Management's Discussion and Analysis Southeastern Public Library System of Oklahoma for the Year Ending June 30, 2014 Unaudited

BACKGROUND

Multi-County Library Systems were established and are regulated in Oklahoma as set forth by Title 65, Article 4, Sections 101-107 of the Oklahoma Statutes.

The Southeastern Public Library System of Oklahoma (SEPLSO) was established in the late 1960's when four member counties voted to approve ad valorem taxes to support the multi-county library system. Today, SEPLSO has fifteen (15) libraries operating in the seven (7) counties of Choctaw, Coal, Haskell, Latimer, LeFlore, McCurtain, and Pittsburg. SEPLSO also contracts with six (6) communities or organizations for the operation of locally-provided, volunteer-staff lending libraries called "reading centers" and provides paperback deposit collections called Community Reading Collections in additional communities.

As a result of county elections held in 1997-1998, financial support for SEPLSO is at four (4) mills per \$1,000 assessed valuation in all seven counties. This is the constitutional limit established by Article 10, Section 10A of the Constitution of Oklahoma. A small amount is added to the regular millage levy in counties which have eliminated the personal property tax, to compensate for the lost revenue.

Serving Choctaw, Coal, Haskell, Latimer, LeFlore, McCurtain, and Pittsburg Counties.

Management's Discussion and Analysis
Southeastern Public Library System of Oklahoma
for the Year Ending June 30, 2014
Unaudited

GOVERNANCE

SEPLSO is governed by a Board of Trustees who are appointed by the city and county commissioners for the respective communities or counties they represent. For FY 2014, the statutory authorized strength of the SEPLSO Board was 15 city/town representatives and 7 county representatives. Trustees may serve two consecutive three-year terms. An initial partial term of less than eighteen (18) months does not count toward this limit.

FY 2014 Trustees were as follows:

<u>Board Member</u>	<u>Represents</u>	<u>Location</u>
Nolen Branscum	City	Arkoma
Ruth McPowell	City	Broken Bow
Christopher Gann	County	Choctaw
Sharon Mowdy	County	Coal
Jaime Arcos	City	Coalgate
David Monk	City	Hartshorne
Florence Conklin	County	Haskell
Linda Mead	City	Heavener
Harolynn Wofford	City	Hugo
Trilla Frazier	City	Idabel
Maryellen Mooney	County	Latimer
Kim Robertson	County	LeFlore
Karen Kinkead	City	McAlester
Jimm Jacobs	County	McCurtain

FINANCIAL OVERVIEW FOR FISCAL YEAR 2014 (July 1, 2013 - June 30, 2014)

FY 2014 Budgeted Revenue (Income)	-	\$4,845,947
FY 2014 Actual Revenue (Income)	-	\$4,526,545
FY 2014 Budgeted Expenditures	-	\$4,868,906
FY 2014 Actual Expenditures	-	\$4,447,063

The major portion of SEPLSO's funding (92% in FY 2014) comes from county ad valorem taxes of four (4) mills, as mentioned above. This generated \$4,169,437.17 in income for FY 2014, compared with \$4,095,909.91 for FY 2013, for an increase of \$73,527.26. Looking at it by county, there were increases in assessed valuation and/or collections of \$12,963.65 in Choctaw County, \$889.86 in Haskell County, \$21,496.15 in LeFlore County, \$48,969.72 in McCurtain County, and \$27,784.96 in Pittsburg County, and a decrease in assessed valuation and/or collections of \$32,871.10 in Coal County.

Management's Discussion and Analysis
Southeastern Public Library System of Oklahoma
for the Year Ending June 30, 2014
Unaudited

\$120,362 or 2.7% of SEPLSO's FY 2014 income came from State Aid, administered by the Oklahoma Department of Libraries (ODL). This was a reduction of \$874 or 1.67% from the FY 2013 State Aid amount of \$121,236, as a result of state budget cuts. Twenty-two years ago, in FY 1992, SEPLSO received \$167,451 in State Aid, which would have been worth over \$250,000 today, so it can be seen that state budget cuts have taken a heavy toll on this assistance. The State Aid formula is based on population and the square miles within the library system.

"Other income" for SEPLSO varies from year to year, depending on interest rates, programming, available grant funding, and miscellaneous income. For instance, library fees and charges generated \$85,260 in revenue during FY 2014, while low interest rates brought in a disappointing \$23,277, which was \$13,402 below the amount received during FY 2013. For FY 2014, we received a \$13,150 National Endowment for the Humanities grant to do a system-wide series of book discussions, programs, and special events celebrating Charles Portis's novel of the western frontier, *True Grit*, which is set right here in southeast Oklahoma.

