

COMPREHENSIVE ANNUAL Financial Report

For the years ended December 31, 2020 and 2019

A COMPONENT UNIT OF THE STATE OF OKLAHOMA

LAHOMA TURNPIKE AUTHORIT

About the OKLAHOMA TURNPIKE AUTHORITY

The Oklahoma Turnpike Authority (OTA) is an instrumentality of the State of Oklahoma created by the State Legislature by statute in 1947 for the purpose of constructing, operating and maintaining the Turner Turnpike. In 1953, the original purpose was statutorily redefined to allow the construction of additional turnpikes and to change the Authority's membership to include a representative from each of six Oklahoma districts specifically defined in the OTA's bylaws and Oklahoma Statute. These changes were ratified by a statewide referendum in January 1954.

The Oklahoma State Legislature has the exclusive right to authorize turnpike routes. Subsequently, the OTA has the responsibility to complete engineering and economic feasibility analyses of the authorized routes before any turnpike can be constructed.

Turnpike bond sales must be approved by the Council of Bond Oversight and must comply with all rules and egulations of the United States Treasury Department and the United States Securities and Exchange Commission. All DTA debt is issued in accordance with the Trust Agreement dated February 1, 1989, as amended. Since inception, the DTA has provided essential, convenient, cost effective and safe roadways to its customers.

DESCRIPTION OF THE OKLAHOMA TURNPIKE SYSTEM

TURNER TURNPIKE

Authorized by the State Legislature in 1947 and opened in 1953. Four-lane, limited access highway extending 86.0 miles from Tulsa to Oklahoma City. Interchanges at Sapulpa, Kellyville, Bristow, Stroud, Chandler, Wellston and Luther. Service station and/or restaurant with free restrooms at Stroud and Chandler.

WILL ROGERS TURNPIKE

Authorized by the State Legislature in 1953 and opened in 1957. Four-lane, limited access highway extending 88.5 miles from Tulsa to the Oklahoma-Missouri state line about 1,000 feet south of the southeast corner of Kansas. Interchanges at Claremore, Adair (S.H. 28), Big Cabin, Vinita, Afton and Miami. Service station and restaurant with free restrooms at Vinita.

H.E. BAILEY TURNPIKE

Authorized by the State Legislature in 1953, the original 86.4 miles opened in 1964, and the 8.2 mile extension authorized in 1987 opened in 2001. The original fourlane, limited access highway extending 86.4 miles opened in two sections: north section (61.4 miles) from Oklahoma City to U.S. 277 north of Lawton; south section (25.0 miles) from U.S. 277 south of Lawton to U.S. 70, 5.2 miles north of the Texas state line. Interchanges at Chickasha, Cyril, Elgin and Walters. Service station and/or restaurant with free restrooms at Chickasha and Walters. The four-lane, limited access extension runs 8.2 miles within Grady County from an interchange of the original H.E. Bailey Turnpike to S.H. 9. The route generally extends east and west through a rural area west of Norman.

MUSKOGEE TURNPIKE

Authorized by the State Legislature in 1965 and opened in 1969. Four-lane, limited access highway extending 53.1 miles from Tulsa to I-40 near Webber Falls. Interchanges at Coweta, Muskogee and U.S. 64 near Webber Falls. Service station and restaurant with free restrooms at Muskogee.

JOHN KILPATRICK TURNPIKE

Authorized by the State Legislature in 1987, the original 9.5 miles opened in 1991, and the 15.8 mile extension opened in sections during 2000 and 2001. Four-lane, limited access, urban highway extending 31.4 miles from the Oklahoma City interchange of the Turner Turnpike and I-35 to I-40 between Mustang and Sara Road. The route is generally along Memorial Road on the north, turning south parallel to Sara Road just west of County Line Road, passing by Lake Overholser on its west side parallel to Morgan Road to an interchange at I-40, giving access to traffic traveling east and west on the interstate system. Interchanges at Eastern Ave., U.S. 77/ Broadway Extension, Western Ave., Pennsylvania Ave., May Ave., Portland Ave./Lake Hefner Parkway, Meridian Ave., MacArthur Blvd., Rockwell Ave., NW Expressway, Wilshire Blvd., S.H. 66 and N.W. 10th

KICKAPOO TURNPIKE

Authorized by the Oklahoma Turnpike Authority Board in 2015 and opened in 2021. This 4 lane divided highway extends 20 miles to connect I-40 to I-44 on the eastern side of Oklahoma County. This Turnpike was Oklahoma's first newly constructed 80mph facility. Access provided at 89th Street, 29th Street, Reno Avenue, US-62, and Britton Road.

CIMARRON TURNPIKE

Authorized by the State Legislature in 1965 and opened in 1975. Four-lane, limited access highway extending 59.2 miles on main route from I-35/U.S. 64 east of Enid to Tulsa, and 8.5 miles on a spur connecting the main route with Stillwater and Oklahoma State University. Interchanges at U.S. 77, U.S. 177, Stillwater, Morrison, S.H.18, Hallett and S.H. 48. Service station and restaurant with free restrooms at Lone Chimney.

CREEK TURNPIKE

Authorized by the State Legislature in 1987, the original 7.4 miles opened in 1992, the 4.9 mile Creek West Extension opened in 2000, the 13.1 mile Broken Arrow South Loop opened in sections during 2001 and 2002 and the 9.0 mile Creek East Extension opened in 2002. Four-lane, limited access, urban highway extending 34.4 miles from the Turner Turnpike at S.H. 66 to the I-44 interchange of the Will Rogers Turnpike, providing access to traffic traveling east into Tulsa and south to Okmulgee; continues generally through the city of Broken Arrow to the Muskogee Turnpike: then north to the Will Rogers Turnpike. Interchanges at South 49th West Avenue, U.S. 75, Peoria Avenue, Riverside Drive, Yale Avenue, U.S. 64/Memorial Drive, U.S. 169, South 129th East Avenue, South 145th East Avenue, South 161st East Avenue, South 193rd East Avenue, East 101st Street, S.H. 51, Muskogee Turnpike, 71st Street, 51st Street, 31st Street, 11th Street, Highway 412 and Pine Street.

INDIAN NATION TURNPIKE

Authorized by the State Legislature in 1955, the north 41.1 miles opened in 1966 and the south 64.1 miles opened in 1970. Four-lane, limited access highway extending 105.2 miles from U.S. 75/I-40 near Henryetta to U.S. 70 near Hugo. Interchanges at Eufaula, Ulan, McAlester, Daisy and Antlers. Service station and restaurant with free restrooms at McAlester.

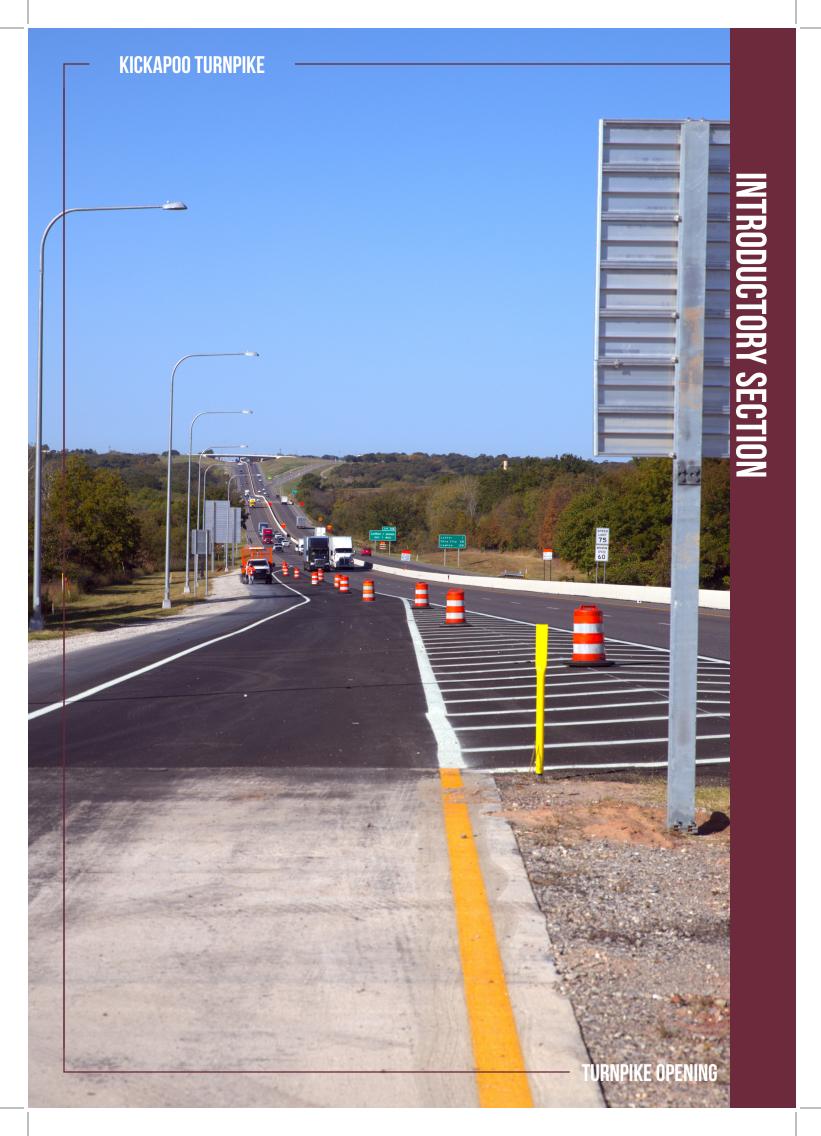

CHICKASAW TURNPIKE

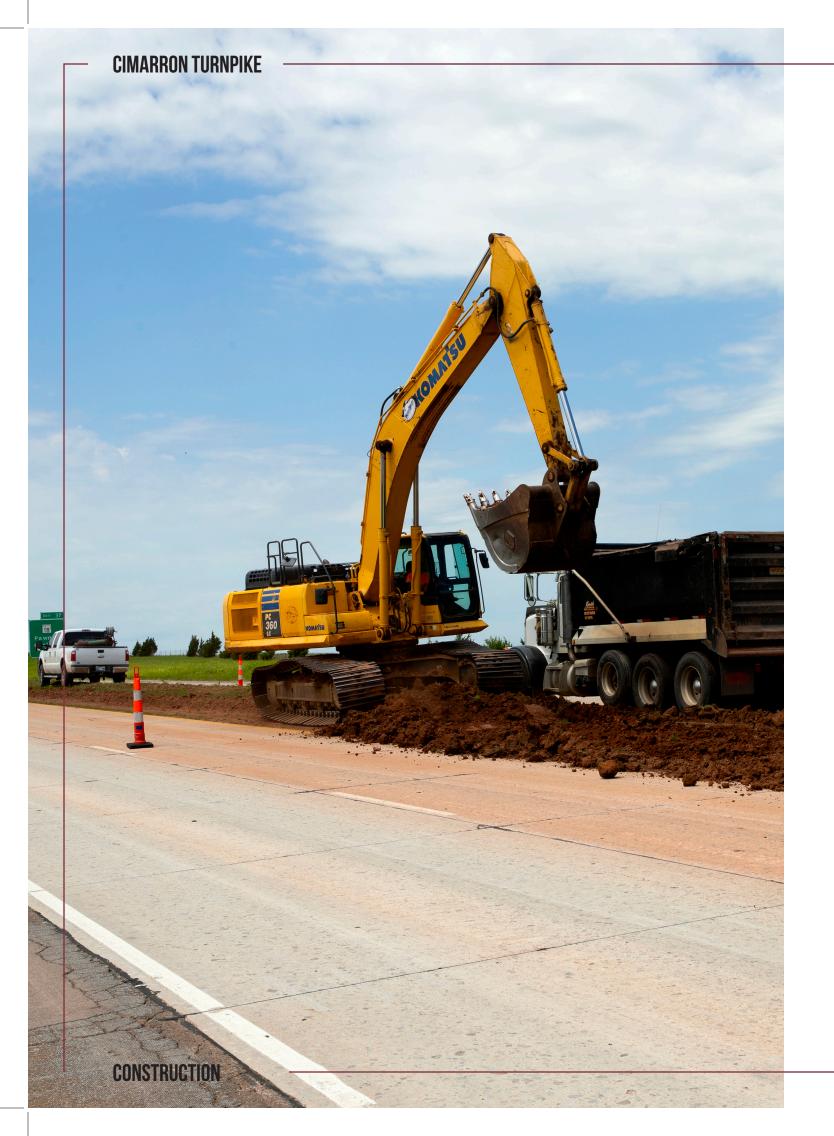

Authorized by the State Legislature in 1987 and opened in 1991. Two-lane, limited access highway extending 27.1 miles from S.H. 7 west of Sulphur to S.H. 1 near Ada. Only 13.3 miles are tolled with interchanges at U.S. 177 and Roff.

CHEROKEE TURNPIKE

Authorized by the State Legislature in 1987 and opened in 1991. Four-lane, limited access highway extending 32.8 miles from U.S. 412 at Locust Grove to U.S. 412 west of West Siloam Springs. Interchanges at Locust Grove, U.S. 412 and S.H. 10.

April 30, 2021

TO THE HONORABLE KEVIN STITT, GOVERNOR **OKLAHOMA TURNPIKE BONDHOLDERS AND CITIZENS OF THE STATE OF OKLAHOMA**

On behalf of the Oklahoma Turnpike Authority (OTA), we are pleased to transmit this comprehensive annual financial report for the year ended December 31, 2020. The Controller Division has prepared this Annual Report in accordance with accounting principles generally accepted in the United States of America. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests solely with the OTA.

Management of the OTA is responsible for the establishment and maintenance of internal accounting controls that have been designed to ensure assets are safeguarded and financial transactions are properly recorded and adequately documented. Such internal controls require estimates and judgments from management so that, in attaining reasonable assurance as to the adequacy of such controls, the cost does not outweigh the achieved benefit. We have established an internal control structure designed to achieve these financial objectives. We believe that the data, as presented, is accurate in all material respects and that it presents fairly the financial position and results of the OTA's operations.

An audit of the financial statements has been performed in accordance with generally accepted auditing standards in compliance with the requirements of Section 711 of the OTA's Trust Agreement dated February 1, 1989, as amended (the Trust Agreement). The required audit has been performed for the year ended December 31, 2020, by the OTA's independent auditors, BKD, LLP. Their report is included in the Financial Section of the Annual Report. The Financial Section also includes Management's Discussion and Analysis which provides an overview and brief analysis of the basic financial statements. Readers are encouraged to review this information.

PROFILE OF THE OKLAHOMA TURNPIKE AUTHORITY

The OTA is an instrumentality of the State of Oklahoma (the State) and a body corporate and politic, created by statute in 1947 to provide an alternative means of constructing necessary State roadways without further straining limited State highway funds. The OTA is authorized to construct, maintain, repair and operate the Turnpike System, which presently consists of eleven turnpikes covering approximately 616.7 centerline miles. The OTA enhances the State's transportation network by providing an effective and efficient means of safe, high-speed travel throughout the State and around population centers without straining appropriations. Operations and debt service are funded by toll revenues; no State appropriations are allocated to the OTA. Only Turnpike System customers, who include out-of-state travelers, pay the tolls. Turnpikes serve Oklahoma as a mechanism for building infrastructure for current use but gradually paying for it over future periods. The OTA supplies a needed basic service at a fee that yields sufficient revenues to operate and maintain its roads at a high quality, as well as provide for debt service payments to its bondholders.

The Oklahoma Legislature has sole discretion to authorize turnpike routes, with approval from the Oklahoma Department of Transportation (the ODOT). Turnpike Revenue Bonds or Refunding Bonds may be issued for the purpose of paying the costs of turnpike projects or refunding outstanding bonds. Turnpike bond sales must be approved by the Council of Bond Oversight and must comply with all rules and regulations of the United States Treasury Department and the United States Securities and Exchange Commission. All OTA debt is issued in accordance with the Trust Agreement. Turnpike Bonds are payable solely from the tolls and other OTA revenues and do not constitute indebtedness of the State.

The OTA's governing body (the Authority) consists of the Governor (ex-officio) and six members. The members are appointed by the Governor and approved by the State Senate. They serve eight-year, uncompensated terms and may be reappointed. The Authority appoints the Executive Director of the OTA. The Executive Director and three assistant executive directors are responsible for leading the OTA. The division management staff supervises the daily operations and functions of the organization. Authority members provide oversight and policy direction. They appoint various consulting entities with national reputations for excellence, including the General Counsel, Bond Counsel, Consulting Engineers, Consulting Traffic Engineers, Financial Advisor, Bond Underwriter(s) and Independent Auditor(s). All action taken by the Authority members and staff must be in strict compliance with the provisions of the Trust Agreement.

Annually, the OTA is required by the Trust Agreement to adopt a final budget on or before December 1 to provide for the next year's operating expenses, monthly deposits to the Reserve Maintenance Fund and the Capital Plan. The budget is adopted on a modified accrual (non-GAAP) basis wherein expenditures are recognized on a cash basis, and depreciation is not budgeted as an expenditure. Budgets are controlled at the division level, and the object of the budgetary controls is to ensure compliance with the provisions of the Trust Agreement. The Executive Director may approve changes within the budget at any level, but an increase in the total budget must be approved by the Authority.

ECONOMIC FACTORS

In December 2019, a novel strain of coronavirus, now commonly identified as COVID-19, was reported to have surfaced in China. With the globalization experienced in recent years, the spread of this virus caused business disruption throughout the world. In March 2020, the World Health Organization declared the outbreak of COVID-19 to be a pandemic, and the U.S. and Oklahoma economy began to experience the pronounced effects of these circumstances. On March 15, 2020, Oklahoma Governor Kevin Stitt issued the first of a series of Executive Orders, declaring a state of emergency for all Oklahoma counties due to COVID-19 pandemic concerns and outlining several measures to promote the health and safety of Oklahoma citizens. As part of the emergency plan to help Oklahoma slow the spread of COVID-19, a 'Safer at Home' order was issued for adults over 65 and vulnerable individuals, gatherings were limited to no more than 10 people, elective and minor medical procedures were possible. After several weeks, Governor Stitt issued another series of Executive Orders to establish the Open Up and Recover Safely Plan to safely and slowly reopen Oklahoma's economy beginning in late April throughout the summer. Despite this phased approach to reopening, Oklahoma continued to experience the effects of the spread of the virus which in turn slowed the economic recovery of the State throughout the end of the year.

