and Supplementary Information**

Board of Regents
Murray State College
Tishomingo, Oklahoma

We have audited the accompanying basic financial statements of Murray State College (the College) and its discretely presented component unit, collectively a component unit of the state of Oklahoma, as of and for the years ended June 30, 2012 and 2011 as listed in the table of contents. These financial statements are the responsibility of the College's management. Our responsibility is to express opinions on these financial statements based on our audit. Murray State College Foundation and Murray State College Foundation Student Housing, L.L.C., are not-for-profit Oklahoma corporations organized to support the College, are component units of the College as defined by GASB Statement No. 39, *Determining Whether Certain Organizations are Component Units*. The financial statements referred to above do not include the financial statements of the Murray State College Foundation and the Murray State College Foundation Student Housing, L.L.C. Rather, a complete set of financial statements of the Murray State College Foundation and the Murray State College Foundation Student Housing, L.L.C. are presented separately. We also audited the financial statements of the Murray State College Foundation, and our opinion as it relates to our audit of those statements is included in the separate set of financial statements. We did not audit the separately presented financial statements of the Murray State College Foundation Student Housing, L.L.C. Those statements were audited by other auditors whose report has been included in that separate set of financial statements.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the College and of its discretely presented component unit as of June 30, 2012, and the respective changes in financial position and cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Tulsa, OK 74146

TEL: 918.492.3388

FAX: 918.492.4443

www.SBAdvisors.com

In accordance with *Government Auditing Standards*, we have also issued our report dated October 24, 2012, on our consideration of the College's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The accompanying management's discussion and analysis as listed in the table of contents is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the College's basic financial statements. The accompanying supplementary information, including the schedule of expenditures of federal awards required by U.S. Office of Management and Budget Circular A-133, *Audit of States, Local Governments and Non-Profit Organizations*, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the College's basic financial statements. Such information has been subjected to the auditing procedures applied in the audits of the College's basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the College's basic financial statements taken as a whole.

Management's Discussion and Analysis
Murray State College
For Year Ended June 30, 2012

OVERVIEW

The discussion and analysis of Murray State College's financial statements provides an overview of the financial activities for the year ended June 30, 2012. Since the management's discussion and analysis is designed to focus on current activities, resulting change and current known fact, it should be read in conjunction with the transmittal letters, the basic financial statements and the notes to the financial statements from the annual independent auditor's report. FY2011 financial data is provided in some cases along with FY2012 for comparison purposes.

As a whole, the financial position for Murray State College has remained stable for fiscal year ended June 2012 due to the continuation of aggressive cost control measures, conservative spending, increased tuition rates and increased student enrollment.

USING THIS REPORT

In June 1999, the Government Accounting Standards Board (GASB) released statement No. 34 "Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments". Changes in statement No. 34 require a comprehensive one-line look at the entity as a whole and capitalization of assets and depreciation. In November 1999, GASB issued statement No. 35 "Basic Financial Statements and Management's Discussion and Analysis for Public Colleges and Universities" which applies these standards to public colleges and universities. The State of Oklahoma and its agencies adopted these standards early in preparation for the actual required date of fiscal year ending 2003. The GASB standards require several changes to the basic financial statements as well as the requirement for the recording of depreciation expense for fixed assets.

Report statements include all assets and liabilities using the accrual basis of accounting, which is consistent with the accounting used by private sector institutions. All of the current year's revenues and expenses are recognized when earned or incurred, regardless of when cash is received or paid.

FINANCIAL HIGHLIGHTS

The report that follows consists mainly of three basic financial statements:

- 1. Statement of Net Assets**
- 2. Statement of Revenues, Expenses, and Changes in Net Assets**
- 3. Statement of Cash Flows**

The Statement of Net Assets, and, the Statement of Revenues, Expenses and Changes in Net Assets report information on the College as a whole and will reflect whether the institution is better off or worse off as a result of the year's activities. When revenues and other support exceed expenses, the result is an increase in net assets. When the reverse occurs, the result is a decrease in net assets. The relationship between revenues and expenses reflect the College's operating results. These two statements report the College's net assets and changes in them.

Current assets represent resources that are available to meet current operational needs. Non-current assets represent resources that are not available to meet current obligations. Cash and investments designated for construction or other capital projects are included in this category. The major component of this category is the College's investment in property, buildings and equipment. The financial statements contain a summary of capital asset activity.

Liabilities are also separated into current and non-current classifications. Current liabilities are those obligations that are due within the current year and will be paid from current resources. Non-current liabilities are primarily made up of long-term debt. The financial statements provide detail related to Long-term liabilities.

Net Assets – the difference between assets and liabilities – reflect one way to measure the institution's financial health, or financial position. Over time, increases or decreases in the net assets are one indicator of whether financial health is improving or deteriorating. Other non-financial factors including freshman class size, student retention, programmatic offerings, etc. must be considered as well to assess the **overall** health of the institution.

The Statement of Cash Flows is another way to assess the financial health of an institution. The primary purpose of the statement is to provide relevant information about the cash receipts and cash payments of an entity during a period. The Statement of Cash Flows also helps users assess an entity's ability to generate future net cash flow, its ability to meet obligations as they come due and its need for external financing.

Statement of Net Assets

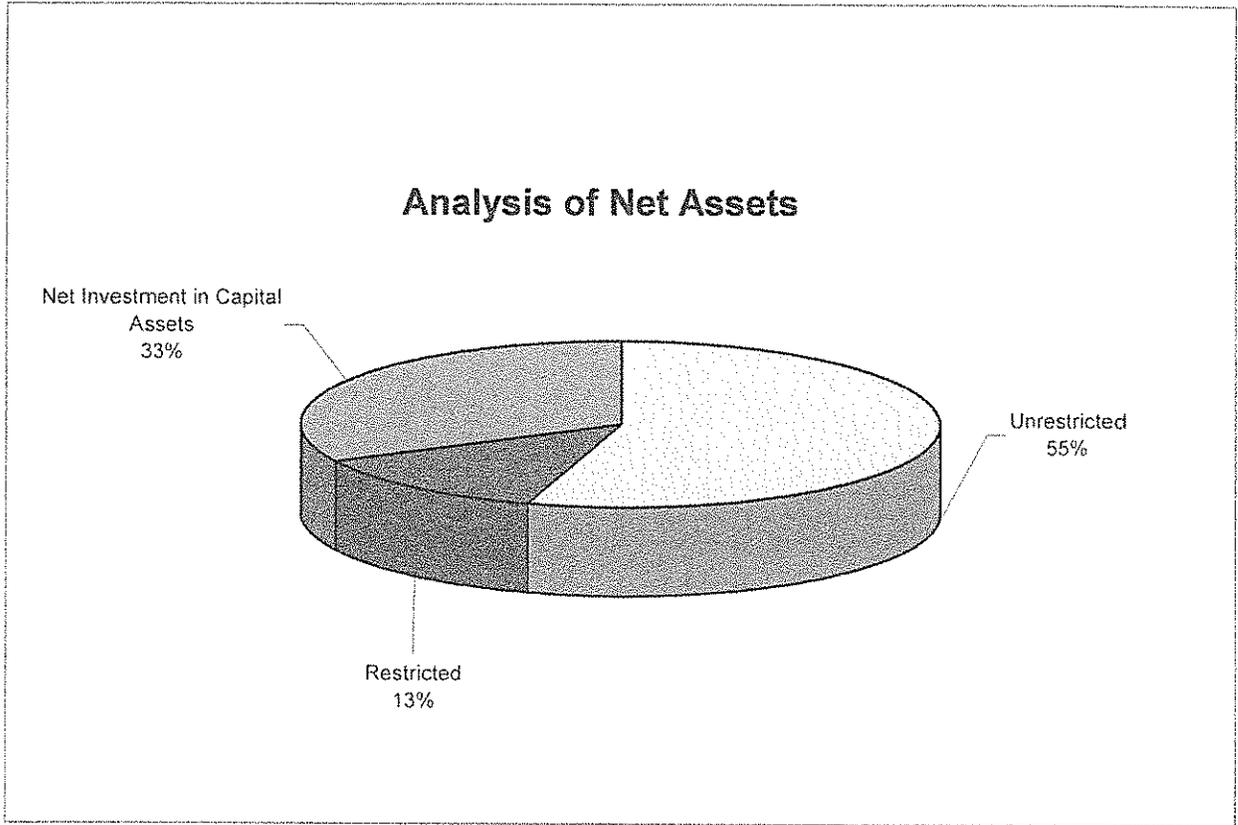

Schedule A is prepared from the College's Statement of Net Assets and summarizes the assets, liabilities and net assets as of June 30. Comparative data for preceding years is provided.

