CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT

The Honorable Board of Education Crooked Oak Independent School District #53 Oklahoma County, Oklahoma

Board Members:

Report on Financial Statements

We have audited the accompanying combined fund type and account group financial statements-regulatory basis of the **Crooked Oak Independent School District #53**, Oklahoma County, Oklahoma, as of and for the year ended June 30, 2015, and the related notes to the financial statements which collectively comprise the district's regulatory financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the financial reporting provisions of the Oklahoma State Department of Education. This includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to error or fraud.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As discussed in Note 1, the financial statements are prepared by **Crooked Oak Independent School District #53** Oklahoma County, Oklahoma, on the basis of the financial reporting provisions of the Oklahoma State Department of Education, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to comply with the requirements of the Oklahoma State Department of Education. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to in the first paragraph do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of **Crooked Oak Independent School District #53**, Oklahoma County, Oklahoma, as of June 30, 2015, or the changes in its financial position, for the year then ended.

Basis for Qualified Opinion on Regulatory Basis of Accounting

The financial statements referred to above do not include the general fixed asset account group, which is a departure from the regulatory basis of accounting prescribed by the Oklahoma State Department of Education. The amount that should be recorded in the general fixed asset account group is not known.

Qualified Opinion on Regulatory Basis of Accounting

In our opinion, except for the effects of the matter described in the "Basis for Qualified Opinion on Regulatory Basis of Accounting" paragraph, the financial statements referred to in the first paragraph present fairly, in all material respects, the assets, liabilities, and fund balance arising from regulatory basis transactions of each fund type and account group of **Crooked Oak Independent School District**, #53, Oklahoma County, Oklahoma as of June 30, 2015, and the revenues collected, expenditures paid/expenses, and budgetary results, for the year ended on the regulatory basis of accounting described in Note 1.

Other Matters

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the **Crooked Oak Independent School District #53, Oklahoma County, Oklahoma's** basic financial statements. The combining statements – regulatory basis, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the *Oklahoma Department of Education* and/or the U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is also not a required part of the basic financial statements.

The combining financial statements-regulatory basis and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining financial statements and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole on the regulatory basis of accounting described in Note 1.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated February 2, 2016, on our consideration of the Crooked Oak Independent School District, #53, Oklahoma County, Oklahoma's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standard in considering Crooked Oak Independent School District, #53, Oklahoma County, Oklahoma's internal control over financial reporting and compliance.

Note 1 - Summary of Significant Accounting Policies

The basic financial statements of the Crooked Oak Public Schools Independent District No. 53, Oklahoma County, Oklahoma (the "District") have been prepared in conformity with an other comprehensive basis of accounting as prescribed by the Oklahoma State Department of Education. The more significant of the District's accounting policies are described below.

1.A. Reporting Entity

The District is a corporate body for public purposes created under Title 70 of the Oklahoma Statutes and accordingly is a separate entity for operating and financial reporting purposes.

The District is part of the public school system of Oklahoma under the general direction and control of the State Board of Education and is financially dependent on the State of Oklahoma support. The general operating authority for the public school system is the Oklahoma School Code contained in Title 70, Oklahoma Statutes.

The governing body of the District is the Board of Education composed of elected members. The appointed superintendent is the executive officer of the District.

In evaluating how to define the District, for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria established by the Governmental Accounting Standards Board The basic, but not the only, criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters. A second criterion used in evaluating potential component units is the scope of public service. Application of this criterion involves considering whether the activity benefits the District and /or its citizens, or whether the activity is conducted within the geographic boundaries of the District and is generally available to its patrons. A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the District is able to exercise oversight responsibilities. Based upon the application of these criteria, there are no potential component units included in the District's reporting entity. The District has various supporting groups. However, the District does not appoint any of the board members or exercise any oversight authority over these groups and the dollar amounts are not material to the District.

1.B. Fund Accounting

The District uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain district functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. An account group, on the other hand, is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources.

Funds are classified into three categories: governmental, proprietary and fiduciary. Each category, in turn, is divided into separate "fund types."

Note 1 - Summary of Significant Accounting Policies, (continued)

1.B. Fund Accounting, Governmental Fund Types, (continued)

Governmental Fund Types

Governmental funds are used to account for all or most of a government's general activities, including the collection and disbursement of earmarked monies (special revenue funds), the acquisition or construction of general fixed assets (capital projects funds), and the servicing of general long-term debt (debt service funds).

1. General Fund - The General Fund is used to account for all financial transactions except those required to be accounted for in another fund. Major revenues sources include state and local property taxes and state funding under the Foundation and Incentive Aid Program.

Expenditures include all costs associated with the daily operations of the schools except for programs funded for building repairs and maintenance, school construction and debt service on bonds and other long-term debt. The general fund includes federal and state restricted monies that must be expended for specific programs.

2. Special Revenue Funds - The Special Revenue Funds of the District consist of the Building Fund and Child Nutrition Fund.

<u>Building Fund</u> - The Building Fund consists of monies derived from property taxes levied for the purpose of erecting, remodeling, or repairing buildings and for purchasing furniture and equipment.

<u>Child Nutrition Fund</u> - The Child Nutrition Fund consists of monies collected from meals served to students and employees of the district and is expended on food, supplies and salaries to operate the lunchroom. The district also deposits reimbursements received from the National School Lunch and Breakfast programs into this fund.

- **3. Debt Service Fund** The debt service fund is the District's Sinking Fund and is used to account for the accumulation of financial resources for the payment of general long-term debt principal, interest and related costs. The primary revenue sources are local property taxes levied specifically for debt service and interest earnings from temporary investments.
- **4. Capital Projects Fund** The capital projects fund consists of the District's 2006-2014 building bond issues. These funds are used to account for the proceeds of bond sales to be used exclusively for acquiring school sites, constructing and equipping new school facilities and renovating existing facilities.

Note 1 - Summary of Significant Accounting Policies, (continued)

1.B. Fund Accounting, (continued)

Fiduciary Fund Types

Fiduciary Funds are used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the District. When these assets are held under the terms of a formal trust agreement, trust funds are used for their accounting and reporting. Agency funds generally are used to account for assets that the District holds on behalf of others as their agent and do not involve measurement of results of operations.

1. Agency Funds - The Agency Fund is the School Activities fund, which is used to account for monies, collected principally through fundraising efforts of the students and District-sponsored groups. The administration is responsible, under the authority of the Board, of collecting, disbursing and accounting for these activity funds.

