financial Report possible. Questions or requests for additional information related to this report can be directed to our office at 405-521-2141.

Respectfully submitted,

Preston L. Doerflinger
Director of State Finance and Revenue

In 1929, zinc and lead-mining millionaire, George L. Coleman, built the Coleman Theatre in an attempt to bring culture to Miami. Built in a Spanish Revival style, the classic theater soon attracted hundreds of patrons to vaudeville shows and the popular big screen movies of the past. The theater once played host to the likes of Will Rogers, Tom Mix and the Three Stooges.

INDEPENDENT AUDITOR'S REPORT

TO THE GOVERNOR AND MEMBERS OF THE LEGISLATURE OF THE STATE OF OKLAHOMA

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Oklahoma, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the State's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit:

- the financial statements of the Water Resources Board which represent forty-nine percent of the assets, thirty-two percent of the net position and four percent of the revenues of the enterprise funds;
- the financial statements of the Oklahoma Student Loan Authority, Oklahoma Municipal Power Authority, University of Oklahoma, University of Oklahoma – Health Sciences Center, Oklahoma State University – Foundation, Grand River Dam Authority, Oklahoma State University, Oklahoma Turnpike Authority, University of Oklahoma – Foundation, Oklahoma Housing Finance Authority, and the Regents for Higher Education, which in the aggregate represent eighty-two percent of the assets, eighty-nine percent of the net position and eighty-two percent of the revenues for the aggregate discretely presented component units;
- the financial statements of the Commissioners of the Land Office permanent fund, and the Tobacco Settlement Endowment permanent fund, which in the aggregate represent ninety-eight percent of the assets, ninety-seven percent of the fund balance and ninety-nine percent of the revenues of the permanent funds;
- the financial statements of the Oklahoma Public Employees Retirement System, the Oklahoma Teachers Retirement System, and the Oklahoma Firefighters Pension and Retirement System which in the aggregate represent eighty-seven percent of the assets, eighty-eight percent of the net position and ninety-two percent of the additions of the aggregate remaining fund information;
- the financial statements of the Insurance Department, Department of Wildlife, Department of Commerce, and Oklahoma Capital Improvement Authority which in the aggregate represent seventeen percent of the assets, twenty-four percent of the net position and two percent of the revenues of the general fund.

Those statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for the above-mentioned entities, is based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Oklahoma, as of June 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matters

As discussed in Note 1, the Multiple Injury Trust Fund (MITF) had a net deficit or negative net position of approximately \$397,280,000 at December 31, 2015 primarily due to court awards exceeding the apportionment of special tax revenue collected.

As discussed in Note 1, the State of Oklahoma has adopted the provisions of GASB Statement No. 72, *Fair Value Measurement and Application*; GASB Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That are Not within the Scope of GASB Statement 68*, and *Amendments to Certain Provisions of GASB Statements 67 & 68*; and GASB Statement No 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments* effective July 1, 2015.

Our opinion is not modified with respect to these matters.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, Budgetary Comparison Schedule-Budget to Actual (Non-GAAP Budgetary Basis) General Fund, the Notes to Required Supplementary Information-Budgetary Reporting, and the Pension Data Required by GASB 68 as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

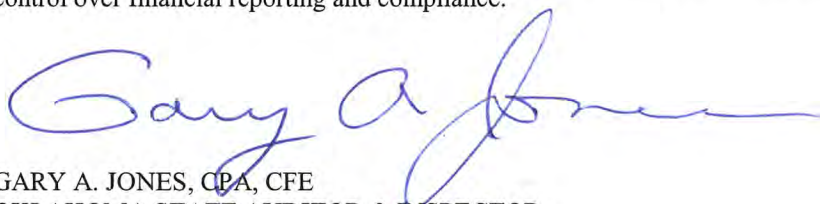

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State of Oklahoma's basic financial statements. The introductory section, combining financial statements, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, based on our audit, the procedures performed as described above, and the reports of the other auditors, the combining financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 21, 2016, on our consideration of the State of Oklahoma's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the State of Oklahoma's internal control over financial reporting and compliance.

Management Discussion & Analysis

MANAGEMENT'S DISCUSSION AND ANALYSIS

Management of the State of Oklahoma provides this *Management's Discussion and Analysis* of the State of Oklahoma's Comprehensive Annual Financial Report (CAFR) for readers of the state's financial statements. This narrative overview and analysis of the financial activities of the State of Oklahoma is for the fiscal year ended June 30, 2016. We encourage readers to consider this information in conjunction with the additional information that is furnished in the Letter of Transmittal, which can be found preceding this narrative, and with the state's financial statements which follow.

FINANCIAL HIGHLIGHTS - PRIMARY GOVERNMENT

Government-Wide Highlights:

Net Position - The assets plus deferred outflows of resources of the state exceeded its liabilities and deferred inflows of resources at fiscal year ending June 30, 2016 by \$18.0 billion (presented as "net position"). Of this amount, \$1.5 billion was reported as "unrestricted net position". Unrestricted net position represents the amount available to be used to meet the state's ongoing obligations to citizens and creditors.

Changes in Net Position - The state's total net position decreased by \$669.7 million (a 3.6% decrease) in fiscal year 2016 after a 7.6% increase during the previous fiscal year. Net position of governmental activities decreased by \$486.1 million (a 3.1% decrease), while net position of the business-type activities showed a decrease of \$183.6 million (a 8.4% decrease).

Fund Highlights:

Governmental Funds - Fund Balances - As of the close of fiscal year 2016, the state's governmental funds reported a combined ending fund balance of \$6.3 billion, a decrease of \$1.0 billion in comparison with the prior year. Of this total amount, \$3.3 billion represents nonspendable fund balance, with \$80.3 million being in the General Fund. Amounts that can be spent include \$820.9 million of restricted fund balance, \$2.1 billion of committed fund balance, \$77.9 million of assigned fund balance, and \$25.9 million of unassigned fund balance. The portion of fund balance which is available is roughly 16.6% of the total governmental expenditures for the year.

Long-term Debt:

The state's total long-term debt obligations showed a net increase of \$77.5 million (4.2%) in the governmental type activities and a net increase of \$87.1 million (11.0%) in the business type activities during the current fiscal year.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the State of Oklahoma's Basic Financial Statements. The state's Basic Financial Statements include three components: 1) Government-Wide Financial Statements, 2) Fund Financial Statements, and 3) Notes to the Financial Statements. This report also contains additional Required Supplementary Information (budgetary schedules) and Other Supplementary Information (Combining Financial Statements) in addition to the Basic Financial Statements themselves. These components are described below:

Basic Financial Statements

The Basic Financial Statements include two kinds of financial statements that present different views of the state – the *Government-Wide Financial Statements* and the *Fund Financial Statements and Combining Major Component Unit Financial Statements*. These financial statements also include the *Notes to the Financial Statements* that explain some of the information in the financial statements and provide more detail.

Government-Wide Financial Statements

The *Government-Wide Financial Statements* provide a broad view of the state's operations in a manner similar to a private-sector business. The statements provide both short-term and long-term information about the state's financial position, which assists in assessing the state's economic condition at the end of the fiscal year. These are prepared using the flow of economic resources measurement focus and the accrual basis of accounting. This means they follow methods that are similar to those used by most businesses. They take into account all revenues and expenses connected with the fiscal year even if cash involved has not been received or paid. The Government-Wide Financial Statements include two statements:

The *Statement of Net Position* presents all of the government's assets and liabilities in addition to deferred inflows and outflows, with the difference between the four reported as "net position". Over time, increases or decreases in the state's net position may serve as a useful indicator of whether the financial position of the state is improving or deteriorating.

The *Statement of Activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will not result in cash flows until future fiscal periods (such as uncollected taxes and earned but unused vacation leave). This statement also presents a comparison between direct expenses and program revenues for each function of the state.

Both of the above financial statements have separate sections for three different types of state programs or activities. These three types of activities are:

Governmental Activities – The activities in this section are mostly supported by taxes and intergovernmental revenues (federal grants). Most services normally associated with state government fall into this category, including education (support for both common public schools and higher education), government administration, health services, legal and judiciary services, museums, natural resources, public safety and defense, regulatory services, social services, and transportation.

Business-Type Activities – These functions normally are intended to recover all or a significant portion of their costs through user fees and charges to external users of goods and services. These business-type activities of the state include the operations of the Oklahoma Unemployment Insurance Trust Fund (by the Oklahoma Employment Security Commission), the state's program for making loans to local government units for the acquisition, development, and utilization of storage and control facilities for water and sewage systems (by the Oklahoma Water Resources Board), administering the insurance benefits for state employees and education workers (by the Employees Group Insurance Department of the Office of Management and Enterprise Services), and the Oklahoma Lottery Commission. These four programs operate with minimal assistance from the governmental activities of the state.

Discretely Presented Component Units – These are operations that have certain independent qualities but for which the state has financial accountability. For the most part, these entities operate similar to private-sector businesses and the business-type activities described above. The state's discretely presented component units are presented in two categories, major and nonmajor. This separation is determined by the relative size of the entities' assets, liabilities, revenues and expenses in relation to the total of all component units.

The state's six discretely presented major component units are:

- Oklahoma Student Loan Authority
- Oklahoma Housing Finance Agency
- Oklahoma Turnpike Authority
- Grand River Dam Authority
- Oklahoma Municipal Power Authority
- Higher Education Component Unit

The state's seven other (or nonmajor) component units are combined into a single column for reporting in the Fund Financial Statements. These nonmajor component units are:

- Oklahoma Educational Television Authority
- Oklahoma Industrial Finance Authority
- Multiple Injury Trust Fund
- University Hospitals Authority
- Oklahoma Development Finance Authority
- Oklahoma Capital Investment Board
- Oklahoma State University Medical Authority

Complete financial statements of the individual component units can be obtained from their respective administrative offices. Addresses and other additional information about the state's component units are presented in the Notes to the Financial Statements.

The Government-Wide Financial Statements can be found immediately following this discussion and analysis.

Fund Financial Statements and Major Component Unit Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The state, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The Fund Financial Statements focus on individual parts of the state government, reporting the state's operations in more detail than the Government-Wide Financial Statements. All of the funds of the state can be divided into three categories. It is important to note that these fund categories use different accounting approaches and should be interpreted differently. The three categories of funds are:

Governmental Funds Financial Statements – Most of the basic services provided by the state are financed through governmental funds. Governmental funds are essentially used to account for the same functions as governmental activities in the Government-Wide Financial Statements. However, unlike the Government-Wide Financial Statements, the Governmental Fund Financial Statements focus on near-term inflows and outflows of spendable resources. They also focus on the balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the government's near-term financing requirements. This is known as using the flow of current financial resources measurement focus approach and the modified accrual basis of accounting. These statements provide a detailed short-term view of the state's finances that assists in determining whether there will be adequate financial resources available to meet the current needs of the state.

Because the focus of governmental funds is narrower than that of the Government-Wide Financial Statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the Government-Wide Financial Statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. The Governmental Fund Balance Sheet and the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances both provide a reconciliation to facilitate this comparison between governmental funds and the governmental activities. These reconciliations are presented on the page immediately following each Governmental Fund Financial Statement.

The state has four governmental funds. All four governmental funds are considered major funds for financial reporting purposes. These four major funds are – the General Fund, the Commissioners of the Land Office Permanent Fund, the Department of Wildlife Conservation Permanent Fund, and the Tobacco Settlement Endowment Permanent Fund. Each major fund is presented in a separate column in the Governmental Fund Balance Sheet and in the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances.

The basic Governmental Funds Financial Statements can be found immediately following the Government-Wide Financial Statements.

Proprietary Funds Financial Statements – These funds are used to show activities that operate more like those of commercial enterprises. Because these funds charge fees for services provided to outside customers including local governments, they are known as enterprise funds. Proprietary funds provide the same type of information as the

Government-Wide Financial Statements, only in more detail. Like the Government-Wide Financial Statements, Proprietary Fund Financial Statements use the accrual basis of accounting. There is no reconciliation needed between the Government-Wide Financial Statements for business-type activities and the Proprietary Fund Financial Statements.

The state has four enterprise funds, with all four being considered major proprietary funds for presentation purposes. As previously mentioned, they are the operations of the Oklahoma Unemployment Insurance Trust Fund (by the Oklahoma Employment Security Commission), the state's program for making loans to local government units for the acquisition, development, and utilization of storage and control facilities for water and sewage systems (by the Oklahoma Water Resources Board), the administration of insurance benefits for state employees by the Employees Group Insurance Department (EGID) of the Office of Management and Enterprise Services, and the Oklahoma Lottery Commission.

The basic Proprietary Funds Financial Statements can be found immediately following the Governmental Fund Financial Statements.

Fiduciary Funds and Similar Component Units Financial Statements – These funds are used to account for resources held for the benefit of parties outside the state government. Fiduciary funds are not reflected in the Government-Wide Financial Statements because the resources of these funds are not available to support the state's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. They use the accrual basis of accounting.

The state's fiduciary funds are the Pension Trust Funds (seven separate retirement plans for employees), and the Agency Funds (which account for the assets held for distribution by the state as an agent for other governmental units, other organizations or individuals). Individual fund detail can be found in the Combining Financial Statements described below.

The basic Fiduciary Funds and Similar Component Units' Financial Statements can be found immediately following the Proprietary Fund Financial Statements.

Component Units Financial Statements – As mentioned above, these are operations for which the state has financial accountability but they have certain independent qualities as well, and they operate similar to private-sector businesses. The Government-Wide Financial Statements present information for the component units in a single column of the Statement of Net Position. Also, some information on the Statement of Activities is aggregated for component units. The Combining Statement of Net Position and Combining Statement of Activities provide detail for each major component unit and the nonmajor component units in aggregate. Individual nonmajor component unit detail can be found in the Combining Financial Statements described below.

The basic Combining Financial Statements for major component units can be found immediately following the Fiduciary Fund and Similar Component Unit's Financial Statements.

Notes to the Financial Statements

The Notes to the Financial Statements provide additional information that is essential to a full understanding of the data provided in the Government-Wide and the Fund Financial Statements. The Notes to the Financial Statements can be found immediately following Component Units Financial Statements.

Required Supplementary Information and Budget Schedule

The Basic Financial Statements are followed by a section of Required Supplementary Information. This section includes the Budgetary Comparison Schedule – Budget to Actual (Non-GAAP Budgetary Basis), which includes a schedule of reconciliation between the statutory fund balance for budgetary purposes and the fund balance for the General Fund as presented in the Governmental Fund Financial Statements.

Combining Financial Statements

The Combining Financial Statements referred to earlier in connection with fiduciary funds and nonmajor component units are presented following the Required Supplementary Information. The total of the columns of these Combining Financial Statements carry to the applicable fund financial statement.

Budgetary Detail

The Schedule of Expenditures and Intra-Agency Transfers – Detail Budget to Actual Comparison is presented in this section. It provides detail comparisons of expenditures and intra-agency transfers at the legal level of control. Comparisons can be made between the original budget, final budget, and actual.

Pension Detail

With the implementation of GASB Statement 68, *Accounting and Financial Reporting for Pensions—an amendment of GASB Statement No. 27*, certain information related to Net Pension Liability and funding of pension plans is reported in the Required Supplementary Information section.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net Position

As noted earlier, net position may serve over time as a useful indicator of a government's financial condition. The state's combined net position (government and business-type activities) totaled \$18.0 billion at the end of 2016, compared to \$18.7 billion at the end of the previous year.

The largest portion of the state's net position (60.5%) reflects its investment in capital assets such as land, buildings, equipment, and infrastructure (road, bridges, and other immovable assets), less any related outstanding debt used to acquire those assets. The state uses these capital assets to provide services to citizens; consequentially, these assets are not available for future spending. Although the state's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Unrestricted	978,832	1,162,593	528,198	582,633	1,507,030	1,745,226
Total Net Position	\$ 15,984,656	\$ 16,470,724	\$ 1,999,642	\$ 2,183,243	\$ 17,984,298	\$ 18,653,967

A portion of the state's net position (31.2%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position may be used to meet the state's ongoing obligations to citizens and creditors. Internally imposed designations of resources are not presented as restricted net position.

At the end of the current fiscal year, the state is able to report positive balances in all three categories of net position, both for the government as a whole, as well as for its separate governmental and business-type activities. The same situation held true for the prior fiscal year.

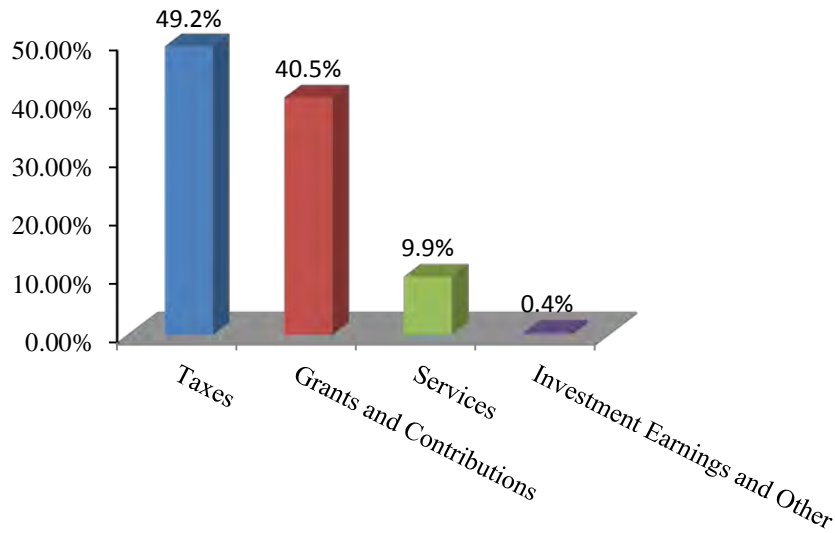

Changes in Net Position

The state's governmental net position decreased by \$669.7 million, or 3.6%. Approximately 49% of the state's total revenue came from taxes, while 41% resulted from grants and contributions (including federal aid). Charges for various goods and services provided 10% of the total revenues. The state's expenses cover a range of services. The largest expenses were for health services, general education, and social services. In 2016, governmental activity expenses exceeded program revenues, resulting in the use of \$9.0 billion in general revenues (mostly taxes). The business-type activities' expenses exceeded program revenues for 2016 by \$104.6 million.

**Revenues – Governmental Activities
Fiscal Year 2016**

**Expenses – Governmental Activities
Fiscal Year 2016**

Governmental Activities

Governmental activities decreased the state's net position by \$486.1 million. Tax revenues were down in four of the five major types. Total revenues for governmental activities were down by \$480.0 million, or 2.8%, in 2016. The state showed a \$71.2 million decrease in individual income taxes, a \$72.3 million decrease in sales taxes, a \$9.8 million decrease in motor vehicle taxes, a \$11.9 million increase in corporate income taxes, and a \$259.4 million decrease in gross production taxes during 2016. Additionally, there was a \$40.6 million increase in Federal Grant revenue.

A comparison of the cost of services by function for the state's governmental activities is shown below, along with the revenues used to cover the net expenses of the governmental activities (expressed in thousands):

		Governmental Activities
Expenses Net of Program Revenues:		
Education-General	\$	(2,596,526)
Education-Payment to Higher Education		(942,707)

Expenses and Program Revenues – Governmental Activities
Fiscal Year 2016
(expressed in thousands)

Business-Type Activities

The business-type activities decreased the state's net position by \$183.6 million, an 8.4% decrease, to \$2.0 billion. This decrease comes after a decrease of 0.9% in the prior year. The decrease primarily resulted from The Oklahoma Unemployment Insurance Trust Fund's (OUITF) increase in benefit payments of \$110.5 million and an \$85.9 million increase in incurred claims by Employee's Group Insurance Department of the Office of Management and Enterprise Services (EGID). The OUITF net position decreased by \$151.6 million, the Oklahoma Water Resources Board's (OWRB) net position increased by \$32.7 million, the Employees Group Insurance Department of the Office of Management and Enterprise Services net position decreased \$67.2 million, and the Oklahoma Lottery Commission had an increase in net position of \$2.5 million.

FINANCIAL ANALYSIS OF THE STATE'S INDIVIDUAL FUNDS

As noted earlier, the state uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the state's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the state's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the state's governmental funds reported combined ending fund balances of \$6.3 billion, a decrease of \$1.0 billion from the prior year. The largest portion \$3.3 billion (52.5%) of this total amount constitutes nonspendable fund balance, which includes amounts that cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact. In addition \$820.9 million (13.1%) of fund balance is classified as restricted meaning that the funds can only be used for specific purposes defined by enabling legislation or externally imposed limitations. Amounts that can only be used for specific purposes pursuant to constraints of the government's highest level of decision-making authority are reported as committed fund balance. Committed fund balance represents \$2.1 billion (32.8%) of total fund balance. Amounts that are constrained by the government's intent to be used for specific purposes, but are neither restricted or committed are reported as assigned fund balance. Assigned fund balance represents \$77.9 million (1.2%) of total fund balance. The remaining funds that are not classified in any of the other four categories represent unassigned fund balance. For the fiscal year ended June 30, 2016 the state has \$25.9 million (0.4%) classified as unassigned fund balance.

The General Fund is the chief operating fund of the state. At the end of the current fiscal year, the total fund balance decreased \$991.9 million to \$2.9 billion. This 33.6% decrease from the prior year is primarily due to reduced revenue collections.

As a measure of the General Fund's liquidity, it may be useful to compare the portion of fund balance not classified as nonspendable (spendable) and total fund balance to total fund expenditures. Spendable fund balance represents 16.2% of total General Fund expenditures, while total fund balance represents 16.6% of that same amount.

The Commissioners of the Land Office manages land and cash set aside by the Federal Government for the use and benefit of public education in Oklahoma to generate maximum earnings for Trust beneficiaries. The Trust beneficiaries are common education and thirteen Oklahoma colleges and universities. This year total program revenues were \$87.6 million compared to \$127.6 million for the prior year. Distributions to beneficiaries totaled \$132.3 million for fiscal year 2016 with \$31.6 million disbursed to universities and colleges and \$95.4 million disbursed to public schools, and \$5.3 million disbursed for public buildings. This was a decrease of \$24 million from the apportionments of fiscal year 2015.

The Department of Wildlife's Lifetime Licenses' fund balance increased by 2.7% to \$83.6 million. This increase occurred due to collections for licenses.

The Tobacco Settlement Endowment Permanent Fund holds certain moneys that are received in settlement of claims by the state against tobacco manufacturers. Earnings from these moneys are to be utilized for research, education, prevention

and treatment of tobacco related diseases and certain other health programs. This fund reported a \$21.8 million net increase in fund balance with \$56.1 million coming in from the settlement payment by tobacco manufacturers for 2016. The prior year's payment was about \$59.3 million. The state now has \$1.0 billion in the permanent fund.

Proprietary Funds

The state's Proprietary Fund Financial Statements provide the same type of information found in the Government-Wide Financial Statements for business-type activities. This information is presented on the same basis of accounting, but provides more detail.

As discussed in the business-type activities section above, the state's net position decreased by \$183.6 million as a result of operations in the proprietary funds. This resulted from a \$151.6 million decrease in net position by the Oklahoma Unemployment Insurance Trust Fund (OUITF), an increase in net position of \$32.7 million by the Oklahoma Water Resources Board's (OWRB) program for making loans to local government units for drinking and waste water facilities, a decrease in net position of \$67.2 million by the Employees Group Insurance Department of the Office of Management and Enterprise Services (EGID) for insurance benefit administration, and an increase in net position of \$2.5 million by the Oklahoma Lottery Commission.

The OUITF decreased in net position primarily as a result of an increase in benefit payments of \$110.5 million.

The OWRB increased net position by \$32.7 million which was \$8.2 million more than the \$24.5 million in the prior year.

The EGID decreased net position by \$67.2 million. This was primarily due to an \$85.9 million increase in incurred claims.

GENERAL FUND BUDGETARY HIGHLIGHTS

The differences between the original budget and the final amended budget amounted to \$160.7 million with \$27.0 million (16.8%) coming from budget carryovers from fiscal year 2015. To reimburse school districts for ad valorem tax shortfalls related to state property, the Department of Education was transferred \$47.1 million (29.3%). For debt services related to repairs to the Capitol Building, the Office of Management and Enterprise Services was granted an additional \$8.1 (5.0%) in funds. The remaining \$78.6 million (48.9%) was attributable to supplemental appropriations to the Department of Education (\$51.0) and Department of Corrections (\$27.6).

The difference between the final budget and the actual collections amounted to \$146.6 million less than the budget. Due to economic factors related to the economic downturn suffered by the state, this variance was not unexpected.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

The state's investment in capital assets for its governmental and business-type activities as of June 30, 2016, amounts to \$22.6 billion, net of accumulated depreciation of \$11.0 billion, leaving a net book value of \$11.6 billion. This investment in capital assets includes land, buildings, improvements, equipment, infrastructure and construction in progress. Infrastructure assets are items that are normally immovable and of value only to the state, such as roads, bridges, streets and sidewalks, drainage systems, lighting systems, and similar items.

The total increase in the state's investment in capital assets for the current fiscal year was about 3.3% in terms of net book value. Actual expenditures to purchase or construct assets that are capitalized were \$948.1 million for the year, a \$107.5 million (12.8%) increase from the prior year. Most of this amount was used to construct or reconstruct roads and bridges. Depreciation charges for the year totaled \$537.1 million. Additional information on the state's capital assets can be found in Note 5 of the Notes to the Financial Statements of this report.

Debt Administration

The authority of the state to incur debt is described in Article X, Section 25, of the Oklahoma Constitution. In 1987, the state created the Council of Bond Oversight. The Council meets to review all proposed debt issuances. The Council must

approve each financing plan before obligations are issued. The legislation that created the Council of Bond Oversight also created the position of State Bond Advisor, who advises the Council and must approve the pricing and fees associated with any debt issuance.

General obligation bonds are backed by the full faith and credit of the state, including the state's power to levy additional taxes to ensure repayment of the debt. Accordingly, all general obligation debt currently outstanding was approved by a vote of the citizens. The general obligation bonds of the state are rated "Aa2" by Moody's Investors Service, "AA+" by Fitch Investors Service, and "AA+" by Standard & Poor's Corp. Before a 1993 general obligation bond program, except for refunding bonds, the state last issued general obligation bonds in 1968. Certain maturities of those bonds were advance refunded in 1977, 2003, 2011 and again in 2013.

The State of Oklahoma's total debt increased by \$77.5 million, or 4.2%, during the current fiscal year. Business-type activities' debt increased by \$87.1 thousand.

Additional information on the state's long-term debt obligations can be found in Notes 9, 10, and 11 of the Notes to the Financial Statements of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The Oklahoma unemployment rate was consistently lower than that for the nation between 1997 and 2015. However, the national unemployment rate is currently 4.9% while Oklahoma's has surpassed that at 5.2% for the same time period.

Inflationary trends in the region continue to compare favorably to national indices.

These factors are considered by legislative leaders and management in preparing the state's budget for future years. (See below.)

Budget and Revenue Collections

The State Constitution requires adoption of a balanced budget. The revenue certification provided by the State Board of Equalization is the basis for development of the state's General Revenue Fund (GRF) budget. The GRF is a budgetary cash account included in the state's General Fund.

If new laws or changes in existing laws are passed that affect revenues, the Equalization Board meets to certify the effects of these changes on the official estimate. Appropriations in any fiscal year may not exceed 95% of the official revenue estimate (plus any cash funds on-hand and available for appropriation).

If collections to a certified cash account are insufficient to cover the appropriations from that account, the Constitution requires that appropriations be reduced proportionately to all agencies receiving an appropriation from that source. The Office of Management and Enterprise Services has the statutory duty to monitor revenue collections and, if warranted, to make reductions in appropriations to prevent deficit spending.

