MANAGEMENT'S DISCUSSION AND ANALYSIS
(Unaudited)

For the Year Ended September 30, 2013

Our discussion and analysis of the Muskogee County Transit System's financial performance provides an overview of the Organization's financial activities for the fiscal year ended September 30, 2013. Please review it in conjunction with the Organization's basic financial statements which begin on page 7.

FINANCIAL HIGHLIGHTS

- Total net position experienced a decrease of 6.9% from 2012. (Table I)
- The Organization operates substantially all of its activities through federal, state and local funding. These grants and contracts totaled \$632,409 and accounted for approximately 41.8% of revenues.
- Revenues (\$1,513,316) decreased by \$28,789 (1.9%) (Table II).

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities (on pages 7 and 8) provide information about the activities of the Organization as a whole and present a longer-term view of the Organization's finances. Fund financial statements start on page 9. These statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the Organization's operations in more detail than the government-wide statements by providing information about the Organization's most financially significant funds. Currently, the Organization only utilizes one fund.

Reporting the Organization as a Whole

The Statement of Net Position and Statement of Activities

Our analysis of the Organization as a whole begins on page 2. One of the most important questions asked about the Organization's finances is "Is the Organization as a whole better off or worse as a result of the year's activities?" The Statement of Net Position and the Statement of Activities report information about the Organization as a whole and about its activities in a way that helps answer this question. These statements include all assets, deferred outflows, liabilities and deferred inflows using the accrual basis of accounting, which is similar to accounting used by most private-sector companies. Accrual of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the Organization's *net position* and changes in them. You can think of the Organization's net position, the difference between assets and deferred outflows, what the Organization owns, and liabilities and deferred inflows, what the Organization owes, as one way to measure the Organization's financial health, or *financial position*. Over time, increases or decreases in the Organization's net position are one indicator of whether its *financial health* is improving or deteriorating. You will need to consider other financial factors, however, such as changes in the Organization's funding arrangements with federal and state grantors, availability of funding for capital projects, and continuing local support.

MUSKOGEE COUNTY TRANSIT SYSTEM
Muskogee, Oklahoma

MANAGEMENT'S DISCUSSION AND ANALYSIS
(Unaudited)

For the Year Ended September 30, 2013

Reporting the Organization's Most Significant Funds

Fund Financial Statements

Major Fund
General Operating

Our analysis of the Organization's major funds is below.

The fund financial statements begin on page 9 and provide detailed information about the most significant fund as a whole. Funds are established to help control and manage money for particular purposes (ex. various grants and capital projects). The Organization has only one governmental fund.

Governmental Funds: The Organization's fund is reported in governmental funds, which focus on how money flows into and out of those funds and balances left at year-end that are available for spending. These funds are reported using an accounting method called *modified accrual* accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a *short-term view* of the Organization's operations and the services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the Organization's programs. We describe the relationship (or differences) between government activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in a reconciliation accompanying the fund financial statements.

Notes to the Financial Statements: The notes provide additional information that is essential to a full understanding of the data provided in the government wide and fund financial statements. The notes to the financial statements can be found on page 11 of this report.

THE ORGANIZATION AS A WHOLE

The Organization's total net position changed from a year ago, decreasing \$87,336 from \$1,260,732 in 2012 to \$1,173,396 during 2013. (Table 1).

Table I

Change in Net Position	<u>(87,336)</u>	<u>(99,779)</u>	<u>12,442</u>	<u>-12.5%</u>
Ending Net Position	<u>\$ 1,173,396</u>	<u>\$ 1,260,732</u>	<u>\$ (87,336)</u>	<u>-6.9%</u>

Overall, the organization had a 1.9% decrease in revenues and a 2.5% decrease in expenses, resulting in a 6.9% decrease in net position.

