## **INDEPENDENT AUDITOR'S REPORT**

The Honorable Board of Education Dibble School District No. I-002 McClain County, Oklahoma

Board Members:

#### **Report on Financial Statements**

We have audited the accompanying combined fund type and account group financial statements-regulatory basis of the Dibble School District No. I-002, McClain County, Oklahoma, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the financial reporting provisions of the Oklahoma State Department of Education to meet financial reporting requirements of the State of Oklahoma; this includes determining that the regulatory basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our adverse and qualified audit opinions.

### Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As discussed in Note 1, the financial statements are prepared by Dibble School District No. I-002 McClain County, Oklahoma, on the basis of the financial reporting provisions of the Oklahoma State Department of Education, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of the Oklahoma State Department of Education. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

### Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to in the above paragraph do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Dibble School District No. I-002, McClain County, Oklahoma, as of June 30, 2019, or the changes in its financial position, or, where applicable, its cash flows for the year then ended.

### Basis for Qualified Opinion on Regulatory Basis of Accounting

The financial statements referred to above do not include the general fixed asset account group, which is a departure from the regulatory basis of accounting prescribed by the Oklahoma State Department of Education. The amount that should be recorded in the general fixed asset account group is not known.

## Qualified Opinion on Regulatory Basis of Accounting

In our opinion, except for the effects of the matter described in the "Basis for Qualified Opinion on Regulatory Basis of Accounting" paragraph, the financial statements referred to in the first paragraph present fairly, in all material respects, the assets, liabilities, and fund balance arising from regulatory basis transactions of each fund type and account group of Dibble School District No. I-002, McClain County, Oklahoma as of June 30, 2019, and the revenues collected, expenditures paid and encumbered, and budgetary results, for the year ended on the regulatory basis of accounting described in Note 1.

#### **Other Matters**

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Dibble School District No. I-002, McClain County, Oklahoma's basic financial statements. The combining statements – regulatory basis and the schedule of expenditures of federal awards, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining statements-regulatory basis and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining statements-regulatory basis and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole on the regulatory basis of accounting described in Note 1.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 13, 2019, on our consideration of the Dibble School District No. I-002, McClain County, Oklahoma's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Dibble School District No. I-002, McClain County, Oklahoma's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standard* in considering Dibble School District No. I-002, McClain County, Oklahoma's internal control, Oklahoma's internal control over financial reporting and compliance.

## Note 1 - Summary of Significant Accounting Policies

The basic financial statements of the Dibble School District No. I-002, McClain County, Oklahoma (the "District") have been prepared in conformity with another comprehensive basis of accounting as prescribed by the Oklahoma State Department of Education. The more significant of the District's accounting policies are described below.

# **1.A. Reporting Entity**

The District is a corporate body for public purposes created under Title 70 of the Oklahoma Statutes and accordingly is a separate entity for operating and financial reporting purposes.

The District is part of the public-school system of Oklahoma under the general direction and control of the State Board of Education and is financially dependent on the State of Oklahoma support. The general operating authority for the public-school system is the Oklahoma School Code contained in Title 70, Oklahoma Statutes.

The governing body of the District is the Board of Education composed of elected members. The appointed superintendent is the executive officer of the District.

In evaluating how to define the District, for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria established by the Governmental Accounting Standards Board (GASB). The basic, but not the only, criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters. A second criterion used in evaluating potential component units is the scope of public service. Application of this criterion involves considering whether the activity benefits the District and /or its citizens, or whether the activity is conducted within the geographic boundaries of the District and is generally available to its patrons. A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the District is able to exercise oversight responsibilities. Based upon the application of these criteria, there are no potential component units included in the District's reporting entity. The District has various supporting groups. However, the District does not appoint any of the board members or exercise any oversight authority over these groups and the dollar amounts are not material to the District.

## **1.B. Fund Accounting**

The District uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain district functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. An account group, on the other hand, is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources.

## Note 1 - Summary of Significant Accounting Policies, (continued)

## **1.B.** Fund Accounting, (continued)

Funds are classified into two categories: governmental and fiduciary. Each category, in turn, is divided into separate "fund types."

## Governmental Fund Types

Governmental funds are used to account for all or most of a government's general activities, including the collection and disbursement of earmarked monies (special revenue funds), the acquisition or construction of general fixed assets (capital projects funds), and the servicing of general long-term debt (debt service funds).

**1. General Fund** - The General Fund is used to account for all financial transactions except those required to be accounted for in another fund. Major revenues sources include state and local property taxes and state funding under the Foundation and Incentive Aid Program. Expenditures include all costs associated with the daily operations of the schools except for programs funded for building repairs and maintenance, school construction and debt service on bonds and other long-term debt. The general fund includes federal and state restricted monies that must be expended for specific programs.

**2. Special Revenue Funds** - The Special Revenue Funds of the District consist of the Building Fund and Child Nutrition Fund.

<u>Building Fund</u> - The Building Fund consists of monies derived from property taxes levied for the purpose of erecting, remodeling, or repairing buildings and for purchasing furniture and equipment.

<u>Child Nutrition Fund</u> - The Child Nutrition Fund consists of monies collected from meals served to students and employees of the District and is expended on food, supplies and salaries to operate the lunchroom. The District also deposits reimbursements received from the National School Lunch and Breakfast programs into this fund.

<u>Cooperative Fund</u> – The Cooperative Fund was established when several school districts entered into a cooperative agreement to operate an Alternative Education program. The revenues necessary to operate this program come from a Carl Perkins federal grant. The expenditures for this fund consist of those necessary to operate and maintain the joint programs. Dibble School is the LEA for this Cooperate Fund.

