This page intentionally left blank

December 23, 2020

To the Commissioners of the Land Office and the Citizens of the State of Oklahoma,

The Commissioners of the Land Office, State of Oklahoma (Agency) fiscal year Comprehensive Annual Financial Report (CAFR) provides a comprehensive overview of the Agency's financial position and the results of operations for the past fiscal year. It complies with Oklahoma Statutes requiring an annual independent audit and submission of the report within six months of the close of the fiscal year to the State Auditor and Inspector.

The CAFR was prepared using accounting principles generally accepted in the United States (U.S. GAAP). It is fairly stated in all material respects. Responsibility for the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with the Agency. Agency management's narrative on the financial activities of the Agency for the fiscal year ended June 30, 2020, is expanded in the Management's Discussion and Analysis (MD&A) section of this report, immediately following the Independent Auditor's Report. This letter of transmittal is written to convey the CAFR to its intended users and provide information about the Agency that is useful in assessing the Agency's general economic condition and to recognize contributors to the CAFR. As such, it should be read from that perspective and in conjunction with all other sections of the CAFR.

Management is responsible for establishing and maintaining an internal control structure to ensure that the assets of the Agency are protected from loss, theft or misuse and that adequate accounting data is compiled for preparation of financial statements in conformity with GAAP. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. We believe the information, as presented, is accurate in all material aspects and that all disclosures necessary to enable the reader to gain an adequate understanding of the Agency's financial activities have been included.

The Agency engaged BKD, LLP to express opinions on the financial statements based on their audit. The goal of the independent audit is to provide reasonable assurance that the financial statements are free of material misstatement. The audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management and evaluating the overall financial statement presentation. The auditor's opinion encompassed the basic financial statements, as well as combining and individual fund statements and schedules for the fiscal year ended June 30, 2020. The independent auditor's report is presented as the first component of the financial section of this report.

Agency Profile

The mission of the Commissioners of the Land office is to manage assets to support education. The Agency's role was defined by the U.S. Congress in the Organic Act of 1890 and the Oklahoma Enabling Act. This legislation reserved Sections 16 and 36 of each township in Oklahoma for the use and benefit of the common schools. The federal government had no title to lands in the eastern half of the state, known as Indian Territory. Therefore, the federal government compensated the Trust Fund with a grant of \$5 Million to be held and invested. State higher education institutions were also provided for in the Enabling Act, as Section 13 of each township was set aside for their support. These lands were divided among the University of Oklahoma and the University Preparatory Schools (1/3), the Normal Schools (1/3), and the Agricultural and Mechanical University and the Langston Agricultural and Normal University (1/3). Additionally, the legislation set aside Section 33 in each township to support public buildings and corrections. Unlike other Land Office monies, the money earned from this land is not held in trust. Instead, it is disbursed on an annual basis. The federal government deeded a total of more than three million acres in the initial grant to ensure that public education would always have a financial base. Early state leaders shared that view, stating in Article Two, Section 11 of the Oklahoma Constitution that the "...principal shall be deemed a trust fund held by the state, and shall ever remain inviolate. It may be increased, but shall never be diminished."

Of the three million acres of land granted at statehood, the Commissioners of the Land Office still own and manage over 700,000 surface acres and 1.2 million mineral acres. Money from the land leases are distributed monthly to common schools, colleges and universities. In 2010, the Land Office began distributing lease bonus money from the leasing of land for oil and gas exploration.

As Oklahoma and its cities grew, so did the possibilities of commercial development on school land. Today there are pharmacies, restaurants, shopping centers, distribution facilities, etc. on school land. Revenues from those developments are distributed on a monthly basis. Revenue from the sale of land or royalties from oil or gas are placed in the Permanent Trust.

The Commissioners of the Land Office are comprised by statute by the Governor, Lieutenant Governor, State Auditor and Inspector, Superintendent of Public Instruction, and State Secretary of Agriculture. The Secretary of the Land Office administers the Agency. The Secretary is appointed by the Governor with the advice and consent of the Commissioners.

The distributable income from the assets under the Agency's management are distributed to the common schools of Oklahoma on a pro rata basis and to the state's higher educational institutions in the manner prescribed by statute. The Agency uses average daily attendance (ADA) numbers provided annually by the Oklahoma Department of Education to base its pro rata disbursements to common schools.

The Agency is funded by fees earned on the management of its assets and not from tax revenues. The Agency is allowed by Oklahoma Statute to retain 6% of the revenues from oil & gas royalties, surface leases and investment earnings along with other minor revenue sources to fund its operations.

The Agency annually budgets operating expenditures from its General Fund based upon anticipated needs for the next fiscal year. Although the Legislature does not fund the budget, it must approve and appropriate the budget.

Economic Conditions

The Agency's financial performance is intrinsically linked to both the local and national economies. The agency's investment portfolio is comprised largely of securities and fixed income investments traded on the open market; consequently, economic circumstances at the national level have direct impact on the Agency.

During the second quarter of 2020, the United States economy experienced a significant contraction related in large part to the Covid-19 Pandemic response. This is reflected in the tables below showing gross domestic product and personal income per capita for both the United States and Oklahoma.

Gross Domestic Product

(in millions of dollars)

	2016	2017	2018	2019	2020 ⁽²⁾
Federal ⁽¹⁾	18,715,040	19,519,424	20,580,223	21,433,200	19,520,100
Oklahoma ⁽¹⁾	178,913	188,361	202,554	202,036	173,061

⁽¹⁾ Source: U.S. Bureau of Economic Analysis

⁽²⁾ 2nd quarter of 2020

Personal Income (per capita)

While personal income per capita for Oklahoma in the second quarter of 2020 appears to have increased approximately 10% over 2019, it should be noted that most components of personal income – wages and salaries, nonfarm proprietors' income and farm proprietors' income – declined. The overall increase was driven by a 70% increase in government social benefits, particularly unemployment benefits, as part of the Federal and State Covid-19 Pandemic response.

	2016	2017	2018	2019	2020 ⁽²⁾
Federal ⁽¹⁾	49,867	51,878	54,440	56,541	55,475
Oklahoma ⁽¹⁾	41,881	43,622	46,228	47,341	52,469

⁽¹⁾ Source: U.S. Bureau of Economic Analysis

⁽²⁾ 2nd quarter of 2020

The market decline near the Agency's fiscal year end contributed in large part to the unrealized losses reflected on the fiscal year financial statements. Market indicators subsequent to June 30 reflect a rebound in the financial markets which management anticipates will continue into fiscal year 2021.

Market Indexes (Down Jones Industrial Average)

Oklahoma is one of the top energy producing states in the nation. Historically, the local economy of Oklahoma has been tied to the strength of the energy sector – particularly oil and gas. Additionally, one of the Agency's significant revenue streams is royalties from oil and gas production. Prices of oil and gas had been depressed for much of the fiscal year and the second quarter economic contraction further weakened prices. Subsequent to the end of the fiscal year, some strengthening of the energy market has been noted. Additionally management is exploring methods of managing and marketing the Agency's oil and gas holdings to increase available revenues to support the Agency's mission.

Oklahoma Oil and Gas Production

	2016	2017	2018	2019	2020
Field Production of Crude Oil (Thousand Barrels) ⁽¹⁾	155,229	165,955	199,557	211,809	104,309 ⁽²⁾

⁽²⁾ Data from January through July 2020. January through July 2019 productions was 122,860 (thousands of barrels)

⁽³⁾ Data from January through July 2020. January through July 2019 productions was 1,829,292 (million cubic feet)

Oklahoma Oil and Gas Prices

Financial Policies

As an agency of the State of Oklahoma, the Agency is subject to most of the basic financial policies of the State with respect to deposit of funds, reconciliations and purchasing. However, to help assure that the Agency will be able to distribute maximum funds to benefit Oklahoma educational institutions, management has implemented certain specific policies to achieve that goal.

Under the direction of the Agency's Investment Committee, investment policies are reviewed and updated annually. Key provisions of the investment policy are:

- Active management of the portfolio with asset managers vetted by the investment committee
- Asset allocation targets to diversify the portfolio between growth and distributable income
- Specific performance goals to measure manager and portfolio performance

State law established the Multiyear Education Distribution Stabilization Revolving Fund to allow for distribution of bonus and delay rental income to common schools and state higher educational institutions. The purpose of this fund is to avoid drastic year to year swings in distributions. The distributions from the fund are done at the instigation of the Secretary of the Land Office with approval of the Commission with a goal to distribute on a five-year rolling average.

Acknowledgements

We would like to formally thank our audit firm, BKD, LLP for their assistance.

Finally, to the Commissioners, we would like to thank them for their guidance and support that allows the Agency to serve the citizens of Oklahoma and play a role in furthering the educational goals of the State of Oklahoma.

Respectfully submitted,

A handwritten signature in blue ink, appearing to read 'EC', with a long horizontal flourish extending to the right.