An important source of funding for SEPLSO for the past twelve (12) years that is only partly reflected in the financial reports is the Universal Service (aka E-Rate) discount for Internet access and telephone services for schools, public libraries and rural health departments. The E-Rate discounts amount to a tremendous saving which has allowed SEPLSO to greatly improve the high-speed Internet service we provide at our libraries. For FY 2014, SEPLSO was approved for Internet and telephone service discounts up to \$882,428, although we expected to receive only a little more than half of that, because the authorized amount included a full year of service from both our old Internet service provider and the new provider we upgraded to during the year. During FY 2014, we

Management's Discussion and Analysis
Southeastern Public Library System of Oklahoma
for the Year Ending June 30, 2014
Unaudited

received \$445,045.69 in combined discounts and reimbursements, some of which came from the authorized funding for previous years.

The E-Rate discount percentage has been based on the level of participation in the free and reduced school lunch program for the local school district in which each branch library is located. That participation varies from year to year, and the discount we get varies as a result. For FY 2014, it was 85%. Universal Service discounts are approved by the Schools and Libraries Division (SLD) of the Universal Services Administration Company, a contractor for the Federal Communication Commission (FCC). There is a multi-tiered annual application process which is complex, time consuming, and problematic at best. While the discounts for these services are critically important for SEPLSO to continue providing adequate Internet access and telephone service, and we are glad to get them, it can be fairly said that to obtain the discounts one must work through a nightmarish federal bureaucratic process. During FY 2014, we were greatly helped by the assistance of Kellogg & Sovereign, LLC, with preparing and filing our E-Rate applications. Some additional Universal Service Fund discounts come from a State of Oklahoma program which supplements the federal Internet service discounts and also provides toll free phone numbers for calls from customers to our branch libraries.

A federal law, the *Children's Internet Protection Act* (CIPA), mandates that all public libraries receiving federal funding must filter computers having Internet access. As an E-Rate recipient, SEPLSO must comply with this. During FY 2014, SEPLSO paid Peak Uptime \$2,240 for filtering service provided through SEPLSO's Palo Alto PA-3020 security appliance.

Management's Discussion and Analysis
Southeastern Public Library System of Oklahoma
for the Year Ending June 30, 2014
Unaudited

In this time of economic change and uncertainty, the financial outlook for SEPLSO is likewise uncertain. The passage by voters in November 2012 of State Question 766 eliminated intangibles from ad valorem taxation, and the estimated continuing annual loss of revenue for SEPLSO from that is about \$100,000. Only one of SEPLSO's seven counties had reduced ad valorem revenues during FY 2014, although that drop, in Coal County, was significant. State budget cuts have whittled away at state aid revenues over the past ten-plus years, and every year various tax cuts and assessment lids are proposed by legislators which could result in lower ad valorem revenues along with reduced services and grants from the state and federal governments. Interest rates, which have been exceptionally low, are finally showing signs of modest improvement. All of these factors call for continuing the cautious budgeting approach that SEPLSO has taken in recent years, keeping growth in ongoing expense commitments tightly controlled and using revenues received above projections mostly for expenditures of a one-time nature. The foresight fourteen years ago in creating and building up the automation reserve fund means that the funding is available to make significant changes in SEPLSO's automation system and technology infrastructure when they are needed. The initial FY 2014 budget was cut back significantly in the area of operating expenditures, and the revised FY 2014 budget that was adopted in November 2013 contained further cuts to our digital resources and services.

PERSONNEL

Paid employees for FY 2014 included 70 professional, paraprofessional, and other support staff. 12 were exempt (salaried), 38 worked 40 hours per week, 11 worked from 25 to 35 hours per week, and 9 worked 20 hours per week. Actual personnel

Management's Discussion and Analysis
Southeastern Public Library System of Oklahoma
for the Year Ending June 30, 2014
Unaudited

expenditures of \$2,778,443 for FY 2014 were approximately 62% of total expenditures for FY 2014. Significant points about personnel costs for the year include the following:

1. No pay increase was given other than budgeted longevity pay
2. The health insurance premium had a mid-year 4.18% increase
3. The retirement fund contribution was at the base rate of 14%
4. Emphasis on staff training and professional development

Based on past and current feedback from customers, SEPLSO's two most important assets are our staff and our collection of books and other library resources. Our customers appreciate the quality, friendly service, and the many extra efforts staff make to provide them with the information, resources and services they need.

