INDEPENDENT AUDITORS' REPORT

Board of Directors
Native American Cultural and
Educational Authority

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of the Native American Cultural and Educational Authority (the "Authority"), which is a part of the State of Oklahoma financial reporting entity, as of and for the years ended June 30, 2014 and 2013, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Authority's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Authority as of June 30, 2014 and 2013, and the respective changes in financial position thereof for the years then ended in accordance with accounting principles generally accepted in the United States.

Emphasis of Matters

Authority-Only Financial Statements

As discussed in Note 1, the financial statements of the Authority are intended to present the financial position and the changes in financial position of only that portion of the governmental activities and each major fund of the State of Oklahoma that is attributable to the transactions of the Authority. They do not purport to, and do not, present fairly the financial position of the State of Oklahoma as of June 30, 2014 and 2013, and the changes in its financial position for the years then ended in conformity with accounting principles generally accepted in the United States. Our opinion is not modified with respect to this matter.

Correction of Error

As discussed in Note 2 to the financial statements, the 2013 financial statements have been restated to correct an error in recording construction in progress, equipment, and the related depreciation on certain equipment. Our opinion is not modified with respect to this matter.

Other Matters

Accounting principles generally accepted in the United States require that the management's discussion and analysis on pages I-1 to I-10 and the budgetary comparison information on pages 42 through 45 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

INDEPENDENT AUDITORS' REPORT, CONTINUED

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 7, 2014, on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The discussion and analysis of the Native American Cultural and Educational Authority's (the "Authority") financial performance provides an overview of the Authority's financial activity for the years ended June 30, 2014 and 2013. It should be read in conjunction with the financial statements which begin on page 4. The Authority is affiliated with a 501(c)(3) entity, the American Indian Cultural Center Foundation (the "Foundation"). The Foundation's goal is to be the fundraising arm of the Authority for the construction of the American Indian Cultural Center and Museum (the "Museum"). Presently, the Authority and the Foundation share approximately the same voting board of directors, and the assets of the Foundation are being held for the benefit of the Authority. The Foundation is considered a blended component unit of the Authority. Therefore, the financial position and results of operations of the Foundation are included in the financial statements of the Authority and are accounted for in the Authority's governmental funds financial statements in a special revenue fund.

Discussion of the Basic Financial Statements

The 2014 and 2013 financial statements have been prepared in accordance with Governmental Accounting Standards Board Statement No. 34 (GASB 34). GASB 34 not only provides for the presentation of Management's Discussion and Analysis and other required supplementary information, but also provides for the following statements:

Government-Wide Financial Statements:

Statements of Net Position—These are financial statements of the Authority as a whole. They are prepared on the accrual basis of accounting and present all assets, liabilities, and net position for the Authority as of June 30, 2014 and 2013.

Statements of Activities—These statements are also prepared on the accrual basis of accounting and present the operating results of the Authority for the years ended June 30, 2014 and 2013.

Fund Financial Statements:

Balance Sheets—Governmental Fund—The Authority has two funds, the general fund and the special revenue fund. The general fund accounts for all of the general operations of the Authority, and the special revenue fund accounts for all operations of the Foundation. These financial statements present the balance sheets prepared on a modified accrual basis of accounting. Certain assets and liabilities presented on the statements of net position are not reflected on these statements. There is also a reconciliation prepared of the balance sheets to reconcile the fund balance per the governmental funds to the statements of net position.

Governmental Fund Statements of Revenues, Expenditures, and Changes in Fund Balance—These statements are prepared on a modified accrual basis of accounting; consider only the governmental funds; and present operating results on a governmental fund basis. There is also a reconciliation of the governmental fund statements of revenues, expenditures, and changes in fund balance to the statements of activities; as the name implies, these statements are simply a reconciliation of the net changes in fund balances for governmental funds to the changes in net position per the statements of activities.

MANAGEMENT'S DISCUSSION AND ANALYSIS, CONTINUED

Discussion of the Basic Financial Statements, Continued

The government-wide financial statements include all assets and liabilities of the Authority, such as capital assets, capital leases payable, accruals for compensated absences, etc. As such, also included are depreciation and interest expenses, whereas the fund financial statements generally include only current assets and payables. At the fund level, payments on the capital lease are reflected as expenditures when paid and no capital assets such as land and building are included.

Analysis of the Authority's Overall Financial Position and Results of Operations

The June 30, 2014 and 2013, statements of net position reflect assets in excess of liabilities of \$47,450,675 and \$44,996,038, respectively. For the years ended June 30, 2014 and 2013, the statements of activities reflect a change in net position of \$2,454,637 and \$2,941,762, respectively.

MANAGEMENT'S DISCUSSION AND ANALYSIS, CONTINUED

Condensed Financial Information—Government-Wide Financial Statements, Continued

Current assets consist primarily of cash and cash equivalents. Noncurrent assets consist of restricted cash and cash equivalents, and capital assets. Capital assets primarily consist of construction in progress, building, land, furniture, fixtures, and equipment. As of June 30, 2014 and 2013, current liabilities were primarily composed of accounts payable along with the current portion of capital lease obligations of approximately \$3,115,000 and \$2,995,000, respectively, and the current portion of compensated absences of approximately \$41,000 and \$33,000, respectively. Noncurrent liabilities at June 30, 2014 and 2013, consisted of the capital lease obligations, less the current portion, of approximately \$42,150,000 and \$45,265,000, respectively. As of June 30, 2014 and 2013, deferred inflows of resources consisted of conditional contributions received of approximately \$5,040,000 and \$4,332,000, respectively.

At June 30, 2014 and 2013, net position was composed of the investment in capital assets, net of related debt, of approximately \$44,989,000 and \$42,302,000, respectively; restricted net position of approximately \$114,000 and \$119,000, respectively; and unrestricted net position of approximately \$2,348,000 and \$2,575,000, respectively.

