INDEPENDENT AUDITOR'S REPORT

The Board of Education
Central Technology Center No. 3
Drumright, Oklahoma

Report on the Financial Statements

I have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Central Technology Center No. 3, Creek County, Oklahoma, as of and for the year ended June 30, 2015, which collectively comprise the basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinion

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Central Technology Center as of June 30, 2015, and the respective changes in its financial position and, where applicable, cash flows for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1, the Center adopted Governmental Standards Board Statement No. 68, Accounting and Financial Reporting for Pensions, and GASB Statement No. 71, Pension Transition of Contributions Made Subsequent to the Measurement Date – an Amendment of GASB Statement No. 68. The provisions of GASB Statements No. 68 and 71 required the Center to adjust its net position as of July 1, 2014, upon adoption. My opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Auditing Standards Board who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

Other Supplementary Information

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basis financial statements. The Schedule of Expenditures of Federal Awards is presented for additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Nonprofit Organizations* and is not a required part of the basic financial statements.

The Schedule of Expenditures of Federal Awards is the responsibility of management and was derived from and relates directly to the underlying accounting records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial and other additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the supplementary information including the Schedule of Expenditures of Federal Awards is fairly stated in all material respects in relation to the financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, I have also issued my report dated February 5, 2016, on my consideration of Central Technology Center No. 3, Creek County, Oklahoma's, internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of my audit.

MANAGEMENT DISCUSSION AND ANALYSIS

CENTRAL TECHNOLOGY CENTER SCHOOL DISTRICT NO. 3
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2015

The Management's Discussion and Analysis (MD&A) is an element of the reporting model adopted by the Governmental Accounting Standards Board (GASB) in Statement No. 34, Basic Financial Statements for State and Local Governments, issued June 1999. Our discussion and analysis of Central Tech's financial performance provides an overview of the District's financial activities for the fiscal year ended June 30, 2015. Please read it in conjunction with the District's financial statements, which begin on page 10.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Assets and the Statement of Activities (on pages 10 and 11) provide information about the activities of the District as a whole and present a longer-term view of the District's finances. Fund financial statements start on page 12. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds. The remaining statements provide financial information about activities for which Central Tech acts solely as a trustee or agent for the benefit of those outside the government.

REPORTING THE DISTRICT AS A WHOLE

Our analysis of the District as a whole begins on page 7. One of the most important questions asked about the District's finances is, "Is the District as a whole better off or worse off as a result of the year's activities?" The Statement of Net Assets and the Statement of Activities report information about Central Tech as a whole and about its activities in a way that helps answer this question. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. These two statements report the District's net assets and changes in them. You can think of the District's net assets-the difference between assets and liabilities-as one way to measure the District's financial health, or financial position. Over time, increases or decreases in the District's net assets are one indicator of whether its financial health is improving or deteriorating. You will need to consider other non-financial factors, however, such as changes in the District's property tax base and the condition of the District's facilities, to assess the overall health of the District.

CENTRAL TECHNOLOGY CENTER SCHOOL DISTRICT NO. 3
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2015

REPORTING THE DISTRICT'S MOST SIGNIFICANT FUNDS

Analysis of the District's major funds begins on page 12. The fund financial statements provide detailed information about the most significant funds-not the District as a whole. Some funds are required to be established by State law and by bond covenants. However, the District establishes other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain money (like VSO monies). The District's two kinds of funds, governmental and fiduciary, use different accounting approaches.

*Governmental funds-Most of the District's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds in a reconciliation at the bottom of the fund financial statements on page 12 of this document.

THE DISTRICT AS TRUSTEE

The district is the trustee, or fiduciary, for certain assets that, because of a trust arrangement, can be used only for the trust beneficiaries. All of the District's fiduciary activities are reported in separate Balance Sheet Fiduciary Fund on page 26. We exclude these activities from the District's other financial statements because the District cannot use these assets to finance its operations. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

These assets include Vocational Student Organization Accounts, (Skills USA, Business Professionals of America and Health Occupations Students of America), these funds are raised by these student organizations and used for purposes designated by those organizations and approved by the district's Board of Education.

CENTRAL TECHNOLOGY CENTER SCHOOL DISTRICT NO. 3
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2015

THE DISTRICT AS A WHOLE

During the 2015 fiscal year the District's net assets decreased from \$25,048,735 to \$14,119,889 a decrease of \$10,928,846 or 44% over FY 14. This change is due to new GASB reporting requirements, which requires governments providing defined benefit pensions to recognize their long term pension obligation for pension expense as a liability. The technology center's share of the Teachers Retirement System net pension liability as of June 30, 2015, was \$11,134,579. A more detailed breakdown of net assets is available on page 12.

Change in Net Assets		(10,928,846)

CENTRAL TECHNOLOGY CENTER SCHOOL DISTRICT NO. 3
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2015

Further comparison of the changes in net assets reveals a \$4,559,685 increase in cash and equivalents. "Capital assets, net of accumulated depreciation" in 2015 represents the renovation of the COB building in Drumright, completion of a Pipeline Simulator on the Drumright campus, and purchase of surrounding property at the Sapulpa campus. Investments decreased by \$3,000,000 over the period.

Total liabilities were increased by \$11,137,891. This represents an increase in accounts payable from last year and a minor increase in short term and a decrease in long term compensated absence liability. With a change in GASB requirements, a line item for Net Pension Liability has been added which accounts for an \$11,134,579 increase to total liabilities.

The district will continue to build reserves in cash and investments in anticipation of the next major items on the capital improvement plan. The district will continue to target a carryover amount close to the limit to ensure that there are funds to fill any gaps in state funding which is still under great pressure due to proposed state income tax and ad valorem tax legislation.

CENTRAL TECHNOLOGY CENTER SCHOOL DISTRICT NO. 3
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2015

THE DISTRICTS FUNDS

As the district completed the year, governmental funds reported a combined fund balance of \$13,855,638. This represents an increase of \$1,299,596 from last year's figure of \$12,556,042. This figure represents a decrease in the General fund and an increase in the Building fund over FY 14. It should be noted that "fund balance" as it is used in modified accrual basis, and the Governmental Funds Balance sheet is not the same as the term "carryover" used in regulatory basis (school) accounting. A reconciliation from modified accrual basis to accrual basis accounting is available on page 14 of the accompanying document.

GENERAL FUND

General fund revenues increased from FY 14 to FY 15 by \$826,892. Revenue from local sources increased by \$1,069,166 due to increased Ad valorem and tuition. Revenue from federal sources decreased \$399,452 from prior year. Revenue from state sources increased by \$157,178.