Independent Auditor's Report

Commissioners of the Land Office
State of Oklahoma

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of the Commissioners of the Land Office, State of Oklahoma (the Agency), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Agency's basic financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Agency as of June 30, 2020, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information of the general fund, and pension information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Agency's basic financial statements. The other supplementary information, consisting of the combining balance sheet – general fund and the schedules of distributions, and the introductory and statistical sections, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining balance sheet – general fund and the schedules of distributions are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining balance sheet – general fund and schedules of distributions are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we also have issued our report dated December 23, 2020, on our consideration of the Agency's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Agency's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Agency's internal control over financial reporting and compliance.

**Management's Discussion and Analysis
For Fiscal Year Ended June 30, 2020**

Our discussion and analysis of the Commissioners of the Land Office (the Agency), State of Oklahoma's financial performance provides an overview of the Agency's financial activity for the fiscal year ended June 30, 2020. It should be read in conjunction with the financial statements, which begin, on page 16.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Agency's basic financial statements. The Agency's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Financial Highlights

- Net position is down approximately \$129.5 million. The decrease was primarily due to the net decrease in investment earnings and mineral revenues. Of the \$30.5 million in mineral revenue, royalties of \$28.5 million were added to the permanent fund and \$2.0 million in lease bonuses and delay rentals were apportioned.
- Interest from investments was down \$0.9 million, from \$61.2 million in fiscal year 2019 to \$60.3 million in fiscal year 2020.
- Actual cash distributions to beneficiaries were down approximately \$4.9 million, from \$136.2 million in fiscal year 2019 to \$127.0 million in fiscal year 2020, primarily due to a \$1.2 million decrease in higher education distributions and \$3.7 million decrease in public school distributions. These decreases were primarily the result of a decrease in distributable revenues, particularly lease bonus revenues. Of the \$127.0 million in cash distributions during fiscal year 2020, \$30.7 million were to universities and colleges, \$93.3 million to public schools, and \$3.0 million to public buildings.

Government-wide financial statements

The government-wide financial statements are designed to provide readers with a broad overview of the Agency's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the Agency's assets, deferred outflows, liabilities and deferred inflows and the difference between them (net position). Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Agency is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The above financial statements report governmental activities. Most services normally associated with state government fall into this category, including support for both common public schools and higher education (apportionments).

**Commissioners of the Land Office
State of Oklahoma
(An Agency of the State of Oklahoma)**

**Management's Discussion and Analysis
For Fiscal Year Ended June 30, 2020**

Government-wide financial statements (continued)

The government-wide financial statements can be found on pages 20 and 21 of this report.

Fund financial statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Agency, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements; however, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources as well as on balances of spendable resources available at the end of the fiscal year. Such information is useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Agency maintains two individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the general fund and the permanent fund, both of which are considered to be major funds.

The Agency adopts an annual appropriated budget for its general fund. A budgetary comparison schedule has been provided as required supplementary information for the general fund to demonstrate compliance with this budget.

The governmental fund financial statements can be found on pages 22 and 23 of this report.

Notes to the financial statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages through 49 of this report.

**Commissioners of the Land Office
State of Oklahoma
(An Agency of the State of Oklahoma)**

**Management's Discussion and Analysis
For Fiscal Year Ended June 30, 2020**

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Agency, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$2.43 billion at the close of the most recent fiscal year.

The largest portion of the Agency's net position (99 percent) is subject to external restrictions on how they may be used. The Agency uses these assets to provide apportionments to beneficiaries

Net Position

	2020	2019
Assets:		
Current assets	\$ 123,927	\$ 152,355
Investments	2,327,427	2,428,650
Other Assets	279	190
Capital Assets	6,960	6,927
Total Assets	<u>\$ 2,458,593</u>	<u>\$ 2,588,122</u>
Deferred outflows of resources	<u>\$ 568</u>	<u>\$ 733</u>
Liabilities:		
Current Liabilities	\$ 29,115	\$ 29,145
Noncurrent liabilities	694	912
Total Liabilities	<u>\$ 29,809</u>	<u>\$ 30,057</u>
Deferred inflows of resources	<u>\$ 364</u>	<u>\$ 352</u>
Net Position:		
Investment in capital assets	\$ 6,960	\$ 6,927
Restricted	2,399,763	2,529,360
Unrestricted	22,265	22,159
Total net position	<u>\$ 2,428,988</u>	<u>\$ 2,558,446</u>

**Commissioners of the Land Office
State of Oklahoma
(An Agency of the State of Oklahoma)**

**Management's Discussion and Analysis
For Fiscal Year Ended June 30, 2020**

Changes in Net Position

There was a decrease of \$129.5 million in net position. The key elements of the increase are as follows:

Changes in Net Position (in thousands)

	2020	2019
Expenses:		
Apportionment to beneficiaries	\$ 122,890	\$ 128,989
Custodial fees	6,374	6,731
Other expenses	12,102	10,108
Total expenses	141,366	145,828
Revenues:		
Program revenue:		
Investment earnings (loss)	(47,418)	157,248
Mineral revenue	30,453	61,448
Rents	22,170	20,696
Fees	404	253
Total program revenues	5,609	239,645
General revenues		
Gain on sale of grant land	2,251	680
Miscellaneous	2,402	4,363
Other interest	1,646	2,244
Total general revenues	6,299	(7,287)
Change in net position	(129,458)	101,104
Net position, beginning of year	2,558,446	2,457,342
Net position, end of year	\$ 2,428,988	\$ 2,558,446

Apportionments decreased from \$129.0 million during fiscal year 2019 to \$122.9 million during fiscal year 2020. The decrease was primarily due to declining lease bonus revenues to distribute. Actual cash distributions to beneficiaries declined \$5.3 million from \$141.5 million in fiscal year 2018 to \$136.2 million in fiscal year 2019.

Investment earnings decreased from \$157.2 million in fiscal year 2019 to \$(47.4) million in fiscal year 2020. The primary driver was a decrease in fair market values of equity investments due to weak market performance in the fourth quarter of 2020 due primarily to the Covid-19 Pandemic.

Mineral income decreased from \$61.4 million in fiscal year 2019 to \$30.5 million in fiscal year 2020. The decrease was due to a decline of lease bonus payments during the fiscal year as a result of a sluggish mineral leasing activity.

Financial Analysis of the Government's Funds

As noted earlier, the Agency uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Commissioners of the Land Office
State of Oklahoma
(An Agency of the State of Oklahoma)**

**Management's Discussion and Analysis
For Fiscal Year Ended June 30, 2020**

Financial Analysis of the Government's Funds (continued)

The focus of the Agency's governmental funds is to provide information on near-term inflows, outflows and balances of resources available to spend. Such information is useful in assessing the Agency's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the Agency's governmental funds reported a combined ending fund balance of \$2.42 billion, a decrease of \$129 million in comparison with the prior year. Approximately \$2.40 billion is restricted and nonexpendable to indicate that it is not available for general purposes because it has already been committed to beneficiaries. Approximately \$1.7 million is assigned for operating expenditures. The remainder of the fund balance is unassigned which is available for spending at the Agency's discretion.

The general fund is the administrative fund of the Agency. At June 30, 2020, the unassigned fund balance was \$21.0 million, or 241 percent of budgeted general fund expenditures, the assigned fund balance was \$1.7 million, or 20 percent of budgeted general fund expenditures, and the restricted fund balance was \$418 thousand, or 5 percent of budgeted general fund expenditures. The unassigned fund balance of the general fund increased by 66 thousand from June 30, 2019. Operating expenses exceeded revenues for the fund by approximately \$7.4 million but were offset by net transfers from the permanent fund of approximately \$7.4 million. The most significant factor contributing to this increase was that no repayment of investment manager fees to the Permanent Fund was required in fiscal year 2020 as it was in the prior fiscal year.

The entire balance of the permanent fund is for the use and benefit of common education and thirteen Oklahoma colleges and universities. Total revenue, which includes the decrease in fair market value of investments, was \$8.5 million compared to \$245.3 million of prior year. Cash apportionments distributed to beneficiaries during 2020 totaled \$130.5 million with \$30.7 million disbursed to universities and colleges, \$96.2 million disbursed to public schools, and \$3.6 million to public buildings. This was a decrease of \$5.7 million from the cash apportionments distributed during fiscal year 2019.

General Fund Budgetary Highlights

For fiscal year 2020, general fund actual expenditures on a budgetary basis were \$7.7 million compared to the final budget of \$8.7 million. The \$1.0 million variance was largely due to personnel vacancies and anticipated retirements that did not occur until the following fiscal year. Additionally, the Agency deferred some purchases due to the Covid-19 pandemic.

Investment in Land and Mineral Rights

The Agency obtained the majority of the land held in trust from a grant of the United States prior to statehood. The land is mainly in the western portion of Oklahoma, with approximately 40 percent of the land being located in the Oklahoma Panhandle. Management estimates the market value of the land at June 30, 2020 is approximately \$905,000,000 using land values established by in-house appraisers. Each year, one-fifth (1/5) of the land is appraised and that value is used for five years.

