## **INDEPENDENT AUDITORS' REPORT**

Legislative Service Bureau

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities and the General Fund of the Legislative Service Bureau (the "Bureau"), a component of the General Fund of the State of Oklahoma, as of and for the years ended June 30, 2021 and 2020, and the related notes to the financial statements, which collectively comprise the Bureau's basic financial statements as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditors' Responsibility**

Our responsibility is to express opinions on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Bureau's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bureau's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## **INDEPENDENT AUDITORS' REPORT, CONTINUED**

### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the General Fund of the Bureau as of June 30, 2021 and 2020, and the respective changes in financial position for the years then ended in accordance with accounting principles generally accepted in the United States.

### **Emphasis of Matter**

#### *Department-Only Financial Statements*

As discussed in Note 1, the financial statements of the Bureau are intended to present the financial position and the changes in financial position of only that portion of the governmental activities and the General Fund of the State of Oklahoma that is attributable to the transactions of the Bureau. They do not purport to, and do not, present fairly the financial position of the State of Oklahoma as of June 30, 2021 or 2020, or the changes in its financial position for the years then ended in accordance with accounting principles generally accepted in the United States. Our opinions are not modified with respect to this matter.

### **Other Matters**

#### *Required Supplementary Information*

Accounting principles generally accepted in the United States require that the management's discussion and analysis on pages I-1 through I-5 and the schedules of the Bureau's pension and OPEB information listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### *Other Information*

The Bureau is not required by statute to prepare a line-item budget. Accordingly, a schedule of revenues, expenditures, and changes in fund balances—budget to actual is not presented herein.

(Continued)

## **INDEPENDENT AUDITORS' REPORT, CONTINUED**

### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated March 3, 2022, on our consideration of the Bureau's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Bureau's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Bureau's internal control over financial reporting and compliance.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the Legislative Service Bureau (the "Bureau"), we offer readers of the Bureau's financial statements this overview and analysis of the financial activities for the fiscal years ended June 30, 2021, 2020, and 2019.

### Financial Highlights

- At June 30, 2021, the Bureau's net position increased \$14,552,607 from June 30, 2020, resulting in a net position of \$17,204,148. At June 30, 2020, the Bureau's net position increased \$281,232 from June 30, 2019, resulting in a net position of \$2,651,541. At June 30, 2019, the Bureau's net position increased \$1,017,769 from June 30, 2018, resulting in a net position of \$2,370,309.
- At June 30, 2021, the Bureau's assets totaling \$27,372,264 increased \$14,545,891 due mainly to an increase in cash of \$14,412,987. At June 30, 2020, the Bureau's assets totaling \$12,826,373 increased \$10,358,777 due mainly to an increase in cash of \$10,330,110. At June 30, 2019, the Bureau's assets totaling \$2,467,596 increased \$1,000,300 due mainly to an increase of \$1,005,623 in cash, offset by an \$8,099 decrease in capital assets.
- At June 30, 2021, the Bureau's liabilities totaling \$10,413,659 increased by \$198,039, due mainly to an increase in the net pension liability. At June 30, 2020, the Bureau's liabilities totaling \$10,215,620 increased by \$10,080,043, due mainly to an increase in accounts payable related to a transfer to the Oklahoma House of Representatives (the "House"). At June 30, 2019, the Bureau's liabilities totaling \$135,577 decreased by \$63,832, due mainly to a decrease in the net pension liability.

### Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Bureau's basic financial statements and is comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements.

#### *Government-Wide Financial Statements*

The government-wide financial statements (i.e., the statements of net position and the statements of activities) are designed to provide readers with a broad overview of the Bureau's finances in a manner similar to a private sector business.

The statements of net position present information on all of the Bureau's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Bureau is improving or deteriorating.

The statements of activities present information showing how the Bureau's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future periods.

## MANAGEMENT'S DISCUSSION AND ANALYSIS, CONTINUED

### Overview of the Financial Statements, Continued

#### *Fund Financial Statements*

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. All governmental activities of the Bureau are reflected in the General Fund. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Bureau maintains one fund, which is the General Fund. Information is presented separately in the governmental fund balance sheets and the governmental fund statements of revenues, expenditures, and changes in fund balances for the General Fund. All transactions related to the general administration of the Bureau are accounted for in the General Fund.

#### *Notes to the Financial Statements*

The notes provide additional information that is essential to a full understanding of the data provided in the basic financial statements.

This discussion and analysis of the Bureau's financial performance provides an overview of the Bureau's financial activities for the fiscal years ended June 30, 2021, 2020, and 2019.

The Bureau's 2021 total general revenues decreased approximately 4% from fiscal year 2020, due to a decrease in state appropriations. The Bureau's 2020 total general revenues increased approximately 11% from fiscal year 2019, due to an increase in state appropriations. The Bureau's 2019 total general revenues increased approximately 15% from fiscal year 2018, due to an increase in state appropriations.

The Bureau's total expenses for fiscal year 2021 decreased approximately 87%, due to no contribution to the Oklahoma Senate (the "Senate") and the House, offset by an increase in personnel services. The Bureau's total expenses for fiscal year 2020 increased approximately 17%, mainly due to an increase in contributions to the Oklahoma Senate (the "Senate") and the House, offset by a decrease in contractual services. The Bureau's total expenses for fiscal year 2019 decreased approximately 14%, due mainly to a decrease in the Bureau's contributions to the Senate, offset by an increase in contractual services.

The Bureau's 2021 appropriations from the State of Oklahoma, including refunds, decreased \$696,808 from fiscal year 2020. The Bureau's 2020 appropriations from the State of Oklahoma increased \$1,706,270 from fiscal year 2019. The Bureau's 2019 appropriations from the State of Oklahoma increased \$2,009,853 from fiscal year 2018.

