INDEPENDENT AUDITOR'S REPORT

October 6, 2022

Board of Directors
Rural Water District No. 21
Osage County
Shidler, Oklahoma

Opinions

We have audited the accompanying financial statements of Rural Water District No. 21, Osage County, Shidler, Oklahoma (the District), as of and for the years ended August 31, 2022 and 2021, and the related notes to the financial statements, as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the business-type activities of the Rural Water District No. 21, Osage County, Shidler, Oklahoma as of August 31, 2022 and 2021, and the changes in financial position and cash flows thereof for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Required Supplementary Information

The District has omitted Management's Discussion and Analysis that accounting principles generally accepted in the United States of America requires to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board (GASB), who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinions on the basic financial statements are not affected by this missing information.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 6, 2022, on our consideration of the Rural Water District No. 21's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Rural Water District No. 21's internal control over financial reporting and compliance.

**RURAL WATER DISTRICT NO. 21
OSAGE COUNTY
Shidler, Oklahoma**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
August 31, 2022 and 2021**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Rural Water District No. 21, Osage County, Oklahoma (the District) was created pursuant to Title 82, O.S. 1981, Sections 1324.1-1324.26 inclusive, for the purpose of providing water to the members it serves. Membership in the water district consists of water users who have paid the required membership and connection fees. The District is exempt from federal and state income taxes.

The Board of Directors consists of 7 members, 4 of which are elected as officers of the District. The vacant Board seats are elected at the annual meeting in October, and following, the Board of Directors meet and elect a president, vice-president, and secretary-treasurer. All Board members serve without pay.

The more significant of the government's accounting policies are described below.

A. Reporting Entity

Rural Water District No. 21 is an independent, self-contained reporting entity with no associated component units. It is operated in a manner similar to a private business enterprise where the cost (expenses, including depreciation and amortization) of providing water services is financed through user charges.

B. Measurement Focus, Basis of Accounting and Basis of Presentation – Fund Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with Generally Accepted Accounting Principles (GAAP) promulgated in the United States of America. The accounting and financial reporting treatment is accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and liabilities associated with the operation are included on the statement of net position. The operating statements present increases (e.g., revenues) and decreases (e.g., expenses) in net total assets. Depreciation expense is provided for capital assets based upon estimated useful lives. Amortization expense is provided for easements based upon a 40 year life.

C. Assets, Liabilities and Equity

1. Deposits and Investments

Oklahoma Statutes authorize the District to invest in certificates of deposit, repurchase agreements, passbooks, bankers' acceptances, and other available bank investments provided that all deposits are fully covered by approved securities pledged to secure those funds. In addition, the District can invest in direct debt securities of the United States unless such an investment is expressly prohibited by law.

For financial statement presentation and for purposes of statements of cash flows, the District's cash and cash equivalents are considered to be cash on hand, demand deposits and certificates of deposit with a maturity date of three months or less.

Custodial Credit Risk

At August 31, 2022, the District held deposits of approximately \$334,160 at financial institutions. The District's cash deposits, including interest-bearing certificates of deposit, are entirely covered by Federal Depository Insurance (FDIC) or direct obligation of the U.S. Government insured or collateralized with securities held by the District or by its agent in the District's name.

Investment Interest Rate Risk

The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

**RURAL WATER DISTRICT NO. 21
OSAGE COUNTY
Shidler, Oklahoma**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
August 31, 2022 and 2021**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Assets, Liabilities and Equity (Continued)

1. Deposits and Investments (Continued)

Investment Credit Risk

The District has no policy that limits its investment choices other than the limitation of state law as follows:

- a. Direct obligations of the U.S. Government, its agencies and instrumentalities to which the full faith and credit of the U.S. Government is pledged, or obligations to the payment of which the full faith and credit of the State is pledged.
- b. Certificates of deposits or savings accounts that are either insured or secured with acceptable collateral with in-state financial institutions, and fully insured certificates of deposit or savings accounts in out-of-state financial institutions.
- c. With certain limitation, negotiable certificates of deposit, prime bankers acceptances, prime commercial paper and repurchase agreements with certain limitations.
- d. County, municipal or school district tax supported debt obligations, bond or revenue anticipation notes, money judgments, or bond or revenue anticipation notes of public trusts whose beneficiary is a county, municipality or school district.
- e. Notes or bonds secured by mortgage or trust deed insured by the Federal Housing Administrator and debentures issued by the Federal Housing Administrator, and in obligations of the National Mortgage District.
- f. Money market funds regulated by the SEC and in which investments consist of the investments mentioned in the previous paragraphs (a.-d.).