Currently, the Agency owns approximately 1,206,000 mineral acres. Valuation of such properties normally requires a property-by-property reserve study. As this is not feasible, an estimated market value of the mineral rights has not been determined.

(An Agency of the State of Oklahoma)**

**Management's Discussion and Analysis
For Fiscal Year Ended June 30, 2020**

Description of Current and Expected Conditions

The economic uncertainties that arose as a result of the Covid-19 Pandemic adversely affected the financial position and results of activities in the year ended June 30, 2020. Although there has been some significant recoveries in economic markets since the fiscal year end, Commissioners of the Land Office cannot reasonably estimate the duration and ultimate financial effects at this time.

Requests for Information

This financial report is designed to provide a general overview of the Agency's finances and to show the Agency's accountability to its beneficiaries. If you have questions about this report or need additional financial information, contact the Agency's office at 204 N. Robinson, Suite 900, Oklahoma City, Oklahoma 73102.

**Commissioners of the Land Office
State of Oklahoma
(An Agency of the State of Oklahoma)**

**Notes to the Financial Statements
For the Year Ended June 30, 2020**

Note 1. Summary of Significant Accounting Policies

Organization

In 1906, the Government of the United States of America granted certain assets to the State of Oklahoma (the State) to be held in trust for the benefit of public education including the Common Schools of Oklahoma and other beneficiaries. The Constitution of the State of Oklahoma established the Commissioners of the Land Office (the Agency) to act as trustee for these trust assets (the Trust), which are held for the benefit of the following beneficiaries:

- Public Schools
- Public Building Fund
- University of Oklahoma
- Oklahoma State University
- Langston University
- Northern Oklahoma College
- Southeastern Oklahoma State University
- Northeastern Oklahoma State University
- University of Central Oklahoma
- East Central Oklahoma State University
- Southwestern Oklahoma State University
- Northwestern Oklahoma State University
- Cameron University
- Panhandle State University
- University of Science and Arts of Oklahoma

Apportionment

The primary goal of the Commissioners of the Land Office is to support education. To accomplish this goal, monthly distributions are made to both common schools and Oklahoma colleges. The amount that is distributed to the common school districts is calculated from the average daily attendance, which is provided from the Department of Education each fiscal year. Effective in fiscal year 2013, House Bill 2927 enabled the Agency to implement a multi-year education distribution stabilization fund based on a five-year rolling average. This new legislation helps provide consistent distributions for the 511 common school districts. As with common schools, college apportionment is distributed monthly. The college distribution is divided on a percentage basis as outlined in Title 70, section 3904 of the Oklahoma Statutes.

**Commissioners of the Land Office
State of Oklahoma
(An Agency of the State of Oklahoma)**

**Notes to the Financial Statements
For the Year Ended June 30, 2020**

Note 1. Summary of Significant Accounting Policies (continued)

Basis of presentation

The accounting and reporting policies of the Agency conform to accounting principles generally accepted in the United States applicable to governmental units. Generally accepted accounting principles for state agencies are defined as those principles prescribed by the Governmental Accounting Standards Boards (GASB). In accordance with those principles, the Agency presents government-wide financial statements of net position and activities, which are presented on the economic resources measurement focus and accrual basis of accounting requiring that certain capital assets be recorded at cost less accumulated depreciation and the reporting of long-term liabilities.

The Agency also presents fund financial statements for all of the funds relevant to the operations of the Agency. The Agency's financial statements are included in the comprehensive annual financial report of the State of Oklahoma.

The accounts of the Agency are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts, which are comprised of its assets, liabilities, fund balance, revenues and expenditures. The various funds are grouped into two funds in the financial statements of this report as follows:

General fund: The general fund is classified as a governmental fund type and uses the current financial resources measurement focus and modified accrual basis of accounting whereby revenues are recognized when measurable and available and expenditures are recognized when liabilities are incurred except for compensated absences and the net pension liability, which are recognized when the obligations are expected to be liquidated with expendable available financial resources. The general fund consists of several individual accounts, including the Revolving 16 account, and the Commissioners of the Land Office (CLO) account. The Revolving 16 account contains certain fees expenditures for administration of the Trust. The CLO account receives six percent of the revenues earned by the permanent fund, with the exception of gains on the sale of permanent land.

Permanent fund: The permanent fund is classified as a governmental fund type and is used to account for all Trust assets, liabilities, fund balances, revenues and distributions to beneficiaries. The permanent fund uses the current financial resources measurement focus and modified accrual basis of accounting whereby revenues are recognized when measurable and available and expenditures are recognized when incurred. The permanent fund represents the historic dollar value of the permanent fund assets, along with certain additions, and must be maintained in perpetuity. Additions to the permanent fund are made by the retention of a portion of the revenues generated by assets able to be depleted that are considered a return of principal as a result of production.

The Agency considers all revenues available if they are collected within the current period or soon enough thereafter to be used to pay liabilities of the current period. A ninety-day period is used for revenue recognition for all governmental fund type revenues. Those revenues susceptible to accrual are interest revenue, mineral revenue and surface leases, gas marketing and commercial real estate investments.

When both restricted and unrestricted resources are available for use, it is the Agency's policy to use restricted resources first, and then unrestricted resources as they are needed.

**Commissioners of the Land Office
State of Oklahoma
(An Agency of the State of Oklahoma)**

**Notes to the Financial Statements
For the Year Ended June 30, 2020**

Note 1. Summary of Significant Accounting Policies (continued)

Budget

The Agency operates on internally generated funds under a financial work program approved by the State Legislature and administered by the Office of Management Enterprise Services. The Agency does not receive any State general funds. A budgetary comparison is presented as other supplementary information on the cash basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying footnotes. Actual results could differ from those estimates.

Deferred inflows of resources

Deferred inflows of resources are the acquisition of net position by the Agency that are applicable to a future reporting period. At June 30, 2020, the Agency had deferred inflows related to pensions of \$364,194. See Note 8 for additional discussion regarding deferred inflows of resources.

Deferred outflows of resources

Deferred outflows of resources are the consumption of net position by the Agency that are applicable to a future reporting period. At June 30, 2020, the Agency had deferred outflows of resources related to pensions of \$567,724. See Note 8 for additional discussion regarding deferred outflows of resources.

Cash and cash equivalents

The Agency considers highly liquid investments with original maturities of three months or less to be cash equivalents.

Land

The Federal government granted the Agency upon statehood approximately 3.1 million acres of land, of which approximately 689,000 acres remain at June 30, 2020. This land is held in trust and is stated at \$1 per acre in the financial statements at June 30, 2020. The \$1 per acre was set as a nominal amount for recordkeeping purposes.

The Agency has repossessed approximately 51,000 acres, which had been sold by the Agency, or on which the Agency held a first mortgage as collateral relating to farm loans made by the Agency in prior years. The land was recorded at lower of cost or market at date of foreclosure or repossession as determined by appraisals of the property. At June 30, 2020, repossessed land is carried at approximately \$4,909,000.

Land is considered capital assets and is reported at cost.

**Commissioners of the Land Office
State of Oklahoma
(An Agency of the State of Oklahoma)**

**Notes to the Financial Statements
For the Year Ended June 30, 2020**

Note 1. Summary of Significant Accounting Policies (continued)

Depreciable capital assets

Capital assets, which include commercial real estate, improvements and fixtures, furniture and equipment, are assets with an estimated useful life in excess of one year. Such assets are recorded at cost. Donated fixed assets are valued at their acquisition value on the date of donation. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized, while improvements and betterments are capitalized.

Depreciation has been calculated on each class of depreciable property using the straight-line method. Estimated useful lives are as follows:

Improvements:

Reservoirs	50 years
Water wells, erosion control	20 years
Water ways	10-25 years
Other land improvements	5 years
Fixtures, furniture and equipment	5 years

Unearned revenue

Unearned revenue represents lease billings not yet earned for which cash was received prior to year-end. This unearned revenue is recognized when earned in the following year.

Income taxes

Since the Agency is considered a governmental unit, it is not subject to income taxes and no amount for taxes has been recorded in the accompanying statements.

Investments

The Agency is allowed by state statutes to invest in equities, fixed income investments, pooled equity funds, commercial real estate and cash equivalents. Each type of investment has a minimum, maximum and target percentage that has been established by the Agency's investment committee. Equities, fixed income investments, and commercial real estate are stated at fair value and pooled equity funds and open-ended mutual funds are stated at the net asset value (NAV) of the pool. See Note 2.

**Commissioners of the Land Office
State of Oklahoma
(An Agency of the State of Oklahoma)**

**Notes to the Financial Statements
For the Year Ended June 30, 2020**

Note 1. Summary of Significant Accounting Policies (continued)

Property held for investments

Property held for investment is recorded at fair value. The Agency determines fair value of each of its real properties by obtaining an appraisal by a certified real estate appraiser every three calendar years or more frequently if an event occurs that could indicate a significant change in the value of the building or the overall real estate market. For periods in which an appraisal is not obtained, the Agency evaluates the extent to which changes in the use of the real properties or the overall real estate market may have affected the fair value of the properties since the last appraisal.