A significant portion of the statements of activities is represented by State of Oklahoma ("State") appropriations. For both years ended June 30, 2014 and 2013, approximately \$6,784,000 was appropriated to the Authority from State-appropriated revenues. For the years ended June 30, 2014 and 2013, the statements of activities included approximately \$896,000 and \$897,000, respectively, of contributions. Also included is approximately \$66,000 and \$286,000 of other revenues (interest income) in 2014 and 2013, respectively, which were funds expended for construction that were from interest primarily earned by the Oklahoma Capitol Improvement Authority (OCIA). During 2014, the Authority had no grant revenues. During 2013, the Authority recognized approximately \$82,000 of grant revenues.

Analysis of Balances and Transactions of Individual Funds

As noted previously, the Authority, for reporting purposes, has two funds within the governmental funds, which are the general fund and the special revenue fund. The general fund represents the financial position and results of operations of the Authority. The special revenue fund represents the financial position and results of operations of the Foundation.

MANAGEMENT'S DISCUSSION AND ANALYSIS, CONTINUED

Analysis of Significant Variations Between Budget Amounts for the General Fund

For the year ended June 30, 2014, the largest significant budget variances were in the areas of State appropriations. State appropriations were overbudgeted approximately \$723,000. The Authority used 2013 carryover funds from unexpended State appropriations to pay for contracted expenses (Museum site preservation) related to 2014. These funds helped reduce the amount of 2014 State appropriations that were needed to cover the 2014 expenditures. The 2014 carryover funds will be utilized to pay for Museum site preservation.

For the year ended June 30, 2013, the largest significant budget variances were in the areas of State appropriations. State appropriations were overbudgeted approximately \$830,000. The Authority used 2012 carryover funds from unexpended State appropriations to pay for contractual expenses (Museum site preservation) related to 2013. These funds helped reduce the amount of 2013 State appropriations that were needed to cover the 2013 expenditures. The 2013 carryover funds will be utilized to pay for Museum site preservation.

Description of Long-Term Debt Activity and Significant Capital Assets

As of June 30, 2014 and 2013, the only long-term debt the Authority had consisted of capital lease obligations. The OCIA issues bonds on behalf of the Authority. The Authority then signs a lease agreement with OCIA. At June 30, 2014 and 2013, the principal amount of this debt was approximately \$45,265,000 and \$48,260,000, respectively. A summary of the changes in lease obligation for the years ended June 30 is as follows:

	<u>2014</u>	<u>2013</u>
Balance, beginning of year	\$ 48,260,000	51,145,000
Principal payments	<u>(2,995,000)</u>	<u>(2,885,000)</u>
Balance, end of year	<u>\$ 45,265,000</u>	<u>48,260,000</u>

Construction in progress is the Authority's largest capital asset. The capital assets of the Authority consist of land, construction in progress under capital lease obligations, furniture, fixtures, and equipment, and the addition of the Visitor Center included in building.

Certain mechanical and supporting equipment such as HVAC and cooling systems, plumbing and ducts, are being utilized to preserve the integrity of the museum in progress and the warranties on this equipment. Such equipment was completed and placed in service in September 2011; therefore, the Authority began depreciating the equipment at that date.

Description of Currently Known Facts, Decisions, or Conditions that are Expected to Have a Significant Effect on the Financial Position or Results of Operations

Funding for the Authority is made by the Oklahoma Legislature as a line-item appropriation in the Oklahoma Department of Commerce's bill. As authorized by the appropriation bill, the amount for the Authority is transferred by the Office of State Finance from the Oklahoma Department of Commerce's general revenue fund into the revolving fund for the Authority. The Office of State Finance approved the Authority's budget as part of the Oklahoma Department of Commerce's budget for the year July 1, 2013, to June 30, 2014, and the year July 1, 2014, to June 30, 2015. Overall, the total budgeted expenditure changes are \$(723,000) and \$(955,000) for fiscal years 2015 and 2014, respectively. The changes in anticipated expenditures are as follows:

	2015 Budget Compared to 2014	2014 Budget Compared to 2013
State appropriated	\$ (723,000)	(830,000)
Federal	<u>-</u>	<u>(125,000)</u>
Total expenditure change	<u>\$ (723,000)</u>	<u>(955,000)</u>

For fiscal year 2015, the Authority's State appropriations did not significantly fluctuate, and the Authority does not anticipate receiving any significant additional grant funds.

For fiscal year 2014, the Authority's State appropriations did not significantly fluctuate, and the Authority does not receive any significant additional grant funds.

The Authority does not prepare a budget for the special revenue fund, which represents the Foundation's operations. Therefore, no budget comparison information is provided for the special revenue fund.

MANAGEMENT'S DISCUSSION AND ANALYSIS, CONTINUED

Current Status of the Museum

The State's decision to vote against capital funding for the Museum project in the 2013 and 2014 Legislative Session resulted in an indefinite suspension of construction until funds to complete the project are recognized. During the interim, preserving the Museum site and existing structures requires 24 hour presence and security, mechanical equipment warranty maintenance, building/grounds maintenance, and utilities expenses. This preservation plan has been contracted with the Museum's general contractor to avoid demobilization and totals approximately \$60,000 per month, which requires the use of operational appropriation funds until the future of the project is determined. Using appropriations results in an operational budget that does not allow for the much-needed growth of the Authority; however, it does provide enough to sustain current operations until the State approves additional funding or identifies an alternative plan and/or partnership in accomplishing the Museum completion. In fiscal year 2015, the Authority anticipates a flat operating budget (or the same State appropriation as fiscal year 2014). The fiscal year 2014 State appropriation was the same as the 2013 State appropriation. This will enable current Authority operations to continue.

The future of the Authority as a governing body, as well as the completion of the Museum project itself, are now in the hands of the State. With regard to construction, the Museum is approximately \$80 million short of completion. As of June 30, 2014, the Authority has secured \$40 million, which is largely comprised of conditional pledges and conditional donations from private donors that are contingent upon the State's match of funding to complete the project, among other conditions on certain pledges and donations. A viable roadmap to completion has been presented which will ensure usage of this \$40 million in non-state matching funds contingent on the State matching \$40 million in capital completion funds. This plan will be weighed and considered in the coming 2015 legislative session. A decision by the State not to match the non-state funds would likely result in the withdrawal of the \$40 million non-state funds currently pledged and thereby the transfer of the total burden of completion back to the State. However, the State's commitment to provide the necessary matching capital funds will solidify a completion date for the Museum and will strengthen the Authority's future efforts in raising funds for operations for the Museum. The Authority is also exploring an option to transfer the project ownership to the City of Oklahoma City. It should also be noted that the economic impact over a 20-year period is conservatively estimated to be \$3.8 billion according to the Applied Economics Impact Study of 2009 which was independently commissioned by the Greater OKC Chamber.

