## INDEPENDENT AUDITOR'S REPORT

To the City Council  
City of Watonga, Oklahoma

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Watonga, Oklahoma, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the basic financial statements of the City of Watonga's primary government as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the primary government of the City of Watonga, Oklahoma, as of June 30, 2018, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Emphasis of Matter**

As discussed in Note 1, the financial statements referred to above include only the primary government of the City of Watonga, Oklahoma, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the City's legal entity. These primary government financial statements do not include financial data for the City's legally separate component units, which accounting principles generally accepted in the United States of America require to be reported with the financial data of the City's primary government. As a result, the primary government financial statements do not purport to, and do not present fairly the financial position of the reporting entity of the City of Watonga, Oklahoma, as of June 30, 2018, the changes in its financial position or, where applicable, its cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of the reporting entity of the City of Watonga, Oklahoma, as of and for the year ended June 30, 2018, and our report thereon, dated February 19, 2019, expressed an unmodified opinion on those financial statements.

### **Other Matters**

#### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that management's discussion and analysis, budgetary comparison information, and net pension schedules on page 4-10, 37, 38, and 39-41 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Watonga, Oklahoma's basic financial statements. The combining nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining nonmajor fund financial statements are the responsibility of management and were derived from and related directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining nonmajor fund financial statements are fairly stated in all material respects in relation to the basic financial statements as a whole.

### **Other Reporting Required by Government Auditing Standards**

In accordance with Government Auditing Standards, we have also issued our report dated February 19, 2019, on our consideration of the City of Watonga, Oklahoma's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the City of Watonga, Oklahoma's internal control over financial reporting and compliance.

Stillwater, Oklahoma  
February 19, 2019

Within this section, the City of Watonga's ("City") management provides narrative discussion and analysis of the financial performance of the City's for the fiscal year ended June 30, 2018. The City's performance is discussed and analyzed within the context of the accompanying financial statements and disclosures following this section. This discussion focuses on the City's primary government, and unless otherwise noted, component units reported separately from the primary government are not included. Please read it in conjunction with the City's financial statements, which follow this section.

### FINANCIAL SUMMARY

- At June 30, 2018, the assets of the City exceeded its liabilities by \$20,446,594 (net position). Of this amount \$1,985,060 (unrestricted net position) may be used to meet the City's ongoing obligations to citizens and creditors. This compared to the previous year when assets exceeded liabilities by \$20,645,916.
- The City's total net position are comprised of the following:
  - (1) Invested in capital assets, net of related debt of \$18,254,131 include property and equipment, net of accumulated depreciation, and reduced for outstanding debt related to the purchase of construction of capital assets.
  - (2) Restricted net position of \$207,403.
  - (3) Unrestricted net position of \$1,985,060 represents the portion available to maintain the City's continuing obligations to citizens and creditors.
- Total liabilities of the City increased by \$75,866 during the fiscal year.
- After transfers of \$745,887 from governmental activities to business-type activities, net position of governmental activities decreased \$1,626,672 or 17.68%, and net position of business-type activities increased \$1,427,350 or 12.47%.
- At the end of the current fiscal year, unreserved fund balance for the General Fund was \$1,462,881 or 39.64% of total General Fund expenditures, excluding transfers.

### OVERVIEW OF THE FINANCIAL STATEMENTS

*Management's Discussion and Analysis* introduces the City's basic financial statements. The basic financial statements include: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. The City also includes in this report additional information to supplement the basic financial statements.

#### **Government-wide Financial Statements**

The City's annual reporting includes two government-wide financial statements. These statements provide both long-term and short-term information about the City's overall status and are presented to demonstrate the extent the City has met its operating objective efficiently and effectively using all the resourced available and whether the City can continue to meet it objectives in the foreseeable future. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in full accrual accounting and elimination or reclassification of internal activities.

The first of these government-wide statements is the *Statement of Net Position*. This is the City-wide statement of financial position presenting information that includes all of the City's assets and liabilities, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indication of whether the financial position of the City as a whole is improving or deteriorating. Evaluation of the overall economic health of the City would extend to other financial factors such as diversification of the taxpayer base or the condition of the City infrastructure in addition to the financial information provided in this report.

The second government-wide statement is the *Statement of Activities*, which reports how the City's net position changed during the current fiscal year and can be used to assess the City's operating results in its entirety and analyze how the City's programs are financed. All current year revenues and expenses are included regardless of when cash is received or paid. An important purpose of the design of the statement

of activities is to show the financial reliance of the City's distinct activities or functions on revenues provided by the City's taxpayers.

Both government-wide financial statements distinctively report governmental activities of the City that are principally supported by taxes and intergovernmental revenues, such as grants, and business-type activities that are intended to recover all or a significant portion of their costs through user fees and charges. Governmental activities include general government; public safety and judiciary; transportation; and cultural, parks, and recreation. Business-type activities include utility services, including electricity, water, and sanitation, provided by the City.

The City's financial reporting entity includes the funds of the City (primary government) and organization for which the City is accountable (component units).

### ***Fund Financial Statements***

A fund is an accountability unit used to maintain control over resources segregated for specific activities or objectives. The City uses funds to ensure and demonstrate compliance with finance-related laws and regulations. Within the basic financial statements, fund financial statements focus on the City's most significant funds rather than the City as a whole.

The City has three kinds of funds:

*Governmental funds* are reported in the fund financial statements and encompass essentially the same functions reported as governmental activities in the government-wide financial statements. However, the focus is different with fund statements reporting short-term fiscal accountability focusing on the use of spendable resources during the year and balances of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of governmental programs and the commitment of spendable resources for the near-term.

