INDEPENDENT AUDITOR'S REPORT

December 14, 2015

Honorable Board of City Commissioners City of Blackwell Blackwell, Oklahoma

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Blackwell, Oklahoma, (City) as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

City of Blackwell December 14, 2015

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of the City of Blackwell, Oklahoma, as of June 30, 2015, and the respective changes in financial position, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, pension exhibits, and budgetary comparison information on pages 3 – 10, 50, and 52 – 55, and the notes on page 51 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements.

The combining statements and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining statements and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 14, 2015, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Within this section, the City of Blackwell's ("City") management provides narrative discussion and analysis of the financial performance of the City's for the fiscal year ended June 30, 2015. The City's performance is discussed and analyzed within the context of the accompanying financial statements and disclosures following this section. This discussion focuses on the City's primary government, and unless otherwise noted, component units reported separately from the primary government are not included. Please read it in conjunction with the City's financial statements, which follow this section.

FINANCIAL SUMMARY

At June 30, 2015, the assets of the City exceeded its liabilities by \$20,446,862 (net position). Of this amount \$3,178,494 (unrestricted net position) may be used to meet the City's ongoing obligations to citizens and creditors. This compared to the previous year when assets exceeded liabilities by \$19,153,416, as restated for the implementation of GASB 68 Accounting and Financial Reporting for Pensions.

- The City's total net position is comprised of the following:
 - (1) Net investment in capital assets of \$12,939,920 include property and equipment, net of accumulated depreciation, and reduced for outstanding debt related to the purchase of construction of capital assets.
 - (2) Restricted net position of \$4,328,448, mostly related to unspent bond proceeds and debt service restrictions.
 - (3) Unrestricted net position of \$3,178,494 represent the portion available to maintain the City's continuing obligations to citizens and creditors.
- Total liabilities of the City were \$16,930,271 which is an increase of \$3,522,327 over prior year liabilities of \$13,407,944. This marked increase is a direct result of the accrual of pension obligations totaling \$3,198,947 for the year ended. Refer to detailed information on the employee benefit plans and pension liability in the footnotes to the financial statements.
- The City's governmental funds reported total ending fund balance of \$3,552,779 at June 30, 2015. This compared to prior year ending fund balance of \$4,558,959.

OVERVIEW OF THE FINANCIAL STATEMENTS

Management's Discussion and Analysis introduces the City's basic financial statements. The basic financial statements include: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. The City also includes in this report additional information to supplement the basic financial statements.

Government-wide Financial Statements

The City's annual reporting includes two government-wide financial statements. These statements provide both long-term and short-term information about the City's overall status and are presented to demonstrate the extent the City has met its operating objective efficiently and effectively using all the resources available and whether the City can continue to meet it objectives in the foreseeable future. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in full accrual accounting and elimination or reclassification of internal activities.

The first of these government-wide statements is the *Statement of Net Position*. This is the City-wide statement of financial position presenting information that includes all of the City's assets and liabilities, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indication of whether the financial position of the City as a whole is improving or deteriorating. Evaluation of the overall economic health of the City would extend to other financial factors such as diversification of the taxpayer base or the condition of the City infrastructure in addition to the financial information provided in this report.

The second government-wide statement is the *Statement of Activities*, which reports how the City's net position changed during the current fiscal year and can be used to assess the City's operating results in

its entirety and analyze how the City's programs are financed. All current year revenues and expenses are included regardless of when cash is received or paid. An important purpose of the design of the statement of activities is to show the financial reliance of the City's distinct activities or functions on revenues provided by the City's taxpayers.

Both government-wide financial statements distinctively report governmental activities of the City that are principally supported by taxes and intergovernmental revenues, such as grants, and business-type activities that are intended to recover all or a significant portion of their costs through user fees and charges, known as program revenues. Governmental activities includes general government; public safety and judiciary; transportation; and cultural, parks, and recreation. Business-types activities include utility services, including electric, water, wastewater, and sanitation provided by the City.

The City's financial reporting entity includes the funds of the City (primary government) and organization for which the City is accountable (component units). More comprehensive information about the City's component units can be found in footnotes.

Fund Financial Statements

A fund is an accountability unit used to maintain control over resources segregated for specific activities or objectives. The City uses funds to ensure and demonstrate compliance with finance-related laws and regulations. Within the basic financial statements, fund financial statements focus on the City's most significant funds rather than the City as a whole.

The City has three kinds of funds:

Governmental funds are reported in the fund financial statements and encompass essentially the same functions reported as governmental activities in the government-wide financial statements. However, the focus is different with fund statements reporting short-term fiscal accountability focusing on the use of spendable resources during the year and balances of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of governmental programs and the commitment of spendable resources for the near-term.

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to the government-wide statements to assist in understanding the differences between these two perspectives.

A budgetary comparison statement is included in the basic financial statement for governmental funds deemed as major. This statement demonstrates compliance with the City's adopted and final revised budget.

Proprietary funds are reported in the fund financial statements and generally report services for which the City charges customers a fee. The City has one type of proprietary fund, enterprise funds. Enterprise funds essentially encompass the same functions reported as business-type activities in the government-wide statements. Services are provided to customers external to the City organization such as water and sanitation utilities and sales of land and airplane fuel.

Proprietary fund statements and statements for discretely presented component units (reporting similarly to proprietary funds) provide both long-term and short-term financial information consistent with the focus provided by the government-wide financial statements but with more detail.

Fiduciary funds such as the meter deposits and police bonds are reported in the fiduciary fund financial statements, but are excluded from the government-wide reporting. Fiduciary fund financial statements report resources that are not available to fund City programs. Fiduciary fund financial statements report similarly to proprietary funds.

Notes to the financial statements

The accompanying notes to the financial statements provide information essential to a full understanding of the government-wide and fund financial statements. Those notes to the financial statement begin immediately following the basic financial statements.

Other information

In addition to the basic financial statements and accompanying notes, this report presents certain required supplementary information detailing the combining statements of non-major governmental funds.

A FINANCIAL ANALYSIS OF THE CITY AS A WHOLE

Net position

The City's combined net position at June 30, 2015 was \$20,446,862. The City reported positive balances in total net position for both governmental and business-type activities, \$6,243,146 and \$14,203,716, respectively. The City's overall financial position declined in the current year due to the accrual of pension liabilities.

Restricted		2,254		2,276		2,074		5,087	4,328		7,363		(3,035)	-41%
Unrestricted	((2,233)		1,685		5,412		5,260	3,179		6,945		(3,766)	-54%
Total net position	\$	6,243	\$	8,846	\$	14,204	\$	14,440	\$ 20,447	\$	23,286	\$	(2,839)	-12%

Total assets remained consistent year over year, noting a 5% change. This moderate change is the result of liquid assets used to fund capital purchases and pay down existing debt. Those funds are shown as restricted cash and investment balances as of June 30, 2015. Liabilities for the City, noted a 26% increase resulting from the recording of over \$3 million in pension obligations. Refer to disclosures in the footnotes of the financial statements.

in net position	\$ 1,530	\$	(29)	\$ (236)	\$ (551)	\$ 1,294	\$	(580)	\$ 1,874	-323%

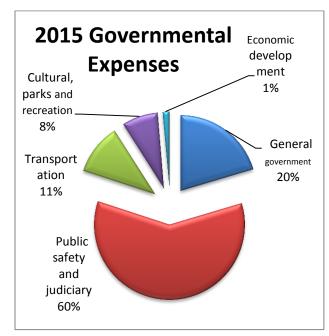

Revenues for the City increased 38% when compared to prior year. This change is attributable to strong utility billing collections during the year coupled with consistent sales tax collections and reimbursement on capital projects. Operating expenses remained consistent between fiscal years, noting a 2% change year over year. Costs shifted between departments, but in total, the City maintained spending at a steady level.

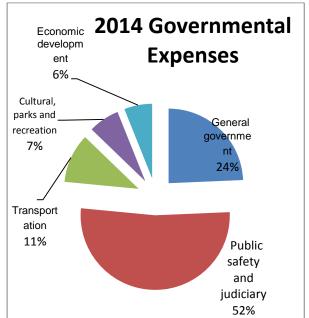

Graphic presentations of selected data from the summary table follow to assist in the analysis of the City's activities.

The most significant revneue source in fiscal year 2015 were taxes at 58% of total revenues compared to 61% in prior year. Public safety was the next largest funding source for the City at 23% in 2015 and 21% in 2014.