Account Groups

Account groups are not funds and consist of a self-balancing set of accounts used only to establish accounting control over long-term debt and general fixed assets not accounted for in proprietary funds.

- 1. General long-term Debt Account Group This account group is used to account for all long-term debt of the District, which is offset by the amount available in the debt service fund and the amount to be provided in future years to complete retirement of the debt principal. It is also used to account for liabilities for compensated absences and early retirement incentives, which are to be paid from funds provided in future years.
- <u>2. General Fixed Asset Account Group</u> This account group is used to account for property, plant and equipment of the District. The District does not have the information necessary to include this group in its combined financial statements.

Memorandum Only - Total Column

The total column on the general purpose financial statements is captioned "memorandum only" to indicate that it is presented only to facilitate financial analysis. Data in this column does not present financial position, results of operations or cash flows in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

1.C. Basis of Accounting and Presentation

The District prepares its financial statements in a presentation format that is prescribed by the Oklahoma State Department of Education. This format is essentially the generally accepted form of presentation used by state and local governments prior to the effective date of GASB 34, Basic Financial Statements-Management's Discussion and Analysis-for State and Local Governments. This format significantly differs from that required by GASB 34.

The basic financial statements are essentially prepared on a basis of cash receipts and disbursements modified as required by the regulations of the Oklahoma State Department of Education (OSDE) as follows:

Note 1 - Summary of Significant Accounting Policies, (continued)

1.C. Basis of Accounting and Presentation, (continued)

- Encumbrances represented by purchase orders, contracts, and other commitments for the expenditure of monies and are recorded as expenditures when approved.
- Investments and inventories are recorded as assets when purchased.
- Capital assets in proprietary funds are recorded when acquired and depreciated over their useful lives
- Warrants payable are recorded as liabilities when issued.
- Long-term debt is recorded when incurred.
- Accrued compensated absences are recorded as an expenditure and liability when the obligation is incurred.

This regulatory basis of accounting differs from accounting principles generally accepted in the United States of America, which require revenues to be recognized when they become available and measurable, or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred for governmental fund types; and, when revenues are earned and liabilities are incurred for proprietary fund types and trust funds.

1.D. Budgets and Budgetary Accounting

The District is required by state law to prepare an annual budget. The board of education requests an initial temporary appropriations budget from the county excise board before June 30. Then no later than October 1, the board of education prepares financial statement and estimate of needs and files it with the applicable county clerk and the State Department of Education. The final budget may be revised upon approval of the board of education and the county excise board.

Under current Oklahoma Statutes, a formal budget is required for all funds except for trust and agency funds. Budgets are presented for all funds that include the originally approved budgeted appropriations for expenditures and final budgeted appropriations as adjusted for supplemental appropriations and approved transfers between budget categories.

1.E. Assets, Liabilities and Fund Equity

<u>Cash and Cash Equivalents</u> – For purposes of the statement of cash flows, the District considers all cash on hand, demand deposits, and highly liquid investments, with an original maturity of three months or less when purchased, to be cash and cash equivalents.

<u>Investments</u> - Investments consist of direct obligations of the United States government and agencies with maturities greater than three months when purchased. All investments are records at cost, which approximated market value.

<u>Property Tax Revenues</u> – The District is authorized by state law to levy property taxes, which consist of ad valorem taxes on real and personal property within the District. The County Assessor, upon receipt of the certification of tax levies from the county excise board, extends the tax levies on the tax roll for submission to the county treasurer prior to October 1. The county treasurer must commence tax collection within fifteen days of receipt of the tax rolls. The first half of taxes are due prior to January 1. The second half is due prior to April 1.

Note 1 - Summary of Significant Accounting Policies, (continued)

1.E. Assets, Liabilities and Fund Equity, (continued)

If the first payment is not made timely, the entire tax becomes due and payable on January 2. Second half taxes become delinquent on April 1 of the year following the year of assessment. If not paid by the following October 1, the property is offered for sale for the amount of taxes due. The owner has two years to redeem the property by paying the taxes and penalty owed. If at the end of two years the owner has not done so, the purchaser is issued a deed to the property.

<u>Inventories</u> – The value of consumable inventories at June 30, 2015, is not material to the basic financial statements.

Fixed Assets and Property, Plant and Equipment - The General Fixed Asset Account Group has not been presented.

<u>Compensated Absences</u> - Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. There are no amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources. Vested or accumulated vacation leave of proprietary funds is recorded as an expense and liability of those funds as the benefits accrue to employees.

No liability is recorded for nonvesting accumulating rights to receive sick pay benefits. Vested accumulated rights to receive sick pay benefits have not been reported in the general long-term debt account group since the amount is not material to the financial statements.

<u>Long-Term Debt</u> – Long-term debt is recognized as a liability of a governmental fund when due or when resources have been accumulated in the debt service fund for payment early in the following year. For other long-term obligations, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund. The remaining portion of such obligations is reported in the general long-term debt account group. Long-term liabilities expected to be financed from proprietary fund operations are accounted for in those funds.

<u>Fund Balance</u> - In the fund financial statements, governmental funds report the hierarchy of fund balances. The hierarchy is based primarily on the degree of spending constraints placed upon use of resources for specific purposes versus availability of appropriation. An important distinction that is made in reporting fund balance is between amounts that are considered *nonspendable* (i.e., fund balance associated with assets that are *not in spendable form*, such as inventories or prepaid items, long-term portions of loans and notes receivable, or items that are legally required to be maintained intact (such as the corpus of a permanent fund) and those that are spendable (such as fund balance associated with cash, investments or receivables).

Amounts in the *spendable* fund balance category are further classified as *restricted*, *committed*, assigned or unassigned, as appropriate.

Restricted fund balance represents amounts that are constrained either externally by creditors (such as debt covenants), grantors, contributors or laws or regulations of other governments; or by law, through constitutional provisions or enabling legislation.

Note 1 - Summary of Significant Accounting Policies, (continued)

1.E. Assets, Liabilities and Fund Equity, (continued)

Committed fund balance represents amounts that are useable only for specific purposes by formal action of the government's highest level of decision-making authority. Such amounts are not subject to legal enforceability (like restricted amounts), but cannot be used for any other purpose unless the government removes or changes the limitation by taking action similar to that which imposed the commitment.

Assigned fund balance represents amounts that are intended to be used for specific purposes, but are neither restricted nor committed. Intent is expressed by the governing body itself, or a subordinated high-level body or official who the governing body has delegated the authority to assign amounts to be used for specific purposes. Assigned fund balances includes all remaining spendable amounts (except negative balances) that are reported in governmental funds other than the general fund, that are neither restricted nor committed, and amounts in the general fund that are intended to be used for specific purpose in accordance with the provisions of the standard.

