Management's Responsibility for the Financial Statements

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies employed by Washington County Rural Water District #5 (the District) are consistent with accounting principles generally accepted in the United States of America. Significant polices are described below.

In June 1999, the GASB issued Statement No. 34, Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments. The statement established a new reporting model for governments that is substantially different from prior reporting standards. The District adopted the new reporting model September 30, 2004, which includes the following segments:

Management's Discussion & Analysis - provides introductory information on basic financial statements and an analytical overview of the District's financial activities. For the year ended September 30, 2013, management has not presented the Management's Discussion and Analysis as required by the Governmental Accounting Standards Board (GASB) and GASB has determined it necessary to supplement, although not required to be part of, the basic financial statements.

Fund financial statements - provide information about the District's proprietary fund. The proprietary fund utilizes the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. The proprietary fund utilizes an "economic resources" measurement The accounting objectives of this measurement focus are focus. the determination of net income, financial position and cash All assets and liabilities (whether current or nonflows. current) associated with their activities are reported. Proprietary fund equity is classified as net assets.

A. The Reporting Entity:

The District, incorporated February 2, 1978, is a corporation organized as a not for profit corporation pursuant to Title 18 of Oklahoma Statute, for the purpose of providing water service for its customers in and around Washington County, Oklahoma. The District is managed by a board of directions elected by its members. Members of the board are elected by the membership of the District at its annual meetings. Membership in the District is attained by purchasing membership units. The activities of the District constitute the entire reporting entity. There are no other component or oversight units.

B. Basis of Accounting:

The financial statements are presented on the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenditures are recorded when the liability is incurred.

C. Income Taxes:

The District is exempt from federal income tax under section 501(c)(12) of the Internal Revenue Code.

D. Estimates:

The preparation of financial statements in conformity with accounting principles generally in the United States requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

E. Cash and Cash Equivalents:

For purposes of the statement of cash flows, the District considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

F. Property, Plant and Equipment:

The District records capital assets at historical cost or estimated fair value on the date of donation of donated capital assets. Depreciation is recorded over the estimated useful life of the capital asset using the straight-line method, with onehalf year's depreciation in the year of acquisition.

G. Capitalization Policy:

Purchases of capital items in excess of \$350.00 that increase the capacity or operation efficiency or extend the useful life of any asset are capitalized. Repairs and maintenance are expensed as incurred.

H. Equity Classification:

Equity is classified as net position and displayed in three components:

 Net investment in capital assets - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings

that are attributable to the acquisition, construction, or improvements of those assets and adjusted for any deferred inflows and outflows of resources attributable to capital assets and related debt.

- Restricted Consists of restricted assets reduced by liabilities and deferred inflows or resources related to those assets, with restriction constraints placed on the use either by (a) external groups such as creditors, grantors, contributors, or laws and regulations of other governments; or (b) law through constitutional provisions or enabling legislation.
- 3. Unrestricted Net amount of assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position.

It is the District's policy to first use restricted net resources prior to the use of unrestricted net resources when an expense is incurred for purposes for which both restricted and unrestricted net resources are available.

I. Revenues, Expenditures & Expenses

Operating revenues and expenses for proprietary funds result from providing services and producing and delivering goods and/or services. They also include all revenues and expenses not related to capital and related financing, noncapital financing, or investing activities.

J. Compensated Absences

The District has not reported a liability for the estimated amounts of compensation for future absences. The amount is not known but it is not believed to be material.

K. Memorandum Totals

The "memorandum only" captions above the total columns mean that totals are presented for overview information purposes only.

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

As a local government unit, the District is subject to various federal, state, and local laws and contractual regulations. In accordance with Government Auditing Standards, the auditor has issued a report on his consideration of the District's internal control over financial reporting and tested its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in compliance with Government Auditing Standards and

should be read in conjunction with this report in considering the results of the audit.

Finance-related Legal & Contractual Provisions

The District does not have any long-term debt agreements which would have budgetary or reserve requirements.

Deficit Fund Balance or Retained Earnings

As indicated in the financial statements, there are no fund balance or retained earnings deficits for the District for this fiscal year.

NOTE 3 - CUSTODIAL CREDIT RISK RELATED TO DEPOSITS

Custodial Credit Risk

At September 30, 2013, the District held deposits of approximately \$234,068 at financial institutions. The District's cash deposits, including interest-bearing certificates of deposit are covered by Federal Depository Insurance (FDIC) or direct obligation of the U.S. Government insured or collateralized with securities held by the District or by its agent in the District's name.

Investment Interest Rate Risk

The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Investment Credit Risk

The District has no policy that limits its investment choices other than the limitation of state law as follows:

- a. Direct obligations of the U.S. Government, its agencies and instrumentalities to which the full faith and credit of the U.S. Government is pledged, or obligations to the payment of which the full faith and credit of the State is pledged.
- b. Certificates of deposits or savings accounts that are either insured or secured with acceptable collateral with in-state financial institutions, and fully insured certificates of deposit or savings accounts in out-of-state financial institutions.
- c. With certain limitation, negotiable certificates of deposit, prime bankers' acceptances, prime commercial paper and repurchase agreements with certain limitations.
- d. County, municipal or school district tax supported debt obligations, bond or revenue anticipation notes, money judgments, or bond or revenue anticipation notes of public trusts whose beneficiary is a county, municipality or school district.

- e. Notes or bonds secured by mortgage or trust deed insured by the Federal Housing Administrator and debentures issued by the Federal Housing Administrator, and in obligations of the National Mortgage Association.