The 2020 Greater Oklahoma City Economic Forecast report authored by Dr. Russell Evans, Oklahoma City economist and Oklahoma City University economics professor, and Mr. Eric Long, research economist, indicated that the result of

severely restricting economic activity (in an attempt to stall the pace of COVID-19 transmission) was a collapse in measured economic activity as communities followed sheltered in place protocols and remained at home for safety. They also state that Oklahoma's oil and natural gas industry is at the end of an unparalleled contraction, with new drilling all but shut down in the State and the industry activity continuing on a slow crawl with an uncertain future. In this report, Dr. Evans and Mr. Long caution that even with the expectation that widespread vaccination would end this pandemic period and that personal income would be artificially supported by federal economic policy, the State's economy remains vulnerable to national and global uncertainties with regards to COVID-19 and hence there could be a delay in the improvement of economic conditions.

According to the February 2021 news release from the Bureau of Economic Analysis (BEA), U.S. GDP in the 4th quarter of 2020 increased at an annual rate of 4.1%. The January 2021 "Oklahoma Economic Indicators", prepared by senior economist Monty Evans, attributes the national increase in real GDP for the 3rd quarter of 2020 to healthcare and social assistance, durable goods manufacturing and accommodation and food services. Locally, Oklahoma's real GDP for the 3rd quarter 2020 increased to 24.2% from the previous quarter decline of 31.1%. Crude oil is an important commodity in the global market, and Oklahoma produces a substantial amount of oil. The City of Cushing is a major crude oil trading hub connecting Gulf Coast producers to Midwest refining markets and receiving supply from several major pipelines that originate in Texas. For 2020, overall statewide crude production decreased below levels seen prior to the economic slowdown caused by the COVID-19 pandemic.

The Oklahoma unemployment rate for November 2020 was 5.9%, less than the national rate of 6.7% for December 2020. According to the January 2021 "Oklahoma Economic Indicator" report, in November 2020 the unemployment rates for all of Oklahoma's 77 counties were higher than the previous year. Regarding Oklahoma's leading index for 2020, the Federal Reserve Bank of Philadelphia noted that they expect to suspend the release of upcoming state leading indexes until further notice as the standard approach for estimating changes in coincident indexes may not be reliable in the coming months due to the impact of the COVID-19 pandemic on the economy and on initial unemployment claims during 2020.

According to State Treasurer Randy McDaniel, gross receipts to the Treasury in January 2021 were approximately \$1.2 billion, a decrease of 5.7% from January 2020. Gross income tax collections generated \$432.4 million, a decrease of 8.0% from the previous January. Two main factors are stated to have impacted the income tax remittances: (1) Due to the calendar structure of January 2021 in regards to weekends, this month had two less tax collection days than January 2020, and (2) a pause in stimulus-related unemployment payments in late December 2020. Also, sales and use tax collections, including remittances on behalf of cities and counties, totaled \$506.4 million in January 2021, \$8.1 million and 1.6% more than January 2020. This growth is attributed to the increase of use tax receipts, collected on out-of-state purchases including internet sales. Additionally, gross production taxes on oil and natural gas decreased by \$30.8 million, or 34.9% from last January. Treasurer McDaniel commented that Oklahoma's economy is not immune to the fiscal impact caused by the pandemic; however, he anticipates economic recovery as public health improves and economic activity increases.

At the end of 2020, Kimberly Amadeo, President of WorldMoneyWatch.com reported that a forecast released on the Federal Open Market Committee (FOMC) meeting on December 16, 2020 predicts the U.S. GDP growth will rebound from a 2.4% contraction rate in 2020 up to a 4.2% growth rate in 2021 and slow in the subsequent following years. The unemployment rate is expected to decrease to 5.0% in 2021 compared to the 6.7% unemployment rate estimate in 2020. Inflation is anticipated to be 1.8% in 2021. Also, Kimberly Amadeo stated that the FOMC lowered the fed funds rate to a range of 0.0% and 0.25% after holding an emergency meeting in March 2020 to address the pandemic's economic impact. Later, the FOMC announced on September 16, 2020 it would keep the benchmark rate at 0.1% until inflation reached 2.0%; their December 16, 2020 forecast predicted this would occur in 2023. Additionally, the Fed is working on keeping long-term rates low as a means to make borrowing cheaper and hence encourage consumers and businesses spending. According to Kimberly Amadeo, the U.S. economy is improving from the decline caused by the pandemic, however, she also states that this is a cautiously positive outlook based on expert review of key economic indicators.

The OTA remains committed to customer convenience, quality roadways and fiscal responsibility. Oklahoma geographically serves as a transportation crossroads for three of the nation's most important transportation and shipping corridors, as U.S. Interstates 35, 40, and 44 intersect within the State. The Turnpike System comprises critical components of that infrastructure, contributing a key role in the movement of goods through Oklahoma. The Turnpike System facilitates movement along these corridors and assists the State in accessing the opportunities available through interstate commercial activity. The out-of-state travelers who utilize the Turnpike System also contribute to tourism dollars and provide sales and motor fuel taxes for

the State. In this way, the Turnpike System contributes to the State's economic development by bridging communities both in and out of the State. Responding to growing traffic volumes and congestion, the OTA collaborates with other entities in addressing the critical need to reconstruct, expand and enhance the transportation system in Oklahoma in order to increase safety and mobility for the traveling public. Additionally, in accordance with its efforts to preserve the quality of the Turnpike System, the OTA continues to focus on improving and maintaining the infrastructure.

LONG-TERM FINANCIAL PLANNING

In late 2015, the Authority embarked on a Governor-initiated, multi-million dollar turnpike expansion and improvement program known as "Driving Forward: Investing in Oklahoma's Future" (Driving Forward). The Driving Forward plan entails six major projects and, as then Governor Fallin stated, "is about ensuring safe travel, relieving congestion to shorten commutes and sustaining economic development for years to come." This program is a continuation of OTA's mission to provide customers with a choice of a safe, convenient, efficient, user-funded transportation network focusing on fiscal responsibility and promoting economic development. In support of this endeavor, the Authority issued \$1,113.2 million in Revenue Bonds during 2017 and 2018 to provide proceeds dedicated to these projects.

With the March 2020 declaration of the COVID-19 pandemic and national and gubernatorial responses to help slow the effects of the spread of the pandemic, the OTA experienced a decline in revenue and net income amounts in 2020. Staff closely monitored and adjusted revenue expectations and expenses as necessary. Revenues projections were revised to take these circumstances into consideration and a series of financial strategies were incorporated.

On July 1, 2020, the OTA issued a \$50.0 million subordinate Junior Obligation Note with DNT Asset Trust, secured by the General Fund. This transaction was structured as a line of credit which was fully drawn at closing and all proceeds were deposited into the Reserve Maintenance Fund; the Authority thereby fully funded the Trust-required Reserve Maintenance deposit for the remainder of 2020, 2021 and into 2022. This also allowed the Authority to meet its debt service ratio since the Reserve Maintenance Fund was sufficiently funded. It is the intention of the Authority to repay this loan at the end of the three-year term, or before, by issuing revenue bonds. Additionally on October 29, 2020, the Authority closed on the delivery of \$187.2 million in Series 2020A Refunding Second Senior Revenue Bonds, and \$179.2 million in Series 2020B Refunding Second Senior Revenue Bonds. These bonds were issued for the purpose of refunding the remaining Series 2011AB Bonds, as well as refunding a portion of the 2017C Bonds. The 2020A Bonds were structured as tax-exempt fixed rate "AA-" bonds, and the 2020B Bonds were structured as taxable fixed rate "AA-" bonds. The combined total all-in-cost of capital for the Series 2020AB Bonds was 1.27%.

The Authority is responsible for adopting toll rates for the System and can modify those as needed, based on consultation with and recommendation from the OTA's consulting traffic engineer. In December 2016, the Authority authorized an incremental toll increase to assist with funding the Driving Forward projects; this was the first planned toll increase since August 2009. The toll increase was implemented in three phases. The first increase became effective March 1, 2017; the second increase was effective January 3, 2018; and the third increase affected 'Non-*PIKEPASS* user' tolls and became effective July 15, 2019. Net toll revenues for 2020 totaled \$302.6 million, a decrease of 7.6% over 2019 net toll revenues of \$327.4 million related to the disruptions caused by the pandemic. Revenue projections for 2021 are estimated to be approximately \$323.7 million. Adjusted revenue projections, along with the financing activities undertaken by the Authority throughout the year, will provide the necessary funds to meet its financial commitments and continue the Authority's commitment to its asset expansion and preservation.

The Trust Agreement sets forth the proper flow of funds to be established by the OTA. Disbursements from these funds are strictly governed by the Trust Agreement and are only made in compliance with the Trust Agreement. Accordingly, based on the planned capital investments programmed in the Capital Plan, required monthly deposits to the Reserve Maintenance Fund are established during the budgeting period as required by Section 505 of the Trust Agreement; as stated above, with the issuance of the Junior Obligation Note, these requirements are fulfilled through mid-2022. Monies held in the General Fund are also allocated for certain projects of the Capital Plan. Bond proceeds held in the Construction Fund are allocated for designated projects.

The Authority continuously identifies the maintenance, rehabilitation and improvement needs of the existing Turnpike System through its Capital Plan. These needs are prioritized into a five-year maintenance and rehabilitation program designed to

keep existing turnpikes in good condition, thereby maintaining traffic flows and extending the useful life of the turnpikes. The projects included in the five-year program should significantly increase the functionality and condition of the entire Turnpike System. The Capital Plan is reviewed and updated annually during the budget process. Total funding for the Capital Plan for the years 2021-2025 is approximately \$614.5 million. This plan includes \$102.2 million for paving rehabilitation, \$61.3 million for dowel bar retrofit grinding, \$71.8 million for bridge rehabilitation, \$30.8 million in concession area redevelopment, \$39.3 million in interchanges and toll plaza improvements, \$72.0 million for other roadway improvements, \$38.0 million for *PIKEPASS* (the Authority's electronic tolling process) and toll collection related items, \$15.0 million for highway patrol related items, \$10.1 million for maintenance machinery and equipment, \$7.2 million in maintenance building improvements, \$10.0 million for various other capital projects. The remaining \$61.0 million included in the Capital Plan has been allocated for the Gilcrease Expressway (the Gilcrease) construction along with contributions from other partners.

The Consulting Engineer performed the 2020 annual inspection of the Turnpike System, as required by the Trust Agreement, and presented a report detailing information in regards to bridges, paving, drainage, lighting, signs and architectural features. This report was used to develop the OTA's 2021 Capital Plan. Total funding for the 2021 Capital Plan portion is approximately \$96.0 million, with \$75.5 million eligible to be provided by the Reserve Maintenance Fund and the remainder from the General Fund.

MAJOR INITIATIVES

Driving Forward consists of projects developed to address the critical need to reconstruct, expand and enhance the transportation system in Oklahoma. This program started as a response to growing traffic volumes and congestion which can cause significant reductions in access and mobility for the traveling public. Driving Forward's main focus is to enhance the safety of the Turnpike System by replacing aging facilities and developing new alignments to provide additional routes around Oklahoma City. Driving Forward construction projects continued to progress during 2020. The southwest extension of the John Kilpatrick Turnpike was fully opened during the second quarter of 2020. All lane restrictions on the turnpike, SH-152 and City streets were removed and opened to traffic. The Kickapoo Turnpike, when fully completed, will allow for a connection from Eastern Oklahoma County to vital intersections for travel, thus helping reduce driving time to access Tulsa from the OKC Metro and alleviate current congested traffic. In October 2020, the northern section of the Kickapoo Turnpike (from US-62 to I-44) opened to the public. Work continues on the southern portion, with an anticipated full opening in spring 2021. In addition, a construction contract has been awarded to Sherwood Construction for the next section on the Turner Turnpike. This reconstruction and widening begins at the Creek Turnpike interchange and extends east approximately 4 miles. Work is expected to begin in early 2021 and continue through spring 2022. As the Driving Forward program nears 90.0% completion at December 2020, several construction projects are in the final auditing stages.

Partnerships assist the OTA in completing needed improvements in a timely and cost efficient manner. One of OTA's primary partners is the ODOT. The OTA and the ODOT work together to maximize resources and organizational strengths to serve Oklahoma's various transportation needs. The OTA also partners with counties, cities, tribes, and other organizations to create success.

As part of the construction related to Driving Forward, agreements between the OTA and the ODOT and other municipalities have been initiated to capitalize on the mobilized construction efforts the OTA currently has in the field. Additionally, after inclusion of the Gilcrease bridge over the Arkansas River in Tulsa as a component of Driving Forward and many years of discussion between the OTA, the City of Tulsa, Tulsa County, the Indian Nations Council of Governments, the ODOT and the Federal Highway Administration, an innovative governmental partnership has been accomplished to date in the corridor and resources made available through the partnership to deliver and subsequently operate a connection between I-44 and US Highway 412. In July 2019, based on the recommendation of the designated selection committee, the Authority awarded the proposal to provide build-finance services on the Gilcrease to the AECOM/Duit Team. Construction on this project started in early 2020, with construction approximately 45.0% complete at December 2020. On May 8, 2020, the U.S. Department of Transportation and the OTA executed a Transportation Infrastructure Finance and Innovation Act (TIFIA) loan agreement of up to just over \$120.1 million. Upon achievement of substantial completion of the construction of the project, the TIFIA loan proceeds will be come available in one disbursement. Loan proceeds will be used towards the partial repayment of the project company's interim financing.

Although Driving Forward continues to be a top priority for the OTA, achieving system maintenance, rehabilitation and improvements identified in the Capital Plan is also important. Over a dozen Capital Plan projects are underway; several of these are part of the Authority's program to improve safety and pavement conditions in rural areas. Dowel bar retrofit/ grinding and cable barrier installation projects are currently underway on the H.E. Bailey, Cimarron, and Indian Nation Turnpikes. Safety and pavement conditions have been improved already for approximately 120 miles of rural turnpikes. In addition, bridge rehabilitation projects are underway on the Indian Nation and Cimarron Turnpikes. Pavement rehabilitation projects are underway on the Indian Nation and Cimarron Turnpikes. Pavement rehabilitation projects are underway on the Indian Nation and Cimarron Turnpikes. Pavement rehabilitation projects are underway on the Indian Nation and Cimarron Turnpikes. Pavement rehabilitation projects are underway on the Indian Nation and Cimarron Turnpikes. Pavement rehabilitation projects are underway on the Indian Nation and Cimarron Turnpikes. Pavement rehabilitation projects are underway on the Kilpatrick Turnpike, Also, the new eastbound Turner Turnpike service plaza located near Chandler has opened and is serving turnpike patrons. Multiple divisions from the OTA worked together to prepare for the AET conversion on the Kilpatrick Turnpike, as well as across the Turnpike System. Several divisions also worked together to identify and prioritize projects for the new 2021-2025 Capital Plan. This plan was approved by the Authority Board in December 2020. Upon approval of the Capital Plan, several new projects were identified to begin the design phase. Also, one project on the Turner Turnpike remains in design for Driving Forward.

Other major initiatives include customer safety projects. Over the last several years signing projects have been completed on the Cherokee, Cimarron, Indian Nation and Muskogee Turnpikes. The signing program is used to update regulatory, warning and information signs that are faded or have poor reflectivity. These signs are informative, aesthetically pleasing and conform to national standards. Also, in conjunction with the ODOT, dynamic message signs have been erected. Dynamic message signs are permanent, changeable message structures that provide notice to the motoring public of roadway conditions and potential hazards affecting public safety, such as roadway and lane closures, accidents, snow and ice conditions and roadway obstructions. Positive barrier projects have been completed on the Cimarron, Creek, H. E. Bailey, Indian Nation and John Kilpatrick Turnpikes; additional projects to protect the traveling public are scheduled within the next five years.

The OTA Maintenance Division, supplemented by inmate labor and contractors, provides a vital role for the Turnpike System. Maintenance crews perform roadway, bridge, right-of-way, architectural and accident repairs throughout the Turnpike System. Right-of-way projects include fence, drainage and slope repairs, as well as herbicide treatment, mowing and planting of wildflowers and trees. Maintenance crews are always ready, prepared and work tirelessly to clear the Turnpike System when winter weather arrives.

The OTA provides a special convenience through its *PIKEPASS* system for travelers desiring free-flow travel. The *PIKEPASS* system is the OTA's automated electronic toll collection system which allows customers to travel at highway speeds through designated lanes without stopping to pay tolls. A *PIKEPASS* transponder is applied to the windshield of the customer's vehicle. The transponder emits a radio frequency that is recognized by a positioned reader, and data is captured and transmitted via the electronic toll collection system. The information is then translated into the appropriate toll collection transactions for each customer's individual account. The electronic *PIKEPASS* system eases congestion around the plazas, improves safety and enhances driver satisfaction. *PIKEPASS* customers enjoy a 5.0% average savings off the cash toll price for using their transponders and are eligible for an additional 5.0% reward for participating in the volume discount program with 20 or more qualifying toll transactions in a month. The discount is calculated for each transponder independently, and the account must remain positive for discounts to apply.

Also to assist customers, *PIKEPASS* Online services are available that range from applying for a *PIKEPASS* account to managing an account. *PIKEPASS* customers may pay their accounts online by credit or debit card through the *PIKEPASS* Online system. In addition to providing the *PIKEPASS* Online service, the OTA maintains a full service customer service call center and stores located in Oklahoma City, Tulsa and Walters, as well as a mobile store which regularly services remote locations. The OTA also maintains another full service *PIKEPASS* store within the Tourism Information Center in Oklahoma City, as part of a continued partnership with the Department of Tourism.