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to the government-wide statements to assist in understanding the differences between these two perspectives.

Budgetary comparison statement is included in the basic financial statement for governmental funds deemed as major. This statement demonstrates compliance with the City's adopted and final revised budget.

*Proprietary funds* are reported in the fund financial statements and generally report services for which the City charges customers a fee. The City has one type of proprietary fund, enterprise funds. Enterprise funds essentially encompass the same functions reported as business-type activities in the government-wide statements. Services are provided to customers external to the City organization such as water, sanitation, and electric utilities.

Proprietary fund statements and statements for discretely presented component units (reporting similarly to proprietary funds) provide both long-term and short-term financial information consistent with the focus provided by the government-wide financial statements but with more detail.

*Fiduciary funds* such as the meter deposit funds are reported in the fiduciary fund financial statements, but are excluded from the government-wide reporting. Fiduciary fund financial statements report resources that are not available to fund City programs. Fiduciary fund financial statements report similarly to proprietary funds.

### ***Notes to the financial statements***

The accompanying notes to the financial statements provide information essential to a full understanding of the government-wide and fund financial statements. Those notes to the financial statement begin immediately following the basic financial statements.

A FINANCIAL ANALYSIS OF THE CITY AS A WHOLE

**Net Position**

The City's combined net position at June 30, 2018 is \$20,446,594. This is a \$199,322 decrease (depreciation expense is \$1,659,974- a non-cash expense) over June 30, 2017 net position of \$20,645,916. The City reported positive balances in total net position for both governmental and business-type activities, reporting \$7,576,040 and \$12,870,554, respectively. The City's overall financial position declined during fiscal year 2018.

Summary of Net Position

<b>Increase (decrease) in net assets</b>	<b>\$ (1,626,672)</b>	<b>\$ (652,112)</b>	<b>\$ 1,427,350</b>	<b>\$ 588,313</b>	<b>\$ (199,322)</b>	<b>\$ (63,799)</b>	<b>\$ (135,523)</b>	<b>212%</b>

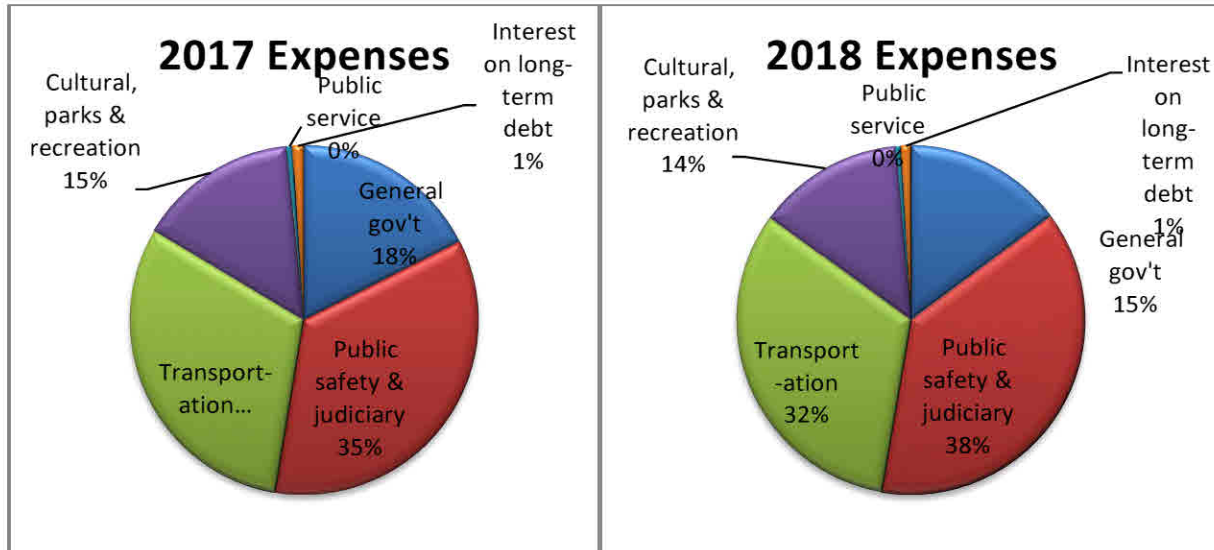

Revenues for the City increased 5.44% over the prior year. This increase in revenues is mainly attributable to an increase in sales and use tax and pension change. Operating expenses increased over prior fiscal year 2017 with a 6.80% change.

Graphic presentations of selected data from the summary table follow to assist in the analysis of the City's activities.

Taxes proved for 84% of the City's governmental revenues in fiscal year 2018. Interest and royalties followed as the second major revenue source accounting for 10% of governmental revenues.

For the year ended June 30, 2018, total expenses for governmental activities were \$4,383,635. Of this amount, public safety and judiciary with \$1,659,857 was the largest operating service department at 38% of the total cost of services for governmental activities. These costs, as well as all other governmental activity expenses, were primarily funded by tax revenues and transfers in from the Light and Water fund. It should be noted that governmental expenses are adjusted from the fund statements to the government-wide statements for the purchase and construction of capital assets. Government-wide statement is full accrual; capital outlay expenses are eliminated and capital assets are reported.

**Business-type Activities**

Business-type activities are shown comparing costs to revenues generated by the related services. Sanitation, Sewer, Water, and Electric activities are intended to be self-supporting with user charges and other revenues designed to recover costs. Other activities provide services with minimal user charges.

For the fiscal year ended June 30, 2018, revenues from electric, water, sanitation and healthcare covered the cost of operating their respective departments.

