Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the financial reporting provisions of the Oklahoma State Department of Education described in Note I. This includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to error or fraud.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note I and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to in the first paragraph do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Ardmore School District No. I-19, Carter County, Oklahoma, as of June 30, 2020, the changes in its financial position for the year then ended.

The lease agreements will remain in effect to June 30, 2034. In conjunction with these lease agreements, the District will issue general obligation bonds to repay the lease. On January 30, 2020, the District received \$1,450,000 proceeds from the \$3,780,000 General Obligation Combined Purpose Bonds for the 2018 CCPFA lease payment.

In response to the global COVID-19 pandemic, the Oklahoma State Board of Education recommended that all school districts be closed beginning mid-March 2020. The Governor of Oklahoma declared a State of Emergency and granted this request. The District converted to distance learning for the remainder of the school year. Essential personnel continued to work on premises. The child nutrition program continued to prepare meals for students which were delivered by bus drivers to various bus stops. The District fully reopened on June 1, 2021.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the entity's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* include the statement of net position – regulatory basis and the statement of activities – regulatory basis and are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The *statement of net position – regulatory basis* presents information on all of the District's assets and liabilities, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *statement of activities – regulatory basis* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported using the regulatory basis of accounting whereby revenues represent cash receipts collected by June 30th and

expenditures represent cash disbursements modified by encumbrances, investments, inventories, capital assets, depreciation, and long-term debt.

The governmental activities of the District include instruction, supporting services, non-instruction services, capital outlay, and other outlays. These functions are principally supported by State of Oklahoma appropriations, grants and fees.

The government-wide financial statements can be found on pages 16-17 of this report.

Overview of the Financial Statements (Continued)

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The District only has governmental funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on cash collections and encumbrances, as well as balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet – regulatory basis and the governmental fund statement of revenues, expenditures, and changes in fund balances – regulatory basis provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The District maintains seventeen individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Building Fund, Sinking Fund, and CCPFA 2018 Bond Fund which are considered to be major funds. Data from the other thirteen governmental funds are combined into an aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements* elsewhere in this report.

The District adopts an annual appropriated budget for its general fund, building fund, child nutrition fund, coop fund, and sinking fund. A budgetary comparison statement has been provided for the general fund and all major funds to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 18-19 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 21-36 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain *other information* concerning the District's budget to actual schedules on major governmental funds, combining and individual fund statements and schedules. Other information can be found on pages 38-47 of this report.

The District's Changes in Net Position

Government-wide Financial Analysis (Continued)

For the year ended June 30, 2020, Charges for Services revenues decreased \$222,748 primarily due to the State-mandated school closure from mid-March through the end of May 2020. Many student activities, such as athletic games, academic contests, fundraising, cafeteria sales, and bus rentals were halted and cancelled for the last nine weeks of the semester.

The District's Operating Grants and Contributions had a net decrease of \$404,000 during the year ended June 30, 2020, due to the timing of federal claim reimbursements which were offset by several one-time donations.

Property taxes levied for general purposes and building purposes increased \$652,531 and \$93,245, respectively, during the year ended June 30, 2020, primarily due to an increase of 4.3% in property valuations.

Property taxes levied for sinking fund purposes increased \$158,710 during the year ended June 30, 2020, due to timing of payments on outstanding bond debt.

General taxes decreased \$171,504 primarily due to a decrease in Gross Production Taxes offset by increase in Motor Vehicle tax and County 4-Mill tax collections.

Investment earnings decreased \$62,804 primarily due to lower interest rates and less cash to invest.

State Aid – Noncategorical revenues decreased \$438,881 primarily due to the effects of the following categories in the state aid formula: increase in state aid factors (\$677,183), decrease in weighted ADM (\$324,112), increase in ad valorem chargeable (\$653,470), and an increase in other chargeables (\$223,720). In addition to the decrease in the state aid formula, there was an increase in flexible benefit allowance of \$85,238.

The \$8,771 Gain on Disposal of Assets for the year ended June 30, 2020, is primarily attributable to the sale of older vehicles.

Miscellaneous Revenues decreased \$2,995,973 primarily due to the premium received during the prior year on the 2018 CCPFA lease revenue bonds.

Instruction expenses increased \$486,963 primarily due to an increase in salaries (\$295,063) as a result of staffing changes and step raises, and increased technology purchases (\$253,362) due to distance learning.