Another special convenience the OTA provides for travelers is its AET system "PlatePay", the license plate tolling system at the Peoria-Elm ramps and Jenks interchanges on the Creek Turnpike. For this sole location, toll gates are cashless; if a traveler does not have a *PIKEPASS*, a scanner will read the vehicle's license plate, and an invoice will be sent. During late 2019, OTA's Information Technology (IT) Division led a collaborative effort to successfully migrate to in-house the PlatePay process from a third-party service provider. Expansion of this AET system is anticipated for the John Kilpatrick Turnpike in mid-2021.

To assist in achieving interoperability and advance to the next level of technology, the Turnpike System utilizes Encompass 6 transponder readers, which have multi-protocol functionality. The OTA is currently interoperable with six partners: the Kansas Turnpike Authority (KTA), the North Texas Tollway Authority (NTTA), the Texas Department of Transportation (TxDOT), the Harris County Toll Road Authority (HCTRA), the Central Texas Regional Mobility Authority (CTRMA) and the Fort Bend County Toll Road Authority (Ft. Bend). Through interoperability, an OTA customer can use a *PIKEPASS* transponder on toll roads, bridges and tunnels on its partners' systems. Conversely, a customer from a partner agency could use their agency's respective transponder on all eleven turnpikes throughout Oklahoma. The OTA is in continued discussions with other tolling entities to determine strategies for achieving further national interoperability. Providing first class customer service is of utmost importance to the OTA for all of its customers.

AWARDS AND ACKNOWLEDGMENTS

The OTA is a proud sponsor of Keep Oklahoma Beautiful (KOB). For the fifth consecutive year, the OTA and the ODOT earned the Keep America Beautiful 2020 National Award in the State Agency Partnership category. With combined efforts across the State, and participation in all 77 Oklahoma counties, Oklahoma joined a national effort in the 2020 "Great American Clean Up." The OTA and the ODOT were nominated by KOB for their partnership in assisting with the supplies, publicity and volunteers for this effort. The OTA and the KOB partnership has made it possible for this statewide nonprofit organization to be recognized nationally for being one of a few states to have had 100.0% county participation in the Great American Clean Up, and the only state to do it for eleven consecutive years.

Early 2021, the OTA was a recipient of one construction award. The American Concrete Pavement Association presented the OTA with a silver award for the National Award for Excellence in Concrete Pavement" for the I-40 and John Kilpatrick Turnpike Extension project; Duit Construction was OTA's contractor.

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the OTA for its comprehensive financial annual report for the year ended December 31, 2019. In order to be awarded a Certificate of Achievement, the governmental unit must publish an easily readable and efficiently organized Annual Report conforming to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. The OTA has received this prestigious award since 1990. The OTA believes that its current comprehensive annual financial report continues to meet the Certificate of Achievement Program requirements and will be submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report would not have been possible without the efficient and dedicated efforts given by the Controller Division staff who prepared the report and graphic design assistance from the Information Technology staff. Appreciation is also due the OTA's management staff for their professional contributions to this report and to the OTA's independent auditors for their participation in the review of this report. Special appreciation is extended to Governor Stitt and the Authority Members. Support of the Authority's efforts to excel in the operational and financial management of the OTA is sincerely appreciated.

Respectfully submitted,

THE OKLAHOMA TURNPIKE AUTHORITY

Independent Auditor's Report

Members Oklahoma Turnpike Authority Oklahoma City, Oklahoma

Report on the Financial Statements

We have audited the accompanying financial statements of the Oklahoma Turnpike Authority (the Authority), a component unit of the State of Oklahoma, as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements, as listed in the table of contents

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Authority as of December 31, 2020, and the changes in its financial position and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Prior Year Audited by Other Auditors

The 2019 financial statements of the Authority were audited by other auditors, and their report thereon, dated March 31, 2020, expressed an unmodified opinion

Members Oklahoma Turnpike Authority

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis, pension information, and OPEB information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Authority's basic financial statements. The introductory section, schedule of budget compared to actual operating expense, schedule of annual debt service requirements, and the statistical section, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The schedule of budget compared to actual operating expense and schedule of annual debt service requirements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of budget compared to actual operating expense and schedule of annual debt service requirements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section and the statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we also have issued our report dated March 30, 2021, on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Authority's internal control over financial reporting and compliance.

Tulsa, Oklahoma March 30, 2021

MANAGEMENT'S DISCUSSION AND ANALYSIS YEARS ENDED DECEMBER 31, 2020 AND 2019

This section of the Oklahoma Turnpike Authority's the years 2020-2022 were decreased. Residual funds (OTA) annual financial report presents management's discussion and analysis of its financial performance during the fiscal years ended December 31, 2020 and 2019. Please read it in conjunction with the transmittal letter in the Introductory Section and the OTA's financial statements, as a whole.

OVERVIEW OF THE FINANCIAL STATEMENTS

The financial section of this report consists of three parts: management's discussion and analysis, the basic financial statements with the notes to the financial statements and other supplementary information. The OTA's financial statements are prepared in conformity with accounting principles generally accepted in the United States of America as applied to government units on an accrual basis. The OTA reports all assets and liabilities of the Authority. Additionally, revenues and expenses are recognized in the period earned or incurred, which includes depreciation. The OTA's Financial Statements provide information about the OTA's overall financial status. The Notes to Financial Statements include explanation for certain items. Other supplementary information provides further required details.

The OTA's Trust Agreement (the Trust) defines the flow of funds and establishes various unrestricted and restricted accounts. These accounts are referred to as "Funds" for discussion purposes but are consolidated for enterprise fund financial statement presentation. The Revenue Fund provides for the general operations of the Turnpike System and is directly impacted by fluctuations in operating results. The monies held in restricted accounts are held for specific purposes. A monthly transfer is made to the Reserve Maintenance Fund from revenues to fund budgeted Capital Plan projects. The required Reserve Maintenance Fund deposit is established by the Consulting Engineer during the annual review and evaluation of the Turnpike System. Based on the System improvements identified by the Consulting Engineer to be necessary in the next few years, the required necessary annual deposits for

not needed for other required purposes are transferred to the General Fund to be utilized as programmed.

In late 2015, the Authority embarked on a Governorinitiated, multi-million dollar turnpike expansion and improvement program known as "Driving Forward Investing in Oklahoma's Future" (Driving Forward). Driving Forward was characterized as "ensuring safe travel, relieving congestion to shorten commutes and sustaining economic development for years to come.' Driving Forward projects include reconstruction projects for the Muskogee, H.E. Bailey and Turner Turnpikes, as well as capacity expansion for the Turner Turnpike, a new alignment from I-40 to the Turner Turnpike designated the Kickapoo Turnpike, a southwest extension for the John Kilpatrick Turnpike and a new west extension of the Gilcrease Expressway (the Gilcrease) in Tulsa. In support of this endeavor, in 2017 and 2018 the Authority issued \$1,113.2 million in Revenue Bonds to provide proceeds dedicated to the construction of these projects on the Turnpike System. The Gilcrease fulfills a critical transportation need in western Tulsa and is being separately funded through an innovative partnership to leverage available resources. Partners include the Oklahoma Department of Transportation (the ODOT), municipalities and governmental entities, the U.S. Department of Transportation, and Gilcrease Developers LLC (a competitively selected build-finance partner).

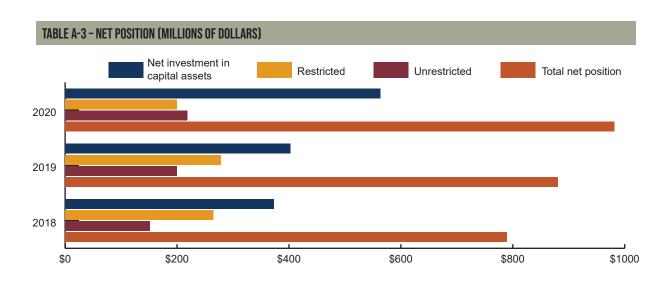

To help fund Driving Forward debt service, an incremental toll increase was authorized in December 2016. The first phase occurred in March 2017 to provide an approximate 12.0% increase. The second phase increase of 2.5% became effective in January 2018. The third phase of the increase became effective mid-2019 for 'non-PIKEPASS' tolls.

In March 2020, the Word Health Organization (WHO) declared the outbreak of the COVID-19 virus to be a pandemic. Due to the globalization in recent years, this outbreak and the resulting national and gubernatorial responses created a global economic disruption. Locally, a 'Safer at Home' order was issued for individuals over 65 or considered vulnerable, gatherings were limited to no more than 10, non-critical businesses were closed, school districts modified their education programs to provide distance learning and telework was emphasized when possible. A variety of precautions were implemented to allow staff to safely continue to offer essential services. With this significant disruption in traffic and revenue, staff closely monitored and adjusted revenue expectations and expenses as necessary.

FINANCIAL ANALYSIS

NET POSITION

The Statements of Net Position report the OTA's net position and how it has changed. Net position is the difference between the OTA's assets and deferred outflows and its liabilities and deferred inflows. Total net position is one way to measure the OTA's financial health or position. Over time, increases or decreases in net position can serve as one indicator of whether the financial position is improving or deteriorating. As shown in Table A-1, the OTA's net position continues to increase, despite the negative impact to traffic and revenues following the global pandemic declaration by the WHO. The OTA's total net position at December 31, 2020 increased \$101.3 million to approximately \$981.9 million, as compared to \$880.6 million at December 31, 2019; net position was \$789.8 million at December 31, 2018.

In order to address decreased traffic and its impact on revenue and cash flows, the OTA embarked on a series of transactions to help counter-balance this shortfall. On July 1, 2020 the Authority closed on a Junior Obligation Note with DNT Asset Trust in the amount of \$50.0 million. The full line was drawn at closing and deposited in the Reserve Maintenance Fund, thereby satisfying the Trust-required annual deposit for the remainder of 2020, 2021 and into the following year. Also, in October 2020, the Authority issued an additional Series 2020A and 2020B to fund the defeasance of the Series 2011AB and portions of the Series 2017C Bonds. This adjusted the annual debt service requirements due January 1,

2021 and decreased the Trust-required deposits to be funded from revenues. Any amounts in excess of required deposits were then transferred to the General Fund in accordance with the Trust. The 'Unrestricted' net position has increased \$19.0 million when compared to December 31, 2019. The Unrestricted category includes current and other assets less current liabilities.

Monies held in the Revenue and General Funds totaled approximately \$204.6 million at December 31, 2020, as compared to \$186.1 million and \$161.0 million at the close of 2019 and 2018, respectively. This fluctuation is also impacted by the changes in various contract receivables and payables associated with the joint construction projects the OTA has with the ODOT and other municipalities for various Driving Forward projects. The OTA is managing the construction contracts associated with these affiliated Driving Forward projects, with other governmental entities responsible for portions of these costs. If funds are received prior to completion of the project, those receipts are reflected as a liability in current accounts payable and accrued expenses; the liability is reduced as construction progresses.

The OTA has steadily demonstrated its commitment to preservation of and investment in the Turnpike System through its funding of the Reserve Maintenance and General Funds through revenues, and when necessary, the issuance of Second Senior Revenue Bonds to fund certain improvement projects. Reserve Maintenance deposits typically occur monthly to meet annual funding requirements established by the OTA's Consulting Engineer. These monies must be utilized for capital improvements on the Turnpike System. Project outflows

do not always occur in the same year the deposits are made. As previously noted, based on the System improvements identified by the Consulting Engineer to be necessary in the next few years, the required Reserve Maintenance deposits for the years 2020-2022 were decreased. This adjustment was a reflection of the capital investment the OTA routinely also makes from its General Fund account, which is an unrestricted fund. As noted previously, residual funds not needed for other required purposes are transferred to the General Fund. The General Fund monies are then utilized for programmed projects, determined annually through the budgeting process.

Another portion of the change in total net position is reflected in the 'Restricted' category, which is comprised of the monies restricted for debt service and reserve maintenance. Total 'Restricted' has decreased approximately \$78.6 million as compared to 2019 and \$65.1 million when compared to 2018 due to the issuance of the Series 2020AB Bonds which impacted annual debt service requirements due January 1, 2021.

The 'Net investment in capital assets' category increased by \$160.9 million when compared to December 31, 2019, and similarly reflected a \$190.5 million increase when compared to December 31, 2018. These increases are related to the various activities associated with the Driving Forward projects.

CHANGES IN NET POSITION

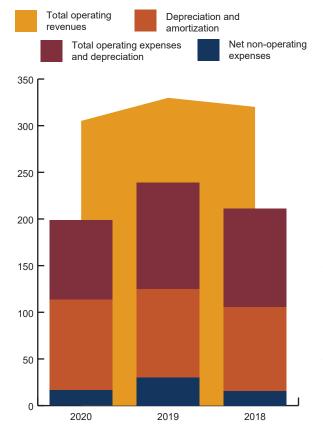

As depicted in Table A-2, the OTA's total operating revenues at December 31, 2020, were approximately \$305.2 million, 7.5% and 4.7% decreases when compared to revenues of \$329.8 million and \$320.1 million for 2019 and 2018, respectively. Year-to-date toll revenues reported just over revised 2020 projections of \$302.6 million. Total toll transactions for 2020 reported just above 166.0 million, a decrease compared to 186.2 million and 183.9 million transactions for 2019 and 2018. Due to the national and local responses to the COVID-19 pandemic, passenger traffic declined as many employees transitioned to remote work, and limited discretionary travel in efforts to reduce the spread of the pandemic. However, due to the continued need to ship medical supplies and groceries, as well as the increased shift towards on-line purchasing and shipping activities of the average consumer, commercial traffic continued to be robust during the COVID-19 pandemic.

In 2020, the OTA derived almost 41.1% of its revenues from the commercial sector.

The OTA is fully interoperable with all tolling entities participating in the Central United States Interoperability HUB (the HUB). Current interoperable partners include the Kansas Turnpike Authority and the following partners in Texas: the North Texas Tollway Authority, the Central Texas Regional Mobility Authority (CTRMA), Ft. Bend County Toll Road Authority (Ft. Bend), Texas Department of Transportation, and Harris County Toll Road Authority. Interoperability allows customers with a PIKEPASS transponder to travel on these other interoperable toll systems. Conversely, customers with eligible transponders from interoperable partners can travel the OTA Turnpike System; CTRMA and Ft. Bend do not issue transponders, and as such, do not have customers traveling on the OTA Turnpike System. Total revenues derived from interoperability for 2020 comprised approximately \$14.1 million, or 4.7%, of the \$302.6 million of toll revenues. Interoperable transactions have reflected a steady growth rate since the original implementation in late 2014. For 2020, interoperable transactions totaled 5.6 million. or 3.4%. of 166.1 million total transactions. As the number of PIKEPASS customers using the Turnpike System grows, there is a similar impact on interoperability.

The total change in net position for 2020 is \$101.3 million, compared to the \$90.8 total change for 2019. The current year increase in the change in net position results from the reflection of net non-operating revenues of \$16.5 million as compared to net non-operating expenses of \$30.2 million and \$15.6 million in 2019 and 2018, respectively. The current year net non-operating revenues derive from the decrease in interest expense, resulting from the previously discussed issuance of the Series 2020AB Bonds, along with the \$30.0 million increase in 'Contributed revenue.' As previously noted, one of the partners in the innovative funding partnership to finance and construct the Gilcrease is the ODOT. In May 2018, the ODOT issued Grant Anticipation Revenue Vehicle (GARVEE) bonds of \$71.4 million as a funding source for the Gilcrease construction.

TABLE A-4 – CHANGES IN NET POSITION (MILLIONS OF DOLLARS)

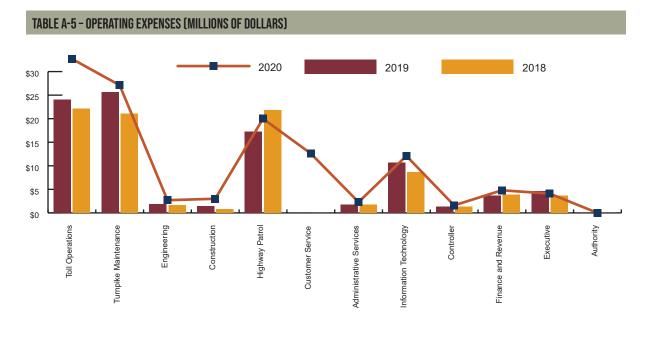

These GARVEE bonds do not constitute indebtedness of the Authority and as such, are not reflected on the Statements of Net Position. These bond proceeds are dedicated as funding for qualified costs incurred by the

OTA for the Gilcrease. GARVEE proceeds utilized by the OTA are reflected as 'Contributed revenue' on the Statements of Revenues, Expenses and Changes in Net Position.

In addition to reduced traffic and revenue, the OTA also reported operating expenses of \$123.0 million for 2020, an increase as compared to total operating expenses of \$114.5 million for 2019 and \$105.9 million for 2018, respectively. A portion of the 2020 operating costs were associated with the organization-wide efforts taken to help reduce the potential threat posed by COVID-19, adhere to social distancing policies and provide a safe environment for the traveling public and those employees and troopers performing essential functions. Incorporated strategies included implementing widespread telework practices, staggering work shifts to avoid large gatherings, providing additional cleaning supplies and services and requiring mandatory protective gloves and masks when interacting with each other and the public. The total cost associated with these additional measures was approximately \$0.9 million.

In order to maintain trooper staffing levels assigned to the Turnpike System, the OTA provided funding for trooper cadet school for the years 2020, 2018, and 2016. This is reflected in the increase in 2020 Highway Patrol operating expenses of approximately \$2.8 million compared with 2019 and a decrease in 2019 of approximately \$4.6 million from 2018.

Toll Operations operating expenses for 2020 increased to approximately \$32.7 million when compared to \$24.0 million and \$22.1 million for 2019 and 2018, respectively. This increase corresponds to the rate increase for toll collection system maintenance costs and increased costs to refurbish toll equipment and install additional safety measures in locations along the Turnpike System. The most notable factor to the increase in Toll Operations expense was the reclassification of certain back-office contract management functions from the Customer Service Division to the Toll Operations Division. This corresponding decrease is reflected in the approximate \$9.8 million decrease in Customer Service Division operating expenses to \$12.5 million for 2020. Another factor in this decrease is the transition to internal processing for PlatePay transactions in late 2019.

