INDEPENDENT AUDITOR'S REPORT

The Honorable Mayor and Members of the City Council of the
City of Altus, Oklahoma

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Altus, Oklahoma (the "City"), as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Altus, Oklahoma, as of June 30, 2013, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As discussed in Note 2 to the financial statements, in fiscal year 2013 the City adopted new accounting guidance, Governmental Accounting Standards Board (“GASB”) Statement No. 61, *The Financial Reporting Entity: Omnibus – an Amendment of GASB Statements No. 14 and No. 34*, GASB Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*, GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*, and GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*. Our opinion is not modified with respect to these matters.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management’s discussion and analysis, other post-employment benefits funding schedule, and budgetary comparison information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City’s basic financial statements. The other supplementary information is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The other supplementary information, as listed in the table of contents, is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated March 20, 2014, on our consideration of the City’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City’s internal control over financial reporting and compliance.

March 20, 2014

**CITY OF ALTUS, OKLAHOMA
MANAGEMENT'S DISCUSSION AND ANALYSIS
As of and for the Year Ended June 30, 2013**

MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of the City of Altus' (the City) financial performance provides an overview of the City's financial activities for the fiscal year ended June 30, 2013. Please read it in conjunction with the City's financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

- The assets of the City exceeded its liabilities at the close of the most recent fiscal year by \$34,453,193 (net position). Of this amount, \$12,916,628 (unrestricted net position) may be used to meet the government's ongoing obligations to citizens and creditors.
- During the year, the City's total net position increased by \$2,931,650. This is attributed to electric department net operating revenue.
- As of the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$8,879,151, an increase of \$3,528,930 in comparison with the prior year. Approximately \$2,316,948 is available for spending at the government's discretion (unassigned fund balance).
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$2,809,098, or 23% of total general fund expenditures.
- For budgetary reporting purposes, the General Fund reported the actual revenues under the final estimates of \$554,452 or 4%, while expenditures were under final appropriations by \$1,588,889 or 11%.

OVERVIEW OF THE FINANCIAL STATEMENTS

The financial statements presented herein include all of the activities of the City of Altus (the "City") and its component units using the integrated approach as prescribed by GASB Statements No. 14, 34, and 39. This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements – The government-wide financial statements are designed to provide readers with a broad view of the City's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the City's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in the future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City of Altus include general government, public safety, public works, culture and recreation and community and economic development. The business-type activities of the City of Altus include the City's electric, water, wastewater, landfill, and sanitation utility operations, as the Altus Municipal Authority.

The government-wide financial statements include not only the City of Altus itself (known as the primary government), but also two legally separate entities for which the City of Altus is financially accountable. Financial information for these component units is reported separately from the financial information presented for the primary government itself. The Altus Municipal Authority, although also legally separate, functions for all practical purposes as a department of the City of Altus, and therefore has been included as an integral part of the primary government.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Altus, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City of Altus can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds - Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains fourteen individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, which is considered to be a major fund. Data from the other thirteen governmental funds are combined into a single, aggregated presentation.

The City adopts an annual appropriated budget for all of its funds. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

Proprietary funds - The City maintains two types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses an enterprise fund to account for its Municipal Authority operation. Internal service funds are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City uses internal service funds to account for its workers' compensation, and to pay for the City's group health and life insurance activities. Because this service predominantly benefits governmental rather than business-type functions, its operations have been included within governmental activities in the government-wide financial statements.

**CITY OF ALTUS, OKLAHOMA
MANAGEMENT'S DISCUSSION AND ANALYSIS
As of and for the Year Ended June 30, 2013**

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide information for the Altus Municipal Authority, which is considered to be a major fund of the City. Both internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of combining statements elsewhere in this report.

Fiduciary funds – Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The City has one fiduciary fund, the Flex Benefit Plan Fund, which is an agency fund.

Notes to the financial statements – The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information – In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City's actual revenues and expenditures on a budgetary basis compared with the original and final budgets for the general fund. Employee retirement funding data is also included.

The non-major governmental funds referred to earlier are presented immediately following the required supplementary. Debt service coverage information follows that report.

About the City

The City of Altus, Oklahoma operates under a Council-Aldermanic form of government under Title 11 of the *Oklahoma Statutes*. The City provides the following services to its citizens: public safety (police and fire), streets and highways, sanitation and solid waste services, social services, culture and recreation, public improvements, electric and water utilities, planning and zoning, and general administrative services.

The City's Financial Reporting Entity

This annual report includes all activities for which the City Council of the City of Altus is fiscally responsible. These activities are operated within separate legal entities that are reported together to make up the City's financial reporting entity.

The City's financial reporting entity includes the City of Altus and one active blended component unit. The activities of the previously reported discretely presented component unit, Altus Great Plains Recreation, Inc. were transferred to the City in fiscal 2012 and are now reported within the general fund.

Primary Government:

- **The City of Altus** – governmental activities of the City include general government, public safety, public works, culture and recreation and community and economic development. The business-type activities of the City include the City's electric, water, wastewater, landfill, and sanitation utility operations, as the Altus Municipal Authority.

Blended Component Units:

- **Altus Municipal Authority** – serves all the citizens of the City and is governed by a board comprised of the City's elected commissioners. The Altus Municipal Authority is a public trust created January 10, 1966 and amended July 18, 1989, to finance, develop, and operate any and all public works projects of any type or description including, but not limited to, those of water, sewer, electric, and solid waste facilities. The rates for user charges and bond issuance authorizations require a two-thirds approval of the City Commission and the AMA trustees. The legal liability for the general obligation portion of AMA's debt remains with the City. AMA is reported as an enterprise fund type. Separate financial statements have not been prepared for the Altus Municipal Authority.

Using This Annual Report

This annual report is presented in a format that substantially meets the presentation requirements of the Governmental Accounting Standards Board (GASB) in accordance with generally accepted accounting principles. The presentation includes financial statements that communicate the City's financial condition and changes therein at two distinct levels:

- **The City as a Whole** (a government-wide presentation)
- **The City's Funds** (a presentation of the City's major and aggregate non-major funds)

The City's various government-wide and fund financial statements are presented throughout this annual report and are accompanied by:

- **Management's Discussion and Analysis** – provides useful analysis that facilitates a better understanding of the City's financial condition and changes therein.
- **Footnotes** – elaborates on the City's accounting principles used in the preparation of the financial statements and further explain financial statement elements.
- **Supplemental Schedules** – provides additional information about specified elements of the financial statements, such as budgetary comparison information, and long-term debt service coverage.