CENTRAL TECHNOLOGY CENTER SCHOOL DISTRICT NO. 3
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2015

BUILDING FUND

Revenue in the building fund is the result of the recurring 3 mil building fund levy and a very small amount of interest revenue. Revenue increased by \$16,699 over the prior year due entirely to increased valuation in the District. Revenues exceeded expenditures by \$1,466,721, increasing the fund balance by this amount. With the completion of small renovation projects, the Pipeline Simulator and purchase of property surrounding the Sapulpa campus in FY 15, other projects from the capital planning list will be funded in the coming year including an exterior renovation of the Sapulpa campus, a new business and industry incubator in Drumright, classroom and lot renovations and continuing to invest in technology for the classrooms.

BUDGETARY ISSUES

Central Tech began FY 15 with a general fund budget of \$22,803,049. Of that figure \$3,000,000 was budgeted as special contingency. This "special contingency" line item is made up of monies that will be held in reserve to make up for any state funding shortfalls and also provides an early target for general fund carryover. Under this scenario the district entered the year with \$19,803,049 budgeted to spend with actual expenditures of \$20,772,284.

Building Fund for FY 15 was budgeted at \$5,952,781.00. Actual expenditures in the Building Fund for FY 15 were \$2,526,527.

CAPITAL ASSETS

At the end of 2015, the District had \$13,291,640 invested in capital assets including, land, buildings, construction in progress, equipment, infrastructure, and vehicles. This represents a \$747,842 increase from the prior year. This increase is mainly due to the purchase of new equipment, completion of major construction projects and purchase of land in Sapulpa.

Capital Asset at Year-end
(Net of Depreciation)

	Capital net of Depreciation	
	FY 14	FY 15
Land	874,276	964,501
Construction in Progress		356,257
Buildings and improvement	8,450,502	8,379,430
Equipment	1,187,708	1,493,498
Vehicles	2,031,310	2,097,955
Total	<u>12,543,797</u>	<u>13,291,640</u>

CENTRAL TECHNOLOGY CENTER SCHOOL DISTRICT NO. 3
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2015

DEBT

The district's long term debt are accrued non-current compensated absences of \$108,785 and non-pension liability of \$11,134,579, these liabilities are recorded in the Statement of Net Assets; the current portion is expensed in the fund financial statements.

NEXT YEAR

The District will continue to monitor projected funding levels and adjust staffing levels accordingly while maintaining its equipment and facilities to stay on the cutting edge of technology training. Plans for FY 16 include construction of a new BIS incubator at the Drumright campus, an exterior renovation on the Sapulpa campus and continue to focus on energy efficiency in the infrastructure.

CONTACTING THE SCHOOLS FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and creditors with a general overview of Central Technology's Center financial position to show accountability for the money it receives. Additional details can be requested at Central Technology Center, 3CT Circle Drumright, Oklahoma 74030.

Respectfully submitted,

Kent Burris, CFO

**CENTRAL TECHNOLOGY CENTER NO. 3
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES
IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2015**

Net change in fund balances-governmental funds	\$	1,299,596
--	----	-----------

Amounts reported for governmental activities in the statement of revenues, expenditures, and changes in net assets are different because:

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities those costs are shown in the statement of Net Position as noncurrent assets and allocated over their estimated useful lives as annual depreciation expenses in the statement of activities. This is the amount by which depreciation exceeds capital outlays in the period.

Capital outlay expenditures	\$ 1,804,464	
Loss on disposal of assets	(7,620)	
Depreciation expense	<u>(1,049,002)</u>	747,842

Property taxes receivable will be collected this year, but are not available soon enough to pay current period's expenditures, therefore they are deferred in the funds. This is the amount of change in the deferred taxes.	195,433
--	---------

Some expenses (compensated absences) reported in the Statement of Activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds. This is the amount of change in the compensated absences.	796
---	-----

Governmental funds report district pension contributions as expenditure. However, the Statement of Activities reports the cost of pension benefits earned net of employee contributions as pension expense.	<u>800,582</u>
---	----------------

Change in net position of governmental activities	\$ <u><u>3,044,249</u></u>
---	----------------------------

The notes to the financial statement are an integral part of this statement.

NOTES TO THE FINANCIAL STATEMENTS

**CENTRAL TECHNOLOGY CENTER NO. 3
CREEK COUNTY, OKLAHOMA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2015**

1. Summary of Significant Accounting Policies

The financial statements of the Central Technology Center No. 3 (the "Center") have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP") as applied to government units. The governmental Accounting Standards Board ("GASB") is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The Center has elected to apply all applicable GASB pronouncements as well as Financial Accounting Standards Board ("FASB") pronouncements and Accounting Principles Board ("APB") opinions, issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements. The more significant of the Center's accounting policies are described below.

A. Reporting Entity

In accordance with the Governmental Accounting Standards Board Statement No. 14, "The Financial Reporting Entity," the Center has presented the entities, which comprise the primary government in the fiscal year 2014 basic financial statements.

The Center is a corporate body for public purposes created under Title 70 of the Oklahoma Statutes and, accordingly, is a separate entity for operating and financial reporting purposes. The Center is part of the public school system of Oklahoma under the general direction and control of the State Board of Education and is financially dependent on the State of Oklahoma for support. The general operating authority for the public school system is the Oklahoma School Code contained in Title 70, Oklahoma Statutes.

The governing body of the Center is the Board of Education composed of five elected members. The appointed superintendent is the executive officer of the Center.

As required by accounting principles generally accepted in the United States of America, the basic financial statements present the reporting entity which consists of the primary government, organizations for which the primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion could cause the Center's basic financial statements to be misleading or incomplete.

The Central Tech Foundation is not included in the reporting entity. This 501(c)(3) organization consists of five volunteer members. The Foundation is not financially dependent on the center.

B. Basis of Presentation

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the Center. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities are normally supported by taxes and intergovernmental revenues.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include: 1) tuition or fees paid by students or citizens of the Center and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items, including state aid, that are not properly included among program revenues are reported as general revenues.

Separate financial statements are provided for governmental funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

Fund Financial Statements

The Technology Center segregates transactions related to certain functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Statements for governmental activities present each fund as a separate column on the fund financial statements.