NOTES TO FINANCIAL STATEMENTS

June 30, 2014 and 2013

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Native American Cultural and Educational Authority (the “Authority”) complies with accounting principles generally accepted in the United States. Accounting principles generally accepted in the United States include all relevant Governmental Accounting Standards Board (GASB) pronouncements. The accounting and reporting framework and the more significant accounting policies are discussed in subsequent sections of this note.

Reporting Entity

In 1994, the Oklahoma Legislature authorized creation of the Authority to design, construct, and operate an American Indian Cultural Center and Museum (the “Museum”).

The Authority operates primarily from appropriations from State of Oklahoma (“State”) funds. In addition to State appropriations, during 2014 and 2013 the Authority also utilized awards from federal agencies and non-federal entities and other income that was earned on unspent bond proceeds, which was used by the Authority for construction activities.

Presently, a portion of the Authority’s funds are administered by the Oklahoma Department of Commerce (ODOC). The Authority’s funds administered by ODOC are included in the annual appropriations for ODOC.

The Department of Central Services (DCS) maintains the proceeds from the bond issuances and the State Fiscal Stabilization Fund (SFSF) and other grant monies. The funds from the bond issuances and the grant proceeds are administered by the DCS. The expenditures of the bond issuances and grant proceeds administered by DCS are included in the Authority’s operations.

The Authority is the primary reporting entity. ODOC and DCS are administrative agencies which perform some administrative functions for the Authority.

The financial statements of the Authority are intended to present the financial position and the changes in financial position of only that portion of the governmental activities and each major fund of the State that is attributable to the transactions of the Authority. These financial statements include only the activities of the Authority and not ODOC, DCS, or any other activities of the State. The Authority’s financial statements are included in the statewide financial statements of the State.

See Independent Auditors’ Report.

Reporting Entity, Continued

American Indian Cultural Center Foundation

The Authority is affiliated with a 501(c)(3) entity, the American Indian Cultural Center Foundation (the "Foundation"). The Foundation's goal is to be the fundraising arm of the Authority for the construction of the Museum. Presently, the Authority and the Foundation share approximately the same voting board of directors and have the same management group. The assets of the Foundation are being held for the benefit of the Authority. The Foundation is considered a blended component unit of the Authority. Therefore, the financial position and results of activities of the Foundation are included in the financial statements of the Authority and are accounted for in the Authority's governmental funds financial statements in a special revenue fund. A summary of the Foundation's financial statements at June 30 is as follows:

In 2014 and 2013, the Foundation received contributions of approximately \$896,000 and \$897,000, respectively, for general operations and consulting costs, which were concentrated from one source representing 99% of those contributions for both years. The Foundation also received approximately \$708,000 and \$866,000 in conditional contributions for the Capital Campaign, a fundraising campaign to raise funds via private, tribal, and public sources for the development of the Museum (the "Capital Campaign"), during 2014 and 2013, respectively. The 2014 conditional contributions were concentrated from two sources representing 99% of conditional contributions, and the 2013 conditional contributions were concentrated from two sources representing 98% of conditional contributions.

American Indian Cultural Center Foundation, Continued

In January 2008, the Foundation received \$4,906,222 from the City of Oklahoma City (the “City”) for reimbursement for the Brownfields Economic Development Initiative Grant (BEDI Grant) and the commitment for the Contract for Loan Guarantee Assistance under Section 108 of the Housing and Community Development Act of 1974. The amount was made up of a \$5,000,000 commitment, less \$93,778 worth of interest that was owed. The commitment was received by the Foundation and is owed to the Authority. During 2014 and 2013, the Foundation paid the Authority \$109,550 and \$1,579,339, respectively, of the amount owed, therefore resulting in a payable to the Authority of \$171,169 and \$280,719 as of June 30, 2014 and 2013, respectively. The net amount was eliminated on the government-wide financial statements.

Basis of Presentation

Government-Wide Financial Statements

The statements of net position and the statements of activities display information about the Authority as a whole. The Authority’s activities are all governmental in nature and generally are financed primarily through State appropriations and other nonexchange revenues (grants and contributions). The Authority has no business-type activities as defined by GASB 34.

Fund Financial Statements

Fund financial statements are normally organized into funds, each of which is considered to be a separate accounting entity. A fund is accounted for by providing a separate set of self-balancing accounts which constitute its assets, liabilities, fund equity, revenues, and expenditures/expenses.

The Authority’s governmental funds are comprised of the following:

- General Fund—accounts for general operations of the Authority.
- Special Revenue Fund—accounts for the operations of the Foundation. As discussed above, the Foundation’s primary purpose is to support the Authority.

The Authority has only governmental-type funds and no proprietary or fiduciary funds.

Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe “which” transactions are recorded within the various financial statements. Basis of accounting refers to “when” transactions are recorded, regardless of the measurement focus applied.

Measurement Focus

On the government-wide statements of net position and the statements of activities, the Authority’s activities are presented using the “economic resources” measurement focus as defined in Item *a* below.

In the fund financial statements, the “current financial resources” measurement focus is used as defined in Item *b* below.

- (a) The statements of net position and the statements of activities utilize an “economic resources” measurement focus. The accounting objectives of this measurement focus are the determination of changes in net position and financial position. All assets and liabilities (whether current or noncurrent) associated with their activities are reported.
- (b) The governmental funds utilize a “current financial resources” measurement focus. Only current financial assets and liabilities are generally included on the balance sheets. The operating statements present sources and uses of available spendable financial resources during a given period. The funds use fund balances as the measure of available spendable financial resources at the end of the period.

Basis of Accounting

In the government-wide statements of net position and statements of activities, the Authority’s activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic assets are used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchanges take place. Revenues, expenses, gains, losses, assets, and liabilities resulting from non-exchange transactions are recognized when the funds become available (have been collected/paid or are collected/paid soon after year-end).