Compensated absences

In accordance with State policy, employees earn annual leave on a calendar-month basis at rates of 10 to 15 hours per month. Annual leave can be accumulated from 240 to 480 hours, depending on the years of continuous service in State employment. At June 30, 2020, unpaid and accumulated benefits totaled \$406,937. The activity for the year is as follows:

Beginning balance	\$ 482,526
Leave earned	269,860
Leave used	<u>(345,449)</u>
End balance	<u><u>\$ 406,937</u></u>

Net position

Net position is the excess of all the Agency's assets and deferred outflows over all its liabilities and deferred inflow, regardless of fund. Net position is divided into three captions on the Statement of Net Position. These captions apply only to net position, which is determined at the Government-wide level are described below:

Net investment in capital assets: This describes the portion of net position which consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of any notes or other borrowings attributable to those assets.

Restricted net position: This consists of that portion of net position with constraints placed on the use either by external groups, such as grantors or laws and regulations of other governments, or law through constitutional provisions or enabling legislation.

Unrestricted: The portion of net position which is not restricted as to use.

It is the Agency's policy to first use restricted net position prior to the use of unrestricted net position when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

**Commissioners of the Land Office
State of Oklahoma
(An Agency of the State of Oklahoma)**

**Notes to the Financial Statements
For the Year Ended June 30, 2020**

Note 1. Summary of Significant Accounting Policies (continued)

Fund balance

Governmental fund equity is classified as fund balance. Fund balance is further classified as follows and based on the nature of any limitations requiring the use of resources for specific purposes.

Nonspendable: Includes fund balance amounts that cannot be spent either because it is not in spendable form or because of legal or contractual requirements. The assets comprising the Permanent Fund corpus are considered nonspendable fund balance due to State law requiring the corpus to be maintained in perpetuity.

Restricted: This component consists of amounts that have constraints placed on them either externally by third-parties (creditors, grantors, contributors, or laws or regulations of other governments) or by law through constitutional provisions or enabling legislation.

Committed: This component consists of amounts that can only be used only for the specific purposes determined by a formal action of the Agency's highest level of decision making authority. The Agency has no committed fund balance at June 30, 2020.

Assigned: Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as committed. The authority for assigning fund balance is expressed by the Commissioners or their designee (Secretary) as established by statute.

Unassigned: This classification represents amounts that have not been restricted, committed or assigned to specific purposes within the General Fund.

It is the Agency's policy to use restricted fund balance prior to the use of unassigned fund balance when an expenditure is incurred for purposes for which both restricted and unassigned fund balance are available. The Agency's policy for the use of unassigned fund balance amounts requires that committed amounts would be used first, followed by assigned and then unassigned amounts when expenditures are incurred for purposes for which amounts in the unassigned fund balance classification could be used.

New accounting pronouncements issued but not yet adopted

The following accounting standards have been recently issued and will be adopted as applicable by CLO in future years:

GASB Statement No. 84 – *Fiduciary Activities* (GASB 84): GASB 84 provides for greater consistency and comparability by establishing specific criteria for identifying activities that should be reported as fiduciary activities and clarifying whether and how business-type activities should report their fiduciary activities. This statement is effective for periods beginning after December 15, 2019 (effective for CLO's June 30, 2021, year-end).

**Commissioners of the Land Office
State of Oklahoma
(An Agency of the State of Oklahoma)**

**Notes to the Financial Statements
For the Year Ended June 30, 2020**

Note 1. Summary of Significant Accounting Policies (continued)

New accounting pronouncements issued but not yet adopted (continued)

GASB Statement No. 87 – *Leases* (GASB 87): GASB 87 addresses the recognition of certain lease assets and liabilities for leases that were previously classified as operating leases and recognizing inflows of resources or outflows of resources based on the payment provisions of the contract. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activity. This statement is effective for periods beginning after June 15, 2021 (effective for CLO's June 30, 2022 year-end).

GASB Statement No. 89 – *Accounting for Interest Cost Incurred before the End of a Construction Period*: The primary objectives of this statement are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period. This statement establishes accounting requirements for interest cost incurred before the end of a construction period. It also reiterates that in financial statements prepared using the current financial resources measurement focus, interest cost incurred before the end of a construction period should be recognized as an expenditure on a basis consistent with governmental fund accounting principles. The requirements of this statement are effective for reporting periods beginning after December 15, 2020 (effective for CLO's June 30, 2022 year-end).

GASB Statement No 90 – *Majority Equity Interest – an amendment of GASB Statements No. 14 and No. 61*: The primary objectives of this statement are to improve the consistency and comparability of reporting on a government's major equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. The requirements for this statement are effective for reporting periods beginning after December 15, 2019 (effective for CLO's June 30, 2021 year-end).

GASB Statement No. 91 - *Conduit Debt Obligations*: The primary objectives of this statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This statement achieves those objectives by clarifying the existing definition of a conduit debt obligation, establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improving required note disclosures. The requirements of this statement are effective for reporting periods beginning after December 15, 2021 (effective for CLO's June 30, 2023 year-end).

GASB Statement No. 92 – *Omnibus 2020*: The objectives of GASB Statement No. 92 are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements. GASB Statement No. 92 addresses a variety of topics and includes specific provisions about the following:

- The effective date of GASB Statement No. 87, *Leases*, and Implementation Guide No. 2019-3, *Leases*, for interim financial reports.

**Commissioners of the Land Office
State of Oklahoma
(An Agency of the State of Oklahoma)**

**Notes to the Financial Statements
For the Year Ended June 30, 2020**

Note 1. Summary of Significant Accounting Policies (continued)

New accounting pronouncements issued but not yet adopted (continued)

- Reporting of intra-entity transfers of assets between a primary government employer and a component unit defined benefit pension plan or defined benefit other postemployment benefit (OPEB) plan.
- The applicability of GASB Statements No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68*, and *Amendments to Certain Provisions of GASB Statements 67 and 68*, as amended, and No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, as amended, to reporting assets accumulated for postemployment benefits
- The applicability of certain requirements of GASB Statement No. 84, *Fiduciary Activities*, to postemployment benefit arrangements:
- Measurement of liabilities (and assets, if any) related to AROs in a government acquisition
- Reporting by public entity risk pools for amounts that are recoverable from reinsurers or excess insurers
- Reference to nonrecurring fair value measurements of assets or liabilities in authoritative literature
- Terminology used to refer to derivative instruments

GASB Statement No. 92 is effective for reporting periods beginning after June 15, 2021 (effective for CLO's June 30, 2022, year-end).

GASB Statement No. 93 - *Replacement of Interbank Offered Rates*: Some governments have entered into agreements in which variable payments made or received depend on an interbank offered rate (IBOR)—most notably, the London Interbank Offered Rate (LIBOR). As a result of global reference rate reform, LIBOR is expected to cease to exist in its current form at the end of 2021, prompting governments to amend or replace financial instruments for the purpose of replacing LIBOR with other reference rates, by either changing the reference rate or adding or changing fallback provisions related to the reference rate.

- The objective of GASB Statement No. 93 is to address those and other accounting and financial reporting implications that result from the replacement of an IBOR. GASB Statement No. 93 achieves that objective by:
- Providing exceptions for certain hedging derivative instruments to the hedge accounting termination provisions when an IBOR is replaced as the reference rate of the hedging derivative instrument's variable payment
- Clarifying the hedge accounting termination provisions when a hedged item is amended to replace the reference rate

**Commissioners of the Land Office
State of Oklahoma
(An Agency of the State of Oklahoma)**

**Notes to the Financial Statements
For the Year Ended June 30, 2020**

Note 1. Summary of Significant Accounting Policies (continued)

New accounting pronouncements issued but not yet adopted (continued)

- Clarifying that the uncertainty related to the continued availability of IBORs does not, by itself, affect the assessment of whether the occurrence of a hedged expected transaction is probable
- Removing LIBOR as an appropriate benchmark interest rate for the qualitative evaluation of the effectiveness of an interest rate swap
- Identifying a Secured Overnight Financing Rate and the Effective Federal Funds Rate as appropriate benchmark interest rates for the qualitative evaluation of the effectiveness of an interest rate swap
- Clarifying the definition of reference rate, as it is used in GASB Statement No. 53, as amended
- Providing an exception to the lease modifications guidance in GASB Statement No. 87, as amended, for certain lease contracts that are amended solely to replace an IBOR as the rate upon which variable payments depend

The removal of LIBOR as an appropriate benchmark interest rate is effective for reporting periods ending after June 15, 2021 (effective for CLO's June 30, 2022, year-end). All other requirements of GASB Statement No. 93 are effective for reporting periods beginning after June 15, 2020 (effective for CLO's June 30, 2021, year-end).