Information Technology (IT) operating expenses continue to steadily increase with 2020 increasing to approximately \$12.1 million compared with \$10.7 million and \$8.7 million in 2019 and 2018, respectively. The increase in Information Technology is comprised of costs associated with fiber renovations on the System, as well as certain non-capitalizable equipment necessary to assist the organization in incorporating widespread telework practices to help reduce the potential spread of COVID-19 and meet social distancing policies. Additionally, IT continues its initiative to upgrade and improve the network infrastructure. This upgrade is ongoing and will provide the organization with more current infrastructure and allow for improved efficiencies in current and future processing. This also helps to better manage system vulnerabilities from the risk of exposure to external factors for both the production data center and the disaster recovery location.

The largest increase in net capital assets is reflected in going and will provide the organization with more current CWIP, increasing to \$1,110.4 million from \$888.5 million infrastructure and allow for improved efficiencies in and \$557.7 million in 2019 and 2018, respectively. The Driving Forward program consisted of \$824.6 current and future processing. This also helps to better manage system vulnerabilities from the risk of exposure million capacity improvements and new expansions in to external factors for both the production data center progress along the Turner, John Kilpatrick and Kickapoo Turnpikes and \$107.5 million for the Gilcrease. This is an increase over 2019 combined Driving Forward CWIP The increase in Finance and Revenue operating costs outlays of \$174.0 million. The OTA is also improving maintenance facilities across the Turnpike System, results from the issuing costs associated with the Series 2020AB Bonds. These costs are appropriately some of which are jointly shared with the operations categorized as period costs. of the Highway Patrol, as well as performing several pavement reconstruction and rehabilitation projects across the Turnpike System.

CAPITAL ASSETS AND DEBT ADMINISTRATION

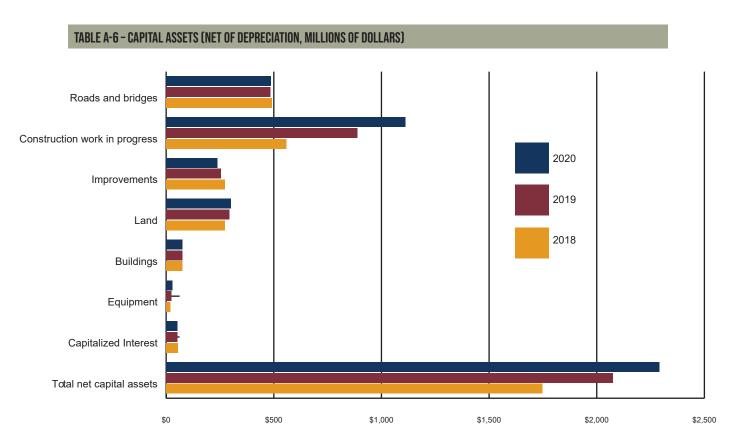

CAPITAL ASSETS

The OTA has invested approximately \$4,327.0 million and \$4,014.6 million in capital assets as of

December 31, 2020 and 2019, respectively. The primary components of depreciable capital assets include 'Roads and Bridges' and 'Improvements'; nondepreciable components include 'CWIP' and 'Land'. In 2020, accumulated depreciation and amortization on capital assets increased to \$2,036.0 million, a 5.0% increase as compared to the 2019 balance of \$1,939.2 million. This is the result of the capitalization of several projects in the 'Roads and Bridges', 'Improvements' and 'Buildings' categories.

in At December 31, 2020 and 2019, net capital assets
were \$2,291.0 million and \$2,075.4 million, an
increase of 10.4%. When comparing end of year 2020
to December 31, 2018, net capital assets increased
31.2%. Net capital assets at the close of 2018 were
\$1,746.8 (see Table A-6).

Capital assets include those associated with Driving Forward and the planned projects in the Capital Plan. At December 31, 2020, numerous projects were in progress across the Turnpike System, funded as appropriate for each project by the Reserve Maintenance, General and Construction Funds. The Construction Funds are associated with proceeds from the Series 2017 and 2018 Bonds related to Driving Forward. The increases in non-depreciable capital assets also result from 5. Driving Forward.

Approximately \$77.9 million in capital projects were transferred from CWIP to other asset categories. Approximately \$40.7 million of this transfer increased the 'Roads and Bridges' category as the result of the capitalization of the projects completed on the Indian Nation Turnpike and Driving Forward projects on the Kickapoo and Turner Turnpikes. In the 'Improvements' category, approximately \$23.2 million were capitalized from CWIP. A significant portion of this increase was the result of grading and drainage on the Kickapoo Turnpike. These 'Improvements' additions were offset by annual depreciation of \$40.5 million.

In the 'Roads and Bridges' category, in 2018, additions of \$59.2 million were capitalized, \$39.7 million of which was the Driving Forward pavement reconstruction on the Muskogee Turnpike. For years 2020 to 2018, annual depreciation of \$38.9 million, \$37.3 million and \$35.5 million, respectively offset the previous year's additions.

Capital assets were also significantly affected by continued purchases of additional right-of-way in 2020; the OTA began purchasing property in 2015 to plan for the construction of the Driving Forward projects. By the close of 2020, the 'Land' category had increased approximately \$4.9 million over 2019. In 2019, land purchases exceeded 2018 balances by approximately \$20.6 million. Accordingly, in total, since 2018, 'Land'

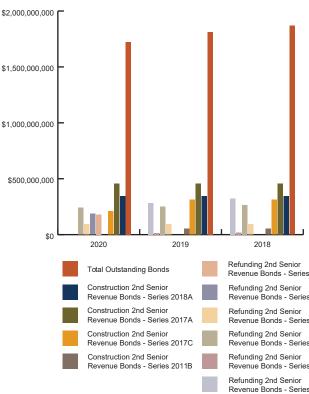

values have increased approximately \$25.5 million. Additional acquisitions are planned through 2021 to secure all necessary parcels for the planned construction.

Prior to the implementation of GASB 89, the Authority allocated and accumulated capitalized interest for constructed assets. When a project is closed, the capitalized interest associated with the project is also capitalized. The balance of interest cost in CWIP decreased to \$40.9 million in 2020 from \$44.7 million in 2019 as a result of the capitalization of qualifying projects. The amortization expense associated with 'Capitalized interest' was \$5.0 million, \$4.9 million and \$4.7 million for 2020, 2019, and 2018, respectively. For additional information regarding the OTA's capital assets, please see the notes to the financial statements on pages 33 and 42 of this report.

DEBT ADMINISTRATION

Turnpike bond sales must be approved by the Council of Bond Oversight and must comply with rules and regulations of the U.S. Treasury Department and the U.S. Securities and Exchange Commission. At December 31, 2020 the OTA's noncurrent long-term debt includes revenue bonds payable, a subordinated Junior Obligation Note and a payable to the ODOT. The OTA had approximately \$1,721.2 million in revenue bondsstructured as tax-exempt fixed rate "AA-" bonds and theoutstanding at December 31, 2020. All of the OTA's2020B Bonds were structured as taxable fixed rate "AA-"bonds are fixed rate bonds, insured and rated Aa3 bybonds. The combined total all-in-cost of capital for theMoody's Investors Service, and AA- by both Fitch Ratingsseries 2020AB Bonds was 1.27%.and Standard and Poor's Rating Service with a stableOn October 31, 2018, the OTA closed on the delivery of31, 2020 and 2019 was approximately \$53.8 million and\$344.3 million in Series 2018A Second Senior Revenue\$53.1 million, respectively.Bonds. The Series 2018A Bonds were issued to finance

TABLE A-7 - OUTSTANDING BONDS (MILLIONS OF DOLLARS)

Revenue Bonds - Series 2020P , Bonds - Series 2020A ue Bonds - Series 2017E Bonds - Series 2017D ue Bonds - Series 2017B Refunding 2nd Senior Revenue Bonds - Series 2011A As noted previously, the OTA incorporated certain financial strategies in 2020 to address declining revenues resulting from the effects of the pandemic. On July 1, 2020 the Authority closed on a Junior Obligation Note with DNT Asset Trust in the amount of \$50.0 million. The full line was drawn at closing and deposited in the Reserve Maintenance Fund, thereby satisfying the Trust-required annual deposit for the remainder of 2020, 2021 and into the following year. This subordinate debt is secured by the credit of the OTA's General Fund. On October 29, 2020, the Authority closed on the delivery

On October 29, 2020, the Authority closed on the delivery of \$187.2 million in Series 2020A Refunding Second Senior Revenue Bonds, and \$179.2 million in Series 2020B Refunding Second Senior Revenue Bonds. These bonds were issued for the purpose of refunding the remaining Series 2011AB Bonds, as well as refunding a portion of the 2017C Bonds. The 2020A Bonds were

On October 31, 2018, the OTA closed on the delivery of \$344.3 million in Series 2018A Second Senior Revenue Bonds. The Series 2018A Bonds were issued to finance a portion of the capital costs of certain Turnpike projects and improvements. These bonds were structured as taxexempt fixed rate "AA-" bonds. The OTA's total all-in-cost of capital for this transaction was just over 4.15%.

On February 8, 2017, the OTA closed on the delivery of \$456.1 million in Series 2017A Second Senior Revenue Bonds and \$23.9 million in Series 2017B Second Senior Refunding Revenue Bonds. The Series 2017A&B Bonds were issued to finance a portion of the capital costs of certain Turnpike projects and improvements and to refund the Series 2007A bonds. These bonds were structured as tax-exempt fixed rate "AA-" bonds. The net present value savings recognized through the refunding was approximately \$1.5 million. The OTA's total all-incost of capital for this transaction was just under 4.0%.

On December 21, 2017, the OTA closed on the delivery of \$312.8 million in Series 2017C Second Senior Revenue Bonds, \$275.7 million in Series 2017D and \$95.8 million in Series 2017E Second Senior Refunding Revenue Bonds. The Series 2017CDE Bonds were issued to finance a portion of the capital costs of certain Turnpike projects and improvements, to refund the Series 2006BEF Bonds and terminate the associated 2006 Swaps and to partially refund the Series 2011B Bonds. These bonds were structured as tax-exempt fixed rate "AA-" bonds. The combined net present value savings recognized through the refunding was approximately \$9.4 million. The OTA's total all-in-cost of capital for this transaction was just over 3.75%.

The OTA previously had other long-term debt to fund a portion of the revenue bond reserve requirement. In conjunction with the terms of the loan agreement with US Bank, the proceeds from this transaction were invested in a US Bank certificate of deposit. In conjunction with the issuance of the Series 2020AB Bonds, the revenue bond reserve requirement was funded in its entirety, and in December 2020, the loan to US Bank was paid in full. On May 8, 2020, the U.S. Department of Transportation and the OTA executed a Transportation Infrastructure Finance and Innovation Act (TIFIA) loan agreement of up to just over \$120.1 million. No proceeds have been currently disbursed from this loan. Upon achievement of substantial completion of the construction of the project by Gilcrease Developers LLC (the Project Company), the TIFIA loan proceeds will become available in one disbursement. Loan proceeds will be used towards the partial repayment of the Project Company's interim financing. Construction on the Gilcrease Expressway began on February 1, 2020 and is expected to be completed in mid-2022.

For more detailed information on the OTA's long-term debt activity, please refer to the notes to the financial statements on pages 53-56.

ECONOMIC FACTORS AND NEXT Year's Budget

According to the "Oklahoma Economic Report," released by Oklahoma State Treasurer on January 8, 2021, revenue collections from all sources fell 3.8% in 2020 in comparison to 2019. The report stated that the Oklahoma economy fell almost 4.0% during the calendar year of 2020; this is due primarily to the decrease in gross production tax on oil and gas, which dropped 40.0% in the current year. The corporate income tax and use tax on out-of-state purchases, which were up by 15.0% and 10.0%, respectively, helped offset the loss of revenue from the oil and gas industry. Revenue from individual income, sales and use, along with motor vehicle taxes, remained flat for the year. Since the OTA does not receive appropriations, the OTA is not directly affected by the state budget fluctuations.

As a result of the pandemic, the Oklahoma unemployment rate was 5.3% in 2020, according to the U.S. Bureau of Labor Statistics. This was up from the Oklahoma unemployment rate of 3.4% in 2019. The U.S. unemployment rate was 6.7 % in 2020, which was up from 3.9% from 2019.

Per the Federal Reserve newsletter issued on January 19, 2021, during the Federal Open Market Committee (FOMC) and the Federal Reserve Bank board meeting, "the FOMC decided to leave the federal fund range rate unchanged at 0 to .25%, effective January 28, 2021." In addition, as reported in the Discount Rate Minutes from federalreserve.gov, "the Board approved maintaining the interest rate (0.10%) paid on required and excess reserve balances, effective January 28, 2021". Furthermore, the Board also "approved the establishment of the interest rate on discounts and advances made under the primary credit program at the existing level of 0.25%."

As noted previously, public response to adhere to social distancing policies and help slow the spread of the pandemic impacted the OTA's total traffic and revenue for 2020. Total toll transactions for 2020 decreased with reported transactions of 166.1 million, a 10.8% decrease when compared to 186.2 million in 2019. Year-to-date net toll revenues for 2020 were approximately \$302.6 million, a decrease of 7.6% when compared to the previous year of \$327.4 million and a 4.75% decrease when compared to 2018 net toll revenues of \$317.7 million.

With these economic conditions in mind, the Authority's 2021 Annual Budget, adopted by the Authority in December 2020, includes approximately \$109.5 million for the Operating and Maintenance budget and \$130.8 million for the 2021 Capital Plan projects funded through the Reserve Maintenance Fund and General Fund budgets. The OTA's 2021 Annual Budget reflects the Authority's commitment to customer safety and responsiveness to both current economic conditions and customer expectations.

CONTACTING THE OTA'S FINANCIAL MANAGEMENT

This financial report is designed to provide OTA's bondholders, customers and other interested parties with a general overview of the OTA's finances and to demonstrate the OTA's accountability for the money it receives. Questions about this report or requests for additional financial information should be addressed to the Oklahoma Turnpike Authority's Controller Division, P. O. Box 11357, Oklahoma City, OK 73136-0357.

NOTES TO FINANCIAL STATEMENTS, YEARS ENDED DECEMBER 31, 2020 AND 2019

NOTE 1. NATURE OF THE **ORGANIZATION AND SUMMARY OF** SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Oklahoma Turnpike Authority (the Authority), have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Authority has adopted the pronouncements of the Governmental Accounting Standards Board (GASB), which is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Authority's accounting policies are described below:

A. REPORTING ENTITY

The Oklahoma Turnpike Authority is an instrumentality of the State of Oklahoma (the State) and a body corporate and politic created by statute in 1947. The Authority is authorized to construct, maintain, repair, and operate turnpike projects at locations authorized by the Legislature of the State of Oklahoma and approved by the State Department of Transportation. The Authority receives its revenues from turnpike tolls and a percentage of the turnpike concession sales. The Authority may issue Turnpike Revenue Bonds for the purpose of paying the costs of turnpike projects and Turnpike Revenue Refunding Bonds for the purpose of refunding any bonds of the Authority then outstanding. Turnpike Revenue Bonds are payable solely from the tolls and other revenues of the Authority and do not constitute indebtedness of the State.

The Authority is a discretely presented component unit of the State and is presented with other entities to comprise the Major Component Units of the State. The Authority's governing body consists of the Governor (ex-officio) and six members who are appointed by the Governor, by and with the consent of the State Senate. The Governor may remove any member of the Authority.

at any time, with or without cause. The members are appointed to represent defined geographical districts and to serve without pay for terms of eight years. The Authority has full control over all operations, but must comply with certain bond indentures and Trust Agreements. The Authority employs an Executive Director to manage the day-to-day operations.

In evaluating how to define the Authority, for financial reporting purposes, management has determined that there are no entities over which the Authority exercises significant influence. Significant influence or accountability is based primarily on operational or financial relationships with the Authority. Since the Authority does not exercise significant influence or accountability over other entities, it has no component units

B. BASIS OF ACCOUNTING

The operations of the Authority are accounted for as an enterprise fund on an accrual basis in order to recognize the flow of economic resources. Under this basis, revenues are recognized in the period in which they are earned, expenses are recognized in the period in which they are incurred, depreciation of assets is recognized, and all assets and liabilities associated with the operation of the Authority are included in the Statements of Net Position. The principal revenues of the Authority are toll revenues received from customers. Deposits of prepayments from PIKEPASS customers are recorded as unearned revenue on the Statements of Net Position and are recognized as toll revenue when earned. The Authority also recognizes as operating revenue the rental fees received from concessionaires from operating leases on concession property. Operating expenses for the Authority include the costs of operating the turnpikes, administrative expenses. and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The prevailing Trust Agreement dated February 1, 1989 and all supplements thereto (the Trust Agreement)

with GAAP. See additional information regarding legal require that the Authority adopt generally accepted compliance for budgets in Note 2. accounting principles for government entities, but it also requires that certain funds and accounts be established E. CASH, CASH EQUIVALENTS AND and maintained. The Authority consolidates these **INVESTMENTS** funds and accounts for the purpose of enterprise fund presentation in its external financial statements.

Cash includes amounts in demand deposits. Cash C. CHANGES IN ACCOUNTING equivalents include all highly liquid deposits with an original maturity of three months or less when The Authority adopted the provisions of Governmental purchased. These deposits are fully collateralized or Accounting Standards Board (GASB) Statement No. 88 covered by federal deposit insurance. The carrying "Certain Disclosures Related to Debt, including Direct amount of the investments is fair value. The net Borrowings and Direct Placements" (GASB 88) for the change in fair value of investments is recorded on the year ended December 31, 2020. GASB 88 establishes Statements of Revenues, Expenses and Changes in standards for certain debt disclosures to be included Net Position and includes the unrealized and realized in the notes to the financials. See 'Direct Borrowings' gains and losses on investments. included in Note 4 for the essential information required F. INVENTORY with the implementation of GASB 88.

