INDEPENDENT AUDITOR'S REPORT

To the City Council
City of Anadarko, Oklahoma

Report on the Financial Statements

We have audited the accompanying modified cash basis financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Anadarko, Oklahoma as of and for the year ended December 31, 2014, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 1.C. This includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

100 E Street S.W., Suite 200 | Ardmore, OK 73401

Telephone (580) 223-6454 | FAX 1-800-858-9329

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Summary of Opinions

<u>Opinion Unit</u>	<u>Type of Opinion</u>
Governmental Activities	Qualified
Business-Type Activities	Qualified
General Fund	Qualified
APWA	Qualified
Airport Fund	Unmodified
Aggregate Remaining Fund Information	Unmodified

Basis for Qualified Opinions

We did not observe the taking of the physical inventories at December 31, 2014 for the governmental activities, the business-type activities, or the general fund (stated at \$50,023, \$374,317 and \$50,023 respectively), since those dates were prior to the time we were engaged as auditors for the City for 2014. We were unable to obtain sufficient appropriate audit evidence about inventory quantities by other auditing procedures.

Qualified Opinions

In our opinion, except for the possible effects of the matter discussed in the “Basis for Qualified Opinions” paragraph, the financial statements referred to above present fairly, in all material respects, the respective modified cash basis financial position of the governmental activities, the business-type activities, and major funds : general fund and APWA of the City of Anadarko, Oklahoma, as of December 31, 2014, and the respective changes in modified cash basis financial position, and, where applicable, cash flows thereof for the year then ended in accordance with modified cash basis of accounting described in Note 1.C..

Unmodified Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the modified cash basis financial position of the Airport Fund and the aggregate remaining fund information of the City of Anadarko, Oklahoma, as of December 31, 2014, and the respective changes in modified cash basis financial position, and, where applicable, cash flows thereof for the year then ended in accordance with modified cash basis of accounting described in Note 1.C..

Basis of Accounting

We draw attention to Note 1.C.of the financial statements, which describes the basis of accounting. As described in Note 9, in 2014 the City of Anadarko adopted a policy of preparing its financial statements on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. The financial statements for 2013 have been retrospectively adjusted to reflect the modified cash basis of accounting adopted in 2014. Our opinions are not modified with respect to this matter.

Other Matters

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Anadarko, Oklahoma’s basic financial statements. The information

shown in the table of contents as other supplementary information pages 32-37 which are the responsibility of management, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining nonmajor fund financial statements and schedule of federal and state awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated April 20, 2016 on our consideration of the City of Anadarko, Oklahoma's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City of Anadarko, Oklahoma's internal control over financial reporting and compliance.

City of Anadarko, Oklahoma
Notes to Financial Statements
December 31, 2014

Note 1 - Summary of Significant Accounting Policies

1.A. Financial Reporting Entity

The City's financial reporting entity includes the primary government (City of Anadarko), its blended and discretely presented component units. This report includes all activities for which the City of Anadarko's City Council is fiscally responsible. In determining the financial reporting entity, the City complies with the provisions of Governmental Accounting Standards Board Statement No. 14, "The Financial Reporting Entity" and includes all component units for which the City is financially accountable.

The City of Anadarko is an incorporated municipality with a population of approximately 6,400 located in central Oklahoma. The City is a Council/Manager form of government and operates under a charter that provides for three branches of government:

- Legislative – the City Council is a seven-member governing body of which five council members are elected by wards and the mayor and vice-mayor is elected by the citizens at large
- Executive – the City Manager is the Chief Executive Officer and is contracted/hired by the City Council
- Judicial – the Municipal Judge is a practicing attorney contracted/hired by the City Council

The City provides its citizens with public safety, streets and highways, sanitation, social services, culture and recreation, public improvements, utilities, planning and zoning, and general administrative activities.

Blended Component Units

Anadarko Public Works Authority - The trust has as its purpose to finance, develop, and operate the utility services and physical facilities of the City (APWA). APWA is reported as an enterprise fund and includes the APWA Operating and APWA Capital Improvements funds.

Anadarko Economic Development Authority - The trust has as its purpose to stimulate economic growth and development of the beneficiary City (AEDA). The AEDA does not issue separate financial statements and is reported as a non-major governmental fund.

Each of these component units is a Public Trust established pursuant to Title 60 of Oklahoma State law. Public Trusts (Authorities) have no taxing power. The Authorities are generally

City of Anadarko, Oklahoma
Notes to Financial Statements
December 31, 2014

created to finance City services through issuance of revenue bonds or other non-general obligation debt and to enable the City Council to delegate certain functions to the governing body (Trustees) of the Authority. The Authorities generally retain title to assets, which are acquired or constructed with Authority debt, or other Authority generated resources. The current City Council serves as the governing body of both the APWA and AEDA, and any issuances of debt would require a two-thirds approval of the City Council. In addition, the City has leased certain existing assets at the creation for the Authorities to the Trustees on a long-term basis. The City, as beneficiary of the Public Trusts, receives title to any residual assets when a Public Trust is dissolved.

1.B. Basis of Presentation

Government-Wide Financial Statements:

The government-wide financial statements (i.e., the statement of assets, liabilities and net position – modified cash basis and the statement of revenues, expenses and changes in net position – modified cash basis) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely, to a significant extent on fees and charges for support.

