INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
The Deer Creek Fire Protection District
Edmond, Oklahoma

Report on the Financial Statements

We have audited the accompanying modified cash basis financial statements of the governmental activities and governmental fund of the Deer Creek Fire Protection District as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting as described in Note 1: this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to in the first paragraph present fairly, in all material respects, the respective modified cash basis financial position of the governmental activities and governmental fund of the Deer Creek Fire Protection District, as of June 30, 2018, and the respective changes in modified cash basis financial position for the year then ended in accordance with the modified cash basis of accounting described in Note 1.

Basis of Accounting

We draw attention to Note 1 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinions are not modified with respect to this matter.

Other Matters

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements as a whole that collectively comprise the Deer Creek Fire Protection District's basic financial statements. The budgetary comparison schedule on page 16, which is the responsibility of management, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 12, 2019, on our consideration of the internal control over financial reporting of the Deer Creek Fire Protection District and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Deer Creek Fire Protection District's internal control over financial reporting and compliance.

The accompanying notes are an integral part of these financial statements

**The Deer Creek Fire Protection District
Notes to the Basic Financial Statements
As of and for the Year Ended June 30, 2018**

1. Summary of Significant Accounting Policies

1A. Introduction

The District's financial statements are prepared using the modified cash basis of accounting, which is a basis of accounting other than generally accepted accounting principles (GAAP) in the United States of America. The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). These modified cash basis financial statements generally meet the presentation and disclosure requirements applicable to GAAP in substance but are limited to the elements presented in the financial statements and the constraints of the measurement and recognition criteria of the modified cash basis of accounting. Generally, that means that only items arising from cash transactions are recorded. Accounts receivable and accounts payable, for instance, are not recorded.

1B. Financial Reporting Entity

The Deer Creek Fire Protection District (the District) is organized under Title 19, Oklahoma Statutes, sections 901 et seq. The District provides fire protection services for residents of the District.

1C. Basis of Presentation

1C1. Fund Accounting

The District uses fund accounting to maintain its financial records. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts that comprises its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund equity, revenues and expenditures/expenses. The District has only one fund, a governmental fund.

1C2. Basis of Accounting and Measurement Focus

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied. Measurement focus is a term used to describe which transactions are recorded.

1C2a. Modified Cash Basis of Accounting

The modified cash basis of accounting is a comprehensive basis of accounting other than GAAP and is a modification of the pure cash basis of accounting. Professional standards define the cash basis of accounting *as a basis of accounting an entity uses to record cash receipts and disbursements, and modifications of the cash basis having substantial support (for example, recording depreciation on fixed assets.)* Although the modified cash basis of accounting is not separately defined by professional standards, the modifications to the cash basis have evolved over time through common practice, and generally result when cash receipts or disbursements provide a benefit or obligation covering multiple reporting periods, and the reporting of the cash transaction would be more meaningful to financial statement users if spread over those multiple periods.

**The Deer Creek Fire Protection District
Notes to the Basic Financial Statements
As of and for the Year Ended June 30, 2018**

For modifications to be considered to have substantial support, they should:

1. be made as a result of cash receipts or disbursements;
2. have substantial support in GAAP or other accounting literature; and
3. be logical.

1C3. Government-wide Financial Statements

The government-wide financial statements are highly aggregated financial statements that present financial information for all assets, deferred outflows, liabilities, deferred inflows, and net assets using the economic resources measurement focus within the limitations of the modified cash basis of accounting. This means that revenues are recorded when received and expenses, with the exception of capitalizing and depreciating capital assets, are recorded when paid. The government-wide financial statements required are the statement of net assets and the statement of activities. These financial statements are designed to help users assess the finances of a government in its entirety, including the year's operating results; determine whether the government's overall financial position improved or deteriorated; and evaluate whether the government's current-year revenues were sufficient to pay for current year services. They are also designed to help users assess the cost of providing services to its citizenry; determine how the government finances its programs; understand the extent to which the government has invested in capital assets; and make better comparisons between governments.