Schedule A Condensed Statement of Net Assets As of June 30, 2012 and 2011

	2012	2011
Current Assets	22,807,654	22,748,566
Non Current Assets		
Capital Assets, Net of Depreciation	15,783,877	13,231,346
Other	688,621	749,496
Total Assets	<u>39,280,152</u>	<u>36,729,408</u>
Current Liabilities	1,956,272	1,250,780
Noncurrent Liabilities		
Compensated Absences	23,523	23,523
Lease Payable	9,015,653	9,148,569
Total Liabilities	<u>10,995,448</u>	<u>10,422,872</u>
Net Assets		
Invested in Capital Assets, net of related debt	9,212,104	8,777,329
Restricted	3,602,883	3,700,392
Unrestricted	15,469,717	13,828,815
Total Net Assets	<u>28,284,704</u>	<u>26,306,536</u>
Total Liabilities and Net Assets	<u>39,280,152</u>	<u>36,729,408</u>

Capital Assets increased 19% due primarily to the construction in progress on the administration building that is still on going. Current Liabilities increased by 56% as a result of increased accounts payable related to the ongoing renovation of the administration building and increased deferred revenue. Unrestricted net increased by 12% due to the increase in overall cash and cash equivalents.

The following graph indicates that the bulk of the College's net assets are unrestricted.

Statement of Revenues, Expenses and Changes in Net Assets

The Statement of Revenues, Expenses and Changes in Net Assets present the College's results of operation for the year and the effect on net assets. Operating revenues and expenses are generated from exchange transactions that arise in the course of normal activity for the organization. Tuition and fees, sales of services and merchandise, and similar transactions are considered operating revenues and all of the expenses required to provide these services are considered operating expenses. Nonoperating revenue and expenses are characterized as non-exchange and include such items as gifts and contributions, investment income or expense, Federal Pell grants, and most significantly, state appropriations.

Schedule B is prepared from the College's Statement of Revenues, Expenses and Changes in Net Assets.

Schedule B
Condensed Statement of Revenues, Expenses and Changes in Net Assets
As of June 30, 2012 and 2011

	2012	2011
Operating Revenue		
Tuition and Fees	4,271,272	3,405,897
Sales, service, and other revenue	3,775,312	1,582,910
Operating gifts, grants and contract	3,400,180	3,809,228
Total	<u>11,446,764</u>	<u>8,798,035</u>
Less Operating Expense	<u>(21,717,080)</u>	<u>(17,761,652)</u>
Net Operating Loss	<u>(10,270,316)</u>	<u>(8,963,617)</u>
Non Operating Revenue & Expense		
Governmental appropriations	6,240,473	6,805,905
On-behalf payment for OCIA Bond	111,633	845,283
On-behalf payment for OTRS	480,000	389,000
Interest Income	248,402	151,096
Interest Expense	(345,444)	(563,537)
Non Operating Grants	5,513,420	4,028,066
Total	<u>12,248,484</u>	<u>11,655,813</u>
Change in Net Assets	1,978,168	2,692,196
Net Assets, Beginning of Year	<u>26,306,536</u>	<u>23,614,340</u>
Net Assets, End of Year	<u><u>28,284,704</u></u>	<u><u>26,306,536</u></u>

Operating gifts, grants, and contracts decreased by 11% due mainly to the discontinuation of the Academic Competitiveness Grant by the Federal Government. Interest expense decreased 39% due primarily to the amortization of the OCIA deferred refinancing costs in the prior year. On-behalf payments for OCIA Bond decreased by 87% due primarily to the write-off of OCIA bond premium and lease restructuring done in the prior year.

Schedule C is prepared from the College's Statement of Revenues, Expenses and Changes in Net Assets.

Schedule C
Operating Expenses Detail
As of June 30, 2012 and 2011

Operating Expense	<u>2012</u>	<u>2011</u>
Salaries	8,148,853	7,043,635
Fringe Benefits	2,060,224	2,235,105
Professional Services	212,554	262,367
Contractual Services	926,004	1,084,660
Supplies & Materials	2,616,502	2,051,303
Travel	207,407	174,928
Miscellaneous	4,230,622	2,579,934
Communication	83,467	81,451
Scholarships & Student Aid	2,055,596	1,230,915
Utilities	401,518	422,923
Depreciation	774,333	594,431
Total	<u>21,717,080</u>	<u>17,761,652</u>

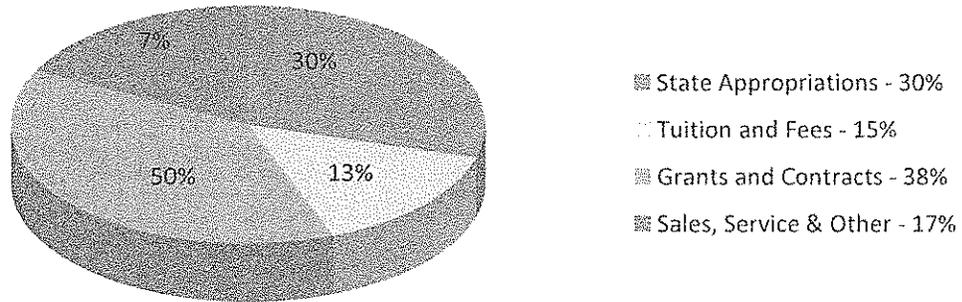

Scholarships and student aid increased by 67% during the fiscal year due primarily to an increase in the overall financial aid awarded.

Revenues and Expenses

Revenues and Expenses impact total Net Assets. Operating revenue which includes Tuition/Fees, Auxiliary operations, Gifts/Grants/Other Contracts plus non-operating revenue which includes state appropriations, on-behalf payments and interest less expenses will result in a change to total net assets. As a result of continued aggressive cost control measures, conservative spending, increased tuition rates and increased enrollment, Net Assets at the end of the year reflect a 7.5% increase over the previous year.

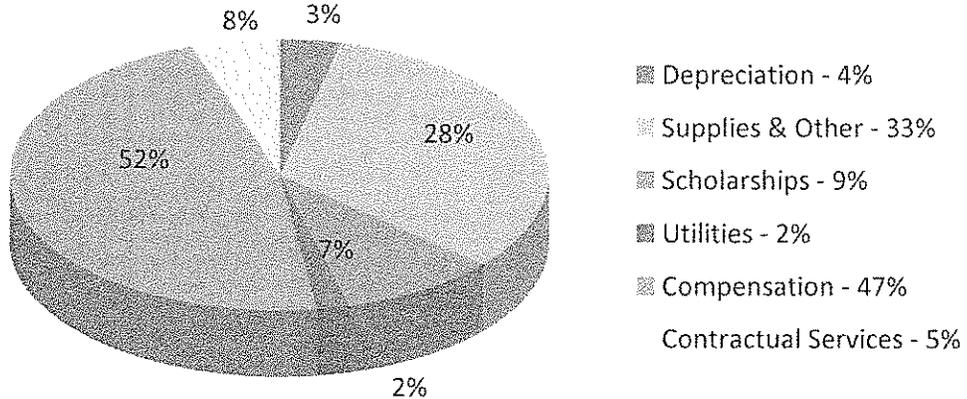

The following graph represents sources and percentages of revenue during the year.

Total Revenue 2012

The following graph represents sources and percentages of expenses during the year.

Total Expenses 2012

Statement of Cash Flows

The primary purpose of the Statement of Cash Flows is to provide information about the cash receipts and distributions of an entity during a period. This statement also aids in the assessment of an entity's ability to generate future net cash flows, ability to meet obligations as they come due, and needs for external financing.

Schedule D is a summary of the cash flows for the year compared to the previous year and is prepared from the Statement of Cash Flows.

