## INDEPENDENT AUDITOR'S REPORT

The Honorable Board of Education  
Autry Technology Center #V-15  
Garfield County, Oklahoma

I have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Autry Technology Center #V-15, Garfield County, Oklahoma, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

My responsibility is to express opinions on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinions.

### **Opinions**

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2015, and the respective changes in financial position for year then ended in accordance with accounting principles generally accepted in the United States of America.

## Other Matters

### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 3-9 and 28-29 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

### **Other Information**

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The schedule of expenditures of federal awards and combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly I do not express an opinion or provide any assurance on them.

### **Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, I have also issued my report dated March 13, 2017 on my consideration of the District's internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of my audit.

Sincerely,

  
Chas. W. Carroll, P.A.  
March 13, 2017

**AUTRY TECHNOLOGY CENTER #V-15**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)**  
**JUNE 30, 2016**

---

Our discussion and analysis of the Autry Technology Center, School District #V-15's, performance provides an overview of the School District's financial activities for the year ended June 30, 2016. Please read it in conjunction with the District's financial statements, which immediately follows this section.

**USING THIS ANNUAL REPORT**

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities provide information about the activities of the School District as a whole and present a longer-term view of the School District's finances. Fund financial statements report the School District's operations in more detail than the government-wide statements by providing information about the School District's most significant funds. For governmental activities, the fund statements tell how these services were financed in the short term as well as what remains for future spending.

**Autry Technology Center (the District)**

The District is a part of the public *Career Tech* system of Oklahoma, under the direction and control of the Oklahoma State Board of Career and Technology Education. The District is located in Enid, Oklahoma serving one main campus with a satellite campus at the Woodring Airport in Enid. The District serves 10 public school districts, including Chisholm, Cimarron, Covington-Douglas, Drummond, Enid, Garber, Kremlin, Pioneer- Pleasant Vale, Pond Creek-Hunter, and Waukomis. The District encompasses all of Garfield County plus parts of Blaine, Kingfisher, Logan, Major and Noble counties. The major instructional program areas are Construction, Drafting, Graphic Arts, Health, Information Technology, Manufacturing, Service Industry, Transportation and Welding. The District has three basic areas or types of instruction:

*Full-Time Programs* – The District offers 24 full-time programs. These programs are designed to lead to industry certifications, licenses, employment, and/or continuing education.

*Adult and Career Development* - These classes are designed around specific curriculum and are designed to provide an introduction to or enhance knowledge of specific topics.

*Business and Industry Services* – This division strives to meet the training and development needs of business and industry.

During fiscal year 2015-16, the District served 554 students in full-time programs. There were 23,738 people served through industry specific training and 4,747 adults in adult and career training classes.

**FINANCIAL HIGHLIGHTS**

During FY15, the facility at Woodring Airport was remodeled into a new training facility for the Safety programs, which included the addition of a safe room and classrooms for 145+ students. With a 6.8% growth in assessed valuation, the district has been able to maintain operations while continuing to offer quality training for the citizens of the District as well as statewide clients.

**AUTRY TECHNOLOGY CENTER #V-15**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)**  
**JUNE 30, 2016**

---

The District's financial status improved from the last year. Total net position increased 22 percent. This increase is primarily due correction of capital assets for prior year.

- Overall revenues were \$14.7 million and overall expenses were \$12.1 million
- The increase in the District's share of the cost sharing retirement plan net pension obligation increased long-term liabilities \$1 million.

### **Reporting the School District as a Whole**

#### **The Statement of Net Position and the Statement of Activities**

One of the most important questions asked about the School District's finances is, "Is the School District as a whole better off or worse off as a result of the year's activities?" The Statement of Net Position and the Statement of Activities report information about the School District as a whole and about its activities in a way that helps answer this question. These statements include *all* assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the School District's net position and changes in them. You can think of the School District's net position – the difference between assets and liabilities – as one way to measure the School District's financial health, or financial position. Over time, increases or decreases in the School District's net position are an indicator of whether its financial health is improving or deteriorating.

In the Statement of Net Position and the Statement of Activities, we report the following:

Governmental activities – The School District's basic services are reported here, including the educational activities for daytime high school and adults, short term training for adults, services and training for business and industry, and general administration. Also, the School District charges a fee to customers to help defray expenses involved in providing the services for Bookstore activities

### **Reporting the School District's Most Significant Funds**

#### **Fund Financial Statements**

Some funds are required to be established by State law and by bond covenants. All of the School District's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the School District's programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in reconciliation at the bottom of the fund financial statements.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required and other supplementary information that further explains and supports the financial statements with a comparison of the District's budget for the year.

**AUTRY TECHNOLOGY CENTER #V-15**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)**  
**JUNE 30, 2016**

**THE SCHOOL DISTRICT AS A WHOLE**

	<u>2015</u>	<u>2016</u>
Current and Other Assets	\$ 9,842,167	\$ 11,208,640
Capital Assets	10,978,265	11,947,554
Total Assets	<u>\$ 20,820,432</u>	<u>\$ 23,156,194</u>
Deferred Outflows of Resources	<u>615,074</u>	<u>1,056,496</u>
Long-term Liabilities	\$ 582,852	\$ 532,155

Net Position		
Invested in capital assets, net of debt	\$ 10,978,265	\$ 11,947,554
Restricted	4,044,647	4,906,307
Unrestricted	<u>(3,824,510)</u>	<u>(2,292,518)</u>
Total Net Position	<u>\$ 11,198,402</u>	<u>\$ 14,561,343</u>

**Net Position.** The District's combined net position as restated, was more on June 30, 2016, than the year before – increasing by 21.2% from \$11.9 million to \$14.5 million.. The increase in noncurrent liabilities is primarily due to the net pension liability added for the District's portion of the unfunded liability of the Teachers Retirement System.