The Authority adopted the provisions of GASB Statement No. 89 "Accounting for Interest Cost Incurred before the End of a Construction Period" (GASB 89) for the year ended December 31, 2019. GASB 89 establishes standards for interest cost incurred before the end of a construction period. With the implementation of GASB 89, interest costs incurred before the end of a construction period are recognized as an expense in the period in which the cost is incurred. Prior capitalized amounts are not required to be written off and will continue to amortize naturally. Implementation of GASB 89 as of January 1, 2019 resulted in a \$42.1 million increase of interest expense.

Certain proceeds of the Turnpike Revenue Bonds are D. BUDGET restricted by applicable bond covenants for construction or set aside as reserves to ensure repayment of the Operating budgets are adopted on a modified accrual bonds. Certain assets advanced to the Authority (non-GAAP) basis for Revenue Fund expenses, monthly from motor fuel excise taxes are restricted in Reserve Maintenance Fund deposits and General Fund accordance with the Trust Agreement for the purpose project expenses. Project-length financial plans are of paying debt interest and principal if other available established for all Reserve Maintenance and General sources are not sufficient (see Note 5). Also, certain Fund projects and for all new construction projects. All other assets are accumulated and restricted on a non-project related, unexpended budget amounts lapse monthly basis in accordance with the Trust Agreement at calendar year end. Expenses are recognized in the for the purpose of paying debt interest and principal period in which they are paid rather than the period in payments that are due on a semi-annual and annual which they are incurred for budgetary control purposes. basis, respectively, and for the purpose of maintaining the reserve funds at the required levels. Payments from Depreciation is not recognized as an expense, but capital these restricted accounts are strictly governed by the outlays are recognized as expenses for budgetary control purposes. These expenses are reclassified for Trust Agreement and are only made in compliance with the purpose of preparing financial reports in accordance the Trust Agreement. Limited types of expenses may be

Inventories of PIKEPASS transponders are valued using the first-in-first-out cost method. These inventories are charged to expense during the period in which they are consumed (provided to customers), in accordance with the consumption method.

Inventories of turnpike maintenance materials and supplies are valued using the average cost method. These inventories are charged to expense in the period in which the maintenance or repair occurs.

G. RESTRICTED ASSETS

funded from these restricted accounts. When funds are not sufficiently available in these restricted accounts, or if expenses do not meet these standards, expenses are funded from unrestricted accounts. The funds and accounts are established as follows:

- » The "Senior Bond Interest and Sinking Accounts" are established as sinking funds for the payment of interest and principal of the senior lien revenue bonds.
- The "Subordinate Bond Interest and Sinking Accounts" are established as sinking funds for the payment of interest and principal of the subordinate lien revenue bonds.
- » The "Senior Bond Reserve Accounts" are established for the purpose of paying interest and maturing principal in the event that monies held in the "Senior Bond Interest and Sinking Accounts" and "Turnpike Trust Fund," and monies available in the "General Fund" and "Reserve Maintenance Fund" are insufficient for such purpose.
- » The "Subordinate Bond Reserve Account" is established for the purpose of paying interest and maturing principal in the event that monies held in the "Subordinate Bond Interest and Sinking Accounts" and "Turnpike Trust Fund," and monies available in the "General Fund" and "Reserve Maintenance Fund" are insufficient for such purpose.
- » The "Turnpike Trust Fund" is established for the purpose of depositing and segregating the apportionments of motor fuel excise taxes by the Oklahoma Tax Commission derived from fuel consumed on all Authority turnpikes and can be used only to compensate for any deficiency in the monies otherwise available for the payment of bond interest and principal (see Note 5).
- » The "Reserve Maintenance Fund" is established for the purpose of applying and holding monies in reserve to pay the cost of resurfacing, extraordinary maintenance or repairs, engineering expenses, insurance

premiums or self-insurance reserves and interest and maturing principal if monies in the "Senior Bond Interest and Sinking Accounts" and "Subordinate Bond Interest and Sinking Accounts" are insufficient for such purposes.

The "Construction Funds" are established for the purpose of holding bond proceeds and other financing sources to be used to pay the costs of turnpike construction or improvements.

The Authority has also established the following additional funds by policy for the purpose of restricting monies for which the Authority is liable to others:

- » The "Arbitrage Rebate and Interest Fund" is established for the purpose of holding and paying arbitrage investment earnings to the U.S. Treasury as a result of investing tax exempt bond proceeds at rates of return exceeding the maximum amount that is permitted under the applicable tax code.
- » The "PIKEPASS Prepayment Fund" is established for the purpose of receiving and holding prepayments received from turnpike customers using the electronic vehicle identification method of paying tolls.

H. COMPENSATED ABSENCES

Vested or accumulated vacation leave is recorded as an expense and a liability as the benefits accrue to employees. The portion that is estimated to be due within one year is included with the current liabilities. There are no accumulating sick leave benefits that vest for which any liability must be recognized.

I. CAPITAL ASSETS

All capital assets are stated at cost. Capital assets are defined as assets with initial, individual costs exceeding \$5,000 to \$25,000 depending on asset category. Depreciation is computed on the straight-line method over the following estimated useful lives:

Roads and bridges	30 years
Improvements	5-30 years
Buildings	5-30 years
Equipment	3-7 years
Capitalized Interest	10-30 years

A full month's depreciation is taken the month an asset is placed in service. When property and equipment are disposed, depreciation is removed from the respective accounts, and any resulting gain or loss is recorded.

With the implementation of GASB 89 in 2019, interest costs incurred during periods of construction are recognized as an expense in the period in which the cost is incurred. Interest costs incurred before 2019 and accumulated as a component of construction work in progress (CWIP) will be capitalized upon project completion and then amortize naturally. The amount of interest transferred from CWIP was approximately \$3.7 and \$3.1 million in 2020 and 2019, respectively.

Prior to 2019, interest costs incurred on revenue bonds used to finance the construction or acquisition of assets were capitalized. The amount of interest capitalized was calculated by offsetting interest expense incurred from the date of the borrowing until completion of the project with interest earned on invested proceeds over the same period. As projects financed by these revenue bonds were finalized, the interest cost became eligible for capitalization on other qualified assets. Additionally, the Authority allocated and capitalized interest for other constructed assets by applying the cost of borrowing rate to qualifying assets. Amortization of capitalized interest is included in depreciation expense. Approximately \$73.0 and \$82.8 million in interest expense was incurred in 2020 and 2019, respectively.

J. DEFERRED OUTFLOWS AND INFLOWS OF **RESOURCES OTHER THAN PENSIONS AND OPEB**

In addition to assets, the Statements of Net Position also include, deferred outflows of resources, which represents a consumption of net position that applies to future reporting periods and will not be recognized as an outflow of resources or expense until then; deferred outflows of resources have a positive effect on net position. Deferred inflows of resources are the acquisition of net position that is applicable to future

reporting periods; deferred inflows of resources have a negative effect on net position. The unamortized net deferred debit and credit on refunding represents the difference between the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

K. DEFERRED OUTFLOWS AND INFLOWS OF **RESOURCES RELATED TO PENSIONS AND OPEB**

As mentioned above, deferred outflows of resources are the consumption of net position that is applicable to future reporting periods and have a positive effect on net position. Deferred inflows of resources are the acquisition of net position that is applicable to future reporting periods; deferred inflows of resources have a negative effect on net position. For pension and OPEB reporting purposes, collective pension and OPEB expense include the differences between expected and actual experience with regard to economic and demographic factors in the measurement of the total pension and OPEB liabilities and the changes of assumptions about future economic or demographic factors or other inputs. These amounts are amortized over a closed period equal to the average expected remaining service lives of all employees, at the beginning of the measurement period, provided with pensions through the Oklahoma Public Employees Retirement Plan (the OPERS Plan) and OPEB through the Health Insurance Subsidy Plan (the HISP Plan) and the State of Oklahoma Implicit Rate Subsidy of Health Insurance (the EGID Plan). The portion of these amounts not included in collective pension and OPEB expenses are included in collective deferred outflows or inflows of resources related to pensions and OPEB. Similarly, collective pension and OPEB expenses include the difference between projected and actual earnings on pension plan investments amortized over a closed five-year period. The portion of these amounts not included in collective pension expense is included in collective deferred outflows or inflows of resources related to pensions and OPEB. See Notes 7 and 9.

L. PENSIONS AND OPEB

For pension and OPEB purposes of measuring the net liabilities, deferred outflows of resources and deferred

inflows of resources and expenses, information about the fiduciary net position of the OPERS Plans, the HISP Plan and the EGID Plan and additions to/deductions from the Plans' fiduciary net positions have been determined on the same basis as they are reported by the Plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. See Notes 7 and 9 for further discussions.

M. NET BOND PREMIUMS AND BOND ISSUANCE COSTS

Net bond premiums are presented as additions to bonds payable on the Statements of Net Position and are amortized over the life of the bonds on a method that approximates the effective interest method. With the issuance of the 2020 Bonds, the Authority recognized a premium addition of approximately \$48.4 million in 2020. Amortization expense related to net bond premiums was approximately \$13.1 and \$13.3 million for 2020 and 2019, respectively. Amortization expense is a component of interest expense on revenue bonds outstanding on the Statements of Revenues, Expenses and Changes in Net Position.

Bond issuance costs are expensed and were approximately \$1.8 million for 2020.

N. ARBITRAGE REBATE PAYABLE

The Tax Reform Act of 1986 imposed additional restrictive regulations, reporting requirements and arbitrage rebate liability on issuers of tax-exempt debt. This Act requires the remittance to the Internal Revenue Service (IRS) of 90% of the cumulative rebatable arbitrage within 60 days of the end of each five-year reporting period following the issuance of governmental bonds. The cumulative arbitrage rebate liability was \$1.0 and \$0.3 million at December 31, 2020 and 2019.

O. INCOME TAXES

The Authority is an instrumentality of the State of Oklahoma. As such, income earned in exercising its essential government functions is exempt from state or federal income taxes.

P. ESTIMATES

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities and deferred inflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2. LEGAL COMPLIANCE BUDGETS

On or before October 10 each year the Authority is required to prepare a preliminary budget of current expenses, monthly deposits to the Reserve Maintenance Fund, and the purposes for which the monies held in the Reserve Maintenance Fund will be expended for the ensuing year. Copies of the preliminary budget must be filed with the bond Trustee and each depository, and mailed to the consulting engineers, traffic engineers and all bondholders who have filed their names and addresses with the Secretary and Treasurer of the Authority. If the Trustee or the owners of 5% in aggregate principal amount of outstanding bonds request the Authority in writing on or before November 1 in such a year, the Authority shall hold a public hearing on or before November 20. The Authority is required by the Trust Agreement to adopt a final budget on or before December 1 of each year. The budget is prepared by division at the object detail level, and includes information regarding the preceding year. Project-length financial plans are established for all new construction projects.

The Authority may not expend any amount or incur any obligations for maintenance, repairs and operations in excess of the total amount of the budgeted expenses in the Revenue Fund unless the funding source is other than revenues received from the Turnpike System. The Authority may expend additional monies from the Reserve Maintenance Fund in excess of the budget of monthly deposits. The Director is authorized to approve all line item and inter-division budget transfers. Budget amendments must be approved by the governing body in a manner similar to the adoption of the annual budget. There were no occurrences of budget noncompliance in 2020 or 2019.

debt securities were rated Aaa by Moody's Investor **NOTE 3. DEPOSITS AND** Services (Moody's) and AA+ by S&P. The Authority's **INVESTMENTS** 2020 and 2019 investments in FNMA (Fannie Mae) debt securities, Federal Home Loan Mortgage DEPOSITS Corporation (FHLMC) debt securities, and Federal Farm Credit Banks (FFCB) debt securities were rated Aaa by Moody's, AA+ by S&P and AAA by Fitch Rating At December 31, 2020 and 2019, the carrying amounts (Fitch). All of the Authority's investments in U.S. debt of the Authority's cash deposits were \$15.9 million instruments are issued or explicitly guaranteed by the and \$20.2 million, respectively. The bank balances U.S. Government. The Authority also has an investment were \$17.3 million and \$20.6 million, respectively. At policy for funds not pledged as security under the Trust December 31, 2020 and 2019, the carrying amount and Agreement. Under this policy, which currently applies bank balances of the Authority's cash equivalents were only to the Prepaid PIKEPASS Fund, these funds can \$398.6 million and \$620.1 million, respectively. Under be invested in equity securities, fixed income securities the terms of the Trust Agreement, all monies deposited and cash equivalents. No INVESTMENTS securities of common stock in non-public corporations, short sales. letter or restricted stock and buving and The fair values of the Authority's investments at selling on margin may be purchased. Fixed income December 31, 2020 and 2019, were \$295.2 million and securities with a single issuer, with the exception of the U.S. government and its fully guaranteed agencies, must not exceed 10% of the portfolio's market value; **CREDIT RISK** total exposure to any one industry shall not exceed 30% of the portfolio's market value. Corporate debt issues must meet or exceed an A credit rating from Moody's and S&P. No fixed income securities of convertible bonds, denominated foreign debt, private placements, fixed income and interest rate futures and other specialized investments may be purchased. The Authority has complied with the terms of the Trust Agreement and its

\$247.9 million, respectively.

The Trust Agreement establishes the investment policy for the Authority. Under the terms of the Trust Agreement, the Authority can invest in (a) government obligations, federally issued or guaranteed bonds, debentures or notes; (b) defeased municipal obligations; (c) repurchase agreements meeting certain conditions defined in the Authority's Trust Agreement; (d) certificates of deposit investment policy in 2020 and 2019. and time deposits in, or interests in money market portfolios meeting certain conditions defined in the **INTEREST RATE RISK** Authority's Trust Agreement; (e) commercial paper; (f) obligations and full faith and credit obligations of state The Trust Agreement also specifically defines the or local government issuers; (g) shares of stock in a maturity periods for each of the Authority's funds and corporation that is a regulated investment company and accounts (see Note 1(G)). These maturity limits range invests all of its assets in government obligations; and/ from 6 months to 7 years. For funds not pledged as or (h) any unsecured or secured agreement with the security under the Trust Agreement, the average Federal National Mortgage Association (FNMA) or any maturity of fixed income securities should not exceed bank, trust company or national banking association or 10 years. The Authority has no other policies limiting a corporation meeting certain conditions defined in the investment maturities. The Authority has complied with Authority's Trust Agreement. The Authority's 2020 and the terms of the Trust Agreement and its investment 2019 investments in Federal Home Loan Bank (FHLB) policy in 2020 and 2019.

CONCENTRATION OF CREDIT RISK

Except as previously noted for the Prepaid PIKEPASS Fund, there is no limit on the amount the Authority may invest in any one issuer. As of December 31, 2020, the Authority no longer held an investment in certificates of deposit, this was a change from prior year at which certificates of deposit made up 6.1% of total investments at December 31, 2019. The Authority also has a significant investment in a JP Morgan Chase Bank (JP Morgan) repurchase agreement, representing 17.3% and 20.5% of total investments at December 31, 2020 and 2019, respectively. This repurchase agreement bears a yield equal to the rate of 5.991%. If the rating of unsecured senior long-term debt obligations of JP Morgan falls below A by Moody's or S&P, then the repurchase agreement can be collateralized with additional securities, transferred with the consent of the Trustee to another entity with long-term senior unsecured debt rated at A or better by Moody's and S&P, or terminated if neither of the above conditions are met. Certain JP Morgan unsecured senior long-term debt is rated Aa2 by Moody's and A+ by S&P. Wells Fargo Bank Minnesota, N.A., correspondent custodian, holds the collateral for this agreement directly for the benefit of the customers of the custodian, Bank of Oklahoma N.A. The transaction matures every 30 days and is automatically renewed until January 1, 2022. The terms of this repurchase agreement are governed by the Master Repurchase Agreement between JP Morgan and Bank of Oklahoma, N.A., Trustee, as supplemented by the letter agreement dated May 23, 2002.

The Authority categorizes its fair value measurements within the fair value hierarchy established by GAAP. The Authority has the following recurring fair value measurements as of December 31, 2020:

FAIR VALUE MEASUREMENTS AS OF DECEMBER 31, 2020

Investments classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities.

Investments classified in Level 2 of the fair value hierarchy are valued using significant other observable inputs.

Investments classified in Level 3 of the fair value hierarchy are valued using unobservable inputs for the asset. The U.S. Treasury SLGS is non-marketable and has a stated interest rate of 0.0%. As of December 31, 2020 and 2019, fair value is considered comparable to par value. As previously noted, for the repurchase agreement, investment value is defined by the agreement and bears a yield equal to the rate of 5.991%. This agreement includes a provision to require collateral if the provider's long-term debt rating is reduced, and as such, can be affected indirectly by market changes. As of December 31, 2020 and 2019, fair value is considered comparable to the value defined by the terms of the repurchase agreement.

The Authority issues revenue bonds from time to time for the purposes of financing capital improvements and new projects. In addition, when the market environment indicates favorable results, the Authority will issue bonds to restructure its debt to take advantage of these economic factors. All of the Authority's current outstanding bonds are fixed rate bonds and were issued pursuant to the prevailing Trust Agreement, dated February 1, 1989, and as amended with supplements thereto (the Trust Agreement), with Bank of Oklahoma, N.A., as Trustee. The Authority's Bonds are payable solely from and secured by a pledge of minimum net revenues, as defined by the Trust Agreement, from the operation of the Turnpike System.

DESCRIPTION OF FIXED RATE DEBT

On October 29, 2020, the Authority closed on the delivery of \$187.2 million in Series 2020A Refunding Second Senior Revenue Bonds, and \$179.2 million in Series 2020B Refunding Second Senior Revenue Bonds. These bonds were issued for the purposes of (1) refunding the remaining Series 2011AB Bonds, as well as refunding a portion of the 2017C Bonds and (2) paying the costs of issuance. The 2020A Bonds were structured as tax-exempt fixed rate "AA-" bonds and the 2020B Bonds were structured as taxable fixed rate "AA-" bonds. The Series 2020AB Bonds are series bonds due in annual installments beginning January 1, 2022 through January 1, 2033. Interest is payable semi-annually on January 1 and July 1 of each year. Interest rates on the Series 2020A Bonds is 5.0% and on the Series 2020B Bonds range from 0.491% to 2.072%

The Series 2020AB Bonds refunded and defeased by escrow deposit the outstanding \$242.7 million principal of the Series 2011A Bonds, the \$52.8 million principal of Series 2011B Bonds and \$102.9 million principal of the Series 2017C bonds; the liability was removed the the Statements of Net Postion. Bank of Oklahoma, N.A., serves as the Escrow Trustee on these Series 2011AB Bonds and 2017C Bonds. These Series 2011AB Bonds were fully redeemed as of January 1, 2021. The Series 2017C Bonds remain outstanding at December 31, 2020 and are anticipated to be redeemed January 1, 2022.

