## **INDEPENDENT AUDITORS' REPORT**

Board of Directors  
Central Oklahoma Master Conservancy District

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the Central Oklahoma Master Conservancy District (the "District"), which comprise the statements of net position as of June 30, 2014 and 2013, and the related statements of revenues, expenses, and changes in net position, and cash flows for the years then ended, and the related notes to the financial statements.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditors' Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

(Continued)

## **INDEPENDENT AUDITORS' REPORT, CONTINUED**

### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the District as of June 30, 2014 and 2013, and the changes in its financial position and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States.

### **Other Matters**

Accounting principles generally accepted in the United States require that the management's discussion and analysis on pages I-1 through I-4 and the required supplementary information on pages 24 and 25 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### **Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated December 22, 2014, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

*Finley & Cook, PLLC*

Shawnee, Oklahoma  
December 22, 2014

## MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the Central Oklahoma Master Conservancy District's (the "District") annual financial report presents a discussion and analysis of its financial performance for the years ended June 30, 2014 and 2013. Please read it in conjunction with the financial statements which follow this section. The following tables summarize the net position and changes in net position of the District for 2014 and 2013.

### Statements of Net Position

	June 30,	
	<u>2014</u>	<u>2013</u>
<b>Assets</b>		
Current assets	\$ 4,538,047	3,781,805

Net position, end of year	<u>\$ 13,693,630</u>	<u>12,690,805</u>

### Overview of the Financial Statements

The three financial statements are as follows:

- **Statement of Net Position**—This statement presents information reflecting the District's assets, liabilities, and net position. Net position represents the amount of total assets less total liabilities. The statement of net position is categorized as to current and noncurrent assets and liabilities. For purposes of the financial statements, current assets and liabilities are those assets and liabilities with immediate liquidity or which are collectible or becoming due within 12 months of the statement date.
- **Statement of Revenues, Expenses, and Changes in Net Position**—This statement reflects the operating revenues and expenses, as well as non-operating revenues and expenses, during the fiscal year. Major sources of operating revenues are operations and maintenance, and electric power revenue; and major sources of operating expenses are salaries and benefits, and pumping power expense. Major sources of non-operating income are from the federal agency grants. The change in net position for an enterprise fund is the equivalent of net profit or loss for any other business enterprise.

## MANAGEMENT'S DISCUSSION AND ANALYSIS, CONTINUED

### **Overview of the Financial Statements, Continued**

- Statement of Cash Flows—The statement of cash flows is presented using the direct method of reporting which reflects cash flows from operating, capital and related financing, and investing activities. Cash collections and payments are reflected in this statement to arrive at the net increase or decrease in cash and cash equivalents for the fiscal year.

### **Financial Highlights**

- The increase in total operating revenues of approximately \$452,000 in 2014 compared to the prior year was due to a planned major restoration project to a surge tank during 2014 and a planned water reuse study. Cost related to the surge tank restoration was capitalized. The increase in total operating revenues of approximately \$253,000 in 2013 compared to the prior year was due to a planned operating budget increase to continue funding water quality treatments and increased operating costs.
- The decrease in total operating expenses of approximately \$4,000 in 2014 compared to the prior year was due primarily to increases in professional services and depreciation costs of approximately \$106,000 and \$19,000, respectively, offset primarily by reductions of salaries and benefits, maintenance costs, pumping power, and water monitoring costs of approximately \$8,000, \$34,000, \$46,000, and \$39,000, respectively. The increase in total operating expenses of approximately \$190,000 in 2013 compared to the prior year was due primarily to increases in water monitoring costs, maintenance costs, and employee retirement benefits of approximately \$139,000, \$47,000, and \$50,000, respectively, offset primarily by a reduction in professional services of \$67,000.
- Total non-operating revenues increased approximately \$35,000 in 2014 compared to the prior year, mainly resulting from an increase in investment and interest income of approximately \$126,000, offset primarily by an increase in water reuse study expenses of approximately \$99,000. Total non-operating expenses decreased approximately \$213,000 in 2013 compared to the prior year, mainly resulting from incurring the majority of the costs in 2012 to complete the water reuse study. In 2013, the District recognized approximately \$122,000 from the Clean Water State Revolving Fund—American Recovery and Reinvestment Act of 2009 to fund the Green Project.