The Legislature may, in regular or special session, make selective reductions in spending or consider revenue increases.

Fiscal Year 2017

Total General Revenue Fund collections through the first four months of fiscal year 2017 were \$1.6 billion, which is \$30.5 million, or 1.8 percent, below the estimate and \$154.3 million, or 8.7 percent, below prior year collections. At this time last year, receipts were 2.8 percent below the estimate for the first four months of fiscal year 2016.

"While we're not in as bad of shape as we were at this time last year, there are still some troubling trends, such as oil prices remaining low and sales tax collections continuing to be down," said Secretary of Finance, Administration and Information Technology Preston L. Doerflinger. "While it's not time to jump to conclusions, we do want to be ready to tackle the challenges ahead."

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the State of Oklahoma's finances for all of Oklahoma's citizens, taxpayers, customers, and investors and creditors. This financial report seeks to demonstrate the state's accountability for the money it receives. Questions concerning any of the information provided in this report or requests for additional information should be addressed to: State of Oklahoma, Office of Management and Enterprise Services, 5005 N. Lincoln, Suite 100, Oklahoma City, OK 73105 or servicedesk@omes.ok.gov.

Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position

Total Fund Balance - Governmental Funds	\$ 6,274,023
--	---------------------

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds. These assets consist of:

Land	1,772,954	
Buildings and Improvements	1,589,618	
Equipment	567,658	
Infrastructure	18,477,965	
Construction in Progress	193,284	
Accumulated Depreciation	<u>(11,003,004)</u>	
		11,598,475

Some of the state's revenues will be collected after year-end but are not available soon enough to pay for the current period's expenditures and therefore are considered to be unearned.	123,661
---	---------

The state's portion of the net pension asset (\$34,896), net pension liability (\$452,660), deferred inflows (\$431,105), and deferred outflows (\$340,886) as determined by the actuarial calculations of the pension systems created by statute.	(507,983)
--	-----------

Certain bonds issued by the state are for the purpose of refunding older bond issues. Some bonds that are refunded are done so at a loss to the state. These losses are costs in the funds, but are amortized over the life of the refunding bonds on the statement of net position.	2,212
--	-------

Some liabilities are not due and payable in the current period and therefore are not reported in the funds. Those liabilities consist of:

Notes Payable	(30,520)	
General Obligation and Revenue Bonds	(1,165,163)	
Capital Leases and Certificates of Participation	(4,202)	
Bond Issue Premiums	(74,241)	
Accrued Interest on Bonds	(24,213)	
Compensated Absences	(159,921)	
Other postemployment benefits	(774)	
Claims and Judgements	<u>(46,698)</u>	
		(1,505,732)

Net Position of Governmental Activities	<u>\$ 15,984,656</u>

Fund Balances - End of Year	\$ 2,949,845	\$ 2,221,514	\$ 83,555	\$ 1,019,109	\$ 6,274,023

The Notes to the Financial Statements are an integral part of this statement.

Reconciliation of the Governmental Funds Schedule of Revenues, Expenditures and Changes in Fund Balances to the Statement of Activities

Net Change in Fund Balances - Total Governmental Funds \$ (1,025,784)

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statements of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays (\$917,052) exceeded depreciation (\$536,508) in the current period. 380,544

In the statement of activities, only the gain on the sale of assets is reported, whereas in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net position differs from the change in fund balance by the cost of the asset sold. (5,564)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. 11,588

Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. This is the amount by which bond payments (\$188,948) exceeded proceeds (\$39,535). 149,413

Bond issuance premiums and discounts are other financing sources or uses to governmental funds, but are deferred liabilities in the statement of net position. This is the amount of bond issue premiums. (5,276)

The amount by which the state's portion of net pension asset (\$7,857) decreased, net pension liability (\$226,408) increased, deferred inflows from pensions (\$146,297) decreased, and deferred outflows from pensions (\$94,821) increased compared to the prior fiscal year. 6,853

For assets acquired as capital leases, the amount financed is reported in the governmental funds as a source of financing. However, capital leases are long-term liabilities in the statement of net position. This is the amount by which the payment of principal (\$2,324) exceeded the addition of new capital leases (\$0). 2,324

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds.

Accretion of bond premiums	23,661	
Decrease in entity-wide interest payable	(1,902)	
Decrease in compensated absences	584	
Amortization of losses on refunded bonds	(749)	
Increase in other postemployment benefit liability	(134)	
Decrease in claims and judgments payable	(21,626)	
		(166)

Description of Major Component Units

The State of Oklahoma has six major component units which are described below:

OKLAHOMA STUDENT LOAN AUTHORITY

525 Central Park Drive, Suite 600, Oklahoma City, Oklahoma 73105
www.osla.org

The Authority provides loans to qualified persons at participating educational institutions through the issuance of tax-exempt revenue bonds or other debt obligations.

OKLAHOMA HOUSING FINANCE AGENCY

100 N.W. 63rd Street, Suite 200, Oklahoma City, Oklahoma 73116
www.ohfa.org

The Agency is authorized to issue revenue bonds and notes in order to provide funds to promote the development of adequate residential housing and other economic development for the benefit of the State of Oklahoma.

OKLAHOMA TURNPIKE AUTHORITY

P.O. Box 11357, Oklahoma City, Oklahoma 73111
www.pikepass.com

The Authority is authorized to construct, maintain, repair, and operate turnpike projects at locations authorized by the Legislature and approved by the Department of Transportation. The Authority receives revenues from turnpike tolls and a percentage of the turnpike concessions sales. The Authority issues revenue bonds to finance the cost of turnpike projects.

GRAND RIVER DAM AUTHORITY

P.O. Box 409, Vinita, Oklahoma 74301
www.grda.com

The Authority controls the waters of the Grand River system to generate water power and electric energy and to promote irrigation, conservation and development of natural resources. The Authority produces and distributes electrical power for sale to customers primarily located in northeastern Oklahoma.

OKLAHOMA MUNICIPAL POWER AUTHORITY

P.O. Box 1960, Edmond, Oklahoma 73083
www.ompa.com

The Authority provides a means for the municipal electric systems in the state to jointly plan, finance, acquire, and operate electrical power supply facilities necessary to meet the electrical energy requirements of their consumers. The Authority also sells electric power to its member municipalities.

HIGHER EDUCATION

Higher Education is primarily comprised of colleges and universities which are members of the Oklahoma State System of Higher Education. The System includes the following colleges and universities:

COMPREHENSIVE UNIVERSITIES

University of Oklahoma
Oklahoma State University

OTHER FOUR YEAR UNIVERSITIES

University of Central Oklahoma
East Central University
Northeastern State University
Northwestern Oklahoma State University
Southeastern Oklahoma State University
Southwestern Oklahoma State University
Cameron University
Langston University
Oklahoma Panhandle State University
Rogers State University
University of Science and Arts of Oklahoma

TWO YEAR COLLEGES

Carl Albert State College
Connors State College
Eastern Oklahoma State College
Redlands Community College
Murray State College
Northeastern Oklahoma A & M College
Northern Oklahoma College
Oklahoma City Community College
Rose State College
Seminole State College
Tulsa Community College
Western Oklahoma State College

Each institution which is a member of the Oklahoma State System of Higher Education (the "System") is governed by a Board of Regents. The Boards of Regents consist of five to ten members appointed by the governor, with the advice and consent of the Senate. The colleges and universities are funded through state appropriations, tuition, federal grants, and private donations and grants. Also included in the Higher Education Component Unit are the following entities:

Oklahoma State Regents for Higher Education serves as the coordinating board of control for the System.

Regional University System of Oklahoma Regents has legislative powers and duties to manage, supervise, and control operation of the six regional state universities which are the University of Central Oklahoma, East Central University, Northeastern State University, Northwestern Oklahoma State University, Southeastern Oklahoma State University, and Southwestern Oklahoma State University.

University Center of Southern Oklahoma was established to make higher education available to those persons who might otherwise not be able to attend an institution of higher learning in southern Oklahoma. Students enrolled in the Program earn credit applicable toward academic degrees and certificates at participating institutions in the System.

University Center at Ponca City was established to make higher education available to those persons who might otherwise not be able to attend an institution of higher learning in northern Oklahoma. Students enrolled in the Program earn credit applicable toward academic degrees and certificates at participating institutions in the System.

Rose State College Technical Area Education District, South Oklahoma City Area School District, and Tulsa Community College Area School District #18 were created to provide secondary vocational, technical, and adult education programs for persons within their defined geographical boundaries.

Notes to the Financial Statements

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FISCAL YEAR ENDED JUNE 30, 2016

Note 1. Summary of Significant Accounting Policies

The accompanying financial statements of the State of Oklahoma (the “state”) have been prepared in conformity with generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB).

In February of 2015, the Governmental Accounting Standards Board (GASB) issued Statement 72 *Fair Value Measurement and Application*. The purpose of this statement is to address accounting and financial reporting issues related to fair value measurements.

This Statement provides guidance for determining a fair value measurement for financial reporting purposes. This Statement also provides guidance for applying fair value to certain investments and disclosures related to all fair value measurements.

The state was required to implement this standard for the fiscal year ended June 30, 2016.

In June of 2015, GASB Statement No. 73 *Accounting and Financial Reporting for Pension and Related assets That Are not within the Scope of Statement 68, and amendments to Certain Provisions of GASB Statements 67 and 68* establishes requirements for defined benefits pensions that are not within the scope of Statement No. 68, *Accounting and Financial Reporting for Pensions*, as well as for the assets accumulated for purposes of providing those pensions. In addition, it establishes requirements for defined contribution pensions that are not within the scope of Statement 68. It also amends certain provisions of Statement No. 67, *Financial Reporting for Pension Plans*, and Statement 68 for pension plans and pensions that are within their respective scopes.

The requirements of this Statement extend the approach to accounting and financial reporting established in Statement 68 to all pensions, to reflect that for accounting and financial reporting purposes, any assets accumulated for pensions that are provided through pension plans that are not administered through trusts that meet the criteria specified in Statement 68 should not be considered pension plan assets.

The state was required to implement this standard for the fiscal year ended June 30, 2016.

In June of 2015, GASB Statement No. 76 *The Hierarchy of Generally Accepted Accounting Principles for the State and Local Governments* identifies, in the context of the current governmental financial reporting environment, the hierarchy of GAAP. The “GAAP hierarchy” consists of the sources of accounting principles used to prepare financial statements of state and local governmental entities in conformity with GAAP and the framework for selecting those principles. This statement reduces the GAAP hierarchy to two categories of authoritative GAAP and addresses the use of authoritative and non-authoritative literature in the event that the accounting treatment for a transaction or other event is not specified within a source of authoritative GAAP.

The result of this Statement is financial reporting guidance application with less variation, which improves the usefulness of financial statement information.

The state was required to implement this standard for the fiscal year ended June 30, 2016.

New Accounting Pronouncements Issues Not Yet Adopted:

GASB Statement No. 74 *Financial Reporting for Postemployment Benefit Plans Other Than Pensions* replaces Statements No. 43, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, as amended, and No. 57, *OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans*. It also includes requirements for defined contribution OPEB plans that replace the requirements for those OPEB plans in Statement No. 25, *Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans*, as amended, Statement 43, and Statement 50, *Pension Disclosures*.

GASB Statement No. 75 *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* addresses accounting and financial reporting for OPEB that is provided to the employees if the state and local governmental employers. This Statement establishes standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources and expense/expenditures. For defined benefit OPEB, this Statement identifies the methods and assumptions that are required to be used to project benefit payments, discount projected benefit payments to their actuarial present value and attribute that present value to periods of employee service. Note disclosures and required supplementary information requirements about defined benefit OPEB also are addressed.

GASB Statement No. 77 *Tax Abatement Disclosures* requires disclosure of tax abatement information and subsequent impact on financial position and results of operations, including the ability to raise resources in the future.

GASB Statement No. 78 *Pensions Provided Through Certain Multiple-Employer Defined Benefit Pension Plans*. This Statement addresses a practice issue regarding the scope and applicability of Statement No. 68, *Accounting and Financial Reporting for Pensions*. This issue is associated with pensions provided through certain multiple-employer defined benefit pension plans and to state or local governmental employers whose employees are provided with such pensions.

GASB Statement No. 80 *Blending Requirements for Certain Component Units – An Amendment of GASB Statement No. 14* amends the blending requirements for the financial statement presentation of component units of all state and local governments. The additional criterion requires blending of a component unit incorporated as a not-for-profit corporation in which the primary government is the sole corporate member. The additional criterion does not apply to component units included in the financial reporting entity pursuant to the provisions of Statement No. 39, *Determining Whether Certain Organizations Are Component Units*.

GASB Statement No. 81 *Irrevocable Split-Interest Agreements* requires that a government that receives resources pursuant to an irrevocable split-interest agreement recognize assets, liabilities, and deferred inflows of resources at the inception of the agreement. Furthermore, this Statement requires that a government recognize assets representing its beneficial interests in irrevocable split-interest agreements that are administered by a third party, if the government controls the present service capacity of the beneficial interests. This Statement requires that a government recognize revenue when the resources become applicable to the reporting period.

GASB Statement No. 82 *Pension Issues – An Amendment of GASB Statements No. 67, No. 68, and No. 73* addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements.

The accompanying financial statements present the financial position of the state and the various funds and fund types, the results of operations of the state and the various funds and fund types, and the cash flows of the proprietary funds. The financial statements are presented as of June 30, 2016, and for the year then ended. The financial statements include the various agencies, boards, commissions, public trusts, authorities and other organizational units governed by the Oklahoma State Legislature and/or Constitutional Officers of the State of Oklahoma.

A. Reporting Entity

The state has considered all potential component units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the state are such that exclusion would cause the state's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the state to impose its will on that organization or (2) the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the state. Local school districts (the state's support of the public education system is reported in the General Fund) and other local authorities of various kinds that may meet only one of the criteria for inclusion in this report have not been included.

As required by generally accepted accounting principles (GAAP), these financial statements present the State of Oklahoma (the Primary Government) and its component units.

Discrete Component Units

Component units are entities which are legally separate from the state, but are financially accountable to the state, or whose relationships with the state are such that exclusion would cause the state's financial statements to be misleading or incomplete. Separately issued independent audit reports may be obtained from the Office of Management and Enterprise Services, 5005 North Lincoln Blvd., Suite 100, Oklahoma City, Oklahoma 73105. The audit reports may also be obtained from the respective component units at the addresses presented on the description page of the Fund Financial Statements section for the Major Component Units, and the description page in the Combining Financial Statement section of this report for the Non-Major Component Units.

The Component Units columns of the government-wide financial statements include the financial data of the following entities:

MAJOR COMPONENT UNITS

Oklahoma Student Loan Authority provides loan funds to qualified persons at participating educational institutions through the issuance of tax-exempt revenue bonds or other debt obligations. The Authority is composed of five members appointed by the governor, with the advice and consent of the Senate. The state can impose its will on the Authority by its ability to veto or modify the Authority's decisions. The Authority was audited by other independent auditors for the year ended June 30, 2016, and their report, dated November 2, 2016 has been previously issued under separate cover.

Oklahoma Housing Finance Agency is authorized to issue revenue bonds and notes in order to provide funds to promote the development of residential housing and other economic development for the benefit of citizens. In addition, the Agency administers Section 8 Housing Assistance Payments programs for the U.S. Department of Housing and Urban Development. The Board of Trustees consists of five members appointed by the governor. The state can impose its will on the Agency by its ability to veto or modify the Agency's decisions. The Agency was audited by other independent auditors for the year ended September 30, 2015, and their report, dated January 27, 2016 has been previously issued under separate cover.

Oklahoma Turnpike Authority constructs, maintains, repairs, and operates turnpike projects at locations authorized by the Legislature and approved by the State Department of Transportation. The Authority receives its revenues from turnpike tolls and a percentage of turnpike concession sales. The Authority issues revenue bonds to finance turnpike projects. The Authority consists of the governor and six members appointed by the governor, with the advice and consent of the Senate. The state can impose its will on the Authority by its ability to veto or modify the Authority's decisions. The Authority was audited by other independent auditors for the year ended December 31, 2015, and their report, dated March 31, 2016 has been previously issued under separate cover.

Grand River Dam Authority controls the waters of the Grand River system to develop and generate water power and electric energy, and to promote irrigation, conservation and development of natural resources. The Authority produces and distributes electrical power for sale to customers primarily located in northeastern Oklahoma. The customers consist of rural electric cooperatives, municipalities, industries and off-system sales. The seven member Board of Directors consists of the General Manager of the Oklahoma Association of Electric Cooperatives, the Executive Director of the Municipal Electric Systems of Oklahoma, and appointees by the governor, the Speaker of the House of Representatives, and the president pro tempore of the Senate. The state can impose its will on the Authority by its ability to veto or modify the Authority's decisions. The Authority was audited by other independent auditors for the year ended December 31, 2015, and their report, dated March 30, 2016 has been previously issued under separate cover.

Oklahoma Municipal Power Authority provides a means for the municipal electric systems in the state to jointly plan, finance, acquire, and operate electrical power supply facilities. Facilities are financed through the issuance of revenue bonds, which are approved by the state's Bond Oversight Commission. Exclusion of the Component Unit would cause the state's financial statements to be misleading or incomplete. The Authority was audited by other independent auditors for the year ended December 31, 2015, and their report, dated March 30, 2016 has been previously issued under separate cover.

Higher Education Component Unit - This component unit is primarily comprised of the 25 colleges and universities that are members of the Oklahoma State System of Higher Education (the System). All of the colleges and universities have foundations that receive and hold economic resources for the benefit of their associated entity. These foundations are component units of their respective college or university and are included as part of the Higher Education Component Unit. Separately issued independent audit reports for each college, university, foundation, or other included entity may be obtained from the Office of Management and Enterprise Services, 5005 North Lincoln Blvd., Suite 100, Oklahoma City, Oklahoma 73105. Each institution in the System is governed by a Board of Regents. The Boards of Regents consist of five to ten members appointed by the governor, with the advice and consent of the Senate. The state can impose its will on each institution by its ability to modify and approve their budget. The colleges and universities are funded through state appropriations, tuition, federal grants, and private donations and grants. Also included in the Higher Education Component Unit are the following entities:

- **Oklahoma State Regents for Higher Education** serves as the coordinating board of control for the System. The Board of Regents for Higher Education consists of nine members appointed by the governor, with the advice and consent of the Senate. The state can impose its will on the State Regents for Higher Education by its ability to modify and approve their budget.
- **Regional University System of Oklahoma** has legislative powers and duties to manage, supervise, and control operation of the six regional state universities which are the University of Central Oklahoma, East Central University, Northeastern State University, Northwestern Oklahoma State University, Southeastern Oklahoma State University, and Southwestern Oklahoma State University. The Board consists of the State Superintendent of Public Instruction and eight members appointed by the governor, with the advice and consent of the Senate. The state can impose its will on the Board of Regents by its ability to modify and approve their budget. Each of the six regional state universities has one or more foundations that are component units of their respective university and are included in the Higher Education Component Unit.
- **University Center of Southern Oklahoma** was established to make higher education available to those persons who might otherwise not be able to attend an institution of higher learning. Students enrolled in the Center earn credit applicable toward academic degrees and certificates at participating institutions in the System. Participating Institutions are: East Central University, Murray State College, and Southeastern Oklahoma State University. The Center is administered by a Board of Trustees appointed by the governor, with the advice and consent of the Senate. The state can impose its will on the Center by its ability to modify and approve their budget.
- **Rose State College Technical Area Education District, South Oklahoma City Area School District, and Tulsa Community College Area School District #18** were created to provide postsecondary vocational, technical, and adult education programs for persons within their defined geographical boundaries. The primary source of operating funds is ad valorem taxes assessed against real property located in their districts. The Districts are component units of Rose State College, Oklahoma City Community College, and Tulsa Community College, respectively.
- **University Center at Ponca City** was established to make educational program resources in the Oklahoma State System of Higher Education available to the citizens in Northern Oklahoma and the Ponca City community. The Center is administered by a Board of Trustees consisting of nine members appointed by the governor with the advice and consent of the Senate. The state can impose its will on the Center by its ability to modify and approve their budget.

NONMAJOR COMPONENT UNITS

Oklahoma Educational Television Authority (OETA) was created to “make educational television services available to all Oklahoma citizens on a coordinated statewide basis.” The Board of Directors is comprised of thirteen members, seven of which are appointed by the governor, with the advice and consent of the Senate. A financial benefit/burden relationship exists between the state and OETA. OETA also has a non-profit foundation that was established to receive private donations and contributions for the benefit of OETA. This foundation qualifies as a component unit of OETA, and is combined with OETA. OETA was audited by other independent auditors for the year ended June 30, 2016, and their report, dated October 10, 2016, has been previously issued under separate cover.

Oklahoma Industrial Finance Authority assists with the state’s industrial development by making loans to authorized industrial development agencies or trusts and new or expanding industries within Oklahoma.

These loans are secured by first or second mortgages on real estate and equipment. The Authority's loans are financed by issuance of general obligation bonds. The Board of Directors is comprised of seven members appointed by the governor, with the advice and consent of the Senate. The state can impose its will on the Authority by its ability to veto or modify the Authority's decisions. The Authority was audited by other independent auditors for the year ended June 30, 2016, and their report, dated October 21, 2016, has been previously issued under separate cover.

Multiple Injury Trust Fund provides benefits to a worker with a pre-existing disability who suffers a second on-the-job injury. The state can impose its will on the Fund by its ability to remove management (appointees) at will. The Fund was audited by other independent auditors for the period ended December 31, 2015, and their report, dated June 30, 2016, has been previously issued under separate cover.

University Hospitals Authority consists of The University Hospital and Children's Hospital of Oklahoma, and their related clinics and other services. The Authority is affiliated with the University of Oklahoma Health Sciences Center whose medical school residents and staff provide patient care, in-service education, and certain administrative duties for the benefit of the Authority. The Authority is governed by a six-member board consisting of appointees of the governor, Speaker of the House of Representatives, and the president pro tempore of the Senate, and officials from the State Medicaid Program, the University of Oklahoma Health Sciences Center and the Authority. A financial benefit/burden relationship exists between the state and the Authority. The Authority was audited by other independent auditors for the year ended June 30, 2016, and their report, dated October 11, 2016, has been previously issued under separate cover.

Oklahoma Development Finance Authority provides financing for both public and private entities in the state. The Authority obtains funds through the issuance of bonds and notes. Private entities qualifying for financing are generally agricultural, civic, educational, health care, industrial, or manufacturing enterprises. Financing is also provided to governmental agencies and instrumentalities of the state. The Governing Board, appointed by the governor, with the advice and consent of the Senate, is comprised of seven members: one person selected from each of the six Congressional Districts of the state as they existed in 1960 and the Director of the Department of Commerce. The state can impose its will on the Authority by its ability to veto or modify the Authority's decisions. The Authority was audited by other independent auditors for the year ended June 30, 2016, and their report, dated October 20, 2016, has been previously issued under separate cover.

Oklahoma Capital Investment Board assists the state with industrial development by mobilizing equity and near-equity capital making investments for the potential creation of jobs and growth that will diversify and stabilize the economy. The Board of Directors is comprised of five members appointed by the governor, with the advice and consent of the Senate. The state can impose its will on the Board by its ability to veto or modify the Board's decisions. The Board, in order to mobilize investments, owns the Oklahoma Capital Formation Company LLC (OCFC), a formerly independent corporation. During fiscal year 2006, the Board purchased 100% of the ownership of the OCFC. In fiscal year 2007, OCFC changed its corporate structure and name from a corporation to an Oklahoma limited liability company (LLC). Operations of the OCFC are included in the financial results of the Board. The Board was audited by other independent auditors for the year ended June 30, 2016, and their report, dated September 7, 2016, has been previously issued under separate cover.

Oklahoma State University Medical Authority is affiliated with the Oklahoma State University (OSU) Center for Health Sciences to provide funding, teaching and training for graduate medical students. It also serves as a site for conducting medical research by faculty and providing patient care. The board is governed by seven members which consists of the following: a member appointed by the governor, with the advice and consent of the Senate, a member appointed by the president pro tempore of the Senate, a member appointed by the Speaker of the House of Representatives, the Chief Executive Officer (CEO) of the Oklahoma Health Care Authority, or his or her designee, the president of the OSU Center for Health Sciences, CEO of the Oklahoma State University Medical Authority and an appointee of the president of Oklahoma State University. A financial benefit/burden exists between the Authority and the state. The Authority was audited by other independent auditors for the year ended June 30, 2016, and their report, dated October 28, 2016, has been issued under separate cover. In October 2013, Oklahoma State University Medical Trust, Oklahoma State University Medical Center Trust, and the Authority entered into a Tripartite

Agreement and Plan of Merger. Under the terms of the merger agreement the Oklahoma State University Medical Center Trust merged with the Oklahoma State University Medical Trust. Oklahoma State University Medical Trust, the surviving entity, is deemed to be a component unit of the Authority due to the common governance.

FIDUCIARY COMPONENT UNITS

Six Public Employee Retirement Systems (PERS) administer pension funds for the state and its political subdivisions. The six PERS are subject to state legislative and executive controls and the administrative expenses are subject to legislative budget controls. These legally separate component units, while meeting the definition of a component unit, are presented in the fund financial statements along with other primary government fiduciary funds of the state. They have been omitted from the Government-Wide Financial Statements.

Separately issued independent audit reports are available even though they are excluded from the Government-Wide Financial Statements. They may be obtained from the Office of Management and Enterprise Services, 5005 North Lincoln Blvd., Suite 100, Oklahoma City, Oklahoma 73105, or the respective fiduciary component units at the addresses presented on the description page of the Combining Financial Statement section of this report.

Oklahoma Firefighters Pension and Retirement System provides retirement benefits for municipal firefighters. The System is administered by a board comprised of thirteen members: The president of the Professional Fire Fighters of Oklahoma, the president of the Oklahoma State Retired Fire Fighters Association, the State Insurance Commissioner, and the Director of the Office of Management and Enterprise Services (or their designee), the five members of the Board of Trustees of the Oklahoma Firefighters Association, and appointees by the Speaker of the House of Representatives, the president pro tempore of the Senate, and the president of the Oklahoma Municipal League. The System was audited by other independent auditors for the year ended June 30, 2016, and their report, dated October 12, 2016, has been previously issued under separate cover.

Oklahoma Law Enforcement Retirement System provides retirement benefits for qualified law enforcement officers. The System is administered by a board comprised of thirteen members: The Assistant Commissioner of Public Safety, the Director of the Office of Management and Enterprise Services (or their designee), members of the Department of Public Safety, the Oklahoma State Bureau of Investigation, the Oklahoma State Bureau of Narcotics and Dangerous Drugs Control, and the Alcoholic Beverage Laws Enforcement Commission, and appointees by the governor, the Speaker of the House of Representatives, and the president pro tempore of the Senate. The System was audited by other independent auditors for the year ended June 30, 2016, and their report, dated October 18, 2016, has been previously issued under separate cover.

Oklahoma Public Employees Retirement System administers the Oklahoma Public Employee Retirement Plan which provides retirement benefits for state, county and local employees. The board is comprised of thirteen members: the State Insurance Commissioner and the Director of the Office of Management and Enterprise Services (or their designee), a member of the Corporation Commission selected by the Corporation Commission, the Director of Human Capital Management of the Office of Management and Enterprise Services, a member of the Oklahoma Tax Commission selected by the Tax Commission, three appointees by the governor, one member appointed by the Supreme Court, two members appointed by the Speaker of the House of Representatives, and two members appointed by the president pro tempore of the Senate. The System was audited by other independent auditors for the year ended June 30, 2016, and their report, dated October 20, 2016, has been previously issued under separate cover.

