INDEPENDENT AUDITOR'S REPORT

Board of Directors Rural Water District #1, Caddo County Lookeba, Oklahoma

We have audited the basic financial statements of the Rural Water District #1, Caddo County, (the District), a component unit of the Town of Lookeba, Oklahoma, as of and for the year ended December 31, 2020 and 2019, and the related notes to the financial statements, which collectively comprise the Rural Water District #1, Caddo County, basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain

1

Member: American Institute of Certified Public Accountants Oklahoma Society of Certified Public Accountants

reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amount and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting principles used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Rural Water District #1, Caddo County, as of December 31, 2020 and 2019, and the changes in financial position and cash flows for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

The District has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on

2

the basic financial statements is not affected by this missing information.

Other Reporting Required by Government Auditing Standards

In accordance with <u>Government Auditing Standards</u>, we have also issued a report dated November 11, 2021 on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grants agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with <u>Government Auditing Standards</u> in considering the District's internal control over financial reporting and compliance.

The accompanying notes are an integral part of these statements.

Note 1 - Significant Accounting Policies

The accounting policies of the Rural Water District #1, Caddo County, (the District) conform to generally accepted accounting principles of the United States of America as applicable to an enterprise fund of government organizations. The following is a summary of the more significant current accounting policies.

A. The Reporting Entity.

The District provides water, sewer, and garbage services to its members within its geographic boundaries. The District is governed by a seven member Board of Directors who is elected by the participating members. These financial statements include all of the funds under the control of the Board of Directors relevant to the operations of the District. These members of the Board of Directors are also members of the Town Board of Trustees. Based upon the Bylaws of the District, and the use of common offices, employees, and Board members, it appears that the District should be a component unit of the Town of Lookeba, Oklahoma. Financial information concerning the Town of Lookeba, Oklahoma, is available from the Town of Lookeba, Oklahoma.

B. Basis of Presentation.

The activities of the District are organized into a single fund, an enterprise fund (proprietary fund type).

Enterprise funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or changes in net position is appropriate for capital maintenance, accountability, or other purposes.

Note 1 - Significant Accounting Policies - (continued).

C. Basis of Accounting.

Basis of accounting refers as to when revenues and expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement focus applied.

Enterprise funds use the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when the obligation is incurred.

D. Capital Assets.

All capital assets are valued at historical cost. Where cost could not be determined from the available records, estimated historical cost was used to record the estimated value of the assets. Assets are depreciated on the straight-line basis over the estimated useful life of the asset. A summary of capital assets and the service lives by type of asset at December 31, 2020 and 2019, are as follows:

Estimated Useful Life

Building and Improvements	10 - 39 yrs.	
Water and Sewer Improvements	10 - 40 yrs.	
Furniture and Equipment	3 - 7 yrs.	

E. Allowance for Losses.

Allowance for losses on receivables are recorded when management believes a receivable is uncollectible. Management periodically reviews its receivables to determine what is collectible.

Note 1 - Significant Accounting Policies - (continued).

F. <u>Net Position</u>

Net position is classified into three components:

1. Net investment in capital assets - Consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of any notes payable attributable to these assets.

2. Restricted - Consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Restricted assets have constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional revisions or enabling legislation.

3. Unrestricted - Net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted components of net position.

Note 2 - Cash and Certificate of Deposits.

The District's cash in bank and certificate of deposits at December 31, 2020 and 2019, are secured by federal deposit insurance or collateralized by the bank. Certificate of deposits are recorded at cost, which approximates market value. Certificates of deposits are authorized and legal investments. The District's petty cash, cash in bank (including restricted assets), and certificate of deposits are considered to be cash equivalents for purposes of the Statement of Cash Flows.

Note 3 - Accounts Receivable.

Accounts receivable consists of billed and unbilled receivables as shown below:

	December 31,			
	2020	2019		
Charges for Services	\$6,849	\$7,060		
Allowance for Losses	(750)	(782)		
Net Accounts Receivable	\$6,099	\$ 6,278		

The District has delayed charging late fees and cutting off delinquent utility bills in March 2020 as a result of the Covid 19 pandemic.

Note 4 - Restricted Assets.

Restricted assets consist of cash restricted for customer deposits which are offset by a related liability payable.