Reporting the City as a Whole

The Statement of Net Position and the Statement of Activities

One of the most frequently asked questions about the City's finances is, "Has the City's overall financial condition improved, declined or remained steady over the past year?" The Statement of Net Position and the Statement of Activities report information about the City as a whole and about its activities in a way that helps answer this question. These statements include all assets and liabilities using the accrual basis of accounting. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two government-wide statements report the City's net position and changes in them from the prior year. You can think of the City's net position – the difference between assets and liabilities – as one way to measure the City's financial condition, or position. Over time, increases or decreases in the City's net position are one indicator of whether its financial health is improving, deteriorating, or remaining steady. However, you must consider other nonfinancial factors, such as changes in the City's tax base, the condition of the City's roads, and the quality of services to assess the overall health and performance of the City.

As mentioned above, in the Statement of Net Position and the Statement of Activities, we divide the City into three kinds of activities:

- Governmental activities – Most of the City's basic services are reported here, including the police, fire, general administration, streets, and culture. Sales taxes, franchise fees, fines, and state and federal grants finance most of these activities.
- Business-type activities – The City charges a fee to customers to help cover all or most of the cost of certain services it provides. The City's electric, water, wastewater, and sanitation activities are reported here.
- Discretely-presented component units – These account for activities of the City's reporting entity that do not meet the criteria for blending, specifically the Altus Great Plains Recreation, Inc. was previously included as a discretely-presented component unit. However, the City no longer has any entities in this category.

Reporting the City's Most Significant Funds

Fund Financial Statements

The fund financial statements provide detailed information about the most significant funds – not the City as a whole. Some funds are required to be established by State law and by bond covenants. However, the City Council establishes many other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes, grants and other money.

Governmental funds -- Most of the City's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic service it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. The differences of results in the Governmental Fund financial statements to those in the Government-Wide financial statements are explained in a reconciliation following each Governmental Fund financial statement.

Proprietary funds - When the City charges customers for the services it provides – whether to outside customers or to other units of the City – these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Position, the Statement of Revenues, Expenses and Changes in Fund Net Position and Statement of Cash Flows. In fact, the City's enterprise funds are essentially the same as the business-type activities reported in the government-wide statements but provide more detail and additional information, such as cash flows.

Fiduciary funds - When the City is responsible for assets that – because of a trust arrangement or other fiduciary requirement – can be used only for trust beneficiaries or others parties, these activities are reported as fiduciary funds, such as the Flex Benefit Plan Fund. The City is responsible for ensuring that the assets reported in these funds are used for their intended purpose. All of the City's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. We exclude these activities from the City's government-wide financial statements because the City cannot use these assets to finance operations.

A FINANCIAL ANALYSIS OF THE CITY AS A WHOLE

Net Position

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City, assets exceeded liabilities by \$34,453,193 at the close of the most recent fiscal year.

Deferred inflows of resources:	-	-	0%	4,547,668	4,929,354	-8%	4,547,668	4,929,354	-8%
Net assets:									
Invested in capital assets,									
net of debt	8,347,013	8,568,891	-3%	7,625,869	6,052,700	26%	15,972,882	14,621,591	9%
Restricted	4,097,214	2,726,397	50%	1,466,469	1,700,247	-14%	5,563,683	4,426,644	26%
Unrestricted	4,781,463	1,310,453	-265%	8,135,165	11,162,855	-27%	12,916,628	12,473,308	4%
Total net position	\$ 17,225,690	\$ 12,605,741	37%	\$ 17,227,503	\$ 18,915,802	-9%	\$ 34,453,193	\$ 31,521,543	9%

The largest portion of the City's net position reflects its investment in capital assets (e.g., land, buildings, improvements, vehicles, and equipment), less any related debt used to acquire those assets that are still outstanding. For 2013, this investment in capital assets, net of related debt amounted to \$15,972,882. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

A major portion of the City's net position, \$5,563,683, also represents resources that are subject to external restrictions on how they may be used, for example, capital improvements and debt service. The remaining balance of unrestricted net position, \$12,916,628, may be used to meet the government's ongoing obligations to citizens and creditors.

Explanations of significant changes displayed in Table 2 are as follows:

For fiscal 2013, the internal service fund is reported in governmental activities. This accounts for the significant increase in charges for services. In addition, the emergency fund is included as an account of the general fund and, therefore, included in governmental activities. The reclassification of the emergency fund resulted in restatement of beginning fund balances for both the governmental and business-type activities.

**CITY OF ALTUS, OKLAHOMA
MANAGEMENT'S DISCUSSION AND ANALYSIS
As of and for the Year Ended June 30, 2013**

A significant decrease in expenditures in the electric department and other business-type expenses accounts for the significant improvement in the Excess (deficiency) before transfers for business-type activities.

Governmental Activities

To aid in the understanding of the Statement of Activities some additional explanation is given. Of particular interest is the format that is significantly different than a typical Statement of Revenues, Expenses, and Changes in Fund Balance. You will notice that expenses are listed in the first column with revenues from that particular program reported to the right. The result is a Net (Expense)/Revenue. The reason for this kind of format is to highlight the relative financial burden of each of the functions on the City's taxpayers. It also identifies how much each function draws from the general revenues or if it is self-financing through fees and grants or contributions. All other governmental revenues are reported as general. It is important to note all taxes are classified as general revenue even if restricted for a specific purpose.

**Table 3
Net Revenue (Expense) of Governmental Activities**

Total	\$ 29,932,065	\$ 26,785,003	12%	\$ 1,583,747	\$ 2,215,145	-29%

The City's business-type activities include utility services for water, wastewater, and sanitation.

In reviewing the business-type activities net (expense)/revenue, the following highlights should be noted.

- Internal service funds were reclassified to governmental fund types for fiscal 2012.

A FINANCIAL ANALYSIS OF THE CITY'S FUNDS

As the City completed its 2013 fiscal year, the governmental funds reported a combined fund balance of \$8,879,151 or a 66% increase from 2012. The enterprise fund reported net position of \$17,227,503 or a 9% decrease from 2012.

Other fund highlights include:

- For the year ended June 30, 2013, the General Fund's total fund balance increased by \$2,711,937 or 103%.

General Fund Budgetary Highlights

- For budgetary reporting purposes, the General Fund reported the actual revenues under the final estimates of \$554,452 or 4%, while expenditures were under final appropriations by \$1,588,889 or 11%.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At the end of June 30, 2013, the City had \$51,552,304 million invested in capital assets, net of depreciation, including police and fire equipment, buildings, park facilities, water lines and sewer lines. This represents a net decrease of \$2 million or 3.8% from last year.

See Note 5 to the financial statements for more detail information on the City's capital assets and changes therein.

Long- Term Debt

At year-end, the City had \$34.7 million in long-term debt outstanding which represents a \$3.2 million or 8.4% decrease from the prior year. The decrease is due to the payments of outstanding debts.

See Note 7 to the financial statements for more detail information on the City's long-term debt and changes therein.