Uniform Retirement System for Justices and Judges is administered by the Oklahoma Public Employee Retirement System and provides retirement benefits for justices and judges. The Board of Trustees is comprised of thirteen members: a member of the Corporation Commission selected by the Commission, a member of the Tax Commission as selected by the Tax Commission, the Administrator of the Office of Personnel Management or designee, the State Insurance Commissioner or designee, and the Director of the Office of Management and Enterprise Services (or their designee). Of the remaining members, three are appointed by the governor, one is appointed by the Supreme Court, two are appointed by the Speaker of the House of Representatives and two are appointed by the president pro tempore of the Senate. The System was

audited by other independent auditors for the year ended June 30, 2016, and their report, dated October 20, 2016, has been previously issued under separate cover.

Oklahoma Police Pension and Retirement System provides retirement benefits for police officers employed by participating municipalities. The System is administered by a Board comprised of thirteen members: Seven members elected from the seven Districts, the State Insurance Commissioner and the Director of the Office of Management and Enterprise Services (or their designee), and appointees by the governor, the Speaker of the House of Representatives, the president pro tempore of the Senate, and the Oklahoma Municipal League. The System was audited by other independent auditors for the year ended June 30, 2016, and their report, dated September 19, 2016, has been previously issued under separate cover.

Teachers' Retirement System of Oklahoma provides retirement allowances and benefits for qualified persons employed by state-supported educational institutions. The System is administered by a board consisting of 13 members appointed by the governor, with the advice and consent of the Senate, the president pro tempore of the Senate, and the Speaker of the House of Representatives. The System was audited by other independent auditors for the year ended June 30, 2016, and their report, dated October 31, 2016, has been previously issued under separate cover.

Related Organizations and Related Parties

Organizations, for which a primary government is accountable because the state appoints a voting majority of the board, but is not financially accountable, are considered to be related organizations. The Oklahoma Ordinance Works Authority (OOWA) is a related organization of the state. The state appoints a voting majority of the Trustees of OOWA but has no further accountability.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (the statement of net position and the statement of activities) report information for all of the non-fiduciary activities of the Primary Government and its Component Units. For the most part, the effect of interfund activity has been removed from these government-wide statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the Primary Government is reported separately from the legally separate Component Units for which the Primary Government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function, segment, or component unit are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function, segment, or component unit. Program revenues include charges to customers who purchase, use or directly benefit from goods or services provided by a given function, segment, or component unit. Program revenues also include grants and contributions that are restricted to meeting the operational or capital requirements of a particular function, segment, or component unit. Taxes and other items not properly included among program revenues are reported instead as general revenues. Resources that are dedicated internally are reported as general revenues rather than as program revenues. The state does not allocate general government (indirect) expenses to other functions.

Net position is restricted when constraints placed on it is either externally imposed or are imposed by constitutional provisions or enabling legislation. Internally imposed designations of resources are not presented as restricted net position. When both restricted and unrestricted resources are available for use, generally it is the state's policy to use restricted resources first, then unrestricted resources as they are needed.

Separate financial statements are provided for governmental funds, proprietary funds, fiduciary funds and similar component units, and major component units. However, the fiduciary funds are not included in the government-wide statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

Government-Wide Financial Statements – The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental Fund Financial Statements – The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the state considers revenues to be available if they are collected within sixty days of the end of the current fiscal year end. Principal revenue sources considered susceptible to accrual include federal grants, interest on investments, sales and income taxes, and lease payments receivable. Some revenue items that are considered measurable and available to finance operations during the year from an accounting perspective are not available for expenditure due to the state's present appropriation system. These revenues have been accrued in accordance with GAAP since they have been earned and are expected to be collected within sixty days of the end of the period. Other revenues are considered to be measurable and available only when cash is received by the state.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. Modifications to the accrual basis of accounting include:

- Employees' vested annual leave is recorded as an expenditure as it is utilized. Unused reimbursable leave following an employee's resignation or retirement that is unpaid at year end is recognized as an expenditure and a liability of the fund.
- Interest on general long-term obligations is recognized when paid.
- Executory purchase orders and contracts are recorded as a commitment of fund balance.
- Debt service expenditures and claims and judgments are recorded only when payment is due.

Proprietary Funds, Fiduciary Funds and Similar Component Units, and Component Units Financial Statements – The financial statements of the proprietary funds, fiduciary funds and similar component units, and component units are reported using the economic resources measurement focus and the accrual basis of accounting, similar to the government-wide statements described above.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses. The principal operating revenues of the state's enterprise funds are requisitioned from the Oklahoma Unemployment Insurance Trust Fund held by the U.S. Treasury for payment of unemployment benefits, monthly premiums for self-funded insurance benefits provided to statutorily defined state employees by the Employees Group Insurance Department, interest revenue charges for loans made to local entities by the Oklahoma Water Resources Board (OWRB), and the sale of lottery tickets and related chance games by the Lottery Commission. The OWRB reports federal grants as both operating and nonoperating, depending on the types of grants received.

D. Fund Accounting

The financial activities of the state are recorded in individual funds, each of which is deemed to be a separate accounting entity. The state uses fund accounting to report on its financial position and results of operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

The financial activities of the state that are reported in the accompanying financial statements have been classified into the following major governmental and proprietary funds. In addition, a description of the fiduciary and component units follows:

1. Governmental Funds

General Fund - This fund accounts for all activities of the state not specifically required to be accounted for in other Funds. Included are transactions for services such as education, general government, health services, legal and judiciary, museums, natural resources, public safety and defense, regulatory services, social services, and transportation. Debt service transactions and related cash balances are reported in the General Fund with balances held to service imminent debt activity presented as a component of restricted fund balance.

Commissioners of the Land Office Permanent Fund – This fund accounts for the land and cash granted to the state by the United States Congress for the use and benefit of educational systems in Oklahoma. This fund's assets are held by the state and only the income derived from the principal may be expended for designated operations. The principal must be preserved intact.

Department of Wildlife Conservation Permanent Fund – This fund accounts for moneys held in trust for the improvement and preservation of wildlife. The moneys have been accumulated from the sale of lifetime hunting and fishing licenses. This fund's assets are held by the state and only the income derived from the principal may be expended for designated operations. The principal must be preserved intact.

Tobacco Settlement Endowment Permanent Fund – This fund accounts for certain moneys transferred from the General Fund that were received in settlement of claims by the state against tobacco manufacturers. The earnings from these moneys are to be utilized for research, education, prevention and treatment of tobacco related diseases and certain other health programs. The principal must be preserved intact.

2. Proprietary Funds

These funds account for those activities for which the intent of management is to recover, primarily through user charges, the cost of providing goods or services to the general public, or where sound financial management dictates that periodic determinations of results of operations are appropriate.

Employees Group Insurance Department of the Office of Management and Enterprise Services provides group health, life, dental, disability and other benefits to active state employees and local government employees, as well as varying coverages for active education employees and certain participants of the state's retirement systems, survivors, and persons covered by COBRA. Coverages are funded by monthly premiums paid by employers and employees.

Employment Security Commission Enterprise Fund - This fund accounts for the deposit of moneys requisitioned from the Unemployment Insurance Trust Fund held by the U.S. Treasury for payment of unemployment benefits and administrative costs.

Oklahoma Water Resources Board Enterprise Fund - This fund is comprised of Oklahoma Water Resources Board and the Department of Environmental Quality bond issues and revolving loan programs. These programs make loans to local government units for the acquisition, development, and utilization of storage and control facilities for water and sewage systems.

Oklahoma Lottery Commission Enterprise Fund – This fund operates the state-wide lottery program and related chance games, seeking to generate additional revenues for the benefit of the state's educational system.

3. Fiduciary Funds and Similar Component Units

The state presents as fiduciary funds those activities that account for assets held in a trustee capacity or as an agent for individuals, private organizations or other governmental units.

Pension Trust Funds - These Funds account for the transactions, assets, liabilities, and net position of the Wildlife Conservation Retirement Plan in the Primary Government, and six Public Employee Retirement Systems (PERS) that meet the definition of a component unit of the state.

Agency Funds - These Funds account for the assets held for distribution by the state as an agent for other governmental units, other organizations or individuals.

4. Component Units

These entities are legally separate from the state but are considered part of the reporting entity. These Funds meet the definition of both a component unit and that of an enterprise fund as previously described. The six Public Employee Retirement Systems (PERS) meet the definition of a component unit, but are presented with the other fiduciary funds of the state.

5. Financial Statement Reporting Periods

The accompanying financial statements of the state are presented as of June 30, 2016, and for the year then ended, except for the following funds and entities which were audited by other independent auditors.

Multiple Injury Trust Fund	12-31-15
Employees Group Insurance Department	12-31-15
Oklahoma Turnpike Authority	12-31-15
Grand River Dam Authority	12-31-15
Oklahoma Municipal Power Authority	12-31-15
Oklahoma Housing Finance Agency	09-30-15

E. Budgeting and Budgetary Control

The state's annual budget is prepared on the cash basis utilizing encumbrance accounting. Encumbrances represent executed but unperformed purchase orders. In the accompanying financial statements, encumbrances are recorded as expenditures for budgetary purposes if expected to be presented for payment by November 15 following the end of the fiscal year and as a component of either restricted or committed fund balance for GAAP purposes. Since the budgetary basis differs from GAAP, budget and actual amounts in the accompanying Required Supplementary Information – Budgetary Schedules are presented on the budgetary basis. A reconciliation of revenues in excess of (less than) expenditures and other financing sources (uses) on a budgetary basis at June 30, 2016 to revenues in excess of (less than) expenditures and other financing sources (uses) presented in conformity with GAAP is set forth in the Notes to Required Supplementary Information.

The governor prepares and submits to the Legislature at the beginning of each annual legislative session a balanced budget based on budget requests prepared by the various state agencies. The General Fund is the only Fund for which an annual budget is legally adopted. Budgeted expenditures cannot exceed the amount available for appropriation as certified by the State Board of Equalization. The Legislature may modify the governor's proposed budget as it deems necessary and legally enacts an annual state budget through the passage of appropriation bills. The governor has the power to approve or veto each line item appropriation.

The legal level of budgetary control is maintained at the line item level (i.e., General Operations, Duties, etc.) identified in the appropriation acts. Budgets may be modified subject to statutory limits on transfers. The Secretary of State Finance, Administration, and Information Technology can approve transfers of up to 25% between line items. The Contingency Review Board (a three-member board comprised of the governor, the president pro tempore of the Senate, and the Speaker of the House of Representatives) can approve transfers between line items of up to 40%. All transfers are subject to review by the Joint Legislative Committee on Budget and Program Oversight to determine if the transfer tends to effectuate or subvert the intention and objectives of the Legislature.

Current policy allows agencies to use unexpended moneys for one-time purchases or non-recurring expenditures in the next fiscal year. This policy provides an incentive for agency managers to distribute resources efficiently; however, it is subject to annual approval by the Legislature. Unexpended balances not carried forward to the new fiscal year by November 15 may: 1) lapse to unrestricted balances and be available for future appropriation, 2) lapse to restricted balances and be available for future appropriations restricted for specific purposes as defined by statute, or 3) be non-fiscal, and may be spent from one to thirty months from the date of appropriation.

If funding sources are not sufficient to cover appropriations, the Secretary of State Finance, Administration, and Information Technology is required to reduce the budget by the amount of such deficiency. Any other changes to the budget must be approved by the Legislature in a supplemental appropriation. All fiscal year 2016 appropriated line items were within their authorized spending level.

F. Cash and Cash Equivalents

The state uses a pooled cash concept in maintaining its bank accounts. All cash is pooled for operating and investment purposes and each fund has relative equity in the pooled amount. For reporting purposes, cash and related time deposits have been allocated to each fund based on its equity in the pooled amount. Interest earned on investments is allocated to the General Fund except for those investments made specifically for the proprietary fund type, fiduciary fund type,

proprietary component units, and higher education component unit, for each of which investment revenue is allocated to the investing fund.

The State Treasurer requires that financial institutions deposit collateral securities to secure the deposits of the state in each such institution. The State Treasurer also promulgates all rules and regulations regarding the amount of collateral securities that must be pledged to secure public deposits.

The Oklahoma Employment Security Commission Trust Fund is maintained to account for the collection of unemployment contributions from employers and the payment of unemployment benefits to eligible claimants. As required by Federal Law, all resources not necessary for current benefit payments are placed on deposit with the U.S. Treasury. Interest from these resources is retained in the Fund.

For purposes of reporting cash flows, cash equivalents are defined as short-term, highly liquid investments with a maturity of three months or less that are readily convertible to cash.

G. Investments

Investments, which may be restricted by law or legal instruments, are under control of either the State Treasurer or other administrative bodies as determined by law.

Generally accepted accounting principles establish a fair value hierarchy for the determination and measurement of fair value. This hierarchy is based on the type of valuation inputs needed to measure the fair value of an asset. The hierarchy generally is as follows:

1. Level 1 - Unadjusted quoted prices in active markets for identical assets.
2. Level 2 - Quoted prices for similar assets, or inputs that are observable or other forms of market corroborated inputs.
3. Level 3 - Pricing based on best available information, including primarily unobservable inputs and assumptions market participants would use in pricing the asset.

H. Receivables

Accounts receivable in all funds report amounts that have arisen in the ordinary course of business and are stated net of allowances for uncollectible amounts.

Governmental fund type receivables consist primarily of amounts due from the Federal government. Interest and investment revenue receivable in all funds consist of revenues due on each investment. Taxes receivable in governmental funds represent taxes subject to accrual, primarily income taxes and sales taxes, which are collected within sixty days after year end. Lease payments receivable in the General Fund consists primarily of capital lease payments due for equipment and railroad lines owned by the Department of Transportation. Collectability of these lease payments is reasonably assured and no allowance for uncollectible amounts has been established.

Taxes receivable in enterprise funds represents unemployment taxes due at year end, net of an allowance for uncollectible amounts. The uncollectible amounts are based on collection experience and a review of the status of existing receivables.

I. Inter/Intrafund Transactions

Interfund Transactions - The state has two types of interfund transactions:

- Services rendered transactions are accounted for as revenues and expenditures or expenses in the funds involved.
- Operating appropriations/subsidies are accounted for as transfers in the funds involved.

Intrafund Transactions - Intrafund transfers, as a result of contracts among departments and/or agencies within the same fund, are considered expenditures by the contractor and revenues by the contractee for budgetary purposes. The Required Supplementary Information – Budgetary Schedules includes these transactions. However, as a general rule recorded intrafund revenues and expenditures have been eliminated in the GAAP-basis Government-Wide Financial Statements. A portion of motor fuel excise taxes collected on fuels consumed on the state's turnpikes is made available to the Oklahoma Turnpike Authority (OTA) from the Oklahoma Tax Commission. These taxes are apportioned to OTA monthly to fund debt service, but only to the extent amounts are not otherwise available to OTA. If the motor fuel excise taxes apportioned

to OTA are not needed in the month of apportionment, the taxes are transferred to the Department of Transportation (DOT). Before these monthly transfers were mandated, a balance owed to DOT had accumulated and at year end this balance is presented as a noncurrent Due to Other Funds on the financial statements of OTA.

J. Inventories and Prepaid Expenses

Inventories of materials and supplies are determined both by physical counts and through perpetual inventory systems. Generally, inventories are valued at cost and predominantly on either the first-in first-out or weighted average basis. Inventories of federal surplus properties are valued at a percentage of federal acquisition cost. General Fund inventories are recorded as expenditures when consumed rather than when purchased by recording adjustments to the inventory account on the balance sheet. The General Fund inventories on hand at year-end are reflected as a component of nonspendable fund balance on the balance sheet, except for \$1,568,000 in food commodities which is recorded as inventory and deferred revenue. Upon distribution, the food commodities are recognized as revenues and expenditures of the General Fund.

The value of the inventory of food commodities in the General Fund is calculated by using a weighted average cost based on the U.S. Department of Agriculture commodity price list at the inventory receipt date. The value of the inventory of food stamps in the General Fund is valued at coupon value.

Higher education component unit inventories are stated at the lower of cost or market, with cost being determined on either the first-in first-out or average cost basis.

Prepaid expenses are recorded using the "purchases method," meaning that they are initially recorded as expenditures. At fiscal year-end, significant amounts of prepaid expenditures are shown as a component of nonspendable fund balance, indicating they do not constitute available expendable resources.

K. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (which are normally immovable and of value only to the state, such as roads, bridges, streets and sidewalks, drainage systems, lighting systems, and similar items), are reported in the applicable governmental or business-type activities columns in the Government-Wide Financial Statements. Capital assets are defined by the state as assets which have a cost of \$25,000 or more at the date of acquisition and have an expected useful life of five or more years. Purchased and constructed capital assets are valued at historical cost or estimated historical cost. Donated capital assets are recorded at their fair market value at the date of donation.

The estimates of historical costs of buildings and other improvements were based on appraised value, as of August 4, 1994, indexed to the date of acquisition. Infrastructure constructed prior to July 1, 2000 has been recorded at estimated historical cost. The estimated historical cost for years 1916-2000 was based on capital outlay expenditures reported by DOT and the Federal Highway Administration, less an amount estimated for the historical cost of the acquisition of land for right-of-way. The costs of normal maintenance and repairs that do not add to the asset's value or materially extend an asset's useful life are not capitalized. Interest incurred during construction of capital facilities is not capitalized.

Capital assets utilized in the governmental funds are recorded as expenditures in the governmental fund financial statements. Depreciation expense is recorded in the government-wide financial statements, as well as the proprietary funds and component unit's financial statements.

Capital assets of the Primary Government and the component units are depreciated on the straight-line method over the assets' estimated useful life. There is no depreciation recorded for land and construction in progress. Generally, estimated useful lives are as follows:

Machinery and Equipment	3 - 20 years
Buildings and Other Improvements	7 - 60 years
Infrastructure	30 years

Collections and works of art are not included in capital assets of the Primary Government on the Statement of Net Position. GASB Statement No. 34 does not require capitalization of collections if they meet all of the following criteria; held for public exhibition, education, or research in furtherance of service, rather than financial gain; protected, kept unencumbered, cared for, and preserved; and subject to an organizational policy that requires the proceeds from sales of

collection items to be used to acquire other items for collections. The state elected not to capitalize collections and works of art since they meet all of the above conditions.

L. Other Assets

Included in other assets (noncurrent for component units) are costs to be recovered from future revenues. Certain items included in the operating costs of Grand River Dam Authority, an unregulated enterprise, are recovered through rates set by the Board of Directors. Recognition of these costs, primarily depreciation on debt funded capital assets, amortization of debt discount and expense, and amortization of losses on advance refunding of long-term debt, is deferred to the extent that such costs will be included in rates charged in future years. The Oklahoma Municipal Power Authority (OMPA) enters into power sales contracts with participating municipalities that provide for billings to those municipalities for output and services of the projects. Revenues from these contracts provide for payment of current operating and maintenance expenses (excluding depreciation and amortization), as well as payment of scheduled debt principal and interest, and deposits into certain funds as prescribed in the bond resolutions. For financial reporting purposes, OMPA currently recognizes depreciation of assets financed by bond principal and amortization expense. The difference between current operating expenses and the amounts currently billed under the terms of the power sales contracts are delayed to future periods in which these amounts will be recovered through revenues.

M. Unearned Revenue

Unearned revenues at the fund level arise when potential revenue does not meet the available criterion for recognition in the current period. Available is defined as due (or past due) at June 30, and collected within sixty days thereafter to pay obligations due at June 30. Unearned revenues also arise when resources are received by the state before it has a legal claim to them. In subsequent periods, when the revenue recognition criterion is met, or when the state has a legal claim to the resources, the liability for unearned revenue is removed from the combined statement of net position, and revenue is recognized. Unearned revenues at the government-wide level arise only when the state receives resources before it has a legal claim to them. Also included in unearned revenue at both levels are the undistributed food commodity inventories.

N. Compensated Absences

Employees earn annual vacation leave at the average rate of 10 hours per month for the first 5 years of service, 12 hours per month for service of 5 to 10 years, 13.33 hours per month for service of 10 to 20 years, and 16.67 hours per month for over 20 years of service. Unused annual leave may be accumulated to a maximum of 240 hours for employees with less than 5 years of continuous service or 480 hours for employees with 5 years or more of continuous service. All accrued annual leave is payable upon termination, resignation, retirement, or death. The governmental fund financial statements record expenditures when employees are paid for leave. The government-wide financial statements present the cost of accumulated vacation leave as a liability. The liability is valued based on current rate of pay. There is no liability for unpaid accumulated sick leave since the state does not have a policy to pay this amount when employees separate from service.

O. Risk Management

The Risk Management Department of the Office of Management and Enterprise Services is responsible for the acquisition and administration of all insurance purchased by the state, or administration of any self-insurance plans and programs adopted for use by the state or for certain organizations and bodies outside of state government, at the sole expense of such organizations and bodies.

The Risk Management Department is authorized to settle claims of the state and oversee the dispensation and/or settlement of claims against a state political subdivision. In no event shall self-insurance coverage exceed the limitations on the maximum dollar amount of liability specified by the Oklahoma Governmental Tort Claims Act. The Risk Management Department oversees the collection of liability claims owed to the state incurred as the result of a loss through the wrongful or negligent act of a private person or other entity.

The Risk Management Department is also charged with the responsibility to immediately notify the Attorney General of any claims against the state presented to Risk Management.

P. Federal Grants

In addition to monetary transactions, federal grants also include non-monetary transactions for surplus inventory, food stamps, food, and other commodities. Surplus inventory is valued at a percentage of government acquisition cost. Food stamps are valued at coupon value. Commodities are valued at their federally reported value in the General Fund.

Q. Long-Term Obligations

Premiums, Discounts and Issuance Costs – In the government-wide financial statements, long-term debt and other long-term obligations are presented in the columns for governmental and business-type activities. The same is presented in the Proprietary Fund Financial Statements. Bond and note premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the debt. Bonds and notes payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported in the period incurred.

In the governmental fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuance are reported as other financing sources while discounts are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures in the period incurred.

Arbitrage Rebate Liability – The enterprise funds and component units account for any arbitrage rebate payable as a liability of the fund.

R. Governmental Activities

Per a review of state agencies, it was determined that the activities of the Oklahoma Health Care Authority, Department of Veteran Affairs, and the J.D. McCarty Center were more accurately reflected in the Health Services function of government instead of Social Services. Beginning with the fiscal year ended June 30, 2005, these agencies are reported as a function of Health Services. This will affect the comparability of activities with years prior to 2005.

S. Governmental Fund – Fund Balance

The governmental fund financial statements present fund balance at the aggregate level of detail within the categories defined by GASB Statement 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. Refer to Note 12 for further discussion.

T. Deficit Fund Balance – Multiple Injury Trust Fund/Oklahoma Capital Investment Board

The Multiple Injury Trust Fund (MITF), a component unit, continues to operate in a deficit situation. MITF had total net liabilities (negative net position) of \$397,280,000 at December 31, 2015. Legislation was passed in May 2000 providing new funding for MITF through an assessment on gross premiums on workers compensation policies written by insurance carriers and an assessment on disability awards paid by self-insured employers, and further limits future awards against MITF to claimants that timely filed injury claims that occurred before June 1, 2000, against their employer. These claimants have no time limitation for filing against MITF. No new claims related to injuries subsequent to June 1, 2000, can be filed. Funding is to continue until the Workers' Compensation Commission has certified that there are sufficient funds to satisfy all outstanding obligations of MITF.

The Oklahoma Capital Investment Board (OCIB), a component unit, operated at a deficit for the fiscal year. In fiscal year 2006, the OCIB purchased 100% of the ownership of the Oklahoma Capital Formation Company LLC (OCFC), a formerly blended entity. This purchase brought on the long-term liabilities of the OCFC, and as a result, puts the OCIB in a negative net asset position. For the fiscal year ended June 30, 2016, the OCIB had negative net position of \$3,129,000. The OCIB takes a long-term approach to economic stimulation, and it is anticipated that a negative net position balance could persist well into the future.

U. Pollution Remediation Obligations

During the fiscal year ended June 30, 2016, it was determined that several agencies incurred expenses of \$3,406,000 for pollution obligations related to hazardous material on highways and asbestos removal, where clean-up is generally required to comply with federal regulations. This type of remediation is generally a control obligation performed as part of current operations during road construction or building renovation. There was also a liability incurred of \$6,628,000 which is included in accounts payable on the government-wide financial statements.

Pollution remediation obligation is determined by the agency responsible for performing the remediation. These estimates are subject to revision because of price increases or reductions, changes in technology, or changes in applicable laws or regulations. There are currently no expectations of cost recoveries from ongoing projects.

Note 2. Deposits and Investments

The state treasurer maintains two investment portfolios. The treasurer's portfolio is used to manage the investments of all state moneys that are under the control of the treasurer where earnings accrue to the General Fund of the state. The State Agency Portfolio is used for the investment of a limited number of state agencies specifically authorized by statute to direct the activities of certain funds and accounts where the earnings accrue to those funds and accounts. Ancillary to the treasurer's portfolio is an internal investment pool, OK INVEST, for all state funds and agencies that are considered part of the State of Oklahoma. All cash balances held through the state treasurer for the Primary Government, Component Units and Fiduciary Funds earn a return through the OK INVEST pool program.

In accordance with statutes, the state treasurer's investment policy allows for investments in the following categories:

United States Treasury Bills, Notes and Bonds	Collateralized or insured certificates of deposit
United States Government Agency Securities	Negotiable certificates of deposit
Prime Banker's acceptances	Prime commercial paper
Investment grade obligations of state and local governments	Repurchase agreements
Short-term bond funds	Money market funds
Foreign bonds	

The state treasurer's investment policy attempts to reduce portfolio risk through diversification by security, institution and maturity. With the exception of U.S. Treasury securities, no more than 50% of the state's total funds available for investment will be invested in a single security or with a single financial institution. In addition, the treasurer's investments will not have an average maturity greater than 4 years unless otherwise specifically designated by the treasurer. The following table outlines the state treasurer's diversification limits designed to control various types of risk:

Investment Type	Percentage of Total Invested	Percentage of Total by Issuer	Maturity Limit	Rating
Treasuries	No Limit	No Limit	10 Years	Aaa,AAA
U.S Government Agency Securities	50%	35%	10 Years	Aaa,AAA
U.S. Government Agency Mortgage Backed Securities	45%	No Limit	7 Years	Aaa,AAA
Collateralized or Insured Certificates of Deposit	Limit of \$35 Million per financial institution		365 Days	N/A
Negotiable Certificates of Deposit	7.5%	2.5%	180 Days	A-1 & P-1
Bankers Acceptance	7.5%	2.5%	270 Days	A-1 & P-1
Commercial Paper	7.5%	2.5%	180 Days	A-1 & P-1
State and Local Government Obligations	10%	5.0%	30 Years	Securities must not be less than investment grade at purchase
Repurchase and Tri-party Repurchase Agreements	30%	10%	14 Days	A-1
Money Market Mutual Funds	30%	10%	N/A	AAAm
Foreign Bonds	2.5%	Must be listed as an industrialized country by the International Monetary Fund	5 Years	A-/A3 or better

The Primary Government's three permanent funds, Commissioners of the Land Office, Department of Wildlife Lifetime Licenses and the Tobacco Settlement Endowment all have investment goals and horizons that differ from the state

treasurer. Accordingly, the investment policies for the permanent funds allow for broader classes of investments as well as extended dates of maturity.

The Employment Security Commission, Water Resources Board, Office of Management and Enterprise Services-Employees Group Insurance Department (EGID) and Lottery Commission are the four business-type activities within the Primary Government. These agencies generally have investment policies that correlate to the operations and services that they perform. The Employment Security Commission generally will not invest outside of U.S. Government securities and typically maintains deposit balances only. The Water Resources Board, EGID and Lottery Commission all operate with longer investment horizons and, as part of normal operations, will attempt to match maturities of investments with the approaching maturity of liabilities.