The cash and investments held at August 31, 2022 are as follows:

Type	Weighted Average Maturity (Months)	Credit Rating	Market Value	Cost
Investments				
Certificate of deposit	12.00	N/A	32,547	32,547
Total investments			<u>\$ 32,547</u>	<u>\$ 32,547</u>

Concentration of Investment Credit Risk

The District places no limit on the amount it may invest in any one issuer. The District has the following of credit risk: 100% in Certificates of deposit (\$32,547).

**RURAL WATER DISTRICT NO. 21
OSAGE COUNTY
Shidler, Oklahoma**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
August 31, 2022 and 2021**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Assets, Liabilities and Equity (Continued)

2. Restricted Cash and Investments

The restricted cash is the result of financial requirements of various note indentures between the District and the Oklahoma Water Resources Board (OWRB) consist of funds held in reserve funds. Under the terms and provisions of the OWRB promissory note, these special funds are maintained with the Trustee bank for the benefit of the holders of the bond and are not subject to lien or attachment by any other creditors. Monies contained in the funds held by the Trustee are required to be continuously invested in authorized securities that mature not later than the respective dates when the funds shall be required for the purpose intended by the bonds. The funds are temporarily restricted but with prior written approval from OWRB, the funds can also be used for making improvements to the water system or for debt service. Under the terms and provisions of the promissory note, these funds may be maintained so long as the notes are outstanding. In addition, certain funds are restricted for customer deposits and are reflected as an asset and a corresponding liability.

3. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

4. Capital Assets

Additions to the water treatment and delivery system and other equipment are recorded at cost or, if contributed property, at their estimated acquisition value at time of contribution. Repairs and maintenance are recorded as expenses; renewals and betterments are capitalized. The District maintains a capitalization threshold of \$1,000 and an estimated useful life in excess of two (2) years.

Depreciation has been calculated on each class of depreciable property using the straight-line method. Estimated useful lives are as follows:

Water treatment and delivery system	35-40 years
Buildings and improvements	10-40 years
Machinery and equipment	5-10 years
Office equipment	3-7 years
Boat ramps and docks	15-30 years

**RURAL WATER DISTRICT NO. 21
OSAGE COUNTY
Shidler, Oklahoma**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
August 31, 2022 and 2021**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Assets, Liabilities and Equity (Continued)

5. Net Position

In the basic financial statements, net position represents the difference between assets and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction, or improvement of those assets. Net position are reported as restricted when limitations on their use change the nature or normal understanding of the availability of the asset. Such constraints are either externally imposed by creditors, contributors, grantors, laws or other governments, or are imposed by law through constitutional provisions or enabling legislation. The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

6. Resource Use Policy

It is in the District's policy for all funds that when an expenditure/expense is incurred for purposes for which both restricted and unrestricted resources, including net positions, are available, the District considers restricted amounts to be spent first before any unrestricted amounts are used.

D. Revenues, Expenses and Other Changes in Net Position

1. Operating Revenues and Expenses

Operating revenues and expenses are principally from water sales and connection fees charged to new system subscribers. Customer water consumption is determined by monthly meter readings taken by the customer and once annually by District personnel. The water sales from subscriber water consumption billed but unpaid at the District's year-end are recognized as revenue in the current year and reported in the statement of net position as accounts receivable. Operating expense consist of those costs necessary to operate and maintain the water distribution system and for general administration of the District.

2. Non-Operating Revenue and Expenses

Non-operating revenues and expenses consist of investment earnings, interest expense incurred on the District's notes payable and gains and losses on sales or the abandonment of long-lived assets.