Unassigned fund balance is the residual classification for the general fund. It represents the amounts that have not been assigned to other funds, and that have not been restricted, committed, or assigned to specific purposes within the general fund.

Resource Use Policy

It is the District's policy for all funds that when an expenditure/expense is incurred for purposes for which both restricted and unrestricted resources, including fund balances, are available, the District considers restricted amounts to be spent first before any unrestricted amounts are used. Furthermore, it is the District's policy that when an expenditure/expense is incurred for purposes for which committed, assigned, or unassigned resources, including fund balances, are available, the School considers committed amounts to be spent first, followed by assigned amounts and lastly unassigned amounts

1.F. Revenue, Expenses, and Expenditures

<u>State Sources</u> - Revenues from state sources for current operations are primarily governed by the state aid formula under provisions of Article XVIII, Title 70, Oklahoma Statutes. The State Board of Education administers the allocation of the state aid funds to school districts based on information accumulated from the districts.

After review and verification of reports and supporting documentation, the State Department of Education may adjust subsequent fiscal period allocations of money for prior year errors disclosed by review. Normally, such adjustments are treated as reductions or additions of revenue of the year when the adjustment is made.

The District receives revenue from the state to administer certain categorical education programs. The State Board of Education rules require that revenue earmarked for these programs be expended only for the program for which the money is provided. These rules also require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same categorical programs. The State Department of Education requires that categorical educational program revenues be accounted for in the general fund.

Note 1 - Summary of Significant Accounting Policies, (continued)

1.F. Revenue, Expenses, and Expenditures, (continued)

<u>Interfund Transactions</u> - Quasi-external transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund or expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the fund that is reimbursed.

All other interfund transactions, except quasi-external transactions and reimbursements, are reported as transfers. Transfers in/transfers out may not agree because activity fund transactions are not included.

Note 2 – Deposit and Investment Risk

The District held the following deposits and investments at June 30, 2015:

				Carrying
				Value
Deposits				
Demand Deposits			\$	6,219,878
Time Deposits			,	0
Total Deposits			\$	6,219,878
Investments			•	
	Credit Rating	Maturity		Fair Value
			\$	0
Total Investments			\$	0
Reconciliation to the Combined Statement of	Assets, Liabilities	s and Equity	,	
Cash and Cash Equivalents			\$	6,212,022
Activity Fund Outstanding Checks/Deposits	in Transit			7,856
Total Deposits and Investments			\$	6,219,878
			,	

Custodial Credit Risk – Exposure to custodial credit related to deposits exists when the District holds deposits that are uninsured and uncollateralized; collateralized with securities held by the pledging financial institution, or by its trust department or agent but not in the District's name; or collateralized without a written or approved collateral agreement. Exposure to custodial credit risk related to investments exists when the District holds investments that are uninsured and unregistered, with securities held by the counterparty or by its trust department or agent but not in the District's name.

The District's policy as it relates to custodial credit risk is to secure its uninsured deposits with collateral, valued at no more than market value, at least at a level of 100 percent of the uninsured deposits and accrued interest thereon. The investment policy and state law also limits acceptable collateral to U.S. Treasury and agency securities and direct debt obligations of the state, municipalities, counties, and school districts in the state of Oklahoma, surety bonds, and letters of credit. As required by Federal 12 U.S.C.A., Section 1823(e), all financial institutions pledging collateral to the District must have a written collateral agreement approved by the board of directors or loan committee.

At June 30, 2015, the District was not exposed to custodial credit risk as defined above.

Note 2 – Deposit and Investment Risk, (continued)

Investment Credit Risk – The District has no investment policy that limits its investment choices other than the limitations of state law that generally authorize investment in:

- 1. Direct obligations of the U.S. Government, its agencies and instrumentalities to which the full faith and credit of the U.S. Government is pledged, or obligations to the payment of which the full faith and credit of the State is pledged.
- 2. Certificates of deposit of banks when such certificates of deposits are secured by acceptable collateral for the deposit of public monies..
- 3. Savings accounts or saving certificates to the extent that such accounts or certificates are fully insured by the United States Government.
- 4. Repurchase agreements that have underlying collateral including obligations of the United States government, its agencies and instrumentalities, or the State of Oklahoma.
- 5. County, municipal or school district debt obligations for which an ad valorem tax may be levied.
- 6. Money market funds regulated by the SEC and in which investments consist of the investments consist of obligations of the United States, its agencies and instrumentalities.
- 7. Warrants, bonds or judgments of the school district.
- 8. Qualified pooled investment programs through an interlocal cooperative agreement formed pursuant to applicable law and to which the board of education has voted to be a member, the investments of which consist of those items specified in paragraphs 1 through 7 above, as well as obligations of the United States agencies and instrumentalities.
- 9. Any other investment that is authorized by law.

Investment credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation. The District has no formal policy limiting investments based on credit rating, but discloses any such credit risk associated with their investment by reporting the credit quality ratings of investment in debt securities as determined by nationally recognized statistical rating organizations-rating agencies-as of the year end. Unless there is information to the contrary, obligations of the U.S. government or obligations explicitly guaranteed by the U.S. government are not considered to have credit risk and do not require disclosure of credit quality.

The district had no investment credit risk as of June 30, 2015, as defined above.

Investment Interest Rate Risk – Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The District discloses it exposure to interest rate risk by disclosing the maturity dates of its various investments. The District had no investment interest rate risk as defined above.

Concentration of Investment Credit Risk – Exposure to concentration of credit risk is considered to exist when investments in any one issuer represent a significant percent of total investments of the District (any over 5 percent are disclosed). Investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments are excluded from this consideration. The District places no limit on the amount it may invest in any one issuer.

At June 30, 2015, the District had no concentration of credit risk as defined above.

Crooked Oak ISD No. 53, Oklahoma County

Notes To The Financial Statements For The Year Ended June 30, 2015

Note 3 - General Long-term Debt

State statutes prohibit the District from becoming indebted in an amount exceeding the revenue to be received for any fiscal year without approval by the District's voters.

General long-term debt of the District consists of bonds payable, capital leases, and compensated absences.