**3. Debt Service Fund** - The Debt Service Fund is the District's Sinking Fund and is used to account for the accumulation of financial resources for the payment of general long-term debt principal, interest and related costs. The primary revenue sources are local property taxes levied specifically for debt service and interest earnings from temporary investments.

4. **Capital Projects Fund** - The Capital Projects Fund consists of the District's 2018 & 2019 Building Bond issues. These funds are used exclusively for acquiring school sites, constructing and equipping new school facilities, renovating existing facilities and acquiring transportation equipment.

## Note 1 - Summary of Significant Accounting Policies, (continued)

## **1.B.** Fund Accounting, (continued)

## **Fiduciary Fund Types**

Fiduciary Funds are used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the District. When these assets are held under the terms of a formal trust agreement, trust funds are used for their accounting and reporting. Agency funds generally are used to account for assets that the District holds on behalf of others as their agent and do not involve measurement of results of operations.

**1. Agency Funds** - The Agency Fund is the School Activities fund, which is used to account for monies, collected principally through fundraising efforts of the students and District-sponsored groups. The administration is responsible, under the authority of the Board, of collecting, disbursing and accounting for these activity funds.

## Account Groups

Account groups are not funds and consist of a self-balancing set of accounts used only to establish accounting control over long-term debt and general fixed assets not accounted for in proprietary funds.

<u>1. General Long-Term Debt Account Group</u> - This account group is used to account for all long-term debt of the District, which is offset by the amount available in the debt service fund and the amount to be provided in future years to complete retirement of the debt principal. It is also used to account for liabilities for compensated absences and early retirement incentives, which are to be paid from funds provided in future years.

<u>2. General Fixed Asset Account Group</u> - This account group is used to account for property, plant and equipment of the District. The District does not have the information necessary to include this group in its combined financial statements.

#### Memorandum Only - Total Column

The total column on the general-purpose financial statements is captioned "memorandum only" to indicate that it is presented only to facilitate financial analysis. Data in this column does not present financial position, results of operations or cash flows in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

## **1.C. Basis of Accounting and Presentation**

The District prepares its financial statements in a presentation format that is prescribed by the Oklahoma State Department of Education. This format is essentially the generally accepted form of presentation used by state and local governments prior to the effective date of GASB 34, *Basic Financial Statements-Management's Discussion and Analysis-for State and Local Governments*. This format significantly differs from that required by GASB 34.

The basic financial statements are essentially prepared on a basis of cash receipts and disbursements modified as required by the regulations of the Oklahoma State Department of Education (OSDE) as follows:

# Note 1 - Summary of Significant Accounting Policies, (continued)

## **1.C.** Basis of Accounting and Presentation, (continued)

- Encumbrances represented by purchase orders, contracts, and other commitments for the expenditure of monies and are recorded as expenditures when approved.
- Investments are recorded as assets when purchased.
- Warrants payable are recorded as liabilities when issued.
- Long-term debt is recorded when incurred.
- Accrued compensated absences are recorded as an expenditure and liability when the obligation is incurred.

This regulatory basis of accounting differs from accounting principles generally accepted in the United States of America, which require revenues to be recognized when they become available and measurable, or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred for governmental fund types; and, when revenues are earned and liabilities are incurred for trust funds.

# **1.D.** Budgets and Budgetary Accounting

The District is required by state law to prepare an annual budget. The board of education requests an initial temporary appropriations budget from the county excise board before June 30. Then no later than October 1, the board of education prepares financial statement and estimate of needs and files it with the applicable county clerk and the State Department of Education. The final budget may be revised upon approval of the board of education and the county excise board.

Under current Oklahoma Statutes, a formal budget is required for all funds except for trust and agency funds. Budgets are presented for all funds that include the originally approved budgeted appropriations for expenditures and final budgeted appropriations as adjusted for supplemental appropriations and approved transfers between budget categories.

# 1.E. Assets, Liabilities and Fund Equity

<u>Cash and Cash Equivalents</u> – The District considers all cash on hand, demand deposits, and highly liquid investments, with an original maturity of three months or less when purchased, to be cash and cash equivalents.

<u>Investments</u> - Investments consist of direct obligations of the United States government and agencies with maturities greater than three months when purchased. All investments are recorded at cost, which approximates market value.

<u>Property Tax Revenues</u> – The District is authorized by state law to levy property taxes, which consist of ad valorem taxes on real and personal property within the District. The County Assessor, upon receipt of the certification of tax levies from the county excise board, extends the tax levies on the tax roll for submission to the county treasurer prior to October 1. The county treasurer must commence tax collection within fifteen days of receipt of the tax rolls. The first half of taxes are due prior to January 1. The second half is due prior to April 1.

# Note 1 - Summary of Significant Accounting Policies, (continued)

# 1.E. Assets, Liabilities and Fund Equity, (continued)

If the first payment is not made timely, the entire tax becomes due and payable on January 2. Second half taxes become delinquent on April 1 of the year following the year of assessment. If not paid by the following October 1, the property is offered for sale for the amount of taxes due. The owner has two years to redeem the property by paying the taxes and penalty owed. If at the end of two years the owner has not done so, the purchaser is issued a deed to the property.

<u>Inventories</u> – The value of consumable inventories at June 30, 2019, is not material to the basic financial statements.

Fixed Assets and Property, Plant and Equipment - The General Fixed Asset Account Group has not been presented.

<u>Compensated Absences</u> - Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. There are no amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources.

No liability is recorded for nonvesting accumulating rights to receive sick pay benefits. Vested accumulated rights to receive sick pay benefits have not been reported in the general long-term debt account group since the amount is not material to the financial statements.

<u>Long-Term Debt</u> – Long-term debt is recognized as a liability of a governmental fund when due or when resources have been accumulated in the debt service fund for payment early in the following year. For other long-term obligations, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund. The remaining portion of such obligations is reported in the general long-term debt account group.