## **MANAGEMENT’S DISCUSSION AND ANALYSIS, CONTINUED**

### **Capital Assets**

As of June 30, 2021, 2020, and 2019, the Bureau had invested approximately \$615,000, \$402,000, and \$364,000, respectively, in capital assets, including computer equipment and software, office equipment, and furniture. Net of accumulated depreciation, the Bureau’s net capital assets as of June 30, 2021, 2020, and 2019, totaled approximately \$165,000, \$34,000, and \$10,000, respectively. As of June 30, 2021, 2020, and 2019, these amounts represented a net increase (decrease) of approximately \$131,000, \$24,000, and \$(8,000), respectively. For the years ended June 30, 2021, 2020, and 2019, there was approximately \$213,000, \$42,000, and \$4,000, respectively, in capital asset additions.

### **Capital Leases**

As of June 30, 2021, 2020, and 2019, the Bureau had no capital lease obligations outstanding. During the fiscal years 2021, 2020, and 2019, the Bureau made no capital lease payments.

### **Description of Currently Known Facts, Decisions, or Conditions That are Expected to Have a Significant Effect on the Financial Position or Results of Operations**

The Governor has approved the Bureau’s appropriation for the fiscal year July 1, 2021, to June 30, 2022.

The Bureau is not required by statute to adopt a budget; therefore, budgetary comparison schedules are not required as part of the required supplementary information.

### **Contacting the Bureau’s Financial Management**

## NOTES TO FINANCIAL STATEMENTS

June 30, 2021 and 2020

---

### (1) **NATURE OF THE ORGANIZATION**

The Legislative Service Bureau (the “Bureau”) was created to provide various services to the Oklahoma House of Representatives (the “House”) and the Oklahoma State Senate (the “Senate”). The Bureau currently has three divisions consisting of the Legislative Office of Fiscal Transparency (“LOFT”), an information system division, and a photography division. The Executive Director of LOFT also serves as the Executive Director of the Bureau.

Loft provides budgetary recommendations to an oversight committee consisting of seven representatives from the House and seven representatives from the Senate which utilizes the recommendations to assist the State legislature in setting the funding for State government, higher education, and public schools.

The information system division assists in providing bill information and to facilitate the transfer of measures between the House and Senate and to provide IT support for various software applications used by staff members of the House and Senate.

The photo division provides photography services to the House and Senate.

#### **Financial Reporting Entity**

The financial statements of the Bureau have been prepared in conformity with accounting principles generally accepted in the United States as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Bureau’s accounting policies are described below.

In accordance with GASB, the Bureau’s financial statements should include the operations of all organizations for which the Bureau has financial accountability. The Bureau has determined there are no other organizations for which it has financial accountability.

#### **Fund Accounting and Budgetary Information**

The Bureau is included in the General Fund—Government of the State of Oklahoma (the “State”). The accompanying financial statements are intended to present the financial position and the changes in financial position of only that portion of the governmental activities and the General Fund of the State attributable to the transactions of the Bureau, and not those of the State. The Bureau is funded by an appropriation from unallocated general funds earmarked for State government. Appropriations are available for expenditures for a period of 30 months from the date the appropriations are approved. It is the practice of the Bureau to utilize unexpended appropriations from the prior year before expending current year appropriations. The Bureau is not required by statute to prepare a line-item budget. Accordingly, a schedule of revenues, expenditures, and changes in fund balances—budget to actual is not presented herein.

See Independent Auditors’ Report.

(2) **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Basis of Presentation and Basis of Accounting**

The government-wide financial statements (i.e., the statements of net position and the statements of activities) report information on all of the nonfiduciary activities of the government. Governmental activities are supported by taxes and intergovernmental revenues.

The statements of activities demonstrate the degree to which the direct expenses are offset by program revenues. Direct expenses are those that are clearly identifiable with the Bureau's grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Other items not properly included among program revenues are reported instead as general revenues.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

The General Fund is used to account for the Bureau's expendable financial resources and related liabilities. All transactions related to the general administration of the Bureau are accounted for in this fund.

The fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Available is defined by the Bureau as 60 days after year-end. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, expenditures related to compensated absences are recorded only when the liability has matured.

Only current assets and current liabilities are included on the balance sheets. The operations present sources and uses of available spendable resources during a given period of time.

The Bureau receives certain monies that are designated as to how they can be transferred or used. The Bureau retains full control of all monies to achieve the designated purposes.

##### Cash

Cash includes amounts on deposit with the Office of the State Treasurer (the “State Treasurer”), which is responsible for ensuring proper collateralization and insurance on such funds. The State Treasurer requires that financial institutions deposit collateral securities to secure the deposits of the State in each such institution. The amount of collateral securities to be pledged for the security of public deposits shall be established by rules and regulations promulgated by the State Treasurer.

##### Capital Assets

Capital assets are recorded as expenditures in the statements of revenues, expenditures, and changes in fund balances—General Fund, but are capitalized in the statements of net position. Capital assets are stated at actual or estimated historical cost, net of accumulated depreciation, in the statements of net position.

Capital assets are defined as assets with initial costs of \$500 or more. Depreciation is computed on the straight-line method over the estimated useful lives:

Computer equipment and software	3 years
Office equipment	5 years
Furniture	7 years

Upon disposition, the cost and related accumulated depreciation are removed from the respective accounts, and the resulting gain or loss, if any, is recorded.

##### Compensated Absences

Employees earn annual vacation leave based upon their start date and years of service. Unused annual leave may be accumulated to a maximum of 240 hours for employees with less than 5 years of service and a maximum of 480 hours for employees with 5 or more years of service. All accrued annual leave is payable upon termination, resignation, retirement, or death. The General Fund records expenditures when employees are paid for leave. Accrued annual leave is considered a long-term liability and is included in the statements of net position. Sick leave does not vest to the employee and therefore is not recorded as a liability.