Support Services decreased \$1,443,642 primarily due to FY19 bond issuance costs including the CCPFA 2018 lease revenue series bonds (\$863,413); decrease in student supplies, entry fees, and

student travel as a result of the State-mandated school closure (\$150,144); a decrease in maintenance repairs and supplies, utilities, and transportation supplies as a result of State-mandated school closure and reclassification of expenses to Building Fund (\$432,380); termination of School Resource Officer contract with the City of Ardmore (\$58,595); offset by increases in salaries due to step raises and staffing changes (\$213,101) and depreciation (\$49,591).

Operation of Noninstructional Services decreased \$97,512 primarily due to decreased cafeteria supplies as a result of the State-mandated school closure (\$127,111); decrease in fundraising expenses as a result of the State-mandated school closure (\$40,839); offset by increases in salaries due to step raises and staffing changes (\$52,521) and cafeteria equipment repairs (\$20,550).

Interest on Long-Term Debt of \$2,192,629 includes \$1,809,356 interest on the 2013 and 2018 CCPFA lease revenue bonds and \$383,273 on general obligation bonds.

Financial Analysis of the Government's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with financerelated legal requirements.

Governmental funds. The focus of the District's *governmental funds* is to provide information on cash collections and encumbrances, as well as balances of spendable resources available at the end of the fiscal year. Such information is useful in assessing the District's financing requirements.

As of the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$36,919,618, a decrease of \$3,544,464 in comparison with the prior year. This amount includes \$300,217, *assigned fund balance*, which is available for next year's general operations of the District.

The general fund is the chief operating fund of the District. At the end of the current fiscal year, total fund balance of the general fund was \$418,070, of which \$117,853 was restricted by state statute, donors and external grantors.

General Fund Budgetary Comparisons

The District budgets conservatively. Revenues are budgeted based upon statutorily-limited amounts equaling 90% of the prior year's collections; approved millage rates for ad valorem taxes; and approved allocation amounts from federal, state, and local grantors. Expenditures and carryover are budgeted based upon the legal appropriations approved by the county excise board.

During fiscal year ended June 30, 2020, General Fund property tax revenue was \$527,034 greater than the budgeted amount, reflecting a 9% increase in revenues. This increase is due to an increase in collections of prior years' taxes and current year taxes collected above the 10% allowance for delinquent accounts.

State revenues decreased \$656,502 primarily due to a decrease in State Foundation and Salary Incentive Aid of \$698,269, decrease in Gross Production Tax of \$296,230, offset by an increase of \$288,389 in Motor Vehicle taxes.

Federal revenues increased \$121,891 primarily due to the timing of federal claim reimbursements.

Other revenues decreased \$111,620 primarily due to decrease in reimbursements from other funds.

General fund actual instruction expenditures were \$368,323 less than budgeted instruction expenditures due to the District's conservative approach to carryover fund balance to the next fiscal year.

Capital Asset and Debt Administration

Capital assets. The District's investment in capital assets for its governmental activities as of June 30, 2020, amounts to \$48,282,421 (net of accumulated depreciation). This investment in capital assets includes land, land improvements, buildings, buses, vehicles, machinery and equipment, and construction in progress. The net increase in the District's capital assets for the current fiscal year was \$866,774.

Other Currently Known Facts, Decisions, or Conditions

In November 2020, the Board of Education approved the sale of \$3,875,000 General Obligation Combined Purpose Bonds; the proceeds were received by the District on January 7, 2021. The purpose of these bonds were to provide \$300,000 proceeds for the Transportation series bonds, \$2,075,000 proceeds for the 2013 CCPFA lease payment, and \$1,500,000 proceeds for the 2018 CCPFA lease payment.

As part of the Coronavirus Response and Relief Supplemental Appropriations Act (CCRSA) of 2021, the District received a federal grant allocation of \$3,855,459 out of the Elementary and Secondary School Emergency Relief (ESSER) II fund. Allowable uses of ESSER II funds include any expense related to preventing, preparing for and responding to COVID-19, as well as addressing and mitigating learning loss, restoring and maintaining high-quality learning environments, and testing, repairing, and upgrading projects to improve air quality in school buildings.