GASB Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*: The primary objective of GASB Statement No. 94 is to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). As used in GASB Statement No. 94, a PPP is an arrangement in which a government (the transferor) contracts with an operator (a governmental or nongovernmental entity) to provide public services by conveying control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset (the underlying PPP asset), for a period of time in an exchange or exchange-like transaction. Some PPPs meet the definition of a service concession arrangement (SCA), which GASB defines in GASB Statement No. 94 as a PPP in which 1) the operator collects and is compensated by fees from third parties; 2) the transferor determines or has the ability to modify or approve which services the operator is required to provide, to whom the operator is required to provide the services, and the prices or rates that can be charged for the services; and 3) the transferor is entitled to significant residual interest in the service utility of the underlying PPP asset at the end of the arrangement. GASB Statement No. 94 is effective for reporting periods beginning after June 15, 2022 (effective for CLO's June 30, 2023, year-end).

GASB Statement No. 96 - *Subscription-Based Information Technology Arrangements* – This statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). GASB Statement No. 96 1) defines a SBITA; 2) establishes that a SBITA results in a right-to-use subscription asset—an intangible asset—and a corresponding subscription liability; 3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and 4) requires note disclosures regarding a SBITA. GASB Statement No. 96 is effective for reporting periods beginning after June 15, 2022 (effective for CLO's June 30, 2023, year-end).

For the Year Ended June 30, 2020**

Note 1. Summary of Significant Accounting Policies (continued)

New accounting pronouncements issued but not yet adopted (continued)

GASB Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans—an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32* - The primary objectives of GASB Statement No. 97 are to 1) increase consistency and comparability related to the reporting of fiduciary component units in circumstances in which a potential component unit does not have a governing board and the primary government performs the duties that a governing board typically would perform; 2) mitigate costs associated with the reporting of certain defined contribution pension plans, defined contribution OPEB plans, and employee benefit plans other than pension plans or OPEB plans (other employee benefit plans) as fiduciary component units in fiduciary fund financial statements; and 3) enhance the relevance, consistency, and comparability of the accounting and financial reporting for Internal Revenue Code (IRC) Section 457 deferred compensation plans (Section 457 plans) that meet the definition of a pension plan and for benefits provided through those plans.

The requirements of GASB Statement No. 97 that 1) exempt primary governments that perform the duties that a governing board typically performs from treating the absence of a governing board the same as the appointment of a voting majority of a governing board in determining whether they are financially accountable for defined contribution pension plans, defined contribution OPEB plans, or other employee benefit plans and 2) limit the applicability of the financial burden criterion in paragraph 7 of GASB Statement No. 84 to defined benefit pension plans and defined benefit OPEB plans that are administered through trusts that meet the criteria in paragraph 3 of GASB Statement No. 67 or paragraph 3 of GASB Statement No. 74, respectively, are effective immediately. The remaining requirements of GASB Statement No. 97 are effective for reporting periods beginning after June 15, 2021 (effective for CLO's June 30, 2022, year-end).

The effect of these statements on CLO has not been determined but could have a significant impact on CLO's overall net position.

Note 2. Deposits, Investments and Related Policies

Cash and cash equivalents: Custodial credit risk for deposits is the risk that, in the event of a bank failure, the Agency's deposits may not be returned to it. Deposits are exposed to custodial credit risk if they are uninsured and uncollateralized. Substantially, all (in excess of 99 percent) of the Agency's deposits are collateralized through the Oklahoma State Treasurer or its investment custodians; however, the Agency does not have a specific policy that reduces the Agency's exposure to custodial credit risk.

The Agency uses a pooled cash concept in maintaining its bank accounts. Cash is pooled for operating and investing purposes and each fund has equity in the pooled amount. For reporting purposes, cash has been allocated to each fund based on its equity in the pooled amount. At June 30, 2020, the carrying amount of the Agency's deposits at the Office of the State Treasurer was \$58,080,663 and the bank balance was \$54,200,252. The cash that is deposited with the Oklahoma State Treasurer (OST) is fully insured or collateralized by the State Treasurer. Of funds on deposit with the State Treasurer at June 30, 2020, funds with a carrying amount of \$55,714,398 were invested in the State Treasurer's internal investment pool OK INVEST. This carrying amount represents the Agency's net asset value of its interest in OK INVEST. The amounts held in OK INVEST are considered liquid as they are available to be withdrawn with limited redemption restrictions. For financial reporting purposes, deposits with the State Treasurer that are invested in OK INVEST are classified as cash equivalents.

**Commissioners of the Land Office
State of Oklahoma
(An Agency of the State of Oklahoma)**

**Notes to the Financial Statements
For the Year Ended June 30, 2020**

Note 2. Deposits, Investments and Related Policies (continued)

Agencies and funds that are considered to be part of the State's reporting entity in the State's Comprehensive Annual Financial Report are allowed to participate in OK INVEST. Oklahoma statutes and the State Treasurer establish the primary objectives and guidelines governing the investment of funds in OK INVEST. Safety, liquidity, and return on investment are the objectives that establish the framework for the day-to-day OK INVEST management, with an emphasis on safety of the capital and the probable income to be derived and meeting the State and its funds' and agencies' daily cash flow requirements. Guidelines in the investment policy address credit quality requirements, diversification percentages and the types and maturities of allowable investments. The specifics regarding these policies can be found on the State Treasurer's website at [http:// www.ok.gov/treasurer](http://www.ok.gov/treasurer). The State Treasurer, at his discretion, may further limit or restrict such investments on a day-to-day basis. OK INVEST includes a substantial investment in securities with an overnight maturity as well as in U.S. government securities with a maturity of up to three years. OK INVEST maintains an overall weighted average maturity of less than four years. Participants in OK INVEST maintain interest in its underlying investments and, accordingly, may be exposed to certain risks. As stated in the State Treasurer information statement, the main risks are interest rate risk, credit/default risk, liquidity risk, and U.S. government securities risk. Interest rate risk is the risk that during periods of rising interest rates, the yield and market value of the securities will tend to be lower than prevailing market rates; in periods of falling interest rates, the yield will tend to be higher.

Credit/default risk is the risk that an issuer or guarantor of a security, or a bank or other financial institution that has entered into a repurchase agreement, may default on its payment obligations. Liquidity risk is the risk that OK INVEST will be unable to pay redemption proceeds within the stated time period because of unusual market conditions, an unusually high volume of redemption requests, or other reasons. U.S. government securities risk is the risk that the U.S. government will not provide financial support to U.S. government agencies, instrumentalities, or sponsored enterprises if it is not obligated to do so by law. Various investment restrictions and limitations are enumerated in the State Treasurer's investment policy to mitigate those risks; however, any interest in OK INVEST is not insured or guaranteed by the State, the FDIC, or any other government agency.

Cash is also maintained by the Bank of Oklahoma's Trust Department as part of various investments accounts held in the name of the Agency. Investment policy requires that these deposits must be invested in fully collateralized interest bearing accounts. The carrying amount and balance of the cash equivalents totaled \$37,198,471 at June 30, 2020 and consists of an investment in a mutual fund composed of short-term investments with an original maturity date of three months or less, which are readily convertible into cash.

Investments: Investments are reported at fair value. Changes in fair value are recognized daily by the investment managers. Actual gains and losses realized by the Agency will be determined at the time of the sale and will be based on market conditions at that date. The Agency also has a policy that requires the Trust to have a current custodial agreement in the Agency's name with respect to investment collateral held by third-party custodians. In addition, the Bank of Oklahoma maintains a blanket bond insurance policy that covers all Trust assets. Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty, the Agency will not be able to recover the value of its investments or collateral securities that are in possession of an outside party. Investment securities are exposed to custodial credit risk if they are uninsured, are not registered in the name of the Trust and are held by counterparty or the counterparty's trust department but not in the name of the Trust. At June 30, 2020, the Agency does not have any securities that are not registered in the name of the Trust.

Substantially all investments are held by Bank of Oklahoma Trust Department. At June 30, 2020, the Agency had the following investments:

Credit risk exists when there is a possibility that the issuer or other counterparty to an investment may be unable to fulfill its obligations. The Agency is authorized by State statutes to invest in equities, fixed income investments and cash equivalents. Each type of investment has a minimum, maximum and target percentage that has been established by the Agency's investment committee. The Agency considers investment grade as the Aaa-Baa3 rating categories. Below investment grade corporate fixed income investments shall be limited to twenty percent of the investment manager's total portfolio. This restriction does not apply to dedicated high yield managers or convertible managers. As applicable, average credit quality ratings are disclosed in the table below to indicate associated credit risk.