Governmental funds are used to account for all or most of a government's general activities. The measurement focus of governmental funds is on the sources uses and balance of current financial resources. The Center has presented the following governmental funds:

**CENTRAL TECHNOLOGY CENTER NO. 3
CREEK COUNTY, OKLAHOMA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2015**

Summary of Significant Accounting Policies (continued)

General Fund – The General Fund is used to account for all financial transactions except those required to be accounted for in another fund. Major revenue sources include local property taxes and state funding under the State Career Technology Formula Operations Allocation Program.

Expenditures include all costs associated with the daily operations of the center except for programs funded for building repairs and maintenance, and school construction funded through the Special Revenue Fund.

Special Revenue Fund – The Center's Building Fund is a Special Revenue Fund and consists of monies derived from property taxes levied for the purpose of creating, remodeling or repairing buildings and for purchasing furniture and equipment.

Fiduciary Fund Types

Fiduciary funds are used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the Center. When these assets are held under the terms of a formula trust agreement, either a private purpose trust fund or a permanent fund is used.

The terms "permanent" and "private purpose" refer to whether or not the Center is under an obligation to maintain the trust principal. Agency funds generally are used to account for assets that the Center holds on behalf of vocational student organization accounts as their agent and do not involve measurement of results of operations.

The Center's Fiduciary Funds have been excluded from the government-wide financial statements.

Agency Fund – The Center's Agency Fund consists of the Activity fund. The Center's Activity fund is used to account for monies collected that are held on behalf of vocational student organization accounts as their agent and do not involve the measurement of results of operations.

Account Groups

GASB Statement No. 34 eliminates the presentation of account groups, but provides for these records to be maintained and incorporates the information into the governmental column in the government-wide statement of net position.

C. Basis of Accounting

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

Property taxes and interest and certain state and federal grants associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

**CENTRAL TECHNOLOGY CENTER NO. 3
CREEK COUNTY, OKLAHOMA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2015**

Summary of Significant Accounting Policies (continued)

D. Budgets and Budgetary Accounting

A budget is legally adopted by the Board of Education for the General Fund and Special Revenue Fund that includes revenues and expenditures.

These budgets are prepared on a budgetary basis of accounting. Budgetary control is maintained by fund, function, and activity and budgeted expenditures may not exceed appropriations at the fund level. Amendments may be made to the budget without approval by the governing body at the function and activity levels. Fund level budgetary amendments require approval of the governing body.

Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrance accounting – under which purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable fund balance – is utilized in all governmental funds of the Center. Appropriations which are not spent lapse at the end of the fiscal year and encumbrances are reversed. On the first day of the following fiscal year, the encumbrances are reinstated and the expenditures are applied against that year's budget.

E. Net Position and Fund Balances

The government-wide financial statements utilize a net position presentation. Net position is categories of investment in fixed assets (net of related debt), restricted net position and unrestricted net position.

Investment in Fixed Assets (net of related debt) – is intended to reflect the portion of net position, which is associated with non-liquid capital related debt. The net related debt is debt less the outstanding liquid assets and any associated unamortized cost.

Restricted Net Position – are liquid assets generated from revenues and not bond proceeds, which have third party (statutory bond covenant or granting agency) limitations on their use. The Center would typically use restricted net assets first, as appropriate opportunities arise, but reserve the right to selectively defer the use thereof to a future project or replacement equipment acquisition.

Unrestricted Net Position – represent unrestricted liquid assets.

Governmental Fund Financial Statements – The Center has adopted Governmental Accounting Standards Board Statement No. 54, which redefined how fund balances of the governmental funds are presented in the financial statements. The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the Center is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications available in the governmental fund financial statements are as follows:

Nonspendable – Amounts that are not in a spendable form such as prepaid expenses, inventory, or required to be maintained intact such as the corpus of permanent fund.

Restricted – Amounts that are designated for specific purposes by their providers such as bondholders, grantors, or imposed by law through constitutional provisions or enabling legislation. The Building Fund is restricted by statute to certain capital related costs.

Committed – Amounts designated for specific purposes by the Center's highest level of decision making authority (Board of Education) and cannot be used for any other purposes unless the same highest level (Board of Education) takes action to remove or change the designation.

The Center commits a portion of the fund balance to honor the commitments made by the Center for encumbrances (purchase orders) for which goods or services have not yet been received. The fund balance committed to encumbrances will be equivalent to the purchase orders rolled forward from one fiscal year to the next fiscal year

Assigned – Amount the Center intends to use for specific purposes; intent can be expressed by the governing body or by an official to which the governing body delegates the authority.

**CENTRAL TECHNOLOGY CENTER NO. 3
CREEK COUNTY, OKLAHOMA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2015**

Summary of Significant Accounting Policies (continued)

The Center assigns a portion of the fund balance in both the general fund and building fund for funding the cash flow needs during the first half of each fiscal year. The superintendent and the chief financial officer will determine the amount of assigned fund balance at the end of each fiscal year.

Unassigned – Amounts that are available for any purposes; reported only in the general fund. Fund balance represents the funds not restricted in use by statute nor encumbered by purchase order or legal contract.

F. Assets, Liabilities and Cash Fund Balances

Cash and Investments – The Center considers all cash on hand, demand deposits and investments to be cash and investments. Investments consist of direct obligations of the United States Government and Agencies. All investments are recorded at cost, which approximates market value.

Property Tax Revenue and Receivables – The Center is authorized by state law to levy property taxes which consist of ad valorem taxes on real and personal property within the Center. The County Assessor, upon receipt of the certification of tax levies from the county excise board, extends the tax levies on the tax roll for submission to the county treasurer prior to October 1. The county treasurer must commence tax collection within fifteen days of receipt of the tax rolls. The first half of taxes is due prior to January 1. The second half is due prior to April 1.

If the first payment is not made timely, the entire tax becomes due and payable on January 2. The second half of taxes becomes delinquent on April 1 of the year following the year of assessment. If taxes are delinquent and unpaid for a period of three years or more the real estate may be sold for such taxes.

Uncollected taxes assessed on valuations made each year are recorded in the Center's combined financial statements. Uncollectible personal and real property taxes are deemed to be immaterial because the property can be sold for the amount of taxes due.

Inventories – The cost of consumable materials and supplies on hand are immaterial to the financial statements, and the Technology Center has therefore chosen to report these items as expenditures/expenses at the time of purchase.

Capital Assets – Capital assets, which include property, plant and equipment, are reported in the government-wide financial statements.

All purchased capital assets are valued at cost when historical records exist and at an estimated historical cost where no historical records exist. Donated capital assets are valued at their fair market value on the date donated.

The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related fixed assets, as applicable.