See Independent Auditors’ Report.

Measurement Focus and Basis of Accounting, Continued

Basis of Accounting, Continued

In the fund financial statements, the governmental funds are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when “measurable and available.” Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or soon enough thereafter to pay current liabilities. The Authority considers 90 days as the timeframe for collectible. Expenditures (including capital outlay) are recorded when the related fund liability is incurred if the transaction will be funded with the Authority’s current financial resources, except for principal and interest which are reported when due.

Lease Receivable and Construction in Progress

In connection with the Authority’s capital lease obligations, the Oklahoma Capitol Improvement Authority (OCIA) issues bonds for the benefit of the Authority. Unexpended bond proceeds held by OCIA are reflected by the Authority as lease receivable; expended bond proceeds are reflected as construction in progress.

The unspent bond proceeds held by OCIA are invested. The Authority is allowed to spend portions of the earnings. For financial reporting purposes, earnings are recognized as expended. During 2014 and 2013, the Authority did not utilize such earnings for construction. However, the Authority was provided a credit against the capital lease obligations related to the earnings in the amount of approximately \$52,000 and \$272,000 in 2014 and 2013, respectively, which was recorded as other revenue and a reduction in capital lease obligations.

Restricted Assets

Restricted assets include funds restricted by the donors in the amount of \$5,154,465 and \$4,450,906 as of June 30, 2014 and 2013, respectively. The assets consist of cash and cash equivalents which are restricted for the development of the Museum. Such restricted assets represent conditional contributions received of \$5,040,382 and \$4,331,993 as of June 30, 2014 and 2013, respectively. The contributions are conditional upon the State making a commitment to contribute an additional \$40 million toward the development of the Museum, among other conditions on certain contributions.

Compensated Absences

Full-time continuous employees earn annual vacation leave at the rate of 10 hours per month for up to 5 years of service, 12 hours per month for service of over 5 years to 10 years, 13.2 hours per month for service of over 10 years to 20 years, and 16.4 hours per month for over 20 years of service. For employees with 5 or more years of service with the State, accrued annual leave up to a total of 480 hours is payable upon termination, resignation, retirement, or death. The statements of net position and the statements of activities account for compensated absences on an accrual basis. The amount reflected as a current liability is an estimate based on earned but unused annual leave.

Capital Lease Obligations

The Authority has entered into capital lease obligations, as more fully described in Note 6 to the financial statements. The amounts reflected in the statements of net position are the principal balances due as of June 30, 2014 and 2013.

Equity Classifications

Government-Wide Financial Statements

Equity is classified as net position and displayed in three components:

- (a) Invested in capital assets, net of related debt—consists of capital assets including restricted capital assets, net of accumulated depreciation/amortization and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- (b) Restricted net position—consists of net position with constraints placed on the use either by i) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or ii) law through constitutional provisions or enabling legislation.
- (c) Unrestricted net position—all other net position that do not meet the definition of “restricted” or “invested in capital assets, net of related debt.”

It is the Authority’s policy to first use restricted net position prior to the use of unrestricted net position when an expenditure is incurred for purposes for which both restricted and unrestricted net position are available.

Fund Financial Statements

Governmental fund equity is classified as fund balance. Fund balance is further classified as nonspendable, restricted, committed, assigned, and unassigned. These classifications are defined as:

- (a) Nonspendable fund balance—The nonspendable fund balance classification includes amounts that cannot be spent because they are either i) not in spendable form or ii) legally or contractually required to be maintained intact. This would include items not expected to be converted to cash, including inventories and prepaid amounts. It may also include the long-term amount of loans and receivables, as well as property acquired for resale and the corpus (principal) of a permanent fund.
- (b) Restricted fund balance—The restricted fund balance classification should be reported when constraints placed on the use of resources are either i) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or ii) imposed by law through constitutional provisions or enabling legislation.
- (c) Committed fund balance—The committed fund balance classification reflects specific purposes pursuant to constraints imposed by formal action of the Authority's and the Foundation's highest level of decision-making authority. Also, such constraints can only be removed or changed by the same form of formal action.

For purposes of a committed fund balance, the Authority's and the Foundation's Board of Directors (the "Board") is considered to be its highest level of decision making. Funds set aside by the Board as a committed fund balance require the approval by a majority vote of the members of the Board. Such approval must take place prior to the Authority's and the Foundation's fiscal year-end in order for it to be applicable to the Authority's and the Foundation's fiscal year-end, although it is permitted for the specific amount of the commitment to be determined after the fiscal year-end if additional information is required in order to determine the exact amount to be committed. The Board has the authority to remove or change the commitment of funds with a majority vote.

See Independent Auditors' Report.

Equity Classifications, Continued

Fund Financial Statements, Continued

- (d) Assigned fund balance—The assigned fund balance classification reflects amounts that are constrained by the Authority’s intent to be used for specific purposes, but meet neither the restricted nor committed forms of constraint. Assigned funds cannot cause a deficit in the unassigned fund balance.

For purposes of an assigned fund balance, the Authority has given authority to its Executive Director to assign funds for specific purposes. Any funds that the Executive Director assigns for specific purposes must be reported to the Authority’s Board at its next regular meeting. The assignment of funds shall be recorded in the Board’s official meeting minutes.

- (e) Unassigned fund balance—The unassigned fund balance classification is the residual classification for the general fund only. It is also where negative residual amounts for all other governmental funds would be reported. An unassigned fund balance essentially consists of excess funds that have not been classified in the other four fund balance categories mentioned above.

It is the Authority’s and the Foundation’s policy to first use the restricted fund balance prior to the use of the unrestricted fund balance when an expense is incurred for purposes for which both a restricted and an unrestricted fund balance are available. The Authority’s policy for the use of the unrestricted fund balance amounts require that committed amounts would be reduced first, followed by assigned amounts and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

Encumbrances

Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrance accounting is used, under which purchase orders, contracts, and other commitments for the expenditures of resources are recorded as expenditures of the applicable funds. This is an extension of the formal budgetary integration in the general fund. Encumbrances do not represent any further constraint on the use of amounts than is already communicated by governmental fund balance classification as restricted, committed, or assigned. As of June 30, 2014 and 2013, total encumbrances approximated \$108,000 and \$155,000, respectively.