Due to the nature of the internal investment pool, ownership of investments cannot be assigned to individual funds, including the Pension Trust Funds and Component Units. The investment pool also holds securities purchased with cash collateral from securities lending, which are not assigned to individual funds. For these reasons, total investments will not agree to the financial statements for the Primary Government. The following table details the investments held by the Primary Government at June 30, 2016 (expressed in thousands):

Investments - Primary Government				
Investment Type	Government Administration	Permanent Funds	Business-Type Activities	Total Primary Government
POOLED INVESTMENTS				
US Agency & Treasury	\$ 4,828,579	\$ 14,323	\$ -	\$ 4,842,902
Money Market Mutual Funds	-	30,573	-	30,573
Securities Lending Collateral Pool	-	122,292	-	122,292
Mutual Funds	2,152	26,756	-	28,908
Certificates of Deposit & Commercial Paper	207,051	-	-	207,051

Totals	\$ 5,265,651	\$ 3,329,900	\$ 535,713	\$ 9,131,264

The Primary Government categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The Primary Government used the Market Approach for valuation purposes. The following table details the fair value of investments held by the Primary Government at June 30, 2016 (expressed in thousands):

		Primary Government Fair Value Measurements at Reporting Date Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
	Amounts Measured At Fair Value			
Investments Measured by Fair Value				
Debt Securities				
US Treasury, Agency and Municipal Securities	\$ 5,678,347	461,673	5,216,182	492

Other	504,452			
Total Investments Measured at Fair Value	\$ 8,978,231			
Investments Measured at Amortized Cost	\$ 30,741			
Investments Measured at Net Asset Value (NAV)	\$ -			

Fiduciary Funds and Similar Component Units

The Fiduciary Funds of the state have investment goals that vary significantly from the Primary Government. Due to the long term nature of these funds, investment options are broader and maturities can be longer than that of the Primary Government. These funds generally have investment policies allowing for investments in stocks, bonds, fixed income securities and other investment securities including commingled, mutual and index funds. Generally policies allow for a portion of investments to be held in securities of foreign companies and countries. Policies also allow for portions of the total portfolio to be held in derivatives and derivative like investments such as U.S. Treasury Strips, collateralized mortgage obligations, convertible securities and variable rate instruments.

The Fiduciary Funds categorize fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The valuation techniques vary based upon investment type and involve a certain degree of expert judgment. The following table details the fair value of investments held by the Fiduciary Funds at June 30, 2016 (expressed in thousands):

Pension Trust Funds Fair Value Measurements at Reporting Date Using				
	Amounts	Quoted Prices	Significant	Significant
	Measured At	in Active	Other	Unobservable
	Fair Value	Markets for	Observable	Inputs
		Identical	Inputs	Inputs
		Assets	(Level 2)	(Level 3)

Other	595,957	-	-	595,957
Total Investments Measured at Fair Value	\$ 20,553,628			
Investments Measured at Amortized Cost	\$ 2,579			
Investments Measured at Net Asset Value (NAV)	\$ 6,327,128			

Component Units

The Component Units of the state have varied investment goals based on the demands of their specific enterprise, and commonly have investment policies that allow for broader asset classes and longer maturities than that of the Primary Government. Various finance authorities invest in an attempt to match targeted returns to the maturity of liabilities. The Higher Education Component Unit is comprised of numerous foundations that invest in order to maximize gains for the institutions that they support. These foundations may also hold assets of different classes as part of donor restrictions and covenants. The Component Units categorize fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The valuation techniques vary based upon investment type and involve a certain degree of expert judgment. The following table details the fair value of investments held by Component Units at June 30, 2016 (expressed in thousands):

		Component Units Fair Value Measurements at Reporting Date Using		
	Amounts Measured At Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investments Measured by Fair Value

Investments Measured at Amortized Cost	\$ 454,847			
Investments Measured at Net Asset Value (NAV)	\$ 947,020			

A. Custodial Credit Risk

Custodial Credit Risk is the risk that in the event of the failure of the counterparty, the state will not be able to recover the value of its investments. Deposits are exposed to custodial credit risk if they are uninsured and uncollateralized. Investment securities are exposed to custodial credit risk if they are uninsured, not registered in the name of the state, or held by the counterparty or its trust department but not in the state's name.

Primary Government

The state treasurer requires that financial institutions deposit collateral securities to secure the deposits of the state in each such institution. The amount of collateral securities to be pledged for the security of public deposits is established by rules promulgated by the state treasurer. In accordance with the Office of State Treasurer's policies, the collateral securities to be pledged by financial institutions through the State Treasurer's Office are pledged at market value and must be at 110% of value to collateralize the amount on deposit, less any federal insurance coverage. All investments held by the state treasurer are insured, registered, or held in the name of the state treasurer.

As of June 30, 2016, the Primary Government's bank balances of deposits are fully insured or collateralized with securities held by an agent of the state in the state's name. In addition to these deposits, the state has approximately \$1,082,407,000 on deposit with the U.S. Government. These funds represent unemployment insurance taxes collected

from Oklahoma employers that are held by the U.S. Treasury. The book value of deposits does not materially differ from the bank balance.

Fiduciary Funds and Similar Component Units

The Pension Trust Funds, fiduciary component units of the state, have investment policies that do not specifically address custodial credit risk of deposits and investments. However, each Pension Trust Fund utilizes multiple investment managers and limits cash and short-term investments to no more than 5% of each investment manager's portfolio. At June 30, 2016, the Pension Trust Funds had deposits and cash equivalents of \$638,915,000 of which \$21,835,000 were uninsured and uncollateralized.

Component Units

Generally, the Component Units of the state have investment policies that do not specifically address or limit custodial credit risk of deposits and investments. All Component Units typically follow the diversification and securitization of deposit policies defined by the state treasurer in an effort to minimize custodial credit risk.

B. Credit Risk

Fixed-income securities are subject to credit risk. Credit quality rating is one method of assessing the debt instrument issuer's ability to meet its obligation. The state, its Fiduciary Funds and Component Units utilize the credit quality ratings issued by Moody's, Standard and Poor's, or Fitch in determining the risk associated with its fixed-income investments. Obligations of the U.S. Government or those explicitly guaranteed by the U.S. Government are not considered to have credit risk. Certain debt instruments are commingled investments that do not have an applicable credit risk rating. These investments are presented as not rated in the accompanying tables.

Primary Government

As outlined in an earlier table, the state treasurer seeks to hold investments with a rating of A or higher as rated by Moody's. Generally, the Permanent Funds and the business-type activities seek to maintain the same or higher rating. The Water Resources Board, which has a high concentration of investments with one issuer, requires that issuer to maintain an average credit rating of AA or higher. Should this issuer's rating fall below AA, it is required to collateralize the guaranteed investments sufficient to maintain an AA rating on the contracts. At June 30, 2016, the Primary Government had the following investments subject to credit risk (expressed in thousands):

Credit Risk - Primary Government

Investment Rating Moody's/S&P/Fitch	US Treasury, Agency and Municipal Securities	International Government Securities	US Corporate Debt Instruments	International Debt Instruments	Total
Aaa/AAA/AAA	\$ 357,509	\$ -	\$ 60,296	\$ -	\$ 417,805
Aa/AA/AA	5,064,438	-	17,062	1,503	5,083,003
A/A/A	19,243	1,545	70,477	29,699	120,964
Baa/BBB/BBB	3,924	2,504	238,915	56,697	302,040
Ba/BB/BB	-	3,705	169,794	42,162	215,661

C/C/C	-	-	91	-	91
D/D/D	-	-	13	-	13
Not Rated/Not Applicable	11,949	-	112,447	60,546	184,942
Total	\$ 5,457,063	\$ 9,121	\$ 868,287	\$ 216,673	\$ 6,551,144

Fiduciary Funds and Similar Component Units

The Pension Trust Funds typically hold a significant portion of assets in the form of debt instruments. Each Pension Trust Fund has an investment policy governing their credit risk exposure. Generally, at the time of purchase, investments in domestic fixed-income investments must carry the highest rating either Aaa, (Moody's) or AAA, (S&P, Fitch) as determined by the national rating organizations. International debt instruments must be Baa or BBB at the time of purchase. Overall, each investment policy generally requires that an average credit quality rating of A or higher be maintained for total debt instrument holdings. At June 30, 2016, the Pension Trust Funds had the following credit risk exposure (expressed in thousands):

Credit Risk - Pension Trust Funds

Investment Rating Moody's/S &P/Fitch	US Treasury, Agency and Municipal Securities	International Government Securities	US Corporate Debt Instruments	International Debt Instruments	Total
Aaa/AAA/AAA	\$ 2,583,564	\$ -	\$ 428,849	\$ 8,869	\$ 3,021,282
Aa/AA/AA	54,346	-	147,387	22,047	223,780
A/A/A	14,522	-	410,485	27,678	452,685
Baa/BBB/BBB	-	-	912,838	23,141	935,979
Ba/BB/BB	-	-	535,671	19,099	554,770
B/B/B	-	-	358,211	1,841	360,052
Caa/CCC/CCC	-	-	89,299	-	89,299
Ca/CC/CC	-	-	3,176	-	3,176
D/D/D	-	-	8,276	-	8,276
Not Rated/Not Applicable	709,800	-	369,167	269,372	1,348,339
Total	\$ 3,362,232	\$ -	\$ 3,263,359	\$ 372,047	\$ 6,997,638

Component Units

The Component Units usually hold a significant portion of their respective portfolios in debt instruments. Each Component Unit has an investment policy governing credit risk. As a general rule, the Component Units have more liberal investment policies than the Primary Government that allow for greater levels of credit risk regarding debt securities. Foundations within the Higher Education Component Unit also hold a significant portion of their total debt portfolio as either bond funds or money market mutual funds. These debt instruments are generally pooled or commingled investments and are not subject to credit risk disclosures. Investments in U.S. Government securities are not subject to credit risk. At June 30, 2016, the Component Units had the following credit risk exposure (expressed in thousands):

Credit Risk - Component Units

Investment Rating Moody's/S&P/Fitch	US Treasury, Agency and Municipal Securities	International Government Securities	US Corporate Debt Instruments	International Debt Instruments	Total
Aaa/AAA/AAA	\$ 1,151,127	\$ -	\$ 24,807	\$ -	\$ 1,175,934
Aa/AA/AA	22	-	16,990	-	17,012
A/A/A	-	-	53,847	-	53,847
Baa/BBB/BBB	-	-	530	-	530
D/D/D	-	-	75,440	-	75,440
Not Rated/Not Applicable	151,505	-	441,081	39,845	632,431
Total	\$ 1,302,654	\$ -	\$ 612,695	\$ 39,845	\$ 1,955,194

C. Concentration of Credit Risk

Primary Government

The state treasurer's investment policy seeks to mitigate concentration of credit risk through targeted diversification limits as outlined earlier in this note. With the exception of US Treasury securities, no more than 50% of the state's total funds available for investment will be invested in a single security type or with a single financial institution. The Water Resources Board, a business-type activity of the Primary Government, has no policy limiting amounts that may be invested in one issuer.

D. Interest Rate Risk

Interest Rate Risk is the risk that changes in interest rates will adversely affect the fair value of an investment or deposit. Duration is a measure of a debt instrument's exposure to fair value changes arising from changes in interest rates based on the present value of future cash flows, weighted for those cash flows as a percentage of the investment's full price. Modified duration estimates the sensitivity of a bond's price to interest rate changes. The state, its Fiduciary Funds, and Component Units use either duration, modified duration or weighted average years outstanding as the standard measures for assessing interest rate risk. Generally, the longer the duration or years outstanding, the greater sensitivity an investment has to interest rate risk.

Primary Government

As outlined in a previous table, the state treasurer follows an investment policy seeking to keep the average maturity for its entire portfolio to less than four years. The Permanent Funds and the business-type activities of the Primary Government do not have the same liquidity demands as the treasurer, and as a matter of policy are not as restrictive regarding maturities. At June 30, 2016, the Primary Government had the following investments with maturities (expressed in thousands):

Interest Rate Risk - Primary Government					
Weighted Average Years to Maturity	US Treasury, Agency and Municipal Securities	International Government Instruments	US Corporate Debt Instruments	International Debt Instruments	Total
Less than 1 year Weighted Average to Maturity	\$ 2,568,951	\$ -	\$ 168	\$ -	\$ 2,569,119
1 - 5 years	2,805,371	-	774,106	78,232	3,657,709
6 - 10 years	53,143	-	63,440	138,441	255,024
10 or more years	29,598	9,121	-	-	38,719
No Maturity or Not Applicable	-	-	30,573	-	30,573
Total	\$ 5,457,063	\$ 9,121	\$ 868,287	\$ 216,673	\$ 6,551,144

Fiduciary Funds and Similar Component Units

The Pension Trust Funds generally do not have a formal investment policy on interest rate risk. However, interest rate risk is generally controlled through diversification of portfolio management styles. Each Pension Trust Fund reviews the performance of each investment manager, and monitors the interest rate risk as part of the performance assessment. At June 30, 2016, the Pension Trust Funds had the following exposure to interest rate risk (expressed in thousands):

Interest Rate Risk - Pension Trust Funds					
Duration or Weighted Average Years	US Treasury, Agency and Municipal Securities	International Government Securities	US Corporate Debt Instruments	International Debt Instruments	Total
Less than 1 year duration	\$ 7,231	\$ -	\$ 6,669	\$ 7,955	\$ 21,855
1 - 5 years	651,716	-	2,319,492	24,512	2,995,720
6 - 10 years	334,313	-	617,636	38,748	990,697
10 or more years	2,063,790	-	135,897	38,609	2,238,296
No Duration	305,182	-	183,665	262,223	751,070
Total	\$ 3,362,232	\$ -	\$ 3,263,359	\$ 372,047	\$ 6,997,638

Component Units

The state's Component Units typically have board approved investment policies designed to manage exposure to fair value losses that arise from interest rate risk. The policies of the various Component Units can differ significantly since each investment policy is designed to match the portfolio objectives for that Component Unit. A substantial portion of the Component Units' holdings in debt instruments is in money market mutual funds and bond mutual funds with demand maturities which are presented below as not having an applicable maturity. On June 30, 2016, the Component Units had the following interest rate risk exposure (expressed in thousands):

Interest Rate Risk - Component Units						
Weighted Average Years to Maturity	US Treasury, Agency and Municipal Securities	International Government Securities	US Corporate Debt Instruments	International Debt Instruments	Total	
Less than 1 year Weighted Average to Maturity	\$ 438,221	\$ -	\$ 179,685	\$ -	\$ 617,906	
1 - 5 years	553,220	-	127,519	-	680,739	
6 - 10 years	81,008	-	17,358	-	98,366	
10 or more years	50,920	-	5,946	-	56,866	
No Maturity or Not Applicable	179,285	-	282,187	39,845	501,317	
Total	\$ 1,302,654	\$ -	\$ 612,695	\$ 39,845	\$ 1,955,194	

E. Foreign Currency Risk

Foreign Currency Risk is the risk that changes in currency exchange rates will adversely affect the fair value of a deposit or investment. The state, its Fiduciary Funds and Component Units typically make investments in foreign securities to achieve an additional level of diversification within the various portfolios under management. Foreign currencies held as cash and cash equivalents are usually held to limit losses in foreign investments due to fluctuations in currency values.

Primary Government

The General Government is not invested in securities that are exposed to foreign currency risk; however, the Permanent Funds have policies that will typically allow a portion of the total portfolio to be invested in international securities in an effort to improve diversification and total returns. The business-type activity's investing policies do not specifically address foreign investments, and they will typically not hold any international securities. At June 30, 2016, the Primary Government had the following foreign currency risk (expressed in thousands):

Foreign Currency Risk - Primary Government

Currency	Equities	Debt Instruments	Cash and Equivalents	Total
Australian dollar	\$ 2,972	\$ 499	\$ 112	\$ 3,583

Totals	\$ 150,305	\$ 37,351	\$ 919	\$ 188,575

Fiduciary Funds and Similar Component Units

The Pension and Other Employee Benefit Trust Funds generally have investment policies regarding limits on the amount of foreign securities that can be held within their respective portfolios. The Trust Funds have a significantly longer time frame for achieving their investment goals, and investments in foreign securities offer an additional level of diversification, as well as provide the opportunity for increased returns. Typically, holdings in foreign currencies are used to limit losses on foreign securities due to currency fluctuations. The Trust Funds had the following foreign currency risk at June 30, 2016 (expressed in thousands):

Foreign Currency Risk - Pension Trust Funds

Currency	Equities	Debt Instruments	Cash and Equivalents	Total
Australian dollar	\$ 92,619	\$ 13,997	\$ -	\$ 106,616

Securities Lending Definition

In a securities lending transaction, securities are loaned to approved brokers through a securities lending agreement with a simultaneous agreement to return collateral for the same security in the future.

Securities Lending Activity - Primary Government

State Statute Title 62, Section 90 authorizes the Office of the State Treasurer to participate in securities lending transactions. All securities held by J.P. Morgan, as trustee or custodian, may be lent in the securities lending program unless specifically excluded by the Office of the State Treasurer.

During the fiscal year ended June 30, 2016, securities lending agents lent primarily U.S. Government securities. Cash and U.S. Government securities were provided as collateral for the securities lent. Generally, collateral must equal at least 100% of the fair value of the securities loaned. At June 30, 2016, there were no securities on loan. The collateral balance of \$51,000,000 represents cash collateral that is invested in U.S. Government securities and is included as an asset on the balance sheet with an offsetting liability for the return of collateral.

At June 30, 2016, there was no credit risk exposure to borrowers because the amounts the Primary Government owes the borrowers exceed the amounts the borrowers owe the Primary Government. Contracts with securities lending agents require them to indemnify the lender if the borrower fails to return the securities or otherwise fails to pay the lender for income while the securities are on loan. There were no losses on security lending transactions, or recoveries from prior period losses, that resulted from the default of a borrower or the lending agent. Because these transactions are terminable at will, their duration generally did not match the duration of the investments made with cash collateral.

The Tobacco Trust Fund, a Permanent Fund of the state, participates in securities lending as defined by its investment policy. During the year, the Tobacco Trust lent U.S. Government securities, corporate debt, and domestic and foreign equities. Collateral was provided as cash for securities lent. Collateral must equal at least 102% of the market value of securities lent unless the principal market for the collateral is outside the United States, in which case a margin of 105% must be maintained. At June 30, 2016, the fair value of securities on loan was \$119,328,000. The collateral for securities lent had a market value of \$122,292,000. The investment made with cash collateral had an average maturity of one day and did not match the duration of the security on loan since the loans are terminable at will. There was no credit risk to borrowers.

Securities Lending Activity - Fiduciary Funds and Similar Component Units

The six Public Employees Retirement Systems (PERS) participate in securities lending transactions as provided by their respective investment policies. During the fiscal year ended June 30, 2016, securities lending agents lent primarily U.S. Government securities, equity securities, and debt securities. Cash, U.S. Government securities, and letters of credit were provided as collateral for the securities lent. Generally, collateral must be provided in the amount of 102% of the fair value of the securities loaned. In certain instances collateral must be provided in the amount of 105% when the principal trading market for the loaned securities is outside the United States. At June 30, 2016, the carrying amount and fair value of securities on loan was approximately \$2,214,114,000. The underlying collateral for these securities had a fair value of approximately \$2,407,189,000. Collateral of securities and letters of credit represented approximately \$119,564,000 of total collateral. Because these securities and letters of credit cannot be sold or pledged unless the borrower defaults, the collateral and related liability are not presented on the balance sheet. The remaining collateral represents cash collateral that is invested in short-term investment pools and is included as an asset on the balance sheet with an offsetting liability for the return of the collateral.

At June 30, 2016, there was no credit risk exposure to borrowers because the amounts the Fiduciary Funds owe the borrowers exceed the amounts the borrowers owe the Fiduciary Funds. Contracts with securities lending agents require them to indemnify the lender if the borrower fails to return the securities or otherwise fails to pay the lender for income while the securities are on loan. There were no losses on security lending transactions, or recoveries from prior period losses, resulting from the default of a borrower or the lending agent. Investment policies do not require the maturities of investments made with cash collateral to match the maturities of securities lent; however, investment policies may establish minimum levels of liquidity to minimize the interest rate risk associated with not matching the maturity of the investments with the loans. Generally, their duration did not match the duration of the investments made with cash collateral.

Derivative Investments Definition

Derivatives are often complex financial arrangements used to manage specific risks or to act as investments. Derivatives can act as hedges to more effectively manage cash flow or act as investments thereby increasing or decreasing exposure to certain types of investments.

Derivative Investments - Primary Government

Certain state agencies utilize derivative investments as tools to efficiently and effectively manage domestic, international and fixed income investments within their respective portfolios. Investments for the Tobacco Settlement Trust Fund are reported at fair value based on the cash flows from interest and principal payments. The notional amount, financial statement classification and fair value balance of derivatives outstanding at June 30, 2016, and the change in fair value of such derivatives for the year then ended are as follows (expressed in thousands):

Permanent Fund	Derivative Instrument	Notional Amount	Fair Value		Change in Fair Value	
			Classification	Amount	Classification	Amount
Tobacco Settlement Trust	Foreign Currency Forward Contracts	\$ (1,676)	Net Receivable	\$ 34	Investment Income	\$ (88)

Derivative Investments - Fiduciary Funds and Similar Component Units

Several of the state's Public Employees Retirement Systems (PERS) utilize derivative investments as tools to efficiently and effectively manage domestic, international and fixed income investments within their respective portfolios. The notional amount, financial statement classification and fair value balance of derivatives outstanding at June 30, 2016, and the change in fair value of such derivatives for the year then ended are as follows (expressed in thousands):

Pension System	Derivative Instrument	Notional Amount	Fair Value		Change in Fair Value	
			Classification	Amount	Classification	Amount
Firefighters Pension and Retirement System (OFPRS)	Foreign Currency Forward Contracts	\$ 39,248	Net Payable	\$ (484)	Investment Income	\$ 196
Teachers' Retirement System (TRS)	Foreign Currency Forward Contracts	12,888	Investment	210	Investment Income	252

The OFPRS system uses foreign currency forward contracts primarily to hedge foreign currency exposure. The fair value of all OFPRS derivative instruments are determined from market quotes of the instruments or similar instruments. The receivable is net of gross receivables of \$286,000 and liabilities of \$770,000. The gross receivables are supported by collateral in investments valued at \$286,000 with a credit risk ratings of A by S&P and A2 by Moody's. The foreign currency forward contracts for the TRS subject the System to foreign currency risk because the investments are denominated in foreign currencies. The fair value of foreign currency forward contracts for TRS are estimated based on the present value of their estimated cash flows.

Derivative Investments - Component Units

The Component Units of the state have varied investment goals based on the demands of their specific operations and commonly have investment policies allowing for greater investment diversity and risk. Certain component units and foundations with the Higher Education Component Unit will utilize derivative investments on occasion to secure specific returns matched to maturing liabilities to mitigate overall portfolio risk.

Note 3. Accounts Receivable

Receivable balances have been disaggregated by type and presented separately in the financial statements. Only receivables with allowances for uncollectible accounts as of June 30, 2016, including the applicable allowances for uncollectible accounts, are presented below (expressed in thousands):

	General Fund	Proprietary Fund	Component Units	
	Accounts Receivable	Taxes Receivable	Accounts Receivable	Notes Receivable
Gross Receivables	\$ 127,048	\$ 130,115	\$ 771,425	\$ 450,813
Less: Allowance for Uncollectibles	(78,181)	(65,225)	(193,818)	(6,981)
Net Receivables	<u>\$ 48,867</u>	<u>\$ 64,890</u>	<u>\$ 577,607</u>	<u>\$ 443,832</u>

Note 4. Interfund Accounts and Transfers

A. Due from Other Funds/Due to Other Funds

Due From Fiduciary Funds (Component Units)	-	Total Interfund Payables per Financial Statements	273,987
Due From Other Component Units	5,901	Timing Differences, Fiscal Year Ending	
		December 31, 2015: Component Units	(542)
Total Interfund Receivables per Financial Statements	\$ 273,445	Total Interfund Payables	\$ 273,445

The General Fund Due From Other Funds includes \$53,123,000 from Oklahoma Turnpike Authority (OTA) (\$52,911,000 at December 31, 2015) for a portion of motor fuel excise taxes collected on fuels consumed on turnpikes. The balance accumulates and is payable when certain OTA revenue bonds payable have been paid in full. The Wildlife Lifetime Licenses Permanent Fund is due \$88,000 from the General Fund for legislative mandated transfer of earnings on certain funds.

Remaining interfund balances resulted from the time lag between the dates that interfund goods and services are provided or reimbursable expenditures occur, transactions are recorded, and payment between funds are made.

B. Notes Payable and Capital Leases

The Higher Education (HE) component unit has entered into capital lease agreements with the General Fund's Oklahoma Capital Improvement Authority (OCIA) to lease various facilities, equipment and improvements. The capital lease outstanding balances are \$467,192,000.

C. Interfund Transfers

A summary of interfund transfers for the fiscal year ended June 30, 2016, follows (expressed in thousands):

Transfers From (Out)	Transfers To (In)	For (Purpose)	Amount
Governmental Funds:			
General Fund	Oklahoma Water Resources Board	Payment for administrative costs	\$ 2,826
	Total transfers out of the General Fund		2,826
Proprietary Funds:			
Oklahoma Employment Security Comm	General Fund	Payment for Administrative Costs	15,342
Oklahoma Water Resources Board	General Fund	Restricted investment revenue	56
Oklahoma Lottery Commission	General Fund	Transfer of expendable earnings	66,407
	Total transfers in to the General Fund		81,805
	Net Transfers In/Out - General Fund		\$ 78,979

Note 5. Capital Assets

Capital asset activity for the year ended June 30, 2016, was as follows (expressed in thousands):

Primary Government

	Beginning Balance	Increases	Decreases	Ending Balance
Governmental Activities				
Capital assets, not being depreciated:

Capital assets, net	\$ 8,059,125	\$ 941,892	\$ (480,172)	\$ 8,520,845

Note 6. Risk Management and Insurance

It is the policy of the state to cover the risk of losses to which it may be exposed through risk management activities. In general, the state is self-insured for health care claims (except for employee participation in certain health maintenance organizations), workers' compensation, and second injury workers' compensation. The state is also self-insured against tort and auto liability and property losses, with commercial insurance policies for losses that fall outside of coverage limits or are in excess of the self-insured retention.

Coverage for health care claims and workers' compensation is provided by two entities of the state. The Employees Group Insurance Department (EGID), a department of the Office of Management and Enterprise Services (OMES), manages a legal trust which provides group health, life, dental, and disability benefits to the state's employees and certain other eligible participants. Effective January 1, 2015, the Risk Management Department (RMD), part of Capital Assets Management, a division of OMES, was authorized to handle Workers' Compensation for all state agencies when House Bill 2009 was signed into law during 2014. The Risk Management Department Consolidated Workers' Compensation Program began operating on July 1, 2015.

Coverage for second injury workers' compensation is provided by a discretely presented component unit. The Multiple Injury Trust Fund (MITF) was created to encourage the hiring of individuals with a pre-existing disability and to protect those employers from liability for the pre-existing disability. MITF records a liability for outstanding court awards only as those amounts are awarded by the Workers' Compensation Court for permanent total disability awards. There is no provision for incurred but not reported claims or claims pending Court determination. Claims and Judgments which were due and owing at December 31, 2015, have been charged to operations for the year ended December 31, 2015. At year end, the MITF loss liability exceeded net position. MITF was indebted to claimants for court awarded judgments. Only those judgments currently payable in arrears bear interest. The rate, set by statute, is the Treasury bill rate plus 4% to be updated annually.

