Independent Auditor's Report

To the Board of Trustees  
Town of Fargo, Oklahoma

**Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Town of Fargo, as of and for the years ended June 30, 2014 and 2013, and the related notes to the financial statements, which collectively comprise Town of Fargo's basic financial statements as listed in the table of contents.

***Management's Responsibility for the Financial Statements***

Town of Fargo's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

***Auditor's Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### ***Opinions***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Town of Fargo , as of June 30, 2014 and 2013, and the respective changes in financial position and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

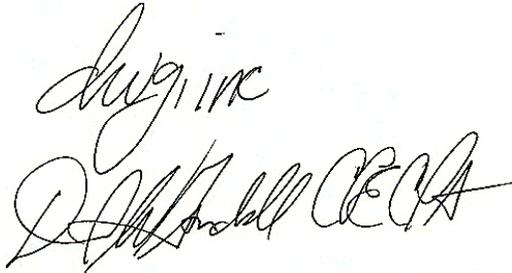

### ***Other Matters***

#### *Required Supplementary Information*

The board of trustees and management of the Town of Fargo have omitted management's discussion and analysis and budgetary comparison information that accounting principles generally accepted in the United States of America is required to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated August 26, 2015 on our consideration of Town of Fargo's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Town of Fargo's internal control over financial reporting and compliance.

The accompanying notes are an integral part of these financial statements.

**Note 1 - Summary of Significant Accounting Policies**

Financial Reporting Entity

The Town of Fargo, Oklahoma is a statutory town government under Oklahoma Statutes. The Town provides the following services: sanitation collection, water and sewer infrastructure.

The criteria used to determine which accounting entities, agencies, commissions, boards and authorities are part of the Town's operations include how the budget is adopted, whether debt is secured by general obligation of the Town, the Town's duty to cover any deficits that may occur, and supervision over the accounting functions. Any separate accounting entities would be considered component units. There are no agencies, organizations or activities meeting any of the above criteria that are excluded from the Town's reporting entity. As of June 30, 2014 and 2013, the City had one component unit: Fargo Utilities Authority.

Basis of Presentation - Fund Accounting

The accounting system is organized and operated on a fund basis. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations.

As of June 30, 2014 and 2013, the Town consisted of one governmental general fund. The proprietary fund consisted of the Fargo Utilities Authority.

Basis of Accounting

**GOVERNMENT-WIDE FINANCIAL STATEMENTS**

The statement of net position and the statement of activities display information about the Town, the primary government, as a whole. These statements distinguish between activities that are governmental and those that are considered business-type activities.

The government-wide statements are prepared using the economic resources measurement focus and the accrual basis of accounting. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Therefore, governmental fund financial statements include reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between expenses, both direct and indirect and program revenues for each segment of the business-type activities of the Town and for each governmental program. Direct expenses are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. Indirect expenses for centralized services and administrative overhead are allocated among programs, functions and segments using a full cost allocation approach and are presented separately to enhance comparability of direct expenses between governments that allocate direct expenses and those that do not. Program revenues include charges paid by the recipients of the goods or services offered by the programs and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program.

Revenues which are not classified as program revenues are presented as general revenues. The comparison of program revenues and expenses identifies the extent to which each program or business segment is self-financing or draws from the general revenues of the Town.

**FUND FINANCIAL STATEMENTS**

Fund financial statements report detailed information about the Town. The focus of governmental and enterprise fund financial statements is on major funds rather than reporting funds by type. Each major

**Note 1 - Summary of Significant Accounting Policies (continued)**

fund is presented in a separate column. Non-major funds are aggregated and presented in a single column.

**GOVERNMENTAL FUNDS**

All governmental funds are accounted for using modified accrual basis of accounting and the current financial resources measurement focus. Under this basis, revenues are recognized in the accounting period in which they become measurable and available. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable.

Revenue Recognition

In applying the susceptible to accrual concept under the modified accrual basis, the following revenue sources are deemed both measurable and available (i.e., collectible within the current year or within one month of year-end and available to pay obligations of the current period). This includes investment earnings, income taxes withheld by employers, estate taxes, fines and forfeitures and state-levied locally shared taxes (including motor vehicle fees). Reimbursement due for federally funded projects is accrued as revenue at the time the expenditures are made, or when received in advance, deferred until expenditures are made.