For the years ended June 30, 2016 and 2015, net position changed as follows: .

	<u>2015</u>	<u>2016</u>	<u>Percent</u>
Beginning net position	\$ 9,574,342	11,956,791	<u>Change</u>
Revenues

Ending net position	<u>\$ 11,956,791</u>	<u>\$ 14,561,343</u>	<u>21.78%</u>

**AUTRY TECHNOLOGY CENTER #V-15**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)**  
**JUNE 30, 2016**

---

**Changes in Net Position.** The District's total revenues increased slightly to \$14.75 million. Property taxes and federal financial aid accounted for most of the increase. Property taxes accounted for 64 percent of the District's collections. Another 9 percent came from tuition and fees.

Total revenues surpassed expenses, increasing net position \$2.6 million over the past year.

The District's total expenditures decreased by 4.9 percent to \$12.1- million. The District's expenses are primarily related to education, training and support of students and business clients.

### **Governmental Activities**

To aid in the understanding of the Statement of Activities some additional explanation is provided. Of particular interest is the format that is significantly different than a typical Statement of Revenues, Expenses, and Changes in Fund Balance. You will notice that expenses are listed in the first column with revenues from that particular program reported to the right. The result is a Net (Expense)/Revenue. The reason for this kind of format is to highlight the relative financial burden of each of the functions on the School District's taxpayers. It also identifies how much each function draws from the general revenues or if it is self-financing through fees and grants. Some of the individual line item revenues reported for each function are:

#### **District Sources of Revenue:**

Ad Valorem property tax	Taxes for current year and prior years, revenue in lieu of taxes
Interest	Interest earning of investments and taxes
Tuition and Fees	Tuition and fees for Full-time adult classes, Short-term adult classes, Safety Training, Industry Specific, Assessment and Health Certification
Local Sources	Local grants, district contracts, rental of school facilities and property, sale of surplus equipment, bookstore revenue, reimbursement for insurance loss recoveries, damages to school property, and rebates,.
State Revenue	Formula operations, Bid Assistance Program, Existing Industry Initiative, Training for Industry Program, Safety Training, professional development.
Federal Revenue - Grants	Carl Perkins Grant, Student Financial Aid (PELL Grants)

### **THE SCHOOL DISTRICT'S FUNDS**

The following schedule presents a summary of general, special revenue (building fund), other governmental fund (activity fund), and expenditures for the fiscal year ended June 30, 2016 and 2015.

**AUTRY TECHNOLOGY CENTER #V-15**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)**  
**JUNE 30, 2016**

<b>Revenues:</b>	<b>2015</b>		<b>2016</b>	
	<u><b>Amount</b></u>	<u><b>Percent of Total</b></u>	<u><b>Amount</b></u>	<u><b>Percent of Total</b></u>
Property Taxes	\$ 8,829,115	60.53%	\$ 9,208,653	65.14%
Interest	48,279	0.33%	49,916	0.35%
Tuition and Fees	943,468	6.47%	818,680	5.79%
State Revenue	3,796,578	26.03%	3,417,609	24.18%
Federal Sources	420,731	2.88%	118,084	0.84%
Miscellaneous	547,440	3.75%	523,919	3.71%
<b>Total Revenues</b>	<b><u>\$ 14,585,611</u></b>	<b><u>100%</u></b>	<b><u>\$ 14,136,861</u></b>	<b><u>100%</u></b>

**Expenditures**

Instruction	Expenditures for direct classroom activities
Support Services	Expenditures for administrative, technical and logistical support to facilitate and enhance education.
Non-Instructional Services	Activities concerned with providing non-instructional services to students, staff, or community.
Facilities	Activities involved with the acquisition of land buildings; remodeling buildings; the construction of buildings and additions to buildings; initial installation or extension of service systems and other built-in equipment; improvements to sites; and equipment. These expenditures are included below in capital outlay and debt service.

<b>Expenditures:</b>	<b>2015</b>		<b>2016</b>	
	<u><b>Amount</b></u>	<u><b>Percent of Total</b></u>	<u><b>Amount</b></u>	<u><b>Percent of Total</b></u>
Instruction	6,030,786	41.77%	5,362,074	42.43%
Support Services	5,605,939	38.82%	5,742,181	45.44%
Non-Instructional Services	547,325	3.79%	584,428	4.62%
Capital Outlay and Debt Service	1,943,419	13.46%	865,604	6.85%
Other Outlays	311,984	2.16%	83,407	0.66%
<b>Total Expenditures</b>	<b><u>\$ 14,439,453</u></b>	<b><u>100.00%</u></b>	<b><u>\$ 12,637,694</u></b>	<b><u>100.00%</u></b>

The primary source of revenue for the governmental funds is ad valorem property tax, which is not received evenly throughout the fiscal year. The majority of property tax revenues are received between January 1 and April 30 of each year. The governmental funds must carry forward a fund balance large enough to finance the first six months of the fiscal year.

**AUTRY TECHNOLOGY CENTER #V-15**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)**  
**JUNE 30, 2016**

---

**General Fund**

The General Fund year-end fund balance is required to meet the labor intensive and operating expenses for the first six months of the fiscal year 2016.

**Building Fund**

The Building Fund year-end fund balance is restricted funds that are targeted for remodeling of current facilities, site improvements, new construction projects, equipment for the programs and building furniture needs.