On October 31, 2018, the Authority closed on the delivery of the Series 2018A Second Senior Revenue Bonds totaling \$344.3 million. The Series 2018A bonds were issued for the purposes of (1) financing a portion of the capital costs of certain Turnpike projects and improvements, (2) satisfying the Second Senior Bond Reserve Account Requirements and (3) paying the costs of issuance. The Series 2018A Bonds were structured as tax-exempt fixed rate "AA-" bonds. The Series 2018A Bonds are series bonds due in annual installments beginning January 1, 2032 through January 1, 2048. Interest is payable semi-annually on January 1 and July 1 of each year. Interest rates on the Series 2018A Bonds range from 3.6% to 5.0%.

On February 8, 2017, the Authority closed on the delivery of the Series 2017A Second Senior Revenue Bonds totaling \$456.1 million and the Series 2017B Refunding Second Senior Revenue Bonds totaling \$23.9 million. The Series 2017A&B bonds were issued for the purposes of (1) financing a portion of the capital costs of certain Turnpike projects and improvements, including payment of amounts due under the Wells Fargo revolving credit agreement (short-term debt), (2) currently refunding the outstanding principal of the Series 2007A Bonds, (3) satisfying the Second Senior Bond Reserve Account Requirements and (4) paying the costs of issuance. The Series 2017A&B Bonds were structured as tax-exempt fixed rate "AA-" bonds. The Series 2017A Bonds are series bonds due in annual installments beginning January 1, 2032 through January 1, 2047; the Series 2017B Bonds are series bonds due in annual installments beginning January 1, 2018 through January 1, 2022. Interest commenced on July 1, 2017, and is payable semi-annually on January 1 and July 1 of each year. Interest rates on the Series 2017A Bonds range from 3.5% to 5.0% and the Series 2017B Bonds range from 2.0% and 4.0%.

The Series 2017B Bonds refunded and defeased by escrow deposit the outstanding \$24.6 million principal of the Series 2007A Bonds; the liability was removed from the Statements of Net Position. Bank of Oklahoma, N.A., served as the Escrow Trustee on the Series 2007A Bonds which were fully redeemed March 8, 2017. The Series 2007A Refunding Bonds were originally issued on June 6, 2007 for the purposes of refunding the portion of the Series 2002A&B Refunding Bonds that were eligible at that time; those Series 2002A&B Bonds became fully redeemed as of January 1, 2012.

On December 21, 2017, the Authority closed on the delivery of the Series 2017C Second Senior Revenue Bonds totaling \$312.8 million, the Series 2017D Refunding Second Senior Revenue Bonds totaling \$275.7 million and the Series 2017E Refunding Second Senior Revenue Bonds totaling \$95.8 million. The Series 2017CDE Bonds were issued for the purposes of (1) financing a portion of the capital costs of certain Turnpike projects and improvements (2) satisfying the Second Senior Bond Reserve Account Requirements, (3) currently refunding the outstanding principal of the Series 2006BEF Bonds, (4) funding termination payments relating to interest rate swaps associated

with the Series 2006BEF Bonds, (5) advance refunding Bonds and (2) paying the costs of issuance. These certain maturities of the Series 2011B Bonds and (6) bonds were structured as tax-exempt fixed rate "AApaying the costs of issuance. The Series 2017CDE " bonds. The principal amount of the bonds refunded and defeased through an escrow deposit was \$533.3 Bonds were structured as tax-exempt fixed rate "AA-" bonds. The Series 2017CDE Bonds are series bonds million; the liability was removed from the Statements due in annual installments: the Series 2017C Bonds of Net Position. The Series 2006C&D Bonds were begin January 1, 2034 through January 1, 2047; the fully redeemed as of October 31, 2011 and the Series Series 2017D Bonds beginning January 1, 2018 through 2002A&B Bonds were fully redeemed as of January January 1, 2028; the Series 2017E Bonds begin January 1, 2012. In conjunction with the defeasance of the 1, 2023 through January 1, 2031. Interest is payable Series 2006C&D Bonds, the Authority terminated the semi-annually on January 1 and July 1 of each year, swap agreements corresponding to this variable rate interest commenced January 1, 2018. Interest rates on debt. Termination payments were approximately \$51.3 the Series 2017C Bonds range from 3.0% to 5.0%; the million and were funded with proceeds from the Series Series 2017D Bonds range from 4.0% to 5.0%; and the 2011A Bonds. With the issuance of the Series 2020AB Series 2017E Bonds range from 2.85% and 5.0%. Bonds, the Series 2011A Bonds were defeased with Bank of Oklahoma, N.A. serving as the Escrow Trustee; The Series 2017D Bonds refunded and defeased the liability was removed from the Statements of Net by escrow deposit the outstanding \$280.8 million Position. These bonds became fully redeemed as of principal of the Series 2006BEF Bonds; the liability was January 1, 2021.

The Series 2017D Bonds refunded and defeased by escrow deposit the outstanding \$280.8 million principal of the Series 2006BEF Bonds; the liability was removed from the Statements of Net Position. Bank of Oklahoma, N.A., served as the Escrow Trustee on the Series 2006BEF Bonds which were fully redeemed January 12, 2018. In conjunction with the defeasance of the Series 2006BEF Bonds, the Authority also terminated its swap agreements corresponding to this variable rate debt. The termination payments were approximately \$41.3 million and were funded with the proceeds from the Series 2017D Bonds. The Series 2006BEF Refunding Bonds were originally issued on August 24, 2006 for the purposes of refunding the outstanding Series 1992F First Senior Revenue Capital Appreciation Bonds and certain maturities of the Series 1998A&B Revenue Bonds; those Bonds became fully redeemed as of January 1, 2009.

The Series 2017E Bonds refunded and defeased by escrow deposit certain maturities totaling \$101.5 million of the Series 2011B Bonds; the liability corresponding to these maturities was removed from the Statements of Net Position. Bank of Oklahoma, N.A., served as the Escrow Trustee on the Series 2011B Bonds. With the issuance of the Series 2020AB Bonds, these bonds became fully redeemed as of January 1, 2021.

Escrow Trustee on the Series 2011B Bonds. With the The Authority previously defeased the Series 1989 issuance of the Series 2020AB Bonds, these bonds First Senior and Subordinate Lien Revenue Bonds; the liability was removed from the Statements of Net Position. Bank of New York serves as Escrow Trustee The Authority closed on the delivery of the Series 2011A having acquired the trust services of the previous Refunding Second Senior Revenue Bonds totaling Escrow Trustee, Bank One Trust Company. Of the \$524.0 million on October 31, 2011. The Series 2011A original issue, only \$29.0 million of these Series 1989 Bonds were issued for the purposes of (1) refunding Bonds remain outstanding at December 31, 2020 (a) certain maturities of the Series 2002A&B Refunding and 2019; scheduled redemption is January 1, 2022. Bonds and (b) the Series 2006C&D Refunding

On December 15, 2011, the Authority closed on the delivery of the Series 2011B Second Senior Revenue Bonds totaling \$159.7 million. The Series 2011B Bonds were issued to provide funds for the purposes of (1) financing a portion of the capital costs of certain Turnpike projects including capacity improvements for the John Kilpatrick and Creek Turnpikes, (2) satisfying the Second Senior Bond Reserve Account Requirements and (3) paying the costs of issuance. These bonds were structured as tax-exempt fixed rate "AA-" bonds. As previously noted, the 2017E bonds refunded certain maturities totaling \$101.5 million of the outstanding Series 2011B Bonds. As previously noted, with the issuance of the Series 2020AB Bonds, the remaining Series 2011B Bonds were defeased with Bank of Oklahoma, N.A. serving as the Escrow Trustee; the liability was removed from the Statements of Net Position. These bonds became fully redeemed as of January 1, 2021.

OKLAHOMA TURNPIKE AUTHORITY 49

Authority had \$280.8 million outstanding of variable rate Series 2006BEF Bonds. In August 2006, the Authority issued, through a negotiated sale, six separate series of Series 2006 Refunding Second Senior Revenue Bonds totaling \$635.6 million. As part of that sale, the Authority issued variable rate Series 2006B-F Refunding Second Senior Revenue Bonds in the initial aggregate principal of \$530.8 million. The Series 2006B-F Bonds were initially issued in a variable rate mode that reset on a weekly basis with interest payable on a monthly basis. In conjunction with the \$530.8 million Series 2006B-F bonds described above, the Authority entered into five separate synthetic fixed rate swap agreements totaling \$530.8 million, with three separate counterparties. After the Series 2017D Bonds currently refunded and defeased these Series 2006BEF Bonds, in late 2017, the Authority had no outstanding variable rate debt.

OTHER BOND RELATED INFORMATION

The Interest, Sinking and Reserve Accounts required by the Trust Agreement have been established with the Trustee. The balance for the Revenue Bond Reserve Account (the Reserve Account) was approximately \$145.7 and \$149.7 million as of December 31, 2020 and 2019, respectively. Prior to 2020, the Authority had funded the remainder of the current debt reserve requirement with a ten year term loan with US Bank for \$15.0 million. With the issuance of the Series 2020AB Bonds, amounts currently on deposit in the subaccounts of the refunded bonds were not contributed to the defeasance and redemption of the refunded bonds but rather considered in the funding requirements of the debt service due January 1, 2021, as well as funding of certain System improvements and the calculation of the amount now necessary for the Reserve Account. With the Reserve Account sufficiently funded, an amount was eligible to be released from the Reserve Account to repay the term loan with US Bank, and accordingly, as of December 31, 2020, the loan with US Bank was paid in full.

The Series 2020A and 2020B Bonds refunded \$242.7 million principal of the 2011A Bonds, \$52.8 million principal of the 2011B Bonds and \$102.9 million principal of the 2017C Bonds. This refunding resulted in an increase to the Authority's net deferred credit of approximately \$11.6 million. With the Series 2020

Prior to the issuance of the Series 2017D Bonds, the refunding, the Authority decreased its aggregate debt service payments by approximately \$65.1 million from 2021 to 2033; the net present value savings of this transaction were approximately \$64.3 million.

> The Series 2017B Bonds refunded \$24.6 million principal of the Series 2007A Bonds. This refunding resulted in an increase to the Authority's net deferred debit of approximately \$0.2 million. With the Series 2017B refunding, the Authority decreased its aggregate debt service payments by approximately \$1.7 million from 2018 to 2022; the net present value savings of this transaction were approximately \$1.5 million.

> The Series 2017D Bonds refunded \$280.8 million principal of the Series 2006BEF Bonds (variable rate) and terminated the corresponding swaps and reduced the Authority's risk exposure. This refunding resulted in an increase to the Authority's net deferred debit of approximately \$42.4 million. With the Series 2017D refunding, the Authority increased its aggregate debt service payments by approximately \$3.2 million from 2018 to 2028; the net present value savings on this transaction were approximately (\$2.0 million).

> The Series 2017E Bonds refunded \$101.5 million principal of the Series 2011B Bonds. This refunding resulted in an increase to the Authority's net deferred debit of approximately \$5.7 million. With the Series 2017B refunding, the Authority decreased its aggregate debt service payments by approximately \$13.9 million from 2018 to 2031; the net present value savings of this transaction were approximately \$11.4 million.

> As of December 31, 2020 and 2019, the Statements of Net Position reflect a collective net deferred debit of approximately \$65.1 and \$75.8 million respectively, resulting from accounting losses from the defeasance of debt through its various refundings. On December 31, 2020 the Statements of Net Position present a collective net deferred credit of approximately \$11.6 million; this results from accounting gains from the issuance of the Series 2020AB Bonds. The amortization of the December 31, 2020 net deferred debit and net deferred credit resulted in a collective \$8.0 million contra expense and is reflected as a component of interest expense in the Statements of Revenues, Expenses and Changes in Net Position. For December 31, 2019, the Statements of Revenues, Expenses and Changes

in Net Position reflect the amortization of this deferral as a component of interest expense of approximately \$10.7 million.

DIRECT BORROWINGS

By virtue of the "Enabling Act" of 1971 and amendments thereto, a portion of the motor fuel excise taxes collected On July 1, 2020 the Authority closed on a \$50.0 million on fuels consumed on the turnpikes is made available subordinate Junior Obligation Note, Series 2020A (the to the Authority from the Oklahoma Tax Commission. Note) maturing on July 1, 2023 with interest paid semi-Prior to July 1, 1992, this amount was not to exceed annually at a fixed rate of 2.274%. The Note is a credit \$3.0 million during a fiscal year of the State. In 1992, agreement with DNT Asset Trust (the Lender). The Title 69, §1730 was amended to remove the cap and Note is structured as a line of credit with the full line allow the Authority to receive the full amount collected in being drawn at closing and deposited to the Reserve accordance with the original formula. This amendment Maintenance Fund to satisfy Trust-required deposits stated the motor fuel taxes due to the Authority would through mid-2022. The Note allows for the voluntary be apportioned to the Authority on the first day of each prepayment of principal, an extension of the maturity calendar month. Beginning July 1, 1992, the amount of date and the option to convert the principal into a term cash and investments on deposit was frozen as security loan. The proceeds allow monies to be available to fund for the Series 1989 Revenue Bonds. All motor fuel taxes capital projects. The Note is secured by the credit of the apportioned to the Authority shall be available to fund General Fund. debt service and reserves to the extent monies are not otherwise available to the Authority for such purpose. If The Note contains certain covenants that the Authority such motor fuel excise taxes apportioned to the Authority is aware of and monitors for compliance. Failure are not necessary in such month, the motor fuel excise to comply with certain covenants can create an taxes shall be paid over to the Oklahoma Department event of default. Additionally, the Note defines other of Transportation (ODOT). During 2020 and 2019, the events of default such as non-payment of the Note or Authority received and subsequently remitted to ODOT due payment on the Authority's outstanding Bonds, \$43.4 million and \$47.1 million, respectively, of motor bankruptcy, changes in the validity of the pledge of the fuel excise taxes

General Fund or a ratings downgrade of its long-term unenhanced Second Senior borrowings to below BBBor Baa3. Should an event of default occur, the Lender can take certain actions including the acceleration of the repayment of the Note, with proper notification. As of December 31, 2020, the Authority has complied with all Note covenants and no events of default have occurred.

YEAR	()U	OTHER LONG-TERM DEBT (JUNIOR OBLIGATION NOTE SERIES 2									
Maturity December 1		Principal		Interest							
2021	\$	-	\$	568,500							
2022		-		1,137,000							
2023		-		1,137,000							
2024		50,000,000		568,500							
Total:	\$	50,000,000	\$	3,411,000							

NOTE 5. ADVANCES FROM MOTOR FUEL TAX TRUST

The amounts frozen at July 1, 1992 (fair value of \$48.5 million and \$47.5 million at December 31, 2020 and 2019, respectively) are invested in interestbearing obligations in the Turnpike Trust Fund. The interest received thereon (\$691,085 and \$804,745 during the years ended December 31, 2020 and 2019, respectively) are used to eliminate deficiencies, if any, in available monies to meet revenue bond interest and principal requirements. No deficiencies existed in 2020 or 2019.

Prior to the issuance of the Series 1989 Revenue Bonds, the Authority had not received apportionments from the Oklahoma Tax Commission since 1979 because the maximum amount that could be retained by the Authority in accordance with the Enabling Act was deposited with the prior Trustee.

When all Senior and Subordinate Revenue Bonds. together with interest thereon, have been paid, the Authority will be required to pay all amounts that have been received from the Oklahoma Tax Commission and any interest earned on amounts invested to the ODOT. The accumulated liability to the ODOT as of December 31, 2020 and 2019, is \$53.8 million and \$53.1 million, respectively, and the annual activity is shown below:

	Beginning Balance	A	dditions	Retired	Ending Balance
2020	\$ 53,092,649	\$	684,573	\$ -	\$ 53,777,222
2019	\$ 54,401,578	\$	961,459	\$ (2,270,388)	\$ 53,092,649

Additions to the liability represent the interest earned on amounts invested, net of realized gains and losses on the sale of investments. No amounts are due within one year.

NOTE 6. DEFERRED COMPENSATION PLAN

The State of Oklahoma offers to its own employees, state agency employees and other duly constituted authority or instrumentality employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457 and Chapter 45 of Title 74 of the Oklahoma Statutes. The Oklahoma State Employees Deferred Compensation Plan, known as SoonerSave, is a voluntary plan that allows participants to defer a portion of their salary into SoonerSave. Participation allows a person to shelter the portion of their salary that they defer from current federal and state income tax. Taxes on the interest or investment gains on this money, while in SoonerSave, are also deferred. The deferred compensation is not available to employees until termination, retirement, death or approved unforeseeable emergency. Under SoonerSave, the untaxed deferred amounts are invested as directed by the participant among various plan investment options. Effective January 1,1998, a Trust and Trust Fund covering the plan assets was established pursuant to federal legislation enacted in 1996, requiring public employers to establish such trusts for plans meeting the requirements of Section 457 of the Internal Revenue Code. Under terms of the Trust, the corpus or income of the Trust Fund may be used only for the exclusive benefit of the plan participants and their beneficiaries. Further information may be obtained from the Oklahoma State Employees Deferred Compensation Plan audited financial statements for the year ended June 30, 2020. The Authority believes that it has no liabilities in respect to the State's plan.