1C4. Governmental Fund Financial Statements

The governmental fund financial statements focus primarily on the sources, uses, and balances of current financial resources. They are presented using the current financial resources measurement focus and the modified cash basis of accounting. Revenues are recognized when they are received and expenditures are recorded when paid. The financial statements required for governmental funds are the balance sheet and the statement of revenues, expenditures, and changes in fund balance. The governmental fund balance sheet does not present capital assets or long-term liabilities. Instead, the statement of revenues, expenditures and changes in fund balance reports the financial resource inflows and outflows arising from the disposition and acquisition of capital assets, the issuance and repayment of long-term debt, and maturation of non-debt long-term liabilities. Capital assets and long-term liabilities associated with and generally arising from activities reported in governmental funds are reported only in the government-wide financial statements.

1C. Deposits and Investments

The District has not formally adopted deposit and investment policies that limit its allowable deposits or investments and address the specific types of risk to which the District is exposed.

The State of Oklahoma allows government entities to invest in the following: direct obligations of the U.S. Government, its agencies or instrumentalities; collateralized or insured certificates of deposit; insured savings accounts or savings certificates; and county, municipal or school district direct debt.

At year end, District deposits were fully insured.

**The Deer Creek Fire Protection District
Notes to the Basic Financial Statements
As of and for the Year Ended June 30, 2018**

1D. Cash and Cash Equivalents

The District has defined cash and cash equivalents to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

1E. Capital Assets

Capital assets purchased or acquired with an original cost of \$2,000 or more are reported at cost. In the general fund financial statements, capital assets are expensed as capital outlay. In the government-wide financial statements, capital assets are capitalized and depreciation on all capital assets is provided on the straight-line basis over the following estimated useful lives:

Buildings	10 to 20 years
Building equipment	5 to 10 years
Vehicles and fire equipment	5 to 15 years

1F. Long-term Debt

In the governmental fund financial statements, long-term debt is not reported on the balance sheet. Debt proceeds are reported as other financing sources, while repayments of principle and interest are reported as debt service expenditures in the statement of revenues, expenditures, and changes in fund balance.

In the government-wide financial statements, long-term debt is recorded as a liability in the statement of net assets. Repayments of principal reduce the liability, while interest is expensed in the statement of activities.

1G. Equity Classifications

In the government-wide statements, equity is classified as net position and displayed in three components:

1. Net investment in capital assets – Capital assets, net of accumulated depreciation, are reduced by the outstanding balances of any debt attributable to their acquisition, construction, or improvement.
2. Restricted net position – Net position that has constraints placed upon them either by external sources such as creditors, grantors, contributors, or laws or regulations of other governments; or law through constitutional provisions or enabling legislation.
3. Unrestricted net position – All other net position that does not meet the definition of the previous two classifications.

In the fund financial statements, governmental fund equity is classified as fund balance and reported as needed in five components as follows:

The Deer Creek Fire Protection District
Notes to the Basic Financial Statements
As of and for the Year Ended June 30, 2018

1. Nonspendable – amounts not in a spendable form, or legally or contractually required to be maintained intact.
2. Restricted – constraints placed on fund balance are externally imposed by creditors, grantors, or other governments; or are imposed by law through constitutional provisions or enabling legislation.
3. Committed – amounts that can only be used for specific purposes as a result of constraints imposed by formal action of the individual government's highest level of decision making authority.
4. Assigned – constraints placed on fund balance are imposed by the government's intent that it be used for specific purposes but are neither restricted nor committed. An individual government must define and disclose how it expresses its intent for purposes of making assignments. For the Town, this intent is expressed by the use of purchase orders encumbering amounts for assigned purposes as approved by the board of trustees.
5. Unassigned – remaining fund balance in excess of all other classifications.

2. Property Tax Assessments

The Deer Creek Fire Protection District assesses property owners at the rate of 7.3 mills. The annual assessments are levied by Oklahoma County on November 1 of each year and are due one-half by December 31 and one-half by March 31. The assessments are collected by Oklahoma County and remitted to the District at least monthly. Major assessment payments are received in the months of December through April and are recorded as revenue when received.