**GENERAL FUND BUDGETARY HIGHLIGHTS**

The District was able to have a \$5.6 million general fund budgetary balance at the end of the fiscal year. No amendments were filed to the budget for the year.

**CAPITAL ASSETS**

At the end of June 30, 2016, the School District had \$20.4 million invested in capital assets (see table below). This represents a net increase of \$1.9 million or 10 percent, over the previous fiscal year.

	2016	2015
Land	\$ 195,459	\$ 195,459
Construction in Progress	-	258,563
Buildings and Improvements	16,307,385	14,110,596
Equipment & Autos	<u>3,865,067</u>	<u>3,873,136</u>
TOTALS	<u>\$ 20,367,911</u>	<u>\$ 18,437,754</u>

See Note 8 for additional information on capital assets.

**LONG-TERM LIABILITIES**

**Net Pension Liability**

Implementation of GASB Statement 68 (See note 9), resulted in the recognition of the District's long-term obligation for pension benefits as a liability. The District's share of the Teachers' Retirement System's net pension liability as of June 30, 2016 was \$8,004,818. This was an increase of \$1 million from the prior year (2015) primarily due to investment losses by the Teachers' Retirement System in 2015, which was the measurement year for the net pension liability as of June 30, 2016. See Note 4 for additional information on the net pension liability.

**CONTACTING THE SCHOOL DISTRICT'S FINANCIAL MANAGEMENT**

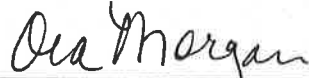

This financial report is designed to provide our citizens, taxpayers, customers, and creditors with a general overview of Autry Technology Center's financial position to show accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Superintendent's Office at Autry Technology Center, 1201 West Willow, Enid, Oklahoma 73703.

**AUTRY TECHNOLOGY CENTER #V-15**  
**RECONCILIATION OF STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES - GOVERNMENTAL**  
**FUNDS TO STATEMENT OF ACTIVITIES**  
**YEAR ENDED JUNE 30, 2016**

The change in nets assets reported in the statement of activities is different because:

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities those costs are shown in the statement allocated over their estimated useful lives as annual depreciation expenses in the statement of activities. This is the amount by which depreciation exceed capital outlays during the period.

Capital Outlays	\$ 1,048,036
Depreciation Expense	(792,386)
	<u>255,650</u>

Because the cost of capital assets acquired are reported in governmental funds as expenditures in the year of purchase, the proceeds from their sale are reported as revenue. However, the costs of these assets must be included as a reduction of the sales proceeds in the statement of activities.

(44,747)

Because some property taxes will not be collected for several months after the District's fiscal year ends, they are not considered as "available" revenues in the governmental funds and are, instead counted as deferred revenues. They are however, recorded as revenues in the statement of activities.

200,528

Support for pension contributions from nonemployer contributin entities not in a special funding situation does not provide current financial resources so are not recorded in governmental funds but are recorded as revenue in the statement of activities

458,230

In the statement of activities, compensated absences are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially the amounts actually paid). This year, vacation and sick leave earned exceeded amounts used.

50,696

Governmental funds report district pension contributions as expenditures. However, the Statement of Activities reports the cost of pension benefits earned net of employee contributions as pension expense

185,028

\$ 2,604,552

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Autry Technology Center #V-10 (the District) is a corporate body for public purposes created under Title 70 of the Oklahoma Statutes and accordingly is a separate entity for operating and financial reporting purposes. The District is part of the public school system of Oklahoma under the general direction and control of the State Board of Education and is financially dependent on the State of Oklahoma for support. The general operating authority for the public school system is the Oklahoma School Code contained in Title 70 of the Oklahoma Statutes.

The District's financial statements are prepared in accordance with generally accepted accounting principles promulgated by The Governmental Accounting Standards Board (GASB).

#### *The Reporting Entity*

The District is a corporate body for public purposes created under Title 70 of the Oklahoma Statutes and accordingly is a separate entity for operating and financial reporting purposes. The governing body of the District is the Board of Education composed of elected members. The appointed superintendent is the executive officer of the District. There are no component units included within the reporting entity.

The School Education Foundation is not included in the reporting entity. The District does not appoint any of the board members or exercise any oversight authority over the Foundation.

#### *Basic Financial Statements – Government-Wide Statements*

The District's basic financial statements include both government-wide (reporting the District as a whole) and fund financial statements (reporting the District's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business type. Governmental Activities include programs primarily supported by taxes, State aid, grants and other intergovernmental revenue. The District does not have any activities classified as business-type activities.

In the government-wide Statement of Net Position, the District's governmental activities are reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The District's net position are reported in three parts – net investment in capital assets; restricted net position and unrestricted net position.

The government-wide Statement of Activities reports both the gross and net cost of each of the District's programs and functions. The functions are also supported by general government revenues. The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. Direct expenses are those that are clearly identifiable with a specific function. Program revenues must be directly associated with the function. Charges for services include charges and fees to students, or customers who purchase, use or directly benefit from the goods, services, or privileges provided by a given function. Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants.

The net costs are normally covered by general revenue (property taxes, State and Federal aid, other taxes etc.).

The government-wide focus is more on the sustainability of the District as an entity and the change in the District's net position resulting from the current year's activities. Separate financial statements are provided for governmental funds. Major individual governmental funds are reported in separate columns in the fund financial statements.

## NOTES TO FINANCIAL STATEMENTS

---

### *Basic Financial Statements – Fund Financial Statements*

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, current liabilities and fund balances are included on the balance sheet. The fund financial statements provide reports on the financial condition and results of operations of governmental fund category.