MUSKOGEE COUNTY TRANSIT SYSTEM
Muskogee, Oklahoma

MANAGEMENT'S DISCUSSION AND ANALYSIS
(Unaudited)

For the Year Ended September 30, 2013

BUDGET VS. ACTUAL RESULTS

The Organization does not operate under an organization-wide, legally-adopted budget. However, project budgets are adopted and approved by those federal and state agencies that provide funding for the various projects.

CAPITAL ASSETS

Capital assets represent buildings and equipment used by the Organization to fulfill its mission to provide public transportation services. See Note 8 (page 16) of the accompanying notes to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S PLAN

The Organization receives funding from the Federal Transit Administration and the Oklahoma Department of Transportation and anticipates consistent funding during the subsequent year. Efforts will be made to offset any potential decreases in funding at the local level. Additionally, the Organization expects demand for services to remain consistent with prior periods.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the Organization's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Ms. Faith Evans, Executive Director/CEO, P O Box 2973, Muskogee, OK 74402

INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees
Muskogee County Transit System

We have audited the accompanying financial statements of the governmental activities and the major fund of Muskogee County Transit System (a public trust), as of and for the year ended September 30, 2013, and the related notes to the financial statements, which collectively comprise Muskogee County Transit System's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and major fund of Muskogee County Transit System as of September 30, 2013, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis information on pages 1 through 4 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted budgetary comparison information that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Muskogee County Transit System's basic financial statements. The accompanying schedules of expenditures of federal and state awards are presented for purposes of additional analysis and are not a required part of the financial statements. The schedules of expenditures of federal and state awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedules of expenditures of federal and state awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated **Date.2 ** on our consideration of Muskogee County Transit System's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Muskogee County Transit System's internal control over financial reporting and compliance.

NOTES TO FINANCIAL STATEMENTS

MUSKOGEE COUNTY TRANSIT SYSTEM
Muskogee, Oklahoma

NOTES TO FINANCIAL STATEMENTS

For the Year Ended September 30, 2013

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. General Statement

The Organization's financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant accounting policies established in GAAP and used by the Organization are discussed below.

The financial statements include:

- ** A Management's Discussion and Analysis (MD&A) section providing an analysis of the Organization's overall financial position and results of operations.
- ** Financial statements prepared using full accrual accounting for all of the Organization's activities, including capital assets.

B. Reporting Entity

On October 1, 2008, Board of County Commissioners dba Muskogee County Transit System was changed from a component unit of Muskogee County to Muskogee County Transit System, a public trust.

The sole activity of the Organization is the provision of public transportation services. The Organization provides transportation services in Muskogee County, Oklahoma. The Organization operates a rural demand-response public transportation system, which serves the county listed above, as well as an urban fixed route system.

The accompanying statements of the Organization have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The financial statements include all organizations, activities, and functions that comprise the Organization. Component units are legally separate entities for which the Organization (the primary entity) is financially accountable. Financial accountability is defined as the ability to appoint a voting majority of the organization's governing body and either (1) the Organization's ability to impose its will over the organization or (2) the potential that the organization will provide a financial benefit to, or impose a financial burden on, the Organization. Using these criteria, the Organization has no component units.

C. Government-Wide and Fund Financial Statements

The Organization's basic financial statements include both government-wide (reporting the Organization as a whole) and fund financial statements (reporting the Organization's major fund).

MUSKOGEE COUNTY TRANSIT SYSTEM
Muskogee, Oklahoma

NOTES TO FINANCIAL STATEMENTS

For the Year Ended September 30, 2013

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Government-Wide

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the activities of the primary government.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include: 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Other items not properly included among program revenues are reported instead as *general revenues*.

This government-wide focus is more on the sustainability of the Organization as a whole, and the change in the Organization's net position resulting from current year activities.

Fund

The Organization uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The Organization only uses governmental funds.

Governmental funds are those through which most governmental functions typically are financed. Governmental funds reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purpose for which they may or must be used. The Organization's programs and services are funded primarily with federal and state grants.

The accompanying fund financial statements report the following major governmental funds:

General – This fund is the general operating fund of the Organization. It is used to account for all financial resources. It is currently the only fund utilized by the Organization.