##### Contribution Expense

The Bureau records as contribution expense assets and/or services that are paid to other state agencies other than for contractual services rendered by such agencies.

See Independent Auditors’ Report.

(2) **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED**

**Pension Plans**

*Defined Benefit Plan*

The Bureau participates in a cost-sharing, multiple-employer defined benefit pension plan administered by the Oklahoma Public Employees Retirement System (OPERS). For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Oklahoma Public Employees Retirement Plan and additions to/deductions from OPERS' fiduciary net position have been determined on the same basis as they are reported by OPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

*Defined Contribution Plan*

Effective November 1, 2015, OPERS established Pathfinder, a mandatory defined contribution plan for eligible state employees who first become employed by a participating employer on or after November 1, 2015, and have no prior participation in OPERS. Under Pathfinder, members will choose a contribution rate which will be matched by their employer up to 7%. During the years ended June 30, 2021 and 2020, the Bureau made contributions to Pathfinder of approximately \$13,000 and \$1,800, respectively.

**Other Postemployment Benefits (OPEB)**

The Bureau participates in the OPERS Health Insurance Subsidy Plan (HISP), a cost-sharing, multiple-employer defined benefit public employee health insurance subsidy retirement plan which is administered by OPERS.

The Bureau also participates in the Oklahoma Employees Group Insurance Division's (EGID) health insurance plan, which is a non-trusted single-employer plan that provides for employee and dependent healthcare coverage from the date of retirement to age 65, provided the participant was covered by the health insurance plan before retiring.

The Bureau follows the requirements of GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* (GASB 75) in recording the net OPEB asset, the net OPEB liability, deferred outflows, deferred inflows, and OPEB expense.

(2) **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED**

**Equity Classifications**

*Government-Wide Financial Statements*

Equity is classified as net position displayed in three components:

- a. Net investment in capital assets—consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted net position—consists of net position with constraints placed on the use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments, or 2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net position—all other net position that does not meet the definition of “net investment in capital assets” or “restricted net position.”

As of June 30, 2021 and 2020, the Bureau did not have any restricted net position.

*Fund Financial Statements*

Governmental fund equity is classified as fund balance. Fund balance is further classified as nonspendable, restricted, committed, assigned, and unassigned. These classifications are defined as:

- a. Nonspendable fund balance—The nonspendable fund balance classification includes amounts that cannot be spent because they are either i) not in spendable form or ii) legally or contractually required to be maintained intact.
- b. Restricted fund balance—The restricted fund balance classification should be reported when constraints placed on the use of resources are either i) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or ii) imposed by law through constitutional provisions or enabling legislation.
- c. Committed fund balance—The committed fund balance classification reflects specific purposes pursuant to constraints imposed by formal action of the Bureau’s highest level of decision-making authority. Also, such constraints can only be removed or changed by the same form of formal action.

See Independent Auditors’ Report.

### (2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

#### Equity Classifications, Continued

##### *Fund Financial Statements, Continued*

- d. Assigned fund balance—The assigned fund balance classification reflects amounts that are constrained by the Bureau's intent to be used for specific purposes, but meet neither the restricted nor committed forms of constraint. Assigned funds cannot cause a deficit in the unassigned fund balance.

For purposes of an assigned fund balance, the Bureau has given authority to the Speaker of the House and the President Pro Tempore of the Senate to assign state appropriations received by the Bureau for specific purposes.

- e. Unassigned fund balance—The unassigned fund balance classification is the residual classification for the General Fund only. It is also where negative residual amounts for all other governmental funds would be reported. An unassigned fund balance essentially consists of excess funds that have not been classified in the other four fund balance categories mentioned above.

It is the Bureau's policy to first use the restricted fund balance prior to the use of the unrestricted fund balance when an expense is incurred for purposes for which both a restricted and an unrestricted fund balance are available. The Bureau's policy for the use of the unrestricted fund balance amounts require that committed amounts would be reduced first, followed by assigned amounts and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

The following table shows the fund balance classifications as shown on the governmental funds balance sheets in accordance with GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, as of June 30:

	<u>2021</u>	<u>2020</u>
Fund balances:		
Assigned:		
State appropriations assigned to the House	\$ 63,384	63,384
State appropriations assigned to the Senate	<u>82,198</u>	<u>82,198</u>
Total fund balance assigned	<u>145,582</u>	<u>145,582</u>
Unassigned:		
State appropriations	<u>16,931,595</u>	<u>2,518,608</u>
	<u>\$ 17,077,177</u>	<u>2,664,190</u>

See Independent Auditors' Report.

(2) **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED**

**Encumbrances**

Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrance accounting is used, under which purchase orders, contracts, and other commitments for the expenditures of resources are recorded as expenditures of the applicable funds. This is an extension of the formal budgetary integration in the General Fund. Encumbrances do not represent any further constraint on the use of amounts than is already communicated by governmental fund balance classification as restricted, committed, or assigned. As of June 30, 2021 and 2020, there were no such encumbrances outstanding.

**Income Taxes**

The income of the Bureau, as an integral part of the State, is exempt from federal and state income taxes.

**Deferred Inflows and Outflows of Resources**

*Government-Wide Financial Statements*

Deferred inflows and outflows of resources represent amounts associated with pension and OPEB differences between expected and actual experience, differences between projected and actual earnings on pension fund investments, and changes in assumptions. Notes 6 and 7 detail the components of these items.

**Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**Recent Accounting Pronouncements**

*New Accounting Pronouncement Adopted*

In May 2020, GASB issued Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance* (GASB 95). GASB 95 provides temporary relief to governments and other stakeholders in light of the COVID-19 pandemic. That objective is accomplished by postponing the effective dates of certain provisions in Statements and Implementation Guides that first became effective or are scheduled to become effective for periods beginning after June 15, 2018, and later.

