INDEPENDENT AUDITOR'S REPORT

Board of Directors
Delaware County Rural Water District No. 9
Grove, Oklahoma

We have audited the accompanying financial statements of the business-type activities of the Delaware County Rural Water District No. 9 (the District), Grove, Oklahoma, as of and for the year ended June 30, 2014, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinions.

Opinions

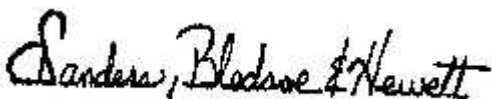

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of the District as of June 30, 2014, and the respective changes in financial position and cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5 and 6 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplemental information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 5, 2014 on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting or on compliance and the results of that testing and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

RURAL WATER DISTRICT NO. 9, DELAWARE COUNTY
MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2014

Our discussion and analysis of the Rural Water District No. 9, Delaware County's financial performance provides an overview of the District's financial activities for the fiscal year ended June 30, 2014. Please read it in conjunction with the District's financial statements that begin on page 11.

FINANCIAL HIGHLIGHTS

- Investments yielded interest income of \$1,740 in 2013-14.
- The District managed to pay off all their long-term debt in 2012-13.
- The District purchased an additional \$45,000 in certificates of deposit in 2013-14.
- The District's operating revenues exceeded operating expenses by \$13,976.

Using This Report

This report is presented in a format consistent with the presentation requirements of the Governmental Accounting Standards Board (GASB) Statement No. 94, as applicable to the District's basis of accounting.

Basis of Accounting

The District has elected to present its financial statements in the accrual basis of accounting. According to the accrual basis, revenues are recorded when earned and expenses are recognized when incurred. This policy is in accordance with generally accepted accounting principles.

The Financial Statements

One of the most important questions asked about the District's finances is, "Is the District as a whole better off or worse off as a result of the year's activities?" The Statement of Net Assets, the Statement of Activities, and the Statement of Cash Flows report information about the District and about its activities in a way that helps answer this question.

These three statements report the District's net assets and the changes in them. You can think of the District's net assets – the difference between assets and liabilities – as one way to measure the District's financial health or financial position. Over time, increases or decreases in the District's net assets are one indicator of whether its financial health is improving or deteriorating. You will need to consider other nonfinancial factors,

however, such as changes in water rates paid or charged and the condition of the District's water system, to assess the overall health of the District.

The District has only one type of fund or activity, which is defined as *Business-type activities*. This is considered a proprietary fund. This means the District charges a fee to customers to help it cover all or most of the cost of certain services it provides.

Fixed Assets

At June 30, 2014, the District had \$568,565 invested in fixed assets, net of depreciation, including land, the water system, hydrants, meters and equipment. No significant additions were made in the 2013-14 fiscal year.

Long-Term Debt

The District had no outstanding long-term debt.

Economic Factors and Next Year's Budget and Rates

For the upcoming fiscal year ending June 30, 2015, the District's operating budget is fairly consistent with prior years.

Due to an increase in GMSA rates, customer water rates were increased in 2013. If the current economic conditions continue and expenses continue to increase, an additional rate increase may become necessary.

The District has applied for grant funding with Grad Gateway for additional line extension improvements.

Contacting the District's Management

This report is designed to provide our customers and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the District Office at P.O Box 450418, Grove, OK 74345 or call (918) 786-9320.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Board of Directors
Delaware County Rural Water District No. 9
Grove, Oklahoma

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the accompanying financial statements of the Delaware County Rural Water District No. 9 (the District), Grove, Oklahoma, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 5, 2014.

Internal Control Over Financial Reporting

Management of the District is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting in order to determine our auditing procedures that are appropriate for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

Our consideration of the internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We identified no deficiencies in the internal controls that we considered to be material weaknesses.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that

there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Compliance

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

DELAWARE COUNTY RURAL WATER DISTRICT NO. 9
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2014

Note A – Summary of Significant Accounting Policies

Business Activity

Delaware County Rural Water District No. 9 (the District) was formed in 1994 under the provisions of Title 82, O.S. 1981, Sections 1324.1-1324.26 inclusive. The District operates as a nontaxable government agency to service residents of the Delaware County Rural Water District No. 9. The District's primary income is from the sale of water to its members in an area west of Grove, Oklahoma.