Assets capitalized have an original cost of \$2,500 or more. Depreciation has been calculated using the straight-line method. Estimated useful lives are as follows:

Buildings and structures	15-40 years
Equipment	5-15 years
Vehicles	5-10 years

**CENTRAL TECHNOLOGY CENTER NO. 3
CREEK COUNTY, OKLAHOMA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2015**

Summary of Significant Accounting Policies (continued)

Compensated Absences – The Center's policy regarding vacation time permits employees to accumulate earned, but unused vacation leave. Unused vacation leave may be carried over at the end of a fiscal year, but not to exceed sixty (60) days. Upon separation of employment, an employee can be paid all accumulated vacation days at the employee's current daily rate of pay. The liability for these compensated absences is recorded as noncurrent debt in the government wide financial statements. The current portion of this debt is based on historical trends. In the fund financial statements, governmental funds report only the compensated absence liability payable from expendable available financial resources.

G. Revenue, Expenses and Expenditures

Revenues are classified by source as follows:

Local – Revenue from local sources is revenue produced within the Center, which includes ad valorem taxes. It is available for current educational expenses and for other purposes authorized by the Technology Center.

Intermediate – Revenue from intermediate sources is revenue from funds collected by an intermediate administrative unit or political sub-division, like a county or municipality, and redistributed to the Technology Center.

State – Those revenues received from the State, which are dedicated or are appropriated by the State legislature. Some of this aid is restricted for specific purposes.

The Center receives revenue from the State to administer certain categorical educational programs. State Board of Education rules require that revenue earmarked for these programs be expended only for the program for which the money is provided and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same categorical programs. The State Department of Career & Technology Education requires that categorical educational program revenues be accounted for in the general fund.

Federal – Revenue from Federal sources is money originating from the Federal government and made available to the Technology Center either as direct grants or under various programs passed-through the State Department of Career & Technology Education.

Expenditures are classified by function as follows:

Instruction Expenditures – Instruction expenditures include the activities dealing directly with the interaction between teachers and students. Teaching may be provided for students in a school classroom, in another location, such as a home or hospital, and in other learning situations, such as those involving co curricular activities. It may also be provided through some other approved medium, such as television, radio, telephone and correspondence.

Support Services Expenditures – Support services expenditures provide administrative, technical (such as guidance and health) and logistical support to facilitate and enhance instruction. These services exist as adjuncts for fulfilling the objective of instruction, community services and enterprise programs, rather than as entities within them.

Operation of Non-Instructional Services Expenditures – Activities concerned with providing non-instructional services to students, staff, and the community.

**CENTRAL TECHNOLOGY CENTER NO. 3
CREEK COUNTY, OKLAHOMA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2015**

Summary of Significant Accounting Policies (continued)

Facilities Acquisition and Construction Services Expenditures – Consist of activities involved with the acquisition of land and buildings; remodeling buildings; the construction of buildings and additions to buildings; initial installation or extension of service systems and other built-in equipment; and improvement to sites.

Other Outlays Expenditures – A number of outlays of governmental funds are not properly classified as expenditures, but still require budgetary or accounting control. These are classified as Other Outlays. These include debt service payments (principal and interest).

Other Uses Expenditures – This includes scholarships provided by private gifts and endowments; student aid and staff awards supported by outside revenue sources (i.e., foundations). Also, expenditures for self-funded employee benefit programs administered either by the Center or a third party administrator.

Repayment Expenditures – Repayment expenditures represent checks/warrants issued to outside agencies for refund or restricted revenue previously received for overpayments, non-qualified expenditures, and other refunds to be repaid from Center funds.

Deferred outflows of resources: Deferred outflows are the consumption of net position by the center that are applicable to a future reporting period. At June 30, 2015, the center's deferred outflows of resources were comprised of deferred outflows related to pensions.

Deferred inflows of resources: Deferred inflows are the acquisition of net position by the center that are applicable to a future reporting period. At June 30, 2015, the center deferred inflows of resources were comprised of deferred inflows to pensions.

New accounting pronouncements adopted in fiscal year 2015: The center adopted the following new accounting pronouncement during the year ended June 30, 2015:

Statement No. 68, Accounting and Financial Reporting for Pensions, an Amendment of GASB Statement No. 27 (GASB No. 68) establishes standards for measuring and recognizing liabilities, deferred outflows of resources, deferred inflows of resources, and pension expenses. GASB No. 68 also details the recognition and disclosure requirements for employers with liabilities to a defined benefit pension plan and for employers whose employees are provided with defined contribution pensions. Defined benefit pensions are further classified by GASB No. 68 as single employer plans, agent employer plans and cost-sharing plans, and recognition and disclosure requirements are addressed for each classification. The provisions of the statement are effective for fiscal periods beginning after June 15, 2014. The adoption of GASB No. 68 resulted in a decrease in Net Position of \$13,172,512.

Statement No. 71, Pension Transition for Contributions made Subsequent to the Measurement Date-an amendment of GASB Statement No. 68 (GASB No. 71) was issued in November 2013 and amends paragraph 137 of Statement 68 to require that, at transition, a government recognize a beginning deferred outflow of resources for its pension contributions, if any, made subsequent to the measurement date of the beginning net pension liability. The provisions of this statement were required to be adopted simultaneously with the adoption of GASB Statement 68. The adoption of GASB No. 71 resulted in the recording of a deferred outflow of \$840,356 for contributions after the measurement date of the beginning net pension liability.

**CENTRAL TECHNOLOGY CENTER NO. 3
CREEK COUNTY, OKLAHOMA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2015**

Summary of Significant Accounting Policies (continued)

New accounting pronouncements issued not yet adopted: The GASB has also issued several new accounting pronouncements which will be effective for the vocational technical center in future fiscal years. A description of the new accounting pronouncements and the centers consideration of the impact of these pronouncements are described below:

Statement No. 72, Fair value Measurement and Application (GASB No. 72) was issued in February 2015 and requires investments to be measured at fair value. Investments are defined as any security or other asset that (a) the government holds primarily for the purpose of income or profit and (b) has a present service capacity based solely on its ability to generate cash or be sold to generate cash. The statement requires measurement at acquisition value for donated capital assets, donated works of art, historical treasures and similar assets and capital assets received in a service concession arrangement. This statement is effective for financial statements for periods beginning after June 15, 2015.