## **MANAGEMENT'S DISCUSSION AND ANALYSIS, CONTINUED**

### **Capital Assets**

As of June 30, 2014, the District had invested approximately \$16,900,000 in capital assets, including dam and reservoir, land improvements, construction in progress, pipelines, pumping plant, buildings and structures, vehicles, and equipment. Net of accumulated depreciation, the District's net capital assets at June 30, 2014, approximated \$9,777,000. As of June 30, 2013, the District had invested approximately \$16,300,000 in capital assets, including dam and reservoir, land improvements, construction in progress, pipelines, pumping plant, buildings and structures, vehicles, and equipment. Net of accumulated depreciation, the District's net capital assets at June 30, 2013, approximated \$9,531,000. Additional details concerning the District's capital assets can be found in the financial statements (see Note 3).

The District's infrastructure assets, which are reported using the modified approach for depreciation, consisted of dam and reservoir related assets. The infrastructure assets are typically required to have annual condition assessments performed by the U.S. Department of the Interior's Bureau of Reclamation. The condition assessment assigned to the assets was 96 and 97 in the last two issued assessment reports, respectively. A rating of 80 or greater is considered to be a "Good" rating. The District's objective is to maintain a "Good" condition assessment rating.

### **Debt Administration**

As of June 30, 2014, the District had approximately \$1,477,000 payable to the U.S. Department of the Interior, compared to approximately \$1,947,000 at June 30, 2013.

As of June 30, 2014 and 2013, the District had a note payable of approximately \$1,158,000 and \$1,237,000, respectively, with the Oklahoma Water Resources Board.

Additional details concerning the District's long-term debt can be found in the financial statements (see Note 4).

### **Contacting the District's Management**

This financial report is designed to provide patrons and interested parties with a general overview of the District's finances and to demonstrate the District's accountability for its finances. If you have questions about this report or need additional financial information, contact:

# CENTRAL OKLAHOMA MASTER CONSERVANCY DISTRICT

## NOTES TO FINANCIAL STATEMENTS

June 30, 2014 and 2013

---

### (1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### Organization and Nature of Operations

The Central Oklahoma Master Conservancy District (the “District”) is a governmental organization established pursuant to Oklahoma Statute by order of the Cleveland County District Court entered on September 30, 1959. Its primary purpose is to distribute raw water from Lake Thunderbird to the Cities of Del City and Midwest City (under a contract dated November 13, 1961) and the City of Norman (under a contract dated September 5, 1961) [collectively, the “Cities”] for municipal, domestic, and industrial use. The District manages and operates the dam, facilities, land, and rights of way under a September 5, 1961, agreement with the United States. The District also provides flood control, fish and wildlife benefits, and recreational opportunities. The District is obligated to repay the United States for a portion of the construction cost (considered to be cost related to municipal and industrial water supply), with interest, for which it assesses the member cities annually based on a stated formula. The members of the District’s board of directors are nominated by the Cities and appointed by the Cleveland County District Court.

#### Reporting Entity

The financial statements presented herein include only the operations of the District and do not include the assets, liabilities, or results of operations of the Cities serviced.

#### Basis of Accounting

The District prepares its financial statements on the enterprise fund basis using the economic measurement focus and the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when the obligation is incurred.

#### Financial Statement Presentations

The District follows the provisions of the Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements—and Management’s Discussion and Analysis—for State and Local Governments* (GASB 34), in preparing its financial statements.

#### Cash and Cash Equivalents

For purposes of the statements of cash flows, the District considers all highly liquid investments with an original maturity of 3 months or less to be cash and cash equivalents.

See Independent Auditors’ Report.

# CENTRAL OKLAHOMA MASTER CONSERVANCY DISTRICT

## NOTES TO FINANCIAL STATEMENTS, CONTINUED

---

### (1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

#### Restricted Cash and Cash Equivalents

The contract with the U.S. Department of the Interior (see Note 4) requires that \$50,000 be restricted for maintenance and operations.

#### Investments

In accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*, investments are recorded at fair value.