Advertising Costs

All costs associated with advertising are expensed as incurred.

Federal Grant Revenues and Expenditures

The Authority's federal grant revenues are expenditure driven, in that prior to requesting grant monies, expenditures are incurred. At June 30, 2014 and 2013, no federal grant funds were available to the Authority.

Use of Estimates in Preparing Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Income Taxes

The Authority is a component unit of the State; therefore, it is exempt from federal and state income taxes. The Foundation is exempt from federal and state income taxes under Section 501(c)(3) of the Internal Revenue Code (IRC) and similar State provisions.

Income Taxes, Continued

The Foundation evaluates and accounts for its uncertain tax positions, if any, in accordance with Financial Accounting Standards Board *Accounting Standards Codification* Topic 740, "Income Taxes," including the Foundation's tax position as a tax-exempt, not-for-profit entity. Through the Foundation's evaluation of its uncertain tax positions, the Foundation's management has determined no uncertain tax positions existed as of June 30, 2014 or 2013, which would require the Foundation to record a liability for the uncertain tax positions in its financial statements. Federal and state income tax statutes dictate that tax returns filed in any of the previous three reporting periods remain open to examination. Currently, the Foundation has no open examinations with either the Internal Revenue Service or the Oklahoma Tax Commission.

Recent Accounting Pronouncement

In April 2013, GASB issued Statement No 70, *Accounting and Financial Reporting for Nonexchange Financial Guarantees* (GASB 70). GASB 70 will require a government that extends a nonexchange financial guarantee to recognize a liability when qualitative factors and historical data, if any, indicate that it is more likely than not that the government will be required to make a payment on the guarantee. A government that has issued an obligation guaranteed in a nonexchange transaction is to report the obligation until legally released as an obligor. This statement specifies the information required to be disclosed by governments that extend nonexchange financial guarantees. This statement requires new information to be disclosed by governments that receive nonexchange financial guarantees. The Authority adopted this statement effective July 1, 2013. The adoption had no impact on the Authority's financial statements.

Date of Management's Review of Subsequent Events

The Authority has evaluated subsequent events through November 7, 2014, the date that the financial statements were available to be issued, and determined that no subsequent events have occurred which require adjustment to or disclosure in the financial statements.

(2) RESTATEMENT

The 2013 financial statements have been restated to correct an error in recording construction in progress, equipment, and the related depreciation on certain equipment. Certain equipment purchased, constructed, and installed prior to July 1, 2013, was placed in service; however, the equipment was not removed from construction in progress and was not being depreciated. Such equipment is related to mechanical and supporting equipment such as HVAC and cooling systems, plumbing, and ducts, which is being utilized to preserve the integrity of the Museum in progress and the warranties on this equipment. The effects of the changes on the 2013 statement of net position and statement of activities are as follows:

(3) CURRENT STATUS OF THE MUSEUM

The State's decision to vote against capital funding for the Museum project in the 2013 and 2014 Legislative Session resulted in an indefinite suspension of construction until funds to complete the project are recognized. During the interim, preserving the Museum site and existing structures requires 24-hour presence and security, mechanical equipment warranty maintenance, building/grounds maintenance, and utilities expenses. This preservation plan has been contracted with the Museum's general contractor to avoid demobilization and totals approximately \$60,000 per month, which requires the use of operational appropriation funds until the future of the project is determined. Using appropriations results in an operational budget that does not allow for the much-needed growth of the Authority; however, it does provide enough to sustain current operations until the State approves additional funding or identifies an alternative plan and/or partnership in accomplishing the Museum completion. In fiscal year 2015, the Authority anticipates a flat operating budget (or the same State appropriation as fiscal year 2014). The fiscal year 2014 State appropriation was the same as the 2013 State appropriation. This will enable current Authority operations to continue.

The future of the Authority as a governing body, as well as the completion of the Museum project itself, are now in the hands of the State. With regard to construction, the Museum is approximately \$80 million short of completion. As of June 30, 2014, the Authority had secured \$40 million, which is largely comprised of conditional pledges and conditional donations from private donors that are contingent upon the State's match of funding to complete the project, among other conditions on certain pledges and donations. A viable roadmap to completion has been presented which will ensure usage of this \$40 million in non-state matching funds contingent on the State matching \$40 million in capital completion funds. This plan will be weighed and considered in the coming 2015 legislative session. A decision by the State not to match the non-state funds will likely result in the withdrawal of the \$40 million non-state funds currently pledged and thereby transfer of the total burden of completion back to the State. However, the State's commitment to provide the necessary matching capital funds will solidify a completion date for the Museum and will strengthen the Authority's future efforts in raising funds for operations for the Museum. The Authority is also exploring an option to transfer the project ownership to the City.

Total Foundation cash and cash equivalents	<u>\$ 5,884,027</u>	<u>5,217,863</u>

The Foundation maintains cash balances at one Oklahoma banking institution. At June 30, 2014, deposit accounts were insured by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000. A concentration of credit risk of \$5,118,593 existed on this account at June 30, 2014.

At June 30, 2014, the Foundation had \$515,434 invested in short-term money market mutual funds. The money market mutual funds are not guaranteed by the banking institution and are not insured or guaranteed by the FDIC.

(4) CASH AND CASH EQUIVALENTS, CONTINUED

As of June 30, 2014 and 2013, the cash held by the Foundation included \$515,434 and \$566,688, respectively, which was invested in a short-term money market mutual fund. As of June 30, 2014, the short-term money market mutual fund was invested in U.S. government agency obligations (81.8%) and U.S. treasuries (18.2%). As of June 30, 2013, the short-term money market mutual fund was invested in U.S. government agency obligations (67.6%) and U.S. treasuries (32.4%). As of June 30, 2014 and 2013, the credit rating of the short-term money market mutual fund was AAA by Standard & Poor's and Aaa by Moody's. The weighted average maturity of the investments in the short-term money market mutual fund was 48 and 50 days as of June 30, 2014 and 2013, respectively. As the short-term money market mutual fund is as liquid as cash, it is considered to be a cash equivalent.