Statement No. 73, Accounting and Financial Reporting for Pensions and Related Assets That Are Not Within Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68 (GASB No. 73) was issued in June 2015, will be effective for the vocational technical centers beginning with its fiscal year ending June 30, 2016. Those provisions of the statement that address employers and governmental nonemployer contributing entities for pensions that are not within the scope of Statement No. 68 are effective beginning with fiscal year ending June 30, 2017. The Statement establishes requirements for pensions not covered by Statement Nos. 67 and 68 which are essentially the same requirements as Statement No. 68. However, the lack of a pension plan that is administered through a trust that meets specified criteria is reflected in the measurements.

Statement No. 74, Financial Reporting for Postemployment Benefits Plans Other Than Pension Plans (GASB No. 74) was issued in June 2015 and replaces Statements No. 43 Financial Reporting for Postemployment Benefits Plans Other than Pension Plans, and No. 57, OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans. The provisions of Statement 74 are effective for fiscal years beginning after June 15, 2016. Earlier application is encouraged.

Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions (GASB No. 75) was issued in June 2015, will be effective for the center beginning with its fiscal year ending June 30, 2018. The Statement replaces the requirements of GASB Statement No 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions and requires governments to report a liability on the face of the financial statements for the OPEB they provide and outlines the reporting requirements by governments for defined benefit OPEB plans administered through a trust, cost-sharing OPEB plans administered through a trust and OPEB not provided through a trust. The Statement also requires governments to present more extensive note disclosures and required supplementary information about their OPEB liabilities. Some governments are legally responsible to make contributions directly to an OPEB plan or make benefit payments directly as OPEB comes due for employees of other governments. In certain circumstances, called special funding situations, the Statement requires these governments to recognize in their financial statements a share of the other government's net OPEB liability.

Statement No. 76, The Hierarchy of Generally Accepted accounting Principles for State and Local Governments (GASB No. 76) was issued in June 2015 and supersedes Statement No. 55, The Hierarchy of Generally Accepted accounting Principles for State and Local Governments. The requirements of this Statements are effective for financial statements for periods beginning after June 15, 2015, and should be applied retroactively. Earlier application is permitted.

The vocational technical center is currently evaluating the impact that these new standards will have on its financial statements.

**CENTRAL TECHNOLOGY CENTER NO. 3
CREEK COUNTY, OKLAHOMA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2015**

2. Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

3. Deposit Categories of Credit Risk

Collateral is required for demand deposits and certificates of deposit for all amounts not covered by federal deposit insurance. The Center's investment policies are governed by state statute. Permissible investments include:

1. Direct obligations of the United States Government to the payment of which the full faith and credit of the government is pledged.
2. Obligations to the payment of which the full faith and credit of the state is pledged.
3. Certificates of deposits of banks when such certificates of deposits are secured by acceptable collateral as in the deposit of other public monies.
4. Savings accounts or savings certificates of savings and loan associations to the extent that such accounts or certificates are fully insured by the Federal Savings and Loan Insurance Corporation.
5. Repurchase agreements that have underlying collateral consisting of those items specified in paragraphs 1 and 2 of this section including obligations of the United States, its agencies and instrumentalities, and where collateral has been deposited with a trustee of custodian bank in an irrevocable trust or escrow account established for such purposes.
6. County, municipal or technology center direct debt obligations for which an ad valorem tax may be levied or bond and revenue anticipation notes, money judgments against such county, municipality or school district ordered by a court of record or bonds or bond and revenue anticipation notes issued by a public trust for which such county, municipality or school district is a beneficiary thereof. All collateral pledged to secure public funds shall be valued at no more than market value.
7. Money market mutual funds regulated by the Securities and Exchange Commission and which investments consist of obligations of the United States, its agencies and instrumentalities, and investments in those items listed above.
8. Warrants, bonds or judgments of the school district.
9. Qualified pooled investment programs, the investments of which consist of those items specified above, as well as obligations of the United States agencies and instrumentalities, regardless of the size of the district's budget. To be qualified, a pooled investment program for school funds must be governed through an Interlocal cooperative agreement formed pursuant to Title 70 Section 5-117b, and the program must competitively select its investment advisors and other professionals. Any pooled investment program must be approved by the Board of Education.

Custodial Credit Risk:

Deposits and Investments - The Center's demand deposits are required by law to be collateralized by the amount that is not federally insured. The District has a written investment policy, which permits investments as authorized by State Statute.

**CENTRAL TECHNOLOGY CENTER NO. 3
CREEK COUNTY, OKLAHOMA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2015**

Deposit Categories of Credit Risk (continued)

Certificates of deposit are collateralized at least by the amount not federally insured. As of June 30, 2015, the District had no deposits exposed to custodial credit risk.

Interest Rate Risk:

Investments are made based upon prevailing market conditions at the time of the transaction with the intent to hold the instrument until maturity. However, the Center has no formal written policy addressing interest rate risk.

Credit Risk:

The Center has no formal written policy addressing credit risk.

4. Accounts Receivable

Receivables consist of all revenues earned at year end and not yet received. Ad valorem tax collectable, but not available are deferred in the fund financial statements in accordance with the modified accrual basis of accounting, but included in the government-wide financial statements in accordance with the accrual basis of accounting. The technology center had the following receivables at June 30, 2015:

	General Fund	Building Fund	Total
Ad Valorem Tax	\$ 450,121	\$ 115,227	\$ 565,348
State Grants	25,720	-	25,720
Federal Grants	300,733	-	300,733
Due from Activity Fund	264,926	-	264,926
Total – Accrual Basis	<u>1,041,500</u>	<u>115,227</u>	<u>1,156,727</u>
Less: Deferred Revenue	<u>(342,234)</u>	<u>(83,951)</u>	<u>(426,185)</u>
Total Receivables - net	<u>\$ 699,266</u>	<u>\$ 31,276</u>	<u>\$ 730,542</u>

**CENTRAL TECHNOLOGY CENTER NO. 3
CREEK COUNTY, OKLAHOMA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2015**

5. Capital Assets

A summary of changes in general fixed assets for the year ended June 30, 2015, follows:

	Balance July 1, 2014	Additions	Retirements	Balance June 30, 2015
Land	\$ 874,276	\$ 90,225	\$ -	\$ 964,501
Construction in progress	-	356,257	-	356,257
Total Assets Not Being Depreciated	\$ 874,276	\$ 446,482	\$ -	\$ 1,320,758
Building & Improvements	16,650,781	365,939	-	17,016,720
Machinery & Equipment	2,939,977	599,789	51,992	3,487,774
Vehicles	4,083,463	392,254	28,755	4,446,962
Total Capital Assets Being Depreciated	23,674,221	1,357,982	80,747	24,951,456
Less: Accumulated Depreciation	12,004,699	1,049,002	73,127	12,980,574
Total Capital Assets Being Depreciated - Net	\$ 11,669,522	\$ 308,980	\$ 7,620	\$ 11,970,882
Total Capital Assets - Net	\$ 12,543,798	\$ 755,462	\$ 7,620	\$ 13,291,640

6. Interfund Transactions

Interfund transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund, or expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the fund that is reimbursed. Nonrecurring or nonroutine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers.