See Independent Auditors' Report.

(2) **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED**

**Recent Accounting Pronouncements, Continued**

*New Accounting Pronouncement Adopted, Continued*

In January 2017, GASB issued Statement No. 84, *Fiduciary Activities* (GASB 84). GASB 84 improves guidance regarding the recognition and reporting of fiduciary activities. GASB 84 identifies four types of reportable fiduciary fund types, including (1) pension (and other employee benefit) trust funds, (2) investment trust funds, (3) private-purpose trust funds, and (4) custodial funds. GASB 84 outlines the accounting and disclosure requirements for operating structures that qualify as a fiduciary activity. The Bureau adopted GASB 84 effective July 1, 2020, for the June 30, 2021, reporting year, which did not have a significant impact on the Bureau's financial statements.

In August 2018, GASB issued Statement No. 90, *Majority Equity Interest* (GASB 90). GASB 90 improves the consistency and comparability of reporting government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. The Bureau adopted GASB 90 effective July 1, 2020, for the June 30, 2021, reporting year, which did not have a significant impact on the Bureau's financial statements.

*New Accounting Pronouncements Not Yet Adopted*

In June 2017, GASB issued Statement No. 87, *Leases* (GASB 87). GASB 87 defines a lease as a contract that conveys control of the right to use another entity's nonfinancial asset (the underlying asset) as specified in the contract for a period of time in an exchange or exchange-like transaction. GASB 87 improves accounting and financial reporting for leases by governments by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under GASB 87, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The requirements of this Statement are effective for reporting periods beginning after June 15, 2021. Earlier application is encouraged. The Bureau has not determined the impact of GASB 87 on the financial statements.

(2) **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED**

**Recent Accounting Pronouncements, Continued**

*New Accounting Pronouncements Not Yet Adopted, Continued*

In May 2019, GASB issued Statement No. 91, *Conduit Debt Obligations* (GASB 91). GASB 91 provides a single method of reporting conduit debt obligations by issuers and eliminates diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligation, and (3) related note disclosures. The Bureau will adopt GASB 91 effective July 1, 2021, for the June 30, 2022, reporting year. The Bureau does not expect GASB 91 to have a significant impact on the financial statements.

In January 2020, GASB issued Statement No. 92, *Omnibus 2020* (GASB 92). GASB 92 enhances comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics and includes specific provisions. The Bureau will adopt GASB 92 effective July 1, 2021, for the June 30, 2022, reporting year. The Bureau does not expect GASB 92 to have a significant impact on the financial statements.

In March 2020, GASB issued Statement No. 93, *Replacement of Interbank Offered Rates* (GASB 93). GASB 93 is to address other accounting and financial reporting implications that result from the replacement of interbank offered rates. The Bureau will adopt GASB 93 effective July 1, 2022, for the June 30, 2023, reporting year. The Bureau does not expect GASB 93 to have a significant impact on the financial statements.

In March 2020, GASB issued Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements* (GASB 94). GASB 94 is to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). As used in this Statement, a PPP is an arrangement in which a government (the transferor) contracts with an operator (a governmental or nongovernmental entity) to provide public services by conveying control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset (the underlying PPP asset), for a period of time in an exchange or exchange-like transaction. The Bureau will adopt GASB 94 effective July 1, 2022, for the June 30, 2023, reporting year. The Bureau does not expect GASB 94 to have a significant impact on the financial statements.

(2) **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED**

**Recent Accounting Pronouncements, Continued**

*New Accounting Pronouncements Not Yet Adopted, Continued*

In May 2020, GASB issued Statement No. 96, *Subscription-Based Information Technology Arrangements* (GASB 96). GASB 96 provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). This Statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset—an intangible asset—and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. The Bureau will adopt GASB 96 effective July 1, 2022, for the June 30, 2023, reporting year. The Bureau has not determined the impact of GASB 96 on the financial statements.

In June 2020, GASB issued Statement No. 97, *Certain Component Unit Criteria and Accounting Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans—an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32* (GASB 97). GASB 97 objectives are to (1) increase consistency and comparability related to the reporting of fiduciary component units in circumstances in which a potential component unit does not have a governing board and the primary government performs the duties that a governing board typically would perform; (2) mitigate costs associated with the reporting of certain defined contribution pension plans, defined contribution other postemployment benefit (OPEB) plans, and employee benefit plans other than pension plans or OPEB plans (other employee benefit plans) as fiduciary component units in fiduciary fund financial statements; and (3) enhance the relevance, consistency, and comparability of the accounting and financial reporting for Internal Revenue Code (IRC) Section 457 deferred compensation plans (Section 457 plans) that meet the definition of a pension plan and for benefits provided through those plans. The Bureau will adopt GASB 97 effective July 1, 2021, for the June 30, 2022, reporting year. The Bureau has not determined the impact of GASB 97 on the financial statements.

**Date of Management’s Review of Subsequent Events**

Management has evaluated subsequent events through March 3, 2022, the date which the financial statements were available to be issued, and determined that no subsequent events have occurred that require adjustment to or disclosure in the financial statements.

(3) **CASH BALANCES**

At June 30, 2021 and 2020, the Bureau maintained cash balances of approximately \$27,198,000 and \$12,785,000, respectively, with the State Treasurer. The Bureau’s deposits with the State Treasurer are pooled with the funds of other state agencies and then, in accordance with statutory limitation, placed in banks or invested as the State Treasurer may determine. Deposits are fully insured or collateralized with securities held by an agent of the State, in the State’s name.

See Independent Auditors’ Report.