Basis of Accounting

The financial statements are prepared on an accrual basis of accounting, which is in compliance with accounting principles generally accepted in the United States of America and which recognizes revenues when earned and expenses as incurred. Interest earnings on certificates of deposit are recorded when such interest is actually received by the District.

Financial Statement Presentation

The financial statements are presented in accordance with Government Accounting Standard Board, Statement No. 94, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*.

Inventories

The District does not carry a significant inventory of materials and supplies. The cost of such items is recorded as an expense when purchased.

Income Taxes

The District is recognized as a tax-exempt organization under the Internal Revenue Code. Because the District is exempt from federal income tax, no provision for taxes has been made in the financial statements.

Prior Year Information

Prior year information is shown on the financial statements for comparative purposes only. No assurance is given on prior year amounts.

DELAWARE COUNTY RURAL WATER DISTRICT NO. 9
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2014

Note B – Cash and Investments

At June 30, 2014, the District held the following balances of cash and investments:

Bank of Grove - Grove:	
Certif. of deposit 1630	\$ 31,924
First National Bank - Grove:	
Certif. of deposit 3693130	80,382
Bank of Oklahoma - Gove:	
Operating checking account	11,804
less: outstanding checks	<u>(1,764)</u>
Total Cash and Investments	<u><u>\$ 122,346</u></u>

r) - indicates restricted funds

The District has the opportunity to obtain additional pledged collateral from the banks where they have funds. Such collateral provides additional security for the District's funds in excess of the \$250,000 Federal Deposit Insurance Corporation insurance limits at each institution. At June 30, 2014, no District funds at any bank exceeded the \$250,000 FDIC maximum coverage amount.

Note C – Accounts Receivable

Receivables from water consumers at June 30, 2014 were \$2,256. These amounts consist primarily of charges for water services. No allowance for doubtful accounts or a related charge for bad debts has been recorded in these financial statements

Note D – Property, Plant, and Equipment

Fixed assets are carried at cost with depreciation being provided using the straight-line method. The following schedule summarizes the estimated useful lives of the various fixed asset categories and acquisitions for the year ended June 30, 2014.

DELAWARE COUNTY RURAL WATER DISTRICT NO. 9
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2014

Note D – Property, Plant, and Equipment – cont'd

	Balance June 30, 2013	Acquired	(Disposed)	Balance June 30, 2014
Water Lines	\$ 801,621	-	-	801,621
Fire Hydrants	85,513	-	-	85,513
Equipment	2,461	-	-	2,461
Sub-Total	889,595	0	-	889,595
Less: Accum. Depr.	(298,389)	(22,641)	-	(321,030)
Total	<u>\$ 889,595</u>	<u>(22,641)</u>	<u>-</u>	<u>568,565</u>

Note E – Long-Term Debt

Note Payable – In 1996, the District signed a \$635,000 note with the Oklahoma Water Resources Board (OWRB). The note is collateralized by the water distribution system and revenues thereon. Monthly-required payments are variable, and due in quarterly installments. The outstanding balance of this note at June 30, 2012 was \$128,200. In 2012-13, the District made additional payments on principal and extinguished the entire debt early.

Note F – Grant Revenue

In prior years, the District has received development grants from various institutions. These moneys were used to partially finance construction of the water distribution system and other water equipment. During the fiscal year ended June 30, 2012, \$6,600 of grant revenue was received from Grand Gateway through the REAP Grant program for system improvements within the District.

Note G – Commitments

The District contracts with the Grove Municipal Service Authority (GMSA) to provide water to the District, perform all maintenance of the District's water distribution system and provide installation of new services. The District's members pay the GMSA for the monthly water service. Members are billed a minimum of \$23 each month, plus \$3.42 per 1,000 gallons of water used. The GMSA keeps \$14 per user each month, plus \$2.54 per 1,000 gallons of water used by these customers for all services provided.

The agreement is for five years and contains options for seven consecutive terms of five year contracts.

DELAWARE COUNTY RURAL WATER DISTRICT NO. 9
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2014

Note H -Insurance and Surety Bond Coverage

At December 31, 2014, the District had appropriate coverage against all major perils.

Note I – Subsequent Events

Management has evaluated subsequent events through December 5, 2014, which is the date the financial statements were available to be issued and have determined that no additional information needs to be added to the financial statements.
