Board of Directors
Kiamichi Conservation District #6

I have compiled the accompanying statement of net assets – modified cash basis of Kiamichi Conservation District #6 as of June 30, 2012, and the related statement of revenues, expenses and changes in net assets and the statement of cash flows for the year then ended. I have not audited or reviewed the accompanying financial statements and, accordingly, do not express an opinion or provide any assurance about whether the financial statements are in accordance with the modified cash basis of accounting.

The Kiamichi Conservation District #6 is responsible for the preparation and fair presentation of the financial statements in accordance with the modified cash basis of accounting and for designing, implementing, and maintaining internal control relevant to the preparation and fair presentation of the financial statements.

My responsibility is to conduct the compilation in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. The objective of a compilation is to assist management in presenting financial information in the form of financial statements without undertaking to obtain or provide any assurance that there are no material modifications that should be made to the financial statements.

Management has omitted the management's discussion and analysis information that is required to be presented for purposes of additional analysis. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

KIAMICHI CONSERVATION DISTRICT #6
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2012

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

As discussed further in Note 1.C, these financial statements are presented on a modified cash basis of accounting. This modified basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP). Generally accepted accounting principles include all relevant Governmental Accounting Standards Board (GASB) pronouncements. In the fund financial statements for the proprietary funds, Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, have been applied, to the extent they are applicable to the modified cash basis of accounting, unless those pronouncements conflict with or contradict GASB pronouncements, in which case GASB prevails.

1.A. FINANCIAL REPORTING ENTITY

The District's financial reporting entity is composed of The Kiamichi Conservation District #6 a special purpose government. In determining the financial reporting entity, the District complies with the provisions of GASB Statement No. 14, *The Financial Reporting Entity*.

1.B. BASIS OF PRESENTATION

FUND FINANCIAL STATEMENTS

- a. Fund financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitutes its assets, liabilities, fund equity, revenues, and expenditures/expenses. Funds are organized into two major categories: governmental and proprietary. The District presently has no governmental or fiduciary funds. An emphasis is placed on major funds within the governmental and proprietary categories.

Enterprise Fund

Enterprise funds are used to account for business-like activities provided to the general public. These activities are financed primarily by user charges, and the measurement of financial activity focuses on net income measurement similar to the private sector. The reporting entity includes the following enterprise fund that is reported as a major fund:

<u>Fund</u>	<u>Brief Description</u>
Kiamichi Conservation District #6	The District receives local revenues from various sources, and as a subdivision of the Oklahoma Conservation Commission is reimbursed for salaries, office supplies, and meeting expenses.

1.C. MEASUREMENT FOCUS ON BASIS OF ACCOUNTING

Measurement focus is a term used to describe “how” transactions are recorded within the financial statements. Basis of accounting refers to “when” transactions are recorded regardless of the measurement focus applied.

MEASUREMENT FOCUS

In the funds financial statements, the “current financial resources” measurement focus or the “economic resources” measurement focus, as applied to the modified cash basis of accounting, is used as appropriate:

- a. The proprietary fund utilizes an “economic resources” measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net assets (or cost recovery), financial position, and cash flows. All assets and liabilities (whether current or noncurrent, financial, or nonfinancial) associated with their activities are reported. Proprietary fund equity is classified as net assets.

BASIS OF ACCOUNTING

The fund financial statements are presented using a modified cash basis of accounting. This basis recognizes assets, liabilities, net assets/fund equity, revenues, and expenditures/expenses when they result from cash transactions with a provision for depreciation in the government-wide statements, proprietary fund statements, and the similar discretely presented component unit statements. This basis is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

As a result of the use of this modified cash basis of accounting, certain assets and their related revenues (such as accounts receivable and revenue for billed or provided services not yet collected) and certain liabilities and their related expenses (such as accounts payable and expenses for goods or services received but not yet paid, and accrued expenses and liabilities) *are not recorded* in these financial statements.

If the District utilized the basis of accounting recognized as generally accepted, the fund financial statements would use the accrual basis of accounting.

1.D. ASSETS, LIABILITIES, AND EQUITY

CASH AND CASH EQUIVALENTS

For the purpose of financial reporting “cash and cash equivalents” includes all demand and savings accounts and certificates of deposit, which are fully insured by the Federal Deposit Insurance Corporation.

CAPITAL ASSETS

The District’s modified cash basis of accounting reports capital assets resulting from cash transactions and reports depreciation where appropriate.

Fund Financial Statements

In the financial statements, capital assets arising from cash transactions are accounted for as assets in the Statement of Net Assets. All capital assets are valued at historical cost or estimated historical cost if actual is unavailable. Actual historical cost was used to value the majority of the assets acquired prior to July 1, 2003. Prior to July 1, 2004, the District’s assets were not capitalized. Assets acquired since July 1, 2004 are recorded at cost.

Depreciation of all exhaustible capital assets arising from cash transactions is recorded as an allocated expense in Statement of Revenues, Expenses, and Changes in Net Assets - Modified Cash Basis, with accumulated depreciation reflected in the Statement of Net Assets. Depreciation is provided over the assets’ estimated useful lives using the straight-line method of depreciation. A capitalization threshold of \$150 is used to report capital assets. The range of estimated useful lives by type of asset is as follows:

Buildings	40-50 years
Improvements other than buildings	10-25 years
Machinery, furniture and equipment	3-20 years

LONG-TERM DEBT

All long-term debt arising from cash basis transactions to be repaid from the district resources is reported as long term debt in the financial statements.

EQUITY CLASSIFICATION

Equity is classified as net assets and displayed in three components:

- a. Invested in capital assets, net of related debt—Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the

outstanding balances of any bonds, mortgages, notes, or other borrowing that are attributable to the acquisition, construction, or improvements of those assets.

- b. Restricted net assets—Consists of net assets with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws and regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net assets—All other net assets that do not meet the definition of “restricted” or “invested in capital assets, net of related debt.”

1.E. REVENUES, EXPENDITURES, AND EXPENSES

OPERATING REVENUE AND EXPENSES

Operating revenues and expenses for proprietary funds result from providing services and producing and delivering goods and/or services. They also include all revenues and expenses not related to capital and related financing, noncapital financing, or investing activities.

1.F. USE OF STATEMENTS

The preparation of financial statements in conformity with the other comprehensive basis of accounting (OCBOA) used by the District requires management to make estimates and assumptions that affect certain reported amounts and disclosures (such as estimated useful lives in determining depreciation expense); accordingly, actual results could differ from those estimates.

NOTE 2. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

By its nature as a government unit, the District is subject to various federal, state, and local laws and contractual regulations. The following instances of noncompliance are considered material to the financial statements.

2.A. UNINSURED AND UNCOLLATERALIZED DEPOSITS

In accordance with State law, all uninsured deposits of municipal funds in financial institutions must be secured with acceptable collateral. Acceptable collateral includes certain U.S. Government or Government Agency securities, certain State or political subdivision debt obligations, surety bonds, or certain letters of credit. At June 30, 2012, there were no uninsured deposits.