On March 11, 2021, the President of the United States signed into law the American Rescue Plan Act of 2021. This law provides additional relief to address the continue impact of COVID-19 on the economy, public health, state and local governments, individuals and businesses. Within the American Rescue Plan Act, there is funding for schools. The District anticipates receiving a substantial allocation of grant money from this new law.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Ardmore School District No. I-19, Carter County, Oklahoma (the "District") is a corporate body for public purposes created under Title 70 of the Oklahoma Statutes and accordingly is a separate entity for operating and financial reporting purposes. The District is part of the public school system of Oklahoma under the general direction and control of the State Board of Education and is financially dependent on the state of Oklahoma for support. The general operating authority for the public school system is the Oklahoma School Code contained in Title 70, Oklahoma Statutes.

The Reporting Entity

The governing body of the District is the Board of Education composed of elected members. The superintendent is the executive officer of the Board of Education and the administrative head of the District.

Financial Statement Presentation

The District prepares its financial statements in a presentation format that is, in substance, the format established by the Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statement-Management's Discussion and Analysis-for State and Local Governments*.

GASB Statement No. 34 established a financial reporting model for state and local governments that included the addition of management's discussion and analysis, government-wide financial statements, required supplementary information and the elimination of the effects of internal service activities and the use of account groups to the already required fund financial statements and notes.

Government-Wide and Fund Financial Statements

The District's basic financial statements include both government-wide (reporting the District as a whole) and fund financial statements (reporting the District's major funds). Both government-wide and fund financial statements categorize primary activities as either governmental or business type. Governmental activities include programs primarily supported by taxes, State aid, grants and other intergovernmental revenue. The District does not have any activities classified as business-type. The government-wide focus is more on the sustainability of the District as an entity and the change in the District's net position resulting from current year's activities.

Government-Wide Financial Statements: In the government-wide Statement of Net Positionregulatory basis, the District's governmental activities are reported on cash receipts and disbursement basis modified as required by regulations of the Oklahoma Department of Education to include fixed assets, long-term debt and obligations. The District's net position is reported in three parts: net investment in capital assets, restricted net position and unrestricted net position.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The government-wide Statement of Activities – regulatory basis reports both the gross and net cost of each of the District's programs and functions. The functions are also supported by general government revenues. The Statement of Activities – regulatory basis reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. *Direct expenses* are those that are clearly identifiable with a specific function. *Program revenues* include 1) charges to students, faculty, individuals, or other school districts that purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes, interest, transfers and other items not properly included among program revenues are reported instead as *general revenues*.

All interfund transactions are eliminated in the government-wide statements.

Fund Financial Statements: Governmental fund financial statements are reported using the cash receipts and disbursements basis of accounting modified as required by the Oklahoma Department of Education to include investments and inventories on hand, encumbrances issued and warrants outstanding. The fund financial statements provide reports on the financial condition and results of operations of governmental fund categories.

The District reports the following major governmental funds:

General Fund is the primary operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

Building Fund is used to account for resources restricted by statutes for ad valorem taxes designated for repair, maintenance, acquisition and construction of buildings.

Debt Service Fund – The District accounts for the accumulation of funds for the periodic payment of general long-term debt in this fund.

CCPFA 2018 Bond Fund 32 – is used to account for proceeds from long-term financing and revenues and expenditures related to authorized construction and other capital asset acquisitions.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Additionally, the District reports the following fund types included in the Other Governmental Funds column:

Special Revenue Funds – The District accounts for resources restricted or committed to specific purposes other than debt service or capital projects where the foundation for the fund is those resources or if the fund is legally mandated in special revenue funds.

Capital Project Funds -- The proceeds from long-term financing and revenues and expenditures related to authorized construction and other capital asset acquisitions are accounted for in a capital projects fund.

Permanent Fund – The District reports resources that are restricted to the extent that only earnings, and not principal, may be used to support the District's programs in this fund.

Basis of Accounting

Basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

As to the basis of accounting, the basic financial statements are essentially prepared on a basis of cash receipts and disbursements modified as required by the regulations of the Oklahoma Department of Education as follows:

- Encumbrances represented by purchase orders, contracts, and other commitments for the expenditure of monies and are recorded as expenditures when approved.
- Vendor obligations due and payable for goods and services received are recorded as a payable until paid.
- Warrants/Checks payable are recorded as liabilities when issued.
- Investments and inventories are recorded as assets when purchased and reduced when used.
- Capital assets in the government-wide statements are recorded when acquired and depreciated over their useful lives.
- Long-term debt reported in the government-wide statements is recorded when incurred.
- Accrued compensated absences are recorded as an expenditure and liability when the obligation is incurred.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

This regulatory basis of accounting differs from accounting principles generally accepted in the United States of America, which would have required the government-wide financial statements as well as the fiduciary fund financial statements to be presented on the accrual basis of accounting. The fund financial statements under accounting principles generally accepted in the United States of America would have been presented on the modified accrual basis of accounting. These financial statements are presented on the basis of accounting described above.

