## Independent Auditor's Report

To the Board of Trustees  
Town of Wellston, Oklahoma

### **Report on the Financial Statements**

We have audited the accompanying modified cash-basis financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Town of Wellston, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash-basis of accounting described in Note 1. This includes determining that the modified cash-basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective modified cash-basis financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Town of Wellston, as of June 30, 2015, and the respective changes in modified cash-basis financial position, and, where applicable, cash flows thereof for the year then ended in conformity with the basis of accounting described in Note 1.

## **Other Matters**

### **Required Supplementary Information**

Management has omitted the management's discussion and analysis and budgetary comparison information that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

### **Other Reporting Required by Government Auditing Standards**

In accordance with Government Auditing Standards, we have also issued our report dated August 12, 2015, on our consideration of the Town of Wellston's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Town of Wellston's internal control over financial reporting and compliance.

### **Basis of Accounting**

We draw attention to Note 1 of the financial statements that describes the basis of accounting. The financial statements are prepared on the modified cash-basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinions are not modified with the respect to this matter.

## **NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

As discussed further in Note 1.C, these financial statements are presented on a modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America (GAAP) established by the Governmental Accounting Standards Board (GASB). These modified cash-basis financial statements generally meet the presentation and disclosure requirements applicable to GAAP, in substance, but are limited to the elements presented in the financial statements and the constraints of the measurement and recognition criteria of the modified cash basis of accounting.

### **1.A. FINANCIAL REPORTING ENTITY**

The Town of Wellston, Oklahoma is a statutory Town Government under Oklahoma Statutes. The Town provides the following services: public safety, streets and highways, sanitation, public improvements, utilities and general administrative services.

The criteria used to determine which accounting entities, agencies, commissions, boards and authorities are part of the Town's operations include how the budget is adopted, whether debt is secured by general obligation of the Town, the Town's duty to cover any deficits that may occur, and supervision over the accounting functions. Any separate accounting entities would be considered component units. There are no agencies, organizations or activities meeting any of the above criteria that are excluded from the Town's reporting entity. As of June 30, 2015, the Town has one component, the Wellston Public Works Authority.

### **1.B. BASIS OF PRESENTATION**

#### **GOVERNMENT-WIDE FINANCIAL STATEMENTS**

The Statement of Net Position and Statement of Activities display information about the reporting government as a whole within the limitations of the modified cash basis of accounting. They include all funds of the reporting entity except for fiduciary funds. The statements distinguish between governmental and business-type activities.

Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange revenues. Business-type activities are financed, in whole or part, by fees charged to external parties for goods or services.

#### **FUND FINANCIAL STATEMENTS**

Fund financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitutes its assets, deferred outflows, liabilities, deferred inflows, net position or fund balance, revenues, and expenditures or expenses. The Town's funds are organized into two major categories: governmental and proprietary. The Town presently has no fiduciary funds. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the Town or meets the following criteria:

- a. Total assets, deferred outflows, liabilities, deferred inflows, revenues, or expenditures or expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type.

- b. Total assets, deferred outflows, liabilities, deferred inflows, revenues, or expenditures or expenses of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

The funds of the financial reporting entity are described subsequently:

### **Governmental Funds**

#### **General Fund**

The General Fund is the primary operating fund of the Town and always classified as a major fund. It is used to account for all financial resources not accounted for and reported in another fund.

#### **Special Revenue Funds**

Special Revenue Funds are used to account for and report the proceeds of the specific revenue sources that are either restricted or committed to expenditures for specified purposes other than debt service or capital projects. The reporting entity includes the following special revenue funds, all of which are reported as nonmajor funds: Cemetery Fund.

### **Proprietary Funds**

#### **Enterprise Fund**

Enterprise funds are used to account for business-like activities provided to the general public. These activities are financed primarily by user charges, and the measurement of financial activity focuses on net income measurement similar to the private sector. The reporting entity includes the following enterprise fund that is reported as a major fund: Wellston PWA.

## **1.C. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING**

Measurement focus is a term used to describe what transactions or events are recorded within the various financial statements. Basis of accounting refers to when and how transactions or events are recorded, regardless of the measurement focus applied.

