Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly we express no such opinion. INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Directors
Cherokee County Rural Water District No. 3
Tahlequah, Oklahoma

We have audited in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of Cherokee County Rural Water District No. 3 as of and for the year ended December 31, 2013 and 2014, and the related notes to the financial statements, which collectively comprise Cherokee County Rural Water District No. 3's basic financial statements and have issued our report thereon dated March 10, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Cherokee County Rural Water District No 3's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Cherokee County Rural Water District No 3's internal control. Accordingly, we do not express an opinion on the effectiveness of County Rural Water District No 3's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned cost that we consider to be significant deficiencies. 2014-1

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Cherokee County Rural Water District No. 3's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards

Cherokee County Rural Water District No. 3's Response to Findings

Cherokee County Rural Water District No. 3's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. SCHEDULE OF FINDINGS AND QUESTIONED COSTS

2014-1

The inherent limitation resulting from a small number of employees performing functions that would normally be divided among several employees were a larger number available presents a proper segregation of accounting functions deficiency. A much larger staff would be necessary in order to assure adequate internal accounting controls. This deficiency requires the board to remain actively involved in the day to day activities of the water district.

Management's Response

Management's response to the lack of segregation of duties is to use to the services of a local CPA Firm to help ensure that financial statements are free or material errors or fraud. Management also remains committed to staying actively involved in the financial matters of the district and consulting with the local CPA firm whenever needed.