#### (6) **PENSION PLAN**

##### **Plan Description**

The Bureau contributes to the Oklahoma Public Employees Retirement Plan, a cost-sharing, multiple-employer defined benefit public employee retirement plan administered by OPERS. OPERS provides retirement, disability, and death benefits to plan members and beneficiaries. The benefit provisions are established and may be amended by the Oklahoma Legislature. Title 74 of the Oklahoma Statutes, Sections 901–943, as amended, assigns the authority for management and operation of the Oklahoma Public Employees Retirement Plan to the Board of Trustees of OPERS (the “Board”). OPERS issues a publicly available annual financial report that includes financial statements and required supplementary information for the Oklahoma Public Employees Retirement Plan. That annual report may be obtained by writing to the Oklahoma Public Employees Retirement System, 5400 N. Grand Boulevard, Suite 400, Oklahoma City, Oklahoma 73112 or by calling 1-800-733-9008, or can be obtained at: [https://www.opers.ok.gov/wp-content/uploads/2020/11/2020\\_CAFR\\_OPERS.pdf](https://www.opers.ok.gov/wp-content/uploads/2020/11/2020_CAFR_OPERS.pdf).

##### **Benefits Provided**

OPERS provides members with full retirement benefits at their specified normal retirement age or, for any person who became a member prior to July 1, 1992, when the sum of the member’s age and years of credited service equals or exceeds 80 (Rule of 80), and for any person who became a member after June 30, 1992, when the member’s age and years of credited service equals or exceeds 90 (Rule of 90).

Normal retirement date is further qualified to require that all members employed on or after January 1, 1983, must have 6 or more years of full-time equivalent employment with a participating employer before being eligible to receive benefits. Credited service is the sum of participating and prior service. Prior service includes nonparticipating service before January 1, 1975, or the entry date of the employer and active wartime military service.

A member with a minimum of 10 years of participating service may elect early retirement with reduced benefits beginning at age 55 if the participant became a member prior to November 1, 2011, or age 60 if the participant became a member on or after November 1, 2011.

Disability retirement benefits are available for members having 8 years of credited service whose disability status has been certified as being within 1 year of the last day on the job by the Social Security Administration. Disability retirement benefits are determined in the same manner as retirement benefits, but payable immediately without an actuarial reduction.

State, county, and local agency employees become eligible to vest fully upon termination of employment after attaining 8 years of credited service, or the members’ contributions may be withdrawn upon termination of employment.

See Independent Auditors’ Report.

(6) **PENSION PLAN, CONTINUED**

**Benefits Provided, Continued**

For state, county, and local agency employees, benefits are determined at 2% of the average annual salary received during the highest 36 months of the last 10 years of participating service, but not to exceed the applicable annual salary cap, multiplied by the number of years of credited service. Members who join OPERS on or after July 1, 2013, will have their salary averaged over the highest 60 months of the last 10 years. Normal retirement age under the plan is 62 or Rule of 80/90 if the participant became a member prior to November 1, 2011, or age 65 or Rule of 90 if the participant became a member on or after November 1, 2011.

Members who elect to pay the additional contribution rate, which became available in January 2004, will receive benefits using a 2.5% computation factor for each full year the additional contributions are made. In 2004, legislation was enacted to provide an increased benefit to retiring members who were not yet eligible for Medicare. The Medicare Gap benefit option became available to members under age 65 who retired on or after May 1, 2006. Members may elect to receive a temporary increased benefit to cover the cost of health insurance premiums until the member is eligible to receive Medicare. After the member becomes eligible for Medicare, the retirement benefit will be permanently reduced by an actuarially determined amount. The option is irrevocable, must be chosen prior to retirement, and is structured to have a neutral actuarial cost to OPERS.

Upon the death of an active member, the accumulated contributions of the member are paid to the member's named beneficiary(ies) in a single lump sum payment. If a retired member elected a joint annuitant survivor option or an active member was eligible to retire with either reduced or unreduced benefits or eligible to vest the retirement benefit at the time of death, benefits can be paid in monthly payments over the life of the spouse if the spouse so elects.

Benefits are payable to the surviving spouse of an elected official only if the elected official had at least 6 years of participating elected service and was married at least 3 years immediately preceding death. Survivor benefits are terminated upon death of the named survivor and, for elected officials, remarriage of the surviving spouse. Upon the death of a retired member, with no survivor benefits payable, the member's beneficiary(ies) are paid the excess, if any, of the member's accumulated contributions over the sum of all retirement benefit payments made.

Upon the death of a retired member, OPERS will pay a \$5,000 death benefit to the member's beneficiary or estate of the member if there is no living beneficiary. The death benefit will be paid in addition to any excess employee contributions or survivor benefits due to the beneficiary.

### (6) PENSION PLAN, CONTINUED

#### Benefits Provided, Continued

Legislation was enacted in 1999 which provided a limited additional benefit for certain terminated members eligible to vest as of July 1, 1998. This limited benefit is payable as an additional \$200 monthly benefit upon the member's retirement up to the total amount of certain excess contributions paid by the participant to OPERS. In April 2001, limited benefit payments began for qualified retired members.

#### Contributions

The contribution rates for each member category of OPERS are established by the Oklahoma Legislature after recommendation by the Board based on an actuarial calculation, which is performed to determine the adequacy of such contribution rates.

Each member participates based on their qualifying gross salary earned, excluding overtime. There is no cap on the qualifying gross salary earned, subject to Internal Revenue Service (IRS) limitations on compensation.

For 2021 and 2020, state agency employers contributed 16.5% on all salary, and state employees contributed 3.5% on all salary.

For 2021 and 2020, contributions of participating county and local agencies totaled 20.0% of salary composed of a minimum employee contribution rate of 3.5% up to a maximum of 8.5% and a minimum employer contribution rate of 11.5% up to a maximum of 16.5%.