Fixed income investments and nonconvertible preferred stock by investment rating at June 30, 2020 consisted of the following:

Concentration of credit risk is the risk of loss attributed to the magnitude of the Agency's investments in a single issuer. It is generally considered that an increased risk of loss occurs as more investments are acquired from a single issuer. The Agency has formal written policies regarding the concentration of credit risk for both unsecured fixed income investments and equity-type investments. With the exception of U.S. Government and Agency issues, no more than 10 percent of the bond portfolio at market will be invested in the securities of a single issuer or 5 percent of the bond portfolio in an individual issue. Equity managers shall not invest more than 10 percent of its portfolio market value in any one company. Equity managers may invest up to 5 percent of their portfolio's market value at the time of the initial purchase in a single entity. At June 30, 2020, Federal National Mortgage Corp. represented 6.34 percent of the Agency's investments.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Investments held for longer periods are subject to increased risk of adverse interest rate changes. The Agency's policy provides that to the extent practicable, investments are matched with anticipated cash flows. Investments are diversified to minimize the risk of loss resulting from the over-concentration of assets in a specific maturity period, a single issuer or an individual class of securities.

**Commissioners of the Land Office
State of Oklahoma
(An Agency of the State of Oklahoma)**

**Notes to the Financial Statements
For the Year Ended June 30, 2020**

Note 2. Deposits, Investments and Related Policies (continued)

The Agency's exposure to interest rate risk is as follows:

Investment Name	Fair Value	Effective Duration (Years)
U.S. government securities:		
U.S. Treasury notes and obligations	\$ 43,984	8.57
Government National Mortgage Association	38,507	1.49

	<u>202,974</u>	
Mortgage-backed securities:		
Federal Home Loan Mortgage Corp.	30,481	2.04
Federal National Mortgage Corp.	134,940	3.27
	<u>165,421</u>	
Municipal obligations, municipal bonds	<u>9,334</u>	11.50
Corporate bonds (held in U.S. currency):		
Domestic bonds	701,893	5.76
Foreign bonds	196,551	4.78
	<u>898,444</u>	
Total fixed income	<u>\$ 1,276,173</u>	

Fair value measurement: The Agency categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to quoted prices in active markets for identical assets (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The inputs to the three levels of the fair value hierarchy are described as follows:

Level 1: Quoted prices in active markets for identical assets or liabilities

Level 2: Significant other observable inputs, including quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets in markets that are not active and other market corroborated inputs

Level 3: Significant unobservable inputs

**Commissioners of the Land Office
State of Oklahoma
(An Agency of the State of Oklahoma)**

**Notes to the Financial Statements
For the Year Ended June 30, 2020**

Note 2. Deposits, Investments and Related Policies (continued)

Assets measured at fair value on a recurring basis are summarized below:

	Level 1	Level 2	Level 3	Total
Investments by fair value level				
Equity:				
Common stocks	\$ 376,639,354	\$ -	\$ -	\$ 376,639,354
Preferred stock - nonconvertible	77,760,269	-	-	77,760,269
Fixed income securities:				
Corporate bonds - domestic	-	701,892,711	-	701,892,711
Corporate bonds - foreign	-	196,551,088	-	196,551,088
Municipal bonds	-	9,334,144	-	9,334,144
U.S. government sponsored:				
Federal National Mortgage Corp	-	144,294,472	-	144,294,472
Federal Home Loan Mortgage Corp.	-	34,688,589	-	34,688,589
Government National Mortgage Assoc.	-	40,916,071	-	40,916,071
U.S. Treasury obligation	43,984,001	-	-	43,984,001
Other government	6,458,549	98,052,915	-	104,511,464
Commercial real estate	-	-	99,751,000	99,751,000
Total investments by fair value level	<u>\$ 504,842,173</u>	<u>\$ 1,225,729,990</u>	<u>\$ 99,751,000</u>	1,830,323,163
Investments measured at the net asset value (NAV)				
Pooled equity funds				108,993,706
Equity-based mutual funds - domestic				170,750,445
Equity-based mutual funds - foreign				217,360,008
Total Investments measured at fair value				<u>\$ 2,327,427,322</u>

Common and preferred stocks classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities.

Fixed income securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Corporate bonds classified in Level 2 are valued using an option-adjusted spread model which considers relevant trade data, benchmark quotes, and spreads. Municipal bonds classified in Level 2 are valued using internal yield curves based on established trading spreads between similar issues, historical trading spreads over widely accepted market benchmarks, new issues scales and market information. U.S. government sponsored asset-backed securities classified in Level 2 are valued using an option-adjusted spread model that incorporates cash flow, benchmark spread, and deal collateral performance.

**Commissioners of the Land Office
State of Oklahoma
(An Agency of the State of Oklahoma)**

**Notes to the Financial Statements
For the Year Ended June 30, 2020**

Note 2. Deposits, Investments and Related Policies (continued)

Pooled equity funds consist solely of a fund of funds containing individual stocks in the Russell 1000 Index. Equity-based mutual funds-domestic consist solely of an open-ended mutual fund containing common stocks of companies primarily in the United States that are characterized by high-dividend yield. Equity-based mutual funds-foreign consist solely of an open-ended mutual fund containing stocks issued by companies located in developed and emerging markets, excluding the United States. The fund of funds and equity-based mutual funds are valued using the net asset value (NAV) of the pool or fund. The Agency has no unfunded commitments related to investments valued at NAV. Shares are redeemable daily at the NAV at the time of redemption for each of these investment types. Commercial real estate classified in Level 3 of the fair value hierarchy are valued by certified appraisers using a blend of a sales comparison approach which determines the value using recent sales prices of comparable properties and an income approach which determines the value using direct capitalization of projected net operating income.

Note 3. Leasing Operations

The Agency leases to others approximately 739,960 acres of land belonging to the Trusts as of June 30, 2020, primarily for agricultural purposes.

The lease terms are generally for five-year periods (on a calendar-year basis) with rents prepaid one year in advance. The annual rental amount is determined by the lessee's maximum bid amount.

The following is a schedule of the future minimum rent due to the Agency under its noncancelable leases at June 30, 2020:

Years ended June 30:

2021	\$ 12,900,097
2022	9,639,097
2023	6,182,582
2024	2,902,842
2025	115,888
	<u>\$ 31,740,506</u>

**Commissioners of the Land Office
State of Oklahoma
(An Agency of the State of Oklahoma)**

**Notes to the Financial Statements
For the Year Ended June 30, 2020**

Note 4. Investment property

With the implementation of the House Bill 1022 in 2013, the Commissioners of the Land Office have been authorized to acquire, purchase, exchange and grant any real property under its jurisdiction. The Agency shall invest up to 5 percent of the total value of the assets of the permanent school funds in connection with investment in real property. At June 30, 2020, the Agency owned the following property which is carried at fair value and leased to multiple tenants:

<u>Property</u>	<u>Fair Value</u>
5005 N. Lincoln	\$ 3,450,000
119 N. Robinson Ave	12,200,000
City Place (204 N. Robinson Ave. 4th, 8th & 9th floors)	4,625,000
3017 N. Stiles	2,275,000
400 NE 50th Street	487,000
City Place (204 N. Robinson Ave 10th Floor)	1,440,000
921 NE 23rd Street	4,000,000
5727 South Lewis Avenue, Tulsa	13,350,000
Lincoln Corridor properties	3,860,000
5050 N. Lincoln	8,380,000
10625 and 10630 NW 4th St., Yukon	4,300,000
15024 W. Highway 66, Yukon	1,900,000
4734 Kickapoo, Shawnee	2,725,000
122nd and Western tract	10,289,000
300 & 304 S. Miller Street	1,520,000
9201 N. I-35	24,950,000
	<u>\$99,751,000</u>

The following is a schedule of the future minimum rent due to the Agency under its noncancelable leases at June 30, 2020:

Years ended June 30:

2021	\$ 5,462,060
2022	3,482,373
2023	3,385,112
2024	2,694,645
2025	2,122,348
Thereafter	16,969,534
	<u>\$ 34,116,072</u>

**Commissioners of the Land Office
State of Oklahoma
(An Agency of the State of Oklahoma)**

**Notes to the Financial Statements
For the Year Ended June 30, 2020**

Note 5. Other Receivables

Other receivables at June 30, 2020 consisted of the following:

Accrued mineral revenue	\$ 5,229,983
Surface leases	1,026,141
Gas marketing	91,124
Commercial RE Investments	57,880
Allowance for doubtful accounts	<u>(1,360,662)</u>
	<u><u>\$ 5,044,466</u></u>

Note 6. Interfund balances and transfers

At June 30, 2020, the Permanent Fund recognized an interfund receivable from the General Fund in the amount of \$1,508,150 which is comprised of royalty payments in held in escrow by the General Fund.

Transfers between the funds are typically to transfer the six percent of the Permanent Fund revenues to the general fund for the Agency's administration of the Trust. Periodically, as the Secretary determines, funds are transferred from the general fund to the permanent fund for the benefit of the Multiyear Education Distribution Stabilization Revolving Fund for distribution to Trust beneficiaries at the Commissioners' discretion.