7. Employee Retirement System

Description of Plan

The District participates in the state-administrated Teacher's Retirement System of Oklahoma (the "system"), which is a cost-sharing multiple-employer public employee retirement system. The supervising authority for the management and operation of the System is a 13-member Board of Trustees, which acts as a fiduciary for investment of the funds and the application of plan interpretations. The System provides retirement and disability benefits, annual cost of living adjustments, death benefits and other benefits to plan members and beneficiaries. Oklahoma State Statutes establish benefit provisions and may be amended only through legislative action. The District has no responsibility or authority for the operation and administration of the system nor has it any liability, except for contribution requirements. The Oklahoma Teachers' Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for the System. The report may be obtained by writing to the Oklahoma Teachers' Retirement System, P.O. Box 53624, Oklahoma City, Oklahoma 73152.

**CENTRAL TECHNOLOGY CENTER NO. 3
CREEK COUNTY, OKLAHOMA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2015**

Employee Retirement System (continued)

Basis of Accounting

The System's financial statements are prepared in conformity with accounting principles generally accepted in the United States of America. The financial statements have also been prepared in compliance with the requirements of the Government Accounting Standards Board Statement No. 34.

The financial statements are prepared on the accrual basis of accounting, under which expenses are recorded when the liability is incurred, revenues are recorded in the accounting period they are earned and become measurable, and investment purchases and sales are recorded as of their trade dates. Member and employer contributions are recognized when due, pursuant to formal commitments. Benefits and refunds are recognized when due and payable.

The pension benefit obligation is a standardized disclosure measure of the present value of pension benefits. This pension valuation method reflects the present value of estimated pension benefits that will be paid in future years as a result of employee services performed to date and is adjusted for the effect of projected salary increases. There are no actuarial valuations performed on individual school districts. The nonfunded pension benefit obligation of the System, as determined as part of the latest actuarial valuation dated June 30, 2015, is as follows:

	<u>Dollars in Millions</u>
Actuarial Accrued Liability	\$ 20,693
Actuarial Value of Assets	<u>13,772</u>
 Unfunded Actuarial Accrued Liability	 \$ <u>6,921</u>

Contributions

The contribution rates for the vocational technical center and its employees, which are prescribed by Oklahoma State statutes, are based on employee's earnings, plus employer-paid fringe benefits. The vocational center is required to contribute 9.5% of applicable employee compensation. The vocational technical center is allowed by the Oklahoma Teacher's Retirement System to make the required contributions on behalf of the participating members. The required contributions for participating members is 7%. The State of Oklahoma, a non-employee contributing entity, provides funds through 5% of the state's sales, use, corporate, and individual income tax collected. The system also receives 1% of the cigarette tax collected by the state and 5% of the net lottery proceeds collected by the state. Employers of OTRS members whose compensation is paid from federal funds are required to match the contributions of these members on that portion of compensation paid from federal funds. The federal match rate is set by the OTRS Board of Trustees and as of April 1, 2015 is 8.25%.

Annual Pension Cost

The District's total contribution for 2015, 2014, and 2013 were \$1,452,751, \$1,379,813 and \$1,324,057 respectively, total payroll for fiscal year 2015 was \$9,175,144.

On Behalf Contributions

The State of Oklahoma makes retirement contributions each year for teachers employed by Oklahoma School Districts. The contribution amounts are based on the teacher's years of service and amounts paid are prescribed by O.S. 70 Section 17-108.2 subsection A. During fiscal year 2014-15, the State of Oklahoma's contribution was \$52,060. The District recognized revenue and expenditures of this amount during the year.

CREEK COUNTY, OKLAHOMA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2015**

Employee Retirement System (continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2015, the center reported a liability of \$11,134,579 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2014. The center's proportion of the net pension liability was based on the center's contributions received by the pension plan relative to the total contributions received by pension plan for all participating employers as of June 30, 2014. Based upon this information, the center's proportion was .20696758 percent. For the year ended June 30, 2015, the center recognized pension expense of \$651,993. At June 30, 2015, the center reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$	\$ 185,531
Net difference between projected and actual earnings on pension plan investments		2,694,758
Vocational Technical Center contributions subsequent to the measurement date	<u>840,356</u>	
Total	\$ <u>840,356</u>	\$ <u>2,878,289</u>

Deferred pension outflows totaling \$840,356 resulting from the center's contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. The deferred inflows totaling \$2,694,758 resulting from the difference between projected and actual earnings on pension plan investments will be recognized in pension expense over five years. The deferred inflows totaling \$185,531 resulting from differences between expected and actual experience will be recognized in pension expense using the average expected remaining service life of the plan participants. The average expected remaining life of the plan participants is determined by taking the calculated total future service years of the plan participants divided by the number of people in the Plan including retirees. The total future service years of the plan participants are estimated at 6.32 years at June 30, 2014 and are determined using the mortality, termination, retirement and disability assumptions associated with the Plan.

**CENTRAL TECHNOLOGY CENTER NO. 3
CREEK COUNTY, OKLAHOMA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2015**

Employee Retirement System (continued)

Deferred outflows of resources and deferred inflows of resources will be recognized in pension expense as follows:

<u>Year ended,</u>	
2016	\$ 562,143
2017	562,143
2018	562,143
2019	562,143
2020	562,143
Thereafter	<u>67,574</u>
	<u>\$ 2,878,289</u>

Actuarial assumptions: The total pension liability was determined based on an actuarial valuation prepared as of July 1, 2014, using the following actual assumptions:

- Actuarial Cost method-Entry Age Normal
- Amortization Method-Level Percentage of Payroll
- Amortization Period-Amortization over an open 30-year period
- Asset Valuation Method-5 year smooth market
- Inflation-3.0 percent
- Salary Increases-Composed of 3.0 percent inflation, plus 1.0 percent productivity increase rate, plus step-rate promotional increases for members with less than 25 years of service.
- Investment Rate of Return-8.0 percent
- Retirement Age-Experience-based table of rates based on age, service, and gender.
Adopted by the Board in September 2010 in conjunction with the five year experience study for the period ending June 30, 2009
- Mortality-RP-2000 Combined Mortality Table, projected to 2016 using Scale AA, multiplied by 90.0 percent for males and 80.0 percent for females.