Schedule D
Statement of Cash Flows
As of June 30, 2012 and 2011

	2012	2011
Cash provided (used) by		
Operating Activities	(8,806,232)	(7,685,549)
Non Capital Financing Activities	11,316,952	15,873,174
Capital and Related Financing	(445,177)	(596,252)
Investing Activities	267,050	116,388
Net Increase (Decrease) in Cash	<u>2,332,593</u>	<u>7,707,761</u>
Cash, Beginning of Year	<u>14,590,541</u>	<u>6,882,780</u>
Cash, End of Year	<u><u>16,923,134</u></u>	<u><u>14,590,541</u></u>

Capital Assets

At year end, the College had over \$16 million invested in capital assets, net of accumulated depreciation of more than \$13 million. Details of balances of capital assets are shown below in Schedule E.

Schedule E
Capital Assets, Net
As of June 30, 2012 and 2011

	2012	2011
Capital Assets		
Land	8,038	8,038
Land Improvements	22,800	15,000
Building	15,514,752	15,304,795
Equipment	7,138,987	6,686,667
Library Materials	323,033	363,125
Livestock	161,935	155,520
Infrastructure	1,346,854	1,264,050
Construction In Progress	3,952,271	1,344,611
Total	<u>28,468,670</u>	<u>25,141,806</u>
Less Accumulated Depreciation	<u>(12,684,793)</u>	<u>(11,910,460)</u>
Net Capital Assets	<u><u>15,783,877</u></u>	<u><u>13,231,346</u></u>

COMPONENT UNIT

The Murray State College Foundation is a nonprofit organization incorporated in the State of Oklahoma in 1979 to promote the education, scientific and benevolent purposes of Murray State College. It is considered a component unit of Murray State College and the financials are presented discreetly in the audit of the college. The Murray State College Foundation Student Housing LLC is a nonprofit limited liability organization organized in 2003. The sole member of the LLC is the Murray State College Foundation. The LLC was formed for the purpose of constructing student housing on property owned by Murray State College. The LLC financials are also presently discreetly as a component unit in the audit of the college.

ECONOMIC OUTLOOK

Even though the current financial position of Murray State College is positive, the economic position of all state agencies is closely tied to that of the State of Oklahoma. State appropriated funds make up a large portion of the Murray State College operating budget. Appropriation cuts in FY2003 totaled almost 10%; FY2004 cuts totaled 3%; FY2005 budget included the first increase in several years and allowed us to make some much overdue salary adjustments as well as fill a few critical positions that had been frozen for a period of time. The FY 2006 appropriation included an increase of 8% including a base increase of over \$300,000 as a result of being in the lower percentile of budget needs funded. FY 2007 budget appropriations provided funding necessary to cover anticipated mandatory cost increases. FY 2008 and FY 2009 funding increased only slightly with differences in revenue and expense offset by increases in tuition and fees. Mid-year reductions were made to state appropriations with the expectation funds would be replaced in the next fiscal year.

FY 2010 funding decreased statewide by approximately 6% and was offset by allocation of federal stimulus funds. Stimulus funds allocated for FY 2010 totaled \$462,132. No tuition and fee increases were implemented for FY 2010 as a compromise between the legislative and state regents staff to hold budget reductions to a minimum so that tuition would not have to be increased for the year. As a result of this decision and appropriation of stimulus funds, Murray State received a net increase of 4.47% for operational expenses.

FY 2011 funding was reduced 2% which was less than other state agencies budgets were cut. Along with decreases in funding, federal stimulus monies were no longer available. FY 2012 funding remained virtually unchanged. Projections for FY 2013 and 2014 are more optimistic as the State's economy has seen a slight improvement. Recovery will continue to be slow and extended over a period of several years. Mandatory costs including utility costs and insurance for property, tort and medical are escalating dramatically and will continue to have a big impact on current budgets and in the years to come.

The current budgetary climate is challenging and the College is relying on the experience of our management team and our team approach to problem solving to meet these challenges. We believe that many of the actions that have been taken in the recent past and those planned for the future will help us weather the current crisis and result in a stronger more efficient and effective organization. We realize that serving our students and maintaining quality academic programs is dependent on receiving an adequate level of state and federal appropriations in the future and we plan to work diligently toward that objective.

Note 1: Summary of Significant Accounting Policies

Nature of Operations

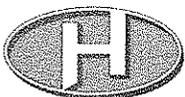

Murray State College (the "College") is a two-year, state supported college operating under the jurisdiction of the Board of Regents of Murray State College (the Board of Regents) and the Oklahoma State Regents for Higher Education. The College is a component unit of the State of Oklahoma and is included in the general-purpose financial statements of the State of Oklahoma. The College has two campuses located in Tishomingo and in Ardmore at the Ardmore Higher Education Center.

Reporting Entity

The financial reporting entity, as defined by Governmental Accounting Standards Board ("GASB") Statement No. 14, *The Financial Reporting Entity*, and as amended by GASB Statement No. 39, *Determining Whether Certain Organizations Are Component Units*, consists of the primary government, organizations for which the primary government is financially accountable, and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion could cause the financial statements to be misleading or incomplete. The accompanying financial statements include the accounts and funds of the College.

The Murray State College Foundation, Inc. (the "Foundation") and Murray State College Foundation Student Housing, LLC (the "LLC") are reported as legally separate, tax-exempt component units of the College. The Foundation is organized for the purpose of receiving and administering gifts intended for the College. Although the College does not control the timing or amount of receipts from the Foundation, the majority of resources, or income thereon, which the Foundation holds and invests, is restricted to the activities of the College by the donors. Because these restricted resources held by the Foundation can only be used by, or for the benefit of, the College, the Foundation is considered a component unit of the College and is discretely presented in the College's financial statements. The LLC is organized for the purpose of constructing and financing housing facilities for the benefit of the College. The sole member of the LLC is the Foundation. Separate financial statements of the Foundation and the LLC are presented at the end of this report.

The Foundation and the LLC are private nonprofit organizations that report under the Financial Accounting Standards Board ("FASB") standards over accounting for Not-for-Profit Organizations. As such, certain revenue recognition criteria and presentation features are different from GASB revenue recognition criteria and presentation features. No modifications have been made to the Foundation's financial information in the College's financial reporting entity for these differences.

Murray State College
Notes to Financial Statements
June 30, 2012 and 2011

Note 1: Summary of Significant Accounting Policies (Continued)

Basis of Accounting

For financial reporting purposes, the College is considered a special-purpose government engaged only in business-type activities. Accordingly, the College's financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred. All significant intra-agency transactions have been eliminated.

The College has the option to apply all Financial Accounting Standards Board ("FASB") pronouncements issued after November 30, 1989, unless FASB conflicts with GASB. The College has elected to not apply FASB pronouncements issued after the applicable date.

Cash Equivalents

For purposes of the statements of cash flows, the College considers all highly liquid investments with an original maturity of three months or less to be cash equivalents. Funds invested through the State Treasurer's Cash Management Program are considered cash equivalents.

Deposits and Investments

The College accounts for its investments at fair value, as determined by quoted market prices, in accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*. In accordance with GASB Statement No. 40, *Deposit and Investment Risk Disclosures*, the College has disclosed its deposit and investment policies related to the risks identified in GASB Statement No. 40. Changes in unrealized gain (loss) on the carrying value of the investments are reported as a component of investment income in the statement of revenues, expenses, and changes in net assets.

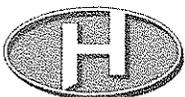

Inventories

Inventories consist of books and supplies held for resale at the bookstore, which are valued at the lower of cost (first-in, first-out basis) or market.

Accounts Receivable and Other Receivables

Accounts receivable consists of tuition and fee charges to students and to auxiliary enterprise services provided to students, faculty and staff, the majority of each residing in the State of Oklahoma. Student accounts receivable are carried at the unpaid balance of the original amount billed to students and student loans receivable are carried at the amount of unpaid principal. Both receivables are less an estimate made for doubtful accounts based on a review of all outstanding amounts. Management determines the allowance for doubtful accounts by identifying troubled accounts and by using historical experience applied to an aging of accounts. Student accounts are written off for financial reporting purposes when deemed uncollectible. Recoveries of student accounts receivable previously written off are recorded when received.