3. Capital Assets

Capital asset activity for the year ended June 30, 2018, is summarized as follows:

	Accumulated Depreciation								Net Value
	Beginning Balance	Add	Delete	Ending Balance	Beginning Balance	Add	Delete	Ending Balance	
Assets not depreciated									
Land	58,047	0	0	58,047	0	0	0	0	58,047
Construction in progress	498,475	0	(498,475)	0	0	0	0	0	0
Total not depreciated	556,522	0	(498,475)	58,047	0	0	0	0	58,047
Depreciable assets									
Buildings and equipment	1,353,744	23,532	0	1,377,276	424,487	56,095	0	480,581	896,695
Vehicles and equipment	1,614,294	170,902	(157,943)	1,627,253	1,049,116	107,682	(110,520)	1,046,279	580,974
Leased vehicles	498,475	0	0	498,475	0	33,232	0	33,232	465,243
Total other assets	3,466,513	194,434	(157,943)	3,503,004	1,473,603	197,009	(110,520)	1,560,091	1,942,912
Total Assets	\$4,023,035	\$194,434	(\$656,418)	\$3,561,050	\$1,473,603	\$197,009	(\$110,520)	\$1,560,091	\$2,000,959

Depreciation expense of \$197,009 was reported in the government-wide statements.

The Deer Creek Fire Protection District
Notes to the Basic Financial Statements
As of and for the Year Ended June 30, 2018

4. Capital Leases

Leases outstanding 06/30/17	498,475
New leases	0
Retirements	(42,002)
Leases outstanding 06/30/18	<u><u>\$456,473</u></u>

January 12 ,2017, the District entered into a 10-year lease-purchase agreement for a fire truck costing \$498,475. The District financed the total purchase price at an interest rate of 3.75% for the first 5 years, and at prime for the remaining 5 years. The lease requires annual payments and contains a clause that releases the District from the lease if funds are not available to be appropriated for the lease.

Interest Rate	Maturity Date	Amount Issued	Amount Outstanding	Interest Expense	Due in One Year	Due in Security
3.750%	01/12/27	\$498,475	\$456,473	\$18,857	\$43,577	fire truck
Prime after 5 years						

A summary of debt service requirements to maturity by year is as follows:

	Principal	Interest	Total	Termination
				Value
2019	43,577	17,118	60,695	
2020	45,211	15,484	60,695	
2021	46,907	13,788	60,695	
2022	48,666	12,029	60,695	
2023	50,491	10,204	60,695	
2024 - 2027	221,621	21,159	242,780	1
	<u>\$456,473</u>	<u>\$89,782</u>	<u>\$546,255</u>	<u>\$1</u>

5. Defined Benefit Pension Plans

Plan Description. The District contributes to the Oklahoma Firefighters Pension and Retirement System (the System), a cost-sharing multiple-employer defined benefit pension plan administered by a 13-member board which acts as fiduciary for investment of funds and the application of plan interpretations. The System provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. The System is a component unit of the State of Oklahoma and is authorized under Title 11, Oklahoma Statutes 1981, sections 48-101 et. seq. The System issues a publicly available financial report that includes financial statements and required supplementary information for the plan and may be obtained from their offices at 4545 N. Lincoln Blvd., Suite 265, Oklahoma City, OK 73105. Trend information showing the progress of the System in accumulating sufficient assets to pay benefits when due is presented in the System's annual financial report.