Other revenues, including licenses and permits, certain charges for services and miscellaneous income are recorded as revenue when received in cash because they are generally not measurable until actually received.

Expenditure Recognition

The measurement focus of governmental fund accounting is on decrease in net financial resources (expenditures) rather than expenses. Most expenditures are measurable and are recorded when the related fund liability is incurred. However, principal and interest on general long-term debt, which has not matured, are recognized when paid. Allocations of costs, such as depreciation and amortization, are not recognized in the governmental funds.

**PROPRIETARY FUNDS**

All proprietary funds are accounted for using the accrual basis of accounting. These funds account for operations that are primarily financed by user charges. The economic resource focus concerns determining costs as a means of maintaining the capital investment and management control. Their revenues are recognized when they are earned and their expenses are recognized when they are incurred. Allocation of costs of providing services, which include administrative expenses and depreciation, is recorded in proprietary funds. Other revenues and expenses are classified as non-operating in the financial statements. The proprietary funds use standards issued by the Financial Accounting Standard Board whenever possible. If no FASB ASC pronouncement is applicable then Government Accounting Standards Board pronouncements are used.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Town's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition. Restricted cash consists of meter deposits.

Property, Plant and Equipment

Fixed assets used in governmental fund type operations are accounted for in the Government Wide Financial statements and the Proprietary Fund Financial statements. Public domain (infrastructure) general fixed assets consisting of certain improvements other than buildings, such as roads, sidewalks, and bridges are not capitalized. Property, plant, and equipment acquired or constructed for general governmental operations are recorded as expenditures in the fund making the expenditure and capitalized at cost in the financial statements.

**Note 1 - Summary of Significant Accounting Policies (continued)**

Property, plant and equipment acquired for proprietary funds are capitalized at cost and depreciated over their estimated useful lives using the straight-line method of depreciation. Estimated useful lives have been estimated as follows:

|                       |               |
|-----------------------|---------------|
| Buildings             | 25 - 50 years |
| Machinery & equipment | 3 - 20 years  |

**Long-term Debt**

Long-term debt to be repaid from governmental funds is recorded in the general long-term debt account group. Long-term debt to be repaid from proprietary funds is recorded in the fund. The current portion of long-term debt to be repaid within one year is recorded in the fund.

**Accounts Payable**

The Town is responsible for outstanding obligations to vendors and others for operating materials, services or other charges.

**Encumbrances**

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditures of funds are recorded in order to reserve that portion of the applicable appropriation, is employed in the governmental funds. Encumbrances are not recognized as the equivalent of expenditures; therefore, the reserve for encumbrances is reported as part of the fund balance on the balance sheet. However, it should be noted that the Town did not recognize any outstanding reserves as of June 30, 2014 or 2013.

**Interfund Balances**

Generally, outstanding balances between funds reported as due to/from other funds include outstanding charges by one fund to another for services or goods or other miscellaneous receivables/payables between funds.

All activity between governmental and business-type activities are eliminated and any residual balances outstanding balances between the activities are reported in the government-wide financial statements as internal balances.

**Budget**

In accordance with Oklahoma Statutes, Title 68, Section 2483, the Town Board of Trustees formally adopts annual budgets which include substantially all funds. These annual budgets are adopted on a basis consistent with the guidelines established by the Oklahoma Municipal Code.

**Risk Management**

Significant losses are covered by commercial insurance for all Town operations.

**Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

**Reclassifications**

Certain reclassifications have been made to the prior year financial statements in order to conform to the current presentation.

Notes to the Financial Statements  
 Town of Fargo  
 For the Years Ended June 30, 2014 & 2013

**Note 2 - Cash and Investments**

Deposits and investments made by the City are summarized below. The deposits are classified as to credit risk within the following three categories:

- Category 1 Insured or collateralized with securities held by the City or its agent in the Town's name.
- Category 2 Collateralized with securities held by the pledging financial institution's trust department or agent in the Town's name.
- Category 3 Uncollateralized (this includes any bank balance that is collateralized with securities held by the pledging financial institution or by its trust department or agent, but not in the Town's name).

For the years ending June 30, 2014 and 2013, the Town and its component units had category 1 deposits up to the FDIC insurance limits.

