NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

Atoka County Rural Water, Sewer and Solid Waste Management, District No.4 of Atoka County, Oklahoma was formed in 1979, pursuant to the Oklahoma Rural Water, Sewer, and Solid Waste Management District Act. The District operates as a nontaxable government entity to serve residents of a portion of rural Atoka County.

Accounting

In June 1999, the Governmental Accounting Standards Board (GASB) unanimously approved Statement No. 34, Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments. Certain of the significant changes in the Statement include the following:

- 1. For the first time the financial statement should include:
- a. A Management Discussion and Analysis (MD&A) section providing analysis of the District's overall financial position and results of operations. However, the District has chosen not to present the required MD&A for the current year.
- b. Financial statements prepared using full accrual accounting for all of the District's activities, except for including the General capital assets or infrastructure (lines, pump stations, etc.).
- 2. A change in the fund financial statements to focus on major funds.

These and other changes are reflected in the accompanying financial statements (including the notes to the financial statements). The District has elected to implement the general provisions of the Statement and report infrastructure acquired after July 1, 2003 as provided by GASB standards.

Basis of Presentation

The accounts of the District are organized on the basis of proprietary fund type, specifically an enterprise fund. activities of this fund are accounted for with a separate set of self-balancing accounts that comprise the District's assets, liabilities, net assets, revenues and expenses. Enterprise Funds account for activities (1) that are financed with debt that is secured solely by a pledge of the net revenues from fees and charges of the activity; or (2) that are required by laws or regulations that the activity's costs of providing services, including capital costs (such as depreciation or debt service), be recovered with fees and charges, rather than with taxes or similar revenues; or (3) that the pricing policies of the activity establish fees and charges designed to recover its costs, including capital costs (such as depreciation or debt service).

Basis of Accounting

The proprietary fund type is accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of this fund are included on the balance sheet. Fund equity consists of contributed capital and retained earnings. Proprietary fund type operating statements present increases (e.g. revenues) and decreases (e.g. expenses) in net total assets. The accrual basis of accounting is utilized by the proprietary fund type. Under this basis of accounting revenues are recognized when earned and expenses are recognized when the related liability is incurred.

Cash and Cash Equivalents

GASB Statement No. 9, paragraph 9, defines cash equivalents as "short-term, highly liquid investments that are both readily convertible to known amounts of cash" and "so near their maturity that they present insignificant risk of changes in value because of changes in interest rates." Investments with a remaining maturity of three months or less at the date of purchase by the entity holding the investment meet this definition of a cash equivalent.

<u>Accounts Receivable</u>

Accounts receivable consist of the utilities billed that had not been collected at October 31, 2014.

<u>Inventory</u>

Inventory of supplies is not reported on the financial statements of the District. The amount of inventory on hand is not material to the financial statements.

Property and Equipment

Water distribution facilities, office furniture and equipment purchased or constructed by the District are stated at cost. Depreciation is computed on the straight-line method based on the estimated useful lives of the assets ranging from five to forty years.

Construction in progress is recorded at cost. No depreciation is recognized until contracts are complete and the applicable facilities become operational.

Capitalization Policy:

Purchases of capital items in excess of \$1,000.00 that increase the capacity or operation efficiency or extend the useful life of any asset are capitalized. Repairs and maintenance are expensed as incurred

Equity Classification

Equity is classified as net position and displayed in three components:

1. Net investment in capital assets—Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvements of those assets and adjusted for any deferred inflows and outflows of resources attributable to capital assets and related debt.

- 2. Restricted—Consists of restricted assets reduced by liabilities and deferred inflows or resources related to those assets, with restriction constraints placed on the use either by (a) external groups such as creditors, grantors, contributors, or laws and regulations of other governments; or (b) law through constitutional provisions or enabling legislation.
- 3. Unrestricted—Net amounts of assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position.

It is the District's policy to first use restricted net resources prior to the use of unrestricted net resources when an expense is incurred for purposes for which both restricted and unrestricted net resources are available.

Revenues, expenditures & expenses

Operating revenues and expenses for proprietary funds result from providing services and producing and delivering goods and/or services. They also include all revenues and expenses not related to capital and related financing, noncapital financing, or investing activities.

Memorandum Totals

The "Memorandum Only" captions above the total columns mean that totals are presented for overview information purposes only.

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

As a local government unit, the District is subject to various federal, state, and local laws and contractual regulations. In accordance with Government Auditing Standards, the auditor has issued a report on his consideration of the District's internal control over financial reporting and tested its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in compliance with Government Auditing Standards and should be read in conjunction with this report in considering the results of the audit.

Finance-related Legal & Contractual Provisions

The loan agreement with the United States Department of Agriculture Rural Development (USDA) requires the District to set aside into a Reserve Account an accumulated amount equal to the sum of the annual installment for all RD loans \$297,192.00 (\$38,748, \$27,540, \$94,812, \$9,900 & \$126,192), after which deposits may be suspended, except to replace withdrawals. The District cannot withdraw funds from the reserve account without USDA approval.

Deficit Fund Balance or Retained Earnings

As indicated in the financial statements, there are no fund balance or retained earnings deficits for the District for this fiscal year.

ATOKA COUNTY RURAL WATER, SEWER AND SOLID WASTE MANAGEMENT, DISTRICT NO.4 SCHEDULE OF FINDINGS OCTOBER 31. 2014

INTERNAL CONTROL FINDINGS:

Item 14-01: Segregation of Duties

<u>Criteria:</u> A good system of internal control requires a proper segregation of duties to prevent one person from being in a position to authorize, execute, and record the same transaction.

<u>Condition:</u> Due to the size of the District's major areas of internal control, that would be prevalent in a larger District, such segregation of duties is not available for this size operation. Duties are concentrated in the hands of a few individuals, who are responsible for all phases of the accounting functions. Because of this lack of division of responsibility, internal control is determined to be weak, and in some instances, non-existent.

<u>Cause/Effect:</u> Due to the limited number of personnel, a breach of internal controls could occur and not be detected in the normal course of operations.

<u>Recommendation:</u> Some compensating controls have been implemented by requiring the Boards approval and signature for all expenditures. The Board should continue to be actively involved in the operations of the organization.

<u>Response:</u> The Board continues to be actively involved in the operations of the District.