The District reports the following major governmental funds:

General Fund is the primary operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund:

Building Fund is used to account for monies derived from the building fund levy and rental of facilities to be used for erecting, remodeling, repairing or maintaining school buildings, paying energy and utility costs; paying fire and casualty insurance premiums for school facilities, security systems and personnel.

Additionally, the District reports the following fund:

Activity Fund – The District accounts for resources collected from student or extracurricular activities including admission fees, concession income, fund raising and dues. The Board of Education exercises control over all of these funds.

### *Basis of Accounting*

Basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

Accrual: The government-wide financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when a liability is incurred. Property taxes are recognized as revenue in the year in which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Modified Accrual: The funds financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e. both measurable and available. “Available” means collectible within the current period or within 60 days after year-end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt, if any, is recognized when due.

## NOTES TO FINANCIAL STATEMENTS

---

### *Capital Assets*

Capital assets purchased or acquired with an original cost of \$2,500 or more are reported at historical cost or estimated historical cost. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

School buildings	25-40 years
Site improvements	7- 40 years
Business machines and computers	7-40 years

### *Compensated Absences*

The District's policies regarding vacation time permit employees to accumulate earned but unused vacation leave. The liability for these compensated absences is recorded as long-term debt in the government-wide statements. The current portion of this debt is estimated based on historical trends.

### *Budgets and Budgetary Accounting*

The District is required by state law to prepare an annual budget. No later than October 1, each board of education shall prepare a financial statement and estimate of needs to be filed with the applicable county clerk and the State Department of Education. Once the county excise board has approved the estimate of needs, the board shall adopt a final budget within 45 days or the second regularly scheduled board meeting. No later than 15 days prior to adoption of a final budget, the board must conduct a public hearing for the purposes of taking public comments. The final budget may be revised upon approval of the board of education in open meeting.

Under current Oklahoma Statutes a formal budget is required for general, building, sinking, child nutrition and coop funds, as applicable to the district. Budgets are presented include the originally approved budgeted appropriations for expenditures and final budgeted appropriations as adjusted for supplemental appropriations and approved transfers between budget categories. Budgets generally assume the expenditure of all available resources. Therefore, when the legal budget is prepared, it is assumed these funds will not have a carryover balance to subsequent year.

A budget is legally adopted by the Board of Education for the General Fund and Building Fund that includes revenues and expenditures.

Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrance accounting -- under which purchase orders and other commitments of resources are recorded as expenditures of the applicable fund -- is utilized in all governmental funds of the District.

The unencumbered balance of current fiscal year appropriations and the unexpended reserve appropriations of the previous fiscal year are lapsed and become a part of the beginning fund balance for the succeeding fiscal year.

### *Cash*

The District considers all cash on hand, demand deposits, money market checking and certificates of deposit, held at an individual bank which are subject to early withdrawal penalties no matter what the maturity period, to be cash. State statutes require collateral for deposits in excess of insured amounts. The collateral's market value must exceed the insured deposit.

## NOTES TO FINANCIAL STATEMENTS

---

### *Investments*

The District's investment policies are governed by state statute. Permissible investments include:

1. Direct obligations of the United States Government and Agencies
2. Obligations to the payment of which the full faith and credit of the State of Oklahoma is pledged
3. Certificates of deposit of savings and loan associations and bank and trust companies secured by acceptable collateral
4. Savings accounts or savings certificates of savings and loan associations that are fully insured
5. County, municipal and school district direct debt obligations
6. Money market mutual funds regulated by the Securities and Exchange Commission
7. Warrants, bonds or judgments of the school district
8. Qualified pooled investment programs

### *Property Tax Revenues*

The District is authorized by state law to levy property taxes, which consist of ad valorem taxes on real and personal property within the District. The County Assessor, upon receipt of the certification of tax levies from the county excise board, extends the tax levies on the tax roll for submission to the county treasurer prior to October 1. The county treasurer must commence tax collection within fifteen days of receipt of the tax rolls. The first half of taxes is due prior to January 1. The second half is due prior to April 1.

If the first payment is not made timely, the entire tax becomes due and payable on January 1. Second half taxes become delinquent on April 1 of the year following the year of assessment. If not paid by the following October 1, the property is offered for sale for the amount of taxes due. The owner has two years to redeem the property by paying the taxes and penalty owed. If at the end of two years the owner has not done so, the purchaser is issued a deed to the property.

Property taxes receivable by the District include uncollected taxes assessed as of October 1, 2014 and earlier. Delinquent property tax receivable is recognized as revenue in the government-wide financial statements. Only the portion of the property taxes receivable that meets the revenue recognition criteria is reported as revenue in the fund financial statements.

Property tax receivables are net of an allowance for uncollectible taxes of - in the general fund and - in the building fund. The allowance represents the estimated amount that is deemed uncollectible based on past collection history.

Deferred Outflows of Resources – The District reports decreases in net assets that related to future periods as deferred outflows of resources on the statement of net position. A deferred outflow is reported for contributions made to Oklahoma Teacher Retirement System (TRS the Plan) between the measurement date of the net pension liabilities (June 30, 2015) and the end of the current fiscal year (June 30, 2016). No deferred outflows of resources affect the governmental funds financial statements in the current year.

Deferred Inflows of Resources – The District's statements of net position and its governmental fund balance sheet report a separate section for deferred inflows of resources. This separate financial statement element reflects an increase in net assets that applies to a future period.

