## **INDEPENDENT AUDITORS' REPORT**

To the Commissioners  
Metropolitan Library System  
Oklahoma City, Oklahoma

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Metropolitan Library System (the "Library") as of and for the years ended June 30, 2012 and 2011, which collectively comprise the Library's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Library's management. Our responsibility is to express opinions on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Library as of June 30, 2012 and 2011, and the respective changes in financial position and, where applicable, cash flows thereof, for the years then ended in conformity with accounting principles generally accepted in the United States.

As more fully described in Note 1, the 2011 financial statements have been restated to reflect the assets of the Defined Contribution Fund and the related changes in net assets of the Defined Contribution Fund.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 12, 2012, on our consideration of the Library's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

(Continued)

**INDEPENDENT AUDITORS' REPORT, CONTINUED**

Accounting principles generally accepted in the United States require that the management's discussion and analysis on pages I-1 through I-7 and the schedule of funding progress for defined benefit pension plan and the budgetary comparison information on pages 48 through 53 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

## **MANAGEMENT’S DISCUSSION AND ANALYSIS**

This discussion and analysis of the financial performance of Metropolitan Library System (the “Library”) provides an overall review of the Library’s financial condition and results of operations for the fiscal years ended June 30, 2012 and 2011. Readers should read this information in conjunction with the Library’s financial statements.

### **FINANCIAL HIGHLIGHTS**

For the year ended June 30, 2012, the Library’s General Fund reported an ending balance of \$32,837,004, versus \$33,682,423 for the year ended June 30, 2011. The comparison reflects a decrease of \$845,419, or 2.5%, of the June 30, 2011, General Fund ending fund balance. Of the June 30, 2012, year-end totals, \$13,423,430 was unassigned, indicating that none had been restricted, committed, or assigned to specific purposes within the General Fund. Of the 2011 fiscal year-end totals, \$14,219,206 was unassigned, indicating that none had been restricted, committed, or assigned to specific purposes within the General Fund. For the year ended June 30, 2012, \$19,333,641 of the balance was assigned, with \$10,773,641 assigned to Library capital improvement projects and \$8,560,000 assigned to cash flow requirements. For the year ended June 30, 2011, \$19,171,370 of the balance was assigned, with \$11,771,370 assigned to Library capital improvement projects and \$7,400,000 assigned to cash flow requirements. Nonspendable totals for the years ended June 30, 2012 and 2011, were \$79,933 and \$291,847, respectively.

Over the years, the Library administration, with the Commission’s approval, has prudently used or committed the money from the assigned fund balances to alleviate summer cash flow problems and provide funds for capital improvement projects. The Library does not have legal authority to raise tax dollars for capital improvement projects through bond issues as most other local government entities do. Therefore, the money in the assigned fund balances provides opportunities for the Library to improve and maintain its facilities.

### **OVERVIEW OF THE FINANCIAL STATEMENTS**

This annual report consists of three parts—management’s discussion and analysis, the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the Library:

The first statements are *government-wide financial statements* that provide information about the Library’s overall financial status.

The remaining statements are *fund financial statements* that focus on individual parts of the Library, reporting the Library’s operations in more detail than the Library-wide statements. The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the Library’s budget for the year.

## **MANAGEMENT’S DISCUSSION AND ANALYSIS, CONTINUED**

### **OVERVIEW OF THE FINANCIAL STATEMENTS, CONTINUED**

The Library has three kinds of funds—governmental funds, proprietary funds, and fiduciary funds.

Governmental funds encompass two funds: the General Fund and the Gifts and Grants Fund.

*General Fund:* Represents unrestricted resources that are available for ongoing general library operations. This is the Library’s primary operating fund. It includes income from special services, such as copy services, lost book fees, overdue book fines, and other miscellaneous services.

*Gifts and Grants Fund:* Includes all gifts and grants. Gifts and grants include funds provided by intergovernmental grants and other third parties’ gifts and grants. All of these funds are generally restricted as to use. Therefore, each fund accounts for its receipts and disbursements of the restricted functions.

The proprietary fund is the Library’s insurance fund, an internal service fund. The insurance fund is used to maintain the Library’s health and dental self-insurance plan.

Fiduciary funds are reported in the fiduciary fund financial statements but are excluded from government-wide reporting. They include the Pension Fund, the Flex Benefit Fund, and the Defined Contribution Fund. Fiduciary fund financial statements report assets that cannot be used to fund the Library’s general operations.

### **Notes to the Financial Statements**

The accompanying notes to the financial statements provide information essential to a full understanding of the Library’s financial statements.

### **Supplementary Information**

In addition to the basic financial statements and accompanying notes, this report presents certain required supplementary information, such as a comparative statement between budgeted and actual resources and appropriations, and the schedule of funding progress for defined benefit pension plan.

## MANAGEMENT'S DISCUSSION AND ANALYSIS, CONTINUED

### FINANCIAL ANALYSIS OF THE LIBRARY'S FUNDS

As financial information is accumulated on a continuous and consistent basis, financial statements and expenditure reports for governmental funds are presented to the Library Commission each month for its acknowledgement.

For the year ended June 30, 2012, governmental fund balances changed as follows:

	General Fund	Gifts and Grants Fund	Total Governmental Funds
Revenues	\$ 32,039,522	233,771	32,273,293
Expenditures	<u>(32,884,941)</u>	<u>(349,793)</u>	<u>(33,234,734)</u>
Net decrease	<u>\$ (845,419)</u>	<u>(116,022)</u>	<u>(961,441)</u>

For the year ended June 30, 2011, governmental fund balances changed as follows:

	General Fund	Gifts and Grants Fund	Total Governmental Funds
Revenues	\$ 31,548,787	323,069	31,871,856
Expenditures	<u>(28,816,538)</u>	<u>(246,929)</u>	<u>(29,063,467)</u>
Net increase	<u>\$ 2,732,249</u>	<u>76,140</u>	<u>2,808,389</u>

#### **General Fund:**

The Library is primarily funded by a 5.2 mill ad valorem (property) tax. For the year ended June 30, 2012, the County's assessed property value had an increase of 1.9% versus 2.6% for the year ended June 30, 2011. Actual tax collections increased 3.3% for the year ended June 30, 2012, over the year ended June 30, 2011, as compared to a 4.3% increase in the year ended June 30, 2011, over the previous year. Interest income for the Library decreased to \$423,159 in the year ended June 30, 2012, from \$494,174 in the year ended June 30, 2011. The decrease was due to lower interest rates.