The emphasis in fund financial statements is on the major governmental funds.

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

MUSKOGEE COUNTY TRANSIT SYSTEM
Muskogee, Oklahoma

NOTES TO FINANCIAL STATEMENTS

For the Year Ended September 30, 2013

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Government fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

Financial Statement Amounts

Grants and Entitlements – Interest associated with the current fiscal period are all considered susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered measurable and available only when the Organization received cash.

Fund Balance Classification – The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the Organization is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

- Non-spendable: This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact. Typically, items such as investments held for Resale, Inventories, and Prepaid Items are classified as being non-spendable as these items are not expected to be converted to cash or are not expected to be converted to cash within the short term. The Organization did not report non-spendable fund balances for the year ended September 30, 2013.
- Restricted: This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation. The organization did not report restricted fund balances for the year ended September 30, 2013.
- Committed: The classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the governing body of the Organization. These amounts cannot be used for any other purpose unless the Organization removes or changes the specified use by taking the same type of action that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements. The Organization did not report committed fund balances for the year ended September 30, 2013.
- Assigned: This classification includes amounts that are constrained by the Organization's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the Organization or through the governing body delegating this responsibility to the Organization manager through the budgetary process. This classification also includes the remaining positive fund balance for all governmental funds except for the General fund. The Organization did not report assigned fund balances for the year ended September 30, 2013.

MUSKOGEE COUNTY TRANSIT SYSTEM
Muskogee, Oklahoma

NOTES TO FINANCIAL STATEMENTS

For the Year Ended September 30, 2013

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

- Unassigned: This classification includes the residual fund balance for the General Fund. The Unassigned classification also includes negative residual fund balance of any other governmental fund that cannot be eliminated by offsetting of Assigned fund balance amounts.

The Organization would typically use restricted fund balances first, followed by committed resources, and then assigned resources, as appropriate opportunities arise, but reserves the right to selectively spend unassigned resources first to defer the use of these other classified funds.

Revenues – Exchange and Non-Exchange Transactions – Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year.

Non-exchange transactions, in which the Organization receives value without directly giving value in return, includes grants and donations. On an accrual basis, revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the Organization must provide local resources to be used for a specific purpose, and expenditure requirements, in which the resources are provided to the Organization on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must be available before it can be recognized.

Expenses/Expenditures – On an accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decrease in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable.

Cash and Cash Equivalents – Cash and cash equivalents consist of demand deposits maintained at financial institutions insured by the Federal Deposit Insurance Corporation (FDIC). Deposits are carried at cost. The Organization's cash is managed and maintained as part of the Muskogee County's bank account.

Capital Assets – Muskogee County Transit System follows the practice of capitalizing all major expenditures for land, buildings, equipment, and leasehold improvements. Such assets are recorded at cost, or if acquired by gift, at fair value at date of receipt. Depreciation is provided over the estimated useful lives of the assets on a straight-line basis which is in conformity with accounting principles generally accepted in the United States of America. The lives generally used are as follows:

Buildings	30 Years
Equipment	5-7 Years
Buses and Trolleys	7-10 Years

MUSKOGEE COUNTY TRANSIT SYSTEM
Muskogee, Oklahoma

NOTES TO FINANCIAL STATEMENTS

For the Year Ended September 30, 2013

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Deferred Outflows of Resources – The Organization reports decreases in net position that relate to future periods as deferred outflows of resources in a separate section of its government-wide statement of net position. No deferred outflows of resources affect the financial statements in the current year.

Deferred Inflows of Resources – The Organization's governmental funds report a separate section for deferred inflows of resources. This separate financial statement element reflects an increase in net position that applies to a future period. The organization will not recognize the related revenues until a future event occurs. No deferred inflows of resources affect the financial statement in the current year.

E. Budgeting – Muskogee County Transit System does not operate under an organization-wide legally-adopted budget. Therefore, budgetary comparison information has not been included. However, individual projects and grants are required to operate within budget constraints. Budget to actual results are closely monitored.