Deposits and Investments

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Collateral in the form of obligations of the U.S. government or its agencies, municipalities or the State of Oklahoma is required for demand deposits and certificates of deposit for all amounts not covered by federal depository insurance.

Permissible investments include direct obligations of the United States government and agencies; certificates of deposit of savings and loan associations, and bank and trust companies; and savings accounts or savings certificates of savings and loan associations, banks and trust companies.

Investments for the District are reported at historical value. The investments held by the District as equity securities were donated.

Inventories

The value of consumable inventories at June 30, 2020 is not material to the financial statements. On the government-wide financial statements, United States Department of Agriculture (USDA) food commodities are recorded as revenue at fair value as of the date of receipt and as an expense when used. USDA food commodities are not reported in the governmental funds.

Capital Assets

Capital assets, which include land, land improvements, buildings, buses and vehicles, machinery and equipment, and construction in progress, are reported in the applicable governmental activities columns in the government-wide financial statements. Capital assets

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

are defined by the government as assets with an initial individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant, and equipment of the District, is depreciated using the straight-line method over the following estimated useful lives.

Assets	Years
Land Improvements	15
Buildings	20 - 40
Buses & Vehicles	5 - 10
Machinery and Equipment	3 - 10

Net Position

When the District incurs an expense for which it may either use restricted or unrestricted net position, it uses restricted net position first unless unrestricted net position will have to be returned because they are not used.

Net assets on the Statement of Net Position – Regulatory Basis include the following:

<u>Net Investment in Capital Assets</u>, – The component of net position that reports the difference between capital assets less both accumulated depreciation and the outstanding balance of debt that is directly attributable to the acquisition, construction and improvement of these capital assets.

<u>Restricted for Building Services</u> – The component of net position that reports the excess of property taxes and other revenues collected in excess of expenses for operation of the District's buildings. This amount is restricted by Oklahoma Statutes.

<u>Restricted for Child Nutrition</u> – The component of net position that report the assets restricted for use by the Child Nutrition program.

<u>Restricted for Debt Service</u> – The component of net position that report the assets restricted for payment of principal and interest on general long-term debt.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

<u>Restricted for Instructional Materials and Technology</u> – The component of net position that report the excess of sales tax restricted for technology and instructional materials by voters.

<u>Restricted for Alternative Education</u> – The component of net position that report the assets restricted for alternative education programs.

<u>Restricted for School Organizations</u> – The component of net position that report the assets restricted for use by student organizations and extracurricular activities. This amount is restricted by Oklahoma Statutes.

<u>Restricted for Scholarships</u> – The component of net position that report the assets restricted for scholarships.

<u>Unrestricted</u> – The difference between assets and liabilities that is not reported as restricted for any other purposes.

Fund Equity

The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

- <u>Nonspendable</u>: This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact. The District has classified the original funds donated in the Endowment Fund as being nonspendable as these amounts are legally required to be maintained intact.
- <u>Restricted</u>: This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation. The District has classified amounts restricted by state statute, donors and external grantors in this classification.
- <u>Committed:</u> This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the Board of Education. These amounts cannot be used for any other purpose unless the Board of Education removes or changes the specified use by taking the same type of action (resolution) that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements. The District has classified school organization activities as being committed because their use is governed by Board of Education.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

- <u>Assigned:</u> This classification includes amounts that are constrained by the District's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the Board of Education or through the Board of Education delegating this responsibility to the superintendent through the budgetary process. This classification also includes the remaining positive fund balance for all governmental funds. The District has assigned funds for interest earnings to the special revenue funds and capital project funds where earned by the budgetary process. The assigned classification includes the residual fund balance for the general fund which is for next year's appropriated budget for general operations.
- <u>Unassigned</u>: The unassigned classification includes negative residual fund balance of any other governmental fund that cannot be eliminated by offsetting of assigned fund balance amounts.