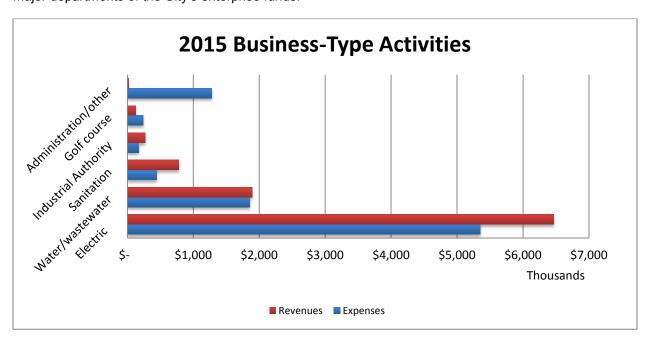

For the year ended June 30, 2015, total expenses for governmental activities were \$5,276,742 compared to \$5,643,400 in 2014. Of this amount, public safety and judiciary with \$3,148,052 was the largest operating service department at 60% of the total City government expenses. This is consistent with prior year, where public safety was 52% of the total cost of services for the City government. These costs, as well as all other governmental activity expenses, were primarily funded by tax revenues and transfers from business-type activities.

It should be noted that governmental expenses are adjusted from the fund statements to the government-wide statements for the purchase and construction of capital assets. Government-wide statement is full accrual; capital outlay expenses are eliminated and capital assets are reported.

Business-type Activities

The following is a graphic representation of business-type expenses as a percentage of revenues for the major departments of the City's enterprise funds:

Business-type activities are shown comparing operating costs to operating revenues generated by the related services. All services are intended to be self-supporting with user charges and other revenues designed to recover costs. Administration/other provide services with minimal user charges.

General Fund Budgetary Highlights

The original adopted General Fund budget for fiscal year 2015 was \$4,535,745. During the fiscal year, the City approved budget amendments totaling \$378,555. Total expenditures for the City were \$4,410,120, which was \$504,180 less than the approved budget.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At the end of June 30, 2015, the City had \$12,939,920 invested in capital assets, net of related debt, including vehicles and equipment for police and fire operations, street improvements, and park facilities, in governmental activities and utility improvements/infrastructure in business-type activities. Refer to the table below.

Primary Government Capital Assets (in thousands)

	Governmental				Business					
	Activ	<u>ities</u>			<u>Activit</u>	<u>ies</u>		<u>To</u>	<u>tal</u>	
	<u>2015</u>		<u>2014</u>		<u>2015</u>	<u>2</u>	014	<u>2015</u>		<u>2014</u>
Land and CIP	\$ 1,424	\$	1	\$	702	\$	20	\$ 2,126	\$	21
Buildings	1,820		1,735		777		766	2,597		2,501

Total capital assets, net	\$ 6,764	\$	4,884	\$	15,227	\$ 1	6,452	\$ 21,991	\$	21,336

The most significant additions to the City's capital assets included significant paving improvements throughout the City, electrical infrastructure improvements, park improvements, and equipment for the City.

Long-Term Debt

At year-end, the City had \$12,510,074 in long-term debt outstanding. The City's changes in long-term debt by type of debt are as follows:

Primary Government Long-Term Debt

	Govern	nmental	Business-type							
	Activ	vities	Activities							
	<u>2015</u>	2014	<u>2015</u>	<u>2014</u>

Total long term debt	\$ 416,610	\$ -	\$ 10,625,301	\$ 11,090,116						

ECONOMIC FACTORS AND NEXT YEARS'S BUDGET AND RATES

Economic Environment

According to the Oklahoma Economic Report, "revenue growth from the past year has been erased and indications are the situation is going to get worse before it gets better" stated by State Treasurer, Ken Miller in October 2015. The economic environment of the state sheds light on the local economy of the City.

The economy of the City of Blackwell has, thus far, weathered the decline in sales and other tax revenues. Correspondingly, utility billing has remained strong in the local economy. However, the City has taken steps to budget conservatively in preparation for a decline. The City has built cash reserves in a sufficient capacity to withstand the downfall of the local economy. Management is committed to provide a consistent level of service to citizens while improving the infrastructure and recreation opportunities of the community within the current constraints.

Fiscal Year 2016 Planning

Utility rate increases, combined with strict supervision of expenses, allowed management to present balanced budgets for the City/Blackwell Municipal Authority, with use of prior year cash reserves from the Blackwell Municipal Authority. Management has elected to utilize Blackwell Public Trust funds in excess of \$1.3 million in accordance with the trust agreement to fund capital project, community enhancements, and operations during the fiscal year.

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers and creditors with a general overview of the City's finances and to show the City's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the City Clerk's Office at Blackwell City Hall, 221 W. Blackwell, Blackwell, Oklahoma.

CITY OF BLACKWELL

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENTS OF REVENUES, EXPENDITURES TO THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES Year Ended June 30, 2015

Net Change in Fund Balances - Total Governmental Funds	\$	8,250
Amounts reported for governmental activities in the Statement of Activities are different because:		
The proceeds of debt issuances provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.		
Proceeds from issuance of capital lease	(599,000)	
Capital lease principle payments	173,835	(425,165)
Government-Wide Statement of Activities report accrued compensated absences in the period incurred. However, Governmental Funds do not pay on this liability until the employee has left employment. The amount of the change in accrued absences recorded in the current period.		(6,326)
Government-Wide Statement of Activities report OPEB liabilities in the period incurred. However, Governmental Funds do not pay on this liability. The amount of the change for the OPEB liability recorded in the current period.		
Governmental Funds report capital outlay as expenditures. However, in the Government-Wide Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount of capital assets recorded in the current period.		2,332,058
Depreciation expense on capital assets is reported in the Government-Wide Statement of Activities and Changes, but they do not require the use of current financial resources. Therefore, depreciation expense is not reported as expenditures in Governmental Funds.		(452,522)

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2015

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Blackwell, Oklahoma (the City) complies with accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant accounting policies established in GAAP and used by the City are discussed below.

A. Reporting Entity

The City of Blackwell, Oklahoma is organized under the statutes of the State of Oklahoma. The City operates under a council form of government and is governed by a five-member board of councilors. The mayor is elected by the citizens of Blackwell. The City provides the following services as authorized by its charter: general government, public safety (fire and police), streets, public works (electric, water, sewer, and refuse), judicial, health and social services, culture, parks and recreation, public improvements and planning and zoning for the geographical area organized as the City of Blackwell, Oklahoma.

As required by accounting principles generally accepted in the United States of America, these financial statements present the activities of the City and its component units and trusts, entities for which the City is considered to be financially accountable. Blended component units and trusts, although legally separate entities are, in substance, part of the City's operations and so data from these units are combined with the data of the primary government. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the City.

Blended Component Units/Trusts:

The Blackwell Municipal Authority (BMA) was created pursuant to a Trust Indenture for the benefit of the City of Blackwell, Oklahoma. BMA was established to acquire, construct, develop, equip, operate, maintain, repair, enlarge and remodel water, sewer and electrical facilities for the City of Blackwell. The water, sanitary sewer, and electrical systems owned by the City have been leased to BMA until such date that all indebtedness of the Authority is retired or provided for. BMA is a public trust and an agency of the State of Oklahoma under Title 60, Oklahoma Statutes 1991, Section 176, et seq., and is governed by a board consisting of five trustees identical with the City Council. BMA is exempt from State and Federal income taxes. BMA is reported as an enterprise fund.

The Blackwell Municipal Golf Course Authority (Golf Course) was created pursuant to a Trust Indenture for the benefit of the City of Blackwell, Oklahoma. The Golf Course was established to purchase and maintain a public golf course for the City of Blackwell. The Golf Course is a public trust and an agency of the State of Oklahoma, under Title 60, Oklahoma Statutes 1991, Section 176, et seq., and is governed by a board consisting of five trustees appointed by the City Council. The City, as beneficiary of this public trust, would receive title to any residual assets should the Golf Course be dissolved. The Golf Course is exempt from State and Federal Income taxes. The Golf Course is reported as an enterprise fund.