The long-term expected rate of return on pension plan investments was determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target asset allocation and best estimates of arithmetic expected real rates of return for each major asset class as of June 30, 2014, are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Fixed Income	23.50%	6.60%
Domestic Equity	57.50%	6.80%
Private Equity	5.00%	7.90%
Real Estate	7.00%	5.50%
Limited Partnerships	<u>7.00%</u>	7.90%
	<u>100.00%</u>	

**CENTRAL TECHNOLOGY CENTER NO. 3
CREEK COUNTY, OKLAHOMA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2015**

Employee Retirement System (continued)

Discount rate – A single discount rate of 8% was used to measure the total pension liability as of June 30, 2014. This single discount rate was based solely on the expected rate of return on pension plan investments of 8.00%. Based on the stated assumptions and the projection of cash flows, the pension plan's fiduciary net position and future contributions were projected to be available to finance all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine total pension liability.

Sensitivity of the Center's proportionate share of the net pension liability to changes in the discount rate

The following presents the Center's proportionate share of the net pension liability calculated using the discount rate of 8.00%, as well as what the Center's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (7.00%) or 1-percentage point higher (9.00%) than the current rate:

	1% Decrease (7.00%)	Current Discount Rate (8.00%)	1% Increase (9.00%)
Center's proportionate share of the net pension liability	\$ <u>15,750,998</u>	\$ <u>11,134,579</u>	\$ <u>11,519,769</u>

Pension plan fiduciary net position – Detailed information about the pension plan's fiduciary net position is available in the separately issued TRS financial report that can be obtained at <http://www.ok.gov/trs/> or by writing to the Oklahoma Teachers Retirement System, P.O. Box 53624, Oklahoma City, Oklahoma 73152 or by calling 405-521-2387.

8. Non-Current Debt

The Center's noncurrent debt consisted of compensated absences and net pension liability. Compensated absences represent the estimated liability for employees' accrued vacation for which employees are entitled to be paid upon termination. The retirement of this liability is paid from the General Fund or Building Fund based upon the assignment of the employee at termination. The government wide statements reflect the total estimated liability of the compensated absences in the Statement of Net Position. In the Statement of Activities, the compensated absences are recognized as expenses when earned.

Noncurrent liabilities consist of compensated absences that are due in more than a year. A summary of changes in noncurrent liabilities follows:

	Balance July 1, 2014	Additions	Retirements	Balance June 30, 2015
Compensated Absences	\$ 281,857	\$ -	\$ 794	\$ 281,063
Net Pension Liability	-	11,134,579	-	11,134,579
Total	<u>281,857</u>	<u>11,134,579</u>	<u>794</u>	11,415,642
Less: Amounts Due Within One Year				<u>172,278</u>
Total liabilities due in more than one year				\$ <u>11,243,364</u>

**CENTRAL TECHNOLOGY CENTER NO. 3
CREEK COUNTY, OKLAHOMA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2015**

9. Capital Lease Commitments

The Center had no capital lease commitments at June 30, 2015.

10. Litigation

The Center is contingently liable for lawsuits and other claims in the ordinary course of its operations. The settlement of such contingencies under the budgetary process would require appropriation of revenues yet to be realized and would not materially affect the financial position of the Center at June 30, 2015.

11. Contingent Liabilities

The Center receives significant financial assistance from the United States government in the form of grants and other federal assistance. Entitlement to the resources is generally conditioned upon compliance with terms and conditions of the grant agreements and applicable federal regulations, including the expenditure of the resources for eligible purposes. Substantially all grants are subject to financial and compliance audits by the grantors. Any disallowances as a result of these audits become a liability of the Center. The Center estimates that no material liabilities will result from such audits.

12. Risk Management

Insurance Coverage

The Center purchases commercial insurance policies covering property casualty loss, public liability, school board member, and administrator liability.

The Center participates in the Oklahoma Public Schools Unemployment Compensation Account under the sponsorship of the Oklahoma State School Boards Association and the cooperative council for Oklahoma School Administration. The account was established to let school districts self-insure unemployment benefits for school employees. The funds are held in the name of each school district as reserves to pay unemployment claims. Each school district is individually liable for that portion of the benefits paid from the fund attributable to wages paid by the school district in the same manner as if no group account had been established. The reserve funds may be withdrawn from the account upon request of the school district. At June 30, 2015, the Central Technology Center had reserves on deposit with the Oklahoma Public Schools Unemployment Compensation Accounting totaling \$14,653. This amount has been shown as prepaid insurance on the financial statements.

13. Surety Bonds

The superintendent is bonded by Old Republic, bond number W150158404 for the penal sum of \$100,000 for the term of May 2, 2014, to May 2, 2015.

The chief financial officer, treasurer, encumbrance clerk, minutes clerk, and bursar are covered by policy CL 11111020242 with Travelers. The coverage is for \$500,000 with a \$5,000 deductible. The policy runs for the term of July 1, 2014, to July 1, 2015.

14. Related Parties

The Center annually agrees with the Central Tech Foundation, Inc. (Foundation) to allow operation of the Foundation's principal office within the Center's administrative offices and allows selected Center employees to perform the duties required of the Foundation, such as clerical and administrative services. The Center also allows the Foundation to utilize Center equipment and space as needed. In exchange the Foundation agrees to present to the Center an annual report including information about available grants and fundraising. No public funds of the Center are allowed to be deposited in any account owned or controlled by the Foundation. The Foundation is separately constituted and accordingly, their financial position and results of operations have not been presented in the accompanying financial statements.

**CENTRAL TECHNOLOGY CENTER NO. 3
CREEK COUNTY, OKLAHOMA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2015**

15. Operating Lease Agreements

The Center leases office space to the Creek County Industrial Authority for purposes of enhancing economic development throughout Creek County. The lease is renewable on a fiscal year basis and the established lease rate is \$1.

The Center leases office and classroom space from Central Oklahoma Business and Job Development Corporation within a facility called the Center for Business Technology Research & Development located in Drumright, Oklahoma. The Center pays \$1 per year for use of the premises.

The Center also leases property in Sapulpa, Oklahoma to the Oklahoma Employment Security Commission. The multi-year agreement is renewable through June 30, 2015 for an annual amount of \$15,999.96.