Note 5 - Capital Assets.

Capital assets consist o	of	the follo	owing:		
		Dec 31,			Dec 31,
		2019	Additions	Deletions	2020
Land **	\$	2,020	\$	\$	\$ 2,020

Water Improvements		372,175	12,055		 384,230
Total Accumulated					
Depreciation		403,010	15,417	(395)	 418,032
Net Capital Assets	\$	202,106	<u>\$(11,545)</u>	<u>\$ -0-</u>	\$ 190,561

The District wrote off \$395 of fully depreciated obsolete assets.

** non-depreciable asset

Note 6 - Risk Management.

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees, and natural disasters. The District purchases commercial insurance to manage these risks of loss and retains a deductible ranging from \$250 to \$1,000, depending upon the coverage.

Note 7 - Noncompliance with Certain Enviromental Compliance Issues.

In December 2020, the District received a consent order from the Oklahoma Department of Environmental Quality (ODEQ) alleging the District violated the maximum contaminant level of 0.01 milligrams per liter for arsenic in its water supply. The consent order requires the District to perform certain tasks by specific dates to upgrade the public water supply system and achieve compliance. The consent order assessed a penalty of \$1,875 with \$500 due within 30 days of the effective date of the consent order. The effective date is defined as the later date of the signatures required on the consent order. As of the audit date, the District has not signed the consent order. Failure to sign and return the consent order can result in other enforcement action by the ODEQ and additional penalties being assessed. The Oklahoma Environmental Quality Code authorizes ODEQ to seek penalties up to \$10,000 per day for each violation of the Code and associated rules.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Directors Rural Water District #1, Caddo County Lookeba, Oklahoma

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the Rural Water District # 1, Caddo County, as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report dated November 11, 2021. The District has elected to omit the management's discussion and analysis that accounting principles generally accepted in the United States has determined is necessary to supplement, although not required to be part of, the basic financial statements.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Rural Water District # 1, Caddo County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

> Member: American Institute of Certified Public Accountants Oklahoma Society of Certified Public Accountants

A deficiency in internal control exits when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of the District's compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not the objective of our audit. Accordingly, we do not express such an opinion.

The results of our tests disclosed one instance of noncompliance or other matters that is required to be reported herein under <u>Government Auditing Standards</u>. It is described in the schedule of findings and responses as item #1.

District's Response to Findings

The District's response to the findings identified in our audit is described in the accompanying schedule of findings and responses. Their response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

RURAL WATER DISTRICT #1 CADDO COUNTY, LOOKEBA, OKLAHOMA SCHEDULE OF FINDINGS AND RESPONSES DECEMBER 31, 2020

1. Noncompliance with Certain Enviromental Compliance Issues.

Finding - In December 2020, the District received a consent order from the Oklahoma Department of Environmental Quality (ODEQ) alleging the District violated the maximum contaminant level of 0.01 milligrams per liter for arsenic in its water supply. The consent order requires the District to perform certain tasks by specific dates to upgrade the public water supply system and achieve compliance. The consent order assessed a penalty of \$1,875 with \$500 due within 30 days of the effective date of the consent order. The effective date is defined as the later date of the signatures required on the consent order. As of the audit date, the District has not signed the consent order. Failure to sign and return the consent order can result in other enforcement action by the ODEQ and additional penalties being assessed. The Oklahoma Environmental Quality Code authorizes ODEQ to seek penalties up to \$10,000 per day for each violation of the Code and associated rules.

Criteria - The Oklahoma Department of Environmental Quality has regulatory jurisdiction under Oklahoma law to regulate and enforce the environmental laws for public water supply systems.

Cause - The District's testing of its public water supply system indicates it is not in compliance with the maximum contaminant level for arsenic in its water supply.

Effect - The arsenic violation noted above resulted in several notice of violations being issued and ultimately to the consent order.

Recommendation - The District should work with the ODEQ to resolve its violation. It should seek whatever means is necessary to reduce the arsenic level in its water supply and keep ODEQ informed of its progress.

Views of Responsible Officials and Planned Corrective Action -Although the District has not signed and sent the consent order back to ODEQ, its chairman has called them and discussed the situation with them. The District is reviewing several