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2015

The Blackwell Industrial Authority (BIA) was created for the benefit of the City of Blackwell, Oklahoma. BIA was created to promote the development of industry and to provide additional employment in the Blackwell, Oklahoma. The Authority is a public trust and an agency of the State of Oklahoma under Title 60, Oklahoma Statutes 1991, Section 176, et seq., and is governed by a board consisting of five trustees appointed by the City Council. The City, as beneficiary of this public trust, would receive title to any residual trust funds and assets should the BIA be dissolved. BIA is exempt from State and Federal Income taxes. BIA is reported as an enterprise fund.

Discretely Presented Component Units/Trusts:

The Blackwell/Tonkawa Airport Authority (the Airport) was created for the benefit of the City of Blackwell and Tonkawa, Oklahoma. The Authority is a public trust and an agency of the State of Oklahoma under Title 60, Oklahoma Statutes 1991, Section 176, et seq., and is governed by a board consisting of five trustees jointly appointed by the City of Blackwell and the City of Tonkawa councils. The Cities of Blackwell and Tonkawa are the beneficiaries of this public trust and would receive title to any residual trust funds and assets should the Airport be dissolved. The Airport is exempt from State and Federal Income taxes. The Airport is reported as an enterprise fund.

Related Party:

The Blackwell Public Trust is a Title 60 trust under the State of Oklahoma established in July 2010 for the benefit of the City of Blackwell. The Trust accounts for the settlement monies used to promote, encourage and further the accomplishment of specified activities with a public purpose within the City. The Trust allocates and distributes funds from the trust to the City as projects are approved by the Board of Trustees, which is 100% appointed by the City council. The Trust only holds cash and investments; there are no intercompany borrowings or assets borrowed/used by the City. Investment funds are held by the Trust and managed in accordance with an approved investment policy. The Trust is required to have an audit each year by the same auditor as the City. In accordance with GASB 61, the Trust is excluded as a component unit. Complete financial statements of the Trust can be obtained from the Blackwell Trust Authority, P.O. Box 350, Blackwell, Oklahoma 74631-0350.

Associated Entities:

Lake Blackwell Trust Authority
Blackwell Hospital Trust Authority

The City has no direct interest in the associated entities.

B. Measurement Focus, Basis of Accounting and Basis of Presentation - Fund Accounting

The City's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements, which provide a more detailed level of financial information. Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting.

Government-wide Financial Statements – The statement of net position and the statement of activities display information about the City as a whole. These statements include the financial activities of the primary government, except fiduciary funds. The activity of the internal service fund is eliminated to avoid "doubling up" revenues and expenses. The statements distinguish between those activities of the City that are governmental and those that are considered business-type activities.

The statement of net position presents the financial condition of the governmental and business-type activities at year-end. The statement of activities presents a comparison between direct expenses and program

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2015

revenues for each program or function of the City's governmental activities and for the business-type activities of the City. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on program revenues are presented as general revenues of the city, with certain limited exceptions.

The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the City.

Fund Financial Statements – During the year, the City segregates transactions related to certain City functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the City at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Major funds represent 10% of assets, liabilities, revenues, or expenditures of the corresponding element for all funds of that category *and* is at least 5% of the corresponding element total for all governmental and enterprise funds combined *or* is a fund that the government believes is important enough for financial statement users to be reported as a major fund. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by type.

Fund Accounting – The accounts of the City are organized and operated on the basis of funds. A fund is an independent fiscal accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. There are three categories of funds: governmental, proprietary and fiduciary.

Governmental Funds – are used to account for the government's general government activities. Governmental fund types use the flow of current financial resources measurement focus and the modified accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The government considers all revenues available if they are collected within 60 days after year-end. Expenditures are recorded when the related fund liability is incurred, except for unmatured interest on general long-term debt which is recognized when due, and certain compensated absences and claims and judgments which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Sales taxes, gasoline excise taxes and motor vehicle taxes collected and held by the state and county at year-end on behalf of the City are susceptible to accrual and are recognized as revenue. Other receipts and taxes (franchise taxes, licenses, etc.) become measurable and available when cash is received by the government and are recognized as revenue at that time.

Entitlements and shared revenues are recorded at the time of receipt or earlier if the susceptible to accrual criteria are met. Expenditure driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met.

The following are the City's major governmental funds:

<u>General Fund</u> – is the general operating fund of the City. It accounts and reports for all financial resources not required to be reported in another fund.

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2015

Other governmental funds of the City that are considered non-major funds include:

<u>Special Revenue Funds</u> – account for specific revenue sources that are legally restricted or committed to expenditures for specific purposes (not including major capital projects). The following are the City's Special Revenue Funds: Street and Alley, Motel Tax, Environmental Clean-up, CDBG, FEMA, Emergency Management Grant, Police Federal Forfeited Fund, Law Enforcement Grant Fund, Steve Levalley Memorial Fund, Community Enhancement, Insurance Damage, Hospital Insurance, Alcohol Education and Prevention, Automobile/Equipment Repair, Building Maintenance and Operations, Firefighters Grant, CUPS and E-911 Funds.

<u>Capital Projects Fund</u> – which accounts for and reports resources that are restricted, committed, or assigned to expenditure for the acquisition or construction of major capital facilities, other than those activities financed by proprietary activities or held in trust for individuals, private organizations or other governments. Capital Project Funds of the City include the Recreational Sales Tax and the Sales Tax Capital Improvement Fund.

<u>Debt Service Fund</u> – accounts for and report financial resources that are restricted, committed, or assigned to principal and interest payments. The Debt Service Fund includes the Long-Term Debt Fund.

Proprietary Funds – are accounted for on the flow of economic resources measurement focus and use the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred. In compliance with the Governmental Accounting Standards Board (GASB) Statement No. 20 the City has adopted only Financial Accounting Standards Board (FASB), Accounting Principles Board (APB) and Accounting Research Board (ARB) materials issued on or before November 30, 1989 that do not conflict with GASB. Proprietary funds are classified as either enterprise or internal service.

<u>Enterprise Funds</u> – are used to account for those operations that are financed and operated in a manner similar to private business where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges or where the governing body has decided that the determination of revenues earned, costs incurred and/or net income is necessary for capital maintenance, public policy or management accountability.

The City's major enterprise fund includes:

<u>Blackwell Municipal Authority</u> – accounts for the operations of providing public works (electric, water, sewer and refuse) to the City.

The other enterprise funds of the City do not meet the percentage criteria for major funds but the City has elected to treat the following two non-major funds as though they were major funds for purposes of presentation within the proprietary funds of the financial statements rather than aggregating this information separately solely for the benefit of user understandability of the financial statements include:

<u>Blackwell Industrial Authority</u> – accounts for the operations to promote the development of industry and to provide additional employment to the City; and the

<u>Blackwell Municipal Golf Course Authority</u> – accounts for the operations of a public golf course for the benefit of the residents of the City.

Fiduciary Funds – account for assets held by the government in a trustee capacity or as an agent on behalf of others. Trust funds account for assets held by the government under the terms of a formal trust

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2015

agreement. Agency funds are custodial in nature and do not present results of operations or have a measurement focus. Agency funds are accounted for using the modified accrual basis of accounting. These funds are used to account for assets that the government holds for others in an agency capacity. The City's only fiduciary funds are agency funds that are composed of customer utility deposit funds.

C. Assets, Liabilities and Equity

1. Deposits and Investments

Oklahoma Statutes authorize the City to invest in certificates of deposit, repurchase agreements, passbooks, bankers' acceptances, and other available bank investments provided that all deposits are fully covered by approved securities pledged to secure those funds. In addition, the City can invest in direct debt securities of the United States unless law expressly prohibits such an investment.

For financial statement presentation and for purposes of the statement of cash flows, the City's cash and cash equivalents are considered to be cash on hand, demand deposits and certificates of deposit with maturity date of three months or less. Debt instruments with a maturity date of more than three months from date of issue are considered to be investments. Investments are stated at cost.

2. Restricted Cash and Investments

The restricted bond fund cash and investments are the result of financial requirements of bond issues and consist of funds held in accounts with the Trustee bank. Under the terms and provisions of the Bond Indenture, these special accounts and reserve funds are maintained for the benefit of the holders of the bonds and are not subject to lien or attachment by any other creditors. These accounts and reserve funds are to be maintained so long as any bonds are outstanding. Monies contained in the accounts and reserve funds held by the Trustee are required to be continuously invested in authorized securities that mature not later than the respective dates when the funds shall be required for the purpose intended by the trust indenture.