Unrestricted

The unrestricted cash balance consists of cash of the Foundation held at a banking institution in Oklahoma and cash of the Authority held at the State Treasurer's office, as presented above. Cash balances of the Authority are part of the State's pooled cash system and, as such, are properly collateralized. The balance as of June 30 was as follows:

	<u>2014</u>	<u>2013</u>
Foundation	\$ 729,562	766,957
Held by the State Treasurer's office	<u>1,802,044</u>	<u>2,143,170</u>
	<u>\$ 2,531,606</u>	<u>2,910,127</u>

Restricted

At June 30, 2014 and 2013, restricted cash of \$5,154,465 and \$4,450,906, respectively, was due to donor-imposed restrictions. The restricted cash consisted of funds held by the Foundation in an Oklahoma banking institution. Such restricted assets represent conditional contributions received of \$5,040,382 and \$4,331,993 as of June 30, 2014 and 2013, respectively. The contributions are conditional upon the State making a commitment to contribute an additional \$40 million toward the development of the Museum, among other conditions on certain contributions.

In connection with the Authority's objective to build a museum, the Oklahoma Legislature approved House Bill 3066 and Senate Bills 73 and 1374. In 1999, House Bill 3066 authorized the issuance of the 1999C bond up to \$5,000,000 by OCIA on behalf of the Authority. The Authority signed a 20-year lease with OCIA dated September 11, 1999. The Authority began making payments September 11, 1999, and the lease term is through August 31, 2019, or until all indebtedness of OCIA incurred in connection with the project is paid or provision for payment therefore has been made. The lease has been accounted for as a capital lease, with a lease receivable established at an original amount of \$4,805,000. During 2005, OCIA refunded a portion of the 1999C bond issue, resulting in a change of lease terms. As a result, the lease receivable was reduced \$15,000.

In 2004, Senate Bill 73 authorized the issuance of the 2005C bond up to \$33,000,000 by OCIA on behalf of the Authority. The Authority signed a 20-year lease with OCIA dated May 12, 2005. The Authority began making principal payments July 1, 2007, and the lease term is through July 31, 2027, or until all indebtedness of OCIA incurred in connection with the project is paid or provision for payment therefore has been made. The lease has been accounted for as a capital lease, with a lease receivable established at an original amount of \$33,000,000.

(5) CAPITAL ASSETS, CONTINUED

In 2008, Senate Bill 1374 authorized the issuance of the 2008A bond up to \$25,380,000 by OCIA on behalf of the Authority. The Authority signed a 15-year lease with OCIA dated October 1, 2008. The Authority began making principal payments July 1, 2010, and the lease term is through June 30, 2025, or until all indebtedness of OCIA incurred in connection with the project is paid or provision for payment therefore has been made. The lease had been accounted for as a capital lease, with a lease receivable established at an original amount of \$25,380,000.

When the bonds are paid in full, the project will become the property of the Authority. The Authority is responsible for all maintenance, repairs, and insurance of the construction project. As the bond monies are spent, the lease receivable is reduced and construction in progress is increased. As of June 30, 2014 and 2013, all of the bond proceeds have been expended for construction; therefore, no lease receivable existed. Upon completion of certain project stages and when such related assets are available for use, the assets are reclassified to their respective asset category and depreciation will commence.

During the year ended June 30, 2010, the Authority completed and began utilizing the Visitor Center; therefore, the Authority began depreciating the cost of the Visitor Center and related equipment.

Certain mechanical and supporting equipment such as HVAC and cooling systems, plumbing, and ducts, are being utilized to preserve the integrity of the museum in progress and the warranties on this equipment. Such equipment was completed and placed in service in September 2011; therefore, the Authority began depreciating the equipment at that date.

The assets are valued at cost and are depreciated using the straight-line method over their estimated useful lives. The useful lives are as follows:

Land	N/A
Construction in progress	N/A
Furniture, fixtures, and equipment	5–25 years
Building—structural	40 years
Building—nonstructural	10–15 years

Depreciation expense for the years ended June 30, 2014 and 2013, was \$487,742 and \$492,212, respectively.

(6) CAPITAL LEASE OBLIGATIONS

The Authority has three capital lease obligations outstanding. The 1999C and 2004A, the 2005C, and the 2008A capital lease obligations. During 2005, the 1999C and 2004A lease obligation was changed due to the partial refunding of the bond issue by OCIA. The refunding was accomplished through the issuance of the 2004A Series bonds. The leased assets and related obligation are accounted for in the statements of net position.

OCIA issued revenue bonds to facilitate the purchase of the leased asset, and the lease payments made by the Authority will repay the principal of the bonds, plus interest. The following is a schedule of future minimum lease payments under the capital leases, together with the present value of the minimum lease payments as of June 30, 2014:

<u>Year Ending June 30,</u>	<u>1999C and 2004A Lease</u>	<u>2005C Lease</u>	<u>2008A Lease</u>	<u>Total</u>
2015	\$ 382,625	2,533,598	2,304,815	5,221,038
2016	382,750	2,534,410	2,304,415	5,221,575
2017	382,125	2,517,105	2,301,815	5,201,045
2018	380,750	2,508,855	2,301,778	5,191,383
2019	382,792	2,493,805	2,304,977	5,181,574
2020–2024	365,000	12,376,080	11,530,585	24,271,665
2025–2028	-	7,415,550	2,306,070	9,721,620
Minimum payments for capital leases	2,276,042	32,379,403	25,354,455	60,009,900
Less amount representing interest	(336,042)	(8,234,403)	(6,174,455)	(14,744,900)
Present value of minimum lease payments	<u>\$ 1,940,000</u>	<u>24,145,000</u>	<u>19,180,000</u>	<u>45,265,000</u>

As the lease payments are equal to the principal and interest due on the bonds, the present value of the minimum lease payments is equal to the outstanding principal due on the bonds.

1999C and 2004A Lease—The lease expires August 31, 2019, or at which time the bonds are paid in full. The Authority is responsible for all maintenance and insurance of the building. The bonds bear an interest rate of 2.5%–5.0% and mature through 2019.

2005C Lease—The lease expires July 31, 2027, or at which time the bonds are paid in full. The Authority is responsible for all maintenance and insurance of the building. The bonds bear an interest rate of 3.000%–4.941% and mature through 2027.