Major expenditure categories were all higher in 2012 than 2011, showing an overall increase of \$4,068,403, or 14.1%. Within categories, personal services increased 9.1%, above the previous year's increase of 8.2%. Maintenance and operations expenses increased, totaling a 10.9% change. Capital outlays increased 31.4%. All of these expenses increased because of a significant increase in services, including the opening of the new Northwest Library, as large as any in the System, and an increase operating hours at numerous locations, including Sunday openings at all 13 major libraries, versus just 5 that were open on Sunday previously.

**MANAGEMENT’S DISCUSSION AND ANALYSIS, CONTINUED**

**FINANCIAL ANALYSIS OF THE LIBRARY’S FUNDS, CONTINUED**

**Gifts and Grants Fund:**

During the years ended June 30, 2012 and 2011, \$233,771 and \$323,069, respectively, of gifts and grants funds were received. For the year ended June 30, 2012, the largest contributor to the Library was the Friends of the Metropolitan Library System (the “Friends”), which gave 16 grants for various Library activities with a total amount of \$152,742. For the year ended June 30, 2011, the largest contributors were the Friends, which gave 18 grants totaling \$166,090, and the Library Endowment Trust, which gave 12 grants totaling \$122,274. Other major grantors for the fiscal year ended June 30, 2012, included the Midwest City Memorial Hospital (\$25,000), Sonic (\$25,000), the Oklahoma Arts Council, and the Oklahoma Department of Libraries.

**Proprietary Fund:**

<u>Insurance Fund</u>	<u>2012</u>	<u>2011</u>
Revenues	\$ 2,697,351	2,043,247
Expenses	<u>(2,467,216)</u>	<u>(1,874,831)</u>
Net increase	<u>\$ 230,135</u>	<u>168,416</u>

The total insurance premium contributed by both the employer and the employees to this fund was \$2,282,459 in the year ended June 30, 2012, versus \$1,893,888 in the year ended June 30, 2011. Claims paid for 2012 were \$2,467,216 and for 2011 were \$1,874,831.

**GENERAL FUND BUDGETARY HIGHLIGHTS**

The General Fund budget for the year ended June 30, 2012, was \$59,253,623, an increase of \$1,527,425, or 2.6%, over the June 30, 2011, budget of \$57,726,198. The biggest contributors to the increase in the year ended June 30, 2012, budget over the previous year were an ad valorem tax increase of 2.6% and a carryover from the previous year’s budget.

**MANAGEMENT’S DISCUSSION AND ANALYSIS, CONTINUED**

**GENERAL FUND BUDGETARY HIGHLIGHTS, CONTINUED**

Actual results compared to budgeted results were as follows:

<u>Revenues</u>	<u>2012</u>	
	<u>Budgeted</u>	<u>Actual on a Budgeted Basis</u>
Revenues/inflows	\$ 28,028,102	31,957,876
Expenditures/outflows	\$ 39,919,982	33,067,552

<u>Revenues</u>	<u>2011</u>	
	<u>Budgeted</u>	<u>Actual on a Budgeted Basis</u>
Revenues/inflows	\$ 27,384,442	31,333,583
Expenditures/outflows	\$ 38,554,828	30,741,082

**CAPITAL ASSETS AND LONG-TERM DEBT**

The Library’s investment in depreciable capital assets, net of accumulated depreciation, at June 30, 2012, was \$15,048,899, and at June 30, 2011, was \$14,109,439. Of the total depreciable capital assets at June 30, 2012, 52% consisted of furniture, equipment, vehicles, and buildings, while the remaining 48% consisted of books and materials. The previous year, those percentages were 48% and 52%, respectively. Nondepreciable assets at June 30, 2012 and 2011, represented land owned by the Library in the amount of \$315,571.

The Library has no long-term debt.

**ECONOMIC ENVIRONMENT AND NEXT YEAR’S BUDGET**

The Library’s primary revenue is ad valorem (property) tax. Barring a voter-approved change in the mill levy, the annual growth in the Oklahoma County’s property values is the most important factor in the Library’s revenue outlook. Currently, the Library collects 5.2 mills of the assessed property values. With voters’ approval, the number of mills could increase to 6.21 mills.

In 1996, state voters approved State Question 676. This state question, with certain exceptions, put a 5% limitation on the growth of real estate value each year. That has impacted the annual growth of the Library’s tax revenue. In November of 2012, another state question will be voted, this time asking whether to lower the 5% limitation to 3%, which could further have a detrimental impact on the Library’s funding.

## **MANAGEMENT'S DISCUSSION AND ANALYSIS, CONTINUED**

### **ECONOMIC ENVIRONMENT AND NEXT YEAR'S BUDGET, CONTINUED**

In general, the Library expects a small growth in the tax revenue for the next year. The County Assessor has certified a 1.91% growth in property values for fiscal year ended June 30, 2013, as opposed to 2.60% in the year ended June 30, 2012. Investment income is expected to remain flat. Real estate prices have cooled, but new construction and population growth continue, so, while tax revenues may not rise significantly, the Library does expect continued, small growth in revenue for the foreseeable future.

For the year ended June 30, 2013, the Board of Commissioners has approved a General Fund budget of \$58,706,351, versus \$59,253,623 for the year ended June 30, 2012. Of the total budget amount for the year ended June 30, 2013, \$36,748,768 is for operating costs, \$5,828,633 is for capital projects, and \$16,128,950 is for other assigned funds. Of the total budget for the year ended June 30, 2012, \$36,694,019 was for operating costs, \$3,225,963 was for capital projects, and \$19,333,641 was for other assigned funds.