### **MEASUREMENT FOCUS**

In the government-wide Statement of Net Position and Statement of Activities, both governmental and business-like activities are presented using the economic resources measurement focus, within the limitations of the modified cash basis of accounting, as subsequently defined in item (b).

In the fund financial statements, the current financial resources measurement focus or the economic resources measurement focus, as applied to the modified cash basis of accounting, is used as appropriate:

- a. All governmental funds utilize a current financial resources measurement focus within the limitations of the modified cash basis of accounting. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.
- b. The proprietary fund utilizes an economic resources measurement focus within the limitations of the modified cash basis of accounting. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery), net financial position, and cash flows. All assets, deferred outflows, liabilities, and deferred

inflows (whether current or noncurrent or financial or nonfinancial) associated with their activities are generally reported within the limitations of the modified cash basis of accounting.

## **BASIS OF ACCOUNTING**

The financial statements are presented on a modified cash basis of accounting, which is a basis of accounting other than GAAP as established by GASB. This basis of accounting involves modifications to the cash basis of accounting to report in the statements of net position or balance sheets cash transactions or events that provide a benefit or result in an obligation that covers a period greater than the period in which the cash transaction or event occurred. Such reported balances include investments, interfund receivables and payables, capital assets and related depreciation, and short-term and long-term liabilities arising from cash transactions or events.

This modified cash basis of accounting differs from GAAP primarily because certain assets and their related revenues (such as accounts receivable and revenue for billed or provided services not yet collected and other accrued revenue and receivables) and certain liabilities and their related expenses or expenditures (such as accounts payable and expenses for goods or services received but not yet paid and other accrued expenses and liabilities) are not recorded in these financial statements. In addition, other economic assets, deferred outflows, liabilities, and deferred inflows that do not arise from a cash transaction or event are not reported, and the measurement of reported assets and liabilities does not involve adjustment to fair value.

If the Town utilized the basis of accounting recognized as generally accepted in the United States, the fund financial statements for governmental funds would use the modified accrual basis of accounting, and the fund financial statements for proprietary fund types would use the accrual basis of accounting. All government-wide financial statements would be presented on the accrual basis of accounting.

## **1.D. FINANCIAL POSITION**

### **CASH AND CASH EQUIVALENTS**

For the purpose of financial reporting, cash and cash equivalents includes all demand and savings accounts and certificates of deposit or short-term investments with an original maturity of three months or less. Trust account investments in open-ended mutual fund shares are also considered cash equivalents.

### **INVESTMENTS**

Investments classified in the financial statements consist entirely of certificates of deposit acquired with cash whose original maturity term exceeds three months. Investments are carried at cost, which approximates fair value.

### **CAPITAL ASSETS**

The Town's modified cash basis of accounting reports capital assets resulting from cash transactions or events and reports depreciation, when appropriate. The accounting treatment over property, plant, and equipment (capital assets) depends on whether the assets are used in governmental fund operations or proprietary fund and similar discretely presented component unit operations and whether they are reported in the government-wide or fund financial statements.

### **Government-Wide Statements**

In the government-wide financial statements, capital assets arising from cash transactions or events are

accounted for as assets in the Statement of Net Position. All capital assets are valued at historical cost or estimated historical cost if actual is unavailable.

Depreciation of all exhaustible capital assets arising from cash transactions or events is recorded as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. A capitalization threshold of \$500 is used to report capital assets. The range of estimated useful lives by type of asset is as follows:

Buildings	40-50 years
Improvements other than buildings	10-25 years
Machinery, furniture, and equipment	3-20 years
Utility property and improvements	10-50 years
Infrastructure	25-50 years

### Fund Financial Statements

In the fund financial statements, capital assets arising from cash transactions or events acquired for use in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets acquired for use in proprietary fund operations are accounted for the same as in the government-wide statements.

### LONG-TERM DEBT

All long-term bonds, notes, and other debt arising from cash transactions or events to be repaid from governmental and business-type resources are reported as liabilities in the government-wide statements.

Long-term debt arising from cash transactions or events of governmental funds is not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources, and payment of principal and interest is reported as expenditures. The accounting for proprietary funds is the same in the fund financial statements as the treatment in the government-wide statements.