Deferred inflows of resources are reported in the statement of net position for (1) the actual pension plan investment earnings in excess of the expected amounts included in determining pension expense. This deferred inflow of resources is amortized to pension expense over a total of 5 years, including the current year. (2) the difference between expected and actual experience that the pension plan actuary uses to develop expectations

## NOTES TO FINANCIAL STATEMENTS

---

such as future salary increases and inflation. This deferred inflow of resources is amortized to pension expense over the average expected remaining service life of the Plan. (3) The changes in assumptions used by the actuary is amortized to pension expense over the average expected remaining service life of the Plan.

In its governmental funds, the only deferred inflow of resources is for revenues not considered available. The District will not recognize the related revenues until available (collected no later than 60 days after the end of the District's fiscal year) under the modified accrual basis of accounting that qualifies to be reported in this category. Accordingly, deferred property taxes are reported in the governmental funds balance sheet.

Pensions – For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Oklahoma Teacher Retirement System (TRS) and additions to/deductions from TRS's fiduciary net position have been determined on the same basis as they are reported to TRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

### *State Revenues*

Revenues from state sources for current operations are primarily governed by the joint resolution of the Oklahoma House of Representatives and Senate. The Oklahoma Department of Career and Technical Education administers the allocation of state aid funds to school districts based on information accumulated from the districts.

After review and verification of reports and supporting documentation, the Oklahoma Department of Career and Technical Education may adjust subsequent fiscal period allocations of money for prior year errors disclosed by review. Normally, such adjustments are treated as reductions or additions of revenue of the year when the adjustment is made.

The District receives revenue from the state to administer certain categorical educational programs. Oklahoma Department of Career and Technical Education rules require that revenue earmarked for these programs be expended only for the programs for which the money is provided and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same categorical programs. The Oklahoma Department of Career and Technical Education requires that categorical educational program revenues be accounted for in the general fund.

### *Use of Estimates*

The preparation of financial statements in conformity with the basis of accounting referred to above requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

### *Net Position and Fund Balance*

District-Wide Financial Statements – When the District incurs an expense for which it may use either restricted or unrestricted net position, it uses restricted net position first unless unrestricted net position will have to be returned because they were not used. Net position on the Statement of Net Position include the following:

**Net Investment in Capital Assets**– The component of net position that consists of the historical cost of capital assets less both the accumulated depreciation and the outstanding balance of debt, excluding unspent proceeds, that is directly attributable to the acquisition, construction or improvement of these capital assets.

**Restricted for Buildings** – The component of net position that reports the excess of property taxes and other revenue collected in excess of expenses for operation of the District's buildings.

**Restricted for School Organizations** – The component of net position that report the assets restricted for use by student organizations and extracurricular activities.

**Unrestricted** – The difference between assets and liabilities that is not reported as restricted for any particular purpose.

### *Governmental Fund Financial Statements*

The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

- **Nonspendable:** This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact. The District does not have any funds classified as nonspendable as of June 30, 2016.
- **Restricted:** This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation. The District has classified Building Fund revenue from levy as being restricted because the use is restricted by State Statute for capital expenditures.
- **Committed:** This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the Board of Education. These amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same type of action (resolution) that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements. The District has classified school program activities as being committed because their use is imposed by the Board of Education regarding use of the funds.
- **Assigned:** This classification includes amounts that are constrained by the District's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the Board or through the Board delegating this responsibility to the superintendent through the budgetary process. This classification also includes the remaining positive fund balance for all governmental funds except for the General Fund. The District has assigned interest earnings to the funds where earned for the purposes defined by the fund.

## NOTES TO FINANCIAL STATEMENTS

- Unassigned: This classification includes the residual fund balance for the General Fund. The Unassigned classification also includes negative residual fund balance of any other governmental fund that cannot be eliminated by offsetting of Assigned fund balance amounts.

### *Subsequent Events*

Management has evaluated subsequent events through March 13, 2017, which is the date the financial statements were available to be issued.

## NOTE 2 - CASH AND INVESTMENTS

### *Deposits*

At June 30, 2016, the bank balance of deposits was \$11,093,907.

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. State statutes require collateral for all deposits in excess of federally insured amounts. The District policy for custodial credit risk requires compliance with the provisions of state law. At June 30, 2016, the District was not exposed to custodial credit risk.

## NOTE 3 - LONG-TERM LIABILITIES

The long-term liability balances and activity for the year were as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Amount Due Within One Year
Compensated absences	\$ 582,851	\$ -	\$ 50,696	\$ 532,155	\$ -
	<u>\$ 582,851</u>	<u>\$ -</u>	<u>\$ 50,696</u>	<u>\$ 532,155</u>	<u>\$ -</u>
Net pension liability				8,004,818	
Total governmental activity long-term liabilities				<u>\$ 8,536,973</u>	

Compensated absences are generally liquidated by the general fund.

## NOTE 4 - EMPLOYEE RETIREMENT SYSTEM

### Teachers' Retirement Plan of Oklahoma

Plan Description – The Oklahoma Teachers' Retirement Plan is a cost-sharing multiple-employer defined benefit pension plan administered by the Oklahoma Teachers' Retirement System (the System). The System provides retirement and disability benefits, annual cost of living adjustments, and death benefits to plan members and beneficiaries. The ability to establish and amend benefit provisions is the responsibility of the state legislature. The System issues a publicly available financial report that includes financial statements and required supplementary information for the employees of the District. The System issues a publically available financial report that can be obtained at <http://www.ok.gov/trs/>.

## NOTES TO FINANCIAL STATEMENTS

Benefits Provided – The System provides defined retirement benefits based on members' final compensation, age, and term of service. In addition, the retirement program provides for benefits upon disability and to survivors upon the death of eligible members. Title 70 O.S. Sec. 17-105 defines all retirement benefits. The authority to establish and amend benefit provisions rests with the State Legislature.