Compensated absences are not considered to be expenditures in the governmental funds. They are, however, recorded as expenses in the statements of activities.	(20,117)	(40,062)
Because some property taxes will not be collected for several months after the Library's fiscal year ends, they are not considered as "available" revenues in the governmental funds and are instead counted as deferred revenues. They are, however, recorded as revenues in the statements of activities.	(497,415)	(167,504)
Uncollectible property taxes receivable that have been written-off are not considered to be revenues in the governmental funds. They are, however, recorded as a reduction of recognized revenue in the statements of activities.	(293,126)	(1,015,626)
Due to the timing difference, insurance expense was recognized in the statements of activities in the prior year and was reduced from current year expenditures.	-	(39,157)

## NOTES TO FINANCIAL STATEMENTS

**June 30, 2012 and 2011**

---

### (1) **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The Metropolitan Library System's (the "Library") financial statements are prepared in accordance with generally accepted accounting principles promulgated by the Governmental Accounting Standards Board (GASB). In the government-wide financial statements and the fund financial statements for proprietary funds, Financial Accounting Standards Board (FASB) pronouncements, Accounting Principles Board (APB) opinions, and Accounting Research Bulletins of the American Institute of Certified Public Accountants' (AICPA) Committee on Accounting Procedures issued on or before November 30, 1989, have been applied unless those pronouncements conflict with or contradict GASB pronouncements, in which case, GASB prevails.

#### **Reporting Entity**

The Library is a corporate body for public purposes created under Title 65 of the Oklahoma Statutes and accordingly is a separate entity for operating and financial reporting purposes. There are no component units included within the reporting entity.

Under the Oklahoma Metropolitan Library Act (the "Act"), the Library is governed by the Metropolitan Library Commission of Oklahoma County (the "Commission"). Effective July 31, 2007, Section 554 of the Act was amended, increasing the number of Commission voting members from 19 to 27. Commission members include: 13 voting members who are appointees of the City of Oklahoma City; 1 voting member who is an appointee of the Oklahoma County Commissioners; 1 voting member each from the cities of Bethany, Choctaw, Del City, Edmond, Harrah, Jones, Luther, Midwest City, Nicoma Park, the Village, and Warr Acres; and 2 ex-officio members—the Mayor of Oklahoma City and the Chairman of the Oklahoma County Commissioners, for a total of 27 voting members. The Commission also includes one nonvoting member, the Librarian, who conducts Library operations.

#### **Basis of Presentation**

The Library's basic financial statements include both government-wide (reporting the Library as a whole) and fund financial statements (reporting the Library's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business type. The Library does not have any activities classified as business-type activities. Internal Service Fund activity is eliminated in the fund financial statements to avoid "doubling up" revenues and expenses. Fiduciary funds are excluded from the government-wide and fund financial statements, but are reported separately in the fiduciary fund financial statements.

See Independent Auditors' Report.

## NOTES TO FINANCIAL STATEMENTS, CONTINUED

---

### (1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

#### Basis of Presentation, Continued

##### *Government-Wide Financial Statements*

In the government-wide statements of net assets, the Library's governmental activities are reported using the accrual basis of accounting. The Library's net assets are reported in three parts—invested in capital assets; restricted; and unrestricted. Revenues are recognized when earned and expenses are recognized when incurred.

The government-wide statements of activities report both the gross and net cost of each of the Library's programs and functions. The functions are also supported by general government revenues. The statements of activities reduce gross expenses (including depreciation) by related program revenues, operating grants and contributions, and capital grants and contributions. Program revenues must be directly associated with the function. Charges for services include charges and fees to customers for fines and charges for services provided. Operating grants include operating-specific and discretionary (either operating or capital) grants, while the capital grants column reflects capital-specific grants.

All interfund transactions between governmental funds and internal service funds are eliminated in the government-wide statements.

The net costs are normally covered by general revenue (property taxes, state aid, other taxes, etc.).

The government-wide focus is more on the sustainability of the Library as an entity and the changes in the Library's net assets resulting from the current year's activities.

##### *Fund Financial Statements*

Fund financial statements report detailed information about the Library. The focus of governmental and proprietary fund financial statements is on major funds rather than reporting funds by type. Nonmajor funds, if any, are aggregated and presented in a single column.

All governmental funds are accounted for using the current financial resources measurement focus and the modified accrual basis of accounting. Under this basis, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or within 60 days after year-end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred.

See Independent Auditors' Report.

### (1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

#### Basis of Presentation, Continued

##### *Fund Financial Statements, Continued*

Proprietary funds are accounted for using the economic resources measurement focus and the accrual basis of accounting. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses result from providing services and producing and delivering goods in connection with the proprietary fund's principal ongoing operations. All other revenues and expenses are non-operating.

Fiduciary funds are accounted for using the economic resources measurement focus and the accrual basis of accounting, except for the recognition of certain liabilities of defined benefit pension plans. Employer and participant contributions are recognized in the period in which the contributions are due and the Library has made a formal commitment to provide the contributions. Retirement benefits and refunds are recognized when due and payable in accordance with the plan.

The Library reports the following major governmental funds:

#### General Fund:

The General Fund is the primary operating fund of the Library. It is used to account for all financial resources except those required to be accounted for in another fund.

#### Special Revenue Fund:

*Gifts and Grants Fund*—The Library accounts for resources received from various gifts and grants. These resources are restricted to, or designated for, specific purposes by a grantor.

Additionally, the Library reports the following fund types:

#### Proprietary Fund:

*Internal Service Fund*—Revenues and expenses related to services provided to the Library for employee insurance are accounted for in the internal service fund, the insurance fund.

#### Fiduciary Funds:

*Employee Benefit Trust Funds*—The Pension Fund, the Flex Benefit Fund, and the Defined Contribution Fund are used to report assets held in trust for members and beneficiaries of the plans, and the assets cannot be used to support the Library's operating programs.