NOTE 7. DEFINED BENEFIT RETIREMENT PLAN PLAN DESCRIPTION

Employees of the Authority are provided with pensions through the Oklahoma Public Employees Retirement Plan (the Plan), a cost-sharing multiple employer public employee defined benefit pension plan administered by the Oklahoma Public Employees Retirement System (the OPERS). Title 74 of the Oklahoma Statutes, Sections 901-932 and 935, as amended, assigns the authority for management and operation of the Plan to the OPERS Board of Trustees. The OPERS issues a publicly available comprehensive annual financial report (CAFR) that includes financial statements and required supplementary information for the Plan. That annual report may be obtained at http://www.opers.ok.gov/wpcontent/uploads/2020/11/2020_CAFR_OPERS .pdf.

BENEFITS PROVIDED

The Plan provides retirement, disability, and death benefits to Plan members and beneficiaries. The benefit provisions are established and may be amended by the Oklahoma Legislature. Retirement benefits are determined at 2% of the average annual salary received during the highest thirty-six months of the last ten years of participating service, but not in excess of the applicable annual salary cap, multiplied by the number of years of credited service. Employees qualify for full retirement benefits at their specified normal retirement age or when the employee's age and years of credited service meet defined thresholds, determined by the employee's date of membership within the Plan. Employees have the option to increase the benefit computation factor for all future service from 2.0% to 2.5%. The election is irrevocable, binding for all future employment under the OPERS, and applies only to full years of service. Those who make the election pay the standard contribution rate plus an additional contribution rate which is actuarially determined. Employees become eligible to vest fully upon termination of employment after attaining eight years of credited service, or the employee's contributions may be withdrawn upon termination of employment.

Disability retirement benefits are available for members having eight years of credited service whose disability

status has been certified. Disability retirement benefits are determined in the same manner as retirement benefits, but payable immediately without an actuarial reduction. Upon the death of an active employee, the accumulated contributions of the employee are paid to the employee's named beneficiary(ies) in a single lump sum payment or in monthly payments over the life of the spouse, if so elected. Upon the death of a retired employee, the Plan will pay a \$5,000 death benefit to the employee's beneficiary or estate of the employee if there is no living beneficiary, in addition to any excess employee contributions or survivor benefits due.

Employees who first became employed by the Authority on or after November 1, 2015, and have no prior participation in the Plan will participate in a mandatory defined contribution plan. See Note 8 for further discussion.

Actuarial assumptions	2020	2019
Investment return compounded annually, net of investment expense and including inflation	6.50%	7.00%

CONTRIBUTIONS

Employees and the Authority are required to contribute at a rate set by Oklahoma Statute. The rates for the Plan are established by the Oklahoma Legislature after recommendation by the OPERS Board, based on an actuarial calculation which is performed to determine the adequacy of such contribution rates. The Oklahoma Legislature may amend the contribution requirements. The contribution rate for employees was 3.5% during 2020 and 2019. The Authority's contribution remains at its currently mandated maximum rate of 16.5%. The Authority's contributions to the Plan for the years ended December 31, 2020 and 2019, were approximately \$3.5 and \$3.4 million respectively, and equal to the required contributions for each year.

ACTUARIAL ASSUMPTIONS

The total pension liability as of June 30, 2020 and 2019, were determined based on actuarial valuations prepared as of July 1, 2020 and 2019, respectively, using the following actuarial assumptions:

The actuarial assumptions used in the July 1, 2020 valuation are based on the results of the most recent actuarial experience study, which covered the threeyear period ending June 30, 2019. The experience study report is dated May 13, 2020. The actuarial assumptions used in the July 1, 2019 valuation are based on the results of the actuarial experience study which covered the three-year period ending June 30, 2016.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate return weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

In 2020 and 2019, best estimates for each major asset class used arithmetic real rates of return. Target asset allocations and best estimates of real rates of return for each major asset class as of June 30, 2020 and 2019 are summarized in the following table:

		2020		2019
Asset Class	Target Long-Term Expected Real Rate of Return		Target Allocation	Long-Term Expected Real Rate of Return
U.S. Large Cap Equity	34.0%	4.7%	38.0%	3.8%
U.S. Small Cap Equity	6.0%	5.8%	6.0%	4.9%
Int's Devel- oped Equity	23.0%	6.5%	-	-
Emerging Market Equity	5.0%	8.5%	-	-
Core Fixed Income	25.0%	0.5%	-	-
Long Term Treasuries	3.5%	-	-	-
U.S. Tips	3.5%	0.3%	-	-
U.S. Fixed	-	-	32.0%	1.4%
Non - U.S Equity	-	-	24.0%	9.2%
Total	100.0%		100.0%	

The discount rate used to measure the total pension liability, net of investment expenses, was 6.5% for 2020 and 7.0% for 2019. The projection of cash flows used to determine the discount rate assumed that contributions from employees and employers will be made at the current contribution rate as set out in Oklahoma Statute. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current Plan employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The discount rate determined does not use a municipal bond rate.

PENSION LIABILITIES

At December 31, 2020 and 2019, the Authority reported a liability of approximately \$10.6 and \$1.6 million respectively, for its proportionate share of the net pension liability. The annual activity is shown below:

	Beginning Balance	Additions	Reductions	Ending	
2020	\$ 1,613,337	\$ 12,484,829	\$ (3,497,092)	\$ 10,601,074	
2019	\$ 2,239,219	\$ 2,980,879	\$ (3,606,761)	\$ 1,613,337	

SENSITIVITY OF THE NET PENSION LIABILITY

The following presents the Authority's proportionate share of the net pension liability calculated using the discount rate of 6.5% for 2020 and 7.0% for 2019. as well as what the Authority's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1% lower or 1% higher than the current rate:

	1% Decrease	Current Discount Rate	1% Increase
	5.5%	6.5%	7.5%
2020	\$24,955,814	\$10,601,074	\$(1,528,507)
	6.0%	7.0%	8.0%
2019	\$14,587,088	\$1,613,337	\$(9,385,925)

PENSION EXPENSE

The net pension liability was measured as of June 30, 2020 and 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2020 and 2019, respectively. The OPERS determined that the actual contributions made to the Plan during the fiscal year are appropriate as the allocation basis as they are representative of future contributions. Contributions are reported using the accrual basis of accounting. At June 30, 2020 the Authority's proportionate share of the net pension liability and corresponding employer pension amounts was approximately 1.19%, a decrease from its proportion of 1.21%, measured as of June 30, 2019. For the years ended December 31, 2020 and 2019, the Authority recognized pension expense of approximately \$6.7 and \$3.0 million, respectively.

PENSION PLAN FIDUCIARY NET POSITION

Detailed information about the pension plan's fiduciary net position is available in the separately issued OPERS annual report, available as previously noted

DEFERRED OUTFLOWS AND INFLOWS

The 2020 deferred outflows of resources related to contributions subsequent to the measurement date, as shown in the table below, will be recognized as a reduction of the net pension liability in the year ended December 31, 2021; the 2019 amounts were similarly بالجيمين أمرم سأرمين

recognized in the current year.	Deferred Outflows of Resources 2020	Deferred Inflows of Resources 2020	Deferred Outflows of Resources 2019	Deferred Inflows of Resources 2019
Difference between expected and actual experience	\$-	\$ 57,927	\$-	\$ 379,640
Changes of assumptions	3,786,601	-	-	-
Net difference between projected and actual earnings on pension plan investments	1,259,673	-	-	486,800
Changes in proportion and differences between Authority contributions and proportionate share of contributions	210,289	27,962	313,211	-
Authority contributions subsequent to the measurement date	1,736,826	-	1,729,819	-
Total	\$ 6,993,389	\$ 85,889	\$ 2,043,030	\$ 866,440

Other amounts reported as deferred outflows inflows of resources related to pensions will recognized in pension expense as follows:

NOTE 8. DEFINED CONTRIBUTION PLAN

Oklahoma Legislature enacted legislation requiring that effective November 1, 2015, a Defined Contribution System be established by the OPERS for most state employees first employed by a participating State employer on or after November 1, 2015. Employees of the Authority who first become employees on or after November 1, 2015, and have no prior participation in the OPERS must participate in this mandatory Defined Contribution Plan (the Plan) created in accordance with Internal Revenue Code (the Code) Section 401(a) and 457(b) and chapter 40 of Title 590 of the Oklahoma Statutes. The Plan is known as Pathfinder. This Plan

a	r	l	a	
	k	2	e	

and be	Years Ended December 31	2020	2019
be	2020	\$ N/A	\$ 269,427
	2021	2,183,537	(1,015,685)
	2022	1,676,182	(49,943)
	2023	774,649	242,972
	2024	536,306	N/A
	Thereafter	N/A	N/A

and its related Trust(s) are intended to meet the requirements of the Internal Revenue Code. Pathfinder is administered by the OPERS. The OPERS Board may amend Pathfinder or Trust but no amendment shall authorize or permit any part of the Trust for Pathfinder to be used or diverted to purposes other than for the exclusive benefit of the Pathfinder participants and their beneficiaries.

Contribution rates are established by Oklahoma Statute and may be amended by Oklahoma Legislature. For 2020 and 2019, employees must make mandatory employee contributions of 4.5% of pre-tax salary to the 401(a) plan and may make additional voluntary contributions to the 457(b) plan, subject to the maximum deferral limited allowed under the Code. Employees are vested 100%

for all employee contributions. The Authority must make The OPERS issues a publicly available comprehensive mandatory contributions of 6% of the employee's pretax salary and 7% if the employee elects to participate in the 457(b) plan. Employees become vested for employer contributions based on an established vesting schedule. The amount of the Authority's contributions for Pathfinder for the year ended December 31, 2020 and 2019 was approximately \$0.3 million, respectively.

Additionally, in order to reduce the liabilities of the defined benefit plan, the Authority is required to contribute the difference between the established 16.5% defined benefit employer contribution rate and the amount required to match the participating employees' contribution in the defined contribution plan. The amounts contributed by the Authority for the years ended December 31, 2020 and 2019 to meet this requirement are included with the Authority's contributions noted in Note 7. The Authority reports no liabilities for Pathfinder at December 31, 2020 and 2019.

NOTE 9. OTHER POSTEMPLOYMENT BENEFITS

PLAN DESCRIPTION

For the Authority, two plans are classified as postemployment benefits other than pensions (OPEB). The Health Insurance Subsidy Plan (the HISP Plan) is administered by the Oklahoma Public Employees Retirement System (the OPERS). The State of Oklahoma Implicit Rate Subsidy of Health Insurance is defined as the Employee Group Insurance Division Plan (the EGID Plan) and is administered by the Employee Group Insurance Division (the EGID).

As a participant in the OPERS pension plan, the Authority recognizes a proportionate share of the total OPERS OPEB liability for the HISP Plan. The Authority's proportionate share of the total OPERS OPEB liability is based on actual contributions made to the Plan for pensions. The HISP Plan provides a health insurance premium subsidy for retirees of the Authority who elect to maintain health insurance with the EGID. The HISP Plan is a component of the Oklahoma Public Employees Retirement Plan (the Plan), a cost-sharing multiple employer public employee defined benefit plan.

annual financial report that includes financial statements and required supplementary information for the HISP Plan. That annual report may be obtained at http:// www.opers.ok.gov/wp-content/uploads/2020/11/2020 CAFR OPERS.pdf.

As a participant in the EGID's health insurance plan, the Authority recognizes a proportionate share of the total EGID OPEB liability. The Authority's proportionate share of the total EGID OPEB liability is based on the number of active Authority employees compared to total EGID active participants, as of the measurement date. The EGID is statutorily required to make health insurance premiums for pre-Medicare retirees and active employees the same. An implicit rate subsidy is the result of blended premium rates from the participation of current employees, retired employees and retirees that are not yet eligible for Medicare benefits. The EGID Plan is a non-trusted single-employer plan, and as a result, there are no assets to net against the total liability; for financial statement purposes, the Authority treats this plan as a cost-sharing multiple employer plan. Separately issued reports for the EGID Plan may be obtained at https://omes.ok.gov/services/accountingreporting.

BENEFITS PROVIDED

The HISP Plan contributes a health insurance premium subsidy of \$105 per month or the Medicare Supplement Premium to the EGID for retirees of the Authority who elect to maintain health insurance with the EGID. This subsidy continues until the retiree terminates health insurance coverage with EGID, or until death. The subsidy is only for the retiree, not joint annuitants or beneficiaries. Employees who first became employed by the Authority on or after November 1, 2015, and have no prior participation in the Plan are not eligible to receive the HISP Plan subsidy.

The EGID Plan provides healthcare coverage for employees and dependents from the date of retirement to age 65, provided the participant was covered by the Plan before retiring. Post-retirement medical benefits are provided until age 65 if the retiree and spouse pay the full active premium. Participants can elect to enroll in special coverage, and surviving spouses may continue until age 65.

EMPLOYEES COVERED

Participant data for the EGID Plan is as follows:

	MEASUREMENT DATE					
Participant Data	July 1, 2020	July 1, 2019				
Active Employees	31,280	32,057				
Terminated, vested inactive participants	2,682	3,038				
Total Participants	33,962	35,095				
Authority's active participants	529	524				

CONTRIBUTIONS

Contributions made to the Plan are allocated to the pensions. The Authority does not make additional contributions to the OPERS for the HISP Plan.

The EGID Plan is funded by both participants and the Authority on a "pay as you go" basis. Medical plan premiums are assessed and remitted systematically to cover the plan's benefit obligations.

ACTUARIAL ASSUMPTIONS

The OPEB liability as of June 30, 2020 and 2019, was determined based on actuarial valuations prepared as of July 1, 2020 and 2019, respectively, using the following actuarial assumptions:

The HISP Plan actuarial assumptions used in the July 1, 2020 valuation are based on the results of the most recent actuarial experience study, which covered the three-year period ending June 30, 2019. The experience study report is dated May 13, 2020. The HISP Plan actuarial assumptions used in the July 1, 2019 valuation are based on the results of the actuarial experience study, which covered the three-year period ending June 30, 2016. The experience report is dated April 13, 2017. The EGID Plan actuarial assumptions used in the June 30, 2020 valuation is based on a measured date of July 1, 2019, with a measurement period of July 1, 2018 to July 1, 2019. The EGID Plan actuarial assumptions used in the June 30, 2019 valuation is based on a measured date of July 1, 2018, with a measurement period of July 1, 2017 to July 1, 2018.

The long-term expected rate of return on the HISP Plan OPEB investments was determined using a log-normal distribution analysis in which best estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. As indicated in the chart below, there is not a calculation for the longterm expected rate of return on the EGID Plan OPEB investments because the Plan Is unfunded and benefits are not paid from a qualifying trust.

In 2020, best estimates for each major asset class used arithmetic real rates of return, for the HISP Plan OPEB liability. In contrast, 2019 best estimates for each major

Actuarial Assumptions	HISP Plan 2020	EGID Plan 2020 HISP Plan 2019		EGID Plan 2019
Investment return, net of investment expense and including inflations	6.5%	N/A- the Plan is unfunded and benefits are not paid from a qualifying trust	7.00%	N/A- the Plan is unfunded and benefits are not paid from a qualifying trust

asset class used geometric real rates of return. Target asset allocations and best estimates of real rates of return for each major asset class as of June 30, 2020 and 2019, respectively, for the HISP Plan OPEB liability are as presented. As a non-trusted plan, the EGID Plan does not have any assets, therefore there are not any asset classes with which to measure target allocations and long term expected real rates of return.

	2020			2019
Asset Class	Target Allocation	Long-Term Expected Real Rate of Return	Target Allocation	Long-Terr Expected R Rate of Ret
U.S. Large Cap Equity	34.0%	4.7%	38.0%	3.8%
U.S. Small Cap Equity	6.0%	5.8%	6.0%	4.9%
Int's Devel- oped Equity	23.0%	6.5%	-	-
Emerging Market Equity	5.0%	8.5%	-	-
Core Fixed Income	25.0%	0.5%	-	-
Long Term Treasuries	3.5%	-	-	-
U.S. Tips	3.5%	0.3%	-	-
U.S. Fixed	-	-	32.0%	1.4%
Non - U.S Equity	-	-	24.0%	9.2%
Total	100.0%		100.0%	

The discount rate used to measure the HISP Plan OPEB liability was 6.5% for 2020 and 7.0% for 2019. The projection of cash flows used to determine the discount rate assumed that contributions from employees and employers will be made at the current contribution rate as set out in Oklahoma Statute. Based on those assumptions, the HISP Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current Plan members. Therefore, the long-term expected rate of return on HISP Plan OPEB investments was applied to all periods of projected benefit payments to determine the HISP Plan OPEB liability. The discount rate determined does not use a municipal bond rate.

The discount rate used to measure the EGID Plan OPEB liability was 3.5% and 3.9% for 2020 and 2019, respectively. The discount rate determined used the Bond Buyer Go-20-Bond Municipal Bond Index.

SENSITIVITY OF THE OPEB ASSET/LIABILITY

The following presents the Authority's proportionate share of the net HISP Plan OPEB liability (asset) calculated using the discount rate of 6.5% for 2020 and 7.0% for 2019. The Authority's proportionate share of the net EGID Plan OPEB liability using the discount rate of 3.5% and 3.9% for 2020 and 2019, respectively, is also calculated and presented below, as well as what the Authority's proportionate share of both the net HISP Plan OPEB liability (asset) and the net EGID Plan liability would be if they were calculated using a discount rate that is 1% lower or 1% higher than the current rate.

	1% Decrease	Current Discount Rate		1% Increase
HISP Plan	5.5%		6.5%	7.5%
2020	\$ (141,832)	\$	(557,085)	\$ (912,963)
	6.0%		7.0%	8.0%
2019	\$ (74,381)	\$	(470,899)	\$ (811,967)
EGID Plan	2.5%		3.5%	4.5%
2020	\$ 2,080,138	\$	1,948,749	\$ 1,826,075
	2.9%		3.9%	4.9%
2019	\$ 2,218,453	\$	2,079,051	\$ 1,949,305

SENSITIVITY OF THE HEALTHCARE TREND FOR THE EGID PLAN

The following presents the Authority's proportionate share of the net EGID Plan OPEB liability calculated using the 2020 healthcare trend rates of 5.3% decreasing to 5.0% and the 2019 healthcare trend rates 7.1% decreasing to 4.6%. Also presented is what the Authority's proportionate share of the net EGID Plan OPEB liability would be if it were calculated using a healthcare trend rate that is 1% lower or 1% higher than the current rate.

