Independent Auditor's Report

To the Board of Trustees
Town of Wayne, Oklahoma

Report on the Financial Statements

We have audited the accompanying modified cash-basis financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Town of Wayne, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash-basis of accounting described in Note 1. This includes determining that the modified cash-basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective modified cash-basis financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Town of Wayne, as of June 30, 2016, and the respective changes in modified cash-basis financial position, and, where applicable, cash flows thereof for the year then ended in conformity with the basis of accounting described in Note 1.

Other Matters

Required Supplementary Information

Management has omitted the management's discussion and analysis and budgetary comparison information that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated August 26, 2016, on our consideration of the Town of Wayne's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Town of Wayne's internal control over financial reporting and compliance.

Basis of Accounting

We draw attention to Note 1 of the financial statements that describes the basis of accounting. The financial statements are prepared on the modified cash-basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinions are not modified with the respect to this matter.

Russell + Williams CPAs, P.C.

Town of Wayne, Oklahoma
Notes to the Basic Financial Statements
For the Year Ended June 30, 2016

Note 1-Summary of Significant Accounting Policies

Financial Reporting Entity

The Town of Wayne, Oklahoma is a statutory Town Government under Oklahoma Statutes. The Town provides the following services: public safety, streets and highways, sanitation, public improvements, utilities and general administrative services.

The criteria used to determine which accounting entities, agencies, commissions, boards and authorities are part of the Town's operations include how the budget is adopted, whether debt is secured by general obligation of the Town, the Town's duty to cover any deficits that may occur, and supervision over the accounting functions. Any separate accounting entities would be considered component units. There are no agencies, organizations or activities meeting any of the above criteria that are excluded from the Town's reporting entity. As of June 30, 2016, the Town had two component units, the Wayne Public Works Authority and the Wayne Economic Development Authority.

Basis of Presentation-Fund Accounting

The accounting system is organized and operated on a fund basis. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations.

The Town's funds are grouped into two governmental fund types, general funds and special revenue funds. Proprietary funds include enterprise funds. As of June 30, 2016, the Town had governmental funds of general and fixed assets. The proprietary funds consisted of the Wayne Public Works Authority and the Wayne Economic Development Authority.

GASB 34

The Town had implemented the new financial reporting model, as required by the provisions of GASB Statement No. 34, Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments, as of June 30, 2004.

Basis of Accounting

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The statement of net position and the statement of activities display information about the Town, the primary government, as a whole within the limitations of the modified cash basis of accounting. These statements distinguish between activities that are governmental and those that are considered business-type activities.

The government-wide statements are prepared using the economic resources measurement, within the limitations of the modified cash basis of accounting. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Therefore, governmental fund financial statements include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between expenses, both direct and indirect and program revenues for each segment of the business-type activities of the Town and for each governmental program. Direct expenses are those that are specifically associated with a service, program

or department and are therefore clearly identifiable to a particular function. Indirect expenses for centralized services and administrative overhead are allocated among programs, functions and segments using a full cost allocation approach and are presented separately to enhance comparability of direct expenses between governments that allocate direct expenses and those that do not. Program revenues include charges paid by the recipients of the goods or services offered by the programs and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues. The comparison of program revenues and expenses identifies the extent to which each program or business segment is self-financing or draws from the general revenues of the Town.

FUND FINANCIAL STATEMENTS

Fund financial statements report detailed information about the Town. The focus of governmental and enterprise fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column.

GOVERNMENTAL FUNDS

All governmental funds are accounted for using modified cash basis of accounting and the current financial resources measurement focus. Under this basis revenues are recognized in the accounting period in which they become measurable and available. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable.

Revenue Recognition

In applying the accrual concept under the modified cash basis, the following revenue sources are deemed both measurable and available (i.e., collectible within the current year or within one month of year-end and available to pay obligations of the current period). This includes investment earnings, income taxes withheld by employers, estate taxes, fines and forfeitures and state-levied locally shared taxes (including motor vehicle fees). Reimbursement due for federally funded projects are accrued as revenue at the time the expenditures are made, or when received in advance, deferred until expenditures are made.

Other revenues, including licenses and permits, certain charges for services and miscellaneous income are recorded as revenue when received in cash because they are generally not measurable until actually received.

Expenditure Recognition

The measurement focus of governmental fund accounting is on decrease in net financial resources (expenditures) rather than expenses. Most expenditures are measurable and are recorded when the related fund liability is incurred. However, principal and interest on general long-term debt, which has not matured, are recognized when paid. Allocations of costs, such as depreciation and amortization, are not recognized in the governmental funds.

PROPRIETARY FUNDS

All proprietary funds are accounted for using the accrual basis of accounting. These funds account for operations that are primarily financed by user charges. The economic resource focus concerns determining costs as a means of maintaining the capital investment and management control. Their revenues are recognized when they are earned and their expenses are recognized when they are incurred. Allocation of costs, such as depreciation, are recorded in the proprietary funds. The proprietary funds use standards issued by the Financial Accounting Standard Board whenever possible, if no FASB pronouncement is applicable then Government Accounting Standards Board pronouncements are used

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Town's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less for the date of acquisition. Restricted cash consists of meter deposits.

Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditures of funds are recorded in order to reserve that portion of the applicable appropriation, is employed in the governmental funds. Encumbrances are not recognized as the equivalent of expenditures; therefore, the reserve for encumbrances is reported as part of the fund balance on the balance sheet. However, it should be noted that the Town did not recognize any outstanding reserves as of June 30, 2016.

Budget

In accordance with Oklahoma Statutes, Title 68, Section 3002, the Town Council formally adopts annual budgets which include substantially all funds. These annual budgets are adopted on a basis consistent with the guidelines established by the Oklahoma Municipal Code.

Risk Management

Significant losses are covered by commercial insurance for all Town operations.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Allowance for Doubtful Accounts

The Wayne Economic Development Authority, has made economic development loans to local businesses. During the year ending June 30, 2016, the Authority had a loan loss reserve of \$-0-.

Note 2-Deposits with Financial Institutions

The accounts of the Town are required by state law to be secured by collateral pledged by the financial institution and/or FDIC insurance. The Town of Wayne is considered a separate entity from the Wayne Public Works Authority for FDIC deposit insurance.

In accordance with GASB No. 3, deposits are to be classified into the following three categories:

1. Insured or collateralized with securities held by the entity or by its agent or in the entity's name (Referred to as category 1)
2. Collateralized with securities held by pledging financial institution's trust department or agent in the entity's name. (Referred to as category 2)
3. Uncollateralized, including any bank balance that is collateralized with securities held by the pledging institution, or by its trust department or agent but not in the entity's name. (Referred to as category 3)

All of the Town of Wayne's government and enterprise fund cash and investment accounts would be considered as category 1 up to its FDIC limits of \$250,000 for the governmental funds and \$250,000 for the Wayne Public Works Authority. The remaining funds would be category 3.

As of June 30, 2016, the Town of Wayne and the Wayne Public Works Authority had collateral pledged in the amount of \$194,762 from McClain Bank. The deposits uncollateralized totaled \$-0-. It is a violation of Oklahoma state law to not have municipal deposits collateralized.

Note 3-Capital Assets and Depreciation

Capital Asset activity for the year ended June 30, 2016 was as follows:

Governmental Funds

	Beginning Balance	Increases	Decrease	Ending Balance
Town Hall	\$ 147,693.35	-	-	\$ 147,693.35
Fire Department	285,429.36	-	-	285,429.36
Police Department	73,439.37	-	-	73,439.37
Total	506,562.08			506,562.08
Accumulated Depreciation	(394,045.45)	(17,828.20)	-	(411,873.65)
Net Assets	<u>\$ 112,516.63</u>			<u>\$ 94,688.43</u>

As of June 30, 2016, the governmental funds had no capitalized assets that were not being depreciated or had not been depreciated. Depreciation is computed using the straight line method of depreciation over the estimated useful lives of the assets. Assets are recorded at cost or their estimated fair market value for those assets where recorded were not available. Depreciation of \$2,903 for general government, \$13,903 was recorded for the fire department and \$1,134 for the police department.

Proprietary Funds

	Beginning Balance	Increases	Decrease	Ending Balance
Water and Sewer System	\$ 2,076,060.55	34,825.89	-	\$ 2,110,886.44
Vehicles and Equipment	177,104.58	-	-	177,104.58
Total	2,253,165.13			2,287,991.02
Accumulated Depreciation	(1,135,064.36)	(89,409.10)	-	(1,224,473.46)
Net Assets	<u>\$ 1,118,100.77</u>			<u>\$ 1,063,517.56</u>

As of June 30, 2016, the proprietary funds had no capitalized assets that were not being depreciated or had not been depreciated. Depreciation is computed using the straight line method of depreciation over the estimated useful lives of the assets. Assets are recorded at cost or their estimated fair market value for those assets where recorded were not available. Depreciation of \$89,409 for the proprietary funds was recorded as follows: \$67,057 for the water system and \$22,352 for the sewer system.

Note 4-Notes Payable

Wayne Public Works Authority

As of June 30, 2016, the Wayne Public Works Authority had three notes outstanding.