See Independent Auditors' Report.

**NOTES TO FINANCIAL STATEMENTS, CONTINUED**

---

**(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED**

**Basis of Accounting**

Basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

Accrual

The government-wide financial statements are presented on the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements.

Revenues are recognized when earned and expenses are recognized when a liability is incurred. Property taxes are recognized as revenue in the year in which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Modified Accrual

The fund financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or within 60 days after year-end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt, if any, is recognized when due.

**Capital Assets**

Capital assets purchased or acquired with an original cost of \$500 or more and all books and materials are reported at historical cost or estimated historical cost. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

Buildings and improvements	30 years
Furniture and fixtures	7 years
Computer equipment	4 years
Vehicles	5 years
Books and materials	5 years

See Independent Auditors' Report.

#### Compensated Absences

The Library accrues accumulated unpaid annual leave when it has been earned by the employee. Generally, up to 75% of annual leave must be taken during the calendar year earned and compensated absences are reported as current liabilities. Eligible employees who end their employment with the Library are reimbursed for each day of accumulated annual leave.

#### Annual Budget

The Library is required by state law to prepare an annual budget. The Oklahoma County Excise Board formally approves an annual budget for the General Fund.

#### Cash

The Library considers all cash on-hand, demand deposits, money market checking, and certificates of deposit held at an individual bank which are subject to early withdrawal penalties, no matter what the maturity period, to be cash.

#### Investments

In accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*, investments held at June 30, 2012 and 2011, with original maturities greater than 1 year are stated at fair value.

#### Property Tax Revenues

The Library is authorized by state law to levy property taxes which consist of ad valorem taxes on real and personal property within Oklahoma County. The County Assessor, upon receipt of the certification of tax levies from the Oklahoma County Excise Board, extends the tax levies on the tax roll for submission to the County Treasurer prior to October 1. The County Treasurer must commence tax collection within 15 days of receipt of the tax rolls. The first half of taxes are due prior to January 1. The second half are due prior to April 1.

If the first payment is not made timely, the entire tax becomes due and payable on January 1. Second half taxes become delinquent on April 1 of the year following the year of assessment. If not paid by the following October 1, the property is offered for sale for the amount of taxes due. The owner has 2 years to redeem the property by paying the taxes and penalty owed. If at the end of 2 years the owner has not done so, the purchaser is issued a deed to the property. The Oklahoma County Assessor's Office bills and collects the property taxes and remits to the Library its share.

#### Property Taxes Receivable

Property taxes receivable by the Library include uncollected taxes assessed as of October 1, 2011 and 2010, and earlier. The Library considers prior years' experience in estimating uncollectible property taxes. An allowance of \$128,856 and \$199,709 was recorded as of June 30, 2012 and 2011, respectively. No provision has been made in the other funds for uncollectible amounts. All property taxes earned at year-end but not yet received are included in receivables reported on the government-wide statements. At June 30, 2012 and 2011, the Library wrote-off \$363,979 and \$1,015,626, respectively, of property taxes receivable as an uncollectible amount which related to the property taxes receivable of 2005 and earlier years. The write-off of \$363,979 in 2012 resulted in an increase to the allowance account of \$293,126 as all 2005 and prior years receivables were written off. In the fund financial statements, property taxes are recorded as revenue in the period levied to the extent they are collected within 60 days of year-end. Any remaining property taxes due are deferred until they become available.

#### State Revenues

The Library receives revenue from the State and the Oklahoma Department of Libraries to administer certain categorical library programs.

#### Interfund Transfers

During the course of normal operations, the Library has transactions between funds, including expenditures and transfers of resources to provide services and purchase assets. Transactions that are normal and recurring between funds are recorded as operating transfers.

Interfund transfers were used to transfer grant receipts from the Gifts and Grants Fund to the General Fund. For the purpose of the statements of activities, all interfund transfers between individual governmental funds have been eliminated.

#### Contributed Facilities and Services

The Library operates several branches located in government-owned buildings and receives certain services without charge. The estimated fair rental value of the premises and services is not reported in the accompanying statements of revenues, expenditures, and changes in fund balances.

See Independent Auditors' Report.

#### Grants

The Library records income from grants in the period received or to the extent of expenses paid prior to reimbursement by a grant.

#### Income Taxes

The Library was established under the provisions of the Oklahoma Constitution and as such is exempt from income taxes under the Internal Revenue Code as a unit of government.

#### Prepaid Expenses

The Library uses the consumption method to record prepaid expenses. Prepaid expenses are payments in advance of the receipt of goods or services in exchange transactions and are usually made for insurance and rent. Prepaid expenses are reported as financial resources at the time of prepayment, and expenditures for prepaid services are recognized when the related services are received. Included in prepaid expenses is \$25,000 paid by the Library to the Flex Benefit Fund, which the Flex Benefit Fund reflects a liability.

#### Restricted Resources

The Library records gifts and grants as restricted when the donor specifies a restriction on the timing or use of the gift or grant. Expenses are allocated first to the restricted resource. If additional expense is incurred, the expense is allocated to unrestricted funds when the restriction has been depleted.

#### Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

See Independent Auditors' Report.

### (1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

#### Equity Classification

##### *Government-Wide Financial Statements*

Equity is classified as net assets and displayed in three components:

- (a) Invested in capital assets—consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- (b) Restricted—consists of net assets with constraints placed on the use either by (i) external groups such as creditors, grantors, contributors, or laws or regulations of other governments, or (ii) law through constitutional provisions or enabling legislation.
- (c) Unrestricted—all other net assets that do not meet the definition of “restricted” or “invested in capital assets.”

It is the Library’s policy to first use restricted net assets prior to the use of unrestricted net assets when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

##### *Fund Statements*

Governmental fund equity is classified as fund balance. Fund balance is further classified as nonspendable, restricted, committed, assigned, and unassigned. The classifications are defined as:

- (a) Nonspendable fund balance—includes amounts that cannot be spent because they are either (i) not in spendable form or (ii) legally or contractually required to be maintained intact. This would include items not expected to be converted to cash, including prepaid expenses.