Coverage for liability and property losses is provided by the RMD of OMES. The RMD administers a self-insurance program to protect the state, its agencies, colleges, and universities against tort and auto liability claims. Coverage and limits under this program correspond directly with the Oklahoma Governmental Tort Claims Act (GTCA). The RMD purchases commercial liability insurance for losses that fall outside of the GTCA. The RMD also provides a Property

Insurance program for all agencies, colleges, and universities through a combination of a high self-insured retention and commercial insurance policies in excess of the self-insured retention. Coverage limits are \$1 billion for each occurrence subject to coverage terms and conditions. Commercial insurance is purchased to protect the state's fine arts and physical damage to its automobiles. Additionally, the RMD purchases a Government Crime Policy, i.e., Employee Dishonesty policy.

Except for MITF, estimates relating to incurred but not reported claims, as well as other probable and estimable losses have been included in accrued liabilities for each fund. None of the funds have included non-incremental claims adjustment expense as part of accrued liabilities. Because actual claims liabilities are impacted by complex factors including inflation, changes in legal doctrines, and unanticipated damage awards, the process used in computing claims liabilities does not necessarily result in exact amounts. Claims liabilities are re-evaluated periodically to take into consideration recently settled claims, and other economic and social factors.

The General Fund self-insurance loss liability for the RMD of OMES represents an estimate of amounts to be paid from economic financial resources.

The following table presents the changes in claims liability balances (both current and noncurrent) during the current fiscal year ended June 30, 2016, (December 31, 2015, for EGID and MITF) and the prior fiscal year, (expressed in thousands):

	Beginning Balance	Plus: Current Year Claims and Changes in Estimates	Less: Claim Payments	Ending Balance	Noncurrent Liability	Current Liability
Current Fiscal Year						
General Fund -						
Office of Management and Enterprise Services	\$ 25,072	\$ 29,277	\$ (7,651)	\$ 46,698	\$ 39,047	\$ 7,651

Public Entity Risk Pool – Employees Group Insurance Division

The state operates the Employees Group Insurance Division of the Office of Management and Enterprise Services (Plan), a Public Entity Risk Pool.

A. Description of Plan

The Plan provides group health, dental, life, and disability benefits to active state employees and local government employees, as well as varying coverages for active education employees and certain participants of the state's retirement

systems, survivors, and persons covered by COBRA. Disability coverage is available only to active state employees and local government employees. The Plan is self-insured and provides participants with the option of electing coverage from certain HMOs. Premium rates for the various groups are separately established.

The coverages are funded by monthly premiums paid by individuals, the state, local governments, educational employers, and retirement systems. A participant may extend coverage to dependents for an additional monthly premium based on the coverage requested. Of the 228,000 primary participants and dependents, approximately 24,000 primary participants and 17,000 dependents were covered by HMOs. These counts relate to health coverage only.

All state agencies are required to participate in the Plan. Eligible local governments may elect to participate in the Plan (308 local governments actually participate). Any education entity or local government which elects to withdraw from the Plan may do so with 30 days written notice, and must withdraw both its active and inactive participants.

A summary of available coverages and eligible groups, along with the number of health care participants follows:

	State Employee	Local Government Employee	Education Employee	Teachers' Retirement System	OPERS	COBRA
Health	X	X	X	X	X	X
Dental	X	X	X	X	X	X
Life	X	X	X	X	X	
Disability	X	X				
Medicare Supplement				X	X	X
Health Care Participants:						
Primary	25,000	8,000	55,000	-----	39,000	-----
Dependents	-----	-----	60,000	-----	-----	-----

B. Unpaid Claims Liabilities

The Plan establishes policy and contract claim reserves based on the estimated ultimate cost of settling claims that have been reported but not settled, and of claims that have been incurred but not yet reported. Disability reserves are also established based on the estimated ultimate cost of settling claims of participants currently receiving benefits and for disability claims incurred but not yet reported to the Plan.

The reserves are determined using the Plan's historical benefit payment experience. The length of time for which costs must be estimated depends on the coverages involved. Although such estimates are the Plan's best estimates of the incurred claims to be paid, due to the complex nature of the factors involved in the calculation, the actual results may be more or less than the estimate. The claim liabilities are recomputed on a periodic basis using actuarial and statistical techniques which consider the effects of general economic conditions, such as inflation, and other factors of past experience, such as changes in participant counts. Adjustments to claim liabilities are recorded in the periods in which they are made. Premium deficiency reserves are required to be recorded when the anticipated costs of settling claims for the following fiscal year are in excess of the anticipated premium receipts for the following year. Anticipated investment income is considered in determining whether a premium deficiency exists.

C. Reconciliation of Claims Liabilities

The schedule below presents the changes in policy and contract claim reserves and disability reserves for the three types of coverages: health and dental, life, and disability (expressed in thousands):

	Health and Dental	Life	Disability	Total
	Fiscal Year 12/31/2015	Fiscal Year 12/31/2015	Fiscal Year 12/31/2015	Fiscal Year 12/31/2015
Reserves at beginning of period	\$ 108,063	\$ 6,275	\$ 13,455	\$ 127,793
Incurring claims:				
Provision for insured events of current period	986,857	27,503	4,564	1,018,924
Changes in provisions for insured events of prior periods	(1,518)	738	(2,769)	(3,549)
	<u>985,339</u>	<u>28,241</u>	<u>1,795</u>	<u>1,015,375</u>
Payments:				
Claims attributable to insured events of current period	878,100	24,593	735	903,428
Claims attributable to insured events of prior periods	<u>102,816</u>	<u>4,408</u>	<u>2,386</u>	<u>109,610</u>
	<u>980,916</u>	<u>29,001</u>	<u>3,121</u>	<u>1,013,038</u>
Reserves at end of period	<u>\$ 112,486</u>	<u>\$ 5,515</u>	<u>\$ 12,129</u>	<u>\$ 130,130</u>

D. Revenue and Claims Development Information

The separately issued audited financial statements for the Plan include Required Supplementary Information regarding revenue and claims development.

Note 7. Operating Lease Commitments

The state has commitments with non-state entities to lease certain buildings and equipment. Future minimum rental commitments for equipment operating leases as of June 30, 2016, are as follows (expressed in thousands):

	General Fund	Fiduciary Funds	Component Units
2017	\$ 1,867	\$ 134	\$ 1,577
2018	628	-	1,314
2019	575	-	1,050
2020	422	-	1,036
2021	141	-	1,036
2022-2026	-	-	1,096
Total Future Minimum Lease Payments	<u>\$ 3,633</u>	<u>\$ 134</u>	<u>\$ 7,109</u>
Operating lease commitments for building rental for year ended June 30, 2017	\$ 24,080	\$ 449	\$ 1,433
Rent expenditures/expenses for operating leases for year ended June 30, 2016	\$ 25,098	\$ 633	\$ 18,089

Note 8. Lessor Agreements

Primary Government

Direct Financing Leases

The Department of Transportation maintains leases classified as direct financing leases. The state leases heavy equipment and machinery to counties within the state. The lease terms are determined by the depreciation schedules published by the American Association of State Highway Transportation Officials. All new county equipment leases were charged an interest amount equivalent to 3% of the equipment cost. Title to this equipment passes to the counties at the end of the lease term. The Department of Transportation also leases railroad lines within the state to various railroad companies with the longest lease term ending in 2025. No interest or executory costs are charged, and the leases include bargain purchase options. The unguaranteed residual values of the machinery, equipment, and railroad lines are not estimated by the state. Contingent rentals are not a part of any lease and uncollectible amounts are not expected. The total minimum lease payments to be received by the Department of Transportation in future years is approximately \$20,692,000 which is also the net investment in direct financing leases at June 30, 2016. The following schedule represents minimum lease payments receivable for direct financing leases for each of the five succeeding fiscal years (expressed in thousands):

	2017	2018	2019	2020	2021	Total
Department of Transportation	\$ 4,932	\$ 4,358	\$ 3,626	\$ 3,068	\$ 2,054	\$ 18,038
Oklahoma Capital Improvement Authority	40,592	42,176	43,642	12,272	9,925	148,607
Total	<u>\$ 45,524</u>	<u>\$ 46,534</u>	<u>\$ 47,268</u>	<u>\$ 15,340</u>	<u>\$ 11,979</u>	<u>\$ 166,645</u>

The Oklahoma Capital Improvement Authority (OCIA) has capital lease agreements with the higher education component unit for the lease of various facilities, equipment and improvements. At June 30, 2016, the total minimum lease payments to be received by OCIA from the higher education component unit are \$467,192,000. These lease agreements end in fiscal year 2035.

Operating Leases

The state has operating leases maintained by various state agencies consisting primarily of state land leased to non-state entities, as well as a small amount of state owned buildings which are also leased to non-state entities. Due to the passage of time, the state's historical cost of the leased land is not reasonably determinable. The leased buildings consist of sub-leased office space under an operating lease. Since the state does not have a cost basis in the building, no depreciation expense is recognized. The Primary Government's total operating leases receivable recognized in the current fiscal year is approximately \$18,000. Minimum future rentals receivable from these operating leases is presented in the following schedule (expressed in thousands):

2017	2018	2019	2020	2021	Total
\$ 401	\$ 173	\$ 156	\$ 140	\$ 124	\$ 994

In addition, the leasing operations of the Commissioners of the Land Office consist of leasing approximately 740,000 acres of land principally for agricultural purposes. The lease terms are generally for five-year periods with one-fifth of the leases expiring each year. The lease year is on a calendar year basis with rents prepaid one year in advance. The rental amount is determined based on the maximum amount bid by the lessee. The following schedule presents minimum future rentals receivable from the noncancelable leasing of these lands (expressed in thousands):

2017	2018	2019	2020	2021	Total
\$ 11,223	\$ 8,245	\$ 5,472	\$ -	\$ -	\$ 24,940

Component Units

The Oklahoma Municipal Power Authority (Authority) executed a Power Purchase Agreement with FPL Energy Oklahoma Wind, LLC (FPLE Oklahoma), for the development of a wind generation facility in northwestern Oklahoma. Under the agreement, FPLE Oklahoma was responsible for acquiring, constructing and installing the wind project. The Authority issued taxable limited obligation notes which were payable solely from lease payments made by FPLE Oklahoma. The Authority used the proceeds of the notes to finance the Authority's acquisition of the wind project and has leased the wind project to FPLE Oklahoma under a long-term capital lease agreement for an amount sufficient to pay the debt service, principal and interest, on the notes. The Power Purchase Agreement has a term of approximately 25 years and power is sold on a take and pay basis. FPLE Oklahoma retains the operational risk related to the wind project. The following schedule lists the components of the lease agreement as of December 31, 2015 (expressed in thousands):

Total minimum lease payments to be received	\$ 58,717
Less: Amounts representing interest included in total minimum lease payments	(18,732)
Net investment in direct financing leases	<u>\$ 39,985</u>

Operating Leases

The Oklahoma Turnpike Authority has various noncancelable contracts with concessionaires to provide patron services on the state's turnpike system. The contracts are generally for five year terms, with two five-year renewal options. The Authority receives concession revenue that includes minimum rentals plus contingent rentals based on sales volume. The Authority also leases antenna space under noncancelable contracts with a 20 year term. The University Hospital Authority has leased substantially all capital assets, except construction-in-progress, to the joint operations of OU Medical Center and OU Health Sciences Center. The University Hospital Authority carries receipts through 2050. The following schedule presents minimum future rentals receivable from these contracts (expressed in thousands):

	2017	2018	2019	2020	2021	Thereafter	Total
University Hospitals Authority	\$ 1,293	\$ 821	\$ 802	\$ 793	\$ 738	\$ 19,341	\$ 23,788
Oklahoma Turnpike Authority	1,084	1,090	1,087	1,019	1,023	14,205	\$ 19,508
Total	<u>\$ 2,377</u>	<u>\$ 1,911</u>	<u>\$ 1,889</u>	<u>\$ 1,812</u>	<u>\$ 1,761</u>	<u>\$ 33,546</u>	<u>\$ 43,296</u>

The cost, carrying amount and depreciation of the Oklahoma Turnpike Authority leased property for the year ended December 31, 2015, is \$39,782,000, \$30,390,000 and \$9,392,000, respectively. The cost and carrying amount of the University Hospitals Authority leased property for the year ended June 30, 2016 (expressed in thousands):

Land	\$ 4,009
Buildings	339,658
Equipment	129,925
Infrastructure	<u>7,701</u>
Cost	481,293
Less Accumulated Depreciation	<u>(280,394)</u>
Net Leased Property	<u>\$ 200,899</u>

Note 9. Long-Term Obligations As Related to Governmental Activities

Long-term obligations at June 30, 2016, and changes for the fiscal year then ended (expressed in thousands):

	Issue Date	Interest Rates	Maturity Through	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year

A. General Obligation Bonds

General obligation bonds, administered by the State Treasurer, are authorized and issued primarily to provide resources for state-owned capital improvements, including office buildings for state agencies. The state has pledged 100% of cigarette taxes collected under these bond issues. General obligation bonds are backed by the full faith and credit of the state, including the state's power to levy additional taxes to ensure repayment of the bonds.

B. Revenue Bonds

The Oklahoma Capitol Improvement Authority (OCIA) has twenty outstanding series of building bonds to construct and equip state office buildings and prisons. Principal and interest payments on these bond issues are paid from rents collected from the various state and federal agencies that occupy the buildings constructed with the bond proceeds. The 2006A, B, C and E bonds were refunded with funds from 2015B series bonds and resulted in a projected savings of approximately \$3,570,000.

The Oklahoma Development Finance Authority (ODFA) has issued lease revenue bonds to provide lease financing for the Department of Corrections, the Department of Human Services, the Department of Veterans Affairs, the Council for Law

Enforcement Education and Training, and the Office of Management and Enterprise Services. The actual lease payments are made to a trustee who is responsible for payments to individual investors.

C. Notes Payable

The Oklahoma Department of Transportation (ODOT) has issued several series of Grant Anticipation Notes for the purpose of financing certain qualified federal aid transportation projects in the state. The notes are secured by federal revenue received from the Federal Highway Administration (FHWA) and have a final maturity in 2019. Total revenue received from the FHWA in fiscal year 2016 was \$641,257,000 with a portion of that amount, \$32,474,000, reserved as security for the notes. Current year note obligations for principal and interest totaled \$15,087,000.

D. Capital Leases

The state has entered into agreements to lease equipment. Such agreements are, in substance, purchases (capital leases) and are reported as capital lease obligations. Capital lease obligations are reported for those leases where the fair market value of the leased asset at inception of the lease is \$25,000 or more.

Leased equipment under capital leases in capital assets at June 30, 2016, includes the following (expressed in thousands):

	<u>Buildings</u>	<u>Equipment</u>	<u>Total</u>
Cost	\$ 7,662	\$ 6,434	\$ 14,096
Less: Accumulated depreciation	(2,238)	(5,069)	(7,307)
Total	<u>\$ 5,424</u>	<u>\$ 1,365</u>	<u>\$ 6,789</u>

For fiscal year 2016, \$1,541,000 was recognized as depreciation expense for leased assets.

E. Other Liabilities

Compensated absences are liquidated by the General Fund and do not have scheduled future debt service requirements beyond one year. The pension obligation is for the Oklahoma Department of Wildlife Conservation defined benefit pension plan, the Oklahoma Law Enforcement Retirement System and the Uniform Retirement System for Judges and Justices. These plans are single-employer plans that provide retirement, disability, and death benefits to the plan members and their beneficiaries. These pension obligations do not have scheduled future debt service requirements. The Wildlife Pension Plan obligation will be liquidated by the General Fund. The pension liability for the Oklahoma Law Enforcement Retirement System and the Uniform Retirement System for Judges and Justices will be liquidated by the respective pensions.

F. Authorized Unissued Bonds

The Oklahoma Capital Improvement Authority (OCIA) has been authorized to issue bonds in the amount of \$9,000,000 for the Department of Tourism and Recreation to acquire, construct and renovate offices. OCIA has been authorized to issue \$70,000,000 of 10-year term bonds to repair the state capitol building. The Oklahoma Water Resources Board (OWRB) has been authorized to issue general obligation bonds in the amount of \$300,000,000 to be used as credit for other OWRB loan programs. During the 2015 legislative session, OCIA was authorized to issue \$25,000,000 of bonds for the Oklahoma Historical Society to fund construction and furnish the Museum of Popular Culture in Tulsa and, if certain conditions are met, to issue \$25,000,000 of bonds to provide funding for the completion of the Native American Indian Cultural Center and Museum in Oklahoma City. During the 2016 legislative session, OCIA was authorized to issue up to \$125,000,000 of bonds to fund repairs to the Capitol Building. These bonds cannot be issued before fiscal year 2019.

Note 10. Long-Term Obligations As Related to Business-Type Activities

The Oklahoma Water Resources Board (Board) along with the Department of Environmental Quality has issued 36 series of revenue bonds. These bonds provide resources to implement statewide financial assistance programs. These programs make loans to local government units for the acquisition, development, and utilization of storage and control facilities for water and sewage systems. Six of the revenue bonds have a variable or floating rate and are also subject to mandatory sinking fund redemption. The remaining revenue bonds are held at a fixed rate.

Long-term obligations at June 30, 2016, and changes for the fiscal year then ended are as follows (expressed in thousands):

	Issue Dates	Issue Amount	Interest Rates	Maturity Through	Beginning Balance	Additions	Reductions	Ending Balance	Amounts Due Within One Year
Revenue Bonds Payable from User Fees:

Long-Term Obligations without scheduled debt service:											
Other Noncurrent Liabilities											9,125
Net Pension Liability											1,668
Compensated Absences											1,075
Total Long-Term Obligations											\$ 879,192

Several of the bonds bear interest at variable rates, initially set at 0.25% to 5.00% and are periodically adjusted, pursuant to the provisions of the bond indentures, to a maximum rate of 14% per year. Variable rates are reset semiannually by the remarketing agent. The interest rate on the bonds was 0.3% to 0.45% at June 30, 2016. At the option of the Board and subject to applicable provisions of the bond indenture, which require, among other things, that all bonds be successfully remarketed, the variable interest rate may be converted to a term rate that would stay fixed until maturity.

Note 11. Long-Term Obligations As Related to Component Units

Long-term obligations at June 30, 2016 (September 30, 2015, for Oklahoma Housing Finance Agency and December 31, 2015, for Oklahoma Turnpike Authority, Grand River Dam Authority and Municipal Power Authority), and changes for the fiscal year then ended are as follows (expressed in thousands):

A. General Obligation Bonds

Oklahoma Industrial Finance Authority (OIFA) has six series of general obligation bonds outstanding. These bonds are issued for the funding of industrial finance loans to encourage business development within the state. All revenues arising from the net proceeds from repayment of industrial finance loans and interest received thereon are pledged under these bond issues. In addition, these general obligation bonds are backed by the full faith and credit of the state. The following table presents annual debt service requirements for those long-term obligations outstanding at June 30, 2016 (September 30, 2015, for Oklahoma Housing Finance Agency and December 31, 2015, for Oklahoma Transportation Authority, Grand River Dam Authority and Municipal Power Authority), which have scheduled debt service amounts (expressed in thousands):

B. Revenue Bonds

The Oklahoma Student Loan Authority (OSLA) has issued eight series of revenue bonds with outstanding balances. The bonds were issued for the purpose of funding student loans. All bonds payable are primarily secured by the student loans receivable, related accrued interest and by the amounts on deposit in the accounts established under the respective bond resolution. Variable interest rates are adjusted periodically based on prevailing market rates of various instruments as prescribed in bond indentures. At June 30, 2016, the variable interest rates ranged from 0.5% to 1.9%.

The Oklahoma Development Finance Authority (ODFA) has issued revenue bonds to fund loans to various investment enterprises in connection with the Quality Jobs Investment Program. The bonds are payable solely from and secured by the revenues and funds in the Quality Jobs Investment Program and a Credit Enhancement Reserve Fund guarantee insurance policy. The interest rates are variable and equal to the Oklahoma Industrial Finance Authority's cost of funds on its outstanding variable rate bond issues. The interest rate at June 30, 2016 was 2.5%.

The Oklahoma Housing Finance Agency (OHFA) has issued sixteen series of revenue bonds with outstanding balances at year end. The net proceeds of these bonds are used to provide financing for qualifying residences, provide interim and permanent financing for multifamily construction projects, and establish debt service reserves as required by the various trust indentures.

The Oklahoma Turnpike Authority (OTA) has four series of revenue bonds outstanding with an original issue amount of \$1,364,930,000. The bonds are issued for the purpose of financing capital improvements and new projects relating to the state's turnpike system and are financed primarily by tolls assessed on users of the turnpikes.

The Grand River Dam Authority (GRDA) has six series of revenue bonds outstanding with an original issue amount of \$1,190,170,000. Oklahoma statutes have authorized GRDA to issue revenue bonds with the aggregate outstanding indebtedness not to exceed \$1,410,000,000.

The Oklahoma Municipal Power Authority (OMPA) has ten series of revenue bonds outstanding. The bonds were issued to finance portions of OMPA's acquisition and construction activities. The bonds are payable from and collateralized by a pledge of and security interest in the proceeds of the sale of the bonds, the revenues of OMPA, and assets in the funds established by the respective bond resolutions. Neither the State of Oklahoma nor any political subdivision thereof is obligated to pay principal or interest on the bonds. OMPA does not have any taxing authority. Certain series of the bonds have a variable interest rate which is established either by auction or a weekly index. The maximum rate is 14%.

The University Hospitals Authority (UHA) has issued two revenue bond series (2005A-Tax Exempt and 2005B- Taxable) with an original issue amount of \$55,460,000. The proceeds were used to finance construction of new pediatric ambulatory care facilities and a basic research center.

Nine of the state's colleges and universities within the Higher Education component unit have authorized and issued 65 series of revenue bonds with an original issue amount of \$2,237,035,000. These bonds were issued for the construction of student housing and other facilities. Student fees, revenues produced by the constructed facilities, and other revenues collateralize the revenue bonds.

C. Defeased Bonds

In prior years, component units have defeased bonds by placing assets in irrevocable trusts to provide for all future debt service payments on the defeased bonds. Accordingly, the assets of the trusts and the liabilities for the defeased bonds are not included in the accompanying financial statements. OMPA had defeased bonds outstanding at June 30, 2016 (December 31, 2015 for OMPA) totaling \$34,725,000.

D. Notes Payable

The Multiple Injury Trust Fund (MITF) component unit reports a note payable to CompSource Oklahoma of \$15,162,000 as permitted by statute. Included in this note payable is a \$6,000,000 advance on a line of credit. The note and line of credit bear interest at a 7% rate and are payable over 30 years in quarterly installments. The note and line of credit are collateralized by MITF revenues and any equity or other interests available to MITF.

Notes of the Oklahoma Student Loan Authority (OSLA) are issued to fund student loans and are primarily secured by the student loans receivable, related accrued interest and by the amounts on deposit in the accounts established under the respective financing agreements. Variable interest rates are adjusted periodically based on prevailing market rates of various instruments as prescribed in lending agreements. At year end the variable interest rate was 0.2%.

The Oklahoma Municipal Power Authority (OMPA) has issued \$57,739,000 in a taxable limited obligation note. The note is payable solely from lease payments made by FPL Energy Oklahoma Wind, LLC with no recourse to OMPA. The note bears an interest rate of 6%, and annual principal and interest payments are due through December 31, 2028.

The Higher Education component unit has entered into various notes payable agreements. Lease payments, a pledge of "Section Thirteen Fund State Educational Institutions" moneys, the equipment purchased, and the facilities constructed are pledged as collateral on the notes.

E. Capital Leases

The Higher Education component unit has entered into agreements with unrelated parties as well as agreements with the Oklahoma Capital Improvement Authority (OCIA) to lease various facilities, equipment and improvements. In fiscal year 1999, the Higher Education component unit signed capital lease agreements with OCIA totaling \$49,178,000 and additional agreements totaling \$515,350,000 during fiscal year 2006. In fiscal year 2011, additional agreements with OCIA totaling \$249,440,000 were added. In fiscal year 2014, lease agreements for \$177,055,000 were added. During fiscal year 2015, lease agreements for \$95,713,000 were added. The outstanding principal balance for the OCIA leases at June 30, 2016, is \$467,192,000. Only the principal balance of the leases is recognized since it is equivalent to the value of the items leased. The OCIA agreements are aggregated with the other capital lease obligations on the statement of net position for year end.

Oklahoma State University Medical Authority has capital leases totaling \$1,012,000 for equipment through fiscal year 2021.

Leased assets under capital leases in capital assets at June 30, 2016, included the following (expressed in thousands):

	Land	Construction In Progress	Buildings	Equipment	Total
Cost	\$ -	\$ 19,112	\$ 253,756	\$ 361,627	\$ 634,495
Less: Accumulated depreciation	-	-	(55,932)	(118,461)	(174,393)
Total	<u>\$ -</u>	<u>\$ 19,112</u>	<u>\$ 197,824</u>	<u>\$ 243,166</u>	<u>\$ 460,102</u>

F. Other Liabilities

Claims and judgments, due to Primary Government, compensated absences, and other noncurrent liabilities of each component unit, as presented in the financial statements, will be liquidated by the reporting component unit. Other noncurrent liabilities include deferred revenue and other miscellaneous liability amounts. These liabilities do not have scheduled future debt service requirements beyond one year.

G. Authorized Unissued Bonds

By statute, Oklahoma Industrial Finance Authority (OIFA) has authority to issue general obligation bonds not to exceed \$90,000,000 plus the balance in its bond redemption account. This results in \$50,000,000 of authorized but unissued general obligation bonds. Certain institutions within the Higher Education component unit have been authorized to issue revenue bonds in the amount of \$35,000,000 for various construction projects, renovation and acquisition of property.

Note 12. Net Position/Fund Balance

Beginning Net Position and Other Restatements

Primary Government

Beginning net position related to Governmental Activities on the Statement of Activities has been restated due to the correction of accounting errors (decrease of \$153,533,000) at July 1, 2015.

The Statement of Revenues, Expenditures and Changes in Fund Balance for Governmental Funds has been restated due to correction of accounting errors. Total beginning fund balance for Governmental funds decreased \$10,880,000.

Proprietary Funds

Beginning net position related to Statement of Net Position for Proprietary funds has been restated due to cumulative change in accounting principle (adoption of GASB 68 at the Oklahoma Management and Enterprise Services -Employee Group Insurance Division). Total beginning net position for Proprietary funds decreased \$2,955,000.

Component Units

Beginning net position for Component Units has been restated due to the correction of accounting errors (decrease of \$10,289,000), cumulative change in accounting principle (adoption of various GASB statements resulting in a decrease of \$41,619,000), and reclassification of CompSource Oklahoma as a private entity (decrease of \$472,179,000). The net effect of the restatements decreased beginning net position by \$524,087,000 as of July 1, 2015.