See Independent Auditors' Report.

(6) CAPITAL LEASE OBLIGATIONS, CONTINUED

2008A Lease—The lease expires June 30, 2025, or at which time the bonds are paid in full. The Authority is responsible for all maintenance and insurance of the building. The bonds bear an interest rate of 3.5%–5.3% and mature through 2025.

Changes in the lease obligations for the years ended June 30 were as follows:

	<u>2014</u>	<u>2013</u>
Balance, beginning of year	\$ 48,260,000	51,145,000
Principal payments in fiscal year	<u>(2,995,000)</u>	<u>(2,885,000)</u>

(6) CAPITAL LEASE OBLIGATIONS, CONTINUED

The lease agreements between the Authority and OCIA contain an available funds clause, in that if the Oklahoma Legislature does not appropriate funds for the lease payments, the Authority is under no obligation to make lease payments. If that were to occur, OCIA would terminate the lease.

(7) ACCRUED COMPENSATED ABSENCES

Changes in accrued compensated absences for the years ended June 30 were as follows:

	<u>2014</u>	<u>2013</u>
Balance, beginning of year	\$ 32,819	48,290
Amount earned	27,438	32,580
Amount used	<u>(19,236)</u>	<u>(48,051)</u>
Balance, end of year	<u>\$ 41,021</u>	<u>32,819</u>

For the statements of net position, the amounts estimated to be current are the available balances at June 30, 2014 and 2013.

(8) CONDITIONAL CONTRIBUTIONS RECEIVED

Conditional contributions received by the Foundation totaled \$5,040,382 and \$4,331,993 as of June 30, 2014 and 2013, respectively. The contributions are restricted for the Capital Campaign and are conditional upon the State making a commitment to contribute an additional \$40 million toward the development of the Authority's Museum, among other conditions on certain contributions. As of June 30, 2014 and 2013, such conditions were not met; therefore, the contributions are recorded as deferred inflows of resources in the Authority's statements of net position and governmental fund balance sheets.

(9) CONDITIONAL PLEDGES

As of June 30, 2014 and 2013, the Foundation had received written conditional pledges totaling approximately \$30,248,000 and \$30,948,000, respectively, in promises to contribute to the Capital Campaign. The pledges are conditional upon the State making a commitment to contribute an additional \$40 million toward the development of the Authority's Museum, among other conditions on certain pledges. As of June 30, 2014 and 2013, such conditions were not met; therefore, the conditional pledges have not been recorded in the Authority's financial statements. Conditional pledges are recorded as pledges receivable at the time such conditions have been met and collection is determinable.

(10) STATE APPROPRIATIONS

The Authority receives monies through appropriations from the State as approved by the Oklahoma Legislature. Appropriations received for both years ended June 30, 2014 and 2013, totaled \$6,784,354.

(11) RENT

During both years ended June 30, 2014 and 2013, \$28,380 was paid to a third party for rent of office space.

(12) PENSION PLAN

Description

The Authority's eligible staff are required to participate in the statewide and State-sponsored Oklahoma Public Employees Retirement System (OPERS) pension plan. In general, OPERS provides defined retirement benefits based on members' final compensation, age, and term of service. In addition, the retirement program provides for benefits upon disability and to survivors upon the death of eligible members.

OPERS has separately prepared audited financial statements which include historical trend information about the system. The trend information provides information about progress made in accumulating assets and paying benefits when due. Complete copies of the audited financial statements can be obtained from the Oklahoma Public Employees Retirement System, 5801 Broadway Extension, Suite 400, Oklahoma City, OK 73118.

Funding Policy

Plan members and the agencies are required to contribute at a rate established by state law. For State agencies, the contribution rate for the 2014, 2013, and 2012 fiscal years was 16.5% of all salaries; and for State employees, 3.5% of total salaries for 2014, 2013, and 2012.

(12) PENSION PLAN, CONTINUED

Funding Policy, Continued

The Authority paid 100% of all required pension contributions for 2014, 2013, and 2012. Approximate total pension expense for the Authority and amounts contributed by the employees to OPERS were as follows:

	<u>Authority Expense</u>	<u>Employee Contributions</u>
2014	\$ 75,000	18,000
2013	96,000	22,000
2012	99,000	23,000

**(13) OKLAHOMA STATE EMPLOYEES DEFERRED COMPENSATION PLAN AND
DEFERRED SAVINGS INCENTIVE PLAN**

Deferred Compensation Plan

The State offers its employees a Deferred Compensation Plan (the "Plan") as authorized by Section 457 of the IRC, as amended by the Tax Reform Act of 1986, and in accordance with the provisions of Sections 1701 through 1706 of Title 74 of the Oklahoma Statutes.

The supervisory authority for the management and operation of the Plan is the Board of Trustees of the Oklahoma Public Employees Retirement System (the "Board of Trustees").

The Plan is available to all State employees, as well as any elected officials receiving a salary from the State. Participants may direct the investment of their contributions in available investment options offered by the Plan. The minimum contribution amount is the equivalent of \$25 per month, and participants are immediately 100% vested in their respective accounts. All interest, dividends, and investment fees are allocated to participants' accounts.

Participants may defer until future years up to the lesser of 100% of their compensation as defined by plan documents or the maximum amount allowed each year as determined by the Internal Revenue Service, currently \$17,500.

See Independent Auditors' Report.

**(13) OKLAHOMA STATE EMPLOYEES DEFERRED COMPENSATION PLAN AND
DEFERRED SAVINGS INCENTIVE PLAN, CONTINUED**

Deferred Compensation Plan, Continued

The Plan offers a catch-up program to participants, which allows them to defer annually for the 3 years prior to their year of retirement up to twice that plan year's deferral limit. The amount of additional contributions in excess of the normal maximum contributions to the Plan is also limited to contributions for years in which the participant was eligible but did not participate in the Plan or the difference between contributions made and the maximum allowable level. To be eligible for the catch-up program, the participant must be within 3 years of retirement with no reduced benefits.

Participants age 50 or older may make additional contributions of up to \$5,500 annually, subject to certain limits.