**The Deer Creek Fire Protection District
Notes to the Basic Financial Statements
As of and for the Year Ended June 30, 2018**

Funding Policy. Volunteer firefighters are not required to contribute, but the District is required to contribute \$60 per volunteer per year. Participating paid firefighters contribute 9% of applicable earnings, while the District contributes 14% of the member's applicable earnings. The contribution requirements of the System are rates determined by Oklahoma Statutes and are not based on actuarial calculations. The District's contributions to the System, equal to 100% of the required annual contributions, were as follows:

	ER Volunteer	ER Paid	EE Paid
2018	\$1,980	\$14,304	\$9,195
2017	\$2,160	\$14,061	\$9,039
2016	\$1,560	\$12,255	\$7,878

6. Risk Management

The District is exposed to various risks of losses related to torts; thefts of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District manages this risk through the purchase of commercial insurance policies. Risk management activities are accounted for by fund, and claims are recognized when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. In determining claims, events that might create claims, but for which none have been reported, are considered. The District made no claims during the year just ended.

7. Budgeting

The board adopts a legally required annual operating budget each year. The modified cash basis of accounting used for fund financial reporting is used for budgetary purposes. The legal level of compliance for expenditures is at the department level. Title 19 prohibits authorized or actual expenditures from exceeding the budgeted appropriations as adopted or amended; prohibits a negative fund balance; and prohibits authorized or actual expenditures or encumbrances in excess of 90% of the appropriation of any fund until revenues of at least 90% of the appropriation have been collected. Budget amendments are approved by the board as required. One budget amendment was approved for 2018.

8. Subsequent Events

Management performed an evaluation of the District's activity through January 12, 2019, the date the audit was available to be released, and has concluded that there are no significant subsequent events requiring disclosure through that date.

**INDEPENDENT AUDITOR'S REPORT ON THE INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

The Board of Directors
The Deer Creek Fire Protection District
Edmond, Oklahoma

We have audited in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the modified cash basis financial statements of the governmental activities and governmental fund of the Deer Creek Fire Protection District, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Deer Creek Fire Protection District's basic financial statements, and have issued our report thereon dated January 12, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the internal control over financial reporting of the Deer Creek Fire Protection District to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Deer Creek Fire Protection District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Deer Creek Fire Protection District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies, and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and responses as finding 2018-1, which we consider to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the financial statements of the Deer Creek Fire Protection District are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The Deer Creek Fire Protection District's Response to Findings

The Deer Creek Fire Protection District's response to the finding identified in our audit is described in the accompanying schedule of findings and responses. The Deer Creek Fire Protection District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Becky Fleming, C.P.A., Inc.

January 12, 2019

**Deer Creek Fire Protection District
Schedule of Findings and Responses
For the Year Ended June 30, 2018**

2018-1

This is a repeat finding from prior years.

Criteria: Segregation of duties or other compensating procedures to provide oversight and review between those maintaining the general ledger, performing reconciliations, collecting payments, and signing checks should be established to make deliberate fraud more difficult to enact and to make it more likely that innocent errors will be found and corrected.

Condition: The same individual maintains the general ledger, performs reconciliations, collects payments, and signs checks, with few compensating procedures to provide for oversight or review of those transactions.

Cause: The District is small and has only 1 person, the treasurer, to maintain the financial records.

Effect: Because there is a single individual who maintains the general ledger, performs reconciliations, collects payments, and signs checks, and few compensating procedures to provide for oversight or review of those transactions, deliberate fraud or posting or other errors could occur and not be found and corrected on a timely basis.

Recommendation: We recommend that procedures be established to provide segregation of duties between those maintaining the general ledger, performing reconciliations, collecting payments, and signing checks, or, where that is not possible, establish other compensating procedures to provide for oversight or review of those transactions.

Response: Since we are such a small District, we do not have a way of segregating duties. However, we are always trying to find ways to establish better oversight procedures. Currently, the board reviews financial reports monthly that include a balance sheet, a budget to actual report, a detailed check register, and also reviews the bank statements.

Deer Creek Fire Protection District
Budgetary Comparison Schedule
For the Year Ended June 30, 2018

	Original Budget	Final Budget	Actual Budget	VARIANCE FAVORABLE (UNFAVORABLE)
REVENUES				
Property taxes	558,000	560,000	611,432	51,432
Dues and contributions	8,000	8,000	15,757	7,757
Other revenues	46	50	312	262
Interest	3,760	4,000	3,993	(7)
Grants	5,000	5,000	158,434	153,434