The statement of revenues, expenses and changes in net position – modified cash basis demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements:

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

City of Anadarko, Oklahoma
Notes to Financial Statements
December 31, 2014

1.C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements of the City are presented using the economic resource measurement focus within the limitations of the modified cash basis of accounting, which is a basis other than GAAP as established by GASB. This basis of accounting involves modifications to the cash basis of accounting to report in the statement of assets, liabilities and net position cash transactions or events that provide a benefit or result in an obligation that covers a period greater than the period in which the cash transaction or event occurred. Such modifications include the following:

- Capital assets are recorded as assets when purchased and related depreciation is recorded.
- Amounts advanced for Retiree and COBRA coverage are recorded when disbursed.
- Notes receivable resulting from cash loans are recorded when disbursed.
- Long-term debt is recorded when incurred.
- Employee payroll withholding that have not been deposited with the appropriate parties but relate to compensation paid are recorded as liabilities.
- Customer overpayments and refunds due but not disbursed are recorded as liabilities.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. Governmental funds focus on a current financial resources measurement within the limitations of the modified cash basis of accounting. Only current financial assets and liabilities are generally included on the statement of assets, liabilities and fund balance. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

Proprietary funds utilize an economic resources measurement focus within the limitations of modified cash basis of accounting. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery), net financial position and cash flows. All assets, deferred outflows, liabilities and deferred inflows associated with their activities are generally reported modified as follows:

- Capital assets are recorded as assets when purchased and related depreciation is recorded.

City of Anadarko, Oklahoma
Notes to Financial Statements
December 31, 2014

- Long-term debt is recorded when incurred.
- Employee payroll withholding that have not been deposited with the appropriate parties but relate to compensation paid are recorded as liabilities.
- Customer overpayments and refunds due but not disbursed are recorded as liabilities.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise fund are charges to customers for sales and services. Operating expenses for the enterprise fund include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The City reports the following funds:

Governmental Funds

Major Governmental Funds:

- General Fund - is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.

Aggregated Non-Major Governmental Funds:

Special Revenue Funds:

- E-911 Collections Fund – accounts for revenues legally restricted for E-911 services.
- Justice Program Grants Fund – accounts for grant revenues and expenditures related to the City's justice program.
- EMS Sales Tax Fund – accounts for revenues and expenditures related to providing emergency and ambulance services.

Capital Project Funds:

- Cemetery Care Fund – accounts for 12.5% of all cemetery revenues, all of which is legally restricted for cemetery capital improvements
- Sales Tax Capital Improvements Fund - accounts for sales tax collections designated for utility capital improvements and debt service.

City of Anadarko, Oklahoma
Notes to Financial Statements
December 31, 2014

- WFEC Capital Improvements Fund – accounts for revenues received from Western Farmers’ Electric Cooperative for use in approved community betterment projects.

Permanent Fund:

- City Investments Fund – accounts for lease bonus money of \$500,000 received by the City and legally required by the citizens of the City to be maintained intact (Ordinance #874). The interest of which can be placed in the General Fund.

Debt Service Fund:

- Debt Sinking Fund – accounts for the accumulation of financial resources for the payment of long-term debt principal, interest and related costs, other than debt service payments made by the enterprise fund. The primary revenue sources are local property taxes levied specifically for debt service. This fund was closed during the year.

Blended Component Unit:

- Anadarko Economic Development Authority – promotes economic growth and development of the City.

Proprietary Funds

Major Enterprise Fund:

- Anadarko Public Works Authority – operates the electric, water, sewer, and sanitation services of the City (blended component unit).

Non-Major Enterprise Fund:

- Airport Fund – accounts for revenues and expenditures related to the operations of the City’s municipal airport.

1.D. Assets, Liabilities and Equity

Deposits and Investments - The City’s cash and cash equivalents include all cash on hand, demand and savings accounts, interest bearing checking accounts and certificates of deposit with an original maturity of three months or less. Promissory note trust account investments in open-ended mutual fund shares are also considered cash and cash equivalents and are reported at the funds’ current share prices. Investments consist of non-negotiable certificates of deposit whose original maturity term exceeds three months and are carried at cost.

Inventories – Inventory recorded in the governmental funds and governmental activities consist

City of Anadarko, Oklahoma
Notes to Financial Statements
December 31, 2014

of materials and supplies for the ambulance operations, street projects, and miscellaneous. This inventory is valued at average cost.

Proprietary fund and business-type activities inventories consist of materials and supplies used in electric, water and wastewater line maintenance.

Restricted Assets - Restricted assets include assets that are legally restricted as to their use. The primary restricted assets are related to customer utility deposits and promissory note trustee accounts restricted for debt service and capital improvements.

Capital Assets - Capital assets consist of land, construction in progress, buildings, improvements, utility property/improvements, vehicles and equipment, and infrastructure. Recorded assets are reported at actual or estimated historical cost. A capitalization threshold of \$1,000 is used to report capital assets. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

The depreciable capital assets are depreciated on a straight-line basis over the assets' estimated useful lives. The range of estimated useful lives by type of asset is as follows:

Asset	Life (Years)
Buildings	25 – 50
Improvements other than buildings	5 – 50
Infrastructure	5 – 100
Vehicles and equipment	3 – 20
Utility system	25 – 50

Customer Deposits - Represents the funds received from customers for their utility deposits. These deposits are refunded or credited to the customer upon termination of the utility service and payment of all charges due and connected with the service.

Long-Term Obligations – In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are

City of Anadarko, Oklahoma
Notes to Financial Statements
December 31, 2014

reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of assets, liabilities and net position – modified cash basis.

Compensated Absences – The City permits employees to accumulate earned but unused vacation, holiday and sick pay benefits and compensatory time in varying amounts according to policies and contracts. In the event of termination, an employee is paid for accumulated vacation, holiday and comp time.