Members have the option to elect to increase the benefit computation factor for all future service from 2.0% to 2.5%. The election is irrevocable, binding for all future employment under OPERS, and applies only to full years of service. Those who make the election pay the standard contribution rate plus an additional contribution rate, 2.91%, which is actuarially determined. The election is available for all state, county, and local government employees, except for elected officials and hazardous duty members.

Contributions to OPERS by the Bureau for 2021, 2020, and 2019, were approximately as follows:

<u>2021</u>	<u>2020</u>	<u>2019</u>
<u>\$ 149,000</u>	<u>58,000</u>	<u>54,000</u>

#### **Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

At June 30, 2021 and 2020, the Bureau reported a liability for its proportionate share of the net pension liability. As of June 30, 2021, the net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2020. As of June 30, 2020, the net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2019. The Bureau's proportion of the net pension liability was based on the Bureau's contributions received by OPERS relative to the total contributions received by OPERS for all participating employers as of June 30, 2020 and 2019. Based upon this information, the Bureau's proportion for June 30, 2021 and 2020, was 0.02076306% and 0.02007983%, respectively.

For the years ended June 30, 2021 and 2020, the Bureau recognized pension benefit of \$34,601 and \$19,577, respectively. At June 30, 2021 and 2020, the Bureau reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target asset allocation and best estimates of geometric real rates of return for each major asset class as of June 30, 2021, are summarized in the following table:

#### (6) PENSION PLAN, CONTINUED

##### Discount Rate

The discount rate used to measure the total pension liability was 6.50% and 7.00%, net of investment expenses in 2020 and 2019, respectively. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and the employers will be made at the current contribution rate as set out in state statute. Based on those assumptions, OPERS' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The discount rate determined does not use a municipal bond rate.

##### Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability (asset) as of June 30, 2021 and 2020, of the Bureau calculated using the discount rate of 6.50% and 7.00%, respectively, as well as what the Bureau's net pension liability (asset) would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate as of June 30:

(7) **OTHER POSTEMPLOYMENT BENEFITS**

***HEALTH INSURANCE SUBSIDY PLAN OPEB***

**Description**

The Bureau participates in the OPERS Health Insurance Subsidy Plan (HISP), a cost-sharing, multiple-employer defined benefit public employee health insurance subsidy retirement plan which is administered by OPERS. The HISP is classified as an “Other Postemployment Benefit.”

**Benefits Provided**

HISP provides a health insurance premium subsidy for retirees of OPERS who elect to maintain health insurance with EGID or other qualified insurance plan provided by the employers. The HISP subsidy is capped at \$105 per month per retiree. This subsidy continues until the retiree terminates health insurance coverage with EGID or other qualified plan, or until death. The subsidy is only for the retiree, not joint annuitants or beneficiaries.

**Contributions**

The contribution rates for each member category of OPERS are established by the Oklahoma Legislature after recommendation by the Board based on an actuarial calculation, which is performed to determine the adequacy of such contribution rates. An actuarially determined portion of the total contribution to OPERS are set aside to finance the cost of the benefits of the HISP in accordance with provisions of the Internal Revenue Code.

Each member participates based on their qualifying gross salary earned, excluding overtime. There is no cap on the qualifying gross salary earned, subject to Internal Revenue Service (IRS) limitations on compensation. Only employers contribute to the HISP. For 2021 and 2020, state agency employers contributed 16.5% on all salary.

Contributions to OPERS for the HISP by the Bureau were approximately \$10,500, \$4,300, and \$4,000 for the years ended June 30, 2021, 2020, and 2019, respectively.

***IMPLICIT RATE SUBSIDY OF HEALTH INSURANCE PLAN  
OPEB LIABILITY***

**Description**

The Bureau participates in the EGID's health insurance plan, which is a non-trusted single-employer plan that provides for employee and dependent healthcare coverage from the date of retirement to age 65, provided the participant was covered by the health insurance plan before retiring.

In conjunction with providing the postretirement medical benefits through the health insurance plan, the State determined that an OPEB liability existed in relation to an implicit rate subsidy. The State calculated the implicit rate subsidy of health insurance plan OPEB liability (IRSHIP OPEB liability) for all state agencies that participate in the EGID health insurance plan and whose payroll is processed through the State's payroll system. The Bureau met these criteria and therefore was one of the agencies included in the State's calculation.

The IRSHIP provides members with postretirement medical benefits until age 65 if the retiree and spouse pay the full active premium. Participants in the health insurance plan can elect to enroll in special coverage, and surviving spouses may continue in the Plan until age 65. Contributions to the health insurance plan are made by both participants and the Bureau on a "pay as you go" basis. For the years ended June 30, 2021 and 2020, the Bureau's contributions were approximately \$2,100 and \$2,200, respectively.

**OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and  
Deferred Inflows of Resources Related to OPEB**

At June 30, 2021 and 2020, the Bureau reported a liability of \$28,555 and \$26,641, respectively, for its proportionate share of the net IRSHIP OPEB liability. The net IRSHIP OPEB liability was measured as of July 1, 2020 and 2019, and the total IRSHIP OPEB liability used to calculate the net IRSHIP OPEB liability was determined by an actuarial valuation as of June 30, 2021 and 2020. The Bureau's proportion of the net IRSHIP OPEB liability was based on the Bureau's active employees to all active employees of the State agencies included in the State's calculations as of July 1, 2020 and 2019. Based upon this information, the Bureau's proportion was 0.02009590% and 0.02015210% at June 30, 2021 and 2020, respectively.