<u>Fund Balance</u> - In the fund financial statements, governmental funds report the hierarchy of fund balances. The hierarchy is based primarily on the degree of spending constraints placed upon use of resources for specific purposes versus availability of appropriation. An important distinction that is made in reporting fund balance is between amounts that are considered *nonspendable* (i.e., fund balance associated with assets that are *not in spendable form*, such as inventories or prepaid items, long-term portions of loans and notes receivable, or items that are legally required to be maintained intact (such as the corpus of a permanent fund) and those that are spendable (such as fund balance associated with cash, investments or receivables).

Amounts in the *spendable* fund balance category are further classified as *restricted*, *committed*, *assigned or unassigned*, as appropriate.

**Restricted** fund balance represents amounts that are constrained either externally by creditors (such as debt covenants), grantors, contributors or laws or regulations of other governments; or by law, through constitutional provisions or enabling legislation.

# Note 1 - Summary of Significant Accounting Policies, (continued)

# **1.E.** Assets, Liabilities and Fund Equity, (continued)

**Committed** fund balance represents amounts that are useable only for specific purposes by formal action of the government's highest level of decision-making authority. Such amounts are not subject to legal enforceability (like restricted amounts), but cannot be used for any other purpose unless the government removes or changes the limitation by taking action similar to that which imposed the commitment.

Assigned fund balance represents amounts that are intended to be used for specific purposes, but are neither restricted nor committed. Intent is expressed by the governing body itself, or a subordinated high-level body or official who the governing body has delegated the authority to assign amounts to be used for specific purposes. Assigned fund balances includes all remaining spendable amounts (except negative balances) that are reported in governmental funds other than the general fund, that are neither restricted nor committed, and amounts in the general fund that are intended to be used for specific purpose in accordance with the provisions of the standard.

**Unassigned** fund balance is the residual classification for the general fund. It represents the amounts that have not been assigned to other funds, and that have not been restricted, committed, or assigned to specific purposes within the general fund.

## **Resource Use Policy**

It is the District's policy for all funds that when an expenditure/expense is incurred for purposes for which both restricted and unrestricted resources, including fund balances, are available, the District considers restricted amounts to be spent first before any unrestricted amounts are used. Furthermore, it is the District's policy that when an expenditure/expense is incurred for purposes for which committed, assigned, or unassigned resources, including fund balances, are available, the School considers committed amounts to be spent first, followed by assigned amounts and lastly unassigned amounts

## 1.F. Revenue, Expenses, and Expenditures

<u>State Sources</u> - Revenues from state sources for current operations are primarily governed by the state aid formula under provisions of Article XVIII, Title 70, Oklahoma Statutes. The State Board of Education administers the allocation of the state aid funds to school districts based on information accumulated from the districts.

After review and verification of reports and supporting documentation, the State Department of Education may adjust subsequent fiscal period allocations of money for prior year errors disclosed by review. Normally, such adjustments are treated as reductions or additions of revenue of the year when the adjustment is made.

# Note 1 - Summary of Significant Accounting Policies, (continued)

## **1.F.** Revenue, Expenses, and Expenditures, (continued)

The District receives revenue from the state to administer certain categorical education programs. The State Board of Education rules require that revenue earmarked for these programs be expended only for the program for which the money is provided. These rules also require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same categorical programs. The State Department of Education requires that categorical educational program revenues be accounted for in the general fund.

<u>Interfund Transactions</u> - Quasi-external transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund or expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the fund that is reimbursed.

All other interfund transactions, except quasi-external transactions and reimbursements, are reported as transfers. Transfers in/transfers out may not agree because activity fund transactions are not included.

## Note 2 – Deposit and Investment Risk

		Carrying
	_	Value

Time Deposits	_	-
Total Deposits	\$	2,793,851
Investments	_	
Credit Rating Matur	ity	Fair Value
	\$	-
Total Investments	\$	-
Reconciliation to the Combined Statement of Assets, Liabilities and E	quity	
Cash and Cash Equivalents	\$	2,790,427
Activity Fund Outstanding Checks		3,424
Total Deposits and Investments	\$	2,793,851

The District held the following deposits and investments at June 30, 2019:

**Custodial Credit Risk** – Exposure to custodial credit related to deposits exists when the District holds deposits that are uninsured and uncollateralized; collateralized with securities held by the pledging financial institution, or by its trust department or agent but not in the District's name; or collateralized without a written or approved collateral agreement. Exposure to custodial credit risk related to investments exists when the District holds investments that are uninsured and unregistered, with securities held by the counterparty or by its trust department or agent but not in the District's name.

## Note 2 – Deposit and Investment Risk, (continued)

The District's policy as it relates to custodial credit risk is to secure its uninsured deposits with collateral, valued at no more than market value, at least at a level of 100 percent of the uninsured deposits and accrued interest thereon. The investment policy and state law also limit acceptable collateral to U.S. Treasury and agency securities and direct debt obligations of the state, municipalities, counties, and school districts in the state of Oklahoma, surety bonds, and letters of credit. As required by Federal 12 U.S.C.A., Section 1823(e), all financial institutions pledging collateral to the District must have a written collateral agreement approved by the board of directors or loan committee.

The District had custodial credit risk as of June 30, 2019 as defined above. Deposits were \$89,539.59 over the collateralized amount.