Additionally, the Blackwell Industrial Authority has a "revolving loan fund" established to provide assistance to area industries and businesses in the form of low interest loans. Certain land and buildings located in the industrial park are also included as restricted assets.

3. Fair Value of Financial Instruments

The City's financial instruments include cash and cash equivalents, investments, accounts receivable and accounts payable. The City's estimates of the fair value of all financial instruments do not differ materially from the aggregate carrying values of its financial instruments recorded in the accompanying balance sheet. The carrying amount of these financial instruments approximates fair value because of the short maturity of these instruments.

4. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2015

5. Receivables and Payables

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due from other/due to other funds".

6. Inventories

Inventories in both governmental funds and proprietary funds normally consist of minimal amounts of expendable supplies held for consumption. The costs of such inventories are recorded as expenditures when purchased rather than when consumed.

7. Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported in the business-type activities column of the government-wide statement of net position and in the respective funds. All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. The City maintains a capitalization threshold of \$5,000 for the governmental and proprietary funds.

The City's infrastructure consists of roads, bridges, culverts, curbs and gutter, streets and sidewalks, drainage system, lighting systems and similar assets that are immovable and of value only to the City. Such infrastructure assets acquired are capitalized in accordance with the requirements of GASB 34. Improvements are capitalized; the costs of normal maintenance and repairs that do not add value of the asset or materially extend an asset's life are not capitalized. Major outlays for capital assets and improvements are capitalized in proprietary funds as projects are constructed. Interest incurred during the construction phase of proprietary fund capital assets is reflected in the capitalized value of the asset constructed, net of interest earned on the invested proceeds over the same period. All reported capital assets are depreciated except for land and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the City's historical records of necessary improvements and replacement. Depreciation is computed using the straight-line method over the following estimated useful lives:

Description	Estimated Lives
Buildings	40 years
Improvements other than buildings	30 - 50 years
Infrastructure	40 years
Vehicles and Equipment	5 - 10 years

8. Compensated Absences

It is the City's policy to permit employees to accumulate earned but unused vacation and sick time. There is no liability for unpaid accumulated sick leave since the city does not have a policy to pay any amounts when employees separate from service with the City. Full-time employees are granted vacation benefits in varying amounts to specified maximums depending on tenure with the City. Generally, employees are entitled to all accrued vacation leave upon termination. Sick leave may be accumulated to a maximum of 90 days but employees are not compensated for unused sick leave upon termination. The expense and related liability for vested vacation benefits and compensatory time is recorded in the respective funds of the City or component unit.

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2015

9. Long-term Obligations

The accounting and reporting treatment applied to long-term liabilities associated with a fund are determined by its measurement focus. All governmental fund types are accounted for on a spending "financial flow" measurement focus. This means that only current assets and current liabilities are generally included on their balance sheets. Their reported fund balance (net current assets) is considered a measure of "available spendable resources". Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of "available spendable resources" during a period.

All proprietary funds are accounted for on a cost of services or "capital maintenance" measurement focus. This means that all assets and liabilities (whether current or non-current) associated with their activity are included on their balance sheets. Therefore, long-term debt and other obligations financed by proprietary funds are reported as liabilities in the appropriate funds.

10. Net Position/Fund Balance

In the government-wide financial statement, net position represents the difference between assets and liabilities. Net investment in capital assets, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction, or improvement of those assets. Net position is reported as restricted when limitations on their use change the nature or normal understanding of the availability of the asset. Such constraints are either externally imposed by creditors, contributors, grantors, laws or other governments, or are imposed by law through constitutional provisions or enabling legislation.

In the fund financial statements, governmental funds report the hierarchy of fund balances. The hierarchy is based primarily on the degree of spending constraints placed upon use of resources for specific purposes versus availability of appropriation. An important distinction that is made in reporting fund balance is between amounts that are considered *nonspendable* (i.e., fund balance associated with assets that are *not in spendable form*, such as inventories or prepaid items, long-term portions of loans and notes receivable, or items that are legally required to be maintained intact (such as the corpus of a permanent fund)) and those that are *spendable* (such as fund balance associated with cash, investments or receivables).

Amounts in the *spendable* fund balance category are further classified as *restricted, committed, assigned* or *unassigned*, as appropriate.

Restricted fund balance represents amounts that are constrained either externally by creditors (such as debt covenants), grantors, contributors or laws or regulations of other governments; or by law, through constitutional provisions or enabling legislation.

Committed fund balance represents amount that are useable only for specific purposes by formal action of the government's highest level of decision-making authority. Such amounts are not subject to legal enforceability (like restricted amounts), but cannot be used for any other purpose unless the government removes or changes the limitation by taking action similar to that which imposed the commitment. The City Ordinance is the highest level of decision-making authority of the City.

Assigned fund balance represents amounts that are *intended* to be used for specific purposes, but are neither restricted nor committed. Intent is expressed by the governing body itself, or a subordinated high-level body or official who the governing body has delegated the authority to assign amounts to be used for specific purposes. Assigned fund balances includes all remaining spendable amounts (except negative balances) that are reported in governmental funds *other than the general fund*, that are neither restricted nor committed, and amounts in the general fund that are intended to be used for specific purpose in accordance with the provisions of the standard.

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2015

Unassigned fund balance is the residual classification for the general fund. It represents the amounts that have not been assigned to other funds, and that have not been restricted, committed, or assigned to specific purposes within the general fund.

11. Resource Use Policy

It is in the City's policy for all funds that when an expenditure/expense is incurred for purposes for which both restricted and unrestricted resources, including fund balances, are available, the City considers restricted amounts to be spent first before any unrestricted amounts are used. Furthermore, it is the City's policy that when an expenditure/expense is incurred for purposes for which committed, assigned, or unassigned resources, including fund balances, are available, the City considers committed amounts to be spent first, followed by assigned amounts and lastly unassigned amounts.

12. Deferred Outflows of Resources and Deferred Inflows of Resources

In addition to assets and liabilities, the statement of financial position and the governmental fund balance sheet may report separate sections of deferred outflows of resources and deferred inflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period which will not be recognized as an outflow of resources until that time. Deferred inflows of resources represent an acquisition of net position that applies to a future period which will not be recognized as an inflow of resources until that time.

2. DETAILED NOTES CONCERNING THE FUNDS

A. Deposits and Investments

Custodial Credit Risk

At June 30, 2015, the City held deposits of approximately \$9,300,000 at financial institutions. The City's cash deposits, including interest-bearing certificates of deposit, are entirely covered by Federal Depository Insurance (FDIC) or direct obligation of the U.S. Government insured or collateralized with securities held by the City or by its agent in the City's name.

Investment Interest Rate Risk

The City does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Investment Credit Risk

The City has no policy that limits its investment choices other than the limitation of state law as follows:

- a. Direct obligations of the U.S. Government, its agencies and instrumentalities to which the full faith and credit of the U.S. Government is pledged, or obligations to the payment of which the full faith and credit of the State is pledged.
- b. Certificates of deposits or savings accounts that are either insured or secured with acceptable collateral with in-state financial institutions, and fully insured certificates of deposit or savings accounts in out-of-state financial institutions.
- c. With certain limitation, negotiable certificates of deposit, prime bankers acceptances, prime commercial paper and repurchase agreements with certain limitations.

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2015

- d. County, municipal or school district tax supported debt obligations, bond or revenue anticipation notes, money judgments, or bond or revenue anticipation notes of public trusts whose beneficiary is a county, municipality or school district.
- e. Notes or bonds secured by mortgage or trust deed insured by the Federal Housing Administrator and debentures issued by the Federal Housing Administrator, and in obligations of the National Mortgage Association.
- f. Money market funds regulated by the SEC and in which investments consist of the investments mentioned in the previous paragraphs (a.-d.).

The investments held at June 30, 2015 are as follows:

Туре	Weighted Average Maturity (Months)	Credit Rating		Market Value	Cost
Investments Certificate of deposit Total investments	4.74	N/A	\$ \$	2,802,769 2,802,769	\$ 2,802,769 2,802,769
		n to Statemer			
	Governmental		\$	782,942 1,688,968	
	Business-type Component ur			90,855	
	Fiduciary activ			240,000	
	,		\$	2,802,765	

Concentration of Investment Credit Risk

The City places no limit on the amount it may invest in any one issuer. The City has the following of credit risk: 100% in Certificates of deposit detailed above.