It is the responsibility of the Library’s Finance Director to identify and report all nonspendable funds appropriately in the Library’s financial statements.

- (b) Restricted fund balance—consists of amounts with constraints placed on the use of resources either (i) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or (ii) imposed by law through constitutional provisions or enabling legislation.

It is the responsibility of the Library’s Finance Director to identify and report all restricted funds appropriately in the Library’s financial statements. The Library has identified the Gifts and Grants Fund as a restricted fund balance.

See Independent Auditors’ Report.

### (1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

#### Equity Classification, Continued

##### *Fund Statements, Continued*

- (c) Committed fund balance—reflects specific purposes pursuant to constraints imposed by formal action of the Library’s highest level of decision-making authority. Also, such constraints can only be removed or changed by the same form of formal action.

For purposes of the committed fund balance, the Commission is considered the Library’s highest level of decision-making authority. Funds set aside by the Commission as committed fund balances require the passage of a resolution by a majority vote of the members of the Commission. The passage of such a resolution must take place prior to the Library’s fiscal year-end in order for it to be applicable to the Library’s fiscal year-end, although it is permitted for the specific amount of the commitment to be determined after the fiscal year-end if additional information is required in order to determine the exact amount to be committed. The Commission has the authority to remove or change the commitment of funds with a majority vote.

- (d) Assigned fund balance—reflects amounts that are constrained by the Library’s intent to be used for specific purposes, but meet neither the restricted nor committed forms of constraint. Assigned funds cannot cause a deficit in the unassigned fund balance.

For purposes of the assigned fund balance, the Commission is considered the Library’s highest level of decision-making authority. Any funds that the Finance Director assigns for specific purposes must be reported to the Commission at its next regular meeting. The assignment of funds shall be recorded in the Commission’s official meeting minutes.

- (e) Unassigned fund balance—is the residual classification for the General Fund only. Unassigned fund balance essentially consists of excess funds that have not been classified in the above four fund balance categories.

It is the Library’s policy to first use the restricted fund balance prior to the use of the unrestricted fund balance when an expense is incurred for purposes for which both restricted and unrestricted fund balances are available. The Library’s policy for the use of the unrestricted fund balance amounts require that committed amounts be reduced first, followed by assigned amounts and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

**Restatements of Prior Year Fiduciary Fund Financial Statements**

Effective August 29, 2005, the Library established the Metropolitan Library System Defined Contribution Plan (the "Contribution Plan"). In its prior financial statements, the Library did not report the Contribution Plan in its fiduciary fund, as management treated the Contribution Plan as an individual fund managed by a third party rather than as a fiduciary fund. In 2012, the Library determined that the Library was acting in a fiduciary capacity for the Contribution Plan. Therefore, the Library has restated its fiduciary fund to include the Contribution Plan in the fiduciary fund. Because the fiduciary fund cannot be used to support the Library's operating programs, restatement of the fiduciary fund had no effect on the government-wide financial statements, the governmental funds, or the proprietary fund.

The effects of these restatements on the June 30, 2011, financial statements were as follows:

	<u>Pension Fund</u>	<u>Flex Benefit Fund</u>	<u>Defined Contribution Fund</u>	<u>Total Fiduciary Funds</u>

#### Encumbrances

Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrance accounting is used, under which purchase orders, contracts, and other commitments for the expenditures of resources are recorded as expenditures of the applicable funds. This is an extension of the formal budgetary integration in the General Fund. Encumbrances do not represent any further constraint on the use of amounts than is already communicated by governmental fund balance classification as restricted, committed, or assigned. As of June 30, 2012 and 2011, approximately \$1,757,000 and \$1,453,000, respectively, of encumbrances were outstanding.

#### Recent Accounting Pronouncements

In December 2010, GASB issued Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements* (GASB 62). The objective of GASB 62 is to incorporate into the GASB's authoritative literature certain accounting and financial reporting guidance that is included in the following pronouncements issued on or before November 30, 1989, which does not conflict with or contradict GASB pronouncements:

1. Financial Accounting Standards Board (FASB) Statements and Interpretations
2. Accounting Principles Board Opinions
3. Accounting Research Bulletins of the American Institute of Certified Public Accountants' (AICPA) Committee on Accounting Procedures

The requirements in GASB 62 will improve financial reporting by contributing GASB's efforts to codify all sources of generally accepted accounting principles for state and local governments so that they derive from a single source. GASB 62 is effective for financial statements for periods beginning after December 15, 2011, with earlier application encouraged. The provisions of GASB 62 are required to be applied retroactively for all periods presented.

In June 2011, GASB issued Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* (GASB 63). The objective of GASB 63 is to provide guidance for reporting deferred outflows of resources, deferred inflows of resources, and net position in a statement of financial position and related disclosures. The pronouncement will improve financial reporting by standardizing the presentation of deferred outflows of resources and deferred inflows of resources and their effects on a government's net position. It alleviates uncertainty about reporting those financial statement elements by providing guidance where none previously existed. The provisions of this statement are effective for financial statements for periods beginning after December 15, 2011. Earlier application is encouraged.

See Independent Auditors' Report.

#### Recent Accounting Pronouncements, Continued

In March 2012, GASB issued Statement No. 65, *Items Previously Reported as Assets and Liabilities* (GASB 65). The objective of GASB 65 is to establish accounting and financial reporting standards that reclassify certain items that were previously reported as assets or liabilities as deferred outflows of resources or deferred inflows of resources; and recognize certain items that were previously reported as assets and liabilities as outflows of resources or inflows of resources. The provisions of this statement are effective for financial statements for periods beginning after December 15, 2012. Earlier application is encouraged.