Contributions – In accordance with *Oklahoma Statutes*, System members are required to contribute 7.00% of applicable compensation. For the year ended June 30, 2016, qualifying employee contributions were reduced by a retirement credit of \$49,579 provided by Enrolled House Bill 1873 and paid by the State of Oklahoma as on-behalf payments. For the year ended June 30, 2016, the District had a statutory contribution rate of 9.5% plus 8.25% as a match for salaries funded by federal programs. The contribution requirements of System members and the District are established and may be amended by the state legislature. For the year ended June 30, 2016, the District contributions to the System for were \$627,095.

The State of Oklahoma, a non-employer contributing entity, provides funds through 5% of the State's sales, use, corporate and individual income taxes collected. The System receives 1% of the cigarette taxes collected by the State and 5% of net lottery proceeds collected by the State. The District's estimated share of these contributions based on their covered payroll for the measurement period was \$458,230.

### Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources related to Pensions

At June 30, 2016, the District reported a liability of \$8,004,818 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on a projection of the District's long-term share of the contributions to the pension plan relative to the projected contributions of all participating school districts, actuarially determined. At June 30, 2015, the District's proportion was 0.14689417%, which was a decrease from its proportion measured as of June 30, 2014.

For the year ended June 30 2016, the District recognized pension expense of \$514,678. At June 30, 2016, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflow of Resources	Deferred Inflow of Resources
Differences between expected and actual experience	\$ -	\$ 290,822
Changes of assumptions	427,143	312,237
Net difference between projected and actual earnings on pension plan investments	-	383,810
Changes in proportion and differences between District contributions and proportionate share of contributions	-	-
District contributions subsequent to the measurement date	629,353	-
	<u>\$ 1,056,496</u>	<u>\$ 986,869</u>

\$629,353 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended

## NOTES TO FINANCIAL STATEMENTS

June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Year Ended	
2017	\$ 266,503
2018	266,503
2019	266,503
2020	(156,985)
2021	(15,731)
Thereafter	(67,067)
	<u>\$ 559,726</u>

Actuarial assumptions – The total pension liability in the June 30, 2015 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Cost Method – Entry Age Normal

Amortization Method – Level Percentage of Payroll

Amortization Period – Amortization over an open 30-year period

Asset Valuation Method – 5-year smooth market

Inflation – 3.00%

Salary Increases – Composed of 3.75 %wage inflation including 3.00 % price inflation, plus a service related component ranging from 0% to 8% based on years of service.

Investment Rate of Return – 8.00%

Retirement Age – Experience-based table of rates based on age, service, and gender. Adopted by the TRS Board in May, 2015, in conjunction with five year experience study for the period ending June 30, 2014

Mortality – RP-2200 Combined Mortality Table, projected to 2016 using Scale AA, multiplied by 60% for males and 50% for females.

The long-term expected rate of return on pension plan investments was determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expecting inflation.

The target asset allocation and best estimates of arithmetic expected real rates of return for each major asset class as of June 30, 2015, are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Fixed Income	23.50%	6.60%
Domestic Equity	57.50%	6.80%
Private Equity	5.00%	7.90%
Real Estate	7.00%	5.50%
Limited Partnerships	7.00%	7.90%
	<u>100.00%</u>	

Discount rate – A single discount rate of 8.00% was used to measure the total pension liability as of June 30, 2014 and 2015. This single discount rate was based solely on the expected rate of return on pension plan investments of 8.00%. Based on the stated assumptions and the projection of cash flows, the pension plan's fiduciary net position and future contributions were projected to be available to finance all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The projections of cash flows used to determine this single discount rate assumed that plan member and employer contributions will be made at the current statutory levels and remain a level percentage of payrolls. The projection also assumed the state's

## NOTES TO FINANCIAL STATEMENTS

contribution plus the matching contributions will remain a constant percent of the projected member payroll based on the past five years of actual contributions.

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate – The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 8.00%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (7.00%) or 1-percentage-point higher (9.00%) than the current rate:

	1% Decrease (7.00%)	Current Discount Rate (8.00%)	1% Increase (9.00%)
District's Proportionate share of the net pension liability	\$ 11,179,187	\$ 8,004,818	\$ 5,238,212

Pension plan fiduciary net position – Detailed information about the pension plan's fiduciary net position is available in the separately issued TRS financial report that can be obtained at <http://www.ok.gov/trs/>.

### NOTE 5 – FUND BALANCES – GOVERNMENTAL FUNDS

As of June 30, 2016, fund balances, other than unassigned are composed of the following:

	General Fund	Building Fund	Activity Fund
Restricted			
Buildings		4,773,557	
Committed			
Student Activities			21,733
Prior Year Encumbrances	65,730		
Assigned			
Buildings		40,925	
Next year budget	5,629,533		
Unassigned	349,130		
	<u>\$6,044,393</u>	<u>\$4,814,482</u>	<u>\$21,733</u>

The District would typically use restricted fund balances first, followed by committed resources, and then assigned resources, as appropriate opportunities arise, but reserves the right to selectively spend unassigned resources first to defer the use of these other classified funds.

### NOTE 6 – CONTINGENCIES AND COMMITMENTS

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions and natural disasters for which the District carries commercial insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

## NOTES TO FINANCIAL STATEMENTS

---

The School also participates in a risk pool for Workers' Compensation coverage in which there is a transfer or pooling risks amount the participants of that pool.