3. Bad Debts

The District uses the direct write-off method for recognizing bad debts. Under the direct write-off method, accounts receivable are charged to income during the period they are determined to be uncollectible. The use of this method does not result in a material difference from the valuation method required by generally accepted accounting principles.

**RURAL WATER DISTRICT NO. 21
OSAGE COUNTY
Shidler, Oklahoma**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
August 31, 2022 and 2021**

2. LONG-TERM DEBT

Long-term debt consists of two notes with the United States Department of Agriculture, Rural Development. The note is secured by the water system, water treatment plant and revenues.

The notes are listed as follows:

Loan OWRB – Original amount of \$1,600,000, \$1,538,974 of which has been received, payable in semi-annual installments of varying amounts of principal and semi-annual installments of interest for 20 years at a fixed interest rate of 1.73% to construct a water treatment plant, maturing in September of 2033. As of June 25, 2015, the remaining loan funds of \$46,026 have been de-obligated.

The following is a summary of long-term debt transactions during the year:

	Balance August 31, 2021	Additions	Reductions	Balance August 31, 2022	Current Portion
OWRB	\$ 1,108,142	\$ -	\$ 77,655	\$ 1,030,487	\$ 79,421
Total	\$ 1,108,142	\$ -	\$ 77,655	\$ 1,030,487	\$ 79,421

Annual cash requirements to amortize these notes are as follows:

Year Ending August 31,	Payments Due
2023	\$ 97,154
2024	97,546
2025	97,972
2026	98,395
2027	98,830
2028-2032	500,982
2033-2034	152,652
Total	1,143,531
Less interest	(113,044)
Note balance	\$ 1,030,487

**NOTES TO THE BASIC FINANCIAL STATEMENTS
August 31, 2022 and 2021**

4. RISK MANAGEMENT

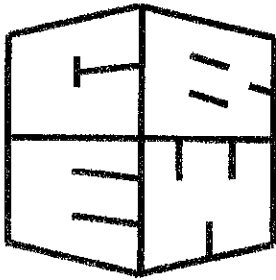

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District continues to carry commercial insurance for these risks, including general and auto liability, property damage, and public officials liability. Settled claims resulting from these risks have not exceeded the commercial insurance coverage in any of the past three fiscal years.

5. SUBSEQUENT EVENTS

Management has evaluated subsequent events and transactions through the date of the audit report, which is the date the financial statements were available to be issued. Management is currently evaluating the impact of the COVID-19 pandemic on the District and has concluded that while it is reasonably possible that the virus could have a negative effect on the District's financial position and results of its operations, the specific impact is not readily determinable as of the date of these financial statements. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

October 6, 2022

Board of Directors
Rural Water District No. 21
Osage County
Shidler, Oklahoma

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities of the Rural Water District No. 21, Osage County, Shidler, Oklahoma (the District), as of and for the year ended August 31, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated October 6, 2022. The District did not present the Management's Discussion and Analysis required by the Governmental Accounting Standards Board.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and responses that we consider to be material weaknesses as finding 2022-001 and 2022-002.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

District's Response to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the District's response to the findings identified in our audit is described in the accompanying schedule of findings and responses. The District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**SCHEDULE OF FINDINGS AND RESPONSES
For the Year Ended August 31, 2022**

FINDINGS - FINANCIAL STATEMENT AUDIT

2022-001. Internal Control – Segregation of Duties

Criteria: The segregation of duties and responsibilities between different individuals for custody of assets, recordkeeping for those assets and reconciliation of those asset accounts is an important control activity needed to adequately protect the District's assets and ensure accurate financial reporting.

Condition: Presently the same individual that receives utility service related cash payments is also responsible for service billing and adjustment, also balances the daily cash drawer, posts payments to subsidiary accounts receivable ledger and reconciles the monthly bank statements. In addition, only limited oversight is provided over this individual in the conduct of their daily functions. This finding was also noted in 2021.