**Note 3 - Property, Plant and Equipment**

Summaries of fixed assets are included below:

**Note 4 - Long-term Debt**

Proprietary Funds

The Fargo Utilities Authority executed a 25 year term, \$125,000 promissory note with the Oklahoma Resources Board (OWRB) October 11, 1990, for water and sewer system improvements. The note is secured by operating revenues of the FUA, 1% of the Town of Fargo's 3% sales tax, and a mortgage on certain real properties of the Town of Fargo. The note carries a variable annual rate, which changes September 1 and March 1 of each year. Principal and interest payments are made on August 15, November 15, February 1 and May 15 of each year, with the final payment being due August 15, 2015. The note also requires that the FUA maintain sufficient utility rates so that net revenues, including the 1% sales tax, shall meet or exceed 125% of the maximum annual debt service of all debt of the FUA. For the fiscal years ended June 2014 and 2013, the FUA met this requirement. This note was paid in full on February 1, 2015.

On March 1, 2015, Fargo Utilities Authority executed a five year \$46,350 promissory note with the Oklahoma Rural Development Corporation for water system improvements. The note carries a \$4.75% annual interest rate with principal and interest payments of \$869 made monthly.

**Note 5 - Defined Benefit Pension Plans**

The Town participates in the following employee pension system:

**Oklahoma Firefighters Pension and Retirement System**

Plan Description - The Town contributes to the Oklahoma Firefighters Pension and Retirement System (the System); a cost-sharing multiple-employer defined benefit pension plan administered by a 13-member board which acts as fiduciary for investment of funds and the application of plan interpretations. The System provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. The System is a component unit of the State of Oklahoma and is authorized under Title 11, Oklahoma Statutes 1981, Section 48-101 et seq. The System issues a publicly available financial report that includes financial statements and required supplementary information for the plan and may be obtained from their office at 4545 N. Lincoln Blvd., Suite 265, Oklahoma City, OK 73105, or by calling 1-800-525-7461.

Funding Policy - Paid firefighters are required to contribute 8% of covered payroll, with the Town contributing 13% of covered payroll. Volunteer firefighters are not required to contribute, but the Town is required to contribute \$60 per volunteer, per year. The contribution requirements of the System are an established rate determined by Oklahoma Statute and are not based on actuarial calculations. The Town's contribution to the System for the years ended June 30, 2014 and 2013 was \$ 660 and \$1,680 respectively, equal to the required contribution for the years.

**Note 6 - Risk Management**

The Town is exposed to various risks of losses related to torts; thefts of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Town manages this risk through the purchase of commercial insurance policies. Risk management activities are accounted for by fund, and claims are recognized when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. In determining claims, events that might create claims, but for which none have been reported, are considered. There was no claims activity for the year ended June 30, 2014.

**Note 7 - Subsequent Events**

On March 1, 2015, Fargo Utilities Authority executed a five year \$46,350 promissory note with the Oklahoma Rural Development Corporation for water system improvements. The note carries a \$4.75% annual interest rate with principal and interest payments of \$869 made monthly. Management has performed an evaluation of the Town's activity through the audit report date and has concluded that there are no other significant subsequent events requiring disclosure through that date.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT  
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH GOVERNMENT AUDITING STANDARDS**

*Independent Auditor's Report*

To the Board of Trustees  
Town of Fargo  
Fargo, Oklahoma

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and the business-type activities of the Town of Fargo as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the Town of Fargo's basic financial statements and have issued our report thereon dated August 26, 2015.

***Internal Control over Financial Reporting***

In planning and performing our audit of the financial statements, we considered the Town of Fargo's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of Fargo's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town of Fargo's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying Schedule of Findings and Responses, we identified certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of

performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiency described in the accompanying schedule of findings and responses as finding 2013-1 to be a material weakness.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompanying schedule of findings and responses as findings 2013-2 and 2013-3 to be significant deficiencies.

### ***Compliance and Other Matters***

As part of obtaining reasonable assurance about whether the Town of Fargo's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

### **Town of Fargo's Response to Findings**

The Town of Fargo's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. The Town of Fargo's response was not subjected to the auditing procedures applied in the financial statements and, accordingly, we express no opinion on it.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Status of prior year findings:**

The following deficiencies were identified during the June 30, 2013 audit of the Town of Fargo. The status of each deficiency as of June 30, 2014 is noted below:

**2013-1**

**Criteria**

Utility billings should be reconciled to the financial statements on a monthly basis.