The following is a summary of the long-term debt transactions of the District for the year ended June 30, 2015:

	Bonds	Capital Lease	Compensated	
	Payable	Obligations	Absences	Total
Balance July 1, 2014	\$ 4,215,000 \$	8,004,463 \$	63,236 \$	12,282,699
Additions	1,465,000	10,096,200	0	11,561,200
Retirements	(1,200,000)	(1,315,873)	(5,830)	(2,521,703)
Balance, June 30, 2015	\$ 4,480,000 \$	16,784,790 \$	57,406 \$	21,322,196

A brief description of the outstanding general obligation bond issues at June 30, 2015, is set forth below:

	Interest	Maturity	Amount	Amount
	Rate	Date	Issued	Outstanding
2013 Building Bonds	0.75%	08-01-15	\$ 1,465,000	\$ 1,465,000
2013 Building Bonds	.50-1.0%	11/01/18	1,550,000	1,550,000
2014 Combined Purpose Bonds	0.70%	08/01/18	1,465,000	1,465,000
Totals			\$ 4,480,000	\$ 4,480,000

Presented below is a summary of debt service requirements to maturity by years and by each bond issue:

	Principal	Interest	Total
2013 Building Bonds			
2015-2016 \$	1,465,000 \$	10,988 \$	1,475,988
Total 2013 Bonds \$	1,465,000 \$	10,988 \$	1,475,988
2013 Building Bonds			
2015-2016 \$	365,000 \$	13,675 \$	378,675
2016-2017	395,000	11,850	406,850
2017-2018	395,000	7,900	402,900
2018-2019	395,000	3,950	398,950
Total 2013 Bonds \$	1,550,000 \$	37,375 \$	1,587,375
2014 Combined Purpose Bonds			
2015-16 \$	0 \$	10,255 \$	10,255
2016-17	1,465,000	10,255	1,475,255
Total 2014 Bonds \$	1,465,000 \$	20,510 \$	1,485,510
Total Bonds \$	4,480,000 \$	68,873 \$	4,548,873

Note 3 - General Long-term Debt, (continued)

Interest expense on bonds payable incurred during the current year totaled \$41,193.75.

District has entered into various lease agreements as lessee for financing the acquisition of a an elementary building and a high school building, copiers, and buses. These lease agreements qualify as a capital leases for accounting purposes since title transfers at the end of the lease terms and they have been recorded at the present value of the future minimum lease payments. These leases contain a clause which gives the District the ability to terminate the lease agreements at the end of each fiscal year.

As noted in Note 1 to the financial statements, the District does not record fixed assets in the financial statements. Consistent with this, the District has not recorded the above assets as assets in the General Fixed Assets Account Group. The District has recorded the liability for future lease payments in the general long-term debt account group for the above lease.

The schedule of future minimum lease payments under the capital leases and the present value of the net minimum lease payments at June 30, is as follows:

				Elementary	High School		
Year Ending		Buses	Copiers	Building	Building		<u>Total</u>
2016	\$	67,500 \$	21,600 \$	1,276,800 \$	178,200	\$	1,544,100
2017		67,500	21,600	1,306,500	163,350		1,558,950
2018		0	10,800	1,341,150	143,550		1,495,500
2019		0	0	1,375,800	123,750		1,499,550
2020		0	0	1,405,500	108,900		1,514,400
		0	0	0	1,529,250		1,529,250
		0	0	0	1,529,250		1,529,250

		0	0	0	1,529,250		1,529,250
		0	0	0	1,529,250		1,529,250
		0	0	0	1,529,250		1,529,250
Total Minimum Lease Payments	\$	135,000 \$	54,000 \$	6,705,750 \$	9,893,250	\$	16,788,000
Less: Amounts Representing Interest		0	(3,210)	0	0		(3,210)
Present Value of Future Minimum Lease Payments	; .	135,000 \$	50,790 \$	6,705,750	9,893,250	\$_	16,784,790

Compensated Absences

The District will pay \$10.00 per day for unused sick leave of an employee who retires or terminated employment up to a maximum of 150 days. The liability for compensated absences as of June 30, 2015 is \$57,406.

Note 4 - Employee Retirement System

Plan Description - The District participates in the state-administered Oklahoma Teachers' Retirement System (the "System") which is a cost-sharing multiple-employer defined benefit Public Employee Retirement System (PERS). The administration, benefits, and funding of the System are governed by Article XVII, Section 70 of the Oklahoma Statutes. The System is administered by a board of trustees which acts as a fiduciary for investing the funds and governing the administration of the System. PERS provides retirement, disability and death benefits to plan members and beneficiaries. The district has no responsibility or authority for the operation and administration of the System nor has it any liability, except for the current contribution requirements.

Note 4 - Employee Retirement System, (continued)

The System issues a publicly available financial report that includes financial statements and required supplementary information that can be obtained in writing at the Teachers' Retirement System of Oklahoma, P.O. Box 53524, Oklahoma City, Ok 73152 or by calling (405) 521-2387.

Funding Policy - Under the System, contributions are made by the District, the State of Oklahoma, and the participating employees. Participation is required for all teachers and other certified employees and is optional for all other regular employees of public education institutions who work at least 20 hours per week.

The contribution rates for the District and its employees, which are not actuarially determined, are established by statute and applied to the employee's earnings, plus employer-paid fringe benefits. The District is required by statute to contribute 9.50% of applicable compensation for the year ended June 30, 2015. The District is allowed by the Oklahoma Teacher's Retirement System to make the required contributions on behalf of the participating members. The required contribution for participating members is 7%.

The District's contributions to the System for the years ending June 30, 2015, 2014, and 2013 were \$579,885, \$547,906, and \$478,773 respectively.

The compensation for employees covered by the System for the year ended June 30, 2015 was \$5,911,707; the District's total compensation was \$6,747,087. In addition to the District's 9.50% contributions, the District was required to pay into the System 8.25% of compensation arising from federal grants \$58,465. There were \$345,782 contributions made by employees during the year ended June 30, 2015.

The pension benefit obligation is a standardized disclosure measure of the present value of pension benefits. This pension valuation method reflects the present value of estimated pension benefits that will be paid in future years as a result of employee services performed to date and is adjusted for the effect of projected salary increases. There are no actuarial valuations performed on individual school districts. The nonfunded pension benefit obligation of the System as determined as part of the latest actuarial valuation dated June 30, 2014, is as follows:

Total pension obligation \$ 19,575,551,730

Net assets available for benefits, at cost 12,368,960,848

Nonfunded pension benefit obligation \$ 7,206,590,882

The System's accounting records are maintained on the cash basis of accounting, except for accruals of interest income.

Ten-year historical trend information is presented in the Teacher's Retirement System of Oklahoma Annual Report for the year ended June 30, 2014. This information is useful in assessing the pension plan's accumulation of sufficient assets to pay pension benefits as they come due.