In June 2012, GASB issued Statement No. 67, *Financial Reporting for Pension Plans* (GASB 67). GASB 67 addresses reporting by pension plans that administer benefits for governments and outlines basic framework for the separately issued financial reports of defined benefit pension plans, and details note disclosure requirements for defined benefit and defined contribution pension plans. This statement is effective for financial statements for periods beginning after June 15, 2013.

In June 2012, GASB issued Statement No. 68, *Accounting and Financial Reporting for Pensions* (GASB 68). The primary objective of GASB 68 is to improve accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. GASB 68 establishes standards for measuring and recognizing liabilities, deferred outflows of resources, deferred inflows of resources, and expenses/expenditures. This statement is effective for financial statements for periods beginning after June 15, 2014.

#### Date of Management's Review of Subsequent Events

Management has evaluated subsequent events through October 12, 2012, the date which the financial statements were available to be issued, and determined that no subsequent events have occurred that require adjustment to or disclosure in the financial statements.

### (2) CASH AND INVESTMENTS

The Library's investment policies are governed by State statutes. Permissible investments include direct obligations of the U.S. government and agencies; negotiable certificates of deposit of savings and loan associations and bank and trust companies; and savings accounts or savings certificates of savings and loan associations and trust companies. Non-negotiable certificates of deposit are considered to be cash equivalents. Collateral is required for demand deposits and certificates of deposit on all amounts not covered by Federal Deposit Insurance Corporation insurance.

#### Custodial Credit Risk

##### Custodial Credit Risk—Deposits

For deposits, custodial credit risk is the risk that in the event of the failure of a counterparty, the Library will not be able to recover the value of its deposits. Deposits are exposed to custodial credit risk if they are uninsured and uncollateralized. At June 30, 2012 and 2011, the carrying amount of the Library's cash and cash equivalents was \$15,166,562 and \$14,508,587, respectively, and the bank balances were \$15,616,930 and \$15,528,450, respectively. The difference in balances was primarily due to outstanding checks.

The fair value of investments pledged to secure deposits was approximately \$18,978,000 and \$9,305,000 at June 30, 2012 and 2011, respectively. The deposits were fully insured as of June 30, 2012. However, there was approximately \$4,149,000 of bank balances which were uninsured and uncollateralized as of June 30, 2011.

##### Custodial Credit Risk—Investments

Investments are made under the custody of the Library Treasurer in accordance with investment policies complying with State statutes and Library policy.

Custodial credit risk is the risk that, in the event of the failure of a counterparty, the Library will not be able to recover the value of its investments. Investment securities are exposed to custodial risk if they are uninsured, are not registered in the name of the Library, or are held by a counterparty or the counterparty's trust department but not in the name of the Library. While the investment policy does not specifically address custodial credit risk, all investments are insured and collateralized.

#### Interest Rate Risk and Credit Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Investments held for longer periods are subject to increased risk of adverse interest changes. Fixed-income securities are subject to credit risk. Credit quality rating is one method of assessing the ability of the issuer to meet its obligation. The following tables provide information concerning credit risk.

On March 28, 1983, the Commission appointed a Board of Administrators for the pension plan—the Library Retirement Pension Board (the “Pension Board”). The Pension Board has the responsibility for the management of the Pension Fund and has the responsibility for reviewing the pension plan and reporting on its status to the Commission annually. The Pension Board consists of the three officers of the Commission and three designated Library staff employees. Overall investment guidelines provide for diversification and allow investment in domestic and international equities, fixed-income securities, and cash equivalents.

The Pension Fund addresses custodial credit risk, with the policy providing for the engagement of a custodian who accepts possession of securities for safekeeping; collects and disburses income; collects principal of sold, matured, or called items; and provides periodic accounting to the Commission. At June 30, 2012 and 2011, the pension fund held \$21,466,215 and \$21,807,411, respectively, in cash, investments, and receivables. This amount was held by the investment counterparty, in the name of the pension plan.

Pursuant to the Prudent Investor Rule, Oklahoma statutes restrict Pension Fund investing.

*Custodial Credit Risk*—Custodial credit risk is the risk that in the event of the failure of a counterparty, the Library will not be able to recover the value of its investments. Investment securities are exposed to custodial credit risk if they are uninsured, are not registered in the name of the Library, or are held by a counterparty or the counterparty's trust department but not in the name of the Library. All cash, cash equivalents, and investments of the Pension Fund are insured and collateralized.

*Concentration of Credit Risk*—The investment policy limits the concentration of equity investments to no more than 5% in any one issuer.

*Custodial Credit Risk*—Custodial credit risk is the risk that in the event of the failure of a counterparty, the Library will not be able to recover the value of its investments. Investment securities are exposed to custodial credit risk if they are uninsured, are not registered in the name of the Library, or are held by a counterparty or the counterparty’s trust department but not in the name of the Library. While the trust agreement does not specifically address custodial credit risk, all investments are insured and collateralized.

*Concentration of Credit Risk*—Except as noted below, no single investment exceeds 5% of the Defined Contribution Fund’s total investments. The following table presents the individual investments exceeding the 5% threshold at June 30:

**(6) RETIREMENT PLANS**

**Defined Benefit Plan**

*Plan Description:* The Metropolitan Library System Pension Plan (the “Plan”) is a single-employer plan that covers some full-time employees of the Library. The Plan is a defined benefit plan which provides for retirement benefits based on length of service and salary. The Plan was amended effective January 1, 2008. This latest amendment lowered the vesting schedule from 5-year cliff vesting to 3 years. Death, early and late retirement, and deferred vested benefits are also available under the Plan. Assets of the Plan are held separately and may be used only for the payment of benefits to the members of the Plan. Actuarial valuations are performed annually on July 1.

The Plan’s membership consisted of the following as of June 30:

	<u>2012</u>	<u>2011</u>
Retirees, disabled participants, and beneficiaries		
currently receiving benefits	78	79
Terminated vested participants	11	11

#### (6) RETIREMENT PLANS, CONTINUED

##### Defined Benefit Plan, Continued

*Plan Description, Continued:* Effective August 29, 2005, the Plan was frozen and no new employees are eligible to participate. A defined contribution plan was established for new employees.