Net Position and Fund Balance - In the government-wide and proprietary fund financial statements, net position is displayed in three components:

- a. *Net investment in capital assets* – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, judgments, notes, or other borrowings that are attributed to the acquisition, construction, or improvements of those assets.
- b. *Restricted net position* – Consists of net assets with constraints placed on the use either by 1) external groups such as creditors, grantors, contributors, or laws and regulations of other governments, or 2) law through constitutional provisions or enabling legislation.
- c. *Unrestricted net position* – All other net assets that do not meet the definition of “restricted” or “net investment in capital assets.”

It is the City’s policy to first use restricted net position prior to the use of unrestricted net position when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

Governmental fund equity is classified as fund balance. Fund balance is further classified as follows:

- a. *Nonspendable* – includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.
- b. *Restricted* – consists of fund balance with constraints placed on the use of resources either by (1) external groups such as creditors, grantors, contributors, or laws and regulations of other governments, or (2) law through constitutional provisions or enabling legislation.
- c. *Committed* – includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the City’s highest level of decision-making authority, (i.e. ordinance).

City of Anadarko, Oklahoma
Notes to Financial Statements
December 31, 2014

- d. *Assigned* – includes amounts that are constrained by the City’s intent to be used for specific purposes but are neither restricted nor committed. Assignments of fund balance may be made by city council action or management decision when the city council has delegated that authority.
- e. *Unassigned* – represents fund balance that has not been assigned to other funds and has not been restricted, committed, or assigned to specific purposes within the general fund.

It is the City’s policy that the order of spending and availability of the fund balance shall be to reduce funds from the listed areas in the following order: restricted, committed, assigned, and unassigned. Negative amounts shall not be reported for restricted, committed, or assigned funds.

1.E. Sales Tax Revenue

Sales Tax - The City presently levies a three and one-half cent sales tax on taxable sales within the City. The sales tax is collected by the Oklahoma Tax Commission and remitted to the City in the month following receipt by the Tax Commission. The sales tax recorded is allocated one hundred percent to the General Fund. The City has pledged a portion (one cent) of the sales tax to secure debt service payments in the Anadarko Public Works Authority. The sales tax is transferred to APWA each month. The Authority has the right to return to the City any part of the appropriated sales tax, if there is no event of default. For the year ended December 31, 2014, the City of Anadarko transferred sales tax of \$974,002 to APWA of which the APWA transferred \$612,371 back to the General Fund of the City of Anadarko to be used by the City.

1.F. Use of Estimates

In preparing the City of Anadarko’s financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates

2. Deposits and Investments Risk

At December 31, 2014, the reporting entity had the following deposits and investments:

City of Anadarko, Oklahoma
Notes to Financial Statements
December 31, 2014

Type	Credit Rating	Carrying Value
Deposits:		
Petty cash and other non-demand accounts		\$ 5,226
Demand deposits		3,490,204
Money market accounts		5,553
Nonnegotiable certificates of deposits		<u>620,798</u>
		<u>4,121,781</u>
Investments:		
Invesco Premier U.S Government Money Portfolio	AAAm	<u>979,812</u>
Total deposits and investments		<u>\$ 5,101,593</u>

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, the City’s deposits may not be returned to it. The City does not have a written deposit policy for custodial credit risk, but *Oklahoma Statutes* requires collateral for all uninsured deposits of municipal funds in financial institutions. As of December 31, 2014, the City was not exposed to custodial credit risk.

Investment Credit Risk – The City does have a written investment policy that limits its investment choices to those stated in the *Oklahoma Statutes*. *Oklahoma Statutes* allow the City to invest in: (1) full faith and credit, direct obligations of the U. S. Government, its agencies and instrumentalities, and the State of Oklahoma and certain mortgage insured federal debt; (2) certificates of deposits or savings accounts that are either insured or secured with acceptable collateral; (3) negotiable certificates of deposit, prime bankers acceptances, prime commercial paper and repurchase agreements with certain limitations; (4) county, municipal or school district tax supported debt obligations, bond or revenue anticipation notes, money judgments, or bond or revenue anticipation notes of public trusts whose beneficiary is a county, municipality, or school district; and government money market funds regulated by the SEC. Public trusts created under O.S. Title 60, are not subject to the above investment limitations and are primarily governed by any restrictions in their trust or note indenture. Marketable investment consisted of mutual funds invested in U.S. Treasury securities with a Standard & Poor’s credit rating of AAAm.

Investment Interest Rate Risk – The City does not have a formal investment policy that limits investments maturities as a means of managing its exposure to fair value losses arising from

City of Anadarko, Oklahoma
Notes to Financial Statements
December 31, 2014

increasing interest rates. All certificates of deposit have maturities no later than May 2020.

Concentration of Credit Risk – The City places no limit on the amount it may invest in any one issuer.