Cause: The District's limited size and staffing resources have made it difficult for management to provide sufficient staffing to fully segregate incompatible duties in a cost-effective manner.

Effect or Potential Effect: Without sufficient segregation of duties, the risk significantly increases that errors and fraud related to utility billing and collection activities, including misappropriation of assets, could occur and not be detected within a timely basis.

Recommendation: We recommend that management and the board should consider a formal evaluation of their risks associated with this lack of duties segregation over utility cash and receivables. In response to the identified risks, consideration should be given to identifying and implementing controls that could help mitigate the risks associated with lack of segregation of duties, such as providing increased management oversight and an independent reconciliation of accounts. For example, the District might consider soliciting the assistance of independent volunteer labor to perform certain functions including acting as compensating procedures where applicable.

Responsible Official's Response: The District concurs with the recommendation, although, the cost to correct this condition might exceed the benefit, the District has made certain changes in procedures that will improve the overall lack of segregation of duties and has implemented compensating procedures as appropriate.

2022-002. Internal Control – Material Adjusting Journal Entries

Criteria: The District's management is responsible for internal controls over accounting and financial reporting. This responsibility includes the design and implementation of controls over the fair and complete presentation of the District's annual financial statements in accordance with generally accepted accounting principles (GAAP) from trial balances derived from the District's accounting records. For trial balances to be both complete and accurate, the District must have effective internal controls over recording, processing, summarizing, and adjusting accounting data. As evidence of effective internal controls over accounting and financial reporting, there should generally be few, if any, material adjustments to the trial balances required that are detected and corrected solely as a result of the financial statement audit. In other words, District management should not rely on the external auditor to detect and correct material misstatements in the books and records as part of its internal controls, but rather should have its own procedures designed and in place that are independent of the external auditor to provide reasonable, although not absolute, assurance that material misstatements will be detected and corrected in its trial balances prior to audit.

**RURAL WATER DISTRICT NO. 21
OSAGE COUNTY
Shidler, Oklahoma**

**SCHEDULE OF FINDINGS AND RESPONSES
For the Year Ended August 31, 2022**

Condition: The District's trial balances for the year ended August 31, 2022, required a number of material adjusting journal entries in order for the financial statements to be prepared in accordance with GAAP. These necessary adjusting entries, identified solely as a result of the financial statement audit, included such adjustments as the following: fixed asset purchases, depreciation, amortization, note payments and interest expense. This finding was also noted in 2021.

Cause: Although the District's accounting and financial reporting staff and board possess the necessary skills and experience to review and understand the financial statement presentation they don't spend sufficient time in balancing and/or reconciling specific accounts at year end to provide assurance that the trial balances used for preparing GAAP financial statements are complete and accurate prior to audit. As a result, management has had to rely on the external auditors to identify and correct a number of material misstatements in the trial balances. However, management was able to review, understand and accept the adjusting entries proposed by the auditor in order to take responsibility for them and the financial statements.

Effect or Potential Effect: As a result of this condition, the District has not adhered to its internal controls over the completeness and accuracy of the trial balances that are used in the preparation of its financial statements in accordance with GAAP and instead place reliance on its external auditors. This condition can result in undetected and uncorrected material misstatements in the financial statements that are not detected by management and may also not be detected by the financial statement audit. In addition, if management's intentions are to continue to rely on the external auditor to detect and correct material misstatements, this condition could place the auditor in a questionable position regarding auditor independence as required by the GAO "Yellow Book."

Recommendation: The Board should reevaluate its internal controls over the completeness and accuracy of trial balances and adhere to its policy of having a Board member to periodically review the interim financial statements in sufficient depth (particularly at year end) to insure that material adjusting journal entries are made timely. Additionally accounting staff should strive to obtain the necessary expertise through continuing education to apply GAAP in the development of working trial balances that will be used to prepare the District's annual financial statements. This could also be achieved through employment of additional qualified accounting staff or the outsourcing of these control activities to a qualified accounting firm other than the external auditor.

Responsible Official's Response: The District concurs with the recommendation, and will strive to prepare and post material adjusting journal entries to the financial statements.
