INDEPENDENT AUDITORS' REPORT

To the Board of Trustees of the Oklahoma Police Pension and Retirement System

Opinions

We have audited the individual columns labeled "Employer Allocations" included in the accompanying Schedule of Employer Allocations and the Schedule of Pension Amounts by Employer (the "Schedules") of the Oklahoma Police Pension and Retirement Plan (the "Plan"), administered by the Oklahoma Police Pension and Retirement System, which is a part of the State of Oklahoma financial reporting entity, as of and for the year ended June 30, 2022. We have also audited the total for all entities of the columns titled "Net Pension Liability (Asset)," "Total Deferred Outflows of Resources," "Total Deferred Inflows of Resources," and "Total Employer Proportionate Share of Pension Plan Expense, Excluding That Attributable to Employer-Paid Member Contributions and Employer Specific Amounts" (specified column totals) included in the accompanying Schedules of the Plan as of and for the year ended June 30, 2022, and the related notes to the Schedules.

In our opinion, the Schedules referred to above present fairly, in all material respects, the employer allocations and net pension liability (asset), total deferred outflows of resources, total deferred inflows of resources, and total employer proportionate share of pension plan expense, excluding that attributable to employer-paid member contributions and employer specific amounts, for the total of all participating entities for the Plan as of and for the year ended June 30, 2022, in accordance with accounting principles generally accepted in the United States.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Schedules section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Other Matter

We have audited, in accordance with auditing standards generally accepted in the United States, the financial statements of the Plan as of and for the year ended June 30, 2022, and our report thereon, dated September 14, 2022, expressed an unmodified opinion on those financial statements.

(Continued)

INDEPENDENT AUDITORS' REPORT, CONTINUED

Responsibilities of Management for the Schedules

Management is responsible for the preparation and fair presentation of these Schedules in accordance with accounting principles generally accepted in the United States; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of schedules that are free from material misstatement, whether due to fraud or error.

In preparing the Schedules, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for twelve months beyond the date of the Schedules, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Schedules

Our objectives are to obtain reasonable assurance about whether the amounts and disclosures in the individual columns labeled "Employer Agency Allocations" and the specified column totals included in the Schedules are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the Schedules.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the Schedules, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the Schedules.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that
 are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
 effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting
 estimates made by management, as well as evaluate the overall presentation of the Schedules.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that
 raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of
 time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

(Continued)

INDEPENDENT AUDITORS' REPORT, CONTINUED

Restriction on Use

Our report is intended solely for the information and use of the Plan's management, the Plan's Board of Trustees, and contributing employers and their auditors and is not intended to be, and should not be, used by anyone other than these specified parties.

FN1 – Allocable pension expense is meant to reflect the pension expense to which the proportionate share applies.

Due to the effects of rounding the Employer Allocation Percentage, direct calculations of the allocated amounts may immaterially vary from the amounts presented. See Independent Auditors' Report.

Oklahoma Police Pension and Retirement System Schedule of Pension Amounts by Employer June 30, 2022 (Continued from the previous page)

FN1 – Allocable pension expense is meant to reflect the pension expense to which the proportionate share applies.

Due to the effects of rounding the Employer Allocation Percentage, direct calculations of the allocated amounts may immaterially vary from the amounts presented. See Independent Auditors' Report.

Oklahoma Police Pension and Retirement System Schedule of Pension Amounts by Employer June 30, 2022 (Continued from the previous page)

							Deferred Outflow	of Resources			Deferred Inflow of	Resources		
							Net Difference				Net Difference			Total Employer Proportionate Share
_	Employer Al	locations					Between				Between			of Pension Plan Expense Excluding

FN1 – Allocable pension expense is meant to reflect the pension expense to which the proportionate share applies.

Due to the effects of rounding the Employer Allocation Percentage, direct calculations of the allocated amounts may immaterially vary from the amounts presented. See Independent Auditors' Report.

(1) SYSTEM STRUCTURE AND OPERATIONS

The Oklahoma Police Pension and Retirement System is administrator of the Oklahoma Police Pension and Retirement Plan, a multi-employer, cost sharing defined benefit pension plan established by Oklahoma Statutes. The System is a component unit of the State of Oklahoma and is part of the State's reporting entity. The system covers substantially all police officers employed by its 153 participating employers and state agencies.