3. Restricted Assets

The amounts reported as restricted assets in the , the statement of assets, liabilities and net position – modified cash basis consist of cash and investments held by the trustee bank on behalf of the Anadarko Public Works Authority related to its sales tax revenue note accounts and amounts due to depositors related to utility deposits. The restricted assets as of December 31, 2014 were as follows:

<u>Type of Restricted Assets:</u>	<u>Cash</u>	<u>Investments</u>
Customer Utility Deposits	\$ 389,493	\$ 91,311-
Waste Fee		-
Utility Capital Projects	2,396,095	-
2013 ST Rev Note-Construction Fund	-	938,684
2013 ST Rev Note-Principal Account	-	33,339
2013 ST Rev Note-Interest Account	-	7,788
Total Proprietary Fund Restricted Assets	<u>\$ 2,785,588</u>	<u>\$ 1,071,122</u>

4. Capital Assets

Capital asset activity for the fiscal year ended December 31, 2014 was as follows:

	<u>Balance</u> <u>12/31/13</u>	<u>Additions</u>	<u>Disposals</u>	<u>Balance</u> <u>12/31/14</u>

Total depreciation expense for business-type activities \$ 590,287

5. Customer Deposits Subject to Refund

Utility customers are required to make a meter deposit which is refunded upon the customer's termination of services, provided there are no outstanding bills. Monies are deposited in separate accounts, and a liability has been recorded to represent the amount of deposits due to customers. As of December 31, 2014, cash and investments included \$480,802 available for refund of customer deposits, while the liability to customers was \$438,847.

Appearance bonds and other payments made to the municipal court funds are held until final disposition by the court, at which time they are refunded to the bondholder or paid over to the City general fund as fines. As of December 31, 2014, \$1,239 was being held that was subject to refund.

6. Long-Term Debt

Long-term liability activity for the year ended December 31, 2014, was as follows:

<u>Type of Debt</u>	<u>Balance 12/31/13</u>	<u>Additions</u>	<u>Reductions</u>	<u>Balance 12/31/14</u>	<u>Due Within One Year</u>

<u>Year Ending December 31</u>	<u>Principal</u>	<u>Interest</u>
2015	\$ 400,000	\$
		91,103
2016	410,000	81,725
2017	420,000	72,114
2018	430,000	62,269
2019	445,000	52,192
2020-2023	<u>1,905,000</u>	<u>101,530</u>
Total	<u>\$4,010,000</u>	<u>\$ 460,932</u>

Interest expense was charged to functions as follows in the Statement of Activities:

Business-Type Activities:	
Water / wastewater	<u>\$ 96,777</u>

7. Pledge of Future Revenues

Sales Tax Revenues Pledged - The City has pledged 1½ cents future sales tax revenues to repay \$4,395,000 of 2013 Series Sales Tax Revenue Note. Proceeds from the note provided for the advance refunding of the Authority's 2005 Clean Water SRF Promissory Note to Oklahoma Water Resources Board dated May 13, 2005, current refunding of Series 2010 lease purchase agreement with SunTrust dated July 29, 2010, and for certain water treatment and stormwater drainage system improvements. The note is payable from future sales tax revenue and is payable through 2023. The total principal and interest remaining to be paid on the note is \$4,470,932. For the current year, principal and interest payments paid and sales tax revenues were \$481,777 and \$974,002, respectively.

8. Internal Balances and Transfers

The City's policy is to eliminate interfund transfers and balances in the statement of activities and net position to avoid the grossing up of balances. Only the residual balances transferred between governmental and business-type activities are reported as internal transfers and internal balances and then offset in the total column in the government-wide statements. Interfund transfers and balances between funds are not eliminated in the fund financial statements.

Internal balances are comprised of the following:

City of Anadarko, Oklahoma

City of Anadarko, Oklahoma
Notes to Financial Statements
December 31, 2014

10. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; employee health and life; and natural disasters. The City manages these various risks of loss as follows:

- General Liability, Fleet Coverage, and Physical Property - Covered through participation in Oklahoma Municipal Assurance Group risk entity pool.
- Airport Liability - Covered through purchase of commercial insurance.
- City Lagoon Flood Insurance - Covered through purchase of commercial insurance.
- Fire Department Vehicles Liability - Covered through participation in the Risk Management division of the Department of Central Services, State of Oklahoma self-insurance pool.
- Workers' Compensation - Covered through purchase of commercial insurance - CompSource of Oklahoma.
- Employee's Group Medical - Covered through purchase of commercial insurance.

The City's risk is transferred to the risk entity pool except for claim deductible amounts. The risk pool maintains deposits for claims reserves and other purposes for the benefit of the city. Management believes the insurance coverage listed above is sufficient to preclude any significant uninsured losses to the City, and such claims have not exceeded the coverage over the past three years.

11. Contingencies

Federal and State Award Programs - The City of Anadarko participates in various federal and state grant/loan programs from year to year. Amounts received or receivable from grantor agencies are often subject to audit and adjustment by the grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable fund. The amount, if any, of expenditures which may be disallowed by the grantor agency cannot be determined at this time, although the City expects such amounts, if any, to be immaterial.

Litigation - The City is a party to various legal proceedings that normally occur in the course of governmental operations. The financial statements do not include accrual or provision for loss contingencies that may result from these proceedings. While the outcome of the above noted proceedings cannot be predicted, due to the insurance coverage maintained by the City and the State statute relating to judgments, the City feels that any settlement or judgment not covered by insurance would not have a material adverse effect on the financial condition of the City.

Commitments-Construction – At December 31, 2014, the City had pending construction project contracts in progress. The commitments related to the remaining contract balances are summarized as follows:

City of Anadarko, Oklahoma
Notes to Financial Statements
December 31, 2014

<u>Project</u>	<u>Contract Amount</u>	<u>Remaining Balance</u>	<u>Fund</u>
Storm Sewer Project – Phase 1A	\$ 254,754	\$ 48,021	APWA
Storm Sewer Project – Phase 1B	367,592	347,785	APWA

12. Pension Plans

The City of Anadarko participates in three pension or retirement plans:

1. Oklahoma Firefighter’s Pension and Retirement System (OFPRS) – a statewide cost-sharing plan
2. Oklahoma Police Pension and Retirement System (OPPRS) – a statewide cost-sharing plan
3. The Anadarko Retirement Plan – a defined contribution plan

Oklahoma Firefighters Pension & Retirement Plan

Plan Description – The City of Anadarko, as the employer, participates in the Firefighter’s Pension and Retirement Plan - statewide cost-sharing multi-employer defined benefit plan administered by the Oklahoma Firefighter’s Pension and Retirement System (OFPRS). Title 11 of the Oklahoma State Statutes grants the authority to establish and amend the benefit terms to the OFPRS. OFPRS issues a publicly available financial report can be obtained at www.ok.gov/fprs.