**General Fund Budgetary Highlights**

The adopted budget for the General Fund for fiscal year 2018 was \$3,871,306. Actual expenses were \$181,026 less than budgeted amounts. The General Fund budget complied with financial policies approved by the City.

**CAPITAL ASSET AND DEBT ADMINISTRATION**

**Capital Assets**

At the end of June 30, 2018, the City had \$19,775,478 invested in capital assets, net of related debt, including vehicles and equipment for police and fire operations, street improvements, and park facilities, in governmental activities and electric lines, water lines and sewer lines in business-type activities. Refer to the table below.

**Primary Government Capital Assets (net of accumulated depreciation)**

	<b>Governmental</b>		<b>Business-type</b>		<b>Total</b>	
	<b>Activities</b>		<b>Activities</b>			
	<b>2018</b>	<b>2017</b>	<b>2018</b>	<b>2017</b>	<b>2018</b>	<b>2017</b>
Land	\$ 650,540	\$ 650,540	\$ 73,020	\$ 73,020	\$ 723,560	\$ 723,560

<b>Totals</b>	<b>\$ 7,910,583</b>	<b>\$ 8,311,374</b>	<b>\$ 11,864,895</b>	<b>\$ 10,324,924</b>	<b>\$ 19,775,478</b>	<b>\$ 18,636,298</b>

- In Governmental Activities, the most significant additions included the theater roof replacement, theater heat units, theater carpet, Caselle software, Toshiba copier, 7 toughpads and accessories for police department, EMS armory driveway, 2017 Ford E450 ambulance, pickup for street department, 1983 dump truck for street department, a copier and projector for the library, and playground equipment.
- In Business-type activities capital additions included 8 fire hydrants, hospital waterline, 12' sanitary sewer pipe, transformer, pump for disposal, Caselle software, and AMI equipment.

**Long-Term Debt**

At year-end, the City had \$1,450,860 in long-term debt outstanding. The City's changes in long-term debt by type of debt are as follows:

**Primary Government Long-Term Debt**

	<b>Governmental</b>		<b>Business-type</b>	
	<b>Activities</b>		<b>Activities</b>	
	<b>2018</b>	<b>2017</b>	<b>2018</b>	<b>2017</b>
Notes payable	-	-	190,860	112,100

less current portion	-	-	(109,888)	(35,400)
<b>Totals</b>	<b>\$ 1,260,000</b>	<b>\$ 1,350,000</b>	<b>\$ 80,972</b>	<b>\$ 76,700</b>

## **ECONOMIC FACTORS AND NEXT YEARS'S BUDGET AND RATES**

### **Economic Environment**

Oklahoma employment has shown gains this year led by the oil and gas industry but most sectors have added jobs. Oil and gas production is at a record high, of which Blaine County has been a big part.

### **Fiscal Year 2019**

The City falls under the Estimate of Needs budget basis. Recurring revenues, including sales and use taxes, are budgeted at 90% of prior year collections however due to the increased sales tax in 2017 and 2018, sales and use tax were budgeted conservatively at 80%. Utility rates were budgeted to increase by 2%. Utility capital improvement fees were also budgeted to assist the City in keeping updated equipment. This approach will ensure that any further decline in the economic can be absorbed by the City.

Operating expenses were budgeted consistent with prior year.

## **CONTACTING THE CITY'S FINANCIAL MANAGEMENT**

This financial report is designed to provide our citizens, taxpayers, customers and creditors with a general overview of the City's finances and to show the City's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the City Clerk's Office at Watonga City Hall.

**City of Watonga, Oklahoma**  
**Statement of Revenues, Expenditures, and Changes in Fund Balances**  
**Year Ended June 30, 2018**

---

Reconciliation of the change in fund balances - total governmental funds  
to the change in net position of governmental activities:

Net change in fund balances - total governmental funds \$ (1,618,356)

Amounts reported for governmental activities in the Statement of Activities are  
different because:

Governmental funds report capital outlays as expenditures. However, in the  
statement of activities, the cost of those assets is allocated over their estimated  
useful lives and reported as depreciation expense.

Capital asset purchases capitalized	496,768	
Depreciation expense	<u>(897,559)</u>	(400,791)

Government-Wide Statement of Activities report the cost of pension benefits  
earned net of employee contributions is reported as an element of pension. 302,102  
The fund financial statements report pension contributions as expenditures.

The proceeds of debt issuances provide current financial resources to governmental  
funds, but issuing debt increases long-term liabilities in the statement of net position.  
Repayment of debt principal is an expenditure in the governmental funds, but the  
repayment reduces long-term liabilities in the statement of net position.

Debt principal payments		90,000
Premium on bonds		563
Interest on debt- governmental funds		<u>(190)</u>

Change in Net Position of Governmental Activities \$ (1,626,672)

(1) **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The accounting and reporting framework and the more significant accounting principles and practices of the City of Watonga, Oklahoma ("City") are discussed in subsequent section of this note. The remainder of the notes is organized to provide explanations, including required disclosures of the City's financial activities for the fiscal year ended June 30, 2018.

**A. Reporting Entity**

***Fund Types and Major Funds***

**Major Governmental Funds**

General Fund

Reported as the primary fund of the City. This fund is used to account for all financial resources not reported in other funds.

Street and Alley Fund

Accounts for the legally restricted gasoline and commercial vehicle taxes. Funds are used for maintenance and repair of streets and street equipment.

Debt Service Fund

Accounts for the accumulation of financial resources for the payment of principal and interest on the City's general obligation debt.

Hospital Special Revenue Fund

Accounts for the 2% sales tax restricted for the Hospital Authority's capital expenditures and the transfer to the Hospital Authority.