**Investment Credit Risk** – The District has no investment policy that limits its investment choices other than the limitations of state law that generally authorize investment in:

- 1. Direct obligations of the U.S. Government, its agencies and instrumentalities to which the full faith and credit of the U.S. Government is pledged, or obligations to the payment of which the full faith and credit of the State is pledged.
- 2. Certificates of deposit of banks when such certificates of deposits are secured by acceptable collateral for the deposit of public monies.
- 3. Savings accounts or saving certificates to the extent that such accounts or certificates are fully insured by the United States Government.
- 4. Repurchase agreements that have underlying collateral including obligations of the United States government, its agencies and instrumentalities, or the State of Oklahoma.
- 5. County, municipal or school district debt obligations for which an ad valorem tax may be levied.
- 6. Money market funds regulated by the SEC and in which investments consist of obligations of the United States, its agencies and instrumentalities.
- 7. Warrants, bonds or judgments of the school district.
- 8. Qualified pooled investment programs through an interlocal cooperative agreement formed pursuant to applicable law and to which the board of education has voted to be a member, the investments of which consist of those items specified in paragraphs 1 through 7 above, as well as obligations of the United States agencies and instrumentalities.
- 9. Any other investment that is authorized by law.

Investment credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation. The District has no formal policy limiting investments based on credit rating, but discloses any such credit risk associated with their investment by reporting the credit quality ratings of investment in debt securities as determined by nationally recognized statistical rating organizations-rating agencies-as of the year end. Unless there is information to the contrary, obligations of the U.S. government or obligations explicitly guaranteed by the U.S. government are not considered to have credit risk and do not require disclosure of credit quality.

The District did not have any investment credit risk as of June 30, 2019, as defined above.

**Investment Interest Rate Risk** – Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The District discloses it exposure to interest rate risk by disclosing the maturity dates of its various investments. The District had no investment interest rate risk as defined above.

## Note 2 – Deposit and Investment Risk, (continued)

**Concentration of Investment Credit Risk** – Exposure to concentration of credit risk is considered to exist when investments in any one issuer represent a significant percent of total investments of the District (any over 5 percent are disclosed). Investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments are excluded from this consideration. The District places no limit on the amount it may invest in any one issuer.

At June 30, 2019, the District had no concentration of credit risk as defined above.

## Note 3 - General Long-Term Debt

State statutes prohibit the District from becoming indebted in an amount exceeding the revenue to be received for any fiscal year without approval by the District's voters. Bond issues have been approved by the voters and issued by the District for various capital improvements and transportation purposes. These bonds are required to be fully paid serially within 25 years from the date of issue.

General long-term debt of the District consists of bonds payable and lease purchases. Debt service requirements for bonds are payable solely from the fund balance and future revenues of the debt service fund.

The following is a summary of the long-term debt transactions of the District for the year ended June 30, 2019:

		Bonds		Capital Lease	Compensated	
	_	Payable	_	Obligations	Absences	 Total
Balance July 1, 2018	\$	600,000	\$	5,633,042	\$ -	\$ 6,233,042
Additions		1,210,000		-	-	1,210,000
Retirements		(600,000)	_	(308,316)	-	 (908,316)
Balance, June 30, 2019	) \$ <u>_</u>	1,210,000	\$	5,324,725	\$ -	\$ 6,534,725

A brief description of the outstanding general obligation bond issues at June 30, 2019 is set forth below:

	Interest Rate	Maturity Date	 Amount Issued	Amount Outs tanding
2018 Building Bonds 2019 Building Bonds	3.20% 2.80%	July 1, 2020 June 1, 2021	\$ 550,000 S 660,000	550,000 660,000
Totals			\$ 1,210,000 \$	5 1,210,000

## Note 3 - General Long-Term Debt (continued)

Presented below is a summary of debt service requirements to maturity by years and by each bond issue:

		Principal		Interest		Total
2019 Building Bonds					. –	
2019-20	\$	-	\$	-	\$	-
2020-21	_	550,000	_	35,200	_	585,200
Sub-Total Bonds	-	550,000		35,200	_	585,200
2018 Building Bonds						
2019-20		-		18,480		18,480
2020-21		-		9,240		9,240
2021-22	_	660,000		9,240	_	669,240
Sub-Total Bonds		660,000	_	36,960		696,960
Total Bonds	\$	1,210,000	\$	72,160	\$	1,282,160

Interest paid on general debt during the 2018-2019 year was \$9,000.

The District has entered into a ground lease agreement as lessee for financing the construction of new school buildings and also for refinancing the remainder of the existing ground lease and furniture, fixtures, and equipment lease. The District has also entered into lease purchase agreements for the acquisition of copiers. These lease agreements qualify as capital leases for accounting purposes since title transfers at the end of the lease term and they have been recorded at the present value of the future minimum lease payments. These leases contain a clause which gives the District the ability to terminate the lease agreements at the end of each fiscal year.

As noted in Note 1 to the financial statements, the District does not record fixed assets in the financial statements. Consistent with this, the District has not recorded the above assets as assets in the General fixed assets account group. The District has recorded the liability for future lease payments in the general long-term debt account group for the above leases. The schedule of future minimum lease payments under the capital lease and the present value of the net minimum lease payments at June 30, is as follows:

Year Ending June 30	Copiers	Copiers	Arvest Ground Lease	Pryority Ground Lease	Total
2020	2,100	1,650	375,000	125,000	503,750
2021	2,100	-	385,000	130,000	517,100
2022	2,100	-	400,000	135,000	537,100
2023	700	-	415,000	140,000	555,700
2024	-	-	430,000	145,000	575,000
2025			1,620,000	1,867,702	3,487,702
Total	\$ 7,000	1,650 \$	3,625,000 \$	2,542,702 \$	6,176,352
Less: Amount Representing Interest Present Value of Future Minimum	(668)	(15)	(435,598)	(415,346)	(851,627)
Lease Payments	\$ 6,332	1,635 \$	3,189,402 \$	2,127,356 \$	5,324,725

## Note 4 - Employee Retirement System

**Plan Description** - The District participates in the state-administered Oklahoma Teachers' Retirement System (the "System") which is a cost-sharing multiple-employer defined benefit Public Employee Retirement System (PERS). The administration, benefits, and funding of the System are governed by Article XVII, Section 70 of the Oklahoma Statutes. The System is administered by a board of trustees which acts as a fiduciary for investing the funds and governing the administration of the System. PERS provides retirement, disability and death benefits to plan members and beneficiaries. The District has no responsibility or authority for the operation and administration of the System nor has it any liability, except for the current contribution requirements.