Benefits provided – OFPRS provides retirement, disability and death benefits to members of the plan.

Benefits for members hired prior to November 1, 2013 are determined as 2.5 percent of the employee’s final average compensation times the employee’s years of service and have reached the age of 50 or have completed 20 years of service, whichever is later. For volunteer firefighters, the monthly pension benefit for normal retirement is \$150.60 per month. Benefits vest with 10 years or more service.

Benefits for members hired after to November 1, 2013 are determined as 2.5 percent of the employee’s final average compensation times the employee’s years of service and have reached the age of 50 or have completed 22 years of service, whichever is later. For volunteer firefighters, the monthly pension benefit for normal retirement is \$165.66 per month. Benefits vest with 11 years or more service.

City of Anadarko, Oklahoma
Notes to Financial Statements
December 31, 2014

All firefighters are eligible for immediate disability benefits. For paid firefighters, the disability in-the-line-of-duty benefit for firefighters with less than 20 years of services is equal to 50% of final average monthly compensation, based on the most recent 30 months of service. For firefighters with over 20 years of service, a disability in-the-line-of-duty is calculated based on 2.5% of average monthly compensation, based on the most recent 30 months, per years of service, with a maximum of 30 years of service. For disabilities not-in-the-line-of-duty, the benefit is limited to only those with less than 20 years of service and is 50% of final average monthly compensation based on the most recent 60-month salary as opposed to 30 months. For volunteer firefighters, the not-in-the-line-of-duty disability is also limited to only those with less than 20 years of service and is \$7.53 per year of service. For volunteer firefighters, the not-in-the-line-of-duty pension is \$150.60 with less than 20 years of service or \$7.53 per year of service with a maximum of 30 years.

A \$5,000 lump sum death benefit is payable to the qualified spouse or designated recipient upon the participant's death. The \$5,000 death benefit does not apply to members electing the vested benefit.

Contributions – The contribution requirements of the plan are at an established rate determined by Oklahoma Statute and are not based on actuarial calculations. Employees are required to contribute 9% of their annual pay. Participating cities are required to contribute 14% of the employees' annual pay. Contributions to the pension plan from the City were \$132,346 (fiscal year contributions). The State of Oklahoma also made on-behalf contributions to OPFRS in the amount of \$266,000. .

Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions – At December 31, 2014, the City's proportionate share of the net pension liability was \$3,438,666. The net pension liability was measured as of July 1, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2014. The City's proportion of the net pension liability was based on the City's contributions received by the pension plan relative to the total contributions received by pension plan for all participating employers as of June 30, 2014. Based upon this information the City's proportion was .3344%.

Actuarial Assumptions – The total pension liability was determined by an actuarial valuation as of July 1, 2014 using the following actuarial assumptions, applied to all prior periods included in the measurement:

Inflation:	3%
Salary increases:	3.5% to 9.0% average, including inflation
Investment rate of return:	7.5% net of pension plan investment expense

City of Anadarko, Oklahoma
Notes to Financial Statements
December 31, 2014

Mortality rates were based on the RP2000 combined healthy with blue collar adjustment as appropriate, with adjustments for generational mortality improvement using scale AA for healthy lives and no mortality improvement for disabled lives.

The actuarial assumptions used in the July 1, 2014, valuation were based on the results of an actuarial experience study for the period July 1, 2007 to June 30, 2012.

The long-term expected rate of return on pension plan investments was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2014, are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Fixed income	20%	5.48%
Domestic equity	37%	9.61%
International equity	20%	9.24%
Real Estate	10%	7.76%
Other assets	13%	6.88%

Discount Rate – The discount rate used measure the total pension liability was 7.5%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employees will be made at contractually required rates, determined by State Statues. Projected cash flows also assume the State of Oklahoma will continue contributing 36% of the insurance premium as established by statute. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate – The following presents the net pension liability of the employers calculated using the discount rate of 7.5%, as well as what the Plan's net pension liability would be if it were calculated using a discount rate that is 1-percent point lower (6.5%) or 1-percentage-point higher (8.5%) that the current rate:

City of Anadarko, Oklahoma
Notes to Financial Statements
December 31, 2014

	1% Decrease <u>(6.5%)</u>	Current Discount <u>Rate (7.5%)</u>	1% Increase <u>(8.5%)</u>
Employers' net pension liability (asset)	\$ 4,490,340	\$ 3,438,666	\$ 2,557,190

Pension Plan Fiduciary Net Position – Detailed information about the pension plan’s fiduciary net position is available in the separately issued financial report of the OFPRS; which can be located at www.ok.gov/fprs.

Oklahoma Policemen Pension and Retirement Plan

Plan description – The City of Anadarko, as the employer, participates in the Oklahoma Police Pension and Retirement Plan – a cost-sharing multi-employer defined benefit plan administered by the Oklahoma Police Pension and Retirement System (OPPRS). Title 11 of the Oklahoma State Statutes, through the Oklahoma Legislature, grants the authority to establish and amend the benefit terms to the OPPRS. OPPRS issues a publicly available financial report may be obtained at www.ok.gov/OPPRS.