Sales Tax (Capital Improvement) Fund

Accounts for the capital expenditures of the 1% limited purpose sales tax.

General Obligation Bonds

Accounts for the proceeds of the General Obligation Hospital Funding Bonds of 2013 which were issued June 1, 2013 to pay obligations incurred in the operations, equipping and maintenance of the Watonga Municipal Hospital as well as for all legal, financial and other costs relating to the issuance of the bonds.

**Non-Major Governmental Funds**

Grant Fund

Established as a special revenue fund to account for the City's grant programs

Huff Savings Fund

Established as a special revenue fund to account for assigned donations.

Library Fund

Established as a special revenue fund to account for the operations of the municipal library.

**Major Proprietary Funds**

Light and Water Fund

Accounts for the operating activities of the electric, water, sewer, and sanitation utilities of the City.

Public Works Authority

Accounts for the operating activities of the municipal airport.

Watonga Hospital Authority

Accounts for the leasing activities of the municipal hospital to Mercy.

**Fiduciary Component Units (reported in fiduciary financial statements)**

Meter Deposit Fund

Accounts for utility deposits received by customers.

Municipal Court Bond Fund

Accounts for bonds held by the City related to the municipal court operations.

**Related Organizations**

Related organizations are excluded from the financial reporting entity because the City's accountability does not extend beyond making appointments. Audited financial statements are available from the respective organizations.

Watonga Municipal Library

Established to account for the operations of the Library. It is governed by a Board that is appointed by the City Council of the City of Watonga, OK. The annual audited report may be obtained from the Watonga Municipal Library, 301 North Prouty Avenue, Watonga, OK.

**B. Basic Financial Statements**

***Government-wide Financial Statements***

The government-wide financial statements include the statement of net position and statement of activities. These statements report financial information for the City as a whole. The statements distinguish governmental activities, generally supported by taxes and City general revenues, from business-type activities, generally financed in whole or in part with fees charged to external customers. Individual funds are not displayed by the statements.

The statement of activities reports the expenses of a given function offset by program revenues directly connected with the functional program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity. Program revenues include: (1) charges for services with usage fees, fines and forfeitures, and other charges to users of the City's services; (2) operating grants and contributions which finance annual operating activities; and (3) capital grants and contributions which fund the acquisition, construction, or rehabilitation of capital assets. Taxes and other revenues sources not properly included with program revenues are reported as general revenues.

***Fund Financial Statements***

Fund financial statements are provided for governmental, proprietary, and fiduciary funds. Major individual governmental and enterprise funds are reported in separate columns.

***Measurement Focus and Basis of Accounting***

The financial statements of the City are prepared in accordance with accounting principles generally accepted in the United States (U.S. GAAP). The City's reporting entity applies all relevant Governmental Accounting Standards Board (GASB) pronouncements.

The government-wide statements report using the economic resources measurements focus and the accrual basis of accounting. Reimbursements are reported as reductions to expenses. Proprietary financial statements and financial statements of the City's component units also report using the same focus and basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Governmental fund financial statements are reported using current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both measurable and available. Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or soon enough thereafter to pay current liabilities. The City considered revenues to be available if they are collected within 60 days of the end of the fiscal year. Expenses are recorded when the related fund liability is incurred.

Major revenue sources susceptible to accrual include: sales and use taxes and intergovernmental revenues. In general, other revenues are recognized when cash is received.

Operating income reported in the proprietary fund financial statements includes revenues and expenses related to the primary, continuing operations of the fund. Principal operating revenues for proprietary funds are charges to customers for sales or services. Principal operating expenses are the costs of provided goods or services and include administrative expenses and depreciation of capital assets. Other revenues and expenses are classified as non-operating in the financial statements.

**C. Budget Policy and Practice**

***Budget Approval***

The City follows the Estimate of Needs based budgeting. The budget is submitted on the required form no later than August 27. Revenues estimated for the General Fund are limited to 90% of the prior year recurring revenues plus any unreserved fund balance carry-over. The Council approves the budget.

***Compliance***

At June 30, 2018, the City was in material compliance with Oklahoma budgeting regulations.

**D. Policies Related to Assets, Liabilities, and Fund Equity**

***Cash and Investments***

For the purposes of the combined balance sheet and the statement of cash flows, "cash and cash equivalents" includes all demand deposits, savings accounts and certificates of deposits or short-term investments (including restricted assets) with an original maturity of three months or less. Deposits are stated at cost.

Investments are reported at fair value which is determined using market prices. Short-term investments are reported at cost, which approximates fair value.

***Due from other governments***

Significant receivables include sales tax, use tax, gasoline and motor vehicle tax receivables due from the state of Oklahoma and Blaine County. Sales and Use Tax are considered fully collectible.

***Accounts Receivable***

Significant receivables include amount due from customers primarily for utility services. These receivables are due within one year. Certain enterprise funds report accounts receivable net of an allowance for uncollectible accounts. The allowance amount is estimated using accounts receivable past due more than 90 days.

***Restricted Assets***

Restricted assets include assets legally restricted for capital projects at the hospital funded through sales tax directives. Restricted assets are current in nature and are reported with current assets in the financial statements.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as needed.

***Interfund Balances***

Generally, outstanding balances between funds reported as due to/due from other funds include outstanding charges by one fund to another for services for goods or miscellaneous receivables/payables between funds. Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year and are described as due to/due from other funds.