Deferred compensation benefits are paid to participants or beneficiaries upon termination, retirement, death, or unforeseeable emergency. Such benefits are based on a participant's account balance and are disbursed in a lump sum or periodic payments at the option of the participant or beneficiaries in accordance with the Plan's provisions.

Effective January 1, 1998, the Board of Trustees established a trust and a trust fund covering the Plan's assets, pursuant to federal legislation enacted in 1996, requiring public employers to establish such trusts for plans meeting the requirements of Section 457 of the IRC no later than January 1, 1999. Under the terms of the trust, the corpus or income of the Trust Fund may be used only for the exclusive benefit of the Plan's participants and their beneficiaries. Prior to the establishment of the trust, the Plan's assets were subject to the claims of general creditors of the State. The Board of Trustees acts as trustee of the trust. The participants' accounts are invested in accordance with the investment elections of the participants. The Board of Trustees is accountable for all deferred compensation received, but has no duty to require any compensation to be deferred or to determine that the amounts received comply with the Plan or to determine that the trust fund is adequate to provide the benefits payable pursuant to the Plan.

Further information may be obtained from the Oklahoma State Employees Deferred Compensation Plan's audited financial statements for the years ended June 30, 2014 and 2013. The Authority believes that it has no liabilities with respect to the Plan.

**(13) OKLAHOMA STATE EMPLOYEES DEFERRED COMPENSATION PLAN AND
DEFERRED SAVINGS INCENTIVE PLAN, CONTINUED**

Deferred Savings Incentive Plan

Effective January 1, 1998, the State established the Oklahoma State Employees Deferred Savings Incentive Plan (the “Savings Incentive Plan”) as a money purchase pension plan pursuant to IRC Section 401(a). The Savings Incentive Plan and its related trust are intended to meet the requirements of IRC Sections 401(a) and 501(a).

Any qualified participant who is a State employee and is an active participant in the Plan is eligible for a contribution of the amount determined by the Oklahoma Legislature, currently the equivalent of \$25 per month. Participation in the Savings Incentive Plan is automatic in the month of participation in the Plan and is not voluntary.

Upon cessation of contributions to the Plan, termination of employment with the State, retirement, or death, a participant will no longer be eligible for contributions from the State into the Savings Incentive Plan. Participants are at all times 100% vested in their Savings Incentive Plan account. Participant contributions are not required or permitted. Qualified participants may make rollover contributions to the Savings Incentive Plan, provided such rollover contributions meet applicable requirements of the IRC. Plan participants may direct the investment of the contributions in available investment options offered by the Savings Incentive Plan. All interest, dividends, and investment fees are allocated to the participants’ accounts.

Savings Incentive Plan benefits are paid to participants or beneficiaries upon termination, retirement, or death. Such benefits are based on a participant’s account balance and are disbursed in a lump sum or periodic payments or may be rolled over to a qualified plan at the option of the participant or beneficiaries.

(14) RISK MANAGEMENT

The Risk Management Division of the Department of Central Services (the “Division”) is responsible for the acquisition and administration of all insurance purchased by the State or administration of any self-insurance plans and programs adopted for use by the State for certain organizations and bodies outside of state government, at the sole expense of such organizations and bodies.

See Independent Auditors’ Report.

**NATIVE AMERICAN CULTURAL AND
EDUCATIONAL AUTHORITY**

NOTES TO FINANCIAL STATEMENTS, CONTINUED

(14) RISK MANAGEMENT, CONTINUED

The Division is authorized to settle claims of the State and shall govern the dispensation and/or settlement of claims against a political subdivision. In no event shall self-insurance coverage provided by the State, an agency, or other covered entity exceed the limitations on the maximum dollar amount of liability specified by the Oklahoma Government Tort Claims Act, as provided by Title 51 O.S. Supp. 1988, Section 154. The Division oversees the collection of liability claims owed to the State incurred as the result of a loss through the wrongful or negligent act of a private person or other entity.

The Division is also charged with the responsibility to immediately notify the attorney general of any claims against the State presented to the Division. The Division purchases insurance policies through third-party insurance carriers that ultimately inherit the risk of loss. The Division annually assesses each State agency, including the Authority, their pro rata share of the premiums purchased. The Authority has no obligations to any claims submitted against the Authority.

(15) COMMITMENTS AND CONTINGENT LIABILITIES

Contracts

The Authority has issued certain contracts for construction, maintenance, and security of the Museum which will be funded by current financial resources and appropriations from the State.

Grant Agreement and Contract

As discussed in Note 1, in January 2008 the Foundation received \$4,906,222 from the City for reimbursement for the BEDI Grant and the commitment for the Contract for Loan Guarantee Assistance under Section 108 of the Housing and Community Development Act of 1974. Under the 20-year term of the grant agreement and contract, the Authority is required to comply with all of the terms and conditions and covenants contained in the grant agreement and contract. The City may demand repayment of the grant and contract if the Authority does not comply with such terms and conditions and covenants. The Authority's management believes it is in compliance with the grant agreement and contract.

Federal Grant Programs

The Authority participates in a number of federally assisted grant programs. These programs are subject to audits by the grantors or their representatives. Such audits could lead to requests for reimbursement by the grantor agency for expenditures disallowed under the terms of the grant. Presently, the Authority has no such requests pending and, in the opinion of management, any such amounts would not be considered material.

Board of Directors
Native American Cultural and Educational Authority

We have audited, in accordance with the auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of the Native American Cultural and Educational Authority (the "Authority"), which is a part of the State of Oklahoma financial reporting entity, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements, and have issued our report thereon dated November 7, 2014. Our report includes an explanatory paragraph to emphasize the fact that the financial statements include only that portion of the State of Oklahoma that is attributable to transactions of the Authority. In addition, our report includes an explanatory paragraph disclaiming an opinion on required supplementary information and an explanatory paragraph to emphasize the correction of an error in recording construction in progress, equipment, and the related depreciation on certain equipment.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Authority's internal control over financial reporting ("internal control") to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Authority's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

INTERNAL CONTROL OVER FINANCIAL REPORTING AND
ON COMPLIANCE AND OTHER MATTERS BASED ON
AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS, CONTINUED**

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