The System issues a publicly available financial report that includes financial statements and required supplementary information that can be obtained in writing at the Teachers' Retirement System of Oklahoma, P.O. Box 53524, Oklahoma City, Ok 73152 or by calling (405) 521-2387.

**Funding Policy** - Under the System, contributions are made by the District, the State of Oklahoma, and the participating employees. Participation is required for all teachers and other certified employees and is optional for all other regular employees of public education institutions who work at least 20 hours per week.

The contribution rates for the District and its employees, which are not actuarially determined, are established by statute and applied to the employee's earnings, plus employer-paid fringe benefits. The District is required by statute to contribute 9.50% applicable compensation for the year ended June 30, 2019. The District is allowed by the Oklahoma Teacher's Retirement System to make the required contributions on behalf of the participating members. The required contribution for participating members is 7%.

The District's contributions to the System for the years ending June 30, 2019, 2018, and 2017 were \$256,976, \$204,374, and \$196,805 respectively.

The compensation for employees covered by the System for the year ended June 30, 2019 was \$2,580,001; the District's total compensation was \$3,432,006. In addition to the District's 9.50% contributions, the District was required to pay into the System 7.70% of compensation arising from federal grants \$15,575. There were \$138,832 contributions made by employees during the year ended June 30, 2019.

The pension benefit obligation is a standardized disclosure measure of the present value of pension benefits. This pension valuation method reflects the present value of estimated pension benefits that will be paid in future years as a result of employee services performed to date and is adjusted for the effect of projected salary increases. There are no actuarial valuations performed on individual school districts. The nonfunded pension benefit obligation of the System as determined as part of the latest actuarial valuation dated June 30, 2018, is as follows:

Total pension obligation	\$ 22,615,886,687
Net assets available for benefits, at cost	16.486,871,824
Nonfunded pension benefit obligation	\$ 6,129,014,863

The System's accounting records are maintained on the cash basis of accounting, except for accruals of interest income.

## Note 4 - Employee Retirement System, (continued)

Ten-year historical trend information is presented in the Teacher's Retirement System of Oklahoma Annual Report for the year ended June 30, 2018. This information is useful in assessing the pension plan's accumulation of sufficient assets to pay pension benefits as they come due.

## **Note 5 - Contingencies**

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

## Note 6 – Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; or acts of God. The District purchases commercial insurance to cover these risks, including general and auto liability, property damage, and public official's liability. The District had the following insurance coverage during the year: Commercial property - \$24,827,201; general liability - \$2,000,000; and educator's liability \$2,000,000. Settled claims resulting from these risks have not exceeded the commercial insurance coverage in any of the past three fiscal years.

The School also participates in a risk pool for Workers' Compensation coverage in which there is a transfer or pooling of risks among the participants of that pool. In accordance with GASB No. 10, the school reports the required contribution to the pool, net of refunds, as insurance expense. The risk pool is the Oklahoma School Assurance Group (OSAG), an organization formed for the purpose of providing workers' compensation coverage to participating schools in the State of Oklahoma. In that capacity, OSAG is responsible for providing loss control services and certain fiscal activities, including obtaining contract arrangements for the underwriting, excess insurance agreements, claims processing, and legal defense for any and all claims submitted to them during the plan year. As a member of OSAG the District is required to pay fees set by OSAG according to an established payment schedule. A portion of the fees paid by the District goes into a loss fund for the District. The fee for the loss fund is calculated by projecting losses based on the school's losses for the last five years. OSAG provides coverage in excess of the Loss Fund so the District's liability for claim loss in limited to the balance of the loss fund. If the District does not use their loss fund in three years it is returned to them with no interest.

## Note 7 - Use of Estimates

The preparation of financial statements in conformity with the regulatory basis of accounting requires the District to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

## **Note 8 – Surety Bonds**

The District has a Public-School System Faithful Performance Blanket Position Bond with Old Republic Surety Company. The bond number is 1058051, it covers various positions, including the Encumbrance clerk, payroll clerk, activity fund custodian and minutes clerk, for the penal sum of \$1,000 to \$5,000. It covers the period December 27, 2018 to December 27, 2019.

The District has a policy with Old Republic Surety Company bond number LOP2112797 that covers the superintendent for the penal sum of \$100,000. It covers the period July 1, 2018 to July 1, 2019.

The District has a policy with Western Surety Company bond number 62557782 that covers the treasurer for the penal sum of \$100,000. The treasurer's policy covers the period September 14, 2018 to September 14, 2019.

## **Note 9 – Cooperative Fund**

It was noted that as of June 30, 2019, the Cooperative Fund had a negative fund balance in the amount of \$16,227.00.

## **Note 10 – Subsequent Events**

Management has evaluated subsequent events through the date of the audit report, which is the date the financial statements were available to be issued and has determined that no additional information needs to be added to the financial statements.

# Dibble School District No. I-002, McClain County, Oklahoma Notes to the Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2019

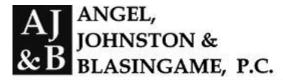

**Note 1 – Basis of Presentation** – The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of the School under programs of the federal government for the year ended June 30, 2019. The information in this Schedule is presented in accordance with the requirements of *Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the School, it is not intended and does not present the financial position, changes in net position or cash flows of the School.