### NET POSITION/FUND BALANCE CLASSIFICATIONS

#### Government-Wide Statements

Net Position is classified and displayed in three components:

1. *Net investment in capital assets.* Consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvements of those assets and adjusted for any deferred inflows and outflows of resources attributable to capital assets and related debt.
2. *Restricted.* Consists of restricted assets reduced by liabilities and deferred inflows or resources related to those assets, with restriction constraints placed on the use either by external groups, such as creditors, grantors, contributors, or laws and regulations of other governments, or law through constitutional provisions or enabling legislation.
3. *Unrestricted.* Net amount of assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position.

It is the Town's policy to first use restricted net resources prior to the use of unrestricted net resources when an expense is incurred for purposes for which both restricted and unrestricted net resources are available.

## **Fund Financial Statements**

### **Governmental Funds**

The difference among assets, deferred outflows, liabilities, and deferred inflows of governmental funds is reported as fund balance and classified as nonspendable, restricted, committed, assigned, and unassigned based on the respective level of constraint. These constraints are defined as follows:

**Nonspendable.** Amounts that cannot be spent because they either are not in spendable form or are legally or contractually required to be maintained intact.

**Restricted.** Amounts constrained regarding use from restrictions externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or by restrictions imposed by law through constitutional provisions or enabling legislation.

**Committed.** Amounts constrained regarding use for specific purposes pursuant to requirements imposed by formal action of the Town's highest level of decision-making authority. (In the case of the Town of Example, commitments are evidenced by adoption of an ordinance by the Town Council.)

**Assigned.** Amounts constrained by the Town's intent to be used for specific purposes but that are neither restricted nor committed. (In the case of the Town of Example, assignments are evidenced either by resolution of the Town Council or by the Town Manager in written form as approved by vote of the Town Council pursuant to Town policy.)

**Unassigned.** The residual classification of the General Fund for spendable amounts that have not been restricted, committed, or assigned to specific purposes.

It is the Town's policy to first use restricted fund balances prior to the use of unrestricted fund balances when an expenditure is incurred for purposes for which both restricted and unrestricted fund balances are available. It is also Town policy to use committed fund balances before assigned fund balances and assigned fund balances before unassigned amounts when an expenditure is incurred for purposes for which amounts in those classifications are available to be used.

The Town has no formal minimum fund balance policies or any formal stabilization arrangements in place.

### **Proprietary Funds**

The difference among assets, deferred outflows, liabilities, and deferred inflows of proprietary funds is reported as net position and classified in the same manner as the government-wide financial statements, as previously described.

## **1.E. REVENUES, EXPENDITURES, AND EXPENSES**

### **PROGRAM REVENUES**

In the Statement of Activities, modified cash-basis revenues that are derived directly from each activity or from parties outside the Town's taxpayers are reported as program revenues. The Town has the following program revenues in each activity: General Government, Streets, and Public Works.

All other governmental revenues are reported as general revenues. All taxes are classified as general revenue even if restricted for a specific purpose.

## OPERATING REVENUE AND EXPENSES

Operating revenues and expenses for proprietary funds and the similar discretely presented component unit result from providing services and producing and delivering goods or services. They also include all revenues and expenses not related to capital and related financing, noncapital financing, or investing activities.

## GASB 34 IMPLEMENTATION

The Town has implemented the new financial reporting model, as required by the provisions of GASB Statement No. 34, Basic Financial Statements—and Management’s Discussion and Analysis—for State and Local Governments, as of June 30, 2004.

### **1.G. USE OF ESTIMATES**

The preparation of financial statements in conformity with the modified cash basis of accounting used by the Town requires management to make estimates and assumptions that affect certain reported amounts and disclosures (such as estimated useful lives in determining depreciation expense); accordingly, actual results could differ from those estimates.

### **NOTE 2. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY**

By its nature as a local government unit, the Town and its component units are subject to various federal, state, and local laws and contractual regulations. The following instances of noncompliance are considered material to the financial statements.

### **NOTE 3. DEPOSITS WITH FINANCIAL INSTITUTIONS**

The accounts of the Town are required by state law to be secured by collateral pledged by the financial institution and/or FDIC insurance. The Town of Wellston is considered a separate entity from the Wellston Public Works Authority for FDIC deposit insurance.