Economic Factors and Next Year's Budgets and Rates

The City's elected and appointed officials considered many factors when setting the fiscal year 2014 revenue and expense budgets. The local economy was expected to stay relatively flat with little increase to sales tax. Revenues are expected to increase due to the City increasing utility rates for general operating cost increases and capital. A hiring freeze on many vacant positions will remain in effect creating lapse savings in salary and benefits. Funds continue to be budgeted for continuing to increase reserve funds for another \$1.3 million dollars. The budget includes expenses for continued repairs at the water treatment plant, upgrade to water distribution lines and repair of the equipment at the waste water treatment facilities.

Requests for Information

This report is designed to provide our citizens, taxpayers, customers and creditors with an understanding of the City's finances and to demonstrate the City's accountability for the resources it receives. If you have questions about this report or need additional financial information, contact:

Ms. Amy Lucas, Finance Manager
City of Altus
509 S Main

CITY OF ALTUS, OKLAHOMA
STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES
GOVERNMENTAL FUNDS
For fiscal year ended June 30, 2013
(Continued)

Net change in fund balances - total governmental funds \$ 3,528,930

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures while governmental activities report depreciation expense to allocate those expenditures over the life of the assets:	
Capital asset purchases capitalized	301,308
Depreciation expense	(523,186)
	(221,878)

Governmental funds do not present revenues that are not available to pay current obligations. In contrast, such revenues are reported in the Statement of Activities when earned.	67,906
---	--------

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds:	
Accrued compensated absences, net change	206,885

Internal service fund activity is reported as a proprietary fund in the fund financial statements, but certain net revenues are reported in governmental activities on the Statement of Activities	
Total change in net assets for internal service funds	1,038,106

Change in net position of governmental activities	\$ 4,619,949
--	--------------

See accompanying notes to the basic financial statements.

**CITY OF ALTUS, OKLAHOMA
ANNUAL FINANCIAL REPORT
As of and for the Year Ended June 30, 2013**

FOOTNOTES TO BASIC FINANCIAL STATEMENTS

Footnotes to the Basic Financial Statements:

1. Financial Reporting Entity

The City of Altus, Oklahoma (“the City”) operates under a Council-Aldermanic form of government under Title 11 of the *Oklahoma Statutes*. The City provides the following services to its citizens: public safety (police and fire), streets and highways, sanitation and solid waste services, social services, culture and recreation, public improvements, electric and water utilities, planning and zoning, and general administrative services.

In determining the financial reporting entity, the City complies with the provisions of Governmental Accounting Standards Board Statements No. 14, 34, and 39 and includes all component units for which the City is financially accountable/fiscally responsible. The City’s financial reporting entity’s primary government presentation includes the City of Altus and the certain component units as follows:

The City of Altus – governmental activities of the City include general government, public safety, public works, culture and recreation, community, and economic development. The business-type activities of the City include the City’s electric, water, wastewater, landfill, and sanitation utility operations, as the Altus Municipal Authority.

Blended Component Unit (separate legal entity for which the City Council is fiscally responsible, and for which the City Council members serve as the trustees/governing body of the entity):

Altus Municipal Authority – is governed by a board comprised of the City’s elected commissioners. The Altus Municipal Authority is a public trust created January 10, 1966 and amended July 18, 1989, to finance, develop, and operate any and all public works projects of any type or description including, but not limited to, those of water, sewer, electric, and solid waste facilities. The rates for user charges and bond issuance authorizations require a two-thirds approval of the City Commission and the AMA trustees. The legal liability for the general obligation portion of AMA’s debt remains with the City. AMA is reported as an enterprise fund type. Separate financial statements have not been prepared for the Altus Municipal Authority.

The component unit listed above is a Public Trust established pursuant to Title 60 of Oklahoma State law. Public Trusts (Authorities) have no taxing power. Authorities are generally created to finance City services through issuance of revenue bonds or other non-general obligation debt and to enable the City Council to delegate certain functions to the governing body (Trustees) of the Authority. In accordance with state law, the City Council must approve, by two-thirds vote, all debt obligations of these public trusts prior to incurring the obligation. The Authority generally retains title to assets which are acquired or constructed with Authority debt or other Authority generated resources. In addition, the City has leased certain existing assets at the creation of the Authority to the Trustees on a long-term basis. The City, as beneficiary of the Public Trust, receives title to any residual assets when a Public Trust is dissolved.

Related Organizations:

A related organization is one for which the City is not financially accountable. Such organizations include:

- **Altus/Southwest Area Economic Development Corporation**
- **Downtown Altus Redevelopment Trust Authority**
- **Mountain Park Master Conservancy District (the District)**

Related organizations are not included within the City's reporting entity financial statements.

2. Basis of Presentation and Accounting

This annual report is presented in a format that substantially meets the presentation requirements of the Governmental Accounting Standards Board (GASB) in accordance with generally accepted accounting principles (GAAP). GAAP includes all relevant Governmental Accounting Standards Board (GASB) pronouncements. The accounting and reporting framework and the more significant accounting policies are discussed in subsequent subsections of this note.

During the fiscal year, the City implemented the following GASB Pronouncements:

Statement No. 61, *The Financial Reporting Entity: Omnibus – An Amendment of GASB Statements No. 14 and No 34*. GASB No. 61 modifies certain requirements for inclusion of component units in the financial reporting entity and also amends the criteria for reporting component units as if they were part of the primary government (that is, blending) in certain circumstances.

Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*. GASB No. 62 is intended to enhance the usefulness of its Codification by incorporating guidance that previously could only be found in certain FASB and AICPA pronouncements.

Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*. GASB No. 63 provides financial reporting guidance for deferred outflows of resources and deferred inflows of resources. Previous financial reporting standards do not include guidance for reporting those financial statement elements, which are distinct from assets and liabilities. Adoption of this statement required the City to make changes in its financial statement presentation.

In addition, the City early implemented:

Statement No. 65, *Items Previously Reported as Assets and Liabilities*. GASB No. 65 establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resource (expenses) or inflows of resources (revenues), certain items that were previously recognized as assets and liabilities. This implementation resulted in a prior period restatement.

The presentation includes financial statements that communicate the City's financial condition and changes therein at two distinct levels:

- **The City as a Whole** (a government-wide presentation)
- **The City's Funds** (a presentation of the City's major and aggregate non-major funds)

Government-Wide Financial Statements:

In the Statement of Net Position and the Statement of Activities, we divide the City into two kinds of activities:

Governmental activities - Most of the City's basic services are reported here, including the police, fire, general administration, streets, culture and recreation. Sales taxes, franchise fees, fines, and state and federal grants finance most of these activities; and

Business-type activities – Services where the City charges a fee to customers to help it cover all or most of the cost of these services. The City's electric, water, sewer, and sanitation systems activities are reported here.

The statements of net position and activities are reported on the accrual basis of accounting and economic resources measurement focus. Under the accrual basis of accounting, revenues are recognized when earned and expenses (including depreciation and amortization) are recorded when the liability is incurred or economic asset used.