In accordance with professional standards, the District reports the required contribution to the pool, net of refunds, as insurance expense. The risk pool is the Oklahoma School Assurance group (OSAG), an organization formed for the purpose of providing workers' compensation coverage to participating schools in the State of Oklahoma. In that capacity, OSAG is responsible for providing loss control services and certain fiscal activities, including obtaining contract arrangements for the underwriting, excess insurance agreements, claims processing, and legal defense for any and all claims submitted to them during the plan year. As a member of OSAG, the District is required to pay fees set by OSAG according to an established payment schedule. A portion of the fees paid by the District goes into a loss fund for the District. The fee for the loss fund is calculated by projecting losses based on the District's losses for the last five years. OSAG provides coverage in excess of the Loss Fund so the District's liability for claim loss is limited to the balance of the loss fund. If the District does not use their loss fund in three years, it is returned to them with no interest.

The District is also a member of the Oklahoma Public School Unemployment Compensation Program. In this program, the District is required to make a deposit based on past experience for potential unemployment claims. The funds for each District are kept separate. The money contributed by each District does not earn interest and is fully insured. If the District has claims in excess of the amount of their account, they would be liable for the excess.

### NOTE 7 - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions and natural disasters for which the District carries commercial insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

#### Surety Bonds

Dana Wood, District Treasurer, is bonded with the Western Surety Company in the amount of \$100,000.00. The bond number is 14236930, dated July 1, 2015 to July 1, 2016.

Brady McCullough, Superintendent, is bonded with the Western Surety Company in the amount of \$100,000.00. The bond number is 15318144, dated July 1, 2015 to July 1, 2016.

Ora Morgan, Encumbrance Clerk, is bonded with the Western Surety Company in the amount of \$100,000.00. The bond number is 15318786, dated July 1, 2015 to July 1, 2016.

The District maintains a Public Employee Position Schedule Bond with the Western Surety Company. The bond number is 14236929, dated July 1, 2015 to July 1, 2016. Coverage includes the following positions:

Assistant Activity Fund Custodian (2)	\$1,000.00 each
Minute Clerk	1,000.00
Encumbrance Clerk	1,000.00
Assistant Minute Clerk	1,000.00
Activity Fund Custodian	1,000.00
Cashiers	1,000.00 each

### NOTE 8 - CAPITAL ASSETS

## NOTES TO FINANCIAL STATEMENTS

	Beginning Balances	Restatement	Increases	Ending Decreases
Capital assets not being depreciated:				
Land	\$ 195,459		\$ -	\$ -
Construction in progress	258,563		-	258,563
Total capital assets not being depreciated	454,022		-	258,563
Capital assets being depreciated:				
Buildings and improvements	14,110,596	1,096,239	1,100,550	-
Equipment & Autos	3,873,136		206,049	214,118
Total capital assets being depreciated	17,983,732	1,096,239	1,306,599	214,118
Less accumulated depreciation for:				
Buildings and improvements	4,796,666	337,853	463,025	-
Equipment & Autos	2,662,823		329,361	169,371
Total accumulated depreciation	7,459,489	337,853	792,386	169,371
Total capital assets being depreciated, net	10,524,243	675,706	514,213	44,747
Governmental activity capital assets, net	\$ 10,978,265	\$ 675,706	\$ 514,213	\$ 303,310

Depreciation expense was not allocated to the various functions because the District believes all functions are supported equally.

### NOTE 9 – New GASB Standards

The District implemented the following GASB Statements:

- GASB Statement No. 72, *Fair Value Measurement and Application*, revises the definition of fair value, outlines appropriate measurement approaches and inputs to determine fair value, and establishes measurement principles. In addition, the statement outlines disclosures that are intended to help users understand how the governmental unit has applied the principles of fair value measurement.
- GASB Statement 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments* which revises the GAAP hierarchy for governmental entities and condenses the levels to two categories of authoritative GAAP.
- GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*, was issued in response to recent changes in Securities and Exchange Commission's (SEC) Rule 2a7 for money market funds that are effective in 2016. GASBS No. 79 removes the references to SEC Rule 2a7 and establishes a list of criteria similar to current Rule 2a7. In essence, this statement provides external investment pools and their participants with the ability to continue measuring and reporting their investments or position in the pool at amortized cost as they did prior to the effect of the change in Rule 2a7. In addition, the statement requires additional note disclosures for certain external investment pools and for their participants.

The following pronouncements will be effective in the future:

- GASB Statement No. 77, *Tax Abatement Disclosures*, requires new disclosures about tax abatement agreements and their impact on the governmental unit's financial position. GASBS No. 77 is effective for periods beginning after December 15, 2015.

•  
**NOTE 10 – PRIOR PERIOD RESTATEMENT**

**Governmental Activities:** The Government-Wide statements, has been restated by \$758,386 due to construction in progress that was not captured last year. This resulted in an increase in current year beginning net position for the governmental activities and increased the change in net position for the prior year. There was no impact on the current year change in net position.

**NOTE TO REQUIRED SUPPLEMENTARY INFORMATION**  
**YEAR ENDED JUNE 30, 2016**

---

**Note 1: Budgeting and Budgetary Control**

The District is required by state law to prepare an annual budget. No later than October 1, each board of education shall prepare a financial statement and estimate of needs to be filed with the applicable county clerk and the State Department of Education. Once the county excise board has approved the estimate of needs, the board shall adopt a final budget within 45 days or the second regularly scheduled board meeting. No later than 15 days prior to adoption of a final budget, the board must conduct a public hearing for the purposes of taking public comments. The final budget may be revised upon approval of the board of education in open meeting.