B. Uncollectible Accounts

The City's estimate of uncollectible accounts receivable by fund and activity is as follows:

	_	Governmental Activities	_	Business-type Activities
Miscellaneous	\$	345,420	\$	-
Utilities		-		964,366
Total	\$	345,420	\$	964,366

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2015

C. Capital Assets

D. Capitalized Leases

The City has entered into a capitalized lease for the acquisition of a fire truck. The lease agreements met the criteria of a capital lease as defined by FASB Accounting Standards Codification (ASC) 840-10 (Formerly FAS No. 13), Accounting for Leases, which defines a capital lease generally as one which transfers benefits and risks of ownership to the lessee. Capital lease payments have been reclassified and are reflected as debt service expenditures in the financial statements for the governmental funds. These expenditures are reported as expenditures on the fund financial statements.

On November 20, 2014, the city entered into a lease purchase agreement with RCB for the purchase of a 2013 fire truck in the amount of \$599,000 plus document fees. Monthly payments of \$10,460 are required for a period of 60 months to be renewed on an annual basis.

The following is a summary of capitalized lease transactions for the year:

	-	Balance July 1, 2014 Additions			_	Payments	_	Balance June 30, 2015
Capital lease obligations	\$	-	\$	599,275	\$	57,145	\$	542,130

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2015

E. Long-term Debt

The City's long-term debt and amounts to be repaid from business-type activities are described below.

Blackwell Municipal Authority

\$7,705,000 Blackwell Municipal Authority Utility System and Sales Tax Revenue Note Series 2006 dated June 30, 2006, due in monthly payments of \$49,014 commencing July 1, 2006 through April 1, 2026 with interest at 4.46% per annum.	5,040,000
\$2,325,000 Blackwell Municipal Authority Utility System and Sales Tax Revenue Note Series 2008 dated April 1, 2008, due in annual installments of \$25,000 to \$170,000 through April 1, 2027, with interest payable semi-annually at 4.08% per annum.	1,650,000
\$5,000, 000 Blackwell Municipal Authority Utility System and Sales Tax Revenue Note Series 2012 dated April 1, 2012, due in annual installments of \$110,000 to \$205,000 through October 1, 2027, with interest payable semi-annually at 2.98% per annum.	4,345,000
Total Blackwel Municipal Authority	\$ 11,035,000
Blackwell Industrial Authority	
Note payable to RCB Bank, dated November 6, 2012 in the amount of \$266,874, payable over 15 years at an interest rate of 4%. Proceeds were used to purchase economic development property.	\$ 231,314
Note payable to RCB Bank, dated November 6, 2012 in the amount of \$414,807, payable over 10 years at an interest rate of 4%. Proceeds were used to purchase economic development property.	322,637
Total Blackwel Industrial Authority	\$ 553,951
Blackwell Municipal Golf Course Authority	
Lease payable to John Deere Credit dated August 20, 2013, in the original amount of \$5,000, payable in monthly installments of \$92.41, including interest at 4.3%.	3,198
Lease payable to Justice Golf Car Co, Inc. dated February 16, 2015 in the original amount of \$85,500 for 25 2011 Club Car golf carts. Lease is for a period of 48 months ending March 2019. Monthly installments are \$1,787.50.	80,433
Lease payable to TCF Equipment Finance, a division of TCF National Bank dated June 25, 2015 in the original amount of \$295,392 for equipment at the golf course, including mowers. Lease is for a period of 60 months ending June 2020. Monthly installments are \$4,849.85.	295,362
Total Blackwell Municipal Golf Course Authority	\$ 378,993
Total Business-type activites long term debt	\$ 11,967,944

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2015

Discretely Presented Component Unity - Blackwell/Tonkawa Airport Authority:

Note payable to Kay Electric Cooperative, dated November 30, 2011, in the original amount of \$160,000, payable in monthly installments of \$1,334, including interest at 0% for building construction.

The City is not obligated in any manner for the debt of its component units or trusts. The following is a summary of long-term debt transactions of the component units and trust authorities of the City:

	Original	Balance Outstanding			Balance Outstanding

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2015

3. OTHER INFORMATION

A. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; employee health benefits; unemployment; and natural disasters. The City purchases commercial insurance to cover these and other risks, including general auto liability, property damage, and public officials' liability. Settled claims resulting from these risks have not exceeded the commercial insurance coverage in any of the past three fiscal years. Judgments against the City may be paid by a property tax assessment over a three-year period.

B. Contingent Liabilities

The City is a defendant in ongoing litigation and various legal actions arising from normal governmental activities. Although most of such actions are covered by insurance, certain actions might have some degree of exposure to the City. The outcome of these lawsuits is not presently determinable, and it is not known if the resolution of these matters will have a material adverse effect on the financial condition of the City.

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be immaterial.

A tract of land located in the City is under investigation by the State of Oklahoma Department of Environmental Quality (DEQ) and the U.S. Environmental Protection Agency (EPA). The investigation concerns the existence of elevated levels of heavy metals on the surface of the site and the existence of such metal in ground water under the site. The City, along with other involved parties, and the DEQ voluntarily entered into a consent order on June 21, 2000, to address water quality violations and outstanding remediation issues. The consent order required the respondents to negotiate a plan of action to correct the violations and address the outstanding remediation issues. In October 2014, the City received a letter from DEQ related to the consent order and paid a cash penalty of \$7,750 DEQ as a result. The City has submitted a proposal to the DEQ, which is currently under review.

On October 15, 2009, the City and the Blackwell Municipal Authority filed lawsuit against certain defendants in the matter City of Blackwell, Oklahoma and Blackwell Municipal Authority v. Freeport-McMoran Cooper & Gold Inc., et al., in District Court of Kay County, Oklahoma. The lawsuit alleged previous operations of a zinc smelter facility by the defendants extensively contaminated the soils and groundwater in and under the City which led to the City's claims for public nuisance, private nuisance, trespass, negligence and unjust enrichment. In February 2010, the City and BMA received a partial settlement of \$54,000. Beginning in April 2014, negotiation between Freeport and the City were initiated in an attempt to resolve the groundwater claims, which resulted in a Settlement Agreement and Release being executed effective October 23, 2014. Freeport agreed to pay the city \$3,000,000 in an escrow account with \$2,000,000 retained to pay the costs associated with specific projects identified in the settlement and \$1,000,000 to pay legal fees incurred. The City has until January 23, 2017 to complete the specific projects or the escrow will be terminated and remaining funds will be returned to Freeport.

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2015

C. Employee Retirement System and Plans

The City participates in three employee pension systems as follows:

Name of Plan	Type of Plan				
Oklahoma Municipal Retirement Fund	Agent Multiple Employer – Defined Benefit Plan				
Oklahoma Police Pension and Retirement Fund	Cost Sharing Multiple Employer – Defined Benefit Plan				
Oklahoma Firefighter Pension and Retirement Fund	Cost Sharing Multiple Employer – Defined Benefit Plan				

Oklahoma Police Pension and Retirement Systems

<u>Plan description</u> – The City of Blackwell, as the employer, participates in the Oklahoma Police Pension and Retirement Plan – a cost-sharing multiple-employer defined benefit pension plan administered by the Oklahoma Police Pension and Retirement System (OPPRS). Title 11 of the Oklahoma State Statutes, through the Oklahoma Legislature, grants the authority to establish and amend the benefit terms to the OPPRS. OPPRS issues a publicly available financial report that can be obtained at www.ok.gov/OPPRS.

<u>Benefits provided</u> – OPPRS provides retirement, disability, and death benefits to members of the plan. The normal retirement date under the Plan is the date upon which the participant completes 20 years of credited service, regardless of age. Participants become vested upon completing 10 years of credited service as a contributing participant of the Plan. No vesting occurs prior to completing 10 years of credited service. Participants' contributions are refundable, without interest, upon termination prior to normal retirement. Participants who have completed 10 years of credited service may elect a vested benefit in lieu of having their accumulated contributions refunded. If the vested benefit is elected, the participant is entitled to a monthly retirement benefit commencing on the date the participant reaches 50 years of age or the date the participant would have had 20 years of credited service had employment continued uninterrupted, whichever is later.