A student account receivable and student loan receivable is considered to be past due if any portion of the receivable balance is outstanding after the end of the semester. Interest and late

Murray State College
Notes to Financial Statements
June 30, 2012 and 2011

Note 1: Summary of Significant Accounting Policies (Continued)

Accounts Receivable and Other Receivables (Continued)

charges are not generally assessed and, if they are assessed, are not included in income until received.

Other receivables include amounts due from federal, state and local governments, or private sources, in connection with reimbursement of allowable expenditures made pursuant to the College's grants and contracts. Other accounts receivable also include amounts due from the Oklahoma Development Finance Authority ("ODFA") and Oklahoma Capital Improvement Authority ("OCIA") for proceeds from the capital bond improvement program allocated to the College. No allowance for doubtful accounts has been provided for other receivables.

Restricted Cash and Investments

Cash and investments that are externally restricted to make debt service payments, to maintain sinking or reserve funds, or to purchase capital or other noncurrent assets, are classified as restricted assets in the statement of net assets.

Capital assets

Capital assets are stated at cost, or fair value if acquired by gift, less accumulated depreciation. For equipment, the College's capitalization policy includes all items with a unit cost of \$500 or more and an estimated useful life of greater than one year. Renovations to buildings, infrastructure, and land improvements that significantly increase the value or extend the useful life of the structure are capitalized. Routine repairs and maintenance are charged to operating expense in the year in which the expense occurs. Livestock is stated at fair market value. Library books and livestock are not depreciated.

Depreciation is computed using the straight-line method over the estimated useful lives of the assets, generally 40 years for buildings, infrastructure and improvements, 4 to 10 years for equipment.

Costs incurred during construction of long-lived assets are recorded as construction in progress and are not depreciated until placed in service.

Deferred Revenues

Deferred revenues include amounts received for tuition and fees and certain auxiliary activities prior to the end of the fiscal year but related to the subsequent accounting period.

Compensated Absences

Employee vacation pay is accrued at year-end for financial statement purposes. The liability and expense incurred are recorded at year-end as accrued compensated absences in the statement of net assets, and as a component of compensation and benefit expense in the statement of revenues, expenses and changes in net assets.

Murray State College
Notes to Financial Statements
June 30, 2012 and 2011

Note 1: Summary of Significant Accounting Policies (Continued)

Noncurrent Liabilities

Noncurrent liabilities include (1) principal amounts of revenue bonds payable, notes payable, and capital lease obligations with contractual maturities greater than one year, and (2) estimated amounts for accrued compensated absences and other liabilities that will not be paid within the next fiscal year.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures; accordingly, actual results could differ from those estimates.

Net Assets

The College's net assets are classified as follows:

Invested in capital assets, net of related debt

This represents the College's total investment in capital assets, net of outstanding debt obligations related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such amounts are not included as a component of invested in capital assets, net of related debt.

Restricted net assets – expendable

Restricted expendable net assets include resources in which the College is legally or contractually obligated to spend resources in accordance with restrictions imposed by external third parties.

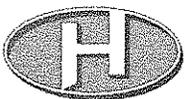

Restricted net asset nonexpendable

Nonexpendable restricted net assets consist of endowment and similar type funds in which donors or other outside sources have stipulated, as a condition of the gift instrument, that the principal is to be maintained inviolate and in perpetuity, and invested for the purpose of producing present and future income, which may either be expended or added to principal.

Unrestricted net assets

Unrestricted net assets represent resources derived from student tuition and fees, state appropriations, and sales and services of educational departments and auxiliary enterprises. These resources are used for transactions relating to the educational and general operations of the College, and may be used at the discretion of the governing board to meet current expenses for any purpose. These resources also include auxiliary enterprises, which are substantially self-supporting activities that provide services for students, faculty and staff.

When an expense is incurred that can be paid using either restricted or unrestricted resources, the College's policy is to first apply the expense towards unrestricted resources, and then towards restricted resources.

Murray State College
Notes to Financial Statements
June 30, 2012 and 2011

Note 1: Summary of Significant Accounting Policies (Continued)

Income Taxes

The College, as a political subdivision of the State of Oklahoma, is exempt from all federal income taxes under Section 115(1) of the Internal Revenue Code, as amended. However, the College may be subject to income taxes on unrelated business income under Internal Revenue Code Section 511(a)(2)(B).

Classification of Revenues: The College has classified its revenues as either operating or non operating revenues according to the following criteria:

Operating revenues: Operating revenues include activities that have the characteristics of exchange transactions, such as (1) student tuition and fees, net of scholarship discounts and allowances, (2) sales and services of auxiliary enterprises, net of scholarship discounts and allowances, (3) federal, state and local grants and contracts, and (4) interest on institutional student loans.

Non operating revenues: Nonoperating revenues include activities that have the characteristics of nonexchange transactions, such as gifts and contributions, student aid revenues, and other revenue sources that are defined as nonoperating revenues by GASB Statement No. 9, *Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting*, and GASB Statement No. 34, such as state appropriations and investment income.

Scholarship Discounts and Allowances: Student tuition and fee revenues, and certain other revenues from students, are reported net of scholarship discounts and allowances in the statement of revenues, expenses and changes in net assets. Scholarship discounts and allowances are the difference between the stated charge for goods and services provided by the College, and the amount that is paid by students and/or third parties making payments on the students' behalf. Certain governmental grants, such as Pell grants, and other federal, state or nongovernmental programs, are recorded as either operating or non operating revenues in the College's financial statements. To the extent that revenues from such programs are used to satisfy tuition and fees and other student charges, the College has recorded a scholarship discount and allowance.

Subsequent Events

Subsequent events have been evaluated through December 16, 2012, which is the date the financial statements were issued.

Note 2: Deposits and Investments

Custodial Credit Risk – Deposits

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The College's deposit policy for custodial credit risk is described as follows:

Murray State College
Notes to Financial Statements
June 30, 2012 and 2011

Note 2: Deposits and Investments (Continued)

Custodial Credit Risk – Deposits (Continued)

Oklahoma Statutes require the State Treasurer to ensure that all state funds either be insured by Federal Deposit Insurance, collateralized by securities held by the cognizant Federal Reserve Bank, or invested in U.S. government obligations. The College's deposits with the State Treasurer are pooled with the funds of other State Agencies and then, in accordance with statutory limitations, placed in financial institutions or invested as the Treasurer may determine, in the State's name.

The College requires that balances on deposit with financial institutions be insured by Federal Deposit Insurance or collateralized by securities held by the cognizant Federal Reserve Bank, or invested in U.S. Government obligations, in the College's name.

The carrying amount and related bank balances of the College's deposits was \$16,917,134 and \$14,142,257 at June 30, 2012 and 2011 respectively.

Some deposits with the State Treasurer are placed in the State Treasurer's internal investment pool *OK INVEST*. *OK INVEST* pools the resources of all state funds and agencies and invests them in (a) U.S. treasury securities which are explicitly backed by the full faith and credit of the U.S. government; (b) U.S. agency securities which carry an implicit guarantee of the full faith and credit of the U.S. government; (c) money market mutual funds which participates in investments, either directly or indirectly, in securities issued by the U.S. treasury and/or agency and repurchase agreements relating to such securities; and (d) investments related to tri-party repurchase agreements which are collateralized at 102% and, whereby, the collateral is held by a third party in the name of the State Treasurer.

Of funds on deposit with the State Treasurer, amounts invested in *OK INVEST* total \$13,460,343 and \$21,792,321 at June 30, 2012 and 2011 respectively.