This report was prepared to provide participating employers with additional information needed to comply with the financial reporting requirements promulgated under *GASB Statement 68 – Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27.* The System's annual financial statements, located at https://www.opprs.ok.gov/financial-reports/, contain additional information not included within the scope of this report. Participating employers will need to reference this report, the System's financial statements and its actuarial valuations to fully comply with the disclosure requirements of GASB Statement 68.

As interpreted through GASB Statement 68, the State of Oklahoma is considered a non-employer contributing entity. The State contributes a portion of the Insurance Premium Tax collected through its taxing authority. This contribution rate was 14.0% of the Insurance Premium Tax collected by the State. For the fiscal year ended June 30, 2022, the State's contribution to the System totaled \$39,848,000. As a non-employer contributing entity, no portion of the Net Pension Liability has been allocated to the State because of this contribution. The state agencies listed on the schedule with participating employees in the Plan have been allocated their proportionate share of the net pension liability and other related pension amounts.

This report provides specific detailed information and should be utilized by the System's participating employers to assist with the preparation of their financial statements. Data provided in this report is limited in time, nature, and scope, and does not provide complete financial information relative to the System or its participating employers.

(2) ESTIMATES, CONSIDERATION OF VOLATILITY AND KEY DATES

The Schedule of Employer Allocations and the Schedule of Pension Amounts by Employer include the use of significant estimates where required. Due to the long-term nature of defined-benefit pension plans, certain amounts, including the Net Pension Liability (Asset), are based on actuarial mathematical models and estimates that project future expectations. These schedules provide results for a specific point in time, and changes in estimates, investment performance and future cost expectations can have a material impact on the information presented from one year to the next.

Where calculations have been made to provide a proportionate share for all employers, proportion calculations are presented to 6 significant digits. Consequently, certain column totals and amounts derived from an employer's proportion, as well as any manual calculations using the determined proportion and a collective amount will produce results that may immaterially differ from the presented totals.

Measurement Date and Valuation Date – The System has an annual actuarial valuation that coincides with its fiscal year end. The measurement date and valuation date covered by this valuation is for the period ended June 30, 2022. The System's actuarial report is dated July 1, 2022.

Expected Remaining Service Life of Members – Certain deferred inflow and deferred outflow calculations require amortization over the remaining service life of the System's members, including retirees, as determined at the beginning of the measurement period. For the measurement period beginning July 1, 2021, the membership's remaining service life was 5.69 years.

(3) BASIS FOR DETERMINING COMPONENTS OF THE SCHEDULES

GASB Statement No. 68 requires participating employers in the Plan to recognize their proportionate share of the collective net pension liability (asset), collective deferred outflows of resources, collective deferred inflows of resources, and collective pension expense, excluding that attributable to employer-paid member contributions. The employer allocation percentages presented in the Schedules are based on the ratio of the contributions as an individual employer to total contributions to the Plan during the years ended June 30, 2022 and 2021. Employer allocation percentages have been rounded for presentation purposes; therefore, amounts presented in the Schedules may result in immaterial differences.

Employer Contributions represent each participating employer's actual contributions to the Plan for the fiscal year. Contributions are calculated on a cash basis and only include actual payments received by the Plan between July 1, 2021, and June 30, 2022.

Employer Allocation Percentage represents the portion of each individual employer's actual cash basis contributions received for the fiscal year divided by the total of all employer cash basis contributions for the fiscal year. This percentage represents each employer's proportionate share of the pension amounts presented in this schedule.

2022 Percentage Change in Proportion shows the difference between each employer's proportion determined for fiscal 2022 and that of fiscal 2021.

Employers Change in Proportion of June 30, 2021 Net Pension Liability (Asset) represents each employer's increase or decrease in proportionate share of the Net Pension Liability (Asset) calculated for fiscal year 2021.

<u>Employers Change in Proportion of June 30, 2021 Deferred Inflows</u> represents each employer's increase or decrease in proportionate share of the deferred inflows determined in fiscal year 2021.

<u>Employers Change in Proportion of June 30, 2021 Deferred Outflows</u> represents each employer's increase or decrease in proportionate share of deferred outflows determined in fiscal year 2021.

Total Change in Proportionate Share of June 30, 2021 Net Pension Liability, Deferred Inflows and Deferred Outflows shows the combined total of proportionate share changes for each employer for fiscal 2021. This change in proportion is then amortized over the remaining service life of the systems members, with the remaining unamortized balance presented as either a deferred inflow or deferred outflow due to changes in proportion. This schedule presents proportionate change totals only for the year ended June 30, 2021. Prior year proportion changes are not included in these totals.