For the fiscal year ended June 30, 2020, \$9,893,377 was transferred from the permanent fund to the general fund for Agency's administration of the Trust. Additionally, the general fund transferred to the permanent fund \$2,415,189 for the Education Distribution Stabilization Revolving Fund and approximately \$22,380 as reimbursement for various expenditures.

Note 7. Related party transactions

During the course of normal operations, the Agency purchases goods and services from other State agencies. The expenditures made to other State agencies during the fiscal year ended June 30, 2020 was approximately \$842,237.

Note 8. Employee Benefit Plans

Retirement plan: The Agency contributes to the Oklahoma Public Employees Retirement System (OPERS) cost sharing multiple-employer defined benefit plan. OPERS was established in 1964 by the Oklahoma Legislature and covers substantially all employees of the State, except those covered by six other plans sponsored by the State, and also covers employees of participating counties and local agencies. The Plan provides that all eligible persons, except those specifically excluded, shall become members of OPERS as a condition of their employment. The supervisory authority for the management and operation of OPERS is its Board of Trustees.

OPERS offers retirement and disability benefits, cost of living adjustments on an ad-hoc basis, life insurance benefits, and survivor benefits. The Plan's provisions are established under Title 74 of the Oklahoma Statutes.

**Commissioners of the Land Office
State of Oklahoma
(An Agency of the State of Oklahoma)**

**Notes to the Financial Statements
For the Year Ended June 30, 2020**

Note 8. Employee Benefit Plans (continued)

Benefits provided: Members qualify for full retirement benefits at their specified normal retirement age or, for any person who became a member prior to July 1, 1992, when the sum of the member's age and years of credited service equals or exceeds 80 (Rule of 80), and for any person who became a member after June 30, 1992, when the member's age and years of credited service equals or exceeds 90 (Rule of 90).

Normal retirement date is further qualified to require that all members employed on or after January 1, 1983 must have six or more years of full-time equivalent employment with a participating employer before being eligible to receive benefits. Credited service is the sum of participating and prior service. Prior service includes nonparticipating service before January 1, 1975, or the entry date of the employer and active wartime military service.

A member with a minimum of ten years of participating service may elect early retirement with reduced benefits beginning at age 55 if the participant became a member prior to November 1, 2011, or age 60 if the participant became a member on or after November 1, 2011.

Disability retirement benefits are available for members having eight years of credited service whose disability status has been certified as being within one year of the last day on the job by the Social Security Administration. Disability retirement benefits are determined in the same manner as retirement benefits, but payable immediately without an actuarial reduction.

Benefits are determined at 2 percent of the average annual salary received during the highest thirty-six months of the last ten years of participating service, but not to exceed the applicable annual salary cap, multiplied by the number of years of credited service. Members who join OPERS on or after July 1, 2013, will have their salary averaged over the highest 60 months of the last ten years. Normal retirement age under the Plan is 62 or Rule of 80/90 if the participant became a member prior to November 1, 2011, or age 65 or Rule of 90 if the participant became a member on or after November 1, 2011.

Members who elect to pay the additional contribution rate, which became available in January 2004, will receive benefits using a 2.5 percent computation factor for each full year the additional contributions are made. In 2004, legislation was enacted to provide an increased benefit to retiring members who were not yet eligible for Medicare. The Medicare Gap benefit option became available to members under age 65 who retired on or after May 1, 2006. Members may elect to receive a temporary increased benefit to cover the cost of health insurance premiums until the member is eligible to receive Medicare. After the member becomes eligible for Medicare, the retirement benefit will be permanently reduced by an actuarially determined amount. The option is irrevocable, must be chosen prior to retirement, and is structured to have a neutral actuarial cost to the Plan.

Members become eligible to vest fully upon termination of employment after attaining eight years of credited service, or the members' contributions may be withdrawn upon termination of employment.

Contributions: The contribution rates for each member category of the Plan are established by the Oklahoma Legislature after recommendation by the Board based on an actuarial calculation, which is performed to determine the adequacy of such contribution rates.

Each member participates based on their qualifying gross salary earned, excluding overtime. There is no cap on the qualifying gross salary earned, subject to Internal Revenue Service (IRS) limitations on compensation.

**Commissioners of the Land Office
State of Oklahoma
(An Agency of the State of Oklahoma)**

**Notes to the Financial Statements
For the Year Ended June 30, 2020**

Note 8. Employee Benefit Plans (continued)

For 2020, state agency employers contributed 16.5 percent on all salary, and state employees contributed 3.5 percent on all salary.

The Agency's contributions to the Plan for the year ended June 30, 2020 were approximately \$567,737 and was equal to its required contribution.

Members have the option to elect to increase the benefit computation factor for all future service from 2.0 percent to 2.5 percent. The election is irrevocable, binding for all future employment under OPERS, and applies only to full years of service. Those who make the election pay the standard contribution rate plus an additional contribution rate, 2.91 percent which is actuarially determined.

Pension liabilities, pension expense, and deferred outflows of resources and deferred inflows of resources related to pensions: At June 30, 2020, the Agency reported a liability of \$287,303 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2019. The Agency's proportion of the net pension liability was based on the Agency's share of contributions to the pension plan relative to the contributions of all participating employers. At June 30, 2019, the Agency's proportion was 0.21571265 percent which is a decrease of 0.00444107 percent from the prior fiscal year.

**Commissioners of the Land Office
State of Oklahoma
(An Agency of the State of Oklahoma)**

**Notes to the Financial Statements
For the Year Ended June 30, 2020**

Note 8. Employee Benefit Plans (continued)

For the year ended June 30, 2020, the Agency recognized pension expense of \$603,397. At June 30, 2020, the Agency reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ 107,457
Net difference between projected and actual investment earnings on pension plan investments	-	244,450
Changes in proportion and differences between Agency contributions and proportionate share of contributions	-	12,287
Total deferred amounts to be recognized in pension expense in future periods	-	364,194
Agency contributions subsequent to the measurement date	567,724	-
Total deferred amounts related to pension	<u>\$ 567,724</u>	<u>\$ 364,194</u>

Deferred pension outflows resulting from the Agency's employer contributions subsequent to the measurement date, totaling \$567,724 at June 30, 2020, will be recognized as a reduction of the net pension liability in the year ended June 30, 2021. Deferred inflows related to the difference between projected and actual investment earnings are being amortized over five years beginning in the year each originated. The other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension consist of amounts originating in current and prior years and will be recognized in pension expense using the average expected remaining life of the Plan as of the beginning of the fiscal year in which each item originated. The average expected remaining service life of the Plan is determined by taking the calculated total future service years of the Plan divided by the number of people in the Plan including retirees. The total future service years are determined using the mortality, termination, retirement and disability assumptions associated with the Plan.

Deferred outflows of resources and deferred inflows of resources will be recognized in pension expense as follows at June 30:

	June 30, Deferred Outflows(Inflows)
2021	\$ (80,611)
2022	(234,858)
2023	(31,386)
2024	(17,339)
	<u>\$ (364,194)</u>

**Commissioners of the Land Office
State of Oklahoma
(An Agency of the State of Oklahoma)**

**Notes to the Financial Statements
For the Year Ended June 30, 2020**

Note 8. Employee Benefit Plans (continued)

Actuarial assumptions: The total pension liability as of June 30, 2020 was determined based on an actuarial valuation prepared as of July 1, 2019, using the following actuarial assumptions:

- Investment return—7.00 percent compounded annually net of investment expense and including inflation
- Salary increases—3.5 percent to 9.5 percent per year including inflation
- Mortality rates—Active participants and nondisabled pensioners—RP-2014 Mortality Table projected to 2025 by Scale MP-2016 (disabled pensioners set forward 12 years)
- No annual post-retirement benefit increases
- Assumed inflation rate—2.75 percent
- Payroll growth—3.5 percent per year
- Actuarial cost method—Entry age
- Select period for the termination of employment assumptions—10 years

With the exception of the long-term rate of return used in the July 1, 2019 valuation, the actuarial assumptions used are based on the results of the most recent actuarial experience study, which covers the three-year period ending June 30, 2019. The experience study report is dated April 13, 2020. The long-term rate of return was modified by the Plan during 2019.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of geometric real rates of return for each major asset class as of June 30, 2019, are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
U. S. Large Cap Equity	38.0%	3.8%
U.S. Small Cap Equity	6.0%	4.9%
Non-US Equity	24.0%	9.2%
US Fixed	32.0%	1.4%
	<hr/> 100%	

**Commissioners of the Land Office
State of Oklahoma
(An Agency of the State of Oklahoma)**

**Notes to the Financial Statements
For the Year Ended June 30, 2020**

Note 8. Employee Benefit Plans (continued)

Discount rate: The discount rate used to measure the total pension liability was 7.00 percent. The projection of cash flows used to determine the discount rate assumed that contributions from Plan members and the employers will be made at the current contribution rate as set out in state statute. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The discount rate determined does not use a municipal bond rate.