For financial reporting purposes, deposits with the State Treasurer that are invested in *OK INVEST* are classified as cash equivalents. At June 30, 2012, the distribution of deposits in *OK INVEST* was as follows:

<u>OK INVEST Portfolio</u>	<u>Cost</u>	<u>Market Value</u>
U.S. Agency securities	\$ 4,758,915	\$ 4,772,903
Money market mutual funds	1,842,456	1,842,456
Certificates of deposit	434,761	434,761
Mortgage backed agency securities	5,941,189	6,312,263
Municipal bonds	241,436	275,451
Foreign bonds	67,735	67,735
U.S. Treasury Obligations	173,851	216,891
TOTAL	<u>\$ 13,460,343</u>	<u>\$ 13,922,460</u>

Murray State College
Notes to Financial Statements
June 30, 2012 and 2011

Note 2: Deposits and Investments (Continued)

At June 30, 2011, the distribution of deposits in *OK INVEST* was as follows:

OK INVEST Portfolio	Cost	Market Value
U.S. Agency securities	\$ 7,959,317	\$ 8,023,130
Money market mutual funds	2,395,947	2,395,947
Certificates of deposit	1,028,972	1,028,972
Tri-party repurchase agreements	1,470,568	1,470,568
Mortgage backed agency securities	7,905,183	8,254,313
Municipal bonds	434,365	470,374
Foreign bonds	81,023	81,023
Commercial paper	202,536	202,555
U.S. Treasury Obligations	314,410	372,540
TOTAL	<u>\$ 21,792,321</u>	<u>\$ 22,299,422</u>

Custodial Credit Risk – Deposits (Continued)

Agencies and funds that are considered to be part of the State's reporting entity in the State's Comprehensive Annual Financial Report are allowed to participate in *OK INVEST*. Oklahoma statutes and the State Treasurer establish the primary objectives and guidelines governing the investment of funds in *OK INVEST*. Safety, liquidity, and return on investment are the objectives which establish the framework for the day to day *OK INVEST* management with an emphasis on safety of the capital and the probable income to be derived and meeting the State and its funds and agencies' daily cash flow requirements. Guidelines in the Investment Policy address credit quality requirements, diversification percentages and specify the types and maturities of allowable investments, and the specifics regarding these policies can be found on the State Treasurer's website at <http://www.treasurer.state.ok.us/>. The State Treasurer, at his discretion, may further limit or restrict such investments on a day to day basis. *OK INVEST* includes a substantial investment in securities with an overnight maturity as well as in U.S. government securities with a maturity of up to three years. *OK INVEST* maintains an overall weighted average maturity of less than 270 days.

Participants in *OK INVEST* maintain an interest in its underlying investments and, accordingly, may be exposed to certain risks. As stated in the State Treasurer information statement, the main risks are interest rate risk, credit/default risk, liquidity risk, and U.S. government securities risk. Interest rate risk is the risk that during periods of rising interest rates, the yield and market value of the securities will tend to be lower than prevailing market rates; in periods of falling interest rates, the yield will tend to be higher. Credit/default risk is the risk that an issuer or guarantor of a security, or a bank or other financial institution that has entered into a repurchase agreement, may default on its payment obligations. Liquidity risk is the risk that *OK INVEST* will be unable to pay redemption proceeds within the stated time period because of unusual market conditions, an unusually high volume of redemption requests, or other reasons. U.S. Government securities risk is the risk that the U.S. government will not provide financial support

Murray State College
Notes to Financial Statements
June 30, 2012 and 2011

Note 2: Deposits and Investments (Continued)

to U.S. government agencies, instrumentalities or sponsored enterprises if it is not obligated to do so by law. Various investment restrictions and limitations are enumerated in the State Treasurer's Investment Policy to mitigate those risks; however, any interest in *OK INVEST* is not insured or guaranteed by the State, the FDIC or any other government agency.

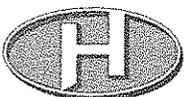

Investments

Investments are recorded at fair value, as determined by quoted market prices. At June 30, 2012 and 2011, the College had recorded a restricted investment of \$25,142 and \$25,142 on the statement of net assets. This investment is a nonnegotiable certificate of deposit for an endowment fund on deposit at a local bank.

Investments in the State Treasurer's Internal Investment Pool are classified as cash equivalents in the accompanying statement of net assets. The underlying collateral for amounts invested with the State Treasurer's internal investment pool are U.S. Treasury obligations, U.S. Agency obligations, and Tri-Party repurchase agreements

Interest Rate Risk: The College does not have a formal policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Credit Risk: The College places no limit on the amount the College may invest in any one issuer. However, the majority of the investments are in mutual funds and investments guaranteed by the U.S. Government.

June 30, 2012 and 2011

Capital Lease Obligations

Oklahoma Capital Improvement Authority Lease Obligations

In 1999, the OCIA issued its OCIA Bond 1999 Series A, B and C. Of the total bond indebtedness, the State Regents allocated \$600,000 to the College. Concurrently with the allocation, the College entered into a lease agreement with OCIA for capital improvements being funded by the OCIA bonds. The lease agreement provides for the College to make specified monthly payments to OCIA over the respective terms of the agreement, which is for approximately 20 years. Lease principal and interest payments to OCIA totaling \$39,775 and \$39,799 during the years ended June 30, 2012 and 2011 respectively, were made by the State of Oklahoma on behalf of the College. These on-behalf payments have been recorded as OCIA on-behalf state appropriations in the statement of revenues, expenses and changes in net assets.

In 2004, the OCIA issued bond series 2004A that refunded a significant portion of the 1999A bonds. Consequently, the amortization of the 1999A bond issue ended in 2010. The lease agreement will no longer secure the 1999A bond issue but will now act as security for the 2004A bond issue over the term of the lease through the year 2020.

In 2005, the OCIA issued its State Facilities Revenue Bonds (Higher Education Project) Series 2005F. Of the total bond indebtedness, the State Regents allocated approximately \$6,800,000 to the College. Concurrently with the allocation, the College entered into a lease agreement with OCIA for capital improvements being funded by the OCIA bonds. The lease agreement provides for the College to make specified monthly payments to OCIA over the respective terms of the agreement, which is for approximately 25 years. Lease principal and interest payments to OCIA totaling \$71,858 and \$628,670 during the years ended June 30, 2012 and 2011, were made by the State of Oklahoma on behalf of the College. These on-behalf payments have been recorded as OCIA on-behalf state appropriations in the statement of revenues, expenses and changes in net assets.

In 2011, the OCIA issued Bond Series 2010A and 2010B to partially refund the Series 2005F Revenue Bonds. The advance partial refunding was to provide budgetary relief for fiscal years 2011 and 2012 by extending and restructuring the debt service. As a result, the total liability of the remaining 2005F bonds combined with the new 2010A and 2010B bond issues will be more than the original outstanding liability for the 2005F bonds. Consequently, the lease agreement with OCIA was automatically restructured to secure the new bond issues. This lease restructuring has extended certain principal payments into the future, resulting in a charge or cost on restructuring that has been recorded as a charge of \$1,094,409 on restructuring as a deferred cost that will be amortized over a period of 6 years, beginning in fiscal year 2011. The unamortized amount of deferred lease restructuring cost at June 30 2012 was \$729,606.

Murray State College
Notes to Financial Statements
June 30, 2012 and 2011

Oklahoma Development Finance Authority Lease Obligations

In 2002, the College entered into a capital lease obligation for the ODFA Master Lease Revenue Bonds, Series 2001C in the amount of \$113,000. Total lease payments over the term of the agreement, beginning January 25, 2002 through November 25, 2011, were be \$135,619. Payments were made monthly ranging from approximately \$1,100 to \$1,250. Proceeds from the obligation were used for various capital projects.

In 2011, the College entered into a capital lease obligation for the ODFA Master Lease Revenue Bonds, Series 2010A in the amount of \$2,530,000. Total lease payments over the term of the agreement, beginning October 15, 2010 through May 15, 2030, will be \$3,497,613. Payments will be made monthly ranging from approximately \$14,800 to \$17,200. Proceeds from the obligation were used for various capital projects. A bond issuance premium of \$25,078 is being amortized over the term of the agreement.

Future minimum lease payments under the College's obligations to the OCIA and ODFA for the year ended June 30, 2012, are as follows:

	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
Years Ending June 30:			
2013	\$ 122,807	\$ 167,756	\$ 290,563
2014	467,219	509,599	976,818
2015	1,052,571	487,309	1,539,880
2016	1,089,023	460,512	1,549,535
2017	635,370	278,906	914,276
2018-2022	1,745,246	1,049,067	2,794,313
2023-2027	2,123,471	734,490	2,857,961
2028-2031	<u>1,881,182</u>	<u>214,356</u>	<u>2,095,538</u>
Total	<u>\$ 9,116,889</u>	<u>\$ 3,901,995</u>	<u>\$ 13,018,884</u>

Note 7: Retirement Plans

The College's academic and non-academic personnel are covered by various retirement plans. The plans available to College personnel include the Oklahoma Teachers' Retirement System (the "OTRS"), which is a State of Oklahoma public employee's retirement system. The College also sponsors a 403(b) annuity plan, a defined contribution plan. The College does not maintain the accounting records, hold the investments for, or administer these plans.