Governmental Fund Balance

The governmental fund financial statements present fund balance at the aggregate level of detail within the categories defined by GASB Statement 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. The table below represents the detailed amount of fund balance available to each functional level of government within those categories. This table also contains a separate detailed categorization for the state's stabilization, or "Rainy Day" fund if a balance is available at the end of fiscal year (expressed in thousands):

	General	Permanent Funds			Total Governmental Funds
		Commissioners of the Land Office	Department of Wildlife Lifetime Licenses	Tobacco Settlement Endowment	
Nonspendable					
Inventories	\$ 79,737	\$ -	\$ -	\$ -	\$ 79,737
Prepays	544	-	-	-	544
Permanent Fund Principal	-	2,216,433	81,321	914,653	3,212,407
Restricted					
Education	19,120	5,081	-	-	24,201
Government Administration	653,717	-	-	-	653,717
Health Services	8,591	-	-	-	8,591
Legal and Judiciary	19,745	-	-	-	19,745
Museums	3,210	-	-	-	3,210
Natural Resources	17,977	-	-	-	17,977
Safety and Defense	1,968	-	-	-	1,968
Regulatory Services	5,787	-	-	-	5,787
Social Services	7,305	-	-	-	7,305
Transportation	846	-	-	-	846
Stabilization Fund (Rainy Day)	77,597	-	-	-	77,597
Committed					
Education	(1,773,120)	-	-	-	(1,773,120)
Government Administration	2,668,655	-	-	27,160	2,695,815
Health Services	(332,037)	-	-	-	(332,037)
Legal and Judiciary	68,931	-	-	-	68,931
Museums	3,139	-	-	-	3,139

Safety and Defense	81,705	-	-	-	81,705
Regulatory Services	137,296	-	-	-	137,296
Social Services	344,523	-	-	-	344,523
Transportation	630,050	-	-	-	630,050
Assigned	609	-	-	77,296	77,905
Unassigned	25,866	-	-	-	25,866
Total Fund Balances	\$ 2,949,845	\$ 2,221,514	\$ 83,555	\$ 1,019,109	\$ 6,274,023

Nonspendable fund balance represents amounts that are not in spendable form. These amounts are not expected to be converted to cash. The state's primary forms of nonspendable fund balance are inventories and prepaid items such as rent or postage. Nonspendable fund balance also includes principal amounts within each respective permanent fund that is legally required to be maintained into perpetuity.

Restricted fund balance represents amounts that have constraints upon their use through either outside creditors, grantors, contributors or other governments as well as those amounts restricted through constitutional provisions or enabling legislation that can be legally enforced by parties outside the government. The state's general fund restricted fund balance is primarily comprised of amounts yet to be expended under federal grant awards, imminent payments on outstanding bond issues, long-term receivables that must be used for debt repayment, and 75% of any available balance in the stabilization or "Rainy Day" fund. The Commissioners of the Land Office Permanent Fund is restricted for educational systems. Fund balance as restricted by the various constraints in the general fund for the fiscal year ended June 30, 2016 were as follows (expressed in thousands):

	General Fund - Restricted			
	For Debt Service Only	Federal Cash	By Enabling Legislation	Restricted Fund Balance
Restricted				
Education	\$ -	\$ 19,120	\$ -	\$ 19,120
Government Administration	646,743	6,974	-	653,717
Health Services	172	8,419	-	8,591
Legal and Judiciary	-	19,745	-	19,745
Museums	902	2,308	-	3,210
Natural Resources	-	17,977	-	17,977
Safety and Defense	168	1,800	-	1,968
Social Services	4,489	2,816	-	7,305
Regulatory Services	5,308	479	-	5,787
Transportation	-	846	-	846
Stabilization Fund (Rainy Day)	-	-	77,597	77,597
Total Fund Balances	<u>\$ 657,781</u>	<u>\$ 80,484</u>	<u>\$ 77,597</u>	<u>\$ 815,862</u>

Committed fund balance is presented for each respective function of government as directed by the state's highest level of decision making authority. Along with ratification by the governor, the Senate and the House of Representatives write, prepare and approve legislative bills to allocate the state's available resources each fiscal year. This process is a formal legislative action constituting the highest level of decision making authority. Once this authority has been exercised, the same action must be taken to modify or rescind a previously approved bill or allocation of resources.

Under GAAP reporting, the nonspendable and restricted fund balance categories are considered to be restricted fund balance. The committed, assigned and unassigned fund balances are considered to be unrestricted fund balance. Generally, when the state has both restricted and unrestricted resources available, the restricted balances will be used first as expenditures are incurred as long as conditions that created the restriction are met. When unrestricted fund balance is used, the order of use would generally be committed, then assigned, and finally unassigned.

Article 10, Section 23 of the State Constitution establishes a stabilization arrangement (Constitutional Reserve or Rainy Day Fund) under certain conditions where revenues collected exceed estimates made by the State Board of Equalization. Each year the Board determines the amount available for allocation by the legislature not to exceed 95% of the Board's estimate, or General Revenue Fund certification amount. In any year in which amounts collected exceed 100% of the Board's estimated revenues, the excess is placed in the Constitutional Reserve Fund until the fund reaches 15% of the General Revenue Fund certification amount for the preceding fiscal year. Up to 37.5% of the balance in the fund at the beginning of the year may be appropriated for the forthcoming fiscal year when the Equalization Board's estimate is lower than the current fiscal year certification. An additional 37.5% of the Constitutional Reserve Fund at the beginning of the year may be appropriated for the current year if the Equalization Board determines that a revenue failure has occurred with respect to the General Revenue Fund for the current year. The remaining 25% of the balance in the Constitutional Reserve Fund may be appropriated upon a declaration by the governor that emergency conditions exist with concurrence by a 2/3rds vote within the Senate and House of Representatives. This same 25% may also be appropriated through a joint declaration of emergency by both the Senate and House of Representatives with a concurrent 3/4ths vote by each legislative body. Due to the different methods for accessing the Constitutional Reserve Fund, any balance with the fund at year end is presented as 75% restricted and 25% unassigned. This split in presentation most closely aligns the government's ability to access these funds with the proper fund balance classification. The total Constitutional Reserve Fund balance at June 30, 2016 was \$103,463,000, with \$77,597,000 presented as restricted fund balance and \$25,866,000 as unassigned fund balance.

The Tobacco Trust Fund's assigned fund balance classification reflects amounts that are constrained by the Fund's intent to be used for specific purposes. For purposes of assigned fund balance, the Fund's Board of Directors has authority to assign funds for specific purposes. Prior to 2012, the Board of Directors had determined that 10% of the unassigned fund balance would be designated as a reserve for future periods, should annual earnings prove insufficient to cover expenses. In November 2011, the Board of Directors chose to limit yearly expenditures of certified earnings to no more than 5% of

the corpus of the Fund, with any unexpended certified earnings added to the reserve. For the fiscal year ended June 30, 2016, the assigned fund balance was \$77,296,000.

As explained in Note 1, *Summary of Significant Accounting Policies* section J, the General Fund inventory includes \$1,568,000 in food commodities which is also included in deferred revenue. Therefore, nonspendable fund balance for inventory/prepaid on the balance sheet is \$1,568,000 less than the total of inventory and prepaid items.

Note 13. Nonrecourse Debt and Debt Guarantees

Nonrecourse (Conduit) Debt, Notes Receivable and Funds in Trust

Financing agreements of Oklahoma Development Finance Authority (ODFA) and Oklahoma Housing Finance Agency (OHFA) are structured such that the debt is to be repaid solely from the revenues derived from the related facilities leased or acquired, or from the disposition of collateral. ODFA and OHFA do not hold notes receivable and trust investments in amounts equal to the long-term financings. As of September 30, 2015, OHFA had five series of multifamily bonds outstanding with an aggregate principal amount payable of approximately \$20,242,000. These financings are not general obligations of the state or state agencies, and it is the opinion of agency management and its legal counsel that, in the event of default by a borrower, the state has no responsibility for repayment of such financings. Accordingly, the nonrecourse debt and the related notes receivable and trust investments of ODFA and OHFA's multifamily bond programs have been excluded from the financial statements. The debt and other obligations and the related notes receivable and other assets of OHFA's single family bonds are presented in the financial statements, since any assets remaining when the single family bond programs are liquidated are transferred to OHFA.

Credit Enhancement Reserve Fund

Under the Constitution of the State of Oklahoma, ODFA may issue bonds of the state, to be known as Credit Enhancement Reserve Fund General Obligation Bonds, in a total principal amount of \$100,000,000 for the sole purpose of generating resources if there are insufficient assets to meet insurance obligations. The Fund is managed, administered, and utilized by ODFA solely to secure the payment of interest insurance on the revenue bonds and other financial obligations issued by the Authority for the specific purpose of enhancing and supporting the credit of such obligations. As of June 30, 2016, there were approximately \$38,300,000 of outstanding financial obligations insured by ODFA. At year end, the Fund has accrued a reserve for losses of approximately \$633,000 to cover potential losses from outstanding financial obligations insured by the Fund. Through June 30, 2016, there have been no Oklahoma Credit Enhancement Reserve Fund General Obligation Bonds issued since it is the intention of ODFA to utilize existing assets to meet obligations arising from losses reserved and accrued payments in lieu of interest by the Fund.

Note 14. Retirement and Pension Systems

A. Plan Description

The State of Oklahoma has six Public Employee Retirement Systems (PERS) that administer pension plans: Oklahoma Firefighters Pension and Retirement System (OFPRS), Oklahoma Law Enforcement Retirement System (OLERS), Oklahoma Public Employees Retirement System (OPERS), Uniform Retirement System for Justices and Judges (URSJJ), Oklahoma Police Pension and Retirement System (OPPRS), and the Teachers' Retirement System of Oklahoma (TRS). These plans are all fiduciary component units of the state. The Department of Wildlife Conservation administers the Wildlife Conservation Retirement Plan (WCRP), which is part of the Primary Government.

OFPRS, OPERS, OPPRS, and TRS are all cost-sharing, multi-employer defined benefit retirement systems. URSJJ, OLERS and WCRP are single-employer, defined benefit retirement systems. Pension benefit provisions for all plans were established by statute and benefit provisions are amended by the State Legislature. Each plan provides retirement, disability, and death benefits to plan members and their beneficiaries. Cost-of-living adjustments are provided to plan members at the discretion of the State Legislature. The information and schedules which follow are the representation of the respective state and local governmental employer pension plans which are administered through trusts.

Separately issued independent audit reports for each pension plan may be obtained from the following:

Firefighters Pension and Retirement 6601 Broadway Extension, Suite 100 Oklahoma City, OK 73116 http://www.ok.gov/fprs/	Law Enforcement Retirement 421 N.W. 13th Street, Suite 100 Oklahoma City, OK 73103 http://www.olders.state.ok.us/	Police Pension and Retirement 1001 N.W. 63rd Street, Suite 305 Oklahoma City, OK 73116 http://www.ok.gov/OPPRS/
Public Employees Retirement P.O. Box 53007 Oklahoma City, OK 73152 http://www.opers.ok.gov/	Uniform Retirement System for Judges and Justices P.O. Box 53007 Oklahoma City, OK 73152 http://www.opers.ok.gov/	Teachers' Retirement System 2500 N. Lincoln Boulevard, 5th Floor Oklahoma City, OK 73105 http://www.ok.gov/TRS/
	Department of Wildlife Conservation P.O. Box 53465 Oklahoma City, OK 73152 http://www.wildlifedepartment.com	

B. Summary of Significant Accounting Policies

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the respective pension plans and additions to/deductions from plans fiduciary net position have been determined on the same basis as they are reported by each pension plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms.

C. Eligibility Factors and Benefit Provisions

<u>Provisions</u>	<u>OFPRS as of July 1, 2015</u>
a. Eligible to Participate	All eligible firefighters of a participating municipality or a fire protection district who perform the essential functions of fire suppression, prevention and life safety duties in a fire department.
b. Period Required to Vest	Ten years of credited service if employed prior to November 1, 2013. Eleven years of credited service if employed after November 1, 2013.
c. Eligibility for Distribution	Normal retirement 20 years of service if employed prior to November 1, 2013. Age 50 with 20 years of service if employed after November 1, 2013. Disability retirement upon disability. Death benefit of \$5,000 payable to the qualified spouse or designated recipient upon the participant's death.
d. Benefit Determination Base	Final average salary - the average paid gross salary of the fire fighter for normally scheduled hours over the highest salaried thirty consecutive months of the last sixty months of credited service.
e. Benefit Determination Methods:	
Normal Retirement	Paid firefighters: 50% of the firefighter's final average salary. Volunteer firefighters: \$150.60 per month,

effective July 1, 2008.

Disability Retirement Paid Firefighters	2.5% of the firefighter's final average salary per year of service, with a minimum service credit of twenty years and maximum of thirty years. For disabilities not in the line of duty, final average monthly compensation is based on 60 months instead of 30 months.
Volunteer Firefighters	\$7.53 per month per years of service, with a maximum of 30 years. For disabilities or deaths in the line of duty, there is a minimum service credit of 20 years.
f. Benefit Authorization	Benefits are established in accordance with Title 11 of the Oklahoma Statutes, Section 49-100.1 through 49-143.6 as amended.
g. Form of Benefit Payments	Straight life annuity. Survivor Benefit: Joint and 100% Survivor Annuity if firefighter was married 30 months prior to death.

Provisions

OLERS as of July 1, 2015

a. Eligible to Participate	All law enforcement officers of the Oklahoma Highway Patrol (OHP) and Capitol Patrol of Department of Public Safety, Oklahoma State Bureau of Investigation (OSBI), Oklahoma State Bureau of Narcotics and Dangerous Drugs Control (OBNDD), Alcoholic Beverage Laws Enforcement Commission (ABLE), members of the DPS Communications Division (Communications), DPS Waterways Lake Patrol, Tourism and Recreation Department (Rangers), Inspectors of the Oklahoma State Board of Pharmacy (Pharmacy Inspectors), and Gun Smiths of DPS are eligible upon employment.
b. Period Required to Vest	Ten years of credited service.
c. Eligibility for Distribution	Normal retirement 20 years of service or age 62 with 10 years of service. Maximum of age 60 with 20 years of service, unless considered physically able to continue. Disability benefit upon determination of disability incurred in the line of duty. For disability not in the line of duty after three years of service. Death benefit of \$5,000 payable to the designated beneficiary.
d. Benefit Determination Base	Final average salary – the average of the highest thirty consecutive complete months of compensation.
e. Benefit Determination Methods:	
Normal Retirement	2.5% of member's final average salary multiplied by the years of credited service. No maximum on service.
Disability Retirement:	
Duty	The greater of: 1. 2.5% of the greater of the final average salary times years and completed months of credited

	service, or 2. 50% of final average salary.
Non-Duty	2.5% of the final average salary times years and completed months of credited service.
f. Benefit Authorization	Benefits are established in accordance with Title 47 of the Oklahoma Statutes, Chapter 2, Article III, Section 2-300 through 2-315 as amended.
g. Form of Benefit Payments	100% Joint and Survivor Annuity.
<u>Provisions</u>	<u>OPERS as of July 1, 2015</u>
a. Eligible to Participate	<p>All permanent employees of the State of Oklahoma, and any other employer such as a county, county hospital, city or town, conservation districts, circuit engineering districts, and any trust in which a county, city, or town participates and is the primary beneficiary, are eligible to join if:</p> <ul style="list-style-type: none"> • The employee is not eligible for or participating in another retirement system authorized under Oklahoma law, is covered by Social Security and not participating in the U.S. Civil Service Retirement System. • The employee is scheduled for 1,000 hours per year and salary is not less than the hourly rate of the monthly minimum wage for state employees (for employees of local government employers, not less than the hourly rate of the monthly minimum wage for such employees).
b. Period Required to Vest	Eight years of credited service.
c. Eligibility for Distribution	<p>Normal retirement :</p> <ul style="list-style-type: none"> • Member before November 1, 2011, one of the following: <ul style="list-style-type: none"> Age 62 with 6 years of credited service. For elected officials age 60. 80 points - The sum of age and years of service equals 80 if member before July 1, 1992. 90 points - The sum of age and years of service equals 90 if member after July 1, 1992. • Member on or after November 1, 2011, one of the following: <ul style="list-style-type: none"> Age 65 with 6 years of credited service. For elected officials age 65 with 8 years of elected service.

90 points – At least age 60 and the sum of age and years of service equals 90.

Disability benefit after 8 years of service, provided member qualifies for disability benefits from the Social Security Administration or the Railroad Retirement Board.

Death benefit of \$5,000 payable upon death of retiree to the designated beneficiary.

d. Benefit Determination Base

Final average salary – member before July 1, 2013, the average compensation during the highest 3 years out of the last 10 years of service (including highest 3 longevity payments). Member after July 1, 2013, the average highest 5 out of the last 10 years of service (including highest 5 longevity payments).

e. Benefit Determination Methods:

Normal Retirement

2% of member's final average salary multiplied by the years of credited service.

Disability Retirement

Same as normal retirement.

f. Benefit Authorization

Benefits are established in accordance with Title 74 of the Oklahoma Statutes, Chapter 29, Section 901 through 935 as amended.

g. Form of Benefit Payments

Life Annuity, Joint and 50% Survivor, Joint and 100% Survivor Annuity, Life Annuity with a minimum of 120 monthly payments, and Medicare Gap Benefit option.

Provisions

USRJ as of July 1, 2015

a. Eligible to Participate

Any Justice or Judge of the Supreme Court, Court of Criminal Appeals, Workers' Compensation Court, Court of Appeals or District Court who serves as Justice or judge of any of said courts in the State of Oklahoma.

b. Period Required to Vest

Eight years of credited service.

c. Eligibility for Distribution

Normal retirement :

- Member before January 1, 2012, one of the following:

Age 60 with 10 years of credited service.

Age 65 with 8 years of credited service.

80 points- The sum of age and years of service equals 80.

- Member after January 1, 2012, one of the following:

Age 62 with 10 years of credited service

Age 67 with 8 years of credited service.

Disability benefit at age 55 and 15 years of continuous judicial service.

Death benefit of \$5,000 payable upon death of retiree to the designated beneficiary.

d. Benefit Determination Base

Final average salary – average monthly salary based on the highest 3 years of active service.

e. Benefit Determination Methods:

Normal Retirement

4% of member's final average compensation multiplied by years of credited service not to exceed 100% of final average salary.

Disability Retirement

Same as normal retirement.

f. Benefit Authorization

Benefits are established in accordance with Title 20 of the Oklahoma Statutes, Chapter 16, Section 1101 through 1111 as amended.

g. Form of Benefit Payments

Single-life, Joint and 50% Survivor, Joint and 100% Survivor.

Provisions

OPPRS as of July 1, 2015

a. Eligible to Participate

All eligible officers of a participating municipality and any person hired by a participating municipality who is undergoing police training to become a permanent police officer.

b. Period Required to Vest

Ten years of credited service.

c. Eligibility for Distribution

Normal retirement upon completing 20 years of credited service.

Total Disability (Duty): upon determination of total disability. Total Disability (Non-Duty): upon determination of disability after 10 years of service.

Death benefit of \$5,000 payable upon death of retiree to the designated beneficiary.

d. Benefit Determination Base

Final average salary – average base salary for normally scheduled hours over the highest salaried 30 consecutive months of the last 60 months of credited service.

e. Benefit Determination Methods:

Normal Retirement

2.5% of member's final average salary multiplied by years of credited service not to exceed 30 years.

Disability Retirement

Total Disability (Duty): 50% of final average salary.

Total Disability (Non-Duty): 2.5% of final average salary multiplied by years of credited service not to exceed 30 years.

Partial Disability (Duty): final average salary reduced by the % of impairment, as outlined in the "American Medical Association's Guide to the Evaluation of Permanent Impairment".

Partial Disability (Non-Duty): 2.5% of final average salary multiplied by years of credited service (maximum of 30 years) reduced by the percentage of impairment, as outlined in the "American Medical Association's Guide to the Evaluation of Permanent Impairment".

f. Benefit Authorization

Benefits are established in accordance with Title 11 of the Oklahoma Statutes, Chapter 1, Section 50-101 through 50-136.8 as amended.

g. Form of Benefit Payments

Straight life annuity

Provisions

TRS as of July 1, 2015

a. Eligible to Participate

All employees of any public school in Oklahoma, including public colleges and universities.

b. Period Required to Vest

Five years of credited service.

c. Eligibility for Distribution

Normal retirement :

- Member after July 1, 1967, and before November 1, 2011 – age 62 with 5 years of service
- Member before July 1, 1992 -- age and the number of years of creditable service total 80.
- Member on or after July 1, 1992 but prior to November 1, 2011 – age and the number of years totals 90.
- Member after October 31, 2011 – age 65 with 5 years of service or age 60 and the number of years of service totals 90.

Early retirement:

- Member prior to November 1, 2011 -- Age 55 and 5 years of service or upon completion of 30 years of service.
- Member after October 31, 2011 – Age 60 and 5 years of service.

Disability benefit after 10 years of service.

Death benefit of \$5,000 payable upon death of retiree to the designated beneficiary.

d. Benefit Determination Base

Final average salary – For those becoming members

before July 1, 1992 the compensation for the three years on which the highest contributions are paid. For persons becoming members after June 30, 1992 the compensation for the five years on which the highest contributions are paid.

e. Benefit Determination Methods:

Normal Retirement

2% of member's final average salary subject to the compensation limits in Title 70, Chapter 1, Article 17, Section 17-101(28) and 17-116.2C.

Disability Retirement

Same as normal retirement.

f. Benefit Authorization

Benefits are established in accordance with Title 70 of the Oklahoma Statutes, Chapter 1, Article 17, Section 17-101 through 17-122.1 as amended.

g. Form of Benefit Payments

Straight Life Annuity, Joint and 50% Survivor, Joint and 100% Survivor.

Provisions

WCRP as of July 1, 2015

a. Eligible to Participate

Employees with a hire date prior to July 1, 2010. Plan was frozen as of July 1, 2010.

b. Period Required to Vest

Ten years of credited service.

c. Eligibility for Distribution

Normal retirement – Age 65

Early retirement:

- Age 55 and 15 years of service. Benefit reduced 2% for each year benefit received prior to age 62.
- Age 55 and sum of age and years of continuous service equals 85.

d. Benefit Determination Base

Final average salary – Highest 3 years annual covered compensation received during the last 10 years of participating service

e. Benefit Determination Methods:

Normal Retirement

2.5% of member's final average salary multiplied by years of credited service. Employees hired after July 1, 1995, the maximum benefit is 85% of final average salary with minimum benefit of \$50 per month.

Disability Retirement

Information not available.

f. Benefit Authorization

Benefits are established in accordance with Title 29 of the Oklahoma Statutes, Chapter 1, Article 3, Section 3-306.

g. Form of Benefit Payments

Information not available.

D. Employees Covered by Benefit Terms

	OFPRS	OLERS	OPERS	URSJJ	OPPRS	TRS	WCRP

Total	24,089	2,695	82,460	549	8,833	159,774	473

E. Contribution Requirements

Oklahoma Firefighters Pension and Retirement System: The authority to set and amend contribution rates is established by ordinance for OFPRS defined benefit plan in accordance with Title 11 of the Oklahoma Statutes, Section 49-100.6. The contribution rates for the current fiscal year have been made in accordance with Oklahoma statute. The rate is 9% for employees of their covered salary and 14% for employers of covered payroll as of July 1, 2015 and July 1, 2014. Municipalities with revenues in excess of \$25,000 contribute \$60.00 per year for each volunteer firefighter. Prior to November 1, 2013 the rate was 8% for employees, 13% for employers, and municipalities contributed \$60.00 per year for each volunteer firefighter. The state contributes a portion of the insurance premium tax collected through its taxing authority. Currently, this contribution is 36% of insurance premium tax collected by the state. Prior to November 1, 2013 the contribution rate was 34%. For the year ended June 30, 2015, OFPRS recognized \$154,422,000 in contributions to the plan based on covered payroll of \$270,536,000.

Oklahoma Law Enforcement Retirement System: The authority to set and amend contribution rates is established by ordinance for OLERS defined benefit plan in accordance with Title 47 of the Oklahoma Statutes, Chapter 2, Article 3, Section 2-303.1. The contribution rates for the current fiscal year have been made in accordance with Oklahoma statute. The rate is 8% for employees of their covered salary and 11% for employers of covered payroll as of July 1, 2015 and July 1, 2014. The state contributes a portion of driver's license taxes, motor vehicle inspection fees, and insurance premium tax collected through its taxing authority. Currently this contribution is 1.2% of driver's license taxes, and 5% of insurance premium tax. For the year ended June 30, 2015, OLERS recognized \$38,689,000 in contributions to the plan based on covered payroll of \$84,880,000.

Oklahoma Public Employees Retirement System: The authority to set and amend contribution rates is established by ordinance for OPERS defined benefit plan in accordance with Title 74 of the Oklahoma Statutes, Chapter 29, Section 908. The contribution rates for the current fiscal year have been made in accordance with Oklahoma statute. The rate for state employees is 3.5% of their covered salary and 16.5% of covered payroll for state agencies as of July 1, 2015 and July 1, 2014. Contributions for participating county and local agencies total 20% for employees and employers as of July 1, 2015 and July 2, 2014. For the year ended June 30, 2015, OPERS recognized \$365,330,000 in contributions to the plan based on covered payroll of \$1,808,973,000.

Uniform Retirement System for Judges and Justices: The authority to set and amend contribution rates is established by ordinance for URSJJ defined benefit plan in accordance with Title 20 of the Oklahoma Statutes, Chapter 16, Section 1108. The contribution rates for the current fiscal year have been made in accordance with Oklahoma statute. The rate for employees is 8% of their covered salary and 16% of covered payroll for employers as of July 1, 2015. For the year ended July 1, 2014 the rate for employees is 8% of covered salary and 14.5% of covered payroll for employers. For the year ended June 30, 2015, URSJJ recognized \$8,001,000 in contributions to the plan based on covered payroll of \$34,537,000.

Oklahoma Police Pension and Retirement System: The authority to set and amend contribution rates is established by ordinance for OPPRS defined benefit plan in accordance with Title 11 of the Oklahoma Statutes, Chapter 1, Article 50, Section 50-106. The contribution rates for the current fiscal year have been made in accordance with Oklahoma statute. The rate is 8% for employees of their covered salary and 13% for employers of covered payroll as of July 1, 2015 and

July 1, 2014. The state contributes a portion of the insurance premium tax collected through its taxing authority. Currently, this contribution is 14% of insurance premium tax collected by the state. For the year ended June 30, 2015, OPPRS recognized \$95,618,000 in contributions to the plan based on covered payroll of \$295,307,000.

Teachers Retirement System: The authority to set and amend contribution rates is established by ordinance for TRS defined benefit plan in accordance with Title 70 of the Oklahoma Statutes, Chapter 1, Article 17, Section 17-106. The contribution rates for the current fiscal year have been made in accordance with Oklahoma statute. The rate is 7% for employees of their covered salary and 9.5% for employer entities other than comprehensive and four year universities as of July 1, 2015 and July 1, 2014. The rate for comprehensive and four year universities is 8.55% as of July 1, 2015 and July 1, 2014. The state contributes 5% of revenues from sales taxes, use taxes, corporate and individual income taxes. Beginning in fiscal year 2006, the state also contributes 5% of lottery proceeds. For the year ended June 30, 2015, TRS recognized \$1,032,119,000 in contributions to the plan based on covered payroll of \$4,338,247,000.

Wildlife Conservation Retirement Plan: The authority to set and amend contribution rates is established by ordinance for WCRP defined benefit plan in accordance with Title 29 of the Oklahoma Statutes, Chapter 1, Article 3, Section 3-306. The contribution rates for the current fiscal year have been made in accordance with Oklahoma statute. The rate is 5% for employees of their covered salary. For the year ended June 30, 2015 WCRP recognized \$4,962,000 in contributions to the plan based on covered payroll of \$13,667,000.

F. Actuarial Assumptions

Oklahoma Firefighters Pension and Retirement System

Date of Last Actuarial Valuation	July 1, 2015
a. Actuarial cost method	Entry age normal
b. Rate of return on investments and discount rate	7.5%
c. Projected salary increase	3.5% - 9.0%
d. Post retirement cost-of-living increase	Half of the dollar amount of a 3% assumed increase in base pay for firefighters with 20 years of service as of May 26, 1983. No COLA assumed for members not eligible for this increase.
e. Inflation Rate	3%
f. Mortality table	Active employees (pre and post retirement): RP-2000 Blue Collar Healthy Combined with generational mortality improvement using Scale AA. Disabled pensioners: RP-2000 Blue Collar Healthy Combined.
g. Percent of married employees	85% Males; 85% Females
h. Spouse age difference	Males three years older than females
i. Turnover	Varies from 0.4% to 3.5%
j. Date of last experience study	June 30, 2012, for the period from July 1, 2007 to June 30, 2012.