16. Cooperative Agreement

The Center entered into an agreement with other Technology Centers in the state of Oklahoma to form a cooperative to jointly pursue a marketing and informational design to utilize a broad range of media services to deliver information to the public regarding programs and training opportunities available through the Technology Centers. Financial arrangements of the cooperative districts include allocating the fees and associated expenses among themselves bases on assessed valuations in each district. The total amount of fees and related expenses paid from the joint contributions of the cooperative districts cannot exceed \$518,000. The term of the agreement runs for one year and may be renewed for successive one year terms.

**CENTRAL TECHNOLOGY CENTER NO. 3
CREEK COUNTY, OKLAHOMA
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
FOR THE YEAR ENDED JUNE 30, 2015**

1. For all federal programs, the Center uses the fund types prescribed by the Oklahoma State Department of Career and Technology Education and conforms to the system of accounting authorized by the State of Oklahoma. General and Building Funds are used to account for resources restricted, or designated for, specific purposes by a grantor. Federal and state financial assistance generally is accounted for in the General Fund and Building Fund.
2. The accounting and financial reporting treatment applied to a fund is determined by its' measurement focus. The Governmental Fund types are accounted for using a current financial measurement focus. All Federal grant funds were accounted for in the General and Agency Funds. With this measurement focus, only current assets and current liabilities and the fund balance are included on the balance sheet. Operating statements of these funds present increases and decreases in net current assets.

The modified accrual basis of accounting is used for the Governmental Fund types and accrual basis for Agency Funds. This basis of accounting recognizes revenue in the accounting period in which they become susceptible to accrual, i.e., both measurable and available, and expenditures in the accounting period in which the fund liability is incurred, and certain compensated absences and claims and judgments, which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Federal grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant, and accordingly, when such funds are received, they are recorded as deferred revenue until earned.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Honorable Board of Education
Central Technology Center No. 3
Creek County, Oklahoma

I have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Central Technology Center No. 3, Creek County, Oklahoma (Center), as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the Center's financial statements, and have issued my report thereon dated February 5, 2016 .

Internal Control over Financial Reporting

In planning and performing my audit of the financial statements, I considered the Center's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing my opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Center's internal control. Accordingly, I do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

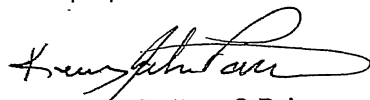

My consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during my audit I did not identify any deficiencies in internal control that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Center's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*. I noted certain immaterial instances of noncompliance that I have reported to management of Central Technology Center in a separate letter dated February 3, 2016.

Purpose of this Report

This report is solely to describe the scope of my testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY OMB CIRCULAR A-133

The Honorable Board of Education
Central Technology Center No. 3
Creek County, Oklahoma

Report on Compliance for Each Major Federal Program

I have audited the compliance of Central Technology Center No. 3, Creek County, Oklahoma (Center's) compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the Center's major federal programs for the year ended June 30, 2015. The Center's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

My responsibility is to express an opinion on compliance for each of the Center's major federal programs based on my audit of the types of compliance requirements referred to above. I conducted my audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that I plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major program occurred. An audit includes examining on a test basis, evidence about the Center's compliance with those requirements and performing such other procedures as I consider necessary in the circumstances.

I believe that my audit provides a reasonable basis for my opinion on compliance for each major federal program. However, my audit does not provide a legal determination of the Center's compliance.

Opinion on Each Major Federal Program

In my opinion, Central Technology Center, No. 3, Creek County, Oklahoma, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2015.

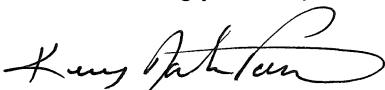

Report on Internal Control Over Compliance

Management of Central Technology Center No. 3, Creek County, Oklahoma (Center), is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing my audit of compliance, I considered the Center's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on effectiveness of internal control over compliance. Accordingly, I do not express an opinion on the effectiveness of the Center's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program, on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected on, a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

My consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. I did not identify any deficiencies in internal control over compliance that I considered to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of my testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

**CENTRAL TECHNOLOGY CENTER NO. 3
CREEK COUNTY, OKLAHOMA
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED JUNE 30, 2015**

A. SUMMARY OF AUDIT RESULTS

1. The auditor's report expresses an unqualified opinion on the basic financial statements of Central Technology Center.
2. There were no audit findings reported of deficiencies in internal control, which the auditor considers to be "significant deficiencies" as defined in A.I.C.P.A. standards.
3. No instances of noncompliance material to the financial statements of Central Technology Center which would be required to be reported in accordance with Government Auditing Standards, were disclosed during the audit.
4. There were no audit findings reported of deficiencies in internal control over major programs, which the auditor considers to be "significant deficiencies" as defined by A.I.C.P.A. standards.
5. The auditor's report on compliance for the major federal award programs for Central Technology Center expresses an unqualified opinion on all major federal programs.
6. There were no audit findings that are required to be reported in accordance with OMB Circular A-133 relative to major federal award programs for Central Technology Center.
7. The programs tested as major programs included: Student Financial Assistance Cluster (84.063, 84.033, and 84.007).
8. The threshold for distinguishing Types A and B programs was \$300,000.00.
9. Central Technology Center did qualify as a low-risk auditee.

B. FINDINGS – FINANCIAL STATEMENTS AUDIT

1. No matters were reported.

C. FINDINGS AND QUESTIONED COSTS – MAJOR FEDERAL AWARD PROGRAMS AUDIT

1. No matters were reported.

**CENTRAL TECHNOLOGY CENTER NO. 3
CREEK COUNTY, OKLAHOMA
SUMMARY OF PRIOR AUDIT FINDINGS
JULY 1, 2014 TO JUNE 30, 2015**

The summary of prior audit findings is required to report the status of all audit findings reported in the prior audit's schedule of findings and questioned costs relative to federal awards.

The Center had no prior year audit findings relative to federal award programs.

**CENTRAL TECHNOLOGY CENTER NO. 3
CREEK COUNTY, OKLAHOMA
SCHEDULE OF COMMENTS
JULY 1, 2014 TO JUNE 30, 2015**

Based on my tests of accounting records and related procedures, I found nothing to indicate that Central Technology Center No. 3 had not complied with significant compliance rules and regulations of the Oklahoma State Department of Career and Technology Education.

Previous Year's Audit Comments

There were no items in the school's 2013-14 audit report, which required resolution during the year ended June 30, 2015.

I would like to express my appreciation for the courtesies and cooperation extended to us by Center administrators and employees during the course of this audit.

CENTRAL TECHNOLOGY CENTER NO. 3
CREEK COUNTY, OKLAHOMA