Fund Financial Statements:

Governmental Funds:

Most of the City's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. Governmental funds report their activities on the modified accrual basis of accounting and current financial resources measurement focus that is different from other funds. For example, these funds report the acquisition of capital assets and payments for debt principal as expenditures and not as changes to asset and debt balances. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps you determine (through a review of changes to fund balance) whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. The City's governmental funds include:

Major Funds:

- **General Fund** – accounts for all activities not accounted for in other special-purpose funds. The major funding source is sales tax. It is the primary operating fund of the City. It is used to account for all activities except those legally or administratively required to be accounted for in other funds.
- **Special Revenue Funds** – are used to account for the proceeds of specific revenue sources that are legally or administratively restricted to expenditures for certain purposes. The reporting entity includes the following special revenue funds:

**CITY OF ALTUS, OKLAHOMA
ANNUAL FINANCIAL REPORT
As of and for the Year Ended June 30, 2013**

<u>Nonmajor Fund</u>	<u>Brief Description</u>
Park Development Fund	Accounts for monies received from subdivision developers to be used for park development.
Street and Alley Fund	Accounts for commercial vehicle tax and gasoline excise tax legally restricted for street and alley repairs and maintenance.
Donation Fund	Accounts for donations received to be used for specific projects.
Airport Fund	Accounts for the operating revenues and expenditures of the municipal airport.
Hotel/Motel Tax Fund	Accounts for a 5 percent tax to be used in economic development and promotion of tourism.
Emergency 911 Fund	Accounts for the City's share of E911 customer assessment that is restricted for public safety use.
ODOC Grant Fund	Accounts for grant monies received for flood and drainage projects.
FAA Grant Fund	Accounts for grant monies received for airport projects
Cemetery Care Fund	Accounts for a portion of cemetery revenue restricted by State law for cemetery capital improvements.
ODOT Grant Fund	Accounts for grant monies received for construction of industrial development access road.
<ul style="list-style-type: none"> • Capital Project Funds – are used to account for resources restricted for the acquisition or construction of specific capital projects or items. The reporting entity includes the following capital project funds: 	

<u>Nonmajor Fund</u>	<u>Brief Description</u>
Capital Improvement Fund	Accounts for transfers from other funds and grant monies to be used for major capital improvements
Landfill Improvement Fund	Accounts for monies set aside for use in landfill improvements.
Economic Development Construction Fund	Accounts for loan monies and sales tax restricted for use in economic development projects.
Drainage Improvement Fund	Accounts for monies set aside for drainage improvement projects.
<ul style="list-style-type: none"> • Debt Service Fund – accounts for ad valorem taxes levied by the City for use in retiring court assessed judgments, general obligation bonds, and their related expenditures. 	

Aggregated Non-Major Funds are reported as Other Governmental Funds.

The governmental funds are reported on the modified accrual basis of accounting. On the modified accrual basis of accounting, revenues are recorded when earned and measurable and available to pay current financial obligations, while expenditures are recorded when incurred and normally due and payable from current financial resources. The City defines revenue availability as collected within 60 days of period end.

The reconciliation of the governmental funds financial statements to the governmental activities presentation in the government-wide financial statements is the result of the use of the accrual basis of accounting and economic resources measurement focus at the government-wide level.

Proprietary Funds:

When the City charges customers for the services it provides, these services are generally reported in proprietary funds. Proprietary funds include enterprise funds and internal service funds. Enterprise funds are used to account for business-like activities provided to the general public. Internal service funds are used to account for business-like activities provided to other funds or departments of the City. Proprietary funds are reported on the accrual basis of accounting and economic resources measurement focus. For example, proprietary fund capital assets are capitalized and depreciated and principal payments on long-term debt are recorded as a reduction to the liability.

The City's proprietary fund is as follows:

Enterprise Fund

- Altus Municipal Authority Fund that accounts for the activities of the public trust in providing electric, water, sewer, and sanitation services to the public.

Internal Service Funds (combined for reporting purposes)

- Workers Compensation Fund that accounts for charges to the operating funds of the City used to pay worker's compensation claims.
- Assurance Fund that accounts for charges to the operating funds of the City used to pay the expenses of the City's group health and life insurance plans.

Fiduciary Funds:

The City's fiduciary funds are used to report net position and changes therein of assets held by the City in a trustee or fiduciary capacity. These net positions are not available for operations of the City. The City presently includes no trust or pension funds, but does include one agency fund: Flex Benefit Plan. It accounts for employee withholdings under the City's Section 125 Plan.

Agency funds are custodial in nature (i.e., assets equal liabilities) and do not involve the measurement of changes in net position. The fiduciary fund is reported on the accrual basis of accounting and economic resources measurement focus.

3. Cash and Cash Equivalents, Deposits and Investments

Cash and cash equivalents includes all demand and savings accounts, certificates of deposit or short-term investments with an original maturity of three-months or less, and money market investments. Trust account investments in open-ended mutual fund shares are also considered cash equivalents.

State statutes authorize the City to invest in obligations of the U.S. Treasury; time deposits with financial institutions, if such deposits are fully insured by federal depository insurance or pledged collateral; and debt securities issued by the State of Oklahoma, an Oklahoma county, school district, or municipality.

Investments for the City, as well as for its component unit, are reported at fair value. Investments consist of long-term certificates of deposit, and are reported at cost.

Deposits and Investments Risks

The City of Altus primary government and blended component units are governed by the deposit and investment limitations of state law and trust indentures. The deposits and investments held at June 30, 2013 by these entities are as follows:

Type	Fair Value	Credit Rating	Maturities in Years				
			On Demand	Less Than One	1 - 5	6 - 10	More than 10
Demand deposits	\$ 13,661,180	n/a	\$ 13,661,180	\$ -	\$ -	\$ -	\$ -
Time deposits	7,871,221	n/a	-	7,850,605	20,616	-	-
Total Deposits and Investments	<u>\$ 21,532,401</u>		<u>\$ 13,661,180</u>	<u>\$ 7,850,605</u>	<u>\$ 20,616</u>	<u>\$ -</u>	<u>\$ -</u>

Reconciliation to Financial Statements:

Cash and cash equivalents	\$ 16,564,123
Investments	4,920,616
Flex benefit fund cash and cash equivalents	47,662
	<u>\$ 21,532,401</u>

Custodial Credit Risk – Exposure to custodial credit risk related to deposits exists when the City holds deposits that are uninsured and uncollateralized; collateralized with securities held by the pledging financial institution, or by its trust department or agent but not in the City’s name; or collateralized without a written or approved collateral agreement. Exposure to custodial credit risk related to investments exists when the City holds investments that are uninsured and unregistered, with securities held by the counterparty or by its trust department or agent but not in the City’s name.