#### Capital Assets

Capital assets are stated at cost and depreciated on the date they are placed into service. Depreciation is computed using the straight-line method over the estimated useful lives of the assets. The estimated useful lives are 20–25 years for buildings and structures, pumping plant, and pipelines; 7 years for vehicles and office equipment; and 20 years for the Energy Project equipment (a \$2,400,000 energy savings construction project) and fencing and equipment.

The District considers the dam and reservoir related assets to be infrastructure assets, which are reported using the modified approach for depreciation. Under the modified approach, infrastructure assets are not required to be depreciated as long as certain requirements, as defined by GASB 34, are met. All expenditures made for infrastructure assets, using the modified approach, are expensed in the period incurred, except for expenditures considered to be for additions or improvements.

#### Intangible Assets

The District believes its only intangible assets consist of certain rights of way, all of which were received prior to July 2009. Since the District is considered to be a Phase 3 government under GASB 34, the District is not required to retroactively apply GASB Statement No. 51, *Accounting and Financial Reporting for Intangible Assets*. Therefore, the District has not accounted for and reported its right-of-way intangible assets.

#### Compensated Absences

The District's employees can accrue a maximum of 360 hours of vacation pay. Upon termination, accrued, unpaid hours will be paid at the employee's hourly rate then in effect. Sick leave can be accrued at a rate of 12 days per year (8 hours for every full month of service), but is not paid upon termination.

See Independent Auditors' Report.

# CENTRAL OKLAHOMA MASTER CONSERVANCY DISTRICT

## NOTES TO FINANCIAL STATEMENTS, CONTINUED

---

### (1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

#### Income Taxes

Because the District is a governmental institution pursuant to Title 82, Chapter 5 of the Oklahoma Statutes, as amended, the District is exempt from federal and state income taxes.

#### Concentrations

The District is located in Norman, Oklahoma, and serves the Cities and, therefore, is reliant on the Cities' ability to meet their obligations.

#### Contingencies

The District carries appropriate insurance with regard to comprehensive general liability, comprehensive automobile liability, personal injury, general property, and workers' compensation insurance.

#### Equity Classifications

Equity is classified as net position and displayed in three components:

*Invested in Capital Assets, Net*—Consists of capital assets, net of accumulated depreciation, less the balance of debt incurred to finance the acquisition, construction, or improvement of the related capital assets.

*Restricted*—Consists of net position with constraints placed on the use either by i) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or ii) law through constitutional provisions or enabling legislation.

*Unrestricted*—Consists of all other net position that do not meet the definition of "Invested in Capital Assets, Net" or "Restricted."

#### Revenues

The District considers all assessments charged to the Cities to fund its normal operations as operating revenues. Assessments to the Cities to fund capital or special projects, and grants or other contracts received from federal and state agencies, are considered to be non-operating income.

See Independent Auditors' Report.

# CENTRAL OKLAHOMA MASTER CONSERVANCY DISTRICT

## NOTES TO FINANCIAL STATEMENTS, CONTINUED

---

### (1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

#### Federal Grant Revenues and Expenditures

The District's federal grant revenues are primarily expenditure driven, in that prior to requesting grant monies, expenditures are incurred.

#### Use of Estimates in Preparing Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### Recent Accounting Pronouncements

In March 2012, GASB issued Statement No. 65, *Items Previously Reported as Assets and Liabilities* (GASB 65). The objective of GASB 65 is to establish accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets or liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. The District adopted this statement effective July 1, 2013. The adoption had no significant impact on the District's financial statements.

In June 2012, GASB issued Statement No. 68, *Accounting and Financial Reporting for Pensions* (GASB 68). The primary objective of GASB 68 is to improve accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. GASB 68 establishes standards for measuring and recognizing liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures. This statement is effective for financial statements for periods beginning after June 15, 2014. In the first period that this statement is applied, changes made to comply with this statement will be treated as an adjustment of prior periods, and financial statements presented for the periods affected will be restated. The District has not determined the effects of implementing GASB 68.

See Independent Auditors' Report.

