#### **INDEPENDENT AUDITOR'S REPORT**

Board of Directors Delaware County Rural Water District No. 9 Grove, Oklahoma

We have audited the accompanying financial statements of the business-type activities of the Delaware County Rural Water District No. 9 (the District), Grove, Oklahoma, as of and for the year ended June 30, 2011, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of the District as of June 30, 2011, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The Management Discussion and Analysis on pages 5-6 is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

In accordance with Government Auditing Standards, we have also issued our report dated September 19, 2011, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts grants and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual fund financial statements have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole on the basis of accounting generally accepted in the United States.

# RURAL WATER DISTRICT NO. 9, DELAWARE COUNTY MANAGEMENT'S DISCUSSION AND ANALYSIS

#### **JUNE 30, 2011**

Our discussion and analysis of the Rural Water District No. 9, Delaware County's financial performance provides an overview of the District's financial activities for the fiscal year ended June 30, 2011. Please read it in conjunction with the District's financial statements that begin on page 11.

#### FINANCIAL HIGHLIGHTS

- The District's water sales continued to increase, exceeding \$165,000 for the 2010-11 fiscal year.
- Investments yielded interest income of \$1,438 in 2010-11, the District also increased its certificates of deposit balance by \$1,482.
- The District received a \$9,000 grant from Grand Gateway for the installation of fire hydrants.
- The District's operating revenues exceeded operating expenses by \$48,463. During the 2010-11 fiscal year, the District was able to pay an additional \$15,000 of principal off their existing long-term debt.

#### **Using This Report**

This report is presented in a format consistent with the presentation requirements of the Governmental Accounting Standards Board (GASB) Statement No. 94, as applicable to the District's basis of accounting.

#### **Basis of Accounting**

The District has elected to present its financial statements in the accrual basis of accounting. According to the accrual basis, revenues are recorded when earned and expenses are recognized when incurred. This policy is in accordance with generally accepted accounting principles.

#### **The Financial Statements**

One of the most important questions asked about the District's finances is, "Is the District as a whole better off or worse off as a result of the year's activities?" The Statement of Net Assets, the Statement of Activities, and the Statement of Cash Flows report information about the District and about its activities in a way that helps answer this question.

These three statements report the District's net assets and the changes in them. You can think of the District's net assets – the difference between assets and liabilities – as one

way to measure the District's financial health or financial position. Over time, increases or decreases in the District's net assets are one indicator of whether its financial health is improving or deteriorating. You will need to consider other nonfinancial factors, however, such as changes in water rates paid or charged and the condition of the District's water system, to assess the overall health of the District.

The District has only one type of fund or activity, which is defined as *Business-type activities*. This is considered a proprietary fund. This means the District charges a fee to customers to help it cover all or most of the cost of certain services it provides.

#### Fixed Assets

At June 30, 2011, the District had \$628,021 invested in fixed assets, net of depreciation, including land, the water system, hydrants, meters and equipment.

#### **Long-Term Debt**

The District has one outstanding note with the Oklahoma Water Resources Board (OWRB). The note was incurred to construct the water system. At June 30, 2011 the District had outstanding long-term debt of \$209,400 on this note.

#### **Economic Factors and Next Year's Budget and Rates**

For the upcoming fiscal year ending June 30, 2012, the District's operating budget is fairly consistent with prior years.

Customer water rates were not increased in 2010-11. However, if the current economic conditions continue and expenses continue to increase, a rate increase may become necessary.

#### **Contacting the District's Management**

This report is designed to provide our customers and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the District Office at P.O Box 450418, Grove, OK 74345 or call (918) 786-9320.

# REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Directors Delaware County Rural Water District No. 9 Grove, Oklahoma

We have audited the financial statements of the Delaware County Rural Water District No. 9 (the District), Grove, Oklahoma, as of and for the year ended June 30, 2011, and have issued our report thereon dated September 19, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

#### Compliance

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

#### Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. We noted no matters involving the internal control over financial reporting and its operation that we would consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over financial reporting that, in our judgment, could adversely affect the District's ability to record, process, summarize and report financial data consistent with the assertions of management in the financial statements.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses.