Murray State College
Notes to Financial Statements
June 30, 2012 and 2011

Note 7: Retirement Plans (continued)

Oklahoma Teachers' Retirement System

Plan Description

The College contributes to the OTRS, a cost-sharing multiple-employer defined benefit pension plan sponsored by the State of Oklahoma. OTRS provides defined retirement benefits based on members' final compensation, age and term of service. In addition, the retirement program provides for benefits upon disability and to survivors upon the death of eligible members.

The benefit provisions are established and may be amended by the legislature of the State of Oklahoma. Title 70 of the Oklahoma statutes, Sections 17-101 through 116.9, as amended, assigns the authority for management and operation of the plan to the Board of Trustees of OTRS. OTRS does not provide for a cost-of-living adjustment. OTRS issues a publicly available financial report that includes financial statements and supplementary information for OTRS. That report may be obtained by writing to Teachers' Retirement System of Oklahoma, P.O. Box 53524, Oklahoma City, Oklahoma 73152, by calling (405) 521-2387, or at the OTRS website at www.trs.state.ok.us.

Funding Policy

The College is required to contribute a fixed percentage of annual compensation on behalf of active members. The employer contribution rates for 2012, 2011, and 2010, were 9.5% respectively, and were applied to annual compensation, and are determined by state statute.

Employees' contributions are also determined by state statute. For all employees, the contribution rate was 7% of covered salaries and fringe benefits in 2012, 2011, and 2010. These contributions were made directly by the College for all three years.

The College's contribution to OTRS for the years ended June 30, 2012, 2011, and 2010, were approximately \$989,000, \$914,000, and \$790,000 respectively, equal to the required contribution for each year. These contributions included the College's statutory contribution and the share of the employees' contribution paid directly by the College.

The State of Oklahoma is also required to contribute to OTRS on behalf of the participating employers. For 2012 and 2011, the State of Oklahoma contributed 5% of state revenues from sales and use taxes and individual income taxes to OTRS on behalf of participating employers. The College has estimated the amounts contributed to OTRS by the State of Oklahoma on its behalf by multiplying the ratio of its covered salaries to total covered salaries for OTRS for the year by the applicable percentage of taxes collected during the year. For the years ended June 30, 2012 and 2011, the total amount contributed to OTRS by the State of Oklahoma on behalf of the College was approximately \$480,000 and \$389,000 respectively. This on-behalf payment has been recorded as non-operating state appropriations revenue and as operating compensation and employee benefits expense in the statement of revenues, expenses and changes in net assets.

Murray State College
Notes to Financial Statements
June 30, 2012 and 2011

Note 8: Post-Employment Benefits

In addition to the pension benefits as described above, the College pays the group health insurance premiums for retired employees until age 65. A retiring employee must have been employed full-time in the Oklahoma State System of Higher Education for not less than twenty years immediately preceding the date of retirement, been a member of the Teachers' Retirement System of Oklahoma during this time, and elected to receive a vested benefit under the provisions of the Teachers' Retirement System of Oklahoma. The College is funding on a pay-as-you-go basis the payments for this benefit out of current operations. For the years ended June 30, 2012 and 2011, the College's contributions for health insurance premiums for retired employees were approximately \$25,000 and \$19,000 respectively.

Note 9: Other Post-Employment Benefits

The College has a supplemental retirement benefit plan for a former President of the College which was funded upon his retirement effective June 30, 1994, through the purchase of an annuity. The College's Board of Regents subsequently extended the plan to cover the President's spouse as a co-beneficiary. To provide for this contingent liability, the College purchased a life insurance policy on the life of the former President with the College being the beneficiary of the policy. The proceeds of the policy will be used to purchase an annuity to fulfill the College's agreement with the former President as agreed upon plus return most of the original purchase price to the College. The 2012 and 2011 income from the increase in the cash surrender value of the policy was \$2,228 and \$2,128 respectively. The cash value of the life insurance policy at June 30, 2012 and 2011 was \$112,750 and \$110,522 respectively and is reported as other assets on the statement of net assets.

Note 10: Related Party Transactions

The Foundation is a tax-exempt organization whose objective is the betterment of the College and its related activities. The College is the ultimate beneficiary of the Foundation. The College has entered into a written agreement with the Foundation whereby the College agrees to provide certain administrative services to the Foundation in exchange for scholarships to College students totaling approximately \$22,600 and \$30,400 for the years ended June 30, 2012 and 2011 respectively.

Murray State College
Notes to Financial Statements
June 30, 2012 and 2011

Note 11: Commitments and Contingencies

The College participates in a number of federally assisted grant and contract programs. These programs are subject to financial and compliance audits by the grantors or their representatives. Such audits could lead to requests for reimbursement to the grantor agency for expenditures disallowed under terms of the grant. The amount for expenditures that may be disallowed by the granting agencies cannot be determined at this time, although it is believed by the College that the amount, if any, would not be significant.

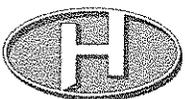

Through June 30, 2010, the College participated in the Federal Family Education Loan Program (the "FFEL Program"), which included the Federal Stafford Loan Program and Federal Parents Loans for Undergraduate Students Program. The FFEL Program did not require the College to draw down cash; however, the College was required to perform certain administrative functions under the FFEL Program. Failure to perform such functions may have required the College to reimburse the loan guarantee agencies.

In July 2011, the College began participating in the Federal Direct Student Loan Program (Direct Lending Program). For the years ended June 30, 2012 and 2011, approximately \$7,342,000 and \$7,307,000 respectively of Direct Lending Program loans were provided to College students.

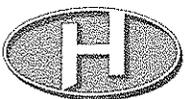

During the course of ordinary business, the College may be subjected to various lawsuits and civil action claims. There were no pending lawsuits to claims against the College at June 30, 2012, that management believes would result in a material loss to the College in the event of an adverse outcome.

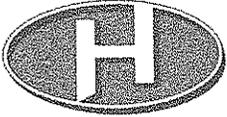

Note 12: Risk Management

The College is exposed to various risks of loss from torts; theft of, damage to, and destruction of assets; business interruption; employee injuries and illnesses; natural disasters; employee health, life and accident benefits; and unemployment. Commercial insurance coverage is purchased for claims arising from such matters other than torts, property, workers' compensation, and unemployment. Settled claims have not exceeded this commercial coverage in any of the three preceding years. The College, along with other state agencies and political subdivisions, participates in the State of Oklahoma Risk Management Program and the State Insurance Fund, public entity risk pools currently operating as a common risk management and insurance program for its members. The College pays an annual premium to the pools for its torts, property, and workers' compensation insurance coverage's. The Oklahoma Risk Management Pool's governing agreement specifies that the pools will be self-sustaining through member premiums and will reinsure through commercial carriers for claims in excess of specified stop-loss amounts. The College is self-insured for unemployment liabilities. Payments are made to the State Employment Security Commission on a claims paid basis. No reserve for potential liability for unemployment claims has been established. Any such liability would be paid from current operations.

**Independent Auditors' Report on Internal Control over
Financial Reporting and on Compliance and Other Matters Based
on an Audit of the Financial Statements Performed in Accordance
with Government Auditing Standards**

Board of Regents
Murray State College
Tishomingo, Oklahoma

We have audited the financial statements of Murray State College (the College) as of and for the year then ended June 30, 2012, and have issued our report thereon dated October 24, 2012. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

Management of Murray State College is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered Murray State College's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for expressing an opinion on the effectiveness of Murray State College's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Murray State College's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the College's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the Board of Regents, management, others within the entity, and the United States Department of Education, and is not intended to be, and should not be, used by anyone other than these specified parties.