Note 5 - Contingencies

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agency. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

Note 6 – Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; or acts of God. The District purchases commercial insurance to cover these risks, including general and auto liability, property damage, and public officials liability. The District had the following insurance coverage during the year: Commercial property - \$47,106,782; general liability - \$1,000,000. Settled claims resulting from these risks have not exceeded the commercial insurance coverage in any of the past three fiscal years.

The School also participates in a risk pool for Workers' Compensation coverage in which there is a transfer or pooling of risks among the participants of that pool. In accordance with GASB No. 10, the school reports the required contribution to the pool, net of refunds, as insurance expense. The risk pool is the Oklahoma School Assurance Group (OSAG), an organization formed for the purpose of providing workers' compensation coverage to participating schools in the State of Oklahoma. In that capacity, OSAG is responsible for providing loss control services and certain fiscal activities, including obtaining contract arrangements for the underwriting, excess insurance agreements, claims processing, and legal defense for any and all claims submitted to them during the plan year. As a member of OSAG the District is required to pay fees set by OSAG according to an established payment schedule. A portion of the fees paid by the District goes into a loss fund for the District. The fee for the loss fund is calculated by projecting losses based on the schools losses for the last five year. OSAG provides coverage in excess of the Loss Fund so the District's liability for claim loss in limited to the balance of the loss fund. If the District does not use their loss fund in three years it is returned to them with no interest.

Note 7 - Use of Estimates

The preparation of financial statements in conformity with the cash basis and budget laws of the Oklahoma State Department of Education requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Note 8 – Surety Bonds

The Superintendent is bonded by RLI Insurance company bond #LSM0373835 for the penal sum of \$100,000 for the term July 1, 2014 to July 1, 2015.

The Treasurer is bonded by RLI Insurance company bond #LSM0400624 for the penal sum of \$100,000 for the term July 17, 2014 to July 17, 2015.

The Encumbrance clerk/Minutes clerk/Activity Fund custodian is bonded by RLI Insurance Company bond #LSM0372232 for the penal sum of \$100,000 for the period June 1, 2014 to June 1, 2015.

The Activity Account Clerk/Payroll Clerk, are bonded by Old Republic Surety Company bond #POB 1100372 for the penal sum of \$5,000 for the period July 1, 2014 to July 1, 2015.

Note 9 – Subsequent Events

The school is going through a State Auditor audit. It appears the investigation will not have a material effect on the June 30, 2015 financial audit.

TOTAL FEDERAL ASSISTANCE			-	13,306	1,521,957	1,707,240	(124,552)	40,799

Note 1 - The Schedule of Federal Awards expended was prepared using the same accounting policies used in preparing the District's Financial Statements. The District's policy is to recognize expenditures when encumbered (contracted for) rather than at the time the related fund liability is incurred.

Note 4 - In September of 2014, the District was required to refund overpayments received during the 2014-15 year for 2013-14 reimbursements to the Oklahoma State Department of Education. Both the receivable amounts and the current year revenues have been reduced by these refunds: Title I \$14,973.2, IDEA-B Flowthrough \$6,131,96, Titel II-Part A \$1,474.62 and 21st Century \$37.90.

Note 2 - Commodities received were of a nonmonetary nature and therefore the total revenue does not agree with the financial statements by this amount.

Note 3 - The district coded \$7,736 more expenditures to Title VII-Indian Education than it received reimbursement for in 2013-14. This amount was carried over to the 2014-15 year. However, the monies were not called down and therefore will not be received.

CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Honorable Board of Education Crooked Oak Independent School District #53 Oklahoma County, Oklahoma

Board Members:

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the fund type and account group financial statements, regulatory basis, of **Crooked Oak Independent School District #53**, Oklahoma County, Oklahoma, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the District's combined financial statements and have issued our report thereon dated February 2, 2016. The report on these financial statements was adverse because the District has elected to prepare its financial statements on the basis of the financial reporting provisions of the Oklahoma State Department of Education, which is a material departure from accounting principles generally accepted in the United States of America. Our opinion regarding the presentation of the financial statements referred to above in conformity with the prescribed basis of accounting was qualified due to the omission of the general fixed asset account group.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered **Crooked Oak Independent School District #53**, Oklahoma County, Oklahoma's (The District's), internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of The District's internal control. Accordingly, we do not express an opinion on the effectiveness of The District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs to be significant deficiencies. (2015-1-2015-7).

Compliance and Other Matters

As part of obtaining reasonable assurance about whether The District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Crooked Oak Independent School District #53, Oklahoma's, Response to Findings

Crooked Oak Independent School District #53, Oklahoma's responses to the findings identified in our audit are described in the attached corrective action plan. The District's responses were not subjected to the auditing procedures applied in the audit of the financial statements and accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Chickasha, Oklahoma February 2, 2016

CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

The Honorable Board of Education Crooked Oak Independent School District #I-53 Oklahoma County, Oklahoma

Board Members:

Report on Compliance for Each Major Federal Program

We have audited **Crooked Oak Independent School District #I-53,** Oklahoma County, Oklahoma's, compliance with the types of compliance requirements described in *the OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2015. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Crooked Oak Independent School District, I-53 Oklahoma County, Oklahoma's, major federal programs based on our audit of the types of compliance requirements referred above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, Crooked Oak Independent School District #I-53, Oklahoma County, Oklahoma complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2015.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as Finding 2015-8. Our opinion on each major federal program is not modified with respect to these matters.

Crooked Oak Independent School District #I-53, Oklahoma County, Oklahoma's response to the noncompliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The District's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion the response.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on a major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Chickasha, Oklahoma February 2, 2016

Crooked Oak ISD No. 53, Oklahoma County Schedule of Findings and Questioned Cost For the Year Ended June 30, 2015

(Continued)

Findings-Financial Statement Audit

2015-1 - Finding

<u>Statement of Condition</u> – One employee was paid \$49,478 but the district could locate only one "Maintenance" contract for \$20,654 plus an extra duty contract for "Holiday Pay" for \$635.

The remaining \$28,188 was made up of \$744 overtime pay on maintenance contract, \$300 stipend paid to returning employees, \$5,501 for transportation routes, and \$21,643 for security & alarm calls. The district could not locate contracts for the transportation or security & alarm calls. The transportation payments were based upon the number of bus runs made (no overtime was paid on these amounts). The security & alarm calls were paid based upon timesheets and it was paid at 1 % the regular rate of pay (\$10.45/hour * 1.5 = \$15.67). Alarm calls were assumed to be 1 hour each but only a start time was listed.