Benefits provided – OPPRS provides retirement, disability and death benefits to members of the plan. The normal retirement date under the Plan is the date upon which the participant completes 20 years of credited service, regardless of age. Participants become vested upon completing 10 years of credited service as a contributing participant of the Plan. No vesting occurs prior to completing 10 years of credited service.

Contributions are refundable, without interest, upon termination prior to normal retirement. Participants who have completed 10 years of credited service, may elect a vested benefit in lieu of having their accumulated contributions refunded. If the vested benefit is elected, the participant is entitled to a monthly retirement benefit commencing on the date the participant reaches 50 years of age or the date the participant would have had 20 years of credited service had employment continued uninterrupted, whichever is later.

Monthly retirement benefits are calculated at 2.5% of the final average salary (defined as the average paid base salary of the officer over the highest 30 consecutive months of the last 60 months of credited service) multiplied by the years of credited service, with a maximum of 30 years of credited service considered.

Monthly benefits for participants due to permanent disability incurred in the line of duty are 2.5% of the participants’ final average salary multiplied by 20 years. This disability benefit is

City of Anadarko, Oklahoma
Notes to Financial Statements
December 31, 2014

reduced by stated percentages for partial disability based on the percentage of impairment. After 10 years of credited service, participants, who retire due to disability incurred from any cause are eligible for a monthly benefit based on 2.5% of their final average salary multiplied by the years of service. This disability benefit is also reduced by stated percentages for partial disability based on the percentage of impairment. Effective July 1, 1998, once a disability benefit is granted to a participant, that participant is no longer allowed to apply of an increase in the dollar amount of the benefit at a subsequent date.

Survivor's benefits are payable in full to the participant's beneficiary upon the death of a retired participant. The beneficiary of any active participant killed in the line of duty is entitled to a pension benefit.

Contributions – The contribution requirements of the plan are at an established rate determined by Oklahoma Statute and are not based on actuarial calculations. Employees are required to contribute 8% of their annual pay. Participating cities are required to contribute 13% of the employees' annual pay. Contributions to the pension plan from the City were \$110,414. The State of Oklahoma also made on-behalf contributions to OPPRS in an amount of \$85,050.

Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions – At December 31, 2014, the City's proportionate share of the net pension asset of \$89,378. The net pension asset was measure as of June 30, 2014, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of July 1, 2014. The City's proportion of the net pension asset was based on the City's contributions received by the pension plan relative to the total contributions received by pension plan for all participating employers as of June 30, 2014. Based upon this information the City's proportion was .2655%.

Actuarial Assumptions – The total pension liability was determined by an actuarial valuation as of July 1, 2014 using the following actuarial assumptions, applied to all prior periods included in the measurement:

Inflation:	3%
Salary increases:	4.5% to 17.0% average, including inflation
Investment rate of return:	7.5% net of pension plan investment expense
Mortality rates:	Active employees (pre-retirement) RP-2000 Blue Collar Healthy Combined table with age set back 4 years with fully generational improvement using Scale AA.
Active employees (post-retirement) and nondisabled pensioners:	RP-2000 Blue Collar Healthy Combined table with

City of Anadarko, Oklahoma
Notes to Financial Statements
December 31, 2014

Disabled pensioners: generational improvement using Scale AA.
 RP-2000 Blue Collar Healthy Combined table with
 age set forward 4 years with fully
 generationalimprovement using Scale AA.

The actuarial assumptions used in the July 1, 2014, valuation were based on the results of an actuarial experience study for the period July 1, 2007 to June 30, 2012.

The long-term expected rate of return on pension plan investments was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan’s target asset allocation as of June 30, 2014, are summarized in the following table:

<u>Asset Class</u>	<u>Long-Term Expected Real Rate of Return</u>
Fixed income	2.83%
Domestic equity	6.47%
International equity	6.98%
Real Estate	5.50%
Private Equity	5.96%
Other assets	3.08%

The current allocation policy is that approximately 60% of assets in equity instruments, including public equity, long-short hedge, venture capital, and private equity strategies; approximately 25% of assets in fixed income to include investment grade bonds, high yield and non-dollar denominated bonds, convertible bonds, and low volatility hedge fund strategies; and 15% of assets in real assets to include real estate, commodities, and other strategies.

Discount Rate – The discount rate used measure the total pension liability was 7.5%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employees will be made at contractually required rates, determined by State Statues. Projected cash flows also assume the State of Oklahoma will continue contributing 14% of the insurance premium as established by statute. Based on these assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments

City of Anadarko, Oklahoma
Notes to Financial Statements
December 31, 2014

was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate – The following presents the net pension liability of the employers calculated using the discount rate of 7.5%, as well as what the Plan’s net pension liability would be if it were calculated using a discount rate that is 1-percent point lower (6.5%) or 1-percentage-point higher (8.5%) than the current rate:

	1% Decrease		Current Discount Rate	1% Increase
	<u>(6.5%)</u>		<u>(7.5%)</u>	<u>(8.5%)</u>
Employers’ net pension liability (asset)	\$ 531,861	\$	(89,378)	\$ (612,968)

Pension Plan Fiduciary Net Position – Detailed information about the pension plan’s fiduciary net position is available in the separately issued financial report of the OPPRS; which can be located at www.ok.gov/OPPRS.