**Note 2 – Summary of Significant Accounting Policies** – Expenditures reported on the Schedule are reported on the regulatory basis of accounting consistent with the preparation of the combined financial statements except for nonmonetary assistance noted in Note 3. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. The School has elected not to use the 10 percent de minimus indirect cost rate allowed under the Uniform Guidance.

**Note 3 – Food Distribution** – Non-monetary assistance is reported in the Schedule at the fair market value of the commodities received and disbursed.

**Note 4 – Johnson O'Malley** – The current year SEFA showed a receivable of \$1,565.00. This receivable does not agree to the OCAS data so we are showing a current year receivable of zero.

**Note 5 – Estimate of Needs** – Federal revenues reported on the SEFA agree with OCAS total. Federal revenues reported on the SEFA are different from total federal revenues reported on the Estimate of Needs by \$2,377.00. This is due to a coding change after the Estimate of Needs was completed.

CERTIFIED PUBLIC ACCOUNTANTS

# INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

The Honorable Board of Education Dibble School District No. I-002 McClain County, Oklahoma

Board Members:

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the accompanying fund type and account group financial statements-regulatory basis, within the combined financial statements of Dibble School District No. I-002, McClain County, Oklahoma, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's financial statements, and have issued our report thereon dated November 13, 2019. The report on these financial statements was adverse with respect to the presentation of the financial statements in conformity with accounting principles generally accepted in the United States of America because the presentation followed the regulatory basis of accounting for Oklahoma school districts and did not conform to the presentation requirements of the Governmental Accounting Standards Board. However, our report was qualified for the omission of the general fixed asset account group with respect to the presentation of financial statements on the regulatory basis of accounting authorized by the Oklahoma State Board of Education.

#### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Dibble School District No. I-002, McClain County, Oklahoma's, internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described below, that we consider to be significant deficiencies.

## 2019-001 Finding

<u>Statement of Condition</u> – During our testing of gates and concession, we noted that 4 of the 11 games tested did not have two signatures of people working the gate or concession.

<u>Criteria</u> – It is in good practice to have two separate individuals work and sign off on the work performed.

<u>Cause/Effect of Condition</u> – School personnel are not always available to work all games for gates and concessions. This in turn could lead to money being collected but not accounted for.

**<u>Recommendation</u>** – We recommend that two separate individuals work all games for the gates and concessions.

## 2019-002 Finding

<u>Statement of Condition</u> – During our testing of purchase orders, we noted that 11 of the 44 tested had an invoice that was dated prior to the purchase order.

<u>Criteria</u> – Per Oklahoma State Statute §70-5-135, "before any purchase is completed, a purchase order or encumbrance must be issued".

<u>**Cause/Effect of Condition**</u> – The district could expend more than their legal appropriations or items could be ordered that would not have been approved by the purchasing officer.

**<u>Recommendation</u>** – The district should make sure no purchase is initiated without first obtaining an approved purchase order

#### 2019-003 Finding

**<u>Statement of Condition</u>** – During payroll testing, it was noted that all personnel are paid a life insurance fringe. However, the support personnel contracts do not reflect this fringe benefit.

<u>Criteria</u> – Contracts should reflect all pay and benefits paid to employees.

<u>Cause/Effect of Condition</u> – The district was not aware of the need to have listed on the support contracts. This in turn could lead to the overpayment of contracts.

**<u>Recommendation</u>** – We recommend that the life insurance fringe paid by the school be added to the support personnel contracts.

### 2019-004 Finding

<u>Statement of Condition</u> – During our testing of the school's bank deposits to the amount of FDIC coverage and additional collateral pledged by the banking institution, we noted that the school was under collateralized by \$89,539.59.

<u>**Criteria**</u> – The school is required to have adequate collateral to cover all deposits held in the banking institution. Funds held in excess of the \$250,000 FDIC coverage require the bank to pledge assets to cover the school's additional funds.

<u>Cause/Effect of Condition</u> – The school received a large influx of money close to the close of the school year. Should the bank fail, the school could be at risk for the amount of under collateralized funds.

**<u>Recommendation</u>** – The school should monitor on a monthly basis the amount of collateral pledged to the amount of school deposits on hand with the banking institution.

#### 2019-005 Finding

<u>Statement of Condition</u> – During our testing of fundraisers, we noted that the Elementary Candy Bar Sales did not retain all copies of receipts given. Also, we noted that FFA Meat Sales deposits were not timely deposited.

<u>Criteria</u> – Pre-numbered receipts should be issued whenever possible. Deposits should be deposited at the end of each day.

<u>Cause/Effect of Condition</u> – The sponsor was unaware that pre-numbered receipts were not being given to students. Sponsor was also unaware that holding money for an extended period of time is unadvised. This could lead to money not being deposited in a timely manner and money being collected that is not turned in.

**<u>Recommendation</u>** – We recommend that pre-numbered receipts be given when possible. Also, deposits should be taken to the bank if they exceed \$100 during the day.

#### 2019-006 Finding

<u>Statement of Condition</u> – There is a lack of segregation of duties in the activity fund account. The Activity Fund custodian deposits the money, issues warrants and reconciles the account.

<u>Criteria</u> – A good system of internal control provides for a proper segregation of the accounting functions.

<u>Cause/Effect of Condition</u> – The District has a small number of employees that perform the duties which would normally be divided among a large number of employees. This precludes the adequate segregation of duties and could result in more than a low risk that errors or irregularities may occur and not be detected within a timely period.

**<u>Recommendation</u>** – The board should assess the advantages of segregating the accounting function in order to determine whether hiring additional personnel would be cost effective.