Board of Trustees
Murray State College Foundation, Inc.
Tishomingo, Oklahoma

We have audited the accompanying statement of financial position of Murray State College Foundation, Inc. (the Foundation) a component unit of Murray State College as of June 30, 2012 and 2011, and the related statements of activities, cash flows, and functional expenses for the years then ended. These financial statements are the responsibility of the Foundation's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Foundation as of June 30, 2012 and 2011, and the changes in its net assets and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Notes to Financial Statements
June 30, 2012 and 2011

Note 1: Summary of Significant Accounting Policies

Organization

Murray State College Foundation, Inc. (the Foundation) is a nonprofit organization incorporated in the State of Oklahoma in 1979 and operated to receive and administer gifts for the sole benefit of Murray State College (the College).

Distribution of amounts is subject to the approval of the Board of Trustees or the appropriate fund sponsor and the availability of monies. Accordingly, the accompanying financial statements reflect only transactions for which appropriate approvals have been received by the Foundation as of the financial reporting date.

Murray State College Foundation Student Housing, LLC (Student Housing) is a nonprofit limited liability organization organized in August 2003 for the sole purpose of constructing and financing housing facilities for the benefit of the College. The sole member of Student Housing is the Foundation. The College manages, collects revenues and pays all expenses of the Student Housing, including debt service expenditures. In addition, the revenues and expenses of the housing project are recorded in the accounting records of the College. Due to the fact that the Student Housing is not controlled by the Foundation, it is not consolidated in these financial statements.

Net Assets

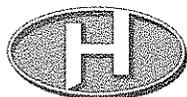

The financial statements of the Foundation have been prepared on the accrual basis in accordance with generally accepted accounting principles.

Net assets are classified based on the existence or absence of donor-imposed restrictions as follows:

Unrestricted – Net assets that are not subject to donor-imposed restrictions. Unrestricted net assets may be designated for specific purposes by action of the Board of Trustees.

Temporarily Restricted – Net assets whose use by the Foundation is subject to donor-imposed restrictions that can be fulfilled by actions of the Foundation pursuant to those restrictions or that expire by the passage of time.

Permanently Restricted – Net assets subject to donor-imposed restrictions that they be maintained permanently by the Foundation. Such assets primarily include the Foundation's permanent endowment funds and irrevocable trusts held by others for the beneficial interest of the Foundation.

Murray State College Foundation, Inc.
Notes to Financial Statements
June 30, 2012 and 2011

Note 1: Summary of Significant Accounting Policies (Continued)

Contributions

The Foundation reports gifts of cash and other assets as restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

Cash and Cash Equivalents

The Foundation defines cash and cash equivalents to be all cash and certificates of deposit with original maturities of three months or less. Cash equivalents of \$72,304 and \$144,166 as of June 30, 2012 and 2011, respectively, were held in financial institutions.

Investments

Investments consist of marketable debt and equity securities and certificates of deposit with original maturities of more than three months. Investments are carried at fair value based on the quoted market prices of the underlying securities.

Tax Status

The Foundation is a nonprofit corporation and is an exempt organization as defined in Internal Revenue Code Section 501(c)(3). The Foundation has been classified as an organization that is not a private foundation under Section 509(a) of the Internal Revenue Code and qualified for deductible contributions under Section 170(b)(1)(A)(vi). The Foundation receives limited income that is unrelated to its exempt purpose and is taxable under the Internal Revenue Code.

Property and Equipment

Property and equipment are stated at cost or at estimated fair value at date of donation. The Foundation provides for depreciation using the straight-line method over the estimated useful lives of the related assets. Repairs and maintenance are expensed as incurred, whereas major improvements in excess of \$500 are capitalized.

Allocated Expenses

Expenses by function have been allocated among program and supporting services classifications on the basis of time records and on estimates made by the Foundation's management.

Murray State College Foundation, Inc.
Notes to Financial Statements
June 30, 2012 and 2011

Note 1: Summary of Significant Accounting Policies (Continued)

Concentrations of Credit Risk

Financial instruments, which potentially subject the Foundation to concentrations of credit risk, consist primarily of cash and cash equivalents, short-term investments and pledges receivable. The Foundation places its cash and certificates of deposit with high quality financial institutions. Pledges receivable consist of a large number of contributors throughout the state of Oklahoma. The Foundation provides an allowance for the estimated uncollectible portion of pledges receivable. The Foundation's management believes that the credit risk is adequately provided for to which it is exposed.

Management Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and disclosures in the notes thereto. Actual results could differ from those estimates.

Subsequent Events

Subsequent events have been evaluated through October 29, 2012, which is the date the financial statements were issued.

Note 2: Cash and Cash Equivalents

The Foundation maintains several bank accounts. The table below is designed to disclose the level of custody credit risk assumed by the Foundation based upon how its deposits were insured at June 30, 2012 and 2011. FDIC regulations state time and savings accounts are insured up to a \$250,000 maximum.

Category 1 – Insured by FDIC or collateralized with securities held by the Foundation or by its agent in its name.

Category 2 – Uninsured but collateralized with securities held by the pledging financial institution's trust department or agent in the Foundation's name.

Category 3 – Uninsured and uncollateralized.

Total Investments	<u>\$ 2,820,375</u>	<u>\$ 2,958,710</u>	<u>\$ 2,958,710</u>

Note 4: Fair Value Measurements

The Foundation uses quoted market prices to determine the fair value of an asset or liability when available. If quoted market prices are not available, the Foundation determines fair value using valuation techniques that use market-based or independently-sourced market data, such as interest rates.

The following methods and assumptions were used to estimate the fair value of assets and liabilities in the financial statements.

Cash and Cash Equivalents: The carrying amount approximates the fair value due to the short maturity of such amounts.

Investments: Investments in cash and cash equivalents, publicly traded securities, and mutual funds are stated at market value based on quoted market prices. Investments common trust funds, certificates of deposit, government agency bonds, and mortgage-backed securities are stated at market price as determined by the fund manager or quoted market prices in non-active markets. Other investments are stated at fair value based upon current market conditions and other factors deemed relevant to the valuation as provided by the independent valuation specialist and or Foundation management.

Pledges and Accounts Receivable: The carrying amount of receivables is based on the discounted value of expected future cash flows, which approximate fair value.

Murray State College Foundation, Inc.
Notes to Financial Statements
June 30, 2012 and 2011

Note 4: Fair Value Measurements (Continued)

Other Assets: Remaining financial instruments are carried at cost, which approximates fair value.

Accounts Payable and Other Liabilities: The carrying amount approximates fair value due to the short maturity of those amounts.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The three levels of inputs that may be used to measure fair value are:

- Level 1** Quoted prices in active markets for identical assets or liabilities.
- Level 2** Observable inputs other the Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the asset or liabilities.
- Level 3** Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The following table presents the fair value measurements of assets and liabilities recognized in the accompanying financial statements at fair value on a recurring basis and the level within the fair market value hierarchy in which the fair value measurements fall at June 30, 2012 and 2011.

	As of June 30, 2012			Total
	Level 1	Level 2	Level 3	
Securities	\$ —	\$ —	\$ —	\$ —
Mutual Funds	1,367,186	—	—	1,367,186

Murray State College Foundation, Inc.
Notes to Financial Statements
June 30, 2012 and 2011

Note 4: Fair Value Measurements (Continued)

The following is a description of methodologies used for instruments measured at fair value on a recurring basis:

Investments: Where quoted market prices are available in an active market, investments are classified within Level 1 of the valuation hierarchy. Level 1 investments include equity securities, mutual funds, and money market funds. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. Level 2 investments include equity securities with similar characteristics or discounted cash flows. Level 2 investments include equity securities, corporate and other bonds, U.S. government securities, marketable alternative assets, inflation hedging and opportunistic and other investments. In certain cases where Level 1 or Level 2 inputs are not available, investments are classified within Level 3 of the hierarchy and include corporate and other bonds and marketable and nonmarketable alternative assets.

Note 5: Related Party Transactions

Based upon an exchange of service agreement, the College provides the Foundation with the necessary staffing and office space at no cost to the Foundation. Thus, the Foundation has no employees. In exchange, the College received scholarships, funds for capital improvements, and other services from the Foundation. The value of such services has been recorded on the financial statements as in-kind contributions.

Note 6: Endowments

The Foundation endowments consist of approximately 140 individual funds established for a variety of purposes. As required by generally accepted accounting principles (GAAP), net assets associated with endowment funds, including funds designated by the Board of Directors to function as endowments, are classified and reported based upon the existence or absence of donor-imposed restrictions.