***Capital Assets, Depreciation, and Amortization***

The City's property, plant, equipment, and infrastructure with useful lives of more than one year are stated at historical cost and reported in the government-wide financial statements. Proprietary capital assets are also reported in their respective fund financial statements. Donated assets are stated at fair value on the date donated. The City generally capitalized assets with cost of \$1,000 or more as purchase and construction outlay occur.

The cost of normal maintenance and repairs that do not add to the asset value or materially extend useful lives are not capitalized. Capital assets are depreciated using the straight-line method. When capital assets are disposed, the cost and applicable accumulated depreciation are removed from the respective accounts, and the resulting gain or loss is recorded in operations.

- Buildings 20-50 years
- Other improvements 10 years
- Machinery, furniture & equipment 5-25 years
- Infrastructure 20-40 years

Costs incurred during construction of long-lived assets are recorded as construction in progress and are not depreciated until placed in service.

***Deferred Outflows/Inflows of Resources***

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The government does not have any items that qualify for reporting in this category.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period and so will *not* be recognized as an inflow of resources (revenue) until that time. An example of an item which arises only under a modified accrual basis of accounting that qualifies for reporting in this category would be unavailable revenue from property taxes and special assessments. Accordingly, the item, *unavailable revenue*, is reported only in the governmental funds balance sheet. Those amounts would be deferred and recognized as an inflow of resources in the period that the amounts become available. The City does not currently have any items that qualify as a deferred inflow of resources.

***Compensated Absences***

Full-time employees are granted vacation benefits in varying amounts to specified maximums depending on tenure with the City. Sick leave accrues to full-time employees at 1 day per month with a specified maximum of 65 days. Sick leave is not payable at the termination of employment. Employees are entitled to all accrued vacation leave upon termination. The estimated liabilities include required salary-related payments. Compensated absences are reported as accrued current liabilities in the government-wide and proprietary financial statements. Governmental funds report only matured compensated absences payable to currently terminating employees.

***Long-Term Debt***

In the government-wide, proprietary, and component unit financial statements, outstanding debt is reported as a liability.

***Fund Equity***

**Fund Balance**

The governmental fund financial statements report reserved fund balance for amounts not available for appropriation or legally restricted for specified purposes beyond the restrictions applicable to the fund.

**Net Position**

Both proprietary fund financial statements and government-wide financial statements report net position. Amounts invested in capital assets, net of related debt and legally restricted amounts are separated from unrestricted net position.

**Invested in capital assets, net of related debt**

The amount restricted consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

**Restricted net position**

Amounts reported as restricted consist of net position with constraints placed on their use either by (1) external groups such as creditors, grantors, contributors, or laws and regulations of other governments; or (2) law through constitutional provisions or enabling legislation.

**Governmental Fund Balances**

The Governmental Accounting Standards Board (GASB) has issued Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions* (GASB 54). This Statement defines the different types of fund balances that a governmental entity must use for financial reporting purposes.

GASB 54 requires the fund balance amounts to be properly reported within one of the fund balance categories list below.

**Nonspendable**

Fund balance associated with inventories, prepaids, long-term loans and notes receivable, and property held for resale (unless the proceeds are restricted, committed, or assigned),

**Restricted**

Fund balance category includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation,

**Committed**

Fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the City Commission, the City's highest level of decision-making authority,

**Assigned**

Fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as restricted or committed, and

**Unassigned**

Fund balance is the residual classification for the government's general fund and includes all spendable amounts not contained in the other classifications

***Use of Estimates***

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect certain reporting amounts and disclosures; accordingly, actual results could differ from those estimates.

Certain reclassifications have been made to prior period balances in order to conform to the current period's presentation.

**E. Policies Related to Revenues and Expenses**

***Program Revenues***

**Charges for Services**

Program revenues reported with governmental activities include charges for services like permits and fees, park charges, and fines and forfeitures. Business-type activity charges for services include all operating income of proprietary funds.

**Grants and Contributions**

Governmental grants and contributions primarily consist of grants from Federal and state agencies. The nature of the grant determines if it is reported as operating or capital program revenues.

Business-type activity grants and contributions include donations from others as well as grants from Federal and state agencies.

**General Revenues**

General revenues reported with governmental activities include tax revenues and unrestricted investment income.

Sales Tax

Effective January 2012, the City increased the sales tax levy from 4% to 5% based upon a vote of the citizens. The sales tax is levied on taxable sales within the City and is collected by the Oklahoma Tax Commission. Tax collections is remitted to the City in the month following receipt by the Tax Commission. A portion of the sales tax levied is restricted as to the use.

One percent (1%) is restricted and recorded as sales tax revenue in the Hospital Special Revenue Fund for capital improvements at the Hospital. One half percent (1/2 %) is restricted and recorded in the Sales Tax (Capital Improvement) Fund to development of the Huff-Lorang Park, other park improvements, police and fire department use, and other capital improvements. One percent (1%) is restricted and reported as healthcare transfer to Mercy Hospital in accordance with the lease dated June 22, 2012 (See note (5)C. for further information).

The remaining two percent (2 1/2%) is unrestricted and is recorded as sales tax revenue within the General Fund.

**(2) ASSETS, LIABILITIES, AND NET POSITION OR FUND BALANCE**

**A. Assets**

***Deposits and Investments***

**Deposits**

Custodial credit risk for deposits is the risk that in the event of a bank failure, the City's deposits may not be returned or the City will not be able to recover collateral securities in the possession of an outside party. The City's deposits are secured by collateral values at market or par, whichever is lower, less the amount covered by the Federal Deposit Insurance Corporation (FDIC). Deposited funds may be invested in certificates of deposit in institutions with an established record of fiscal health and service.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Investments held for longer periods are subject to increased risk of adverse interest rate changes.