## **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### Dibble School District No. I-002, McClain County, Oklahoma's, Response to Findings

Dibble School District No. I-002, McClain County, Oklahoma's response to the findings identified in our audit are described in the attached corrective action plan. The District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

## **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Ongel, Johnston + Blosingeme, P.C.

Chickasha, Oklahoma November 13, 2019

## Dibble School District No. I-002, McClain County, Oklahoma Summary Schedule of Prior Year Audit Findings For the Year Ended June 30, 2019

## 2018-001 Finding

<u>Statement of Condition</u> – During our testing of gates and concession proceeds, we noted several instances of a single person approving reconciliations. We also noted that only one set of tickets were being issued to both adults and students at football games.

<u>**Criteria**</u> – Gate reconciliation and concession forms should be completed, reviewed and signed by two or more sponsors at the end of the event before the money is placed into the hand of one person. Also, different ticket types should be used in order to acquire an accurate ticket count.

<u>Cause/Effect of Condition</u> – Lack of internal controls could lead to money not being deposited or money being taken and not accounted for.

**<u>Recommendation</u>** – Gate reconciliations and concession count forms should be completed, reviewed and signed at the end of the event. Tickets sold should be reconciled to cash collected and signed off on by two or more sponsors. Any significant discrepancies between ticket sales and actual cash should include a description of what gate workers believe caused the problem.

<u>**Current Status**</u> – It was noted in the 2018-2019 audit that there was a single person approving reconciliations.

## 2018-002 Finding

<u>Statement of Condition</u> – There is a lack of segregation of duties in the activity fund account. The Activity Fund custodian deposits the money, issues warrants and reconciles the account.

<u>Criteria</u> – A good system of internal control provides for a proper segregation of the accounting functions.

<u>Cause/Effect of Condition</u> – The District has a small number of employees that perform the duties which would normally be divided among a large number of employees. This precludes the adequate segregation of duties and could result in more than a low risk that errors or irregularities may occur and not be detected within a timely period.

**<u>Recommendation</u>** – The board should assess the advantages of segregating the accounting function in order to determine whether hiring additional personnel would be cost effective.

Current Status – This was noted again in the 2018-2019 audit.

#### 2018-003 Finding

<u>Statement of Condition</u> – During our testing of FFA Meat Sales and FCCLA Santa Store, we found that students were not receiving their copy of the receipt. We also noted some instances of money not being deposited timely.

<u>Criteria</u> – Pre-numbered receipts should be issued whenever possible. Deposits should be deposited at the end of each day.

<u>Cause/Effect of Condition</u> – The sponsor was unaware that pre-numbered receipts were not being given to students. Sponsor was also unaware that holding money for an extended period of time was unadvised.

#### Dibble School District No. I-002, McClain County, Oklahoma Summary Schedule of Prior Year Audit Findings For the Year Ended June 30, 2019 (continued)

**<u>Recommendation</u>** – Pre-numbered receipts should be given whenever possible. Deposits should also be taken to the bank if they exceed \$100 during the day.

<u>Current Status</u> – It was noted in the 2018-2019 audit that there was still an issue distributing receipts to students.

#### 2018-004 Finding

<u>Statement of Condition</u> – During our testing of Internal Controls, we noted that the Activity Fund Custodian, for a brief time, had access to the stamps of the Superintendent.

<u>Criteria</u> – A good system of internal controls provides for a proper segregation of the check writing function.

<u>**Cause/Effect of Condition**</u> – Staff resignation created a lack of segregation of duties. This in turn could lead to misappropriation of funds.

**<u>Recommendation</u>** – We recommend that duties be properly segregated.

Current Status – This was not noted again in the 2018-2019 audit.

## 2018-005 Finding

<u>Statement of Condition</u> – During our testing of Internal Controls, we found that the school's credit cards were not kept in a secure location.

<u>Criteria</u> – A good system of internal controls provide for a secure location for the storing of credit cards.

<u>Cause/Effect of Condition</u> – Credit cards were being kept in an unsecure location, therefore, there is a possibility of school credit cards being used by an unauthorized party.

**Recommendation** – We recommend that credit cards are kept in a locked and secured location at all times.

Current Status - This was not noted again in the 2018-2019 audit.

#### 2018-006 Finding

<u>Statement of Condition</u> – During our testing of the Superintendent's payroll contract, we noted the District did not provide an amended contract to the State Department to include his substitute bus driver duties.

<u>**Criteria**</u> – Title 70 Section 5-141 of the Oklahoma Statutes states "...The school District shall not be authorized to pay any salary, benefits or other compensation to a superintendent which are not specified in the contract on file at the State Department of Education..."

<u>Cause/Effect of Condition</u> – Management was not aware of this requirement; therefore, the school was not in compliance with Oklahoma Statutes.

**<u>Recommendation</u>** – We recommend the school submit an amended contract to the State Department of Education whenever amounts are paid in addition to the amounts on the original contract.

<u>Current Status</u> – This was not noted again in the 2018-2019 audit.

## Dibble School District No. I-002, McClain County, Oklahoma Summary Schedule of Prior Year Audit Findings For the Year Ended June 30, 2019 (continued)

## 2018-007 Finding

<u>Statement of Condition</u> – During payroll testing, it was noted that a School employee retired and was paid for 28 days of unused vacation. This exceeded the District policy by 4 days and resulted in overpayment of \$480.60.

<u>Criteria</u> – The 12 Month Support Employees Vacation Leave Policy states that, "Upon retirement the Board of Education may at the superintendent's recommendation elect to pay for any unused vacation time not to exceed 24 days."

<u>Cause/Effect of Condition</u> – District established policy was not followed, which could lead to overpayment of payroll.

**<u>Recommendation</u>** – The administration employees should be aware of and follow all policies established by the District.

Current Status – This was not noted again in the 2018-2019 audit.