The City’s policy as it relates to custodial credit risk is that all collateral pledged to secure public funds shall be valued at no more than market value. The collateralization level will be 110% of market value or principal and accrued interest. Collateral will be held by the City Clerk-Treasurer of the City of Altus or by an independent third party with whom the entity has a current custodial agreement. The City’s policy limits acceptable collateral to U.S. Treasury securities, federal mortgage debt guaranteed by the Federal Government to include: VA, FHA, GNMA, FNMA, FHLMC, and Federal Home Loan Bank Letters of Credit. In addition, collateral is limited to direct debt obligations of municipalities or counties in Oklahoma which hold an “A” rating or better. Also, as required by Federal 12 U.S.C.A., Section 1823(e), all financial institutions pledging collateral to the City must have a written collateral agreement approved by the board of directors or loan committee. As of June 30, 2013, the City’s bank balances were not exposed to custodial credit risk.

Investment Credit Risk – The City’s investment policy limits investments, excluding retirement trust fund investments, to the following:

- a. Direct obligations of the U. S. Government, its agencies and instrumentalities;
- b. Savings accounts at savings and loans associations, banks, and credit unions, to the extent that the amounts are fully insured by the Federal Deposit Insurance Corporation;
- c. Insured or fully collateralized negotiable certificates of deposit; or
- d. County, Municipal, or school district direct debt obligation for which an ad valorem tax may be levied.

Investment credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The City and retirement plan have no formal policy limiting investments based on credit rating, but discloses any such credit risk associated with their investments by reporting the credit quality ratings of investments in debt securities as determined by nationally recognized statistical rating organizations—rating agencies—as of the year end. Unless there is information to the contrary, obligations of the U.S. government or obligations explicitly guaranteed by the U.S. government are not considered to have credit risk and do not require disclosure of credit quality.

Investment Interest Rate Risk – Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The City’s investment policy limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. Emergency funds may be invested with maturities up to five (5) years from date of purchase. All other funds maturities will be no more than two (2) years from date of purchase.

Concentration of Investment Credit Risk - Exposure to concentration of credit risk is considered to exist when investments in any one issuer represent a significant percent of total investments of the City (any over 5% are disclosed). Investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments are excluded from this consideration. The City’s investment policy requires diversification of investments and indicates that, with the exception of U.S. Treasury securities and authorized pools, no more than 50% of the City’s total investment portfolio will be invested in a single financial institution.

Restricted Cash and Investments

The amounts reported as restricted assets of the Enterprise Fund on the statement of net position are comprised of amounts held by the Altus Municipal Authority in accounts of the trustee bank for revenue notes, and other accounts with restricted uses. The restricted assets as of June 30, 2013 are as follows:

CITY OF ALTUS, OKLAHOMA

**CITY OF ALTUS, OKLAHOMA
ANNUAL FINANCIAL REPORT
As of and for the Year Ended June 30, 2013**

5. Capital Assets and Depreciation

Capital Assets:

For the primary government and component units, capital assets are reported at actual or estimated historical cost, net of accumulated depreciation where applicable. Donated capital assets are reported at their fair value at date of donation. Estimated historical cost was used to value the majority of the capital assets acquired prior to June 30, 1992. The capitalization threshold is capital assets with a cost of \$2,500 or more. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

For the year ended June 30, 2013, capital assets balances changed as follows:

	Balance at July 1, 2012	Additions	Deductions	Balance at June 30, 2013
PRIMARY GOVERNMENT				
<i>Governmental activities:</i>

Depreciation:

Depreciable capital assets are depreciated on a straight-line basis over their useful lives. The range of estimated lives by type of assets is as follows:

- Buildings 15-50 years
- Improvements other than buildings 5-100 years
- Infrastructure 25-100 years
- Furniture, equipment, and vehicles 2-40 years
- Water rights 40 years

**CITY OF ALTUS, OKLAHOMA
ANNUAL FINANCIAL REPORT
As of and for the Year Ended June 30, 2013**

Depreciation of capital assets and amortization of water rights is included in total expenses and is charged or allocated to the activities primarily benefiting from the use of the specific asset. Depreciation expense has been allocated as follows:

Governmental activities

General government	\$ 170,108
Public safety	103,873
Public works	146,856
Cultural and recreation	102,349
Economic development	-
Total depreciation expense - governmental activities	\$ 523,186

Business-type activities

Electric	\$ 256,997
Water/wastewater	1,540,031
Sanitation	42,147
Landfill	83,476
Administration/services	265,598
Total depreciation expense - business-type activities	\$ 2,188,249

6. Internal and Interfund Balances and Transfers

Internal Balances:

Receivable Fund	Payable Fund	Amount	Nature of Interfund Balance
Economic Development	Enterprise Fund	\$ 390,099	Construction payable

CITY OF ALTUS, OKLAHOMA
ANNUAL FINANCIAL REPORT
As of and for the Year Ended June 30, 2013

Internal and Interfund Transfers:

The City's policy is to eliminate interfund transfers between funds in the statement of activities to avoid the grossing up of balances. Only the residual balances transferred between governmental and business-type activities are reported as internal transfers and then offset in the total column. Internal activities between funds and activities for the year ended June 30, 2013 were as follows:

<u>Transfer In</u>	<u>Transfer Out</u>	<u>Amount</u>	<u>Nature of Interfund Transfer</u>
Enterprise Fund	General Fund	\$ 4,898,077	Transfer of revenue
General Fund	Emergency Fund	650,000	Stabilizing budgetary needs
Emergency Fund	General Fund	332,799	Stabilizing budgetary needs

**CITY OF ALTUS, OKLAHOMA
ANNUAL FINANCIAL REPORT
As of and for the Year Ended June 30, 2013**

Capital Leases

The City has entered into lease agreements as lessee for financing the acquisition of buildings, land, and equipment. These lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of their future minimum lease payments as of the inception date.

The assets acquired through capital leases are as follows:

Asset:	Business-Type Activities
Scraper	330,000
Electric substation	1,870,467
Total	\$ 2,200,467

The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2013, were as follows:

Year Ending June 30,	Business-Type Activities
2014	367,610
2015	367,610
2016	301,126
2017	76,457
Thereafter	-
Total required payments	1,112,803
Less: Amount representing interest	(93,444)
Total principal payments	\$ 1,019,359

Landfill Closure Liability

State and federal laws and regulations require the City to place a final cover on its construction and demolition landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site after closure. Although closure and post-closure care costs will be paid only near or after the date that the landfill stops accepting waste, the City reports a portion of these costs as an operating expense of the Altus Municipal Authority in each fiscal year. The current period expense amount is based upon the amount of landfill capacity used as of each fiscal year end.

The \$2,255,910 reported as accrued landfill closure cost liability at June 30, 2013, represents the cumulative amount of such costs reported to date based on the use of 90% of the estimated capacity of the landfill. The Altus Municipal Authority will recognize the remaining estimated costs of closure and post-closure care in the amount of \$250,657 as the remaining estimated capacity is filled. These amounts are based on what it would cost to perform all closure and post-closure care in 2013. At June 30, 2013, the landfill had a remaining estimated useful life of approximately one year.