Oklahoma Law Enforcement Retirement System

Date of Last Actuarial Valuation	July 1, 2015
a. Actuarial cost method	Entry age normal
b. Rate of return on investments and discount rate	7.5%
c. Projected salary increase	3.75% - 7.8%
d. Post retirement cost-of-living increase	3% for eligible members
e. Inflation Rate	3%
f. Mortality table	Active employees (pre and post retirement): RP-2000 Blue Collar Healthy Combined with Generation Projection. Disabled pensioners: RP-2000 Blue Collar Table.
g. Percent of married employees	85% Males; 85% Females

- | | |
|----------------------------------|--------------------------------------|
| h. Spouse age difference | Males three years older than females |
| i. Turnover | Varies from 1% to 15% |
| j. Date of last experience study | July 2007 to June 2011 |

Oklahoma Public Employees Retirement System

Date of Last Actuarial Valuation	July 1, 2015
a. Actuarial cost method	Entry age normal
b. Rate of return on investments and discount rate	7.5%
c. Projected salary increase	4.5% - 8.4%
d. Post retirement cost-of-living increase	None
e. Inflation Rate	3%
f. Mortality table	Active employees (pre and post retirement): RP-2000 Healthy Combined projected to 2010 using Scale AA. Disabled pensioners: RP-2000 Healthy Combined projected to 2010 using Scale AA set forward 15 years for disabled experience.
g. Percent of married employees	85% Males; 85% Females
h. Spouse age difference	Males four years older than females
i. Turnover	Varies from 1%-22%
j. Date of last experience study	May 9, 2014, for the 3 year period from July 1, 2010 to June 30, 2013

Uniform Retirement System for Justices and Judges

Date of Last Actuarial Valuation	July 1, 2015
a. Actuarial cost method	Entry age normal
b. Rate of return on investments and discount rate	7.5%
c. Projected salary increase	5.0%
d. Post retirement cost-of-living increase	None
e. Inflation Rate	3%
f. Mortality table	Active employees (pre and post retirement): RP-2000 Healthy Combined projected to 2010 using Scale AA setback 1 year. Disabled pensioners: RP-2000 Healthy Combined Projected to 2010 using Scale AA set forward 14 years for disabled experience.
g. Percent of married employees	85% Males; 85% Females
h. Spouse age difference	Males four years older than females
i. Turnover	2%
j. Date of last experience study	May 9, 2014, for the 3 year period from July 1, 2010 to June 30, 2013

Oklahoma Police Pension and Retirement System

Date of Last Actuarial Valuation	July 1, 2015
a. Actuarial cost method	Entry age normal
b. Rate of return on investments and discount rate	7.5%
c. Projected salary increase	4.5% to 17.0%
d. Post retirement cost-of-living increase	Officers eligible to receive COLA according to repealed Section 50-120 of Title 11 of the Oklahoma Statutes pursuant to a court order receive an adjustment of 1/3 to 1/2 of the increase or decrease of any adjustment to the base salary of a regular police officer, based on an increase in base salary of 3%.

- | | |
|----------------------------------|---|
| e. Inflation Rate | 3% |
| f. Mortality table | Active employees pre-retirement: RP-2000 Blue Collar Healthy Combined fully generational using Scale AA with age set back 4 years. Post-retirement: RP-2000 Blue Collar Healthy Combined fully generational using Scale AA. Disabled pensioners: RP-2000 Blue Collar Healthy Combined with age set forward 4 years. |
| g. Percent of married employees | 85% Males; 85% Females |
| h. Spouse age difference | Males three years older than females |

| h. Spouse age difference | Not available |
| i. Turnover | Not available |
| j. Date of last experience study | July 1, 2003 to June 30, 2008 |

G. Discount Rate

Oklahoma Firefighters Pension and Retirement System

The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at contractually required rates, determined by state statutes.

Based on these assumptions, the pension plan's fiduciary net position is projected to be sufficient to make projected benefit payments. Therefore, the discount rate used is 7.5% which is the long-term expected rate of return on plan investments.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Fixed Income	20%	5.13%
Equity	62%	8.98%
Alternative Investments	18%	6.86%
Total	<u>100%</u>	

Oklahoma Law Enforcement Retirement System

The projection of cash flows used to determine the discount rate assumed that plan contributions from members, state agencies, insurance premium taxes and other state sources will be made at the current contribution rates as set out in state statute.

Based on those assumptions, the pension plan's fiduciary net position is projected to be sufficient to make projected benefit payments. Therefore, the discount rate used is 7.5% which is the long-term expected rate of return on plan investments.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Fixed Income	30%	3.07%
Equity	60%	8.98%
Alternative Investments	10%	4.71%
Total	<u>100%</u>	

Oklahoma Public Employees Retirement System

The projection of cash flows used to determine the discount rate assumed that contributions from plan members and the employers will be made at the current contribution rate as set out in state statute.

Based on those assumptions, the pension plan's fiduciary net position is projected to be sufficient to make projected benefit payments. Therefore, the discount rate used is 7.5% which is the long-term expected rate of return on plan investments.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Fixed Income	32%	0.97%
Equity	44%	5.45%
Alternative Investments	24%	6.00%
Total	100%	

Uniform Retirement System for Justices and Judges

The projection of cash flows used to determine the discount rate assumed that contributions from plan members and the employers will be made at the current contribution rate as set out in state statute.

Based on those assumptions, the pension plan's fiduciary net position is projected to be sufficient to make projected benefit payments. Therefore, the discount rate used is 7.5% which is the long-term expected rate of return on plan investments.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Fixed Income	32%	0.97%
Equity	44%	5.45%
Alternative Investments	24%	6.00%
Total	100%	

Oklahoma Police Pension and Retirement System

The projection of cash flows used to determine the discount rate assumed that plan contributions from members, state agencies, insurance premium taxes and other state sources will be made at the current contribution rates as set out in state statute.

Based on these assumptions, the pension plan's fiduciary net position is projected to be sufficient to make projected benefit payments. Therefore, the discount rate used is 7.5% which is the long-term expected rate of return on plan investments.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Fixed Income	25%	2.24%
Equity	60%	6.12%
Alternative Investments	15%	4.22%
Total	<u>100%</u>	

Teachers' Retirement System

The projection of cash flows used to determine the single discount rate assumed that plan member and employer contributions will be made at the current statutory levels and remain a level percentage of payroll. The projection of cash flows also assumed that the state's contribution plus the matching contributions will remain a constant percent of projected member payroll based on the past five years of actual contributions.

Based on these assumptions, the pension plan's fiduciary net position is projected to be sufficient to make projected benefit payments. Therefore, the discount rate used is 8.00% which is the long-term expected rate of return on plan investments.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Fixed Income	24%	2.95%
Equity	45%	6.32%
International Equity	17%	5.80%
Alternative Investments	14%	6.55%
Total	<u>100%</u>	

Wildlife Conservation Retirement Plan

The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from the department will be at least 100% of the department's required contribution.

Based on these assumptions, the pension plan's fiduciary net position is projected to be sufficient to make projected benefit payments. Therefore, the discount rate used is 7.0% which is the long-term expected rate of return on plan investments.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Fixed Income	40%	0.78%
Equity	50%	8.68%
Alternative Investments	10%	2.34%
Total	100%	

H. Changes in Net Pension Liability

The total pension liability for the various pension systems were determined based on actuarial valuations performed as of July 1, 2015, which is also the measurement date. There were no changes in assumptions or changes between the measurement date of July 1, 2015, and the state's report ending date of June 30, 2016, that would have had a significant impact on the net pension liability. The following tables report the components of changes in net pension liability:

Oklahoma Law Enforcement Retirement System

Schedule of Changes in Net Pension Liability Increases (Decreases)

	<u>Total Pension Liability (a)</u>	<u>Plan Net Position (b)</u>	<u>Net Pension Liability (a) - (b)</u>
Balance Beginning of Year	\$ 916,260,000	\$ 879,907,000	\$ 36,353,000
Changes for the Year:

I. Sensitivity of Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability, calculated using the discount rate, as well as what net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1- percentage-point higher than the current rate:

Oklahoma Law Enforcement Retirement System

	1% Decrease in Discount rate (6.5%)	Current Discount Rate (7.5%)	1% Increase in Discount Rate (8.5%)
Net Pension Liability (Asset)	<u>\$ 234,315,000</u>	<u>\$ 103,722,000</u>	<u>\$ (3,378,000)</u>

Oklahoma Public Employees Retirement System

	1% Decrease in Discount rate (6.5%)	Current Discount Rate (7.5%)	1% Increase in Discount Rate (8.5%)
Net Pension Liability (Asset)	<u>\$ 1,069,293,000</u>	<u>\$ 286,962,000</u>	<u>\$ (378,144,000)</u>

Uniform Retirement System for Justices and Judges

	1% Decrease in Discount rate (6.5%)	Current Discount Rate (7.5%)	1% Increase in Discount Rate (8.5%)
Net Pension Liability (Asset)	<u>\$ (10,423,000)</u>	<u>\$ (34,896,000)</u>	<u>\$ (56,191,000)</u>

Oklahoma Police Pension and Retirement System

	1% Decrease in Discount rate (6.5%)	Current Discount Rate (7.5%)	1% Increase in Discount Rate (8.5%)
Net Pension Liability (Asset)	<u>\$ 713,000</u>	<u>\$ 12,000</u>	<u>\$ (579,000)</u>

Teachers' Retirement System

	1% Decrease in Discount rate (7.0%)	Current Discount Rate (8.0%)	1% Increase in Discount Rate (9.0%)
Net Pension Liability (Asset)	<u>\$ 2,228,179,000</u>	<u>\$ 1,611,824,000</u>	<u>\$ 1,093,750,000</u>

Wildlife Conservation Retirement Plan

	1% Decrease in Discount rate (6.0%)	Current Discount Rate (7.0%)	1% Increase in Discount Rate (8.0%)
Net Pension Liability (Asset)	<u>\$ 25,725,000</u>	<u>\$ 12,895,000</u>	<u>\$ 1,912,000</u>

J. Deferred Outflows/Inflows of Resources**Oklahoma Law Enforcement Retirement System**

At June 30, 2015, OLERS reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflow of Resources	Deferred Inflow of Resources
Difference between expected and actual experience	\$ 42,031,000	\$ 6,349,000
Net difference between projected and actual plan investment earnings	24,376,000	38,360,000
Changes in Assumptions	-	-
Changes in proportion and differences between employer contributions and proportionate share of contributions	-	-
Contributions made since measurement date	10,219,000	
	<u>\$ 76,626,000</u>	<u>\$ 44,709,000</u>

Oklahoma Public Employees Retirement System

At June 30, 2015, OPERS reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflow of Resources	Deferred Inflow of Resources
Difference between expected and actual experience	\$ -	\$ 31,906,000
Net difference between projected and actual plan investment earnings	236,907,000	367,074,000
Changes in Assumptions	4,464,000	-
Changes in proportion and differences between employer contributions and proportionate share of contributions		2,216,000
Contributions made since measurement date	236,352,000	-
	<u>\$ 477,723,000</u>	<u>\$ 401,196,000</u>

Uniform Retirement State Judges and Justices

At June 30, 2015, URSJJ reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflow of Resources	Deferred Inflow of Resources
Difference between expected and actual experience	\$ -	N/A
Net difference between projected and actual plan investment earnings	-	-
Changes in Assumptions	-	-
Changes in proportion and differences between employer contributions and proportionate share of contributions		
Contributions made since measurement date	5,832,000	-
	<u>\$ 5,832,000</u>	<u>N/A</u>

Oklahoma Police Pension and Retirement System

At June 30, 2015, OPPRS reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflow of Resources	Deferred Inflow of Resources
Difference between expected and actual experience	\$ -	\$ 66,000
Net difference between projected and actual plan investment earnings	213,000	259,000
Changes in Assumptions	-	-
Changes in proportion and differences between employer contributions and proportionate share of contributions	5,000	5,000
Contributions made since measurement date	112,000	-
	<u>\$ 330,000</u>	<u>\$ 330,000</u>

Teachers' Retirement System

At June 30, 2015, TRS reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflow of Resources	Deferred Inflow of Resources
Difference between expected and actual experience	\$ -	\$ 54,488,000
Net difference between projected and actual plan investment earnings	149,130,000	257,956,000
Changes in Assumptions	76,813,000	-
Changes in proportion and differences between employer contributions and proportionate share of contributions	87,910,000	
Contributions made since measurement date	108,240,000	
	<u>\$ 422,093,000</u>	<u>\$ 312,444,000</u>

Wildlife Conservation Retirement Plan

At June 30, 2015, WCRP reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflow of Resources	Deferred Inflow of Resources
Difference between expected and actual experience	\$ 200,000	\$ 298,000
Net difference between projected and actual plan investment earnings	2,107,000	3,889,000
Changes in Assumptions	-	-
Changes in proportion and differences between employer contributions and proportionate share of contributions	-	-
Contributions made since measurement date	3,700,000	-
	<u>\$ 6,007,000</u>	<u>\$ 4,187,000</u>

K. Amortization of Pension Deferrals

Amounts reported as deferred outflows of resources (excluding deferred outflows of resources related to contributions made subsequent to the measurement date) and deferred inflows of resources will be recognized in pension expense as follows:

For year ended June 30, 2015						
	Law Enforcement Retirement System	Public Employees Retirement System	Retirement System Judges and Justices	Police Pension and Retirement System	Teacher's Retirement System	Wildlife Conservation
2016	\$ 655,000	\$ (85,803,000)	\$ -	\$ (48,000)	\$ (28,344,000)	\$ (781,000)
2017	655,000	(69,685,000)	-	(48,000)	(28,344,000)	(781,000)
2018	655,000	(64,498,000)	-	(48,000)	(28,344,000)	(781,000)
2019	13,938,000	59,111,000	-	39,000	57,641,000	515,000
2020	5,797,000	-	-	(5,000)	23,353,000	(44,000)
2021	-	-	-	-	22,289,000	(8,000)
Total	<u>21,700,000</u>	<u>(160,875,000)</u>	<u>-</u>	<u>(110,000)</u>	<u>18,251,000</u>	<u>(1,880,000)</u>

- L. Payables to the Pension Plans** – The amounts presented below represent the amount payable from the State of Oklahoma to the pension plans at June 30, 2016. This includes both contributions payable and dedicated taxes that had yet to be paid.

	Payable at Fiscal Year End
Firefighters Pension and Retirement Plan	\$ 19,128,000
Law Enforcement Retirement System	4,389,000
Public Employees Retirement System	10,743,000
Retirement System Judges and Justices	676,000
Police Pension and Retirement System	7,439,000
Teacher's Retirement System	<u>35,127,000</u>
Total	<u>\$ 77,502,000</u>

- M. State General Fund Portion** -- The amounts presented below represent Net Pension Liability, Deferred Inflows, Deferred Outflows, and Pension Expense related to the various pension systems recorded to Governmental Activities on the Government-Wide Statement of Net Position. These amounts were determined based on actuarial valuations performed as of July 1, 2015, which is also the measurement date.

	General Fund Portion	Pension Assets	Pension Liabilities	Net Pension Liability (Asset)	Deferred Inflows	Deferred Outflows	Pension Expense
Law Enforcement Retirement System	93.506%	\$ 837,011,000	\$ 933,997,000	\$ 96,986,000	\$ 41,806,000	\$ 71,650,000	\$ 17,544,000
Public Employees Retirement System	75.500%	6,520,499,000	6,792,060,000	271,561,000	377,567,000	231,032,000	1,222,000
Judges and Justices Retirement System	100.000%	301,296,000	266,400,000	(34,896,000)	-	5,832,000	279,000
Police Pension and Retirement System	0.291%	6,589,000	6,601,000	12,000	330,000	330,000	44,000
Teachers Retirement System	1.167%	168,626,000	239,832,000	71,206,000	7,215,000	26,035,000	842,000
Wildlife Commission Retirement Plan	100.000%	<u>99,932,000</u>	<u>112,827,000</u>	<u>12,895,000</u>	<u>4,187,000</u>	<u>6,007,000</u>	<u>1,309,000</u>
Total		<u>\$ 7,933,953,000</u>	<u>\$ 8,351,717,000</u>	<u>\$ 417,764,000</u>	<u>\$ 431,105,000</u>	<u>\$ 340,886,000</u>	<u>\$ 21,240,000</u>

N. Changes Subsequent to Measurement Date – The following changes have been made to pension plan policy since the measurement date. These changes could potentially change the calculation of Net Pension Liability.

- Oklahoma Law Enforcement Retirement System: House Bill 1053 modifies Plan language in order to remain compliant with IRS guidelines and regulations. Effective April 27, 2015.
- Oklahoma Police Pension and Retirement System:

House Bill 2273 amends the computation of final average salary to be based on paid base salary in which required contributions have been made. Amends and clarifies the definition of paid base salary, including its components and exclusions. Adds additional language regarding the purchase of transferred credited service to comply with IRS rules regarding the use of Roth and non-Roth type accounts. Effective May 27, 2016.

Senate Bill 345 authorizes the Oklahoma Police Pension and Retirement System Board of Trustees to adopt rules for computation of the purchase price for transferred service credit and the purchase methods available, including time periods available to complete the purchase; additional required language regarding distributions necessary for the System to remain an IRS qualified plan. Effective April 7, 2015.

- Oklahoma Firefighters Pension and Retirement System:

House Bill 1002 directs the System Board of Trustees to use IRS guidelines to determine if a potential rollover from another system may be rolled into the Oklahoma Firefighters Pension and Retirement System. The Board is required to use IRS guidelines to determine the taxable portion of a distribution from the System. Effective June 4, 2015.

House Bill 2005 prevents any volunteer firefighter who begins service on or after age 45 from becoming a participant in the Oklahoma Firefighters Pension and Retirement System. Effective April 21, 2015.

Senate Bill 1021 modified the termination date of local boards. The termination date was extended from December 31, 2000, to December 31, 2016. Effective April 11, 2016.

Senate Bill 1022 clarified certain forms of payments made to members of the Oklahoma Firefighters Pension and Retirement System. Effective April 11, 2016.

O. Defined Contribution Plan

The Oklahoma Department of Wildlife Conservation's (ODWC) defined contribution plan (the "DC Plan") is a single-employer plan that covers the employees of the ODWC with a hire date of July 1, 2010, or later. The DC Plan provides retirement benefits to plan members and their beneficiaries. At June 30, 2015, there were 87 plan members. Plan members are required to contribute 5% of compensation annually. The ODWC's annual contribution is based on the employee's number of completed years of credited service with the ODWC, defined as follows:

<u>Percent of Compensation Years of Credited Service</u>	<u>Contributed by the Employer</u>
Less than 5	6%
At least 5 but less than 10	8%
At least 10 but less than 15	10%
At least 15 or more	12%

Employees vest in 100% of ODWC's contributions after 5 years of credited service.

For the years ended June 30, 2015, the ODWC contributed \$198,000, and eligible employees contributed \$162,000 to the DC Plan.

House Bill 2630 and Senate Bill 2120 directed the Oklahoma Public Employees Retirement System to establish a defined contribution retirement system for members first employed by a participating employer of the system on or after November 1, 2015, including statewide elected officials and legislators. The provisions of this bill are not applicable to hazardous duty members, district attorneys, assistant district attorneys or other employees of the district attorney's office who will continue to participate in the defined benefit plan. Also excluded are employees of a county, county elected officials, county hospital, city or town, conservation district, circuit engineering district, and any public or private trust in which a county, city or town participates and is the primary beneficiary.

This new defined contribution plan was created and implemented during the year ended June 30, 2016. Under this new plan, participating employees contribute a minimum of 4.5% of their compensation. Participating employers match employee contributions up to 7%. In addition to the matching contributions, participating employers are required to remit to OPERS the difference between the matching contributions for defined contribution plan members and the amount the participating employer would have contributed for a defined benefit plan member.

At June 30, 2016 there were 1,797 plan members. For the year ended June 30, 2016, OPERS contributed \$1,175,000 and eligible employees contributed \$827,000 to the DC Plan.

Note 15. Other Postemployment Benefits (OPEB)

1. General Description of the Other Postemployment Benefits

The Employees Group Insurance Division (EGID), a division of the Office of Management and Enterprise Services (OMES) manages a legal trust which provides group health, life, dental and disability benefits for active employees and retirees (should they so elect) of state agencies, school districts and other governmental units. EGID, as a multi-line insurance provider, receives OPEB payments on behalf of retiree's from several of the state's pension plans and the Department of Wildlife.

The Department of Wildlife Conservation, part of the Primary Government, at its expense, provides a health insurance allowance (OPEB) to retirees for the payment of health insurance premiums at retirement where the retiree elects continued coverage through EGID. This allowance is reduced when the retiree is eligible for Medicare. The coverage amount is established by the Department on an annual basis and can be discontinued at the Board's discretion.

As mandated by statute, several of the state's pension plans provide an OPEB benefit to retirees should a retiree make such an election at retirement to continue health coverage through the state's provider, EGID. This contribution is for a fixed amount that varies slightly from pension to pension. This benefit is included in the pension systems' actuarial valuations to determine both funded and unfunded liabilities, but is not considered material to each respective pension as a whole.

2. Funding Policy

The Employees Group Insurance Division (EGID), operates as an insurance company and as an access provider to other health and dental plans, primarily board approved health maintenance organizations (HMOs) and dental maintenance organizations (DMOs). EGID receives monthly premium contributions directly from retirees except for the nominal amount received from the participating pension plans and the Department of Wildlife Conservation. Employers make no contribution on a retiree's behalf, and have no liability to EGID once an employee enters retirement.

The state has one department of the Primary Government that makes payments to EGID on behalf of retirees, the Department of Wildlife Conservation. The Department provides \$150 per month as established by its board toward health insurance coverage should retirees so elect at retirement. These contributions are made on a pay-as-you go basis, and no separate account has been established to pre-fund these costs. For the fiscal years 2016, 2015, and 2014, the department paid into EGID as follows, representing 100% of the Department's board mandated contributions to EGID:

	<u>FY 2016</u> <u>Contributions</u>	<u>FY 2015</u> <u>Contributions</u>	<u>FY 2014</u> <u>Contributions</u>
Primary Government			
Dept. of Wildlife Conservation	<u>\$ 212,000</u>	<u>\$ 213,000</u>	<u>\$ 203,000</u>

The state has two cost-sharing multi-employer retirement systems that make payments to EGID on behalf of retirees should a retiree so elect. These plans are the Oklahoma Public Employees Retirement System (OPERS) and the Teachers' Retirement System of Oklahoma (TRS). The state also has two single employer retirement systems that make payments to EGID on behalf of retirees, the Uniform Retirement System for Judges and Justices (URSJJ) and the Oklahoma Law Enforcement Retirement System (OLERS). As mandated by statute, these plans pay between \$100 and \$105 per month to EGID on behalf of retirees if so elected. For fiscal years 2016, 2015, and 2014, the retirement systems paid into EGID as follows, representing 100% of the state's legislatively required contributions to EGID:

	<u>FY 2016</u> <u>Contributions</u>	<u>FY 2015</u> <u>Contributions</u>	<u>FY 2014</u> <u>Contributions</u>
Fiduciary Component Units			
OPERS (a)	\$ 18,799,000	\$ 18,723,000	\$ 18,722,000
TRS (a)	30,522,000	30,363,000	30,136,000
URSJJ (b)	175,000	168,000	164,000
OLERS (b)	847,000	833,000	822,000
	<u>\$ 50,343,000</u>	<u>\$ 50,087,000</u>	<u>\$ 49,844,000</u>

(a) - Cost Sharing Multi-Employer Retirement Plan

(b) - Single Employer Retirement Plan

Component Units

Sixteen of the institutions included in the Higher Education Component Unit sponsor single-employer OPEB plans as designated by each institution's governing Board of Regents. These independent trust plans primarily provide supplemental health, dental, and life insurance benefits to participating retirees. Eligibility requirements and benefits differ significantly between the participating higher education institutions. Current year benefit expenditures, funded primarily on a pay-as-you-go basis, totaled approximately \$13,104,000 in fiscal year 2016 for sixteen participating institutions. Complete disclosure for each higher education institution can be obtained from the Oklahoma State Regents for Higher Education, 655 Research Parkway, Suite 200, Oklahoma City, OK 73104.

3. Annual Pension Cost and Net OPEB Obligation

The Department of Wildlife Conservation's annual OPEB cost is calculated based on its annual required contribution (ARC), an actuarially determined amount in accordance with GAAP. It represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liability over a period of 30 years. The annual OPEB cost and net OPEB obligation for the current year is as follows (expressed in thousands):

	Wildlife OPEB
Normal cost	\$ 83
Amortization of actuarial accrued liability (AAL)	273
Annual required contribution (ARC)	356
Interest on net OPEB obligation	25
ARC adjustment	(36)
Annual OPEB cost	345
Actual amount of net employer disbursements	(211)
Increase in net OPEB obligation	134
Net OPEB obligation, beginning of year	640
Net OPEB obligation, end of year	\$ 774
Actuarial Assumptions:	
Investment rate of return	4.0%
Inflation rate	0.0%
Annual healthcare cost	5.0%
Actuarial cost method	Entry age normal
Amortization method	30 years, level dollar, open period

The Department's annual OPEB cost, the percentage of annual OPEB cost contributed to the substantive OPEB plan, and the net OPEB obligation were as follows:

Three-Year Trend Information
Wildlife Conservation OPEB Substantive Plan
(expressed in thousands)

Fiscal Year Ending	Annual OPEB Cost	Percent of Annual OPEB Cost Contributed	Net OPEB Obligation
6/30/2016	\$ 345	61%	\$ 774
6/30/2015	\$ 337	63%	640
6/30/2014	331	61%	516

The following Required Supplementary Information for the Department of Wildlife Conservation was determined as part of the actuarial valuation for the dates indicated.

Schedule of Funding Progress
Wildlife Conservation OPEB Substantive Plan
(unaudited)
(expressed in thousands)

Actuarial Valuation Date	Actuarial Value of Assets (a)	Actuarial Accrued Liability (AAL) (b)	Unfunded AAL (UAAL) (b-a)	Funded Ratio (a/b)	Covered Payroll (c)	UAAL as a Percentage of Covered Payroll (b-a)/c
7/1/2016	\$ -	\$ 5,215	\$ 5,215	0.0%	\$ 16,937	30.8%
7/1/2015	-	4,817	4,817	0.0%	16,620	29.0%
7/1/2014	-	4,760	4,760	0.0%	15,778	30.2%

The Department's OPEB is not funded and there are no OPEB plan assets as it is a substantive plan. As of July 1, 2016, the most recent actuarial valuation date, the AAL for benefits was approximately \$5.2 million and the actuarial value of assets was zero, resulting in an UAAL of \$5.2 million.

The actuarial valuation for this substantive plan (the plan as currently understood by the employer and the plan members), involves estimates of the value of reported amounts and assumptions about the probability of events occurring far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Examples include assumptions about future employment, mortality, and healthcare cost trends. Projections include the type of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members at that point. The actuarial methods used are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with a long-term perspective.

Note 16. On-Behalf Payments

The Teacher's Retirement System (TRS) of Oklahoma receives 5% of the state's sales, use, corporate and individual income taxes collected as dedicated tax. Senate Bill 1376, which became law in July 2002, provides that the percentage of the state's collected dedicated taxes allocated to the TRS increased from 4.5% to 5.0% on July 1, 2007, and thereafter. The System receives 1% of the cigarette taxes collected by the state and receives 5% of the net lottery proceeds collected by the state. The System received approximately \$316,000,000 from the state for the year ended June 30, 2016.