In accordance with GASB No. 3, deposits are to be classified into the following three categories:

1. Insured or collateralized with securities held by the entity or by its agent or in the entity's name (Referred to as category 1)
2. Collateralized with securities held by pledging financial institution's trust department or agent in the entity's name. (Referred to as category 2)
3. Uncollateralized, including any bank balance that is collateralized with securities held by the pledging institution, or by its trust department or agent but not in the entity's name. (Referred to as category 3)

All of the town of Wellston's government and enterprise fund cash and investment accounts would be considered as category 1 up to its FDIC limits of \$250,000 for the governmental funds and \$250,000 for the Wellston Public Works Authority. The remaining funds would be categorized as category 3.

#### NOTE 4. CAPITAL ASSETS AND DEPRECIATION

Capital Asset activity for the year ended June 30, 2015 was as follows:

##### Governmental Funds

	Beginning			Ending
	Balance	Increases	Decreases	Balance
Land	\$ 64,750	-	-	\$ 64,750
Equipment	532,698	106,324	-	639,022
Buildings & Improvements	179,579	7,100	-	186,679
Total	777,027			890,451
Accumulated Depreciation	(376,175)	(38,843)	-	(415,018)
Net Assets	<u>\$ 400,852</u>			<u>\$ 475,433</u>

As of June 30, 2015, the governmental funds had no capitalized assets that were not being depreciated or had not been depreciated. Depreciation is computed using the straight line method of depreciation over the estimated useful lives of the assets. Assets are recorded at cost or their estimated fair market value for those assets where recorded were not available.

##### Public Works Authority

	Beginning			Ending
	Balance	Increases	Decreases	Balance
Equipment	\$ 105,480	-	-	\$ 105,480
Post Office	357,049	16,675	-	373,724
Water System	450,000	-	-	450,000
Sewer System	973,793	-	-	973,793
Water Plant and Line	1,890,197	-	-	1,890,197
Total	3,776,519			3,793,194
Accumulated Depreciation	(2,255,055)	(109,225)	-	(2,364,280)
Net Assets	<u>\$ 1,521,464</u>			<u>\$ 1,428,914</u>

As of June 30, 2015, the Public Works Authority had no capitalized assets that were not being depreciated or had not been depreciated. Depreciation is computed using the straight line method of depreciation over the estimated useful lives of the assets. Assets are recorded at cost or their estimated fair market value for those assets where recorded were not available.

Depreciation was recorded as follows: General Government – \$12,990; Fire Department - \$15,143; Police Department - \$10,709; and Public Works Authority - \$109,225.

#### NOTE 5. NOTES PAYABLE

##### Town of Wellston

Long term debt recorded in the long term debt account group consists of four notes payable.

The first note payable is to Stroud National Bank and carries an interest rate of 4.0%. These monies were used to purchase a police truck. Collateral for this loan is the truck. This loan has monthly payments of \$435.52 and matures January 2017. The outstanding balance at June 30, 2015 was \$8,043. Principal and

interest paid during the year ending June 30, 2015 was \$4,784 and \$443, respectively. Interest on this loan was charged to the police department for the year ending June 30, 2015.

	Principal	Interest		
2015/2016	4,997	229	Balance, Beginning of year	\$ 12,827
2016/2017	3,046	40	Principal Paid during year	4,784
Total	<u>\$ 8,043</u>	<u>\$ 269</u>	Balance, End of Year	<u>\$ 8,043</u>

The second note payable is to First Bank & Trust and carries an interest rate of 2.85%. These monies were used to purchase a police truck. Collateral for this loan is the truck. The loan has monthly payments of \$631 and matures May 2019. The outstanding balance at June 30, 2015 was \$28,017. Principal and interest paid during the year ending June 30, 2015 was \$555 and \$76, respectively. Interest on this loan was charged to the police department for the year ending June 30, 2015.

	Principal	Interest		
2015/2016	6,865	710	Balance, Beginning of year	\$ -
2016/2017	7,063	512	Amount Financed	28,572
2017/2018	7,267	308	Principal Paid during year	555
2018/2019	6,821	100	Balance, End of Year	<u>\$ 28,017</u>
Total	<u>\$ 28,017</u>	<u>\$ 1,629</u>		

The third note payable is to First Bank & Trust and carries an interest rate of 2.85%. These monies were used to purchase a fire truck. Collateral for this loan is the truck. The loan has monthly payments of \$635 and matures August 2015. The outstanding balance at June 30, 2015 was \$23,007. Principal and interest paid during the year ending June 30, 2015 was \$5,728 and \$622, respectively. Interest on this loan was charged to the fire department for the year ending June 30, 2015.