The City has qualified under the State of Oklahoma Department of Environmental Quality (DEQ) financial assurance test relating to these future closure and post-closure costs, whereby the City's overall financial condition and other submitted information serves as evidence of the City's ability to pay for the closure and post-closure care costs when the landfill is actually closed. As such, the city is not required to fund an escrow trust account for the costs.

8. Net Position and Fund Balances

Net position is displayed in three components:

- a. *Invested in capital assets, net of related debt* - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvements of those assets.
- b. *Restricted net position* - Consists of net position with constraints placed on the use either by 1) external groups such as creditors, grantors, contributors, or laws and regulations of other governments, or 2) law through constitutional provisions or enabling legislation.
- c. *Unrestricted net position* - All other net position that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

It is the City's policy to first use restricted net position prior to the use of unrestricted net position when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

At June 30, 2013, the City's governmental activities had total restricted net position of \$4,097,214 of that amount \$4,048,145 was restricted by enabling legislation and balance restricted by grants.

	Business-type Activities/Proprietary Funds
Statement of Activities:	
Beginning net position as previously reported	\$ 19,321,700
Removal of debt issuance cost due to the implementation of GASB 65	(405,898)
Beginning net position, restated	\$ 18,915,802

Fund Balance:

Governmental fund equity is classified as fund balance. Since the City implemented GASB Statement 54, fund balance is further classified as nonspendable, restricted, committed, assigned and unassigned. These classifications are defined as:

- a. **Nonspendable** – includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

**CITY OF ALTUS, OKLAHOMA
ANNUAL FINANCIAL REPORT
As of and for the Year Ended June 30, 2013**

- b. Restricted – consists of fund balance with constraints placed on the use of resources either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments, or (2) laws through constitutional provisions or enabling legislation.
- c. Committed – included amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the city’s highest level of decision-making authority. The City’s highest level of decision-making authority is made by ordinance.
- d. Assigned – includes amounts that are constrained by the city’s intent to be used for specific purposes but are neither restricted nor committed. Assignments of fund balance may be made by city council action or management decision when the city council has delegated that authority. Assignments for revenues in other governmental funds are made through budgetary process.
- e. Unassigned – represents fund balance that has not been assigned to other funds and has not been restricted, committed, or assigned to specific purposes within the General Fund.

The City’s policy for the use of fund balance amounts require that committed amounts would be reduced first followed by assigned amounts and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

The City has created a stabilization amount within the General Fund for the purpose of responding to qualified emergencies and events in order to minimize or stabilize the financial impact such emergencies have on existing resources previously budgeted for the various functions and departments of the City. At June 30, 2013, the General Fund has committed fund balance for stabilization of \$2,514,058.

	General Fund	Other Governmental Funds	Total
Fund Balance:			
Nonspendable inventory	\$ 26,298	\$ 32,851	\$ 59,149
Restricted for:			
Park development	-	49,743	49,743
Street development	-	384,793	384,793
Donor requirements	-	85,510	85,510
Grant programs	-	69	69
Airport operations	-	68,614	68,614
Economic development	-	1,122,030	1,122,030
General government programs	-	-	-
Capital improvements	-	2,251,408	2,251,408

Debt service	-	5	5
	-	3,988,996	3,988,996
Committed to:			
Emergency Reserve	2,514,058	-	2,514,058
Unassigned	2,809,098	(492,150)	2,316,948
Total fund balance	\$ 5,349,454	\$ 3,529,697	\$ 8,879,151

9. Revenues

Program Revenues:

Revenues that are derived directly from each activity or from parties outside of the City's taxpayers are reported as program revenues within the Statement of Activities. The City has the following program revenues in each activity:

- Public Safety – Fire, Police, Ambulance – ambulance fees, fire run charges, officer's training charges for services, police sentinel charges for services, restricted operating grants, 911 revenue, and restricted capital grants.
- Public Works – Commercial vehicle and gasoline excise tax shared by the State.
- Culture and recreation – lake fees, pool fees, library fees, hunting and fishing permits, softball fees, and operating grants.
- General Government – license and permits, fines and forfeitures, cemetery revenue, impact fees, operating grants and capital grants.

All other governmental revenues are reported as general. All taxes are classified as general revenue even if restricted for a specific purpose.

Sales Tax Revenue:

Sales tax revenue represents a 3.75 cents tax on each dollar of taxable sales which is collected by the Oklahoma Tax Commission and remitted to the City. Sales tax revenue is recorded as follows:

Initially the 3.75 cents is recorded in the General Fund. Then 1.75 cent tax is transferred as needed to Capital Improvements and Economic Development Construction Funds for the following projects: (1) 50% is used for (a) city hall construction and senior citizen center, (b) fire station renovation, and (c) economic development purposes; and (2) the remaining 50% is used for the construction of a high school, which was approved by the majority of voters in August 2008.

10. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors and omissions; injuries to employees; employee health and life; and natural disasters. The City manages these various risks of loss as follows:

- General Liability – Covered through an insurance provider with a \$10,000 deductible.
- Physical Property – Covered through an insurance provider with a \$10,000 deductible on most items.
- Workers' Compensation – Workers' compensation was covered through self-insurance using a third party processor to process claims from July 2011 through December 2011. Effective January 2012, the City converted to a policy held with an insurance provider.
- Employee's Group Medical – Covered through purchased insurance.

Management believes the insurance coverage listed above is sufficient to preclude any significant uninsured losses to the City. Settled claims have not exceeded this insurance coverage in any of the past three fiscal years.

	Workers' Compensation
Claim liability, June 30, 2011	\$ 972,665
Claims and changes in estimates	(50,119)
Claims payments	(333,483)
Claim liability, June 30, 2012	\$ 589,063
Claims and changes in estimates	-
Claims payments	(389,005)
Claim liability, June 30, 2013	\$ 200,058

11. Retirement Plan Participation

The City of Altus participates in five employee pension systems:

1. Oklahoma Municipal Retirement Fund Employee Retirement System of Altus, Oklahoma – a defined benefit plan.
2. Oklahoma Municipal Retirement Fund (OMRF) – a defined contribution plan.
3. Oklahoma Municipal Retirement Fund – a defined contribution plan – CMO Plan.
4. Oklahoma Police Pension and Retirement System (OPPRS) - a statewide cost-sharing plan
5. Oklahoma Firefighter’s Pension and Retirement System (OFPRS) – a statewide cost-sharing plan

Oklahoma Municipal Retirement Fund Employee Retirement System of Altus, Oklahoma

Plan Description – The Oklahoma Municipal Retirement Fund Employee retirement System of Altus, Oklahoma (the Plan) is a defined benefit retirement plan covering City employees not covered by other plans. The plan operates as a trust maintained by the Oklahoma Municipal Retirement Fund (OMRF). The OMRF board of trustees retains BankOne as custodian to hold the Plan’s assets which are invested by various professional managers. All regular, full-time City employees not covered by other plans are required to participate in the Plan. Benefits vest after ten years of service. Employees, who retire at age 65 or completion of ten years of service, if later, are entitled to an annual retirement benefit, payable monthly in amount equal to 2.625% of final average compensation multiplied by the number of years of credited service. Final average compensation is defined as the average of the five highest consecutive annual salaries out of the last ten calendar years of service.