### (1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

#### Recent Accounting Pronouncements, Continued

In April 2013, GASB issued Statement No. 70, *Accounting and Financial Reporting for Nonexchange Financial Guarantees* (GASB 70). GASB 70 will require a government that extends a nonexchange financial guarantee to recognize a liability when qualitative factors and historical data, if any, indicate that it is more likely than not that the government will be required to make a payment on the guarantee. A government that has issued an obligation guaranteed in a nonexchange transaction is to report the obligation until legally released as an obligor. This statement specifies the information required to be disclosed by governments that extend nonexchange financial guarantees. This statement requires new information to be disclosed by governments that receive nonexchange financial guarantees. The District adopted this statement effective July 1, 2013. The adoption had no impact on the District's financial statements.

In November 2013, GASB issued Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date—an amendment of GASB Statement No. 68* (GASB 71). This statement amends paragraph 137 of GASB 68 to require that, at transition, a government recognize deferred outflow of resources for its pension contributions, if any, made subsequent to the measurement date of the beginning net pension liability. GASB 68, as amended, continues to require that beginning balances for other deferred outflows of resources and deferred inflows of resources related to pensions be reported at transition only if it is practical to determine all such amounts. The provisions of this statement are required to be applied simultaneously with the provisions of GASB 68. The District has not determined the effects of implementing GASB 71.

#### Date of Management's Review of Subsequent Events

Management has evaluated subsequent events through December 22, 2014, the date which the financial statements were available to be issued, and determined that no subsequent events have occurred which require adjustment to or disclosure in the financial statements.

### (2) CASH AND CASH EQUIVALENTS AND INVESTMENTS

#### Custodial Credit Risk—Deposits

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District's deposit policy for custodial credit risk is described as follows:

The District requires that balances on deposit with financial institutions be insured by the FDIC or collateralized by securities held by the cognizant Federal Reserve Bank, or be invested in U.S. government obligations in the District's name.

See Independent Auditors' Report.

# CENTRAL OKLAHOMA MASTER CONSERVANCY DISTRICT

## NOTES TO FINANCIAL STATEMENTS, CONTINUED

---

### (2) CASH AND CASH EQUIVALENTS AND INVESTMENTS, CONTINUED

#### Custodial Credit Risk—Deposits, Continued

As of June 30, 2014 and 2013, the carrying amount of the District's cash deposits was fully collateralized by federal depository insurance or pledges of securities by the various financial institutions, which conforms to Oklahoma state statutes governing the investment of public funds. The fair value of investments pledged to secure deposits approximated \$1,046,000 and \$1,065,000 at June 30, 2014 and 2013, respectively. The pledged investments consisted of mortgage-backed securities guaranteed by the U.S. government.

#### Custodial Credit Risk—Investments

Investments are made under the custody of the General Manager, as approved by the District's Board of Directors, in accordance with the District's investment policy.

The investment policy permits investments in U.S. Treasury bills, notes, and bonds and obligations fully insured or unconditionally guaranteed by the U.S. government or any of its agencies or instrumentalities; U.S. government agency securities; corporate debt and mortgage-backed pass-through securities with ratings of Aaa, AAA, or the equivalent; collateralized or insured certificates of deposit; bankers' acceptances; commercial paper with a rating of at least A-1 or the equivalent; obligations of state and local governments; money market and short-term bond funds with a rating of AAA or equivalent; and obligations of a foreign government with a rating of A-1 or the equivalent.

Custodial credit risk is the risk that, in the event of the failure of a counterparty, the District will not be able to recover the value of its investments. Investment securities are exposed to custodial risk if they are uninsured, are not registered in the name of the District, or are held by a counterparty or the counterparty's trust department but not in the name of the District. At June 30, 2014 and 2013, the investment balances of approximately \$2,364,000 and \$1,709,000, respectively, were uncollateralized. At June 30, 2014 and 2013, the District also had approximately \$49,000 and \$41,000, respectively, in two money market accounts which were not insured by the FDIC or collateralized. The money market accounts are included in cash and cash equivalents on the statements of net position. The underlying investments of the money market accounts include short-term, high quality, fixed-income securities issued by banks, corporations, and the U.S. government or its agencies.

See Independent Auditors' Report.