SERVICES

SEPLSO serves the citizens of its seven-county service area in a multitude of ways, some very traditional and others unforeseen as recently as five years ago. SEPLSO provides information and access to information in diverse formats: hard cover and paperback books; large print books; newspapers; magazines; videos (almost entirely DVDs); audio recordings (mostly CDs, plus some MP3 recordings and a few tapes); online information services (available within the library and often to remote locations); and microfilm (back files of local newspapers, various census and genealogy resources), maps, etc. Downloadable audio books were added to this array of resources in 2010 and downloadable e-books were added in 2011. Other services

Management's Discussion and Analysis
Southeastern Public Library System of Oklahoma
for the Year Ending June 30, 2014
Unaudited

include, but are not limited to: programs for infants, children, teens, and adults; instruction through classes and individual assistance as needed; reference; reader's advisory; and interlibrary loan. Whenever possible, SEPLSO partners with other state, regional and local community organizations to provide resources with a cost savings and some resources that would not be readily available without these networks.

ANNUAL CIRCULATION & USE OF LIBRARIES

Circulation of materials and online resources from SEPLSO libraries during FY 2014 decreased from FY 2013's total of 834,295 to a total of 799,537, a reduction of 34,758 or 4.2%. Physical checkouts of library materials totaled 777,621, while online checkouts of e-books and downloadable audio books increased 15.4% from 18,986 in FY 2013 to 21,916 in FY 2014.

A statistical review of use of SEPLSO libraries shows the following breakdown for FY 2014:

Circulation	799,537
Interlibrary Loan: Borrowed	705
Interlibrary Loan: Loaned	2,003
Interbranch Loans	1,995
Computer/Internet sessions	177,994
Programs	2,382
Program Attendance	55,000
Library Visits	803,714
Reference Questions	123,823

Management's Discussion and Analysis
Southeastern Public Library System of Oklahoma
for the Year Ending June 30, 2014
Unaudited

The number of public computer and Internet sessions was slightly down, 975, or 0.5%, but this count does not include tens of thousands of wireless Internet sessions, many of them done from outside the libraries, often outside of library hours.

With the greatly increased number of mobile computing devices using wireless, it is reasonable to assume that actual Internet use through the wireless access points in each of our branch libraries was probably higher than ever. Attendance at library programs was up by 1,263 persons, helped by the very positive response to the programs done as part of The Big Read: *True Grit*. The total number of library visits was up by 5,535. The number of reference questions decreased by 3,003, or 2.4%. Approximately \$629,811 was spent in FY 2014 for books and other library materials and online information services, as well as materials for use by outreach services, including reading centers and community reading collections.

At the conclusion of FY 2014, statistics from the library automation system said that SEPLSO (system-wide) has approximately 425,613 books, 27,196 audio recordings (both music and audio books), 34,584 video recordings (mostly DVDs), 1,968 microfilms, 425 maps, and 684 subscriptions to newspapers and magazines. During FY 2014, 23,593 books were added, along with 2,322 audio items and 2,793 video items. A total of 18 licensed online services are available for SEPLSO patrons. There are 6 online services provided at the state level and 12 paid for by SEPLSO. These online services are available to patrons within SEPLSO libraries and most are accessible remotely from home or office.

Unaudited

PLANNING AND GOALS

Keeping policies and plans current for SEPLSO is a regular, ongoing priority. During FY 2014, all of SEPLSO's policies and operating procedures were reviewed, and one policy was updated. A new Long Range Plan for FY 2015 - FY 2019 was written during FY 2014 and approved May 13, 2014. An update of the three-year technology plan for 2013 - 2016 was approved September 10, 2013.

INDEPENDENT AUDITORS' REPORT

Board of Trustees
Southeastern Public Library System of Oklahoma
McAlester, Oklahoma

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, and major fund and the aggregate remaining fund information of the Southeastern Public Library System of Oklahoma (the Library), as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the Library's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and major fund and aggregate fund information of the Southeastern Public Library System of Oklahoma as of June 30, 2014, and the respective changes in financial position, and changes in fund balance thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis pages 3-12 and the Statement of Revenues and Expenses-General Fund-Budget to Actual on page 13, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Library's basic financial statements. The Schedule of Operating Expenses and Schedule of State Financial Assistance are presented for purposes of additional analysis and is not a required part of the basic financial statements

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 8, 2014 on our consideration of the Southeastern Public Library System of Oklahoma's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Library's internal control over financial reporting and compliance.

Southeastern Public Library System of Oklahoma
Notes to Financial Statements
June 30, 2014

Note A - Organization

The Financial Reporting Entity – The Southeastern Public Library System of Oklahoma is an independent special purpose entity established under Title 65 Article 4, Public Library Systems, of the Oklahoma statutes. These statutes authorize and empower counties, cities and towns to join in the creation, development, and operation and maintenance of public libraries systems to serve multi-county districts. Title 65 authorizes special tax levies for the support of library systems to serve multi-county systems established under this act. Under *Governmental Accounting Standards Board (GASB) No. 14*, the system is defined as a Special—Purpose Governmental Unit. The participating counties are Choctaw, Coal, Haskell, Latimer, LeFlore, McCurtain and Pittsburg, which have authorized special tax levies to provide funding for the support of the Library.