An employee is eligible for an early retirement benefit once one has attained the age of 55 and has completed ten years of service. The amount of benefit is determined based on the final average salary and credited service as of the date of termination. If benefit payments are to begin before the age of 65, the amount of benefit will be actuarially reduced. A late retirement benefit is computed in the same manner as a normal retirement based on average salary and credited service as of the termination of employment.

CITY OF ALTUS, OKLAHOMA
ANNUAL FINANCIAL REPORT
As of and for the Year Ended June 30, 2013

A participant who becomes totally and permanently disabled after completion of ten years of service will be entitled to a disability benefit computed as an early retirement benefit based on average salary and service as of the date of disability but without actuarial reduction for payments beginning prior to normal retirement age.

Employee contributions are returned with interest if their employment is terminated prior to completion of ten years of service. A death benefit is payable after ten years of service based on 50% of the employee's accrued benefit. This benefit is payable for life or until remarriage of the surviving spouse. For a vested single participant, 50% of the accrued benefit is payable for 60 months certain.

Funding Policy – The following amount shown as the actuarial accrued liability is a standardized disclosure measure of the present value of pension benefits, adjusted for the effects of projected salary increases and step-rate benefits, estimated to be payable in the future as a result of employee service to date. The measure is intended to help users assess the funding status of the Plan on a going concern basis, assess progress made in accumulating sufficient assets to pay benefits when due, and make comparisons among employers. The measure is the actuarial present value of credited projected benefits, and is independent of the funding method used to determine contributions to the Plan. The actuarial accrued liability was computed as part of an actuarial valuation performed as of January 1, 2012. Significant actuarial assumptions used in the valuation include 1) a rate of return on the investment of present and future assets of 7.50% compounded annually, and 2) future salary increases based on the age of the employee.

The total actuarial liability exceeded the net position available for benefits by \$3,993,043 at January 1, 2013, as follows:

Actuarial accrued liability	\$ 20,346,966
Net assets available for benefits (actuarial value)	<u>(16,353,923)</u>
Unfunded actuarial accrued liability	<u>\$ 3,993,043</u>

The Plan's funding policy provides for actuarially determined periodic contributions at rates that, for individual employees, increase gradually over time so sufficient assets will be available to pay benefits when due. Required contributions are determined using the aggregate entry age normal cost method. Unfunded actuarial liabilities are being amortized as a level percentage of payrolls over a period of thirty years.

For the year ended June 30, 2013, employees were required to contribute 4% of annual compensation while the City contributed the remaining amounts necessary to fund the pension plan using an actuarial basis. The City's contribution rate, for the year ended June 30, 2013, was 12.92%. Contributions to the Plan for payroll for the year ended June 30, 2013, for employees and employer were \$195,848 and \$767,722, respectively. For the year ended June 30, 2013, the City's covered payroll was \$4,896,174. Covered payroll refers to all compensation paid by the City of Altus to active employees covered by the Plan on which contributions are based.

Significant actuarial assumptions used to compute the actuarially determined contribution requirements are the same as those used to compute the pension benefit obligation as described above.

The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Oklahoma Municipal Retirement Fund

Plan Description – The City provides a defined contribution plan and trust known as the City of Altus Plan and Trust (the Plan) in the form of the Oklahoma Municipal Retirement Fund Defined Contribution Plan (OMRF). OMRF operations are supervised by a nine-member Board of Trustees elected by the participating municipalities. The Plan is administered by BankOne of Oklahoma City, Oklahoma. The defined contribution plan is available to all full-time employees except those covered by other plans.

Funding Policy – Benefits depend on solely on amounts contributed to the Plan plus investment earnings. Employees are eligible to participate after six months of employment and voluntarily select their before-tax percentage-of-contribution up to 15% of compensation. By City ordinance, the City, as the employer, is required to make variable contributions to the Plan based on availability of funds. As of July 2002, City contributions were 1.49% of gross salary. The employee is fully vested after ten years of service. City contributions for, and interest forfeited by, employees who leave employment prior to fully vesting are allocated back to remaining eligible participants. The authority to establish and amend the provisions of the Plan rests with the City Commission.

For the year ended June 30, 2013, the following amounts related to actual contributions to the Plan:

Employees' contributions made	\$62,398
Employer (City) contributions made	\$71,282

Oklahoma Municipal Retirement Fund – Defined Contribution Plan – CMO Plan

Plan Description – In addition to the above plans, the City provided a defined contribution plan in the form of the Oklahoma Municipal Retirement Fund Customized Manager Option Plan (OMRF – CMO Plan). The CMO – Plan is available to any person who is in the position of City Administrator.

Funding Policy – Employees are eligible to participate upon employment and voluntarily elect their percentage of contribution with a minimum contribution of 3% of compensation. The City makes contributions to the CMO – Plan based on the employment agreement with the employee and employer contributions are immediately vested. The authority to establish and amend the provisions of the CMO – Plan rests with the City Commission.

For the year ended June 30, 2013, the following amounts related to actual contributions to the Plan:

Employees' contributions made	\$ 3,000
Employer (City) contributions made	\$ 6,000

Oklahoma Firefighter's and Police Pension and Retirement Systems

The City of Altus, as the employer, participates in two statewide cost-sharing multiple employer defined benefit plans on behalf of the firefighters and police officers. The systems are funded by contributions from participants, employers, insurance premium taxes, and state appropriations, as necessary.

2013	231,996	100%	2013	197,306	100%

12. Commitments and Contingencies

Litigation

The City is a party to various legal proceedings which normally occur in the course of governmental operations. The financial statements do not include accruals or provisions for loss contingencies that may result from these proceedings. State statutes provide for the levy of an ad valorem tax over a three-year period by a City Sinking Fund for the payment of any court assessed judgment rendered against the City. While the outcome of the above noted proceedings cannot be predicted, due to the insurance coverage maintained by the City and the State statute relating to judgments, the City feels that any settlement or judgment not covered by insurance would not have a material adverse effect on the financial condition of the City.