Sensitivity of the Agency's proportionate share of the net pension liability to changes in the discount rate: The following presents the Agency's proportionate share of the net pension liability calculated using the discount rate of 7.00 percent, as well as what the Agency's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00 percent) or one percentage point higher (8.00 percent) than the current rate:

	1% Decrease (6%)	Current Discount Rate (7%)	1% Increase (8%)
Commissioners of the Land Office's proportionate share of the net pension liability (asset)	<u>\$ 2,587,136</u>	<u>\$ 287,303</u>	<u>\$ (1,681,985)</u>

Pension plan fiduciary net position: Detailed information about the pension plan's fiduciary net position is available in separately issued financial statements, June 30, 2018 CAFR, available at:

<http://www.opers.ok.gov/wp-content/uploads/2020/05/CAFR-2019-OPERS.pdf>

Deferred compensation plan: The State offers to its own employees, state agency employees and other duly constituted authority or instrumentality employees a deferred compensation plan created in accordance with Internal Revenue Code (IRC) Section 457 and Chapter 45 of Title 74, Oklahoma Statutes. The Oklahoma State Employees Deferred Compensation Plan (the 457 Plan), also known as SoonerSave, is a voluntary plan that allows participants to defer a portion of their salary into the 457 Plan. Participation allows a person to shelter the portion of their salary that they defer from current federal and state income tax. Taxes on the interest or investment gains on this money, while in the 457 Plan, are also deferred. The deferred compensation is not available to employees until termination, retirement, death or approved unforeseeable emergency.

Under SoonerSave, the untaxed deferred amounts are invested as directed by the participant among various 457 Plan investment options. Effective January 1, 1998, a Trust and Trust Fund covering the 457 Plan assets was established pursuant to federal legislation enacted in 1996, requiring public employers to establish such trusts for plans meeting the requirements of Section 457 of the IRC. Under terms of the Trust, the corpus or income of the Trust Fund may be used only for the exclusive benefit of the 457 Plan participants and their beneficiaries. Further information may be obtained from the Oklahoma State Employees Deferred Compensation Plan audited financial statements for the years ended June 30, 2019 and 2018. The Agency believes that it has no liabilities in respect to the State's plan.

(An Agency of the State of Oklahoma)**

**Notes to the Financial Statements
For the Year Ended June 30, 2020**

Note 11. Commitments and Contingencies

Leases: The Agency leases various office equipment, as well as office space and computer equipment for 12-month terms, with options to renew each year. For the year ended June 30, 2020, total rent expense for these items was approximately \$411,000 for office space and \$141,000 for office equipment and other rents.

Economic uncertainties: As a result the spread of COVID-19, economic uncertainties have arisen that may negatively impact the financial position and changes in the financial position of the Agency. The duration of these uncertainties and the ultimate financial effects cannot be reasonably determined at this time.

Note 12. Risk Management

The Agency participates in the Oklahoma Risk Management Division's (a division of the Department of Central Services) insurance pool, which covers all governmental tort, property, vehicle, and directors and officers liability claims against the Agency. The Agency pays a yearly premium to the Department of Central Services to participate in the insurance pool. Premiums paid are not subject to retroactive adjustment.

Note 13. Subsequent Events

Subsequent to the fiscal year end, the Agency acquired a portion of the Sandridge Center in downtown Oklahoma City which will be included in the Agency's investment property portfolio. The Agency's acquisition included five of the main tower's thirty floors, the parking garage structure and a proportionate share of the property's common areas. The appraised value of these holdings at the time of acquisition was approximately \$13,000,000. The property's other floors were purchased by other Oklahoma state agencies including the Oklahoma Tax Commission and the Oklahoma State Department of Health. The Agency plans to lease the property to generate distributable revenues.

Basis of budgeting

The Agency prepares its budget using the cash basis of accounting.

Valuation Date

Actuarially determined contributions are calculated as of the beginning of the fiscal year in which contributions are reported.

Methods and assumptions used to determine contribution rates:

Actuarial cost method	Entry age
Amortization method	Level percentage of payroll, closed
Remaining amortization period	12 years
Asset valuation method	5-year moving average
Inflation	2.75 percent for 2018 and 2017, 3.00 percent for 2016 and 2015
Salary increase	3.50 to 9.50 percent for 2018 and 2017 and 4.50 to 8.40 percent for 2016 and 2015, including inflation
Investment rate of return	7.00 percent in 2018 and 2017, 7.25 percent in 2016 and 7.50 percent for 2015, compounded annually, net of investment expense and including inflation
Retirement age	Age 65 for all members hired on or after November 1, 2011 Age 62 for members hired prior to November 1, 2011
Mortality	For 2018 and 2017, active participants and nondisabled pensioners – RP 2014 Mortality Table projected to 2025 by Scale MP-2016 (disabled pensioners set forward 12 years) For 2016 and 2015, active participants and nondisabled pensioners – RP-2000 Mortality Table projected to 2010 by Scale AA (disabled pensioners set forward for 15 years.)

Other Information

The Plan has been amended by House Bill 2630 in 2014 which states that effective November 1, 2015, OPERS shall create a defined contribution plan for most people first employed by a participating employer. Exemptions from the new defined contribution plan include hazardous duty members and district attorneys, assistant district attorneys and employees of the district attorney's office. Each employer shall send to OPERS the difference between the required employer contribution to OPERS and the amount required to match the participating employee's contribution in the defined contribution plan.

Senate Bill 2120, also enacted in 2014, amends House Bill 2630 to further exempt from the new defined contribution plan county elected officials and employees of a county, county hospital, city or town, conservation district, circuit engineering district, and any public or private trust in which a county, city or town participates. Senate Bill 2120 also states that employees who participate in the defined contribution system are excluded from the \$105 health subsidy.

New employees specifically exempted from the defined contribution plan will participate in the existing defined benefit plan.

This schedule is presented on the cash basis of accounting and presents the distributions when paid rather than when the obligation is incurred. The schedule provides relevant information that is not provided by the historical accrual basic financial statements and is not intended to be a presentation in conformity with accounting principles generally accepted in the United States of America.

Statistical Section

**Commissioners of the Land Office
State of Oklahoma
(An Agency of the State of Oklahoma)**

**Statistical Section Narrative
June 30, 2020**

Statistical Section Narrative

This part of the Agency's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the Agency's overall financial position.

Such statistical information includes:

Financial Trends

These schedules contain trend information to help the reader understand how the Agency's financial performance and well-being have changed over time. Schedules presented are:

- Net Position – Last Ten Fiscal Years
- Changes in Net Position – Last Ten Fiscal Years
- Fund Balances, Governmental Funds – Last Ten Fiscal Years
- Changes in Fund Balances, Governmental Funds – Last Ten Fiscal Years

Revenue Capacity

These schedules contain information to help the reader assess the Agency's ability to generate its own source revenues.

The Agency's significant sources of own source revenue consists of rents from real estate leases, mineral revenues primarily from oil & gas lease royalties and investment earnings from the Agency's investment portfolio.

Both real estate and oil and gas leases are awarded to the highest bidders at auction. Consequently, rates vary according to local market conditions.

The pool of lessees consists of numerous payers of materially similar amounts. Accordingly, the agency believes the presentation of the top strata of payers would not be meaningful.

Revenues from the investment portfolio are subject to market forces. Note 2 of the Agency's audited financial statements reflect the composition of the portfolio. Historic portfolio income and rate of return information is presented for additional analysis.

Schedules presented are:

- Portfolio Income – Last Ten Fiscal Years
- Portfolio Rate of Return – Last Ten Fiscal Years

**Commissioners of the Land Office
State of Oklahoma
(An Agency of the State of Oklahoma)**

**Statistical Section Narrative
June 30, 2020**

Debt Capacity

The Agency has no debt, consequently no schedules are presented.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the Agency's financial activities take place. The Agency's service area comprises the entire State of Oklahoma

Schedules presented are:

- Demographic and Economic Statistics
- Major Non-governmental Employers – Current and Ten Years Ago

Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the Agency's financial report relates to the activities it performs.

Schedules presented are:

- Agency Full Time Equivalents by Department – Last Ten Fiscal Years

Capital Assets

These schedules provide information on the volume and usage of the Agency's capital assets. The material elements of the Agency's capital assets are used in its leasing functions.

Schedules presented are:

- Surface Acres Owned by County – Last Ten Fiscal Years
- Net Mineral Acres Owned by County – Last Ten Fiscal Years

**Report on Internal Control over Financial Reporting and on
Compliance and Other Matters Based on an Audit of
Financial Statements Performed in Accordance with
Government Auditing Standards**

Independent Auditor's Report

Commissioners of the Land Office
State of Oklahoma

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of the Commissioners of the Land Office, State of Oklahoma (the Agency), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Agency's basic financial statements, and have issued our report thereon dated December 23, 2020.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Agency's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Agency's internal control. Accordingly, we do not express an opinion on the effectiveness of the Agency's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Agency's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