Benefit payments for the Plan are as follows:

- a) The normal monthly retirement benefit will be 2.5% of an employee's average monthly earnings multiplied by years of credited service up to a maximum of 32 years. "Average monthly earnings" means the average of the employee's highest 60 consecutive completed calendar months of employment by the Library.
- b) The early retirement benefit will be the greater of the actuarial equivalent of the employee's accrued benefit at normal retirement date or the aggregate value of the employee's participant contributions plus interest credited.
- c) The late retirement benefits will be greater of: 1) the normal retirement pension determined under the Plan, taking into account service and compensation credited after normal retirement age; or 2) the accrued benefit, determined as the later of normal retirement age or the end of the prior plan year, actuarially adjusted for late retirement.

*Funding Policy:* Participating employees contribute 4% of their compensation to the Plan. The Library contributes any additional amount necessary to fund normal cost and to amortize unfunded past service costs over a period of 30 years. The actuarial required contributions for 2012 and 2011 were \$1,114,433 and \$996,982, respectively, which equaled the annual pension cost for the years then ended. The actuarial required contribution for 2013 is \$1,074,744.

The Plan does not issue stand-alone financial statements and related required supplementary information. The information is included within these financial statements, notes to the financial statements, and the required supplementary information.

See Independent Auditors' Report.

**NOTES TO FINANCIAL STATEMENTS, CONTINUED**

**(6) RETIREMENT PLANS, CONTINUED**

**Defined Benefit Plan, Continued**

*Net Pension Obligation (Benefit) and Annual Pension Cost:* The required contribution is determined as part of the July 1<sup>st</sup> actuarial valuation using the aggregate actuarial cost method, which does not identify and separately amortize unfunded actuarial liabilities. The actuarial assumptions included:

	<u>2012</u>	<u>2011</u>
(a) Investment rate of return	7%	7%
(b) Projected salary increases	5%	5%
(c) Post-retirement increases	7%	7%
(d) Mortality	up 84	up 84

The Library has contributed the actuarially required contribution annually. As a result, there was no net pension obligation as of June 30, 2012 or 2011.

Three-year trend information is as follows:

<u>3-Year Trend Information</u>					
<u>Fiscal Year Ended</u>	<u>Annual Pension Cost (APC)</u>	<u>Percentage of APC Contributed</u>	<u>Valuation of Assets (A)</u>	<u>Present Value of Future Benefits (B)</u>	<u>Excess of Plan Assets Over Present Value of Future Benefits (A)-(B)</u>
2010	\$ 1,012,622	100.0%	17,969,796	15,821,962	2,147,834
2011	996,982	100.0%	21,807,411	16,945,742	4,861,669
2012	1,114,433	100.0%	21,466,216	18,078,488	3,387,728

See Independent Auditors' Report.

**METROPOLITAN LIBRARY SYSTEM**

**NOTES TO FINANCIAL STATEMENTS, CONTINUED**

**(6) RETIREMENT PLANS, CONTINUED**

**Defined Benefit Plan, Continued**

*Net Pension Obligation (Benefit) and Annual Pension Cost, Continued:* The funded status of the Plan as of July 1, 2012, the most recent actuarial valuation date, was as follows:

Actuarial Valuation Date	Actuarial Value of Assets (a)	Actuarial Liability (AAL) Entry Age (b)	Unfunded AAL (UAAL) (b-a)	Funded Ratio (a/b)	Covered Payroll (c)	UAAL as a Percentage of Covered Payroll [(b-a)/c]
July 1, 2012	\$ 21,868,195	26,808,086	4,939,891	82%	2,617,869	189%

For purposes of this schedule, the AAL for the Plan is determined using the entry age normal funding method. Note that the annual required contribution for the Plan is calculated using the aggregate actuarial cost method.

The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of the plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

**Defined Contribution Plan**

Effective August 29, 2005, the Metropolitan Library System Defined Contribution Plan (the "Contribution Plan") was established. The Contribution Plan is intended to be a governmental plan as defined in Internal Revenue Code Section 414(d), and is to be approved and qualified by the Internal Revenue Service as satisfying the governmental plan requirements of Sections 401(a) and 501(a) and other pertinent provisions of the Internal Revenue Code of 1986. Under the Contribution Plan, the employer's contribution shall be discretionary, to be determined by the employer, and is available to all participants. During 2012 and 2011, the Library contributed 10% of each participant's compensation. Participants are fully vested in the employer's contributions after 3 years. Participants may make voluntary contributions of 4% or 6% of compensation before tax. Participants are fully vested in the voluntary contributions. Participants may direct the Contribution Plan's trustee in the investment of their individual account balances. Normal retirement age is the later of a participant's 65<sup>th</sup> birthday or the 5<sup>th</sup> anniversary of the first day of the plan year in which participation in the Contribution Plan commenced. For the years ended June 30, 2012 and 2011, the Library's contribution to the Contribution Plan was \$796,612 and \$697,240, respectively.

See Independent Auditors' Report.

**(6) RETIREMENT PLANS, CONTINUED**

**Deferred Compensation Plan**

The Library offers its employees a Deferred Compensation Plan as authorized by Section 457 of the Internal Revenue Code, as amended by the Tax Reform Act of 1986, and in accordance with the provisions of Sections 1701 through 1706 of Title 74 of the Oklahoma Statutes.

The Deferred Compensation Plan is available to all Library employees. Employees may direct the investment of their contributions in available investment options offered by the Deferred Compensation Plan. All interest, dividends, and investment fees are allocated to employees' accounts. For the years ended June 30, 2012 and 2011, employee contributions to the Deferred Compensation Plan totaled \$187,011 and \$211,944, respectively.