We noted the following problems/concerns in conjunction with these payments:

- Timesheets for the maintenance work reflected working from 6:30 to 4:30 (10 hours) almost every day. But the employee was only paid for 8 hours a day except for the 6/12/15 payment (the employee was paid for 50 hours of overtime at 1 ½ their regular rate of pay = \$744). The timesheet did not reflect any time off for lunch or for a break before starting the security work. So either the timesheets were wrong or the employee was underpaid for these days.
- Timesheets for security started at 4:30 and usually listed time through 9:00 PM or as late as midnight. Thus, timesheets reflected working up to 17 ½ hours without a break.
- Alarm calls were paid extra, even if the employee had already charged in the same time to his other positions.
- Transportation runs were paid extra even though the employee's timesheets reflect working from 6:30 AM to 9:00 PM on other jobs. So if the maintenance timesheets were correct, then the employee was paid twice for the same time worked. If the maintenance timesheets were incorrect and should have reflected only 8 hours worked, that would leave 2 hours available for lunch, breaks and bus routes. The employee sometimes charged in up to 7 bus routes a day (paid 10.60 per route). Thus, it appears that at least some of the extra transportation pay was for time that was already charged in.
- It appears that the 7/14/14 payment was for time worked in June of the previous fiscal year. These payments should have been encumbered and paid from the 2013-14 appropriations.
- Although it improved after our last audit, we still noted that some timesheets were not signed by a supervisor and some were not dated.
- A contract was not prepared for the security or transportation payments.

<u>Criteria</u> – The Fair Labor Standards Act requires accurate time records be maintained by all non-exempt employees. Employees should be paid 1 ½ their regular rate of pay anytime they work over 40 hours/work week. Contracts should be prepared/maintained for regular duties being performed.

Crooked Oak ISD No. 53, Oklahoma County Schedule of Findings and Questioned Cost For the Year Ended June 30, 2015

(Continued)

<u>Cause/Effect of Condition</u> – Employee either turned in inaccurate timesheets that don't reflect actual work performed or the employee was underpaid. Also, the employee was paid twice for the same hours worked.

<u>Recommendation</u> – Contracts should be prepared for all regular job duties. All employees should be informed that timesheets are to reflect only time worked (lunch or extended breaks should not be included in time worked). The supervisor should review timesheets before they approve them to ensure they are accurate. The payroll clerk should inform management of questionable timesheets. Employees should be paid for all overtime shown on timesheets. The district may want to seek legal advice as to whether any fraud may have been committed.

2015-2 - Finding

<u>Statement of Condition</u> - One office assistant employee prepared timesheets that reflect she worked from 7:00 to 11:00 and 11:30 to 3:30 (7 hours/day). She also turned in timesheets for transportation that reflected 3 to 4 routes per day and was paid \$5,713 extra for these routes. Thus, it appears that she may have claimed she was driving a bus route at the same time she was already being paid to be an office assistant.

<u>Criteria</u> – Accurate timesheets should be maintained to document actual hours worked. An employee should not be paid twice for the same hours worked.

<u>Cause/Effect of Condition</u> – The employee appears to have been paid twice for the same hours worked.

Recommendation – All employees should be informed that timesheets are to reflect only time worked (lunch or extended breaks should not be included in time worked). The supervisor should review timesheets before they approve them to ensure they are accurate. The payroll clerk should inform management of questionable timesheets. The district may want to seek legal advice as to whether any fraud may have been committed. Also, the district should consider whether any other personnel may be charging in the same time twice and take action as they deem necessary.

2015-3 - Finding

<u>Statement of Condition</u>: The District is paying an employee who did not work any days in the 2014-15 year due to medical leave and who had exhausted all of his sick and personal days. The Superintendent stated that the reason for the continued payments was that the employee's life insurance had lapsed due to the negligence of District employees. He stated that they were trying to be fair with the employee during a time of need.

<u>Criteria</u> – Employees should be paid only for days worked based on a signed contract by the employee and the board of education.

<u>Cause/Effect of Condition</u> – The school was trying to be fair to the employee during his time of need.

<u>Recommendation</u> – The District should follow its sick leave policy for all covered employees. The District should also contact legal counsel with regards to how to proceed.

Crooked Oak ISD No. 53, Oklahoma County Schedule of Findings and Questioned Cost For the Year Ended June 30, 2015

(Continued)

2015-4 - Finding

<u>Statement of Condition</u> - The District did not pay federal matching teacher retirement on salaries charged to the 21st Century Community Learning Center (project 553). We estimate the underpayment of the federal matching to be approximately \$13,725.

<u>Criteria</u> – The teacher retirement system requires the school to pay an 8.25% matching contribution on salaries paid with federal funds.

<u>Cause/Effect of Condition</u> - The District did not have these federal project codes setup to withhold the proper amount of federal matching teacher retirement, therefor, teach retirement was underpaid.

<u>Recommendation</u> – The District should contact teacher retirement to discuss how to remit the underpaid amounts. In addition, the District needs make sure its software is setup correctly to properly withhold teacher retirement in the future.

2014-5 - Finding

<u>Statement of Condition</u> - 23 of 66 purchases tested, had an invoice dated prior to the purchase order date. Thus, it appears that items are being ordered prior to the purchase order being prepared.

<u>Criteria</u> – Before an item is ordered, a purchase order should be prepared and approved by the encumbrance clerk (to ensure there are sufficient appropriations to make the purchase) and the purchasing officer (to insure the item is authorized). Then the encumbrance clerk should encumber the purchase (input the purchase order into the district's software so they can lower available appropriations) and give the purchase order to the person who initiated the purchase so they can order the item.

<u>Cause/Effect of Condition</u> – The district could expend more than their legal appropriations or items could be ordered that would not have been approved by the purchasing officer.

Recommendation – The district should make sure no purchase is initiated without first obtaining an approved purchase order.

2015-6 - Finding

<u>Statement of Condition</u> – Although procedures improved, we still noted 12 or 66 purchased tested did not have the signature of the person who inspected the goods/services to verify payment could be made.

<u>Criteria</u> – Internal control procedures require a signature verifying the goods and or services were actually received and in good working order.

<u>Cause/Effect of Condition</u> – Employees were not following internal control procedures, therefore, payments could be made for goods or services not actually received or weren't in good working condition.

Crooked Oak ISD No. 53, Oklahoma County Schedule of Findings and Questioned Cost For the Year Ended June 30, 2015

(Continued)

Recommendation – Prior to payment being made, we recommend a signature be required on an invoice to certify that the goods/services were received in good condition.