Under current Oklahoma Statutes a formal budget is required for general, building, sinking, child nutrition and coop funds, as applicable to the district. Budgets are presented include the originally approved budgeted appropriations for expenditures and final budgeted appropriations as adjusted for supplemental appropriations and approved transfers between budget categories. Budgets generally assume the expenditure of all available resources. Therefore, when the legal budget is prepared, it is assumed these funds will not have a carryover balance to subsequent year.

A budget is legally adopted by the Board of Education for the General Fund and Building Fund that includes revenues and expenditures.

**Note 2: Changes of Assumptions**

The actuarial assumptions used in the 2015 valuation were based upon 2015 Actuarial Experience Study Report dated May 13, 2015. The current actuarial assumptions were adopted by the TRS Board of Trustees in May, 2015 and first utilized in June 30, 2015 actuarial valuation report. Among the changes since the prior valuation are the treatment of the administrative expenses, payroll growth rate, healthy post-retirement mortality rates, termination rates and rates for unreduced retirement.

**NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS**  
**JUNE 30, 2016**

---

**Note A: Basis of Presentation**

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of Autry Technology Center, District No. 15 under programs of the federal government for the year ended June 30, 2016. The information in this Schedule is presented in accordance with the requirements of *Title 2 U.S. Code of Federal Regulations Part 220, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of Autry Technology Center, District No. 15 it is not intended to and does not present financial position, changes in financial position or cash flows.

**Note B: Summary of Significant Accounting Policies**

Expenditures reported on the Schedule are reported on using the cash basis of accounting. Some amounts presented in the schedule may differ from amounts presented in, or used in the preparation of the basic financial statements. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, where certain types of expenditures are not allowable or are limited as to reimbursement.

**Note C: Indirect Cost Rate**

Autry Technology Center, District No. 15 has elected not to use the 10% de minimis indirect cost rate allowed under the Uniform Guidance.

**Note D: Subrecipients**

Autry Technology Center, District No. 15 did not have any awards that have been passed through to sub recipients.

## INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Board of Education  
Autry Technology Center #V-15  
Garfield County, Oklahoma

I have audited in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Autry Technology Center #V-15, Garfield County, Oklahoma, as listed in the Table of Contents, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued my report thereon dated March 13, 2017.

### Internal Control Over Financial Reporting

In planning and performing my audit of the financial statements, I considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing my opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, I do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

My consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies, and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during my audit I did not identify any deficiencies in internal control that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit and, accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Chas. W. Carroll, P.A.

**NOTES FOR OTHER SUPPLEMENTARY INFORMATION**

The other supplemental schedules of Autry Technology Center #V-15 have been prepared on a statutory basis of accounting. Accordingly, the accompanying financial statements are not intended to present financial position and results of operations in conformity with generally accepted accounting principles. The accounting policies are prescribed by the State Board of Career and Technology Education and conform to the system of accounting authorized by the State of Oklahoma. The following is a summary of the more significant accounting policies:

**A. Fund Accounting**

The Schedules use funds and account groups to present the District's financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain district functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. An account group, on the other hand, is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources.

Funds are classified into three categories; governmental, proprietary and fiduciary. Each category, in turn, is divided into separate "fund types".

The following funds are utilized by the Autry Technology Center #V-15.

**Governmental Fund Types -**

General Fund  
Special Revenue Fund

**Fiduciary Fund Types -**

Trust and Agency Fund

**Governmental Fund Types**

Governmental funds are used to account for all or most of a government's general activities, including the collection and disbursement of earmarked monies (special revenue funds), the acquisition or construction of general fixed assets (capital projects funds), and the servicing of general long-term debt (debt service funds).

General Fixed Asset Account Group - This account group is used to account for property, plant and equipment of the District. Land, buildings, nonstructural improvements, and all other physical assets in all funds are considered expenditures in the year of acquisition and are not recorded as assets for financial statements purposes. The District does not present the General Fixed Asset Account Group.

**Memorandum Only - Total Column**

The total column on the general purpose financial statements is captioned "memorandum only" to indicate that it is presented only to facilitate financial analysis. Data in this column does not present financial position, results of operations or cash flows in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Inter-fund eliminations have not been made in the aggregation of this data.

**NOTES FOR OTHER SUPPLEMENTARY INFORMATION**

Page 2

**B. Basis of Presentation**

Basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

All governmental and expendable trust funds are accounted for using the statutory basis of accounting. Revenues, except for certain grant revenues, are recognized when they are received rather than earned. Under the Statutory basis of accounting, expenditures are generally recognized when encumbered/ reserved rather than at the time the related fund liability is incurred. Fiduciary type funds are accounted for using the cash basis of accounting. These practices differ from generally accepted accounting principles.

**C. Encumbrances**

Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrance accounting--under which purchase orders and other commitments of resources are recorded as expenditures of the applicable fund--is utilized in all governmental funds of the District. Appropriations not used or encumbered lapse at the end of the year.

**D. Assets, Liabilities and Fund Equity**

Cash and Cash Equivalents - The District considers all cash on hand, demand deposits and highly liquid investments, with an original maturity of three months or less when purchased, to be cash and cash equivalents.

Investments - Investments consist of certificates of deposits issued by banks with maturities greater than three months when purchased. All investments are recorded at cost, which approximates market value.

Inventories - The value of consumable inventories at June 30, 2016 are not presented in accordance with the statutory basis of accounting.

Fixed Assets and Property, Plant and Equipment - The General Fixed Asset Account Group is not presented.

AUTRY TECHNOLOGY CENTER #V-15  
GARFIELD COUNTY – OKLAHOMA  
SCHEDULE OF ACCOUNTANT'S PROFESSIONAL  
LIABILITY INSURANCE AFFIDAVIT