The Anadarko Retirement Plan

Plan Description – The City of Anadarko established the City of Anadarko Plan and Trust (the Plan), a defined contribution plan, effective November 1, 1996, which covers all employees not covered by the police and fire pension plans. Prior to June 16, 2007, operations and plan assets were supervised by Nationwide Best of America Group Pension Series and the Plan was administered by Demars Pension Consulting Services, Inc. Employer contributions for each employee begin vesting after one year of service and are fully vested after five years. If an employee terminates before becoming fully vested, the employer contributions on behalf of the employee that are forfeited may be used to reduce the City’s current period contribution requirements. The authority to establish and amend the provisions of the plan rests with the city council.

Beginning June 18, 2007, operations and plan assets are supervised by Standard Retirement Services, Inc. and the Plan is administered by Standard Retirement Services, Inc. Employer contributions for each employee begin vesting after six months of service and are fully vested after five years. If an employee terminates before becoming fully vested, the employee contributions that are forfeited may be used to reduce the City’s current period contribution requirements. The authority to establish and amend the provisions of the plan rests with the city council.

Funding Policy – Beginning June 18, 2007, the Plan participants must contribute 5% of eligible compensation and the City contributes 13% of annual covered payroll.

For the year ended June 30, 2014, employee contributions were \$68,021 and employer contributions were \$176,856.

City of Anadarko, Oklahoma
 Supplemental Schedule
 Notes to Budgetary Comparison Schedule
 For the Year Ended December 31, 2014

1. Budgetary Information

Budgetary Basis of Accounting – Under the budgetary basis of accounting, revenues are recognized when they are received rather than earned. Purchases of materials, outside services and capital outlays are recognized as expenditures when the commitment to purchase is made (encumbered). As a result the beginning budgetary basis fund balance is adjusted to prior year GAAP ending fund balance each year.

Prior to the end of the fiscal year, all department heads of the City submit requests for appropriations to the City Manager so that a budget may be prepared. The City Council members meet with each of the department heads to review their needs estimates and requests. The City Council holds a public hearing at least 15 days prior to the beginning of the new fiscal year and a final budget must be prepared and adopted no later than 7 days prior to the beginning of the new fiscal year.

The appropriated budget is prepared by fund, department and categories (personal services, materials and supplies, other services and charges, capital outlay, debt service, and transfers). The government’s department heads may make transfers of appropriations within a department. Transfers of appropriations between departments and funds that do not increase the overall budget may be approved by the City Manager. The City Council must approve any budget supplement which increases the total appropriations for the City. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the department level.

Budgetary Noncompliance – For the year ended December 31, 2014, the General Fund expenditures exceeded appropriations in the following departments: General government, judicial/court, police, and cemetery.

Budget to Actual Reconciliation

	General Fund
Resources (Inflows):	
Actual amounts (budget basis) available for appropriation from the budgetary comparison schedule	\$ 5,417,759
Fund included based on GASB 54 criteria for financial reporting	1,206

Notes to Schedule of Federal and State Awards

Note A - Significant Accounting Policies:

The accompanying schedule of federal and state awards is prepared on the basis of cash basis.

The Oklahoma Aeronautics Commission grant was a non-cash award for construction of a runway.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the City Council
City of Anadarko, Oklahoma

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Anadarko, Oklahoma, as of and for the year ended December 31, 2014, and the related notes to the financial statements, which collectively comprise City of Anadarko, Oklahoma's basic financial statements and have issued our report thereon dated April 20, 2016. We have issued qualified opinions on the governmental activities, the business-type activities, major funds: General fund and APWA due to not observing physical inventories. Our report includes an emphasis-of-matter paragraph related to the modified cash basis of accounting.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered City of Anadarko, Oklahoma's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City of Anadarko, Oklahoma's internal control. Accordingly, we do not express an opinion on the effectiveness of City of Anadarko, Oklahoma's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and responses, we identified certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control

that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompanying schedule of findings and responses to be material weaknesses. 2014-1 through 2014-7.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether City of Anadarko, Oklahoma's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and responses as items 2014-2 and 2014-7.

City of Anadarko, Oklahoma's Response to Findings

City of Anadarko, Oklahoma's response to the findings identified in our audit is described in the accompanying schedule of findings and responses. City of Anadarko, Oklahoma's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Rahhal Henderson Johnson, PLLC

Ardmore, Oklahoma
April 20, 2016

CITY OF ANADARKO, OKLAHOMA
SCHEDULE OF FINDINGS AND RESPONSES
DECEMBER 31, 2014

2014-1 Utility Adjustments

Condition – Utility adjustments are not supported by documentation and approved by management.

Criteria – Adequate internal controls related to billing includes authorization of adjustments by someone not involved in other aspects of the billing process. All adjustments should be supported by documentation.

Context - 25 of 25 utility adjustments tested did not have proper approval and 3 of the 25 was not supported by documentation.

Effect - Potential material misstatements in the financial statements or material misappropriations due to error or fraud could occur and not be detected in a timely manner.

Cause – Inconsistent monitoring of internal controls within purchasing cycle.

Recommendation – We recommend that procedures be modified to determine that all utility adjustments be approved by management and have supporting documentation attached.

Management Response – The procedures in place have always been to have all adjustments supported by documentation and approved by someone other than the preparer. Appropriate controls will continue to be stressed.

2014-2 Purchasing

Condition – Purchasing procedures were not followed consistently.

Criteria – Oklahoma Statutes Title 62, Section 310.1 – 310.9: Purchase orders shall have written approval of a purchasing officer and an encumbering clerk prior to release. City Code Title I, Chapter 9, D-2 requires prior approval of council for contract or purchases exceeding specified threshold.