	Principal	Interest		
2015/2016	23,007	108	Balance, Beginning of year	\$ -
Total	<u>\$ 23,007</u>	<u>\$ 108</u>	Amount Financed	28,735
			Principal Paid during year	5,728
			Balance, End of Year	<u>\$ 23,007</u>

The fourth note payable is to First Bank & Trust and carries an interest rate of 3%. These monies were used to purchase a mower. Collateral for this loan is the mower. The loan has monthly payments of \$206 and matures July 2018. The outstanding balance at June 30, 2015 was \$7,251. Principal and interest paid during the year ending June 30, 2015 was \$2,028 and \$238, respectively. Interest on this loan was charged to the ambulance department for the year ending June 30, 2015.

	Principal	Interest		
2015/2016	2,281	186	Balance, Beginning of year	\$ -
2016/2017	2,350	117	Amount Financed	9,279
2017/2018	2,422	45	Principal Paid during year	2,028
2018/2019	199	10	Balance, End of Year	<u>\$ 7,251</u>
Total	<u>7,251</u>	<u>358</u>		

Wellston Public Works Authority

As of June 30, 2015, the Wellston Public Works Authority had three long-term notes outstanding with the Rural Development, a division of the United States Department of Agriculture. Collateral for these loans are the assets and revenues of the water and sewer utility system.

The first note with Rural Development has an outstanding balance of \$112,319 and carries an interest rate of 5%. The monthly payment amount is \$2,210 and will mature in March 2020. Principal and interest paid on this note during the year was \$20,883 and \$5,637, respectively. The amount of principal and interest needed for the next five years and till maturity by five year increments is as follows:

	<u>Principal</u>	<u>Interest</u>		
2015/2016	21,382	5,140	Balance, Beginning of year	\$ 133,203
2016/2017	22,476	4,046	Principal Paid during year	<u>20,883</u>
2017/2018	23,624	2,896	Balance, End of Year	<u><u>\$ 112,320</u></u>
2018/2019	24,833	1,687		
2019/2020	20,005	435		
Total	<u>\$ 112,320</u>	<u>\$ 14,203</u>		

The second note with Rural Development has an outstanding balance of \$199,568 and carries an interest rate of 5%. The monthly payment amount is \$1,512 and will mature in June 2031. Principal and interest paid on this note during the year was \$8,785 and \$9,359, respectively. The amount of principal and interest needed for the next five years and till maturity by five year increments is as follows:

	<u>Principal</u>	<u>Interest</u>		
2015/2016	8,332	9,811	Balance, Beginning of year	\$ 208,353
2016/2017	8,758	9,385	Principal Paid during year	<u>8,785</u>
2017/2018	9,207	8,937	Balance, End of Year	<u><u>\$ 199,568</u></u>
2018/2019	9,678	8,466		
2019/2020	10,173	7,971		
2020/2025	59,223	31,497		
2025/2030	76,005	14,715		
2030/2031	18,192	532		
Total	<u>\$ 199,568</u>	<u>\$ 91,315</u>		

The third note with Rural Development has an outstanding balance of \$305,285 and carries an interest rate of 4.5%. The monthly payment amount is \$1,823 and will mature in June 2037. Principal and interest paid on this note during the year was \$9,079 and \$12,797, respectively. The amount of principal and interest needed for the next five years and till maturity by five year increments is as follows:

	Principal	Interest		
2015/2016	8,304	13,572	Balance, Beginning of year	\$ 314,364
2016/2017	8,686	13,190	Principal Paid during year	<u>9,079</u>
2017/2018	9,085	12,791	Balance, End of Year	<u><u>\$ 305,285</u></u>
2018/2019	9,502	12,374		
2019/2020	9,938	11,938		
2020/2025	56,975	52,405		
2025/2030	71,321	38,059		
2030/2035	89,280	20,100		
2035/2037	42,194	2,034		
Total	<u>\$ 305,285</u>	<u>\$ 176,462</u>		