**Investments**

The City invests primarily in certificates of deposit. Investment securities are exposed to various risks such as interest rate risk and credit risk.

<u>Types of Investments</u>	<u>Primary Government</u>			
	<u>Fair Value/ Carrying Amount</u>	<u>Cost</u>	<u>Average Credit Quality/ Ratings (1)</u>	<u>Weighted Average Days to Maturity (2)</u>

**(4) PENSION AND POST-EMPLOYMENT PLANS**

The City participates in three employee pension systems as follows:

<u>Name of Plan</u>	<u>Type of Plan</u>
Oklahoma Municipal Retirement Fund	Agent Multiple Employer – Defined Benefit Plan
Oklahoma Police Pension and Retirement Fund	Cost Sharing Multiple Employer – Defined Benefit Plan
Oklahoma Firefighter Pension and Retirement Fund	Cost Sharing Multiple Employer – Defined Benefit Plan

**A. Oklahoma Municipal Retirement Fund- Defined Benefit Plan**

Plan Description

Substantially all of the City's full-time employees, except police and firefighters, participate in a defined benefit pension plan adopted by the City and administered by the Oklahoma Municipal Retirement System (OMRF), which was established to administer pension plans for municipal employees. OMRF issues a publically available financial report that can be obtained at [www.okmrf.org](http://www.okmrf.org).

Benefits Provided

OMRF provides retirement, disability, and death benefits. Retirement benefits are determined as 3 percent of the employee's final average compensation multiplied by the employee's years of service; final average compensation is the average of the 5 highest consecutive years of salaries out of the last 10 years of service. Vesting requires 7 years of service. Members are eligible for normal retirement at age 65 with 7 years of vested service. The benefit is payable immediately. Early retirement is available after age 55 with 7 years of vested service. Early retirement benefits are paid at the normal retirement age, or reduced 5% per year for commencement prior to the normal retirement age.

Disability retirement is provided for member's total and permanent disability after 7 or more years of service. The accrued benefit is payable upon disablement without reduction for early payment.

In-service death benefits are payable after vesting at 50% of the accrued benefit until the death of the spouse or remarriage. If the member was not vested at the time of in-service death, member contributions are returned, if any, with interest.

Contributions

Required contribution rates are actuarially measured each year and authorized through City Ordinance. Employees are required to contribute 4.0% of paid salary. For the year ended June 30, 2018, the City's contribution was 17.36%. Contributions to the pension plan from the City were \$258,694 for the year ended June 30, 2018.

Membership

Membership in the plan is as follows:

	<u>As of July 1, 2018</u>
Inactive employees & beneficiaries receiving benefits	24
Inactive employees entitled to but not yet receiving benefits	2
Active participants	37
<b>Total</b>	<b>63</b>

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources related to OPPRS

At June 30, 2018, the City reported a liability of \$1,056,476 for its proportionate share of the net pension liability. The net pension liability was measured as of July 1, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportion of the net pension liability was based on a projection of the City's long-term share of contributions to the pension plan relative to the projected contributions of all participating municipalities, actuarially determined.

Changes to the actuarial valuation between the measurement date of the net pension liability and the City's reporting dates are not expected to have a significant effect on the net pension liability.

For the year ended June 30, 2018, the City recognized pension expense of \$180,803. At June 30, 2018, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

**CITY OF WATONGA, OKLAHOMA**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2018**

	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Difference between expected and actual experience	\$ 71,472	\$ 89,251
Changes of assumptions	84,234	-
Net difference between projected and actual earnings on pension plan investments	208,476	198,772
Changes in proportion and differences between City contributions and proportionate share of contributions	-	-
City contributions subsequent to the measurement date	258,694	-
<b>Total</b>	<b>\$ 622,876</b>	<b>\$ 288,023</b>

Other amounts reported deferred inflows of resources related to pensions will be recognized in pension expense as follows:

**Year ended June 30:**

2019	\$		(4,354)
2020			73,075
2021			39,696
2022			(32,258)
2023			-
Thereafter			-
			<u>\$ 76,159</u>

*Actuarial assumptions:* The total pension liability in the June 30, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation		2.75 percent
Salary increases		5.07 percent, average
Investment rate of return		7.25 percent, net of pension plan investment expense and inflation

Mortality rates were based on the UP 1994 with projected mortality improvement. Valuation rates are projected for mortality improvement by the Society of Actuaries' table AA based upon the employee's year of birth.

The actuarial assumptions used in the July 1, 2018 valuation were based on the results of an actuarial experience study for the period ended July 1, 2007 through June 30, 2011.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation (3.0%). Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of July 1, 2017 are summarized in the following table:

	<b>Target Allocation</b>	<b>Real Return</b>	<b>Weighted Return</b>
Large cap stocks - S&P 500	25%	5.80%	1.45%
Small/mid cap stocks - Russell 2500	10%	6.40%	64.00%
Long/short equity - MSCI ACWI	10%	5.00%	50.00%
International stocks - MSCI EAFE	20%	6.20%	1.24%
Fixed income bonds - Barclay's Capital Aggregate	30%	2.30%	69.00%
Real estate - NCREIF	5%	4.60%	23.00%
Cash equivalents - 3 month Treasury	0%	0.00%	0.00%
	100%		
		Average Real Return	4.75%
		Inflation	2.75%
		Long term expected return	7.50%

*Discount rate:* The discount rate used to measure the total pension liability was 7.50 percent, as the plan's net fiduciary position is projected to be sufficient to make projected benefit payments. The City has adopted a funding method that is designed to fund all benefits payable to participants over the course of the member's working career. Any differences between actual and expected experience are funded over a fixed period to ensure all funds necessary to pay benefits have

**CITY OF WATONGA, OKLAHOMA**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2018**

been contributed to the trust before those benefits are payable. Therefore, no separate cash flow projection is required to determine the sufficiency of the plan assets. The 20 year tax free bond yield of 3.29% was used in the analysis.