**Condition**

Utility billing reports are not reconciled to QuickBooks on a monthly basis.

**Cause**

The Town has a fairly new utility billing program. Further education from the vendor is required to fully integrate the billing system and the financial statements.

**Effect**

Monthly utility revenue is properly booked with the exception of late fees which are overstated. This results in an overstatement of utility revenue on the financial statements. In addition, the accounts receivable balance on the financial statements and the billing system accounts receivable aging are not in agreement. As a result, utility revenues in the financial statements are not accurately stated.

**2014 Status**

Due to the implementation of the new billing system, the process for recording utility revenue changed during the year ended June 30, 2014. Accounts receivable are not recorded in the financial statements at the time billed. When utility revenues are collected, they are credited to accounts receivable at that time. This resulted in a large credit balance in accounts receivable for the yearly utility billings as of June 30, 2014, while utility revenue was not recorded in the books for the entire 2014 fiscal year. The monthly billings include water usage of four Town accounts which are not reimbursed by the General Fund. This results in increased outstanding receivables on the customer accounts receivable aging report.

**Recommendation**

The Town Board of Trustees should require that the utility clerk present monthly utility billing reports that agree to revenue posted in the financial statements. The accounts receivable aging should be reconciled to the financial statements monthly. We also suggest that during the monthly reconciliation process, the water billings for the four Town accounts be recorded as a transfer to the General Fund. The General Fund should then record a transfer from the Utilities Authority and a corresponding expense. This could be done without a transfer of cash between the funds.

**Management’s Response**

The Town of Fargo’s board and management will work to adopt the auditor’s recommendations.

**2013-2**

**Criteria**

The financial statements should reflect all financial transactions relating to the Town.

**Condition**

The Volunteer Fire Department has a checking account with transactions that impact the Town. The activity relating to this account is not recorded in the financial statements.

**Effect**

The Town’s financial statements are not accurately stated.

**Recommendation**

The fire chief should provide a copy of the monthly bank statement to the Town bookkeeper, as well as a description of all receipts and disbursements. These transactions should then be recorded in the appropriate general ledger accounts of the Town.

**2014 Status**

This condition was still a deficiency as of June 30, 2014.

**Management's Response**

The board will instruct the staff to adopt the auditor's recommendations.

**2013-3**

**Criteria**

Mail received should be opened and sorted by personnel other than the employee performing bookkeeping and recordkeeping.

**Condition**

Only one employee opens the mail received by the Town.

**Effect**

Having the same employee open and sort mail received, as well as maintaining the books related to the mail received, provides an opportunity for the employee to commit fraudulent activity.

**Recommendation**

The Town's management should require that separate individuals open and sort and process the mail received.

**2014 Status**

This condition was still a deficiency as of June 30, 2014.

**Management's Response**

The board will instruct the staff to adopt the auditor's recommendations.

**2013-4**

**Criteria**

The Town should ensure that internal control policies and procedures are followed to ensure adequate segregation of duties and safeguarding of the Town's assets.

**Condition**

During our review of internal controls we noted that a number of checks written in November 2012 and December 2012 were signed only by the mayor. We noted two purchase orders during fiscal 2013 that were not signed by two Town officers.

**Effect**

Any time internal control policies and procedures are not followed results in an opportunity for fraud and misuse of funds to occur.

**Recommendation**

Town officers and employees should be diligent in assuring that all internal control policies and procedures are followed on a consistent basis.

**2014 Status**

There were three small, recurring checks that were only signed by the town clerk or the mayor. It would appear that steps have been implemented to resolve this condition.

**2013-5**

**Criteria**

Checks that are not presented to the bank for payment should be voided in QuickBooks, rather than deleted.

**Condition**

Four Town checks were deleted rather than voided in 2013. Bank checks are not presented to the bank for payment for various reasons such as mutilation, inadvertent duplication, etc.

**Effect**

The procedure of deleting checks from QuickBooks, rather than voiding checks, does not provide a proper paper trail. Questions arise as to the status of the missing checks.

**Recommendation**

When bank checks need to be voided, the checks should be voided from QuickBooks, rather than deleted. The Town's management and personnel should review proper accounting procedures for the QuickBooks accounting software.

**2014 Status**

There was one missing check dated in June 2014. It would appear that steps have been implemented to resolve this condition.