Monthly retirement benefits are calculated at 2.5% of the final average salary (defined as the average paid base salary of the officer over the highest 30 consecutive months of the last 60 months of credited service) multiplied by the years of credited service, with a maximum of 30 years of credited service considered. Monthly benefits for participants due to permanent disability incurred in the line of duty are 2.5% of the participants' final average salary multiplied by 20 years. This disability benefit is reduced by stated percentages for partial disability based on the percentage of impairment. After 10 years of credited service, participants who retire due to disability incurred from any cause are eligible for a monthly benefit based on 2.5% of their final average salary multiplied by the years of service. This disability benefit is also reduced by stated percentages for partial disability based on the percentage of impairment. Effective July 1, 1998, once a disability benefit is granted to a participant, that participant is no longer allowed to apply for an increase in the dollar amount of the benefit at a subsequent date.

Survivor's benefits are payable in full to the participant's beneficiary upon the death of a retired participant. The beneficiary of any active participant killed in the line of duty is entitled to a pension benefit.

<u>Contributions</u> – The contributions requirements of the Plan are at an established rate determine by Oklahoma Statute and are not based on actuarial calculations. Employees are required to contribute 8% percent of their annual pay. Participating cities are required to contribute 13% of the employees' annual pay. Contributions to the pension plan from the City were \$86,583.

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2015

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions</u> – At June 30, 2015, the City reported an asset of \$80,156 for its proportionate share of the net pension asset. The net pension asset was measured as of July 1, 2014, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of July 1, 2014. The City's proportion of the net pension asset was based on the City's contributions received by the pension plan relative to the total contributions received by pension plan for all participating employers as of June 30, 2014. Based upon this information, the City's proportion was 0.002381%.

For the year ended June 30, 2015, the City recognized pension expense of \$29,380. At June 30, 2015, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	 rred Inflows Resources
Difference between expected and actual experience Changes of assumptions	\$ 36,012 -
Net difference between projected and actual earnings on pension plan investments Changes in proportion and differences between City contributions and	281,735
proportionate share of contributions City contributions subsequent to the measurement date	 <u>-</u>
Total	\$ 317,747

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	
2016	\$ 63,549
2017	63,549
2018	63,549
2019	63,549
2020	63.551

<u>Actuarial Assumptions</u> – The total pension liability was determined by an actuarial valuation as of July 1, 2014, using the following actuarial assumptions, applied to all prior periods included in the measurement:

Inflation: 3%

Salary increases: 4.5% to 17.0% average, including inflation Investment rate of return: 7.5% net of pension plan investment expense

Mortality rates: Active employees (pre-retirement) RP-2000 Blue Collar

Healthy Combined table with age set back 4 years with fully

generational improvement using Scale AA.

Active employees (post-retirement) and nondisabled pensioners: RP-2000 Blue Collar Healthy Combined table with fully generational

Improvement using scale AA.

Disabled pensioners: RP-2000 Blue Collar Healthy Combined table with age set forward 4 years with fully generational

improvement using Scale AA.

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2015

The actuarial assumptions used in the July 1, 2014, valuation were based on the results of an actuarial experience study for the period July 1, 2007 to June 30, 2012.

The long-term expected rate of return on pension plan investments was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2014, are summarized in the following table:

Asset Class	Long-Term Expected Real Rate of Return
Fixed income	2.83%
Domestic equity	6.47%
International equity	6.98%
Real Estate	5.50%
Private Equity	5.96%
Other assets	3.08%

The current allocation policy is that approximately 60% of assets in equity instruments, including public equity, long-short hedge, venture capital, and private equity strategies; approximately 25% of assets in fixed income to include investment grade bonds, high yield and non-dollar denominated bonds, convertible bonds, and low volatility hedge fund strategies; and 15% of assets in real assets to include real estate, commodities, and other strategies.

<u>Discount Rate</u> – The discount rate used to measure the total pension liability was 7.5%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at contractually required rates, determined by State statutes. Projected cash flows also assume the State of Oklahoma will continue contributing 14% of the insurance premium, as established by statute. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability

<u>Sensitivity of the Net Pension Liability to Changes in the Discount Rate</u> – The following presents the net pension liability of the employers calculated using the discount rate of 7.5%, as well as what the Plan's net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.5%) or 1-percentage-point higher (8.5%) than the current rate:

	1%	Current	1%
	Decrease	Discount Rate	Increase
	(6.5%)	(7.5%)	(8.5%)
City's proportionate share of the net pension liability/(asset)	476,915	(80,156)	(549,643)

<u>Pension plan fiduciary net position</u> – Detailed information about the pension plan's fiduciary net position is available in the separately issued financial report of the OPPRS; which can be located at www.ok.gov/OPPRS.

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2015

Oklahoma Firefighter's Pension and Retirement Systems

<u>Plan Description</u> – The City of Blackwell, as the employer, participates in the Firefighters Pension & Retirement – a cost-sharing multiple-employer defined benefit pension plan administered by the Oklahoma Firefighters Pension & Retirement System (FPRS). Title 11 of the Oklahoma State Statutes grants the authority to establish and amend the benefit terms to the FPRS. FPRS issues a publicly available financial report that can be obtained at www.ok.gov/fprs.

Benefits provided - FPRS provides retirement, disability and death benefits to members of the plan.

Benefits for members hired prior to November 1, 2013 are determined as 2.5 percent of the employee's final average compensation times the employee's years of service and have reached the age of 50 or have completed 20 years of service, whichever is later. For volunteer firefighters, the monthly pension benefit for normal retirement is \$150.60 per month. Benefits vest with 10 years or more service.

Benefits for members hired after November 1, 2013 are determined as 2.5 percent of the employee's final average compensation times the employee's years of service and have reached the age of 50 or have completed 22 years of service, whichever is later. For volunteer firefighters, the monthly pension benefit for normal retirement is \$165.66 per month. Benefits vest with 11 years or more service.

All firefighters are eligible for immediate disability benefits. For paid firefighters, the disability in-the-line-of-duty benefit for firefighters with less than 20 years of service is equal to 50% of final average monthly compensation, based on the most recent 30 months of service. For firefighters with over 20 years of service, a disability in-the-line-of-duty is calculated based on 2.5% of final average monthly compensation, based on the most recent 30 months, per years of service, with a maximum of 30 years of service. For disabilities not-in-the-line-of-duty, the benefit is limited to only those with less than 20 years of service and is 50% of final average monthly compensation, based on the most recent 60-month salary as opposed to 30 months. For volunteer firefighters, the not-in-the-line-of-duty disability is also limited to only those with less than 20 years of service and is \$7.53 per year of service. For volunteer firefighters, the in-the-line-of-duty pension is \$150.60 with less than 20 years of service, or \$7.53 per year of service, with a maximum of 30 years.

A \$5,000 lump sum death benefit is payable to the qualified spouse or designated recipient upon the participant's death. The \$5,000 death benefit does not apply to members electing the vested benefit.

<u>Contributions</u> – The contributions requirements of the Plan are at an established rate determined by Oklahoma Statute and are not based on actuarial calculations. Employees are required to contribute 9% of their annual pay. Participating cities are required to contribute 14% of the employees' annual pay. Contributions to the pension plan from the City were \$91,429 (fiscal year contributions).

<u>Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions</u> – At June 30, 2015, the City reported a liability of \$2,893,443 for its proportionate share of the net pension liability. The net pension liability was measured as of July 1, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2014. The City's proportion of the net pension liability was based on the City's contributions received by the pension plan relative to the total contributions received by pension plan for all participating employers as of June 30, 2014. Based upon this information the City's proportion was 0.2446%.

For the year ended June 30, 2015, the City recognized pension expense of \$225,935. At June 30, 2015, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2015

	Deferred Out		Deferred Inflows of Resources	
Difference between expected and actual experience Changes of assumptions	\$	59,938 -	\$	-
Net difference between projected and actual earnings on pension plan investments Changes in proportion and differences between City		-		380,795
contributions and proportionate share of contributions		-		-
City contributions subsequent to the measurement date				
Total	\$	59,938	\$	380,795

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	
2016	\$ 64,171
2017	64,171
2018	64,171
2019	64,171
2020	64.173

<u>Actuarial Assumptions</u> – The total pension liability was determined by an actuarial valuation as of July 1, 2014, using the following actuarial assumptions, applied to all prior periods included in the measurement:

Inflation: 3%

Salary increases: 3.5% to 9.0% average, including inflation 7.5% net of pension plan investment expense

Mortality rates were based on the RP2000 combined healthy with blue collar adjustment as appropriate, with adjustments for generational mortality improvement using scale AA for healthy lives and no mortality improvement for disabled lives.