Context – 8 of 23 purchase orders were dated after the invoice. 1 out of 23 did not have proper approval from council before purchasing. 1 out 23 did not have proper documentation of receipt of goods/services.

Effect – Noncompliance with Oklahoma Statutes and City policy for purchasing procedures.

Cause – Inconsistent monitoring of Oklahoma Statutes and City purchasing procedure compliance.

Recommendation – We recommend that purchasing procedure compliance be stressed with all involved in the purchasing process.

CITY OF ANADARKO, OKLAHOMA
SCHEDULE OF FINDINGS AND RESPONSES
DECEMBER 31, 2014

Management Response – A continued focus on compliance will be stressed with all involved in purchasing.

2014-3 Court Revenues-Segregation of Duties

Condition – Lack of segregation of duties related to the daily cash collections through court. Clerk maintains the records of court, receipts the cash payments and also has ability to make adjustments in the court records. Also has access to general ledger to record court activity at month end.

Criteria – Accounting policies and procedures should specify the appropriate segregation of duties over cash receipts. There should be adequate segregation of duties among those who: open mail and collect cash, prepare deposits, deposit cash receipts, post cash receipts to customer accounts, make adjustments to customer accounts.

Context – City did not have proper internal controls implemented regarding cash collections related to court.

Effect – Risk of misappropriation of assets

Cause – Lack of proper internal controls to separate incompatible duties and controls over daily court cash receipts.

Recommendations – We recommend that controls be implemented to ensure that the duties of cash collection and maintenance of the court record database be separated. And court clerk should not have access to the general ledger.

Management Response – Procedures are being evaluated to determine proper segregation of duties related to court revenues.

2014-4 Accounts Payable Segregation of Duties

Condition – One person has access to edit the vendor master file, prepares purchase orders, prepares checks and has access to the stamp of one of the approved signature of approved check signer.

Criteria – Adequately designed internal control procedures for accounts payable should provide for adequate segregation of duties among those who create vendors in system, prepare purchase orders and prepare checks and access to signature stamps.

Context – During fieldwork it was determined there was lack of segregation of duties related to the accounts payables.

CITY OF ANADARKO, OKLAHOMA
SCHEDULE OF FINDINGS AND RESPONSES
DECEMBER 31, 2014

Effect – Risk of misappropriation of assets

Cause – Lack of segregation of duties within the accounts payable department.

Recommendations – We recommend that procedures be implemented to who is able to edit the master vendor list be a different individual than the one that prepares the purchase orders. Checks should be reviewed and signed by someone besides the one person preparing the checks.

Management Response – Procedures are being evaluated to determine proper segregation of duties related to accounts payable.

2014-5 Capital Assets

Condition – Capital assets were not properly reported at year end.

Criteria – The concept of control activities within the COSO Integrated Framework indicates that control policies and procedures ensure management’s directives to mitigate risk.

Context – During fieldwork it was determined that all capital assets were being captured due to process at year end to capture assets is not evaluated all expenditures that could be capital in nature.

Effect – Risk of material misstatement on financial statements.

Cause – Year end procedures were not effective in determining possible capital assets and ensuring items were recorded.

Recommendations – We recommend that procedures be implemented to make sure when initial purchase of goods/services are related to capital assets they are coded appropriately and at year end that expenditures to ensure all capital asset in nature have been properly captured into capital asset system.

Management Response – Capital assets will be coded and inventoried at the time of purchase and received by the City. A capital asset inventory list will be maintained and reviewed quarterly.

2014-6 Electric Utility Rates

Condition – Incorrect electrical rates were used for January thru September 2014 for commercial customers and January thru October 2014 for residential customers.

Criteria – The concept of control activities within the COSO Integrated Framework indicates that control policies and procedures ensure management’s directives to mitigate risk.

CITY OF ANADARKO, OKLAHOMA
SCHEDULE OF FINDINGS AND RESPONSES
DECEMBER 31, 2014

Context – During fieldwork it was determined incorrect rates were used, and no controls were in place to review the rates in the system at the effective dates of rate changes, to ensure that they are correct rates in accordance with ordinance.

Effect – Risk of material misstatement on financial statements.

Cause – Change of rates within the Utility System were not being evaluated by Management to ensure rates were in agreement with current ordinances.

Recommendations – We recommend that control procedures be implemented to ensure correct rates are entered into system at dates of effective changes in rates per ordinance. Rate changes audit report from system should be printed and verified by someone other than person making changes, and documentation kept that review process has been completed and rates were correct.

Management Response – Policy will be adopted to ensure that rates established by the Anadarko Public Works Authority and City Council are properly implemented. All rates will be updated in the billing system ten business days prior to the effective date and a test of the billing system will be run with the assistance of the Incode System to assure accuracy.

2014-7 Overage of Departmental Budget

Condition – General fund expenditures exceeded appropriations in various departments.

Criteria – Oklahoma Statutes Title 11 Section 17-215 prohibits expenditures in excess of available appropriations within a fund.

Cause – The status of the budget was not adequately monitored. Expenditures were allowed without appropriate supplemental budget amendments being approved by council.

Effect – The failure to adequately monitor the budget could result in expenditure in excess of available funds.

Recommendations – We recommend procedures be implemented to monitor the status of the budget by department to determine that funds are available before expenditures are authorized. Budget transfers should be made as authorized by the governing body between departments when funds are available.

Management Response – All departments are given a lined item budget for the fiscal year. Each department manager will be given access to the system which will provide them the balance of each lined item before a purchase order is requested. Only purchase orders that have money in their line item account will be approved. All others will be rejected until a legal transfer of funds is made.