	1% Decrease	Current Discount Rate	1% Increase
EGID Plan	4.3% decreasing to 4.0%	5.3% decreasing to 5.0%	6.3% decreasing to 6.0%
2020	\$1,783,583	\$1,948,749	\$2,141,009
	6.1% decreasing to 3.6%	7.1% decreasing to 4.6%	8.1% decreasing to 5.6%
2019	\$1,891,889	\$2,079,051	\$2,296,314

OPEB LIABILITIES

At December 31, 2020, the Authority reported an asset of \$0.6 million for its proportionate share of the net HISP Plan and a liability of \$2.0 million for its proportionate of \$1.4 million. At December 31, 2019 the Authority for the HISP Plan. At June 30, 2020 the Authority's reported its proportionate share of the net HISP Plan liability of \$0.5 million and its proportionate share of the net EGID Plan liability of \$2.1 million for a total OPEB liability of \$1.6 million. The annual activity is shown below:

below.	Beginning Balance	Additions Reductions		Ending Balance
2020				
HISP Plan	\$ (470,899)	\$ 174,185	\$ (260,372)	\$ (557,086)
EGID Plan	2,079,051	145,767	(276,069)	1,948,749
Total	1,608,152	319,952	(536,441)	1,391,663
2019				
HISP Plan	\$ (148,571)	\$ 6,216	\$ (328,544)	\$ (470,899)
EGID Plan	2,114,618	124,036	(159,603)	2,079,051
Total	1,966,047	130,252	(488,147)	1,608,152

OPEB EXPENSE

The net HISP Plan OPEB asset was measured as of June 30, 2020 and 2019, and the total HISP Plan OPEB asset used to calculate the HISP Plan asset was determined by an actuarial valuation as of July 1, 2020 and 2019, respectively. The OPERS determined that the actual contributions made to the Plan during

share of the net EGID Plan for a total OPEB liability the fiscal year are appropriate as the allocation basis proportionate share of the net HISP Plan OPEB asset and corresponding employer HISP Plan OPEB amounts was approximately 1.19%, a decrease from its proportion of 1.21%, measured as of June 30, 2019.

> The net EGID Plan OPEB liability was measured as of June 30, 2020, and the total EGID Plan OPEB liability used to calculate the net EGID Plan OPEB liability was determined by an actuarial valuation as of July 1, 2020. The EGID Plan determined that the number of active employees as of the measurement date was appropriate as the allocation basis. At June 30, 2020 and 2019, the Authority's proportionate share of the net EGID Plan OPEB liability and corresponding employer EGID Plan OPEB amounts was approximately 1.47% and 1.42%, measured as of June 30, 2020 and 2019, respectively. The Authority recognized total OPEB contra expense of approximately \$208,000 and approximately \$103,000 as of December 31, 2020 and 2019, respectively.

	2020	020 2019	
HISP Plan	\$ (176,201)	\$	(129,465)
EGID Plan	(31,661)		26,405
Total	\$ (207,862)	\$	(103,060)

At December 31, 2020 and 2019, the Authority reported deferred outflows of resources and deferred inflows of resources related to OPEB as shown in the table below.

	Deferred Outflows of Resources 2020	Deferred Inflows of Resources 2020	Deferred Outflows of Resources 2019	Deferred Inflows of Resources 2019	
Difference between expected and actual experience

NOTE 11. OPERATING LEASES

The Authority has entered into various non-cancelable contracts with concessionaires to provide customer services on the Oklahoma Turnpike System. The contracts are generally for five-year terms, with two five-year renewal options. These contracts provide for the Authority to receive concession revenue, including minimum rentals plus contingent rentals based on sales volume. The Authority also leases antenna space under non-cancelable contracts with a 20-year term. The total cost of leased concession areas was \$42.5 million at the end of December 31, 2020 and 2019, and accumulated depreciation totaled \$15.1 million and \$14.0 million respectively. As of December 31, 2020, total future minimum rental payments approximate:

Year	Minimum Lease Rental
2021	\$ 1,509,743
2022	1,512,217
2023	1,512,217
2024	1,523,163
2025	1,569,475
Thereafter	16,280,287
Total	\$ 23,907,102

NOTE 12. GILCREASE EXPRESSWAY PROJECT

The Authority has adopted several resolutions to facilitate the financing, construction and ultimately the maintenance and operations of the Gilcrease Expressway Project (the Gilcrease). This project is a five mile, four-lane roadway that will consist of 22 bridges and fulfill a critical transportation need for the western Tulsa metropolitan area.

In conjunction with its normal operations, the Authority No single entity was able to finance and construct the is exposed to various risks related to the damage Gilcrease, so an innovative partnership has been formed or destruction of its assets from both natural and with several governmental entities to leverage available man-made occurrences, and tort/liability, errors and resources. The Authority has established a funding omissions and professional liability claims. As a result partnership with the ODOT, the City of Tulsa, Tulsa of these exposures, the Authority has developed County, the Indian Nations Council of Governments, the a comprehensive risk management program that federal government and a competitively selected buildparticipates with the State of Oklahoma's Risk finance partner. Management Division in a pooled operation for the majority of this coverage.

After receiving financing ideas from interested parties in response to a Request for Information, the Authority completed a public sector comparator, which determined

the build-finance delivery method is the most cost effective. In mid-2018, the Authority issued a Request for Qualifications; a shortlist of potential private partners was accepted in late 2018. The issuance of a Request for Proposals to these potential partners occurred in mid-2019. The Authority awarded the build-finance project to the team of AECOM/Duit in July 2019.

In late May 2018, the ODOT issued Grant Anticipation Revenue Vehicle (GARVEE) bonds of \$71.4 million as an additional funding source. These bonds do not constitute indebtedness of the Authority and as such, are not reflected on the Statements of Net Position. These bond proceeds are dedicated as funding for qualified costs incurred by the OTA for the Gilcrease. GARVEE proceeds utilized by the OTA are reflected as 'Contributed revenue' on the Statements of Revenues, Expenses and Changes in Net Position. The total amount recognized was \$47.3 and \$17.3 million for 2020 and 2019, respectively.

On May 8, 2020, the U.S. Department of Transportation and the OTA executed a Transportation Infrastructure Finance and Innovation Act (TIFIA) loan agreement of up to just over \$120.1 million. The TIFIA loan proceeds will be made available in one disbursement upon achievement of substantial completion of the construction of the project by Gilcrease Developers LLC (the Project Company). Loan proceeds will be used towards the partial repayment of the Project Company's interim financing. Construction on the Gilcrease Expressway began on February 1, 2020 and is expected to be completed in mid-2022.

NOTE 13. RISK MANAGEMENT

As a member of the State of Oklahoma Risk Management pool, the Authority assumes the responsibility for maintaining and reporting to the pool all real and personal property for which it requires insurance coverage. The Authority is also responsible for providing relevant financial and operational data to the pool for all potential losses. The pool, on the other hand, serves as the primary insurer to the Authority with additional layers of coverage provided by commercial insurers for coverage in excess of the self-retained levels of risk assumed by the pool and the governmental immunity provided by state statutes.

The Authority also carries insurance with private insurers for a few high-risk assets under an "all risks" policy. Additional details of this coverage and the corresponding levels of self-retained risk and limits of coverage are noted separately on the "Schedule of Insurance in Force" in the statistical section of this report.

The self-retention level for property and casualty coverage for non-bridge property is \$10,000 per incident, while the overall limit of coverage for bridges and non-bridge property is approximately \$1,796.0 million. All categories of insurance coverage in place were either maintained at current levels or increased as to overall limits of coverage and reduction of self-retained risk to reduce the overall exposure of risk to the Authority. There were no settlements in excess of insurance coverage in 2020, 2019 or 2018.

NOTE 14. DISAGGREGATION OF RECEIVABLE AND Payable balances

Receivables are primarily comprised of current customer receivables 47.0% and 27.7%, and intergovernmental receivables representing 16.4% and 42.5% at December 31, 2020 and 2019, respectively. Remaining current receivables are comprised of 36.6% and 29.8% other receivables at December 31, 2020 and 2019, respectively. Receivables are shown net of an allowance for uncollectibles of (\$4.8 million) and (\$3.9 million) at December 31, 2020 and 2019, respectively.

Payable balance are comprised of 74.0% and 79.5% current accounts payable and accrued expenses to

contractors and vendors and 10.6% and 7.4% in other payables at December 31, 2020 and 2019 respectively. Current intergovernmental payable balances are comprised of 15.4% and 13.1% at December 31, 2020 and 2019.

NOTE 15. LITIGATION AND CONTINGENT LIABILITIES

The Authority is a defendant in various litigation. Although the outcome of these matters is not presently determinable, in the opinion of the Authority's management, the resolution of these matters will not have a material adverse effect on the financial condition of the Authority.

NOTE 16. COMMITMENTS

At December 31, 2020 and 2019, the Authority had commitments outstanding relating to equipment orders and supplies of \$12.5 million and \$8.7 million respectively. At December 31, 2020 and 2019, the Authority had commitments outstanding relating to construction and maintenance contracts of approximately \$99.7 million and \$178.1 million respectively.

Notes to Required Supplementary Information, Years Ended December 31, 2020 and 2019

Per Oklahoma Statutes, the Plan has been amended effective November 1, 2015, so that the OPERS has created a defined contribution plan. Employees first employed on or after November 1, 2015 with no prior participation in the Plan will participate in the mandatory defined contribution plan.

The 2.5% inflation rate for 2020 was a decrease from the 2019 inflation rate of 2.75%. The 6.5% investment rate of return for 2020 was a decrease from the 2019 investment rate of return of 7.0%. The payroll growth of 2.5% in 2020 was a decrease from the 2019 payroll growth rate of 2.75%. For 2020, the expectation of retired life mortality for active participants and nondisabled pensioners was based on the Pub-2010 Mortality Table projected to 2030 by Scale MP-2019 (male rates set back one year, female rates set forward one year) rather than on the RP-2014 Mortality Table projected to 2025 by Scale MP-2016 (disabled pensioners set forward 12 years), which was used in 2019. All other assumptions remained consistent for the years ended December 31, 2020 and 2019.

Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Independent Auditor's Report

Members Oklahoma Turnpike Authority Oklahoma City, Oklahoma

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the Oklahoma Turnpike Authority (the Authority), which comprise the statement of financial position as of December 31, 2020, and the related statements of revenues, expenses, and changes in net position and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated March 30, 2021, which contained an *Emphasis of Matter* paragraph related to other auditors who audited the prior year.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Authority's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Members Oklahoma Turnpike Authority

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

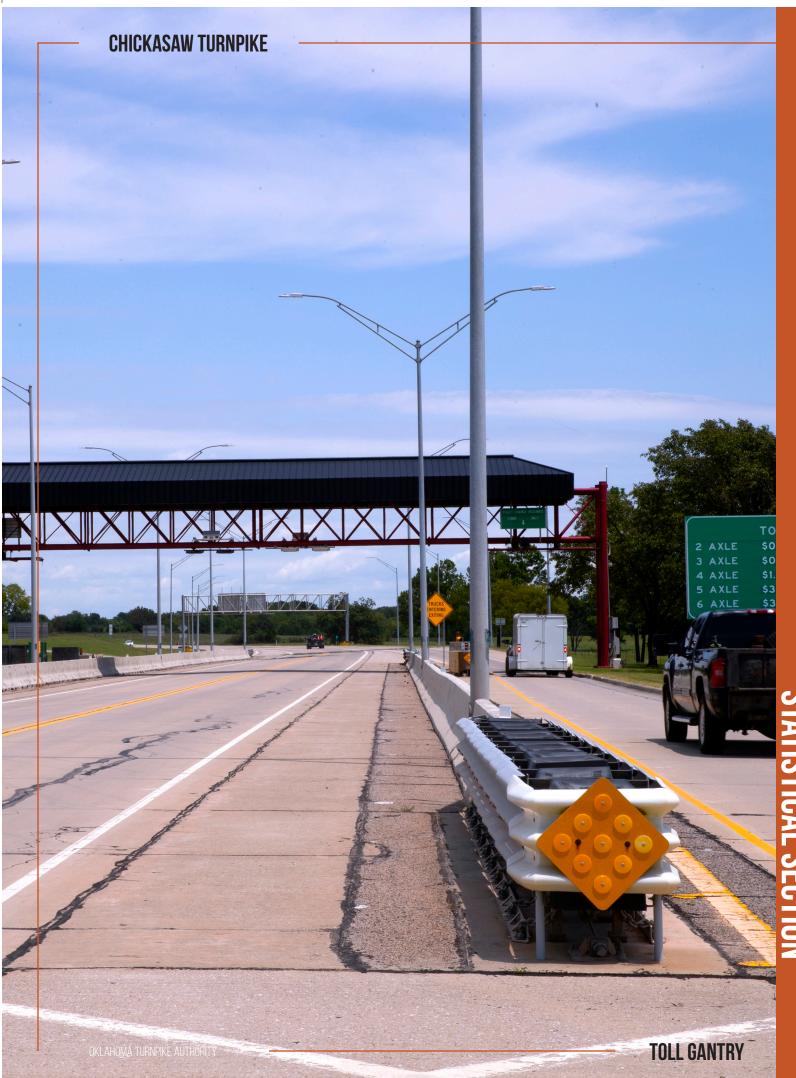

Purpose of This Report

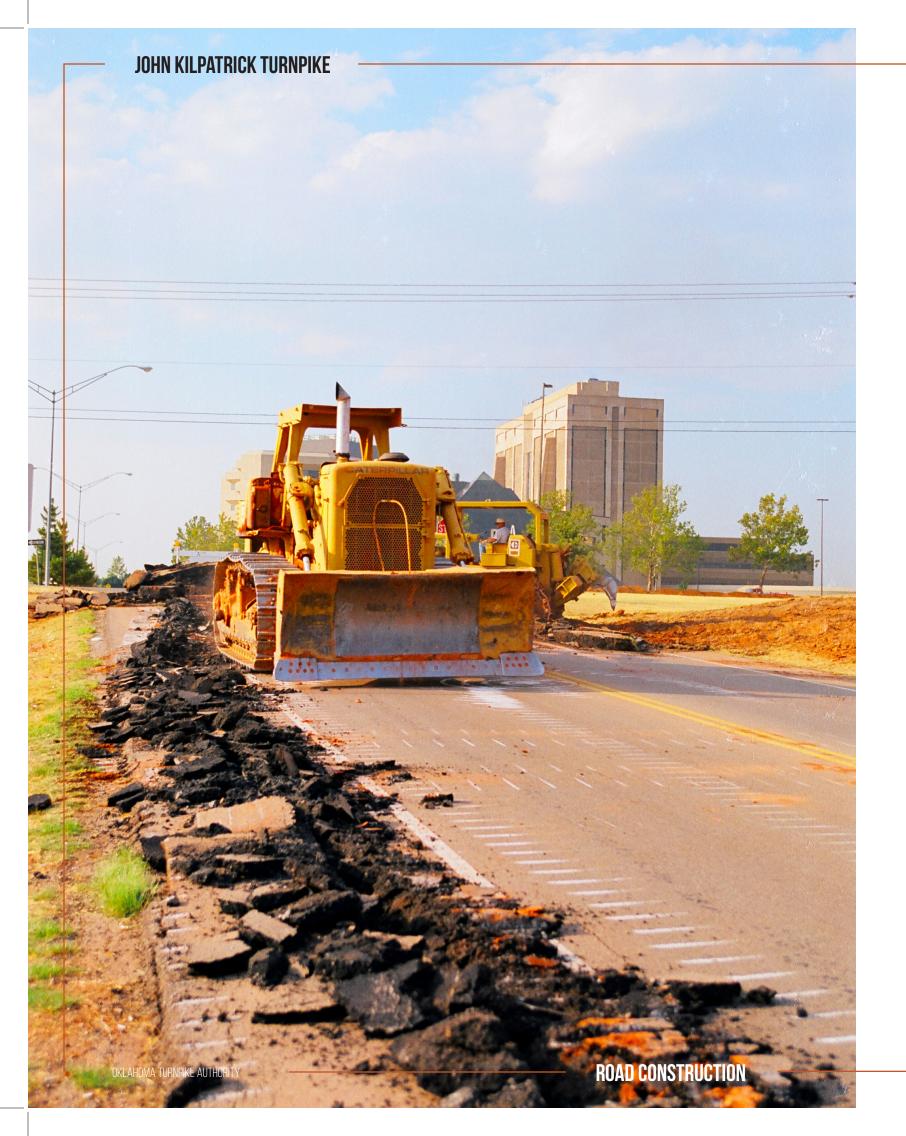

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Note: In March 2020, the COVID-19 virus was declared a pandemic, resulting in national and gubernatorial responses creating a global economic crisis. With the significant disruption in traffic and revenue, revenue and expense expectations were monitored and adjusted as necessary. In 2018, the ODOT issued \$71.4 million in Grant Anticipation Revenue Vehicle (GARVEE) bonds to finance a portion of the Gilcrease Expressway project. These bonds do not constitute indebtedness of the Authority but are dedicated as funding for qualified costs incurred by the OTA for the Gilcrease. GARVEE proceeds utilized by the OTA are reflected as other non-operating revenue. In 2017, the OTA recorded the cumulative effect of the change in accounting principle for the implementation of GASB 75. The net effect of the retroactive application was \$2,265 (presented in thousands of dollars). In 2015, the OTA recorded the cumulative effect of the change in accounting principle for the implementation of GASB 68. The net effect of the retroactive application was \$9,638 (presented in thousands of dollars). In 2013, the OTA implemented GASB 65, effective as of January 1, 2012. The effect of this implementation was a reduction of 2012 depreciation and amortization expense of \$341 (presented in thousand of dollars). In 2012, the OTA ecorded the cumulative effect of the change in accounting principle for the implementation of GASB 62. The net effect of this retroactive application was \$7,937 (presented in thousands of dollars).