The actuarial assumptions used in the July 1, 2014, valuation were based on the results of an actuarial experience study for the period July 1, 2007 to June 30, 2012.

The long-term expected rate of return on pension plan investments was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2014, are summarized in the following table:

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2015

Asset Class	Allocation	Target Long-Term Expected Real Rate of Return
Fixed income	20%	5.48%
Domestic equity	37%	9.61%
International equity	20%	9.24%
Real Estate	10%	7.76%
Other assets	13%	6.88%

<u>Discount Rate</u> – The discount rate used to measure the total pension liability was 7.5%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at contractually required rates, determined by State statutes. Projected cash flows also assume the State of Oklahoma will continue contributing 36% of the insurance premium, as established by statute. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

<u>Sensitivity of the Net Pension Liability to Changes in the Discount Rate</u> – The following presents the net pension liability of the employers calculated using the discount rate of 7.5%, as well as what the Plan's net pension liability would be if it were calculated using a discount rate that is 1-percent point lower (6.5%) or 1-percentage-point higher (8.5%) than the current rate:

	Current				
	1%	Discount	1%		
	Decrease	Rate	Increase		
	(6.5%)	(7.5%)	(8.5%)		
City's proportionate share of the net					
pension liability/(asset)	1,951,096	2,893,443	1,111,124		

<u>Pension plan fiduciary net position</u> – Detailed information about the pension plan's fiduciary net position is available in the separately issued financial report of the FPRS; which can be located at www.ok.gov/fprs.

Oklahoma Municipal Retirement Fund

The City contributes to a cost-sharing, multiple-employer defined benefit pension plan adopted by the City and administered by the Oklahoma Municipal Retirement System, which was established to administer pension plans for municipal employees. The plan is administered by JP Morgan Chase Bank of Oklahoma City, Oklahoma. According to state law, the authority for establishing or amending the plan's provisions rests with the city council. The defined contribution plan is available to all full-time employees not already participating in another plan. In a defined contribution plan, benefits depend solely on amounts contributed to the plan, investment earnings, and forfeitures of other participants' benefits that may be allocated to such participant's account. Benefits vest after 5 years of service.

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2015

For the year ended June 30, 2015, the following amounts related to the defined contribution plan:

Payroll for covered employees \$1,184,601 Employer (City) contributions made \$175,365 Employee contributions made \$56,529

<u>Plan Description</u> – The City contributes to the OkMRF for all eligible employees except for those covered by the Police and Firefighter Pension Systems. The plan is an agent multiple employer - defined benefit plan administered by OkMRF. The OkMRF plan issues a separate financial report and can be obtained from OkMRF or from their website: www.okmrf.org/reports.html. Benefits are established or amended by the City Council in accordance with O.S. Title 11, Section 48-101-102.

<u>Summary of Significant Accounting Policies</u> – For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the City's plan and additions to/deductions from the City's fiduciary net position have been determined on the same basis as they are reported by OkMRF. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value based on published market prices. Detailed information about the OkMRF plans' fiduciary net position is available in the separately issued OkMRF financial report.

Eligibility Factors and Benefit Provisions

Provision	OkMRF Plan			
a. Eligible to Participate	Full-time, employees of the City or Authority, except police, firefighters, and other employees who are covered under another approved system.			
 b. Contributions Requirement - Authorization - Actuarially Determined - Employer Rate - Employee Rate 	By City Ordinance Yes 13.24% of covered payroll 4.5% of covered payroll			
c. Period Required to Vest	5 years of vesting service			
d. Eligibility for Distribution	 Normal retirement at age 65 with 5 years of vesting service. Early Retirement after age 55 with 5 years or more of vesting. Disability retirement upon total and permanent disability with 5 years of service. Death benefits with 5 years of vesting service, if married, 50% of accrued benefit payable to spouse until death or remarriage, if single, 50% of the accrued benefit is payable for 5 years certain. 			
e. Benefit Determination Base	Final average salary – the average of the five highest consecutive annual salaries out of the last 10 years of service.			
f. Benefit Determination Methods:- Normal Retirement	3% of final average compensation multiplied by the number of years of credited service.			

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2015

- Early Retirement Payable starting at normal retirement or the accrued

benefit reduced 5% per year for commencement prior

to normal retirement age.

- Disability Retirement Payable upon disablement without reduction for early

payment

- Death Benefit 50% of employee's accrued benefit, see above

- Prior to 5 Years Service Return of employee contributions with accrued interest.

g. Form of Benefit Payments Normal form of payment of the accrued benefit is a

monthly lifetime annuity with 10 years certain. Other retirement benefits are available under actuarially

equivalent optional forms.

Employees Covered by Benefit Terms

Active Employees 32
Deferred Vested Former Employees 25
Retirees or Retiree Beneficiaries 4
Total 61

Contribution Requirements

The City Council has the authority to set and amend contribution rates by ordinance for the OkMRF defined benefit plan in accordance with O.S. Title 11, Section 48-102. The contribution rates for the current fiscal year have been made in accordance with an actuarially determined rate. The actuarially determined rate is 13.24% of covered payroll. Employees contribute a fixed 4.5% to the plan in accordance with the plan provisions adopted by the City Council.

Actuarial Assumptions

a. Date of last Actuarial Valuation July 2015

b. Significant Actuarial Assumptions Used:

1. Rate of Return on Investments 7.5% per annum

2. Pay increases Rates by age

3. Retirement Age Rates by age

4. Mortality Table UP 1994 mortality (projected)

5. Asset Value Actuarial method

c. Actuarial cost method Entry age normal

d. Date of last experience study

Sept 2012 for fiscal years 2007 thru

2011

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2015

<u>Discount Rate</u> – The discount rate used to value benefits was the long-term expected rate of return on plan investments, 7.75% since the plan's net fiduciary position is projected to be sufficient to make projected benefit payments.

The City has adopted a funding method that is designed to fund all benefits payable to participants over the course of their working careers. Any differences between actual and expected experience are funded over a fixed period to ensure all funds necessary to pay benefits have been contributed to the trust before those benefits are payable. Thus, the sufficiency of pension plan assets was made without a separate projection of cash flows.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation (3.0%). Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of July 1, 2014 are summarized in the following table:

	Target Allocation	Real Return	Weighted Return
Large cap stocks - S&P 500	25%	5.40%	1.35%
Small/mid cap stocks - Russell 2500	10%	7.50%	0.75%
Long/short equity - MSCI ACWI	10%	6.10%	0.61%
International stocks - MSCI EAFE	20%	5.10%	1.02%
Fixed income bonds - Barclay's Capital Aggregate	30%	2.60%	0.78%
Real estate - NCREIF	5%	4.80%	0.24%
Cash equivalents - 3 month Treasury	0%	0.00%	0.00%
	100%		
	Average Real Re	turn	4.75%
	Inflation		3.00%
	Long term expect	ed return	7.75%

<u>Changes in Net Pension Liability</u> – The total pension liability was determined based on an actuarial valuation performed as of July 1, 2014 which is also the measurement date. There were no changes in assumptions or changes in benefit terms that affected measurement of the total pension liability. There were also no changes between the measurement date of July 1, 2014 and the City's report ending date of June 30, 2015, that would have had a significant impact on the net pension liability. The following table reports the components of changes in net pension liability:

<u>Sensitivity of the net pension liability to changes in the discount rate</u> – The following presents the net pension liability of the City, calculated using the discount rate of 7.75 percent, as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75 percent) or 1-percentage-point higher (8.75 percent) than the current rate:

	1%	Current	1%
	Decrease	Discount Rate	Increase
	(6.75%)	(7.75%)	(8.75%)
City's proportionate share of the			
net pension liability/(asset)	931,988	305,504	(225,297)

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2015

The City reported \$133,574 in pension expense for the year ended June 30, 2015. At June 30, 2015, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Inflows of Resources	
Difference between expected and actual experience Changes of assumptions	\$	-
Net difference between projected and actual earnings on pension		-
plan investments		375,826
Changes in proportion and differences between City contributions and proportionate share of contributions		
City contributions subsequent to the measurement date		-
Total	\$	375,826

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:						
2016	\$	(93,957)				
2017		(93,957)				
2018		(93,957)				
2019		(93.957)				

Defined contribution plan

Effective June 30, 2000, the City participates in a defined contribution plan with the Oklahoma Municipal Retirement Fund. The defined contribution plan is available to all full-time employees not already participating in another plan. A defined contribution plan's benefits depend solely on amounts contributed to the plan, investment earnings and forfeitures of other participants' benefits that may be allocated to remaining participants' accounts. The OMRF board of trustees retains BankOne as custodian to hold the defined benefit plan funds. It is an elective plan with participants immediately vesting 100% in elective employee contributions and in the City of Blackwell contributions after five years of service. As of June 30, 2009 the City elected not to contribute to the plan on the behalf of the employees, but the employees can still contribute. Participants may contribute up to 10% of eligible compensation. Participants are permitted to make voluntary deductible contributions to the plan. The contribution requirements are established and may be amended by the City Council. OMRF issues a publicly available financial report that includes financial statements and required supplementary information for the fund. That report may be obtained by writing to Oklahoma Municipal Retirement System, 525 Central Park Drive, Oklahoma City, OK 73105, or by calling 1-888-394-6673.