**(7) SELF-INSURANCE RISK OF LOSS**

The Library operates a self-insurance plan to fund its employee health benefits. The Library purchased insurance policies to limit its maximum possible benefit cost on both an employee basis and an aggregate basis. The Library has a contract with a third-party administrator to operate the self-insurance plan. The Library has limited its risk of loss by purchasing insurance to pay an individual's claim in excess of \$60,000 per year. The stop-loss insurance increased to \$70,000 at July 1, 2012.

The carrying amount of liabilities for unpaid claims is equal to the amount of claims unpaid but due at year-end. This amount has been determined by the third-party administrator.

Changes in the claims liability amounts for the years ended June 30 were:

	<u>2012</u>	<u>2011</u>	<u>2010</u>
Balance, beginning of year	\$ 74,265	96,866	79,628
Current year claims	2,467,216	1,936,360	1,929,665
Claim payments	<u>(2,438,604)</u>	<u>(1,958,961)</u>	<u>(1,912,427)</u>
Balance, end of year	<u>\$ 102,877</u>	<u>74,265</u>	<u>96,866</u>

### (8) RISK MANAGEMENT

The Library is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors or omissions; or natural disasters for which the Library carries commercial insurance. There have been no significant reductions in coverage from the prior year, and settlements have not exceeded coverage in the past 3 years.

### (9) COMMITMENTS AND CONTINGENCIES

#### Operating Leases

On an ongoing basis, the Library leases 17 branch library buildings from the area cities and Oklahoma City. All of the branch buildings, except for the Del City library building, are leased for \$1 per year. The terms of the leases are for a period of 1 year and automatically renew each year for a total term of 10 years unless written notice is given by either party of its intent not to renew. The Library provides for all maintenance, utilities, repairs, and liability insurance for all leased buildings. The Del City library building is leased for \$400 per month. On occasion, the Library makes contributions towards the construction of a new library building. The purpose of the contribution is for the Library to have partial say in the design of the building since the design and construction of the building can affect the operations of the Library. During the year ended June 30, 2012, the Library made no such contribution. During the year ended June 30, 2011, the Library contributed \$93,500 to the Northwest Library building. This amount was recorded as an expenditure on both the government-wide financial statements and governmental fund financial statements.

During 2011, the Library leased a temporary facility to house one of its branch libraries, the Southern Oaks Library, while its permanent building underwent expansion and renovation. An escrow deposit of \$263,654 was required to be held as security for the rent payment and the performance of the Library in 2011, all of which was utilized through March 2012. The Southern Oaks Library lease renewed in 2012, and the Library pays \$4,948 on a month-to-month term.

Total lease and equipment rental expense for the year ended June 30, 2012 and 2011, was \$21,647 and \$49,552, respectively.

#### Legal

From time to time, the Library is involved in certain legal proceedings arising in the normal course of business. In the opinion of management and counsel, the ultimate disposition of such proceedings will not have a material effect on the Library's financial statements.

See Independent Auditors' Report.

The information presented in Schedule I and Schedule II was determined as part of an actuarial valuation by an independent enrolled actuary (Daily Access Corporation) at the dates indicated. Additional information as of the July 1, 2012, valuation follows:

Actuarial cost method:	Aggregate cost method
Amortization method:	None
Asset valuation method:	5-year smoothed market
	An expected actuarial value is equal to fair market value of assets less a decreasing fraction (4/5, 3/5, 2/5, and 1/5) of the gain or loss for each of the preceding four years, with gains being subtracted and losses being added. The gain or loss for a year is determined by calculating the difference between the expected value of the assets for the year and the fair market value of the assets at the valuation date. The expected value of the assets for the year is the fair market value of the assets at the valuation date of the prior year brought forward, with 7% interest to the valuation date for the current year, plus contributions minus benefit disbursements, all adjusted with 7% interest to the valuation date for the current year. The result will not exceed the corridor of 80% to 120% of fair market value.

Actuarial assumptions

Investment rate of return:	7%
Projected salary increases:	5%
Cost-of-living adjustment:	None

CONTINUED**

<i>Years Ended June 30,</i>	<i>2012</i>	<i>2011</i>
Budget-to-actual reconciliation:		
Revenues on a budgetary basis are based on cash received rather than the modified accrual basis used for financial reporting, and the Revolving Fund is not reported as part of the General Fund for budgetary purposes.	\$ 81,646 <sup>(1)</sup>	215,205 <sup>(3)</sup>
Encumbrances for supplies and equipment ordered but not received are reported in the year the order is placed for budgetary purposes, but in the year the supplies are received for financial reporting. In addition, the Revolving Fund is not reported as part of the General Fund for budgetary purposes. Reserves for future cash flow and improvement needs were included in the budgetary basis, but not in the GAAP basis.	<u>182,611</u> <sup>(2)</sup>	<u>1,924,544</u> <sup>(4)</sup>
Total budget-to-actual reconciliation	<u>\$ 264,257</u>	<u>2,139,749</u>

Note: Under the budgetary basis of accounting, revenues are recognized when they are received rather than when they are earned. Purchases of materials, outside services, and capital outlays are recognized as expenditures when the commitment to purchase is made (encumbered).

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND  
ON COMPLIANCE AND OTHER MATTERS BASED ON  
AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN  
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Commissioners  
Metropolitan Library System  
Oklahoma City, Oklahoma

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Metropolitan Library System (the “Library”) as of and for the year ended June 30, 2012, which collectively comprise the Library’s basic financial statements and have issued our report thereon dated October 12, 2012. Our report includes an explanatory paragraph disclaiming an opinion on management’s discussion and analysis and other required supplementary information. Our report also includes an explanatory paragraph noting that the 2011 financial statements were restated. We conducted our audit in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

**Internal Control Over Financial Reporting**

Management of the Library is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the Library’s internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Library’s internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Library’s internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Library’s financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND  
ON COMPLIANCE AND OTHER MATTERS BASED ON  
AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN  
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS, CONTINUED**

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Library's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the Commissioners, management, and state awarding agencies and is not intended to be and should not be used by anyone other than these specified parties.