Net Pension Liability (Asset) (NPL/(A) was calculated using a discount rate of 7.5%. For the fiscal year ended June 30, 2022, the System had a net pension liability (asset) (NPL/(A)) of (\$80,192,000) to be allocated proportionately among participating employers. The System's net pension liability (asset) (NPL/(A)) was calculated as follows:

Net Pension Liability (Asset)	NPL/	(A) at June 30, 2022
Total Pension Liability (TPL)	\$	2,928,775,000
Plans Fiduciary Net Position		(3,008,967,000)
Employers Net Pension Liability (Asset)	\$	(80,192,000)
Plans fiduciary net position as a % of TPL		102.74%

A net pension liability (asset) sensitivity comparison shows how a 1 percent change (both lower and higher) in the discount rate will affect the net pension liability (asset). The following table presents the System's net pension liability (asset) for the current discount rate of 7.5% as well as what it would be using a discount rate 1 percent lower (6.5%) and 1 percent higher (8.5%).

(3) BASIS FOR DETERMINING COMPONENTS OF THE SCHEDULES, CONTINUED

	1% Decrease in Discount Rate	Current Discount Rate	1% Increase in Discount Rate
	(6.5%)	(7.5%)	(8.5%)
Total Net Pension Liability (Asset)	\$232,340,000	(\$80,192,000)	(\$344,358,000)

The Schedule of Pension Amounts by Employer presents the collective amounts in the sensitivity comparison multiplied by each employer's allocation percentage, thus determining each participating employer's specific sensitivity to net pension liability changes at June 30, 2022.

Deferred Inflow and Outflow of Resources

Certain differences that occur from year to year in the calculation of the net pension liability (asset) and net pension expense require deferral and recognition in future years. The following types of differences can result in a deferred outflow or deferred inflow of resources. Due to the variability of results that will affect the plan, deferred inflows and outflows may vary significantly between years. Additionally, certain deferrals may have both inflow and outflow components that are amortized separately over future years.

Differences between Expected and Actual Plan Experience – This difference occurs when the system's actuarial estimate of the plan's experience costs for a given period differ from the actual experience costs. This is usually the result of differences in demographic factors of the membership. The most recent actuarial experience study for the System was for the 5-year period July 1, 2012, to June 30, 2017. Actuarial experience studies are performed every 5 years. For the fiscal year ended June 30, 2022, the system experienced a loss against expected experience, resulting in a system-wide deferred outflow for plan experience of \$41,476,000. System-wide deferred inflows and outflows that result from plan experience differences are divided by the beginning expected remaining service life of its members, which was calculated to be 5.69 years, and amortized over that period, with the current year amount included in the calculation of pension expense.

Net Difference between Projected and Actual Plan Investment Earnings - Each annual actuarial valuation estimates the expected return for the plan. Net differences between this estimate and the actual investment earnings for a given year are included as either a deferred inflow when actual investment earnings exceed the estimate or a deferred outflow when actual investment earnings are less than the estimate. This difference is then amortized over a fixed 5-year period for each unique fiscal year. For fiscal 2022, the System's projected earnings were \$243,580,500. Actual investment earnings for fiscal 2022 were -\$196,554,000 or \$440,134,500 less than projected earnings.

<u>Changes in Assumptions</u> – On occasion, as the result of an experience study or other actuarial considerations, certain assumptions used for estimates may need to be changed. When this occurs, the plan will generally experience an increase or decrease in either deferred inflows or deferred outflows. For the fiscal year ended June 30, 2022, there were no changes in assumption regarding the determination of the plan's liabilities.

<u>Changes in Benefit Terms</u> – During the fiscal year ended June 30, 2022, there were no changes in benefit terms that affected the determination of the plan's liabilities.

<u>Changes in Proportion</u> – A change in proportion can occur due to changes in the membership of participating employers, new employers joining the system, or other factors affecting the contributions of a participating employer in relation to all participating employers. When a change in proportion occurs, the participating employer will experience an increase or decrease in either deferred inflows or deferred outflows during the period the change occurs, with an offsetting effect on pension expense. The Schedule of Employer Allocations presents this change in proportion between the periods ended June 30, 2021, and June 30, 2022. Proportionate changes are then multiplied by the June 30, 2021 Net Pension Liability (Asset), Deferred Inflows and Deferred Outflows to determine the net effect of a change in proportion on each employer's pension expense for the current year. <u>This schedule presents each employer's proportional changes for the current year only.</u>

(3) BASIS FOR DETERMINING COMPONENTS OF THE SCHEDULES, CONTINUED

The following table (excluding any employer-specific amounts) presents the fiscal amounts determined and their effect on pension expense, deferred inflows and deferred outflows respectively, as well as remaining unamortized deferral balances at June 30, 2022.