As of June 30, 2020, fund balances are comprised of the following:

The District would typically use restricted fund balances first, followed by committed resources, and then assigned resources as appropriate opportunities arise, but reserves the right to selectively spend unassigned resources first to defer the use of these other classified funds.

Property Tax Revenues

The District is authorized by state law to levy property taxes which consist of ad valorem taxes on real and personal property within the District. The County Assessor, upon receipt of the certification of tax levies from the county excise board, extends the tax levies on the tax roll for submission to the county treasurer prior to October 1. The county treasurer must commence tax collection within fifteen days of receipt of the tax rolls. The taxes are due one-half prior to January 1 and the balance prior to April 1. If the first payment is not made timely, the entire tax becomes due and payable on January 1. Second half taxes become delinquent on April 1 of the year following the year of assessment.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Property Tax Revenues (Continued)

If not paid by the following October 1, the property is offered for sale for the amount of taxes due. The owner has two years to redeem the property by paying the taxes and penalty owned. If at the end of the two years the owner has not done so, the purchaser is issued a deed to the property.

State Revenues

Revenues from state sources for current operations are primarily governed by the state aid formula under the provisions of Article XVIII, Title 70, Oklahoma Statutes. The State Board of Education administers the allocation of state aid funds to school districts based on information accumulated from the districts. Approximately 36% of the District's revenue comes from state sources.

After review and verification of reports and supporting documentation, the State Department of Education may adjust subsequent fiscal period allocations of money for prior year errors disclosed by review. Normally, such adjustments are treated as reductions or additions of revenue of the year when the adjustment is made.

The District receives revenue from the state to administer certain categorical educational programs. State Board of Education rules require that revenue earmarked for these programs be expended only for the program for which the money is provided and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same categorical programs.

II. BUDGETARY INFORMATION

The District is required by law to prepare an annual budget. No later than October 1, each Board of Education shall prepare a financial statement and estimate of needs to be filed with the applicable county clerk and the State Department of Education. Once the county excise board has approved the estimate of needs, the Board shall adopt a final budget within 45 days or the second regularly scheduled board meeting. No later than 15 days prior to adoption of a final budget, the Board must conduct a public hearing for purposes of taking public comments.

A final budget may be revised upon approval of the Board of Education in open meeting.

A budget is legally adopted for the General Fund, Building Fund, Child Nutrition Fund, Coop Fund and Sinking Fund that includes revenue and expenditures. Budgets generally assume the expenditure of all available resources. Therefore, when the legal budget is prepared, it is assumed these funds will not have a carryover balance to a subsequent year. Program revenue received but not spent is restricted and deferred to a subsequent fiscal year.

III. DEPOSITS AND INVESTMENTS

<u>Custodial Credit Risk</u> - Custodial credit risk for deposits is the risk that in the event of a bank failure, the District's deposits may not be returned or the District will not be able to recover collateral securities in the possession of an outside party. The District's policy requires collateral for demand deposits and certificates of deposit for all amounts not covered by federal deposit insurance. As of June 30, 2020, cash deposits and investments were fully insured or collateralized by a pledging bank's agent in the District's name.

<u>Investment</u> – The District's investment of 37,666 at June 30, 2020, represents equity securities valued at historical value that were donated to the District. These securities are uninsured and exposed to the risk that in the event of the failure of the counterparty, the District will not be able to recover the value of the investment.

The leases contain a clause which gives the District the ability to terminate the lease agreements at the end of each fiscal year.

Bond issues have been approved by the voters and issued by the District for various capital improvements. These bonds are required to be fully paid serially within 25 years from the date of issue. General obligation bonded debt of the District is limited by state law to 10% of the assessed valuation of the District. The legal debt limit at June 30, 2020 is approximately \$18,075,000.

VI. EMPLOYEE RETIREMENT SYSTEM

Teachers' Retirement System of Oklahoma

Plan Description - The District contributes to the state-administered Oklahoma Teachers' Retirement System ("TRS"), a cost-sharing, multiple-employer public employee retirement system. The System is administered by a board of trustees. TRS provides retirement, disability and death benefits to plan members and beneficiaries. Oklahoma State Statute 70-17 assigns the authority to establish and amend benefit provisions to the TRS Board of Trustees. The System issues a publicly available report that includes financial statements and required supplementary information for TRS. That report may be obtained by contacting the Oklahoma Teachers' Retirement System.