(2) CASH AND CASH EQUIVALENTS AND INVESTMENTS, CONTINUED

Interest Rate Risk and Credit Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Investments held for longer periods are subject to increased risk of adverse interest changes. The District does not have a formal policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. Fixed-income securities are subject to credit risk. The District places no limit on the amount the District may invest in any one issuer. Credit quality rating is one method of assessing the ability of the issuer to meet its obligation. The following tables provide information concerning interest rate risk and credit risk.

At June 30, the District had the following investments and maturities:

<u>Investment Type</u>	<u>Investment Maturities (in Years)</u>			<u>Fair Value</u>
	<u>Less than 1</u>	<u>1 or More, Less than 5</u>	<u>5 or More</u>	
Corporate bonds—domestic	\$ -	-	2,199,357	2,199,357

*U.S. Department of the Interior Contract Payable*

In 1961, the District entered into a contract with the U.S. Department of the Interior to provide for the repayment of the District's share of the costs incurred in the construction of the water facilities. The original contract payable was for \$10,928,511 at 2.74% interest over 55 years. Interest and principal payments are due annually on October 1. As of June 30, 2014 and 2013, the District had the necessary \$50,000 of restricted funds set aside for maintenance and operations.

See Independent Auditors' Report.

**CENTRAL OKLAHOMA MASTER CONSERVANCY DISTRICT**

**NOTES TO FINANCIAL STATEMENTS, CONTINUED**

---

**(4) LONG-TERM DEBT, CONTINUED**

*Series 2007 Note Payable and Drinking Water SRF Note Payable*

In January 2007, the District entered into a \$1,500,000 note payable agreement with a financial institution (the Series 2007 note payable) to help fund the District’s Energy Project.

In October 2009, the District refinanced the Series 2007 note payable with a note payable (Drinking Water SRF note payable) from the Oklahoma Water Resources Board (OWRB) through its “Drinking Water SRF Financing Program.” The Drinking Water SRF note payable has an annual interest rate of 2.78%, matures on September 15, 2026, and is secured by the District’s revenues. Semiannual interest and principal payments are due on March 15 and September 15. The note has certain financial, restrictive, and negative covenants that the District must meet. As of June 30, 2014, the District was in compliance with such covenants.

During 2014, the note payable was amended to modify the interest rates to 1.74% in 2016, 1.66% in 2017, and 0.50% in 2018 through maturity.

Future payments of principal and interest of the District’s long-term debt for the next 5 years and to maturity are as follows:

<u>Year</u>	<u>Total</u>	<u>Interest</u>	<u>Principal</u>
2015	\$ 624,630	59,896	564,734
2016	622,544	42,628	579,916
2017	610,262	18,618	591,644
2018	98,723	4,374	94,349
2019	98,263	3,902	94,361
2020–2024	484,981	12,428	472,553
2025–2027	<u>238,880</u>	<u>1,779</u>	<u>237,101</u>
	<u>\$ 2,778,283</u>	<u>143,625</u>	<u>2,634,658</u>

**(5) ASSESSMENTS RECEIVABLE**

The Cities entered into separate contracts with the District for the repayment of their share of the original contract payable with the U.S. Department of the Interior (see Note 4). The original assessments for the City of Norman, the City of Midwest City, and the City of Del City were \$4,083,149, \$4,672,610, and \$2,172,752, respectively, payable annually on September 1 at 2.74% interest over 55 years. The balance of the assessments receivable at June 30, 2014 and 2013, was \$1,476,735 and \$1,947,018, respectively.

See Independent Auditors’ Report.

# CENTRAL OKLAHOMA MASTER CONSERVANCY DISTRICT

## NOTES TO FINANCIAL STATEMENTS, CONTINUED

---

### (5) ASSESSMENTS RECEIVABLE, CONTINUED

In connection with the District's Energy Project, the District entered into contracts with the City of Norman and the City of Del City, in which the two cities agreed to repay their share of the note payable related to the project through an assessment receivable. The assessments mirror the terms of the Drinking Water SRF note payable. See Note 4 for the respective terms. The assessments are secured by gross revenues received from the sale of water by the respective cities. The balance of the assessments receivable for the Energy Project at June 30, 2014 and 2013, was \$1,141,014 and \$1,220,974, respectively.