The Firefighters Pension and Retirement System (OFPRS) of Oklahoma received 36% of the state's insurance premium tax revenue. OFPRS received approximately \$92,000,000 from the state for the year ended June 30, 2016. Of the same insurance premium tax revenue, the Police Pension and Retirement System (OPPRS) of Oklahoma and Law Enforcement Retirement System (OLERS) received 14% and 5% respectively. OPPRS and OLERS received approximately \$36,000,000 and \$13,000,000 from the state for the year ended June 30, 2016, respectively.

Note 17. Commitments

Primary Government

For the year ended June 30, 2016, the General Fund has encumbrances of \$662,246,000 within the restricted and committed fund balances of the governmental funds.

The Department of Transportation has contractual commitments at June 30, 2016, of approximately \$1,015,695,000 for the construction of various highway projects. Future appropriations will fund these commitments as work is performed.

The Department of Human Services (DHS) maintains a construction unit which engages in capital improvements of state buildings. At year end, DHS has long-term projects totaling \$31,515,000 for the General Fund.

The Oklahoma Capital Improvement Authority has issued bonds in the aggregate principal amount of \$50,000,000 for the Office of Management and Enterprise Services to provide funding for repairs, refurbishments and improvements to the State Capitol Building. This bond issuance is the first series of obligations sold under two authorizations totaling \$245,000,000 for the Capitol Repair Project.

Component Units

The University of Oklahoma has outstanding commitments under construction contracts totaling \$148,247,000 at June 30, 2016.

Oklahoma State University has outstanding commitments under construction contracts of approximately \$100,820,000 at June 30, 2016.

The Oklahoma Turnpike Authority (OTA) has commitments outstanding at December 31, 2015, relating to equipment orders and supplies of approximately \$8,808,000. At December 31, 2015, OTA has commitments outstanding relating to construction and maintenance contracts of approximately \$39,746,000.

The Oklahoma Municipal Power Authority (OMPA) purchased approximately \$17,256,000 of power pursuant to several long-term purchase agreements during 2015. OMPA is obligated to purchase, at a minimum, approximately \$17,266,000 of power in 2016.

The Grand River Dam Authority (Authority) makes and receives commitments for purchases of coal and other materials. The Authority has contractual commitments at December 31, 2015, for long-term coal and freight purchases under contracts through 2025 with estimated minimum obligations for the next fiscal year ending December 31, 2016 of \$52,694,000, and total obligations of \$484,550,000 through 2025.

Note 18. Litigation and Contingencies

The state and its component units are parties to numerous legal proceedings, many of which normally occur in governmental operations. Such litigation includes, but is not limited to, claims assessed against the state for property damage and personal injury, alleged breaches of contract, condemnation proceedings, and other alleged violations of state and federal laws. Certain claims have been adjudicated against the state, but remained unpaid as of June 30, 2016.

The state receives significant financial assistance from the Federal Government in the form of grants and entitlements, which are generally conditioned upon compliance with terms and conditions of the grant agreements and applicable federal regulations, including the expenditure of the resources for eligible purposes. Substantially all grants are subject to financial and compliance audits by federal agencies. Any disallowance as a result of these audits could become a liability of the state. As of June 30, 2016, the Oklahoma Healthcare Authority had questioned costs totaling \$4,191,000. The likelihood of future reimbursement to the federal grantor is probable, thus a liability has been recorded on the Statement of Net Position.

Primary Government

Through the normal course of operations there are many legal cases which involve the state as a party. Most of these cases are currently deemed to have a remote chance of loss or will result in a gain to the state. The assessment of several cases indicates there is the reasonably possible or probable chance of a loss occurring to the state. Current estimates for these losses range from \$600,000 to \$5,300,000.

The Department of Transportation (DOT) has incurred significant expenditures on construction projects that have exceeded the amounts approved by the federal grantor. These project expenditures are held in suspense until approved by the federal grantor and subsequently reimbursed. Based on prior years' experience, the reimbursement of expenditures is highly probable. At June 30, 2016, DOT has project expenditures totaling \$2,334,000 that will be reimbursed pending approval of the Federal Government.

Component Units

The Oklahoma Capital Investment Board (OCIB), as a public trust of the State of Oklahoma, has authority to transfer tax credits to public entities. Tax credits can be transferred by OCIB in conjunction with a legitimate call on an OCIB guarantee. As of June 30, 2016, OCIB had a maximum commitment line of credit of \$23,000,000. As of June 30, 2016, the line of credit had an outstanding balance of \$15,625,000. All of the outstanding balance is classified as long-term debt. In addition to the debt, OCIB reported, as of June 30, 2016, a net position deficit of \$3,128,000.

The credits and OCIB's right to transfer the credits expire if not utilized by June 30, 2020. As of June 30, 2016, \$30,915,000 of tax credits had been transferred. Four entities currently have signed agreements to purchase up to an aggregate of \$8,000,000 of tax credits per year at the sole discretion of OCIB. OCIB has the authority to issue up to \$20,000,000 of tax credits per year with an overall maximum of \$100,000,000. The remaining \$69,085,000 of tax credits were not considered impaired at June 30, 2016, as there was sufficient time remaining for the tax credits to be utilized before they expire.

Note 19. Subsequent Events

Oklahoma Capital Improvement Authority has authorized but not issued lease revenue bonds totaling \$290,000,000 for outstanding tax-exempt issues.

Oklahoma Water Resources Board has authorized but not issued bonds totaling \$300,000,000 for the state loan program.

Oklahoma State University has authorized but not issued bonds totaling \$35,000,000 for the construction of facilities to expand telemedicine to rural areas in Oklahoma.

Notes to Required Supplementary Information

Budgetary Reporting

For The Fiscal Year Ended June 30, 2016
(expressed in thousands)

The Budgetary Comparison Schedule - Budget to Actual (Non-GAAP Budgetary Basis) presents comparisons of the original and final legally adopted budget with actual data on a budgetary basis. The Schedule represents budgetary comparisons at the legal level of budgetary control (i.e. line item level). The schedule is prepared on a cash basis plus encumbrances where the expenditures are expected to be presented by November 15th in the following fiscal year. Certain appropriations are transferred to continuing funds for expenditure. Unexpended amounts may then be rebudgeted in subsequent fiscal years. These transfers are not included in the total expenditures on the Budgetary Comparison Schedule - Budget to Actual (Non-GAAP Budgetary Basis).

Reconciliation of Budgetary Fund Balance to GAAP Fund Balance

Since accounting principles applied for purposes of developing data on a budgetary basis differ significantly from those used to present financial statements in conformity with GAAP, a reconciliation of resulting basis, perspective, and entity differences in the revenues in excess of (less than) expenditures and other financing sources (uses) between budgetary and GAAP presentations for the year ended June 30, 2016, is presented below (expressed in thousands) for the General Fund:

Budgetary Basis Fund Balance, June 30, 2015	\$	430,635
Excess of total sources over total uses of financial resources (Budgetary Basis)		<u>162,943</u>
Budgetary Basis Fund Balance, June 30, 2016		593,578
Entity and Perspective Differences:		
Non-budgeted Funds and Capital Funds		2,316,199
Encumbrances		84,564
Basis Differences:		
Add: Net accrued revenues, related receivables, and deferred revenues		1,197,736
Less: Net accrued expenditures and related liabilities		<u>(1,242,232)</u>
GAAP Basis Fund Balance, June 30, 2016	\$	<u><u>2,949,845</u></u>

Pension Schedules

Required by GASB 68

For the Fiscal Year Ended June 30, 2016
(expressed in thousands)

The following information presented for pension plans that are reported as fiduciary component units of the State of Oklahoma are required by the Governmental Accounting Standards Board, Statement 68. For more complete information, including the annual money-weighted rate of return, and schedule of funding progress, audited annual statements can be acquired by contacting the pension plan:

Notes to Schedules:

GASB Statement 68 requires the information presented in the "Schedules of Required Supplementary Information" cover the 10 most recent fiscal years. The information above covers the period retroactive to the adoption of GASB Statement 68 and is the latest available at the date of publication.

Actuarially Determined Contributions:

The annual required contribution for fiscal year 2016 was determined as part of the July 1, 2016, actuarial valuation using the entry age normal method. The actuarial assumptions included a) a 7.0% investment rate of return (net of administrative expense) and b) projected salary increases of 3.0%-8.0%. The assumptions did not include cost-of-living allowances for active, disabled, or retired members.

Benefit Changes: Information to present a 10-year history is not readily available

Notes to Schedule:

GASB Statement 68 requires the information presented in the “Schedules of Required Supplementary Information” cover the 10 most recent fiscal years. The information above covers the period retroactive to the adoption of GASB Statement 68 and is the latest available at the date of publication.

Actuarially Determined Contributions:

The annual required contribution for fiscal year 2016 was determined as part of the July 1, 2015, actuarial valuation using the individual entry age normal method. The actuarial assumptions included a) a 7.5% investment rate of return (net of administrative expense) b) projected salary increases of 3.75%-7.80%. The assumptions did not include a cost-of-living allowance for active, disabled, or retired members and c) an inflation rate of 3%.

Benefit Changes:

2014: House Bill 2622 reset the amortization period of the unfunded actuarial liability to 15 years effective July 1, 2014.

2012: Senate Bill No. 1001 was enacted, which increased the agency contribution to 11% of pay as of November 1, 2012. In addition, the bill eliminated the half-pay benefit for certain members hired on or after November 1, 2012.

2011: The Oklahoma Pension Legislation Actuarial Analysis Act was modified to change the Definition of non-fiscal retirement bill and by removing a certain provision that allows a Cost-of-living adjustment (COLA) to be considered non-fiscal, thereby requiring that COLAs be concurrently funded by the Legislature at the time they are enacted.

2010: SB 2130 eliminated the mandatory retirement age of sixty years for members.

2008: House Bill 3112 provides a 4% COLA for retired members. Senate Bill 565 states that beginning July 1, 2010, the amount of insurance premium tax revenue apportioned to the System will be applied prior to calculation of the Home Office Credit.

2007: Senate Bill 695 brings the System into compliance with IRS requirements as it relates to the direct payment of qualified health insurance premiums and the rollover of distributions of a non-spouse beneficiary. House Bill 2070 subjects the System to the Oklahoma Pension Legislation Actuarial Analysis Act.

Changes in Actuarial Assumptions:

July 1, 2012 Valuation:

- Healthy mortality was changed from the RP-2000 Table with Blue Collar adjustment (Active rates before age 50, Annuitant rates after age 49) with generational mortality improvement to the RP-2000 Combined Table with Blue Collar adjustment with generational mortality improvement.
- Post- disability mortality was changed from RP-2000 Table with Blue Collar Adjustment set forward seven years to RP-2000 Combined Table with Blue Collar adjustment.
- The retirement, disability, and withdrawal rates were changed.
- The inflation assumption was changed from 3.25% to 3.00%.
- The salary increase assumption was changed.

July 1, 2007 Valuation:

- The retirement, disability, and withdrawal rates were changed.
- The salary increase assumption was changed.
- The rate of inflation assumption was increased to 3.25% per year.
- A COLA assumption of 4% every other year was added.

Benefit Changes:

2013: HB 2078 and SB 1101 made certain changes to the benefits of members hired on or after November 1, 2013, including the following:

- Increased the eligibility to retire to age 50 with 22 years of service.
- Increased the eligibility for a vested benefit to 11 years.
- Changed the interest earned to DROP accounts to be the rate earned by System assets, less one percentage point, once the member has left active DROP.

Changes in Actuarial Assumptions:

July 1, 2013 Valuation:

- The retirement, disability, and withdrawal rates were changed.
- The salary increase assumption was changed.
- The mortality rates were changed.

July 1, 2011 Valuation:

- No assumption for future ad-hoc cost-of-living adjustments due to the adoption of the Oklahoma Pension Legislation Actuarial Analysis Act.

Changes in Actuarial Funding Methods:

2013: HB 2078 increased the amount of gross salary contributed by paid firefighters from 8% to 9%, effective November 1, 2013. In addition, the bill increased the amount of gross salary contributed by municipalities and fire districts from 13% to 14%, effective November 1, 2013. The bill also increased the portion of statewide insurance premium tax allocated to the System from 34% to 36%.

Benefit Changes:

2011: Senate Bill 377 – changes the eligibility conditions for both normal and early retirement for members hired on or after November 1, 2011. Members will be eligible for normal retirement at the earlier of age 65 with 5 years of service or when their age plus service equals 90 (Rule of 90) with a minimum age of 60. Members will be eligible for early (reduced) retirement at age 60 with 5 years of service.

House Bill 2132- changes the definition of a nonfiscal retirement bill to exclude COLA even if such COLAs are assumed in the annual actuarial valuation.

Senate Bill 782 eliminates the requirement that statewide retirement systems report a second set of actuarial valuation results to the Oklahoma State Pension Commission using specified actuarial assumptions.

2010: House Bill 1935 – Allows a retiree electing one of the optional benefit forms (i.e. not life only) to make a one-time irrevocable change in the benefit option within 60 days of retirement. The beneficiary may not be changed.

Senate Bill 859-allows a retiree who chose a life annuity at retirement to change to Retirement Option 2 or 3 (100% joint survivor annuity and 50% joint survivor annuity respectively) within a year of marriage.

2008: A 2.00% ad hoc COLA was provided, effective July 1, 2008. All retirees who retired before July 1, 2007 were eligible, including disabled retirees, special retirees and beneficiaries receiving payments.

Hydro, OK is home to Lucille Hamons Station, built in 1927. Lucille was called the Mother of the Mother Road when she ran the station and store for 59 years right up until the day she died.

Combining Financial Statements

Description of Fiduciary Funds and Similar Component Units

Fiduciary Funds account for assets held in a trustee capacity or as an agent for individuals, private organizations, other governmental organizations, and/or other funds.

PENSION TRUST FUNDS

The Pension Trust Funds account for the transactions, assets, liabilities, and net position held in a trustee capacity for the benefit of the Plan members.

WILDLIFE CONSERVATION RETIREMENT PLAN

P.O. Box 53465, Oklahoma City, Oklahoma 73152

www.wildlifedepartment.com

This Plan is part of the Primary Government. The Plan accounts for transactions, assets, liabilities, and net position available for payment of plan benefits to employees of the Department of Wildlife Conservation.

The State of Oklahoma has six Public Employee Retirement Systems (PERS) that meet the definition of a component unit, but are presented with the fiduciary funds of the state:

OKLAHOMA FIREFIGHTERS PENSION AND RETIREMENT SYSTEM

6601 Broadway Ext Suite 100, Oklahoma City, Oklahoma 73105

www.ok.gov/fprs

The System provides retirement benefits for municipal firefighters in the State of Oklahoma.

OKLAHOMA LAW ENFORCEMENT RETIREMENT SYSTEM

421 NW 13th St., Suite 100, Oklahoma City, Oklahoma 73103

www.olders.state.ok.us

The System provides retirement benefits for qualified law enforcement officers in the State of Oklahoma.

OKLAHOMA PUBLIC EMPLOYEES RETIREMENT SYSTEM

P.O. Box 53007, Oklahoma City, Oklahoma 73152

www.opers.ok.gov

The System administers the Oklahoma Public Employee Retirement Plan, which provides retirement benefits for state, county and local employees in the State of Oklahoma.

UNIFORM RETIREMENT SYSTEM FOR JUSTICES AND JUDGES

P.O. Box 53007, Oklahoma City, Oklahoma 73152

www.opers.ok.gov

The System provides retirement benefits for justices and judges in the State of Oklahoma.

OKLAHOMA POLICE PENSION AND RETIREMENT SYSTEM

1001 N.W. 63rd Street, Suite 305, Oklahoma City, Oklahoma 73116

www.ok.gov/opprs

The System provides retirement benefits for police officers employed by participating municipalities in the State of Oklahoma.

TEACHER'S RETIREMENT SYSTEM OF OKLAHOMA

P.O. Box 53524, Oklahoma City, Oklahoma 73152

www.ok.gov/trs

The System provides retirement allowances and benefits for qualified persons employed by state-supported educational institutions in the State of Oklahoma.

AGENCY FUNDS

Agency Funds account for the receipt and disbursement of various moneys and property collected by the state, acting in the capacity of an agent, for distribution to non-state parties.

Taxes Held for Outside Entities is maintained by the Oklahoma Tax Commission to account for taxes: (1) being held for distribution to county and city governments, (2) to cover anticipated tax refunds, (3) paid conditionally on an increase in gross value of oil and/or gas sold by a producer waiting on approval or settlement of an appeal, and (4) that have been intercepted by the Tax Commission to be disbursed to claimants.

Funds Held in Escrow are moneys held in an account until certain conditions or requirements are met. These include: (1) Cash Performance Bonds maintained by the Department of Mines until mining is complete and reclamation meets specifications, (2) Unlocated Mineral Owner's Fund maintained by the Corporation Commission (3) Workers' Compensation Claims Under Appeal maintained by the Workers' Compensation Court, (4) Unsettled Premium Tax Suits, an escrow account maintained by the Oklahoma Insurance Department for depositing of protested taxes and/or fees imposed under Oklahoma law, (5) Other moneys accounted for by the State Department of Health for bond requirements for disposal sites, by the Department of Public Safety for the retention and refund of financial responsibility security amounts, (6) Funds in escrow at the Attorney General's Office received as a result of litigation.

Assets Held for Beneficiaries are moneys maintained for: (1) clients in institutions under the jurisdiction of the Office of Juvenile Affairs (OJA), Department of Human Services (DHS), the Department of Corrections (DOC), the Department of Veterans Affairs, and the Department of Mental Health, (2) DHS custodial parents from the collection from absent parents, and (3) DHS clients placed in agency custody.

Other is moneys accounted for (1) by the Department of Human Capital Management for the Office of Management and Enterprise Services (OMES) for payment of employee claims against SoonerFlex flexible spending accounts, (2) deposits held by Capital Asset Management of OMES for bid process documents, (3) donations held by the District Attorney's Council for the Murrah Crime Victims Compensation Fund, (4) funds held by the Department of Transportation which have accrued to its former health insurance rate stabilization account and are being returned to the accounts contributors.

Description of NonMajor Component Units

The State of Oklahoma has seven nonmajor component units which are described below:

OKLAHOMA EDUCATIONAL TELEVISION AUTHORITY

P.O. Box 14190, Oklahoma City, OK 73113
www.oeta.tv

The Authority provides educational television services to all Oklahoma citizens on a coordinated statewide basis.

OKLAHOMA INDUSTRIAL FINANCE AUTHORITY 9220 N. Kelley Ave., Oklahoma City, OK 73118

The Authority assists with the state's industrial development by making loans to authorized industrial development agencies or trusts and new or expanding industries within Oklahoma. The loans are financed by issuance of general obligation bonds.

MULTIPLE INJURY TRUST FUND 421 NW 13th Street, Suite 105, Oklahoma City, OK 73103

The Fund provides additional compensation to a worker with a pre-existing injury who suffers a second injury.

UNIVERSITY HOSPITALS AUTHORITY P.O. Box 26307, Oklahoma City, OK 73126 www.uhatok.com

The Authority consists of The University Hospital and Children's Hospital of Oklahoma. The University Hospital is affiliated with the University of Oklahoma Health Sciences Center. The University Hospital is financed primarily through patient service charges.

OKLAHOMA DEVELOPMENT FINANCE AUTHORITY

5900 N. Classen Ct., Oklahoma City, OK 73118

The Authority provides financing for both public and private entities in the state. The Authority obtains funds through the issuance of bonds and notes.

OKLAHOMA CAPITAL INVESTMENT BOARD 13905 Quail Pointe Drive, Suite A, Oklahoma City, OK 73134 www.ocib.org

The Authority assists the state with industrial development by mobilizing equity and near-equity capital for investment to potential creation of jobs and growth that will diversify and stabilize the economy.

OKLAHOMA STATE UNIVERSITY MEDICAL AUTHORITY

1111 W. 17th Street, Tulsa, OK 74107
www.healthsciences.okstate.edu/osuma

The Authority is charged with overseeing the 50-year Academic Affiliation Agreement signed between Tulsa Regional Medical Center and OSU Center for Health Sciences. The agreement provides for funding, teaching and training facilities to the graduate medical program associated with the Oklahoma State University Center for Health Sciences.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

TO THE GOVERNOR AND MEMBERS OF THE LEGISLATURE OF THE STATE OF OKLAHOMA

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Oklahoma as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the State's basic financial statements, and have issued our report thereon dated December 21, 2016, which included an emphasis paragraph on the Multiple Injury Trust Fund for a net deficit related primarily to court awards that exceeded the apportionment of special tax revenue collected. Our report includes a reference to other auditors who audited:

- the financial statements of the Water Resources Board which represent forty-nine percent of the assets, thirty-two percent of the net position and four percent of the revenues of the enterprise funds;
- the financial statements of the Oklahoma Student Loan Authority, Oklahoma Municipal Power Authority, University of Oklahoma, University of Oklahoma – Health Sciences Center, Oklahoma State University – Foundation, Grand River Dam Authority, Oklahoma State University, Oklahoma Turnpike Authority, University of Oklahoma – Foundation, Oklahoma Housing Finance Authority, and the Regents for Higher Education, which in the aggregate represent eighty-two percent of the assets, eighty-nine percent of the net position and eighty-two percent of the revenues for the aggregate discretely presented component units;
- the financial statements of the Commissioners of the Land Office permanent fund, and the Tobacco Settlement Endowment permanent fund, which in the aggregate represent ninety-eight percent of the assets, ninety-seven percent of the fund balance and ninety-nine percent of the revenues of the permanent funds;
- the financial statements of the Oklahoma Public Employees Retirement System, the Oklahoma Teachers Retirement System, and the Oklahoma Firefighters Pension and Retirement System which in the aggregate represent eighty-seven percent of the assets, eighty-eight percent of the net position and ninety-two percent of the additions of the aggregate remaining fund information;
- the financial statements of the Insurance Department, Department of Wildlife, Department of Commerce, and Oklahoma Capital Improvement Authority which in the aggregate represent seventeen percent of the assets, twenty-four percent of the net position and two percent of the revenues of the general fund.

This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the State of Oklahoma's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the State of Oklahoma's internal control. Accordingly, we do not express an opinion on the effectiveness of the State of Oklahoma's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct,

misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and responses, that we consider to be significant deficiencies. (16-290-010IT and 16-807-018).

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the State of Oklahoma's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

State of Oklahoma's Response to Findings

The State of Oklahoma's response to the findings identified in our audit is described in the accompanying schedule of findings and responses. The State of Oklahoma's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Audit Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

This report is also a public document pursuant to the Open Records Act (51 O.S. § 24A.1 et seq.), and shall be open to any person for inspection and copying.

GARY A. JONES, CPA, CFE
OKLAHOMA STATE AUDITOR & INSPECTOR

December 21, 2016

Schedule of Findings and Responses

Reference Number: 16-290-010IT

State Agency: Oklahoma Employment Security Commission (OESC)

Fund Type: Enterprise Fund

Other Information: Internal Control

Criteria: According to Office of Management and Enterprise Service's (OMES) *Policy, Procedures, Guidelines 7.10 Encryption*, management should apply encryption to protect the confidentiality of sensitive or critical information.

Condition: OESC failed to encrypt all sensitive information.

Cause: OESC was unaware the data was unencrypted.

Effect: Unapproved personnel could access OESC data.

Recommendation: OESC should review its procedures to encrypt data on all systems.

Agency Management Response: OESC agrees with this finding. We have begun to work with Office of Management and Enterprise Services to resolve the issue.

Reference Number: 16-807-018

State Agency: Oklahoma Health Care Authority

Fund Type: General Fund

Other Information: Accounts Payable/Expenditures

Criteria/Condition: The Government Accountability Office (GAO) Standards for Internal Control in the Federal Government 10.03 states, in part, "Transactions are promptly recorded to maintain their relevance and value to management in controlling operations and making decisions. This applies to the entire process or life cycle of a transaction or event from its initiation and authorization through its final classification in summary records. In addition, management designs control activities so that all transactions are completely and accurately recorded."

The GAO Standards for Internal Control in the Federal Government 10.13 states, in part, "Segregation of duties helps prevent fraud, waste, and abuse in the internal control system. Management considers the need to separate control activities related to authority, custody, and accounting of operations to achieve adequate segregation of duties."

Adequate internal controls over access and accountability for resources include (1) limiting access to resources and records to authorized individuals and (2) assigning and maintaining accountability for the custody and use of resources.

Adequate internal controls over separation of duties and supervision include separating key duties and responsibilities in authorizing, processing, recording, and reviewing official agency transactions.

The Independent Service Auditor's Report on the Service Organization's System indicated a segregation of duties control finding related to the organization and administration control objective and related controls for transaction processing.

Cause/Effect: There was a lack of segregation of duties over the production changes within the application. However, change requests, implemented by developers who promoted their own changes during the period of examination were approved prior to implementation of each change. Lack of segregation of duties over the production changes within the application increases the risk of waste, loss, unauthorized use or misappropriation of State funds.

Recommendation: We recommend the agency follow-up with the service organization to ensure noted deficiencies are addressed.

Agency Management Response: The Oklahoma Health Care Authority will continue our standard process of reviewing the SSAE 16 report and following up with the service organization to ensure that effective corrective actions are designed and implemented to address noted deficiencies. In regards to the deficiencies noted above, corrective actions have been designed and the OHCA is currently monitoring the implementation of those actions.

Beckham County Courthouse, in Sayre, OK, appeared in the movie *The Grapes of Wrath*.

Using the Statistical Section

The statistical section of the Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the state's overall financial health. The information is grouped into the following five categories:

Financial Trends – Net Position by Component, Changes in Net Position, Fund Balances, and Changes in Fund Balance

These schedules contain trend information to help the reader understand how the state's financial performance and well-being have changed over time.

Revenue Capacity – Personal Income by Industry, Personal Income Tax Filers and Liability by Adjusted Gross Income, and Tax Collections

These schedules contain information to help the reader assess the ability of the state to generate and collect taxes.

Debt Capacity – Percentage of Annual Debt Service Expenditures for General Bonded Debt to Total Expenditures, Ratios of Outstanding Debt by Type, and Revenue Bond Coverage

These schedules present information to help the reader assess the affordability of the state's current levels of outstanding debt, its ability to issue additional debt in the future, and its ability to repay the outstanding debt.

Demographic and Economic Information – Major Employers by Size, Demographic and Economic Statistics, and School Enrollments

These schedules offer demographic and economic indicators to help the reader understand the environment within which the state's financial activities take place and to help make comparisons over time and with other governments.

Operating Information – Government Employees by Function, Capital Asset Utilization by Function, Operating Indicators for Governmental Functions, and Additional Information and Sources of Statistical Data

These schedules contain information about the state's operations and resources to help the reader understand how the state's financial information relates to the services the state provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the Comprehensive Annual Financial Report for the relevant year.

State of Oklahoma

Additional Information and Sources of Statistical Data

Fiscal Year 2016

Additional Information:

The population of Oklahoma has steadily increased since 2004, averaging 0.9% per year.

At the end of December 2015, the Bureau of Labor Statistics reported the state's unemployment rate was 4.2% compared to the national rate of 5.0%. Oklahoma's unemployment rate has been below the national average since 1996.

Oklahoma's total personal income rate has increased at an average of 6.2% annually since 2004. During the same period Oklahoma's personal income per capita increased by 5.1% averaged annually compared to 3.6% nationally.

As a result, annual total tax collections since 2007 have increased by \$278,348,000 or 3.8%.

Please refer to the preceding Statistical Section tables, Management's Discussion and Analysis, the Financial Statements and Notes for more details and analysis.