Benefits Provided – The System provides defined retirement benefits based on members' final compensation, age, and term of service. In addition, the retirement program provides for benefits upon disability and to survivors upon the death of eligible members. Title 70 O.S. Sec.

17-105 defines all retirement benefits. The authority to establish and amend benefit provisions rests with the State Legislature.

Funding Policy – Under the System, contributions are made by the District, the State of Oklahoma, and participating employees. Participation is required for all teachers and other certified employees and is optional for all other regular employees of public educational institutions who work at least 20 hours per week.

<u>Contributions</u> – In accordance with *Oklahoma Statutes*, System members are required to contribute 7.00% of applicable compensation. For the year ended June 30, 2020, qualifying employee contributions were reduced by a retirement credit of \$130,149 provided by Enrolled House Bill 1873 and paid by the State of Oklahoma as on-behalf payments. For the year ended June 30, 2020, the District had a statutory contribution rate of 9.5% plus 7.70% as a match for salaries funded by federal programs. The contribution requirements of System members and the District are established and may be amended by the state legislature.

The District's contributions to TRS (net of retirement credit paid by the State of Oklahoma) for the years ended June 30, 2020, 2019 and 2018 were \$1,793,354, \$1,765,219 and \$1,579,265, respectively, equal to the required contributions for each year.

<u>Pension plan fiduciary net position</u> – Detailed information about the pension plan's fiduciary net position is available in the separately issued TRS financial report that can be obtained at <u>http://www.ok.gov/trs/</u>.

VII. OTHER POST EMPLOYMENT BENEFITS (OPEB)

In addition to the retirement plan described in Note VI, the District participates in the stateadministered Supplemental Health Insurance Program (OPEB Plan) within Teachers' Retirement System of Oklahoma (the OPEB System), which is a cost-sharing multipleemployer defined benefit OPEB plan administered by the Teacher Retirement System (TRS).

<u>Plan Description</u> – The OPEB System pays a monthly health insurance premium supplement for each retired member who is enrolled in the health insurance plan provided by the State and Education Employees Group Health and Dental Insurance plan or in an insurance program provided by a participating education employer who provides health insurance coverage to former employees, provided the retired member had at least ten (10) years of Oklahoma service prior to retirement.

<u>Benefits Provided</u> – All retirees are eligible except for special retirees (as defined) and spouses and beneficiaries as long as they have at least 10 years of service. Retirees who elect such coverage receive the smaller of (i) a Medicare supplement benefit, if eligible, or (ii) an amount between \$100 and \$105 per month, depending on service and final average compensation. Payments made on the retirees' behalf to the Employees Group Insurance Division of the Office of Management and Enterprise Services, if the member continues health coverage under

that Plan, or (ii) to the member's former employer, if the member retains health coverage under a plan maintained by the former employer.

<u>Contributions</u> – Employer and employee contributions are made based upon the TRS Plan provisions contained in State Statute Title 70, as amended. However, the statutes do not specify or identify any particular contribution source to pay the health insurance subsidy. The cost of the subsidy averages 0.007% of normal cost, as determined by an actuarial valuation.

<u>OPEB plan fiduciary net position</u> – Detailed information about the OPEB plan's fiduciary net position is available in the separately issued TRS financial report that can be obtained at <u>http://www.ok.gov/trs/</u>.

VIII. COMMITMENTS AND CONTINGENCIES

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

The District is a defendant in lawsuits. Although the outcome of these lawsuits is not presently determinable, the District believes the resolution of these matters will not have a material adverse effect on the financial condition of the District. Should a judgment be awarded against the District, it would be levied through the District's sinking fund over a three-year period pursuant to state law.

The District entered into several construction-related contracts during the fiscal year, which include additions, new construction, and remodeling of school buildings. As of June 30, 2020, the District had outstanding construction-related commitments totaling \$28,095,245 that will be financed from proceeds from CCPFA 2018 Bond Fund 32.

Subsequent to June 30, 2020, the District entered into \$282,881 of construction-related projects to be financed from Bond fund 36, Sales Tax Fund and Bond Fund 39.

During 2020, the worldwide coronavirus pandemic impacted local, national and global economies. The District is closely monitoring its operations and available fund balances and actively working to minimize current and future impacts of the unprecedented situation. As of the date of issuance of these financial statements, the full current and future impact to the District is not known.