## 2018-008 Finding

<u>Statement of Condition</u> – During payroll testing the following was noted: the encumbrance clerk's hourly rate was increase by \$1/hour beginning October 2017, the activity fund custodian and the treasurer did not have signed contracts or board approved authorization indicating their hourly rates of pay.

<u>Criteria</u> – Pay rates for support employees should be authorized by the school board with a signed contract or approved in the board minutes. Per Oklahoma Statutes, Section 70-5-123, "No expenditure involving an amount greater than five hundred dollars shall be made by a board of education except in accordance with the provisions of a written contract or purchase order."

<u>Cause/Effect of Condition</u> – The activity fund custodian resigned before contracts were signed and approved by the board. The treasurer filled in for the activity fund custodian until a replacement was hired.

**<u>Recommendation</u>** – We recommend that amended contracts, contracts or temporary contracts be approved by the board to indicate authorization of employee pay rates.

<u>Current Status</u> – This was not noted again in the 2018-2019 audit.

OTHER OKLAHOMA DEPARTMENT OF EDUCATION REQUIRED INFORMATION

# Dibble School District No. I-002, McClain County, Oklahoma Schedule of Accountant's Professional Liability Insurance Affidavit For the Year Ended June 30, 2019

STATE OF OKLAHOMA ) )ss COUNTY OF GRADY )

The undersigned auditing firm of lawful age, being first duly sworn on oath says that said firm had in full force and effect Accountant's Professional Liability Insurance in accordance with the "Oklahoma Public School Audit Law" at the time of audit contract and during the entire audit engagement with Dibble *School District No. I-002, McClain County, Oklahoma,* for the audit year 2018-2019.

Audit Year: 2018-2019

Audit Finding Reference Number: 2019-001

Description of Finding: During the testing of gates and concession, it was noted that 4 of the 11 games tested did not have two signatures of people working the gate or concession.

Contact Person: Chad Clanton, Superintendent Phone: (405)344-6375 Email: clanton@dibble.k12.ok.us

Steps Implemented: Staff was reminded that two signatures are required. In our personal review of these practices we noted that the Athletic Director would sometimes initial the reconciliation in varying places; sometimes near the top of the document. While we are confident that two people are always present for gate and concession counting, we have emphasized always signing, and doing so in the correct spot.

# Dibble Public School District (I-002) McClain County (47)

Audit Year: 2018-2019

Audit Finding Reference Number: 2019-002

Description of Finding: During the testing of purchase orders, it was noted that 11 of the 44 tested had an invoice that was dated prior to the purchase order.

Contact Person: Chad Clanton, Superintendent Phone: (405)344-6375 Email: clanton@dibble.k12.ok.us

Steps Implemented: Most of the 11 purchase orders that were tested (and failed) were associated with our Carl Perkins Grant. As part of the grant, we are required to get quotes as a grant condition. Some of the consortium schools use their quote as an invoice. We have directed them to get a different and separate invoice so that our purchasing is proper and legal.

# Dibble Public School District (I-002) McClain County (47)

Audit Year: 2018-2019

Audit Finding Reference Number: 2019-003

Description of Finding: During payroll testing, it was noted that all personnel are paid a life insurance fringe. However, the support contracts do not reflect this fringe benefit.

Contact Person: Chad Clanton, Superintendent Phone: (405)344-6375 Email: clanton@dibble.k12.ok.us

Steps Implemented: District purchased life insurance has been a standing practice of Dibble Public Schools for approximately 20 year. For some reason, we have failed to ever include it as a listed fringe benefit on Support Staff contracts. We executed an addendum and have included it in all employee contracts.

# Dibble Public School District (I-002) McClain County (47)

Audit Year: 2018-2019

Audit Finding Reference Number: 2019-004

Description of Finding: During the testing of the school's bank deposits to the amount of FDIC coverage and additional collateral pledged by the banking institution, it was noted that the school was under-collateralized by \$89,539.59

Contact Person: Chad Clanton, Superintendent Phone: (405)344-6375 Email: clanton@dibble.k12.ok.us

Steps Implemented: This was actually a bank error. They have been made aware of it, and have assured us that it will not happen again. The bank's practice is to review our account every two weeks; this instance fell between their review periods. By their own admission; they have noted there was a short time frame when our account balance required additional collateral.

# Dibble Public School District (I-002) McClain County (47)

Audit Year: 2018-2019

Audit Finding Reference Number: 2019-005

Description of Finding: During the testing of fundraisers, it was noted that the Elementary Candy Bar Sales did not retain all copies of receipts given. Also, it was noted FFA Meat Sale deposits were not timely deposited.

Contact Person: Chad Clanton, Superintendent Phone: (405)344-6375 Email: clanton@dibble.k12.ok.us

Steps Implemented: We have arranged with staff to use one coordinated and sequenced receipt book per fundraiser. We have discovered that multiple receipt books were being used to facilitate a single fundraiser. This will make them easier to coordinate and locate. Regarding the FFA Meat Sale deposits, we have encouraged the sponsor to only take money when he is able get it receipted and deposited within the time frame. Practically, we have maintained that we need to take the payments when they are available. Nonetheless, we have noted to staff that we need to be more timely in our deposits.

# Dibble Public School District (I-002) McClain County (47)

Audit Year: 2018-2019

Audit Finding Reference Number: 2019-006

Description of Finding: There is a lack of segregation of duties in the activity fund account. The Activity Fund custodian deposits the money, issues warrants and reconciles the account.

Contact Person: Chad Clanton, Superintendent Phone: (405)344-6375 Email: clanton@dibble.k12.ok.us

Steps Implemented: The district has assessed options that would segregate accounting functions but has determined it to not be cost effective nor practical given it's small number of employees. The district will continue to explore alternative options and address this finding at the earliest possible time.