Differences between Expected and Actual Experience 2017 (41,985,000) (5,284,825) - - 5.75 2018 (13,155,000) (2,340,747) (1,451,265) - 5.65 2019 4,410,000 755,137 1,389,452 5.86 2020 (15,005,000) (2,573,756) (7,283,732) - 5.85 2021 5,727,000 984,021 3,758,958 5.85 2022 41,476,000 7,289,279 34,186,721 5.65 Changes in Assumptions 2018 25,307,000 - - - 2,791,875 5.65 Differences between Projected and Actual Earnings 2018 (27,186,950) (5,437,390) - - - 5 2019 85,521,288 17,104,258 17,104,256 5	tization

Amounts reported as deferred inflows of resources and deferred outflows of resources (excluding any employer-specific amounts) related to pensions will be recognized in pension expense as follows:

	Deferred	Deferred
Year ended June 30,	Inflows	Outflows
2023	\$ (119,492,679)	144,672,568
2024	(118,041,414)	124,655,615
2025	(117,603,876)	96,300,200
2026	-	96,123,074
2027		5,029,605
	\$ (355,137,969)	466,781,062

(3) BASIS FOR DETERMINING COMPONENTS OF THE SCHEDULES, CONTINUED

<u>Proportionate Share of Net Pension Expense</u> - Under GASB Statement 68, participating employers in cost-sharing defined benefit pension plans no longer expense actual contributions made to the Plan. GAAP requires that the pension expense recognized by participating employers each year consider their proportionate share of all Plan cost components, not just contributions to the Plan. For the fiscal year ended June 30, 2022, the Plan's collective pension expense allocated to all participating employers (not including employer-specific amounts) was \$19,164,844. This amount was calculated as follows:

Components of (Collective) Plan Pension Expense	June 30, 2022
Service cost	\$ 70,900,000
Interest on total pension liability	203,502,000
Changes of benefit terms	-
Changes of assumptions	4,503,025
Differences between expected and actual experience	(1,170,891)
Employee contributions	(29,096,000)
Projected earnings on pension plan investments	(243,580,500)
Differences between projected and actual earnings	
on plan investments	11,947,210
Pension plan administrative expense	2,160,000
Total Plan (Collective) Pension Expense	\$ 19,164,844

The collective pension expense is then allocated based on each employer's unique proportion. The <u>Differences between expected and actual experience</u> and the <u>Differences between projected and actual earnings on plan investments</u> represent only the current year's portion of amortization to pension expense. The remaining unamortized balances of these differences are presented in their respective columns in the Schedule of Pension Amounts.

(4) CHANGES IN NET PENSION LIABILITY

A summary of the changes in net pension liability for the year ended June 30, 2022, is as follows:

	Increase (Decrease)		
	Total Pension	Plan Fiduciary Net	Net Pension
	Liability	Position	Liability
	(a)	(b)	(a)-(b)
Balances at June 30, 2021	\$ 2,810,243,000	3,289,959,000	(479,716,000)
Changes for the year:			
Service cost	70,900,000	-	70,900,000
Interest	203,502,000	-	203,502,000
Benefit term changes	-	-	-
Differences between expected and actual experience	41,476,000	-	41,476,000
Assumption changes	-	-	-
Contributions - employer (participating cities)	-	46,124,000	(46,124,000)
Contributions - employee	=	29,096,000	(29,096,000)
Contributions - State of Oklahoma (a non-employer			
contributing entity)	-	39,848,000	(39,848,000)
Net investment income	-	(196,554,000)	196,554,000
Benefit payments, including refunds	(197,346,000)	(197,346,000)	-
Administrative Expense	-	(2,160,000)	2,160,000
Other changes	-	-	-
Net changes	118,532,000	(280,992,000)	399,524,000
Balances at June 30, 2022	\$ 2,928,775,000	3,008,967,000	(80,192,000)

(5) EMPLOYER-PAID MEMBER CONTRIBUTIONS

Due to the nature of the Plan, plan management is not aware of employer-paid member contributions. As such, each employer should determine the effect, if applicable, such employer-paid contributions will have on its pension expense and deferred inflows/outflows.