- Investment return—Not applicable, as the health insurance plan is unfunded and benefits are not paid from a qualifying trust.
- Mortality rates—Pub-2010 Public Retirement Plans General Mortality Table weighted by Headcount projected by MP-2020 for 2020 and MP-2019 for 2019.
- Salary scale, retirement rate, withdrawal rate, and disability rate actuarial assumptions are based on rates for the various retirement systems that the health insurance plan's participants are in, including—
  - Oklahoma Public Employees Retirement System
  - Oklahoma Law Enforcement Retirement System
  - Teachers' Retirement System of Oklahoma
  - Uniform Retirement System of Justices & Judges
  - Oklahoma Department of Wildlife Conservation Defined Benefit Pension Plan
- Plan participation—40% of retired employees are assumed to participate in the health insurance plan.
- Marital assumptions—Male participants: 25% who elect coverage are assumed to have a spouse who will receive coverage.

Female participants: 15% who elect coverage are assumed to have a spouse who will receive coverage.

Males are assumed to be 3 years older than their spouses.

- Plan entry date is the date of hire.
- Actuarial cost method—Entry age normal based upon salary
- Healthcare trend rate—5.30% decreasing to 5.00% for 2020 and 2019.

(8) **OKLAHOMA STATE EMPLOYEES DEFERRED COMPENSATION PLAN,  
DEFERRED SAVINGS INCENTIVE PLAN, AND  
DEFINED CONTRIBUTION PLAN**

**Deferred Compensation Plan**

The State offers its employees a Deferred Compensation Plan (the “Plan”) as authorized by Section 457 of the Internal Revenue Code (IRC), as amended by the Tax Reform Act of 1986, and in accordance with the provisions of Sections 1701 through 1706 of Title 74 of the Oklahoma Statutes.

The supervisory authority for the management and operation of the Plan is the Board.

The Plan is available to all State employees, as well as any elected officials receiving a salary from the State. Participants may direct the investment of their contributions in available investment options offered by the Plan. The minimum contribution amount is the equivalent of \$25 per month, and participants are immediately 100% vested in their respective accounts. All interest, dividends, and investment fees are allocated to participants’ accounts.

Participants may defer until future years up to the lesser of 100% of their compensation as defined by Plan documents or the maximum amount allowed each year as determined by the IRS.

The Plan offers a catch-up program to participants, which allows them to defer annually for the 3 years prior to their year of retirement, up to twice that plan year’s deferral limit. The amount of additional contributions in excess of the normal maximum contributions to the Plan is also limited to contributions for years in which the participant was eligible but did not participate in the Plan or the difference between contributions made and the maximum allowable level. To be eligible for the catch-up program, the participant must be within 3 years of retirement with no reduced benefits.

Participants age 50 or older may make additional contributions annually, subject to certain limits.

Deferred compensation benefits are paid to participants or beneficiaries upon termination, retirement, death, or unforeseeable emergency. Such benefits are based on a participant’s account balance and are disbursed in a lump sum or periodic payments at the option of the participant or beneficiaries in accordance with the Plan’s provisions.

Effective January 1, 1998, the Board established a trust and a trust fund covering the Plan’s assets, pursuant to federal legislation enacted in 1996 requiring public employers to establish such trusts for plans meeting the requirements of Section 457 of the IRC no later than January 1, 1999. Under the terms of the trust, the corpus or income of the trust fund may be used only for the exclusive benefit of the Plan’s participants and their beneficiaries. Prior to the establishment of the trust, the Plan’s assets were subject to the claims of general creditors of the State. The Board acts as trustee of the trust. The participants’ accounts are invested in accordance with the investment elections of the participants. The Board is accountable for all deferred compensation received, but has no duty to require any compensation to be deferred or to determine that the amounts received comply with the Plan or to determine that the trust fund is adequate to provide the benefits payable pursuant to the Plan.

See Independent Auditors’ Report.

DEFERRED SAVINGS INCENTIVE PLAN, AND  
DEFINED CONTRIBUTION PLAN, CONTINUED**

**Deferred Compensation Plan, Continued**

Further information may be obtained from the Oklahoma State Employees Deferred Compensation Plan's audited financial statements for the years ended June 30, 2021 and 2020. The Bureau believes that it has no liabilities with respect to the Plan.

**Deferred Savings Incentive Plan**

Effective January 1, 1998, the State established the Oklahoma State Employees Deferred Savings Incentive Plan (the "Savings Incentive Plan") as a money purchase pension plan pursuant to IRC Section 401(a). The Savings Incentive Plan and its related trust are intended to meet the requirements of IRC Sections 401(a) and 501(a).

Any qualified participant who is a State employee and is an active participant in the Plan is eligible for a contribution of the amount determined by the Oklahoma Legislature, currently the equivalent of \$25 per month. Participation in the Savings Incentive Plan is automatic in the month of participation in the Plan and is not voluntary.

Upon cessation of contributions to the Plan, termination of employment with the State, retirement, or death, a participant will no longer be eligible for contributions from the State into the Savings Incentive Plan. Participants are at all times 100% vested in their Savings Incentive Plan account. Participant contributions are not required or permitted. Qualified participants may make rollover contributions to the Savings Incentive Plan, provided such rollover contributions meet applicable requirements of the IRC. Plan participants may direct the investment of the contributions in available investment options offered by the Savings Incentive Plan. All interest, dividends, and investment fees are allocated to the participants' accounts.

Savings Incentive Plan benefits are paid to participants or beneficiaries upon termination, retirement, or death. Such benefits are based on a participant's account balance and are disbursed in a lump sum or periodic payments or may be rolled over to a qualified plan at the option of the participant or beneficiaries.

(8) **OKLAHOMA STATE EMPLOYEES DEFERRED COMPENSATION PLAN,  
DEFERRED SAVINGS INCENTIVE PLAN, AND  
DEFINED CONTRIBUTION PLAN, CONTINUED**

**Defined Contribution Plan**

Pathfinder is a mandatory contribution plan for eligible state employees who first became employed by a participating employer on or after November 1, 2015, and who have no prior participation in OPERS.