Grant Programs

The City of Altus participates in various federal or state grant/loan programs from year to year. In 2013, the City's involvement in federal and state award programs is relatively material. The grant/loan programs are often subject to additional audits by agents of the granting or loaning agency, the purpose of which is to ensure compliance with the specific conditions of the grant or loan. The City has not been notified of any noncompliance with federal or state award requirements. Any liability for reimbursement which may arise as a result of these audits cannot be reasonably determined at this time, although it is believed the amount, if any, would not be material.

13. Material Non-Compliance

State law prohibits negative fund balance. The following funds had negative fund balance at June 30, 2013:

Airport	\$ (63,114)
Emergency 911	(214,166)
Parks Development	(45,662)
Debt Service	(17,995)

Footnotes to Budgetary Comparison Schedule:

1. The budgetary comparison schedules and budgetary fund balance amounts are reported on a non-GAAP basis that report revenues on a cash basis, and expenditures in the period the invoice is received, except for payroll expenditures that are recorded when paid. In addition, obligations that are required to be funded from ending budgetary fund balances are subtracted from total ending budgetary fund balances to arrive at the unreserved budgetary fund balance. This presentation of unreserved fund

balances on a budgetary basis is used to demonstrate compliance with Article 10, § 26 of the Oklahoma State Constitution.

2. The legal level of appropriation control is the department level within a fund. Transfers of appropriation within a fund require the approval of the City Manager. All supplemental appropriations require the approval of the City Council. Supplemental appropriations must be filed with the Office of the State Auditor and Inspector.

3. The budgetary basis differs from the modified accrual (GAAP) basis as shown in the schedule below:

	Fund Balance June 30, 2013
Budget to GAAP Reconciliation:	
Fund Balance - GAAP Basis	\$ (5,349,454)
Adjustments for Budgetary Basis:	
Revenues:	
Accounts receivable	(80,026)
On-behalf payments	664,336
Expenditures:	
Accrued payroll	(154,531)
Encumbrances	970,572
Other items	29,533
Accounts of the General Fund:	
Emergency Fund	2,095,081
Fund Balance - Budgetary Basis	\$ (1,824,489)

INTERNAL CONTROL AND COMPLIANCE OVER FINANCIAL REPORTING

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

The Honorable Mayor and Members of the City Council of the
City of Altus, Oklahoma

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Altus, Oklahoma (the "City"), as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated March 20, 2014.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings, we identified deficiencies in internal control that we consider to be material weaknesses.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying schedule of findings as items 2013-2 and 2013-3, to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or another matter that is required to be

reported under *Government Auditing Standards* and which is described in the accompanying schedule of findings as item 2013-1.

City's Response to Findings

The City's responses to the findings identified in our audit are described in the accompanying schedule of findings. We did not audit the City's responses and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

March 20, 2014

CITY OF ALTUS, OKLAHOMA

SUMMARY SCHEDULE OF AUDIT FINDINGS

Year Ended June 30, 2013

Finding 2013-01 Negative Fund Balances

Criteria: Oklahoma State law prohibits negative fund balances.

Condition: The following funds had negative fund balances at June 30, 2013:

Airport	\$ (63,114)
Emergency 911	(214,166)
Parks Development	(45,662)
Debt Service	(17,995)

Cause and Effect: Transfers from the general fund were not made to these funds during the course of the year.

Recommendation: We recommend transfers be made from the general fund to increase the fund balances to a positive number.

City Response: We will implement the actions recommended above, and make adjustments accordingly.

Finding 2013-02 Payroll Distribution

Criteria: One component of an effective internal control system is proper supervisory review of payroll to ensure employees are accurately paid each pay period.

Condition: While testing payroll distribution 1 out of the 25 employees tested was not paid for all the hours reported on the time sheet. In addition, we noted the settings in the payroll system were not set to properly reflect if the employee was salaried or hourly.

Cause and Effect: The system reported the employee as salary, but the employee is hourly. As a result, it was necessary to perform a manual change in the system to correct the mistake. Because of manual changes, there was an error in the calculation resulting in the employee's payroll check being miscalculated. There is also no report generated by the system showing manual changes made to the system for supervisory review and confirmation.

Recommendation: We recommend the City review the payroll system's parameters to ensure all employees are set up to properly reflect whether they are salary or hourly. Furthermore, a report should be generated of any changes to the payroll period and reviewed by an individual that does not have the ability to initiate changes in the payroll system.

City Response: We have adopted the recommendation. Reports are generated by the payroll system are reviewed by another individual who is not involved with the payroll process, and we plan to install a new payroll system that should alleviate the issue and provide stronger controls.

CITY OF ALTUS, OKLAHOMA

**SUMMARY SCHEDULE OF AUDIT FINDINGS (Cont'd.)
Year Ended June 30, 2013**

Finding 2013-03

Criteria: The pooled cash accounts should be reconciled each month to reflect what is reported in the general ledger.

Condition: We noted the aggregate total of pooled cash reported in each fund did not materially agree with the reconciliation of pooled cash performed at the fiscal year-ending date June 30, 2013. The results at year-end had an aggregate material effect on the general ledger.

Cause and Effect: Since the pooled cash accounts have an effect on most funds, and several different general ledger accounts, the financial statement may be materially misstated.

Recommendation: We recommend the City ensures each month the pooled cash reconciles with the general ledger with proper supervisor review.

City Response: We are in search of an additional accountant to address the overall accounting workload, including reconciling pooled cash. In addition, funds are available in contract services to accelerate work accomplishments as needed. The current supervisor will monitor and review the pooled cash reconciliation process.

CITY OF ALTUS, OKLAHOMA

**SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
Year Ended June 30, 2013**

Finding 2012-01 Expenditures in Excess of Budgeted Appropriations

Criteria: Oklahoma State law requires that municipal expenditures not exceed the legally appropriated amounts.

Condition: Expenditures in the police and fire departments within the general fund exceed budgeted appropriations by \$47,809 and \$433,941, respectively.

Cause and Effect: Expenditures were approved during the year without the necessary related budget amendments resulting in budget overruns.

Recommendation: We recommend management review budget-to-actual expenditures at or near the end of each year and propose budget amendments as needed. In addition, when contemplating large expenditures, we recommend the necessary budget amendment be presented at the time of request for approval of the acquisition.

City Response: We will implement the actions recommended above.

Current Status: Cleared in the current year

Finding 2012-02 Negative Fund Balances

Criteria: Oklahoma State law prohibits negative fund balances.

Condition: The following funds had negative fund balances at June 30, 2012:

Airport	\$ (99,214)
Emergency 911	(242,892)
Parks Development	(45,788)
Debt Service	(17,995)

Cause and Effect: Transfers from the general fund were not made to these funds during the course of the year.

Recommendation: We recommend transfers be made from the general fund to increase the fund balances to a positive number.

City Response: All transfers made routinely by City staff, but without a clear understanding of their origins and purposes were halted during the year until a review could be completed. We will implement the actions recommended above.

Current Status: See current year Finding 2013-01.