As of June 30, 2015, the Wellston Public Works Authority had one long-term note outstanding with the Stroud National Bank. The loans are represented as follows:

Note payable to the Stroud National Bank carries an interest rate of 8.10%. These monies were used to build the local Post Office, which is leased to the U.S. Postal Service. Collateral for this loan is the new building. The balance of this note as of June 30, 2015 was \$48,400 and matures in May 2017. The Wellston Public Works Authority paid \$32,489 in principal and \$2,845 in interest on this obligation for the year ending June 30, 2015. Payments on this note are \$2,654 per month.

	Principal	Interest		
2018/2019	28,194	1,687	Balance, Beginning of year	\$ 80,889
2019/2020	20,206	435	Principal Paid during year	<u>32,489</u>
Total	<u>\$ 48,400</u>	<u>\$ 2,122</u>	Balance, End of Year	<u><u>\$ 48,400</u></u>

During the year ending June 30, 2015, \$20,845 of interest was attributable to water operations, \$6,948 was attributable to sewer operations and \$2,846 to the Post Office operations.

#### **NOTE 6. VOLUNTEER FIREFIGHTER PENSION PLAN**

The Town participates in the Oklahoma State Firefighters Pension and Retirement system which is a defined contribution plan applying only to the Town's volunteer firefighters. Vesting occurs after 10 years of service and payments begin at age 50, or after 20 years of service, whichever is later. Contributions are made by the town at the rate of \$60 per volunteer firefighter per year. The total contribution for 2014/2015 was \$900 and covered 15 volunteers.

#### **NOTE 7. DEFINED BENEFIT PENSION PLAN**

Plan Description: The Town of Wellston contributes to the Oklahoma Municipal Retirement Fund, (the Fund), a cost-sharing multiple-employer defined benefit pension plan administered by the Trust Department of Liberty National Bank of Oklahoma Town. The Fund provides retirement, death and disability benefits to plan members who are regular full-time employees of participating municipalities, except for employees covered under other retirement plans. The authority to establish and amend benefit provisions to the Fund rest with the Fund's Board of Directors. The Oklahoma Municipal Retirement Fund issues a publicly available financial report that includes financial statements and required supplementary information for the Fund, including 10 year historical information. That report may be obtained from the Fund administrator, Nations Bank.

Funding Policy — Plan employers are required to contribute 7.63% of gross monthly salary and employees 3.75% of gross salary. These rates are actuarially determined. These rates may be amended by the Fund's Board of Directors. The Town's contributions to the Fund for the year ending June 30, 2015 were \$18,618. The employee's portion was \$9,150. Total covered payroll was \$244,011. These amounts were equal to the required contributions. Total payroll for the Town and Public Works Authority was \$278,979 for the year ending June 30, 2015.

#### **NOTE 8. SUBSEQUENT EVENTS**

Subsequent events have been evaluated through August 12, 2015, which is the date the financial statements were issued.

## INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Trustees  
Town of Wellston

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the accompanying modified cash basis financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Town of Wellston, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise Town of Wellston's basic financial statements, and have issued our report thereon dated August 12, 2015.

The report was a special report on the Town's use of a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Town of Wellston's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Town of Wellston's internal control. Accordingly, we do not express an opinion on the effectiveness of Town of Wellston's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and responses that we consider to be significant deficiencies. 2015-1 & 2015-2.

## **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Town of Wellston's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

## **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

August 12, 2015

## Schedule of Findings and Responses

### **2015-1 Ticket Revenue (Lack of Segregation of Duties) (Repeat Finding)**

CONDITION: The court clerk collects the payments from customers and also maintains the ticket ledgers. The court clerk also accepts cash payments but no reconciliation of cash payments have been made. The court clerk also maintains a daily payment ledger. The daily collections are reviewed by the Town Clerk/Treasurer but the Town Clerk/Treasurer is also reconciling the bank statements.

CRITERIA: There should be more separation of duties for record keeping and ticket collections.

CAUSE OF CONDITION: Limited Staff and inadequate internal controls.

EFFECT OF CONDITION: The Town is vulnerable to having ticket receipts lost or stolen.