NOTE 2: COMPENSATED ABSENCES

The Organization accrues a liability for compensated absences. Full-time employees accrue 160 hours for 1 to 5 years of service and 200 hours for 6 plus years of service. Part-time employees accrue 80 hours for 1-5 years of service and 100 hours for 6 plus years of service. Only 80 hours will carry over to the following year and only 200 hours will be paid upon voluntary termination. Compensated absences payable in one year at September 30, 2013 totaled \$43,473.

NOTE 3: ESTIMATES

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

NOTE 4: NET POSITION

Net position presents the difference between assets and deferred outflows, and liabilities and deferred inflows, in the statement of net position. Net investment in capital assets is reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are legal limitations imposed on their use. There were no restrictions on ending net position at September 30, 2013

NOTE 5: ECONOMIC DEPENDENCY

The Organization receives a significant portion of its revenue from funds provided through federal and state grants. These amounts are all appropriated each year by the federal and state governments. If significant budget cuts are made at the federal and/or state level, the amount of the funds received could be reduced significantly and have an adverse impact on its operations. Federal and state grant revenues comprised approximately 42% of the Organization's revenues for the year.

Muskogee, Oklahoma

NOTES TO FINANCIAL STATEMENTS

For the Year Ended September 30, 2013

NOTE 6: RISK MANAGEMENT

The Organization is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors and omissions; injuries to employees; and natural disasters. During the year ended September 30, 2013, the Organization carried insurance through various commercial carriers to cover all risks of losses. The Organization had no settled claims resulting from these risks that exceeded its commercial coverage during the year.

NOTE 7: CONTINGENT LIABILITIES

As noted above, the Organization participates in a number of federal and state assisted programs. These programs are audited in accordance with *Government Auditing Standards* and the *Single Audit Act Amendments of 1996*, if applicable. Audits of prior years have not resulted in any significant disallowed costs; however, grantor agencies may provide for further examinations. Based on prior experience, management believes that further examinations would not result in any significant allowed costs.

NOTE 8: FIXED ASSETS

Activity for the Organization for the year ended September 30, 2013 was as follows:

	General Operating			
	Balance			Balance
	<u>09/30/12</u>	<u>Additions</u>	<u>Dispositions</u>	<u>09/30/13</u>
Buildings	\$ 425,000	\$ 0	\$ 0	\$ 425,000
Buses and Trolleys	<u>1,610,476</u>	<u>0</u>	<u>0</u>	<u>1,610,476</u>
Total Fixed Assets	2,035,476	0	0	2,035,476
Accumulated Depreciation	(981,033)	(190,408)	0	(1,171,441)
Net Fixed Assets	\$ <u>1,054,443</u>	\$ (190,408)	\$ <u>0</u>	\$ <u>864,035</u>

Depreciation expense recorded on the Statement of Activities totaled \$190,408 for the year ended September 30, 2013. The Oklahoma Department of Transportation holds liens on most of the Organization's buses and trolleys.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Trustees
Muskogee County Transit System

We have audited the financial statements of the governmental activities and major fund of Muskogee County Transit System as of and for the year ended September 30, 2013, which collectively comprise Muskogee County Transit System's basic financial statements and have issued our report thereon dated August 18, 2014. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States of America.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Muskogee County Transit System's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Muskogee County Transit System's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Muskogee County Transit System's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Muskogee County Transit System's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The purpose of this report is solely to describe the scope of our testing of internal control over financial reporting and compliance with applicable provisions of laws, regulations, contracts, and grant agreements and the results of our testing, and to provide an opinion on Muskogee County Transit System's compliance but not to provide an opinion on the effectiveness of Muskogee County Transit System's internal control over compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Muskogee County Transit System's compliance and its internal control over compliance. Accordingly, this report is not suitable for any other purpose.

A handwritten signature in black ink that reads "Saunders & Associates PLLC". The signature is written in a cursive, flowing style.