D. Other Post-Employment Benefits

Plan Description

The City provides post-retirement benefit options for health care, prescription drug, dental and vision benefits for retired employees and their dependents that elect to make required contributions. The benefits are provided in accordance with State law, police and firefighter's union contracts and the Consolidated Omnibus Budget Reconciliation Act of 1985 (COBRA). The relationship for these benefits is not formalized in a contract or plan document, only a few sentences in the administrative policy. These benefits are considered for accounting purposes to be provided in accordance with a single employer substantive plan. A substantive plan is one in which the plan terms are understood by the city and plan members. This understanding is based on communications between the employers and plan member and the historical pattern of practice with

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2015

regard to the sharing of benefit costs. Substantially all of the government's employees may become eligible for those post-retirement benefits if they reach normal retirement age while working for the City. As of June 30, 2015, approximately 1 of the retired employees are receiving benefits under this plan.

Funding Policy

The contribution requirement of the City is an implicit subsidy. The implicit subsidy is not a direct payment from the employer on behalf of the member but rather stems from retiree contribution levels that are less than the claims cost at retiree ages. Since claims experience for employees and non-Medicare eligible retirees are pooled when determining premiums, these retired members pay a premium based on a pool of members that, on average, are younger and healthier. There is an implicit subsidy from the employee group since the premiums paid by the retirees are lower than they would have been if the retirees were insured separately. The subsidies are valued using the difference between the age-based claims costs and the premium paid by the retiree. The amount required to fund the implicit rate is based on projected pay-as-you-go financing requirements. Plan members receiving benefits contributed 100 percent of the related premiums.

Annual OPEB Cost and Net OPEB Obligation

The City's annual other post-employment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. GASB 45 requires entities with over 200 employees to have the actuarial valuation performed biennially. The most recent actuarial valuation was completed for the year end June 30, 2015.

The City's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2015 was as follows:

			Percentage of		
	Ar	nnual OPEB	Annual OPEB Cost		Net OPEB
Fiscal Year	Cost		Contributed		Obligation
6/30/2010	\$	51,646	16.29%	\$	43,233
6/30/2011		N/A	N/A	\$	89,268
6/30/2012	\$	75,719	19.83%	\$	149,969
6/30/2013		N/A	N/A	\$	149,969
6/30/2014		N/A	N/A	\$	149,969
6/30/2015	\$	72,307	10.06%	\$	215,005

Funded Status and Funding Progress

As of September 8, 2015, the most recent actuarial valuation date, the actuarial accrued liability for benefits was \$434,610, and the actuarial value of assets was zero, resulting in an unfunded actuarial accrued liability (UAAL) of \$434,610. The covered payroll (annual payroll of active employees covered by the plan) was \$2,903,214, and the ratio of the UAAL to the covered payroll was 0.0%.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2015

progress presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Valuation Date	 Value of Assets	Asset Valuation Basis	 Accrued Liability (AAL)*	 Unfunded AAL (UAAL)	Funded Ratio
7/1/2011	\$ -	Actuarial	\$ 508,691	\$ 508,691	0.0%
7/1/2015	\$ -	Actuarial	\$ 434,610	\$ 434,610	0.0%

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the September 8, 2015, actuarial valuation, as the City does not pre-fund the retiree healthcare benefits, a discount rate of 5.0% was used. There were no assets to determine the actuarial value of assets. The UAAL is being amortized over 30 years as level payments. The remaining amortization period at June 30, 2015 was thirty years.

4. RESTATEMENT OF BEGINNING NET POSITION

Effective July 1, 2014, the City implemented GASB No. 68, Accounting and Financial Reporting for Pensions, an Amendment of GASB Statement No. 27. GASB No. 68 established standards for measuring and recognizing liabilities, deferred outflows of resources, deferred inflows of resources, and pension expenses. The Statement requires governments providing defined benefit pensions to recognize their long-term obligation for pension benefits as a liability for the first time. GASB No. 68 also details the recognition and disclosure requirements for employers with liabilities to a defined benefit pension plans and for employers whose employees are provided with defined contribution pensions. Defined benefit pensions are further classified by GASB No. 68 as single employer plans, agent employer plans and cost sharing plans, and recognition and disclosure requirements are addressed for each classification.

Implementation of GASB No. 68 resulted in the restatement of beginning year net position to recognize the net pension obligation of the City. The changes were as follows:

	Governmental Activities		
Begininng Net Position Net pension obligations	\$	8,845,990 (3,118,791)	
Net deferred outflows/(inflows) on pension charges	<u> </u>	(1,014,430)	
Restated Beginning Net Position	\$	4,712,769

NOTES TO REQUIRED SUPPLEMENTAL INFORMATION Year Ended June 30, 2015 (Unaudited)

BUDGETARY INFORMATION

Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America (GAAP) for all governmental funds. The enterprise funds and internal service fund adopt budgets on the non-GAAP basis wherein service fees, bond and note proceeds are recognized as revenue, principal payments on debt and capital expenditures are recognized as expenses, and depreciation expense is not budgeted. Annual appropriated budgets are not adopted for the agency funds. Budgetary data for enterprise funds, internal service, and permanent funds are not presented in these financial statements.

Prior to July 1, the City Manager (not an elected official) submits a proposed operating budget for the fiscal year commencing July 1, to the Commissioners (elected officials). Public hearings are held at regular or special meetings to obtain taxpayer input. Prior to July 1, the budget is legally enacted through passage of a budget resolution. The operating budget, for all budgeted funds, includes proposed expenditures and the means of financing. Each fund's appropriated budget is prepared on a detailed line item basis. Revenues are budgeted by source. Expenditures are budgeted by department which includes general government; public safety; highways, roads & airport; cultural & recreational; and administrative; and included within each department it is divided by class as follows: personal services, maintenance and operations, capital outlay, transfers, and debt service. This constitutes the legal level of control. Expenditures may not exceed appropriations at this level. A more detailed budget is used for operating purposes. All budget revisions at the legal level are subject to final approval by the City Council. Within these control levels, management may transfer appropriations without council approval. Revisions to the budget were made during the year in accordance with the provisions of the Oklahoma Statutes. All annual appropriations lapse at year-end.

The City uses encumbrance accounting. Encumbrances are recorded when purchase orders are issued but generally are not considered expenditures until liabilities for payments are incurred. At year-end, open purchase orders are reviewed and payments are made on those where the receipt of goods and services is eminent. The remaining purchase orders (and encumbrances) are cancelled and reissued during the following year. There are no outstanding encumbrances at year-end.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

December 14, 2015

Honorable Board of City Commissioners City of Blackwell Blackwell, Oklahoma

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Blackwell, Oklahoma, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the City of Blackwell, Oklahoma's basic financial statements, and have issued our report thereon dated December 14, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

City of Blackwell December 14, 2015

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this report is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

December 14, 2015

Honorable Board of City Commissioners City of Blackwell Blackwell, Oklahoma

Report on Compliance for Each Major Federal Program

We have audited the City of Blackwell, Oklahoma (City)'s compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the City's major federal programs for the year ended June 30, 2015. The City's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the City's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City's compliance

Opinion on Each Major Federal Program

In our opinion, City of Blackwell, Oklahoma, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2015.

City of Blackwell December 14, 2015

Report on Internal Control Over Compliance

Management of City of Blackwell, Oklahoma (the City), is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.