RECOMMENDATION: The Town should implement a policy of not accepting cash payments at Town hall. The Town could also implement more internal controls by having more separation of duties. This could be done by having the personnel write receipts for all payments made regardless of type and then recording these payments on the daily ticket payment ledger. All payments, receipts, and a copy of the daily ticket payment ledger should be given directly to the Treasurer at the end of the day. The Court clerk should then take the original daily payment ledger to record the payments in the system. Once all payments have been recorded in the system, the court clerk should print off a payment listing from the system as well as a daily adjustment history to insure that no unnecessary adjustments have been paid, the Court clerk should also prepare the deposit slip at this time and retain the carbon copy. These reports along with the original daily ticket payment ledger and original of the deposit slip should be given to the Treasurer who should then compare the total payments and receipts written to the daily payment ledger, daily payment listing from system, and daily adjustment history. The Treasurer should then staple all documents together and give these back to the court clerk. When the Treasurer returns from the bank she should give the bank deposit receipt to the court clerk who should compare the receipt to the previous documents given to her by the Treasurer and also compare the carbon copy of the deposit slip to the bank deposit receipt. The Court clerk should then staple everything together and maintain for the audit files.

MANAGEMENT RESPONSE: Limited staff will continue to be a problem as the Town of Wellston does not have sufficient revenues to justify hiring different people to do different functions. For example, the Town Treasurer also has the duties of being the Court Clerk. To alleviate part of the problem, beginning immediately, the Town of Wellston Municipal Court will no longer accept cash payments. The Court Clerk will also start utilizing existing software to prepare receipts for payment of tickets plus generating a ticket ledger. The Town Clerk, who also serves as the Assistant Court Clerk, will begin checking ticket receipts against deposit slips for that account.

### **2015-2 Utility Billing Collections (Lack of Segregation of Duties) (Repeat Finding)**

CONDITION: The utility billings clerk collects the payments from customers and also maintains the customer ledgers. The billings clerk also accepts cash payments but no reconciliation of cash payments have been made. The billings clerk also maintains a daily payment ledger however not all cash payments have been reflected on these ledgers. The daily collections and reports are reviewed by the Town Clerk/Treasurer but the Town Clerk/Treasurer is also reconciling the bank statements.

CRITERIA: There should be more separation of duties for record keeping and utility billings collections.

CAUSE OF CONDITION: Limited Staff and inadequate internal controls.

EFFECT OF CONDITION: The Town is vulnerable to having utility billing receipts lost or stolen.

**RECOMMENDATION:** The Town should implement a policy of not accepting cash payments at Town hall. The Town could also implement more internal controls by having more separation of duties. This could be done by having the personnel write receipts for all payments made regardless of type and then recording these payments on the daily payment ledger. All payments, receipts, and a copy of the daily payment ledger should be given directly to the Treasurer at the end of the day. The Utility Billings clerk should then take the original daily payment ledger to record the payments in the system. Once all payments have been recorded in the system, the billings clerk should print off a payment listing from the system as well as a daily adjustment history to insure that no unnecessary adjustments have been paid. These reports along with the original daily payment ledger should be given to the Treasurer who should then compare the total payments and receipts written to the daily payment ledger, daily payment listing from system, and daily adjustment history. Once the Treasurer has performed a comparison she should then prepare a deposit slip to be taken to the bank. The Treasurer should then staple all documents as well as a carbon copy of the deposit slip together and give these documents back to the Utilities Billing Clerk. When the Treasurer returns from the bank she should give the bank deposit receipt to the Billings Clerk who should then compare the receipt to the previous documents given to her by the Treasurer.

**MANAGEMENT RESPONSE:** Limited staff will continue to be a problem as the Town of Wellston does not have sufficient revenues to justify hiring different people to do different functions. For example, the Town Clerk also doubles as the Utility Billing Clerk. To alleviate part of the problem the Town of Wellston will implement a cash register. The Town will explore the possibility of acquiring the necessary device to utilize debit and credit card payments. The Town Treasurer will begin tallying receipts versus the payment ledger and compare totals. A ledger will be kept that will be initialed by both the Clerk and the Treasurer verifying that the payment amounts and deposits match. This ledger along with deposit slips will be maintained for the audit files.