The first obligation has an outstanding balance of \$53,231 as of June 30, 2016. The loan is due to mature in September, 2020 with zero interest. Payments are paid monthly in the amount of \$729.17 per month. Principal paid on this obligation for the year ending June 30, 2016 was \$8,750. Principal required to amortize this note till maturity is as follows:

	<u>Principal</u>		
2016/2017	8,750	Balance, Beginning of Year	\$ 53,231
2017/2018	8,750	Principal Paid During Year	<u>8,750</u>
2018/2019	8,750	Balance, End of Year	<u><u>\$ 44,481</u></u>
2019/2020	8,750		
2020/2022	9,481		
	<u>\$ 44,481</u>		

The second obligation has an outstanding balance of \$300,828 as of June 30, 2016. The original loan amount was \$392,000, is due to mature in August, 2038 and carries an interest rate of 4.75%. Monthly payments are due in the amount of \$1,843 per month. Principal and interest paid on this obligation for the year ending June 30, 2016 was \$7,629 and \$14,489 respectively. Principal required to amortize this note till maturity is as follows:

	<u>Principal</u>	<u>Interest</u>		
2016/2017	7,997	14,119	Balance, Beginning of Year	\$ 308,457
2017/2018	8,386	13,730	Principal Paid During Year	<u>7,629</u>
2018/2019	8,795	13,321	Balance, End of Year	<u><u>\$ 300,828</u></u>
2019/2020	9,222	12,894		
2020/2021	9,670	12,446		
2021/2026	55,862	54,718		
2026/2031	70,804	39,776		
2031/2036	89,743	20,837		
2036/2038	40,350	3,882		
	<u>\$ 300,828</u>	<u>\$ 185,724</u>		

The water department was charged with \$14,489 of interest for the year. The sewer department was charged with \$-0- of interest for the year.

Note - 5 Rural Development Loan Compliance

Wayne Public Works Authority's loans from Rural Development has a net revenue requirement, as well as a required debt service reserve amount. As of June 30, 2016, the WPWA has \$24,280 on deposit in the reserve account. The reserve account is to be used for monthly loan payments in the event that WPWA is unable to otherwise make payments.

The new revenues of the Wayne Public Works Authority are required to be at least 125% of the average debt service. The following year is a summary of the net revenues and the debt service payments required for the year ended June 30, 2016.

Operating revenues	\$ 355,743
Operating expenses	328,734
Net operating income (loss)	<u>27,009</u>
Other revenues and expenses:	
Miscellaneous income	-
Interest	-
Total Net operating income (loss)	<u>\$ 27,009</u>
Required debt payments:	
Principal	20,234
Interest	13,632
Total debt service	<u>33,866</u>
Net revenue percentage requirement	125%
Net revenue required	<u>42,333</u>
Excess net revenues	<u>\$ (15,324)</u>

Note – 6 Volunteer Firefighter’s Pension Plan

The Town participates in the Oklahoma State Firefighters Pension and Retirement system which applies only to the Town’s volunteer firefighters. Vesting occurs after 10 years of service and payments begin at age 50, or after 20 years of service, whichever is later. Contributions are made by the Town at the rate of \$60 per volunteer firefighter per year. The total contribution for 2015/2016 was \$960 and covered 16 volunteers.

Note – 7 Subsequent Events

Subsequent events have been evaluated through August 26, 2016, which is the date the financial statements were issued.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Trustees
Town of Wayne

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the accompanying modified cash basis financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Town of Wayne, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise Town of Wayne's basic financial statements, and have issued our report thereon dated August 26, 2016.

The report was a special report on the Town's use of a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Town of Wayne's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Town of Wayne's internal control. Accordingly, we do not express an opinion on the effectiveness of Town of Wayne's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any

deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and responses that we consider to be significant deficiencies. 2016-1.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Town of Wayne's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Schedule of Current Findings and Responses

2016 - 1 Lack of Segregation of Duties

Condition: During our review of the internal control structure, we noted that several procedures lacks the control of having duties segregated. We understand that due to the size of the town and number of personnel, many aspects related to segregation of duties cannot be implemented.

Criteria: We believe that internal control procedures would be strengthened by reviewing the individual tasks to determine whether internal control procedures could be improved.

Cause and effect: The cause is due to limited personnel and the full effect is unknown.

Recommendation: The town should implement a policy of not accepting cash payments at city hall. The town should also implement more internal controls by having more separation of duties. This could be done by having the personnel write receipts for all payments made regardless of type and then recording these payments on a daily payment ledger. All payments, receipts, and a copy of the daily receipt ledger should be given directly to the Treasurer at the end of the day. The town clerk or other personnel, except for the Treasurer, should then take the original daily payment ledger to record the payments in the system. Once all payments have been recorded in the system, the town clerk or other personnel should print off a payment listing from the system as well as a daily adjustment history to insure that no unnecessary adjustments have been made, the town clerk or other personnel should also prepare the deposit slip at this time and retain the carbon copy. These reports along with the original daily payment ledger and original of the deposit slip should be given to the Treasurer who should then compare the total payments and receipts written to the daily payment ledger, daily payment listing from system, and daily adjustment history. The Treasurer should then staple all documents together and give these back to the town clerk or other personnel. When the Treasurer returns from the bank she should give the bank deposit receipt to the town clerk or other personnel who should compare the receipt to the previous documents given to her by the Treasurer and also compare the carbon copy of the deposit slip to the bank deposit receipt. The town clerk or other personnel should then staple everything together and maintain for the audit files.

Management's Response: In many cases due to our limited resources, controls will be limited. However, the town will consider incorporating these recommendations.