### (6) RETIREMENT PLANS

#### Defined Benefit Pension Plan

##### *Plan Description*

The District participates in the Oklahoma Municipal Retirement Fund (OMRF), an agent multiple public employer retirement system (PERS) defined benefit pension plan. A PERS is a retirement system that provides pension benefits to employees of one or more state or local governmental entities. An agent PERS maintains pooled administrative and investment functions for all participating entities. All full-time employees of the District are eligible to participate in the OMRF. In general, the OMRF provides retirement benefits based on members' final average compensation, age and term of service, plus annual cost-of-living adjustments, if so elected. In addition, the retirement program provides for benefits upon disability and to survivors upon the death of eligible members. The authority to establish and amend the benefit provisions of the plans that participate in the OMRF is assigned to the respective employer entities. The OMRF issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the Trust Administrator, Chase, P.O. Box 25848, Oklahoma City, OK 73125.

##### *Funding Policy*

The District's participating employees are required to contribute 6.0% of their final average annual compensation to the defined benefit pension plan. The District is required to contribute an actuarially determined rate; the rate for the years ended June 30, 2014 and 2013, was 29.8% and 36.7%, respectively, of covered salary. The contribution requirements of the plan participants and the District are established and may be amended by the District's Board of Directors.

See Independent Auditors' Report.

**CENTRAL OKLAHOMA MASTER CONSERVANCY DISTRICT**

**NOTES TO FINANCIAL STATEMENTS, CONTINUED**

**(6) RETIREMENT PLANS, CONTINUED**

**Defined Benefit Pension Plan, Continued**

*Actuarial Annual Pension Cost*

For 2014 and 2013, the District’s annual pension cost was \$71,195 and \$88,400, respectively, and the actual pension contribution was \$133,979 and \$91,392, respectively, including employee required contributions of \$11,792 and \$12,815, respectively. The actuarial assumptions included (a) a 7.5% investment rate of return per year and (b) projected salary increases based on age, ranging from 4% to 5% per year. The actuarial value of the District’s assets was determined using the actuarial method. The District’s unfunded actuarial accrued liability is being amortized over 30 years from the valuation date.

Three-Year Trend Information for the District			
<u>Fiscal Year</u> <u>Ended June 30,</u>	<u>Annual Pension</u> <u>Cost (APC)</u>	<u>Percentage of APC</u> <u>Contributed</u>	<u>Net Pension</u> <u>Obligation</u>
2012	\$ 90,579	100%	95
2013	88,400	103%	-
2014	71,195	188%	-

*Funded Status and Funding Progress*

As of January 1, 2014, the District’s funded status of the OMRF was as follows:

Actuarial accrued liability (AAL)	\$ 1,534,856
Actuarial value of assets	1,071,613
Unfunded actuarial accrued liability (UAAL)	463,243
Funded ratio (actuarial value of assets/AAL)	69.8%
Annual covered payroll (active plan members)	198,981
UAAL as a percentage of annual covered payroll	232.8%

The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

See Independent Auditors’ Report.

# CENTRAL OKLAHOMA MASTER CONSERVANCY DISTRICT

## NOTES TO FINANCIAL STATEMENTS, CONTINUED

---

### (6) RETIREMENT PLANS, CONTINUED

#### Defined Contribution Plan

In March 2008, the District created a defined contribution retirement plan and trust, known as the “Employee Retirement System of Central Oklahoma Master Conservancy District in Norman, Oklahoma, Defined Contribution Plan” (the “Contribution Plan”), in the form of The Oklahoma Municipal Retirement System Master Defined Contribution Plan. The Contribution Plan is available only to the General Manager and contains a provision requiring the District to contribute up to 15% of the General Manager’s eligible compensation. For the years ended June 30, 2014 and 2013, the District contributed approximately \$19,000 and \$18,000, respectively, to the Contribution Plan. Benefits depend solely on amounts contributed to the Contribution Plan plus investment earnings.

#### Deferred Compensation Plan

Effective September 1, 2011, the District began offering its employees a deferred compensation plan (the “Deferred Compensation Plan”) as authorized by Section 457(b) of the Internal Revenue Code, as amended by the Tax Reform Act of 1986, and in accordance with the provisions of Sections 1701 through 1706 of Title 74 of the Oklahoma Statutes.