IX. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts, theft, damage and destruction of assets, errors and omission, injuries to employees, life and health of employees, and natural

disasters for which the District purchases commercial insurance. There have been no significant reductions in coverage from prior year and settlements have not exceeded coverage in the past three years.

X. LEASE REVENUE BOND AGREEMENTS

On September 1, 2013, the Board of Education entered into ground lease and sublease agreements with the Carter County Public Facilities Authority (CCPFA), a public trust, for the purpose of facilitating the issuance of the bonds, to provide security for payment of the bonds, and to enable the District to utilize the bond proceeds for the construction and placement of improvements on real property. The lease agreements will remain in effect to June 30, 2027. The Authority advanced \$19,700,000 in lease revenue bonds, series 2013, to the District for the acquisition and construction of buildings and improvements. The District will use money received from General Obligation Debt to repay the lease. The advanced funds are being held in a trust and District remits applications for payments. The capital assets acquired and constructed have been shown as capital assets on the District's statement of net position. The remaining balance of the advanced fund is reported as Restricted Cash in CCPFA 2013 Bond Fund 30 on Balance Sheet of Governmental Funds and on the Statement of Net Position.

On August 1, 2018, the Board of Education entered into ground lease and sublease agreements with the Carter County Public Facilities Authority (CCPFA), a public trust, for the purpose of facilitating the issuance of the bonds, to provide security for payment of the bonds, and to enable the District to utilize the bond proceeds for the construction and placement of improvements on real property. The lease agreements will remain in effect to June 30, 2034. The Authority advanced \$27,255,000 in lease revenue bonds, series 2018, to the District for the acquisition and construction of buildings and improvements. The District will use money received from General Obligation Debt to repay the lease. The advanced funds are being held in a trust and District remits applications for payments. The capital assets acquired and constructed have been shown as capital assets on the District's statement of net position. The remaining balance of the advanced fund is reported as Restricted Cash in CCPFA 2018 Bond Fund 32 on Balance Sheet of Governmental Funds and on the Statement of Net Position.

XI. TAX ABATEMENT

The State of Oklahoma has authorized by the Oklahoma State Statutes Title 31 to offer homestead and Veterans exemptions to Ad Valorem property taxes. These exemptions reduce the ad valorem taxes remitted to the District.

The State of Oklahoma has authorized by Oklahoma Statutes 62-850 the creation of tax increment financing (TIF) districts. These districts are intended to provide incentives and exemptions from taxation within certain areas to encourage investment, development and economic growth. The District is subject to tax abatements granted by the City of Ardmore. The City of Ardmore created TIF District #2 in May 2003, amended the project plan in August 2016, and projected the TIF to terminate December 31, 2021. The purpose of TIF District #2 is

ARDMORE SCHOOL DISTRICT NO. I-19 Carter County, Oklahoma Notes to Financial Statements June 30, 2020

to develop the Ardmore Commons, Ardmore Family Entertainment Center, Market Street Shopping Center, and surrounding areas. This TIF district reduces the ad valorem taxes remitted to the District over the term of the agreement.

For the year ended June 30, 2020, abated property taxes were \$1,790,684.

XIII. SUBSEQUENT EVENTS

In November 2020, the Board of Education approved the sale of \$3,875,000 General Obligation Combined Purpose Bonds; the proceeds were received by the District on January 7, 2021. The purpose of these bonds were to provide \$300,000 proceeds for the Transportation series bonds, \$2,075,000 proceeds for the 2013 CCPFA lease payment, and \$1,500,000 proceeds for the 2018 CCPFA lease payment.

As part of the Coronavirus Response and Relief Supplemental Appropriations Act (CCRSA) of 2021, the District received a federal grant allocation of \$3,855,459 out of the Elementary and Secondary School Emergency Relief (ESSER) II fund. Allowable uses of ESSER II funds include any expense related to preventing, preparing for and responding to COVID-19, as well as addressing and mitigating learning loss, restoring and maintaining high-quality learning environments, and testing, repairing, and upgrading projects to improve air quality in school buildings.

On March 11, 2021, the President of the United States signed into law the American Rescue Plan Act of 2021. This law provides additional relief to address the continue impact of COVID-19 on the economy, public health, state and local governments, individuals and businesses. Within the American Rescue Plan Act, there is funding for schools. The District anticipates receiving a substantial allocation of grant money from this new law.

The District has evaluated subsequent events through March 29, 2021, the date which the financial statements were available to be issued.