2015-7 - Finding

Statement of Condition - During testing of gate and concession proceeds, we noted the following:

- Gate reconciliations were only signed by one person.
- Gate reconciliation forms did not force the gate keepers to reconcile their tickets sold to the money collected.
- One gate reconciliation was short by \$57 and one concession count sheet was short by \$55.
 There were no notations as to why.
- One concession count sheet was not completed correctly and the activity fund custodian had to finish completing it once it was turned into the office.

<u>Criteria</u> – Gate reconciliations and concession count forms should be completed at the end of an event before the money is placed into the hands of one person.

<u>Cause/Effect of Condition</u> – Lack of internal controls could result in monies not being accounted for.

Recommendation – Gate reconciliations and concession count forms should be completed at the end of an event. Tickets sold should be reconciled to cash collected. Two people should count the money, complete the form, and sign it before proceeds are placed into the hands of one person. Any significant discrepancies between ticket sales and actual cash should include a description of what the gate workers believe caused the problem.

Findings and Questioned Costs - Major Federal Award Programs Audit

2015-8 Finding - IDEA-Part B - Flowthrough CFDA 84.027

<u>Statement of Condition</u> - The new payroll clerk could not locate an extra duty contract or other documentation for \$1,200 of payments made to one employee and charged to IDEA Flowthrough (Project Code 621). Based upon the coding, it appears it was for driving a special education bus.

<u>Criteria</u> – Oklahoma State Statutes require payments in excess of \$500 to an employee be executed on a contract approved and signed by the board of education.

<u>Cause/Effect of Condition</u> – The district was not following the policies outlined in Oklahoma State Statutes for executing signed contracts so there is no documentation to prove that this is the amount the board of education intended to pay.

Recommendation – The district should prepare extra duty contracts for payments in excess of \$500.

Questioned Costs \$1,200

Crooked Oak ISD No. 53, Oklahoma County

Disposition of Prior Year Audit Findings For Year Ended June 30, 2015

2014-1 - Finding

<u>Statement of Condition</u> – The District pays a "Holiday" stipend to support staff based upon their negotiated agreement. The board signs an extra duty contract that reflects the amount of the stipend. Section 10 – Holidays of the negotiated agreement states:

- A. Support employees shall not be scheduled for work on the following holidays: Memorial Day, Independence Day, Labor Day, Thanksgiving Day, Christmas Day, New Year's Day, and Martin Luther King Day.
- B. Employees shall receive full pay for each of these days which occur within their contract period.

While most support staff should qualify for this stipend (because it is not part of their regular scheduled paid days), it appears 12 month support employees are being paid double for this time. Their contracts are already for 2080 hours (52 weeks * 5 days/week * 8 hours/day). Thus, they are already being paid for these holidays.

<u>Criteria</u> - Employees should not be paid more than the amount of their contract or negotiated agreement.

<u>Cause/Effect of Condition</u> – There was some confusion because of the wording of the negotiated agreement causing the 12 month support employees to be paid double for these holidays.

<u>Recommendation</u> – The District should determine whether the stipends should be allowed to support employees that are paid on a 2080 hour contract. If they determine that it is allowed, we recommend the negotiated agreement be changed to better reflect what is happening.

<u>Current Status</u> - The negotiated agreement was changed for the 2015-16 year (no changes were made for the 2014-15 year.)

2014-2 - Finding

<u>Statement of Condition</u> - The Finance Director/Payroll Clerk paid herself the "Holiday" stipend for the 2013-14 year but the employment file did not have a signed extra duty contract for it. In addition, she paid herself for the stipend for the prior year. The total amount paid was \$2,562.74.

However, the Finance Director is paid on a "Non-Certified Administrator's Contract" instead of a support personnel contract. And her position is not listed in the negotiated agreement. Thus, it appears her position does not fall within the negotiated agreement for support personnel.

<u>Criteria</u> – Employees should only be paid what is approved by the negotiated agreement criteria for their specific job title. Also, amounts should not be paid in excess of what is approved by the board of education secured by a signed contract.

<u>Cause/Effect of Condition</u> – The payroll clerk was not using the correct negotiated agreement criteria for her salary and did not secure a signed contract and was therefore overpaid.

<u>Recommendation</u> – The Finance Director should not make any payments that are not supported by proper documentation. Also, the District should determine whether the Finance Director has been overpaid and request reimbursement as deemed necessary. They may also want to seek legal advice on whether any additional steps should be taken in regards to the payment of this stipend.

<u>Current Status</u> – The district provided an extra duty contract for "Holiday Pay" in the amount of \$1,384.32. The employee resigned effective 1-28-15 with an agreement that she be paid until April 14th. She was paid 8/12ths of the "Holiday Pay".

2014-3 - Finding

<u>Statement of Condition</u>: The District is paying an employee who did not work any days in the 2013-14 year due to medical leave and who had exhausted all of his sick and personal days. The Superintendent stated that the reason for the continued payments was that the employee's life insurance had lapsed due to the negligence of District employees. He stated that they were trying to be fair with the employee during a time of need.

<u>Criteria</u> – Employees should be paid only for days worked based on a signed contract by the employee and the board of education.

<u>Cause/Effect of Condition</u> – The school was trying to be fair to the employee during his time of need.

<u>Recommendation</u> – The District should follow its sick leave policy for all covered employees. The District should also contact legal counsel with regards to how to proceed.

<u>Current Status</u> – The district reached a settlement during the 2015-16 year. The employee was paid for the entire 2014-15 year even though he did not work.

2014-4 - Finding

<u>Statement of Condition</u> - The District did not have an employment contract for one support staff and the employee's file did not have any documentation of how the amount was calculated. The Financial Director/Payroll Clerk stated that the amount was given to her verbally.

<u>Criteria</u> – Oklahoma State Statutes require payments in excess of \$500 to an employee be executed on a contract approved and signed by the board of education.

<u>Cause/Effect of Condition</u> – The school was not following the policies outlined in Oklahoma State Statutes for executing signed contracts so there is no documentation to prove that this is the amount the board of education intended to pay.

Recommendation – We recommend that employees only be paid based upon a signed contract.

<u>Current Status</u> – We noted one \$1,200 payment that did not have a signed contract.

2014-5 - Finding

<u>Statement of Condition</u> - The District did not pay federal matching teacher retirement on salaries charged to federal programs (project codes 763, 764 and 766) in the Child Nutrition Fund. We estimate the underpayment of the federal matching to be approximately \$14,335.

<u>Criteria</u> – The teacher retirement system requires the school to pay an 8.25% matching contribution on salaries paid with federal funds.