Under this plan, members choose a contribution rate, which is matched by their employer up to 7%, and members have the freedom to select and change their investments. A defined contribution plan like Pathfinder does not provide a guaranteed lifetime source of income. The amount a participant has at retirement under a defined contribution plan is dependent upon how much was contributed over his/her career, how well those investments performed, and how quickly distributions are taken in retirement.

The Pathfinder plan is one retirement plan with two components: a savings incentive 401(a) plan for mandatory contributions; and a deferred compensation 457(b) plan for additional voluntary contributions. The mandatory 401(a) plan contribution is 4.5% of the participant's annual salary, and state agency employers contribute an additional 6%. In addition, the participant can receive an additional 1% matching contribution when they make a voluntary contribution of 2.5% to the 457(b) plan. The agency contributes 16.5% to all eligible employees. The amounts not used for matching with Pathfinder are given to OPERS and do not come back to the agency.

(9) **OKLAHOMA LEGISLATURE CONTRIBUTIONS**

During the year ended June 30, 2021, the Bureau did not contribute funds to the Senate or the House to be utilized by the Senate or the House for operational activities. During the year ended June 30, 2020, the Bureau contributed \$5,689,283 to the Senate to be utilized by the Senate for operational activities. During the year ended June 30, 2020, the Bureau contributed \$10,120,582 to the House to be utilized by the House for operational activities. The contributions, totaling \$15,809,865 during the year ended June 30, 2020, were paid from state appropriations of the Bureau and were reflected on the government-wide and fund financial statements as an expenditure. The \$10,120,582 contributed to the House was reflected as a payable in the accompanying financial statements at June 30, 2021 and 2020, since the payment of the \$10,120,582 did not occur until after June 30, 2021.

	<u>\$ 86,474</u>	<u>39,669</u>

#### (11) RISK MANAGEMENT

The Risk Management Division of the Division of Capital Assets Management (the “Division”) is empowered by the authority of Title 74 O.S. Supp. 1993, Section 85.34 et seq. The Division is responsible for the acquisition and administration of all insurance purchased by the State or administration of any self-insurance plans and programs adopted for use by the State for certain organizations and bodies outside of State government, at the sole expense of such organizations and bodies.

The Division is authorized to settle claims of the State and shall govern the dispensation and/or settlement of claims against a political subdivision. In no event shall self-insurance coverage provided by the State, an agency, or other covered entity exceed the limitations on the maximum dollar amount of liability specified by the Oklahoma Government Tort Claims Act, as provided by Title 51 O.S. Supp. 1988, Section 154. The Division oversees the collection of liability claims owed to the State incurred as the result of a loss through the wrongful or negligent act of a private person or other entity.

The Division is also charged with the responsibility to immediately notify the Office of the Attorney General of any claims against the State presented to the Division. The Division purchases insurance policies through third-party insurance carriers that ultimately inherit the risk of loss. The Division annually assesses each state agency, including the Bureau, their pro rata share of the premiums purchased. The Bureau has no obligations to any claims submitted against the Bureau.

(12) CONTINGENCIES

Legal

The Bureau is involved in legal proceedings in the normal course of operations, none of which, in the opinion of the Bureau's leadership, will have a material effect on the financial statements of the Bureau.

COVID-19

The novel coronavirus ("COVID-19"), which was declared a global health emergency in January 2020 and a pandemic in March 2020, has caused significant changes in political and economic conditions around the world, including disruptions and volatility in the global capital markets. In response, the State of Oklahoma and local municipalities, including the City of Oklahoma City, Oklahoma, have taken various preventative or protective actions, such as imposing restrictions on business operations and advising or requiring individuals to limit or forgo their time outside of their homes. These issues impacted the operations of the Bureau during the years ended June 30, 2021 and 2020, including instituting remote work requirements for some employees. The Bureau's leadership has considered the economic implications of the COVID-19 pandemic in making critical and significant accounting estimates included in the June 30, 2021 and 2020, financial statements.

The extent to which the COVID-19 pandemic may impact the Bureau will depend on future developments which are uncertain, such as the duration of the outbreak, additional governmental mandates issued to mitigate the spread of the disease, business closures, economic disruptions, and the effectiveness of actions taken to contain and treat the virus. Accordingly, the COVID-19 pandemic may have a negative impact on the Bureau's future operations, the size and duration of which is difficult to predict. The Bureau's leadership will continue to actively monitor the situation and may take further actions altering operations that the Bureau's leadership determines are in the best interests of the Bureau's staff, the House's staff, and the Senate's staff, or as required by federal, state, or local authorities.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER  
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN  
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Legislative Service Bureau

We have audited, in accordance with the auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and the General Fund of the Legislative Service Bureau (the "Bureau"), a component of the General Fund of the State of Oklahoma, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Bureau's basic financial statements, and have issued our report thereon dated March 3, 2022. Our report includes an explanatory paragraph disclaiming an opinion on required supplementary information, an explanatory paragraph to emphasize the fact that the financial statements of the Bureau are intended to present the financial position and the changes in financial position of only that portion of the governmental activities and the General Fund of the State of Oklahoma attributable to the transactions of the Bureau, and an explanatory paragraph stating that the Bureau is not required by statute to prepare a line-item budget.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Bureau's internal control over financial reporting ("internal control") as a basis for designing the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Bureau's internal control. Accordingly, we do not express an opinion on the effectiveness of the Bureau's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Bureau's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

(Continued)

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER  
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN  
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*, CONTINUED**

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Bureau's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Purpose of This Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Bureau's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Bureau's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