Changes in the Net Pension Liability

	Increase (Decrease)		
	Total Pension Liability	Plan Fiduciary Net Position	Net Pension Liability
	(a)	(b)	(a) - (b)
<b>Balances at June 30, 2016</b>	4,918,289	3,675,205	1,243,084

*Sensitivity of the City's proportionate share of the net pension liability to changes in the discount rate:* The following presents the City's proportionate share of the net pension liability calculated using the discount rate of 7.75 percent, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75 percent) or 1-percentage-point higher (8.75 percent) than the current rate:

	1% Decrease (6.5%)	Current Discount Rate (7.5%)	1% Increase (8.5%)
City's proportionate share of the net pension liability/(asset)	1,581,830	1,056,476	608,064

*Pension plan fiduciary net position:* Detailed information about the pension plan's fiduciary net position is available in the separately issued OMRF financial report.

**B. Defined Benefit Cost-Sharing, Multiple Employer Pension Plans**

Plan Description

The City of Watonga, as the employer, participates in two statewide, cost-sharing, multiple-employer defined benefit plans on behalf of police officers and firefighters.

Under Title 36-312.1 of the State of Oklahoma Statutes, 14% and 34% of taxes collected for insurance premium taxes is allocated and distributed to the Oklahoma Police Pension and Retirement System and the Oklahoma Firefighters Pension Retirement System, respectively. This provides ear-marked state taxes to help with the financing burden for the police and fire plans. The expected employer contributions expected to be funded by the State are not considered in the calculations of the net pension asset/liability and related deferred inflows, deferred outflows and pension expense.

Reporting

The required supplementary information schedules of funding progress immediately following the notes to the financial statements presents certain ten-year trend information for as many years for which information measured in conformity with the requirements of GASB 68 is available. Detailed information about the Oklahoma Police and Firefighter Plans' fiduciary net position is available in the separately issued Oklahoma Police Pension report and the Oklahoma Firefighters Pension report. Copies of these reports may be obtained from the respective state retirement systems: Oklahoma Police Pension and Retirement System, 1001 NW 63<sup>rd</sup> Street, Suite 305, Oklahoma City OK 73116-7335 (or [www.ok.gov/OPPRS](http://www.ok.gov/OPPRS)), and the Oklahoma Firefighters Pension and Retirement System at 4545 N Lincoln Blvd., Suite 265, Oklahoma City, OK 73105 (or [www.ok.gov/fprs](http://www.ok.gov/fprs)).

**Funding Policies, Contribution Methods, & Benefit Provisions**

	<b>Police Pension</b>	<b>Firefighters Pension</b>
Eligibility to participate	All full-time officers employed by a participating municipality, not less than 21 years of age or more than 45 years of age when hired	All full-time or voluntary firefighters of a participating municipality hired before age 45
Authority establishing contribution obligations & benefit provisions	State Statute	State Statute
Plan members' contribution rate	8% of covered payroll	9% of covered payroll
City's contribution rate	13% of covered payroll	14% of covered payroll
Period required to vest	10 years	10 years
Benefits and eligibility for distribution (full-time)	20 years credited service, 2 ½% of final average salary multiplied by the years of credited service with a maximum of 30 years considered, if vested, at or after age 50, or after 10 but before 20 years of credited service, with reduced benefits	20 years credited service, 2 ½% final average salary multiplied by the years of credited service with a maximum of 30 years considered; if vested, at or after age 50, or after 10 but before 20 years of credited service, with reduced benefits
Benefits and eligibility for distribution (volunteer)	N/A	20 years credited service equal to \$7.53 per month per year of service, with a maximum of 30 years considered
Deferred retirement option	Yes, 20 years credited service with additional option to participate in deferred option plan for a maximum of 5 years	Yes, 20 years credited service with additional option to participate in deferred option plan for a maximum of 5 years

These two plans are administered by agencies of the State of Oklahoma and funded by contributions from participants, employers, insurance premium taxes, and state appropriations, as necessary.

**Actuarial Assumptions**

	<b>Police Pension</b>	<b>Firefighters Pension</b>
Valuation date	7/1/17	7/1/17
Provisions for:		
Disability benefits	Yes	Yes
Death benefits	Yes	Yes
Actuarial cost method	Entry age	Entry age
Amortization method	Level dollar, closed	Level dollar, closed
Amortization period	5 years	30 years
Actuarial asset valuation method	5-year smoothed	An expected actuarial value is determined equal to the prior year's actuarial value of assets plus cash flow (excluding realized and unrealized gains losses) for the year ended on the valuation date and assuming a 7.5% interest return. 20% of any (gain) loss is amortized over 5 years. The result is constrained to a value of 80% to 120% of the fair value at the valuation
Investment rate of return	7.5%	7.5%
Projected salary increases	4.5% to 17% average, including inflation	3.5% to 9.0%
Cost of living increases (maximum)	Up to ½ of the increase of any adjustment to the base salary of a regular police officer, based on an increase in base salary	Half of the dollar amount of a 3% assumed increase in base pay for firefighters with 20 years of service as of May 26, 1983. No COLA is assumed for members not eligible for this increase
Inflation	2.75%	3%
Source of mortality assumptions	RP-2000 Blue Collar Healthy Combined table with fully generational improvement using scale AA	RP-2000 Blue Collar Healthy Combined table with fully generational improvement using scale AA

Net Pension Asset (Liability)

*Proportionate Share*

**Police Pension**

The Police Pension's net pension liability was allocated proportionately to the City of Watonga based on the ratio of the City's actual contributions to the Police pension, relative to the total contributions of the Police pension for the fiscal year ended June 30, 2017. The City's portion for 2017 was 0.0697% compared to .0694% for 2016.