<u>Cause/Effect of Condition</u> - The District did not have these federal project codes setup to withhold the proper amount of federal matching teacher retirement, therefor, teach retirement was underpaid.

<u>Recommendation</u> – The District should contact teacher retirement to discuss how to remit the underpaid amounts. In addition, the District needs make sure its software is setup correctly to properly withhold teacher retirement in the future.

<u>Current Status</u> – The district started paying the federal matching teacher retirement during the 2014-15 year. However, we noted that the district did not pay the federal matching teacher retirement on a new 21st century grant.

2014-6 - Finding

<u>Statement of Condition</u> - The supervisor's signature space on timesheets is usually left blank. In order to ensure time records are accurate, a supervisor should verify the time worked and then sign the timesheet.

<u>Criteria</u> – Internal control procedures require signatures on time records to verify time was actually worked.

<u>Cause/Effect of Condition</u> - Internal control procedures are not being followed. Employees could be paid for hours not actually worked.

<u>Recommendation</u> – Policies should be enforced that require time sheets to be signed by the employee and a supervisor, to verify time was actually worked.

<u>Current Status</u> – Although the supervisor signed most timesheets during the 2014-15 year, we still noted a few timesheets that were not signed by the supervisor. Also, it appears some timesheets were approved that had questionable time amounts on them.

2014-7 - Finding

Statement of Condition - The June Balance Sheet prepared by the treasurer was off by \$7,989.92. It appeared that two Building Fund warrants (#25 and #26) had cleared the bank but were still on the outstanding list. Upon further discussion, the treasurer said that the warrants were originally paid from a bond fund but they discovered that there weren't enough monies left in the bond fund to make the payment. So they moved them to the Building Fund even though the original bond fund warrants had actually cleared the bank.

<u>Criteria</u> – Care should be taken to ensure that the schools records reconcile to the bank at the end of each of month.

<u>Cause/Effect of Condition</u> - After further discussions, we determined that the treasurer does not use the District's Municipal Accounting Software to reconcile to the bank. She prepares a manual spreadsheet to reconcile. It appears that if the District's software had been used for the reconciliation, the error could have been caught.

Recommendation – We recommend the treasurer prepare a bank reconciliation using the District's accounting software.

<u>Current Status</u> – We did not note any errors of this type during the 2014-15 year. However, it does not appear that the treasurer fully implemented reconciling using the district's software.

2014-8 - Finding

<u>Statement of Condition</u> - Most of the invoices tested in all funds including the Activity Fund did not have the signature of the person who inspected the goods/services to verify payment could be made.

<u>Criteria</u> – Internal control procedures require a signature verifying the goods and or services were actually received and in good working order.

<u>Cause/Effect of Condition</u> – Employees were not following internal control procedures, therefore, payments could be made for goods or services not actually received or weren't in good working condition.

<u>Recommendation</u> – Prior to payment being made, we recommend a signature be required on an invoice to certify that the goods/services were received in good condition.

<u>Current Status</u> – It appears the district has done a better job of ensuring all signatures are received prior to payment. However, we continued to note a few missing signatures.

2014-9 Finding

<u>Statement of Condition</u> – Activity Fund deposits for the AFROTC candy bar fundraiser were not made timely.

<u>Criteria</u> – Oklahoma State Statutes required deposits be made daily if over \$100, but never less than once a week.

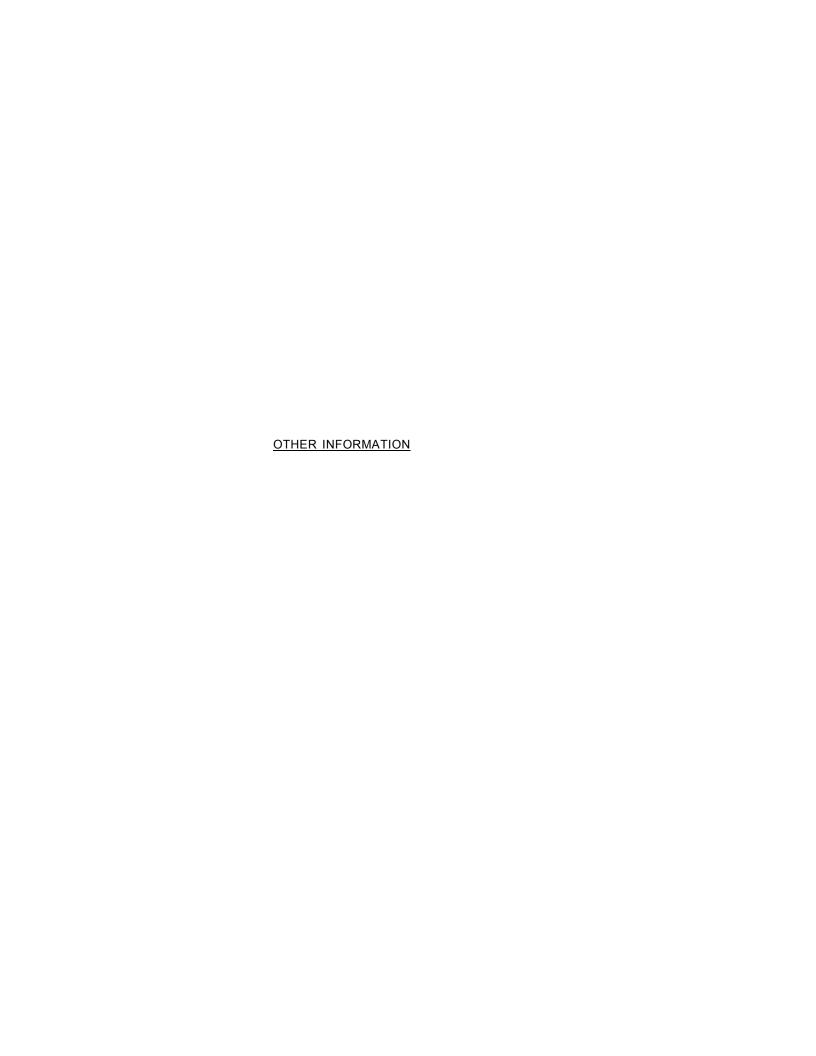

<u>Cause/Effect of Condition</u> – Sponsors did not turn money in daily to the person in charge of depositing money. This increases the risk of loss or theft of money.

<u>Recommendation</u> – We recommend sponsors be required to turn money in daily to the person in charge of taking the money to the bank.

<u>Current Status</u> – We did not note timely depositing problems with AFJROTC during the 2014-15 year.

Current Status -