The Deferred Compensation Plan is available to all District employees. Participants may make voluntary contributions up to the maximum permitted by law. The District matches salary deferrals at 50%, up to 3% of the participant’s annual compensation. Participants are fully vested in their contributions and the District’s contributions. Participants may direct the investment of their contributions and the District’s contributions in available investment options offered by the Deferred Compensation Plan. All interest, dividends, and investment fees are allocated to participants’ accounts. The District’s contribution to the Deferred Compensation Plan in 2014 and 2013 approximated \$2,600 and \$3,100, respectively.

### (7) AMERICAN RECOVERY AND REINVESTMENT ACT OF 2009 AWARD

The American Recovery and Reinvestment Act of 2009 (ARRA) was passed by Congress in February 2009 to provide a stimulus to the U.S. economy in the wake of an economic downturn. In January 2010, the District was approved to receive \$1,501,285 from the Clean Water State Revolving Fund—American Recovery and Reinvestment Act of 2009 program from the OWRB (the contracting agency) through the U.S. Environmental Protection Agency. The funds from the award were to be used to construct, install, and operate a supersaturated dissolved oxygen injection system at Lake Thunderbird (ARRA “Green Project”).

See Independent Auditors’ Report.

**CENTRAL OKLAHOMA MASTER CONSERVANCY DISTRICT**

**NOTES TO FINANCIAL STATEMENTS, CONTINUED**

---

**(7) AMERICAN RECOVERY AND REINVESTMENT ACT OF 2009 AWARD, CONTINUED**

Under the terms of the funding agreement, the District was obligated to operate the project for 2 years after the system was constructed and installed. The District completed the construction and installation of the Green Project's equipment in October 2010 and began operating the Green Project at that time. The funding was through the OWRB's Clean Water State Revolving Fund Loan Account and was structured as a loan that would be forgiven upon the completion of the project if the District has complied, in all material respects, with the terms of the funding agreement. The District believes it was in material compliance with the terms of the funding agreement. Therefore, the District treated the funding agreement as a grant rather than a loan, whereby the funds received under the agreement were treated as grant revenue rather than as borrowings under a debt obligation. In 2013, the District incurred \$121,527 of costs under the program. The District recognized \$121,527 in 2013 in grant revenues related to the program. As of June 30, 2013, the District had no remaining funds available under the grant.

The funding agreement is subject to audit by the OWRB, the U.S. Environmental Protection Agency, or their representatives. Such audits could lead to request for reimbursement to the OWRB or the U.S. Environmental Protection Agency for costs disallowed under the terms of the funding agreement. Presently, the District has no such requests pending.

See Independent Auditors' Report.

Infrastructure assets (dam and reservoir)	96	97	89

<sup>(a)</sup> Comprehensive assessment year.

Condition assessments of the infrastructure assets are made by the U.S. Department of the Interior's Bureau of Reclamation (BOR). The BOR typically performs a comprehensive assessment every 3 years and a limited condition assessment for other annual periods. The ratings are based on the BOR's "Facility Reliability Rating System for High and Significant Hazard Dams." The ratings are as follows: Good (rating of 80 or greater); Fair (rating of 60 to 79); and Poor (rating of 59 or less).

*GOVERNMENT AUDITING STANDARDS***

**INDEPENDENT AUDITORS' REPORT ON  
INTERNAL CONTROL OVER FINANCIAL REPORTING AND  
ON COMPLIANCE AND OTHER MATTERS BASED ON  
AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN  
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Board of Directors  
Central Oklahoma Master Conservancy District

We have audited, in accordance with the auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Central Oklahoma Master Conservancy District (the "District") as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated December 22, 2014. Our report includes an explanatory paragraph disclaiming an opinion on required supplementary information.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting ("internal control") to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

**INDEPENDENT AUDITORS' REPORT ON  
INTERNAL CONTROL OVER FINANCIAL REPORTING AND  
ON COMPLIANCE AND OTHER MATTERS BASED ON  
AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN  
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*, CONTINUED**

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Purpose of This Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