**Firefighters Pension**

The Firefighters Pension's net pension liability was allocated proportionately to the City of Watonga based on the ratio of the City's actual contributions, relative to the total contributions for the fiscal year ended June 30, 2016. The City's portion for 2017 was 0.047966% compared to 0.044925% for 2016.

Rate of Return and Discount Rate

*Rate of Return*

Police Pension

The annual money-weighted rate of return on pension plan investments, net of pension plan investment expense was 3.36%. The money-weighted rate of return expresses the investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Firefighters Pension

The annual money-weighted rate of return on pension plan investments, net of pension plan investment expense was 14.36%. The money-weighted rate of return expresses the investment performance, net of investment expense, adjusted for the changing amounts actually invested.

*Long-term Expected Rate of Return and Target Allocations*

Police Pension

The long-term expected rate of return on pension plan investments was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation.

Firefighters Pension

The long-term expected rate of return on pension plan investments was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation.

Int'l Developed Mkts Equity	10.00%		
Loew Volatility Strategies	10.00%		
Global Fixed Income	15.00%		
Real Assets	15.00%		

*Discount Rate*

Police Pension

The discount rate used to measure the total pension liability was 7.5%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at contractually required rates, determined by State statutes. Projected cash flows also assume the State of Oklahoma will continue contributing 14% of the insurance premium, as established by statute. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Firefighters Pension

The discount rate used to measure the total pension liability was 7.5%. The projection of cash flows used to determine the discount rate assumed that the Fund's contributions will continue to follow the current funding policy. Total covered employee payroll is assumed to grow at 4% per year. The total statewide insurance premium tax is assumed to grow at 3% per year. In addition, the allocation of the tax to the System is assumed to be 36% for the entire projection period. The Normal Cost Rate for future members is assumed to be 21.52% for all years. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current

plan members for all future years and hence, the blended GASB discount rate is equal to the long-term rate of return. Therefore, the long-term expected rate of return on pension plan investments of 7.5% was applied to all periods of projected benefit payments to determine the total pension liability. The long-term expected rate of return remained at 7.5% to reflect the expected asset allocation.

*Sensitivity of Net Pension Liability to Changes in the Discount Rate*

The following table presents the City's proportionate allocation of the total pension liability of the Police Pension and Firefighters Pension would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate and the resulting net pension asset (liability):

	<u>Rate</u>	Police Pension Net Pension <u>Asset(Liability)</u>	<u>Rate</u>	Firefighters Pension Net Pension <u>Asset(Liability)</u>
1% decrease	6.5%	(181,198)	6.5%	(791,415)
Current single discount rate	7.5%	(5,363)	7.5%	(603,276)
1% increase	8.5%	143,160	8.5%	(443,840)

**Other Post-Employment Benefits**

For the year ended June 30, 2018, the City provided no post-employment benefits (other than pension) to terminated employees.

**(5) COMMITMENTS AND CONTINGENCIES**

**A. Litigation**

The City is a party to various legal proceedings which normally occur in the course of governmental operations. The financial statements do not include accrual or provisions for loss contingencies that may result from these proceedings. While the outcome of the above noted proceedings cannot be predicted, due to the insurance coverage maintained by the City and the State statute relating to judgments, the City feels that any settlement or judgment not covered by insurance would not have a material adverse effect on the financial condition of the City.

**B. Grant Program Involvement**

In the normal course of operations, the City participates in various federal or state grant/loan programs from year to year. The grant/loan programs are often subject to additional audits by agents of the granting or loaning agency, the purpose of which is to ensure compliance with the specific conditions of the grant or loan. Any liability for reimbursement, which may arise as a result of these audits, cannot be reasonably determined at this time, although it is believed the amount, if any, would not be material.

**C. Mercy Hospital Watonga Inc. Lease**

On June 22, 2012 the Watonga Municipal Hospital Authority entered into an agreement to sublease the hospital for a seven year period commencing July 1, 2012 (initial term). The lease will be extended for thirteen additional one year terms unless the lessee gives written notice to the Authority at least 180 days prior to the end of the initial term or any renewal term of its desire to terminate the lease. The consideration for the lease is \$1 per year (for leasing the premises).

The Authority transferred cash and equivalents, patient accounts receivable and supplies inventory, all equipment used in the operation of the hospital. No consideration was provided. The lessee (Mercy) also assumed the Authority's accruals for salary expense, accrued employee benefits, and accrued compensated absences. The building and improvements remain property of the Authority and is leased by Mercy Hospital Watonga Inc. as noted above.

The lessee is permitted to terminate the lease, either during the initial term or any renewal term, at any time upon 120 days written notice to the Authority. Upon this sublease being terminated, the Authority will be obligated to purchase all of the lessee's property and equipment, inventory and supplies, and any other leased property on the date of termination.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the City Council  
City of Watonga, Oklahoma

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Watonga, Oklahoma, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the City of Watonga, Oklahoma's basic financial statements, and have issued our report thereon dated February 19, 2019.

**Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the City of Watonga, Oklahoma's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Watonga, Oklahoma's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Watonga, Oklahoma's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City of Watonga, Oklahoma's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