This report is intended solely for the information and use of management, and is not intended to be, and should not be, used by anyone other than these specified parties.

#### DELAWARE COUNTY RURAL WATER DISTRICT NO. 9 NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2011

#### Note A – Summary of Significant Accounting Policies

#### **Business Activity**

Delaware County Rural Water District No. 9 (the District) was formed in 1994 under the provisions of Title 82, O.S. 1981, Sections 1324.1-1324.26 inclusive. The District operates as a nontaxable government agency to service residents of the Delaware County Rural Water District No. 9. The District's primary income is from the sale of water to its members in an area west of Grove, Oklahoma.

#### Basis of Accounting

The financial statements are prepared on an accrual basis of accounting, which is in compliance with accounting principles generally accepted in the United States of America and which recognizes revenues when earned and expenses as incurred. Interest earnings on certificates of deposit are recorded when such interest is actually received by the District.

#### Financial Statement Presentation

The financial statements are presented in accordance with Government Accounting Standard Board, Statement No. 94, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*.

#### Inventories

The District does not carry a significant inventory of materials and supplies. The cost of such items is recorded as an expense when purchased.

#### Income Taxes

The District is recognized as a tax-exempt organization under the Internal Revenue Code. Because the District is exempt from federal income tax, no provision for taxes has been made in the financial statements.

#### **Prior Year Information**

Prior year information is shown on the financial statements for comparative purposes only. No assurance is given on prior year amounts.

#### DELAWARE COUNTY RURAL WATER DISTRICT NO. 9 NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2011

#### Note B - Cash and Investments

At June 30, 2011, the District held the following balances of cash and investments:

Total Cash and Investments		\$ 209,331
r) Debt Service Reserve	57,157	85,115
r) Debt Service	2	
Operating checking account	27,956	
Bank of Oklahoma - Gove:		
Certif. of deposit 3693130		33,947
Grand Savings Bank - Grove:		
Certif. of deposit 1630	30,945	63,577
Certif. of deposit 1329	32,632	
Bank of Grove - Grove:		
Savings account		2,011
Arvest Bank - Grove:		
Certif. of deposit 12036		\$ 24,681
First United Bank - Grove:		

#### r) - indicates restricted funds

The District has the opportunity to obtain additional pledged collateral from the banks where they have funds. Such collateral provides additional security for the District's funds in excess of the \$250,000 Federal Deposit Insurance Corporation insurance limits at each institution. At June 30, 2011, no District funds at any bank exceeded the \$250,000 FDIC maximum coverage amount.

#### Note C - Accounts Receivable

Receivables from water consumers at June 30, 2011 were \$6,620. These amounts consist primarily of charges for water services. No allowance for doubtful accounts or a related charge for bad debts has been recorded in these financial statements

#### DELAWARE COUNTY RURAL WATER DISTRICT NO. 9 NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2011

#### Note F - Grant Revenue

In prior years, the District has received development grants from various institutions. These moneys were used to partially finance construction of the water distribution system and other water equipment. During the fiscal year ended June 30, 2011, \$9,000 of grant revenue was received from Grand Gateway for the installation of four fire hydrants within the District.

#### Note G - Commitments

The District contracts with the Grove Municipal Service Authority (GMSA) to provide water to the District, perform all maintenance of the District's water distribution system and provide installation of new services. The District's members pay the GMSA for the monthly water service. Members are billed a minimum of \$23 each month, plus \$3.42 per 1,000 gallons of water used. The GMSA keeps \$14 per user each month, plus \$2.54 per 1,000 gallons of water used by these customers for all services provided.

The agreement is for five years and contains options for seven consecutive terms of five year contracts.