Interpretation of Relevant Law: In accordance with the requirements of FAS 117-1, and the Oklahoma Uniform Prudent Management of Institutional Funds Act (OUPMIFA), the Foundation will report the market value of an endowment as perpetual in nature. As a result, the Foundation classifies as permanently restricted (1) the original value of gifts donated to the endowment, (2) the original value of subsequent gifts donated to the endowment, (3) all realized and unrealized gains and losses of the endowment, and (4) less any income distribution in accordance with the spending policy which will be classified as temporarily restricted. In accordance with OUPMIFA, the Foundation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

Murray State College Foundation, Inc.
Notes to Financial Statements
June 30, 2012 and 2011

Note 6: Endowments (Continued)

- (1) The duration and preservation of the fund;
- (2) The purpose of the foundation and the donor-restricted endowment fund;

General economic conditions;

- (3) The possible effect of inflation and deflation;
- (4) The expected total return from income and the appreciation of investments;
- (5) Other resources of the foundation;
- (6) The investment policies of the foundation.

Return Objectives and Risk Parameters: The Foundation has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by the endowment while seeking to maintain the purchasing power of the endowment assets. Under this policy, as approved by the Board of Directors, the endowment assets are invested in a manner that is intended to produce results which generate a dependable, increasing source of income and appreciation while assuming a moderate level of investment risk. The Foundation expects its endowment funds, over time, to provide an average rate of return of approximately 7% annually. Actual returns in any given year may vary from this amount.

Strategies Employed for Achieving Objectives: To satisfy its long-term rate of return objectives, the Foundation relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Foundation targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives while reducing risk to acceptable levels.

Spending Policy and How the Investment Objectives Relate to Spending Policy: The Foundation has a policy of appropriating for distribution each year amounts necessary to fund donor-designated uses. In establishing this policy, the Foundation considered the long-term expected return on its investment assets, the nature and duration of the individual endowment funds, many of which must be maintained in perpetuity because of donor-restrictions, and the possible effects of inflation. The Foundation expects the current spending policy to allow its endowment funds to maintain the purchasing power of the endowment assets as well as to provide additional real growth through investment return.

INDEPENDENT AUDITORS' REPORT

Board of Directors
Murray State College Foundation Student Housing, L.L.C.
Tishomingo, Oklahoma

We have audited the accompanying statements of financial position of Murray State College Foundation Student Housing, L.L.C. as of June 30, 2012 and 2011, and the related statements of activities and cash flows for the years then ended. These financial statements are the responsibility of the Organization's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Murray State College Foundation Student Housing, L.L.C. as of June 30, 2012 and 2011, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

MURRAY STATE COLLEGE FOUNDATION
STUDENT HOUSING, L.L.C.
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2012 AND 2011

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

Murray State College Foundation Student Housing, L.L.C. (LLC), is a not-for-profit limited liability organized August 23, 2003. The sole member of the LLC is Murray State College Foundation, a component unit of Murray State College. Murray State College Foundation is a 501 (c) (3) Organization. The LLC was formed for the purpose of constructing student housing on property owned by Murray State College pursuant to ground lease dated June 1, 2005, whereby Murray State College receives 99% of the net cash derived from rental revenue less operating expenses and debt service requirements.

The student housing is managed by Murray State College under a management agreement dated June 1, 2005.

Capital Assets

Capital assets, which include property and equipment, are recorded at historical cost. The costs of normal maintenance and repairs, that do not add to the value of the asset or materially extend the asset's life, are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. The Organization incurred interest expense of \$154,151 for construction of capital assets during the year ended June 30, 2006 which has been included in the cost of the building.

Capital assets are depreciated using the straight-line method over the following useful lives:

<u>Type of Asset</u>	<u>Years</u>
Buildings	40
Furniture and Fixtures	10

Estimates

Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets, liabilities, and fund equity, the disclosure of contingent assets and liabilities, and the reported revenues and expenditures. Actual results could differ from those estimates.

MURRAY STATE COLLEGE FOUNDATION
STUDENT HOUSING, L.L.C.
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2012 AND 2011

NOTE 2 – LONG-TERM DEBT

Long-term debt at June 30, 2011 consists of a promissory note payable to the United States of America acting through Rural Housing Service of the United States Department of Agriculture. The loan is payable in annual installments of principal and interest at 4.375% interest, matures June 30, 2046 and secured by a mortgage and security interest in the revenues collected from the housing project. The maturities are as follows:

<u>Period Ending</u> Year ended June 30,	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2013	50,708	166,700	217,408
2014	52,927	164,481	217,408
2015	55,243	162,165	217,408
2016	57,659	159,749	217,408
2017	60,182	157,226	217,408
2018-2022	342,785	744,255	1,087,040
2023-2027	424,624	662,416	1,087,040
2028-2032	526,001	561,039	1,087,040
2033-2037	651,582	435,458	1,087,040
2038-2042	807,145	279,895	1,087,040
2043-2046	781,419	87,235	868,654
Total	<u>\$3,810,275</u>	<u>\$3,580,619</u>	<u>\$ 7,390,894</u>

NOTE 3 - PROPERTY AND EQUIPMENT

Depreciation expense for the years ended June 30, 2012 and 2011 was \$104,802 and \$104,802, respectively.

NOTE 4 – RELATED PARTY TRANSACTIONS

Murray State College Foundation Student Housing, L.L.C. received transfers from Murray State College in the amount of \$217,408 and \$217,408 during the years ended June 30, 2012 and 2011 respectively. These funds were used to pay the annual principal and interest payment on the loan payable to the U.S. Department of Agriculture during 2012 and 2011. Murray State College Foundation is the sole member of Murray State College Foundation Student Housing, L.L.C. and is also a component unit of Murray State College.

NOTE 5 – SUBSEQUENT EVENTS

Subsequent events have been evaluated through September 26, 2012 which is the date the financial statements were available for distribution.

that Could have a Direct and Material Effect on Each Major Program
and on Internal Control over Compliance in Accordance with OMB Circular
A-133 and the Schedule of Expenditures of Federal Awards**

Board of Regents
Murray State College
Tishomingo, Oklahoma

Compliance

We have audited Murray State College's (the College) compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2012. The College's major federal programs are identified in the summary of auditors' results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the College's management. Our responsibility is to express an opinion on the compliance of the College based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the College's compliance with those requirements, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the College's compliance with those requirements.

In our opinion, Murray State College complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2012.

4500 S. Garnett, Ste. 800
Tulsa, OK 74146

FAX: 918.492.4443
www.SBAdvisors.com

Internal Control over Compliance

The management of Murray State College is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered Murray State College's internal control over compliance with requirements that could have a direct and material effect on a major federal program as a basis for designing our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Murray State College's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

Schedule of Expenditures of Federal Awards

We have audited the basic financial statements of Murray State College as of and for the year ended June 30, 2012, and have issued our report thereon dated October 24, 2012. Our audit was performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended solely for the use of the Board of Regents, management, and federal awarding agencies and pass-through entities and is not intended to be, and should not be, used by anyone other than these specified parties.

No matters are reportable.

Findings Required to be Reported by OMB Circular A-133

No matters are reportable.

Murray State College
Summary Schedule of Prior Audit Findings
Year Ended June 30, 2012

Finding 2011-1

Condition

The College did not reconcile the clearing account on a monthly basis. Additionally, reconciling items on the College's bank reconciliation are not being cleared and proper adjustments made to the accounting records.

Criteria

The College should have policies and procedures in place that maintain accurate accounting records. This includes reconciling all bank accounts monthly and making necessary adjustments timely.

Cause

The reconciling items listed on the monthly bank reconciling are not being addressed timely and required adjustments are not being made timely. Additionally, the agency clearing account is not being reconciled monthly.

Management Comment

Management agrees with the finding and stated that they will institute the necessary review procedures to ensure all accounts are reconciled and any necessary adjustments made on the accounting records timely.

Recommendation

To have controls and staff in place to reconcile the bank accounts on a monthly basis and to make the necessary adjustments as needed to keep the books current.

Status

The College has fully implemented the auditors' recommendation and put in place internal controls that will require the monthly reconciliations and review processes.