Note B – Summary of Significant Accounting Policies

The accounting policies of the Library conform to generally accepted accounting principles, as applicable to special purpose governmental units. The *Governmental Accounting Standards Board* is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. It defines primary governments as governments which provide a range of services. A special purpose government is a legally separate entity that performs only one (or a few) specific activities. The Library is a special purpose governmental unit under that definition. It is not a component unit of any other government. The more significant of Southeastern Public Library System of Oklahoma's accounting policies are described below.

Basis of Presentation—Fund Accounting – The Library uses funds to report on its financial position, results of its operations and changes in fund balances. A fund is a separate accounting entity with a self-balancing set of accounts. The Library uses a general operating fund and a trust fund.

1. Basis of Accounting

The Library prepares its financial statements on the modified accrual basis of accounting. Under this method, support and other revenues are recognized when they become measurable and available. Expenditures are generally recognized when the related fund liability is incurred. The Library considers property taxes as available if they are collected within 60 days after year-end. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded when earned since they are measurable and available. Donations and grant funds are considered earned when received, unless subject to forfeiture, in which case when received they are recorded as deferred revenues until earned.

2. Budgets

The Library is required by state law to adopt an annual budget. The budget adopted by the Board of Trustees is a non-appropriated budget in that it is a financial plan approved in a manner authorized by statute but not created by an appropriations bill, which is signed into law.

Southeastern Public Library System of Oklahoma
Notes to Financial Statements - Continued
June 30, 2014

3. Contributed Facilities

The Library occupies, without charge, certain premises located in government-owned buildings. The estimated fair rental value of the premises is not included on the financial statements as it is not determinable at this time.

4. Grants

The Library records income from grants in the period received.

5. Cash and Cash Equivalents

The Library considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. Investments are reported at fair value, which is determined using a selected basis. Short-term investments are reported at cost, which approximates fair value.

6. Income Taxes

No provision is made for income taxes. The Library is exempt from taxes under the Internal Revenue Code under Section 501(c)(3). The Library files a Form 990 with the IRS annually. Generally, income tax returns related to the current and three prior years remain open for examination by taxing authorities.

7. Interfund Receivables and Payables

During the course of operations, some transactions occur between funds that may result in amounts owed between funds. Those related to goods and services type transactions are classified as "due to and from other funds." Interfund receivables and payables between funds within governmental activities are eliminated in the Government-Wide Statement of Net Assets.

8. Compensated Absences

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources are reported as expenditures and a fund liability of the general fund.

9. Fund Balances

The Library adopted Governmental Accounting Standards Board (GASB) Statement No 54 which redefines the classifications of fund equities.

• *Nonspendable*. Fund balances that cannot be spent because they are either:

•• *Not in Spendable Form*—generally, amounts that are not expected to be converted to cash, such as inventories or prepaid amounts. This classification also includes some long-term amounts such as property acquired for resale or the long-term portion of loans receivable. (However, if the eventual proceeds or collections from these would be restricted, committed, or assigned, these amounts would be included in that other classification.)

Southeastern Public Library System of Oklahoma
Notes to Financial Statements – Continued
June 30, 2014

•• *Legally or Contractually Required to be Maintained Intact*—amounts that are required to be maintained intact, such as the principal of a permanent fund.

• *Restricted*—amounts that can be used only for specific purposes because of (a) constitutional provisions or enabling legislation or (b) externally imposed constraints. (External constraints might be imposed by creditors, grantors, contributors, or even the laws or regulations of other governments.)

• *Committed*—amounts that can be used only for specific purposes because of a formal action by the government's highest level of decision-making authority. This classification might also include contractual obligations if existing resources have been committed for use in satisfying those contractual requirements. (The formal action to establish constraints should be taken before year-end, even if the amount might not be determined until the subsequent period.)

• *Assigned*—amounts intended to be used for specific purposes but that do not meet the criteria to be classified as restricted or committed. Intent can be stipulated by the governing body, another body (such as a finance committee), or by an official to whom that authority has been given. Assigned fund balances represent tentative plans for future use of financial resources. The amounts are decided by the Board and can be reclassified as needed.

• *Unassigned*—this is the residual classification for the general fund (i.e., everything that is not in another classification or in another fund). The general fund is the only governmental fund that can report a positive unassigned fund balance. Other governmental funds might have a negative unassigned fund balance as a result of overspending for specific purposes for which amounts had been restricted, committed, or assigned.

10. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

11. Risk Management

The Library is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Library carries commercial insurance for risks of loss, including workers' compensation and general liability. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

12. Participation in Risk Pools

The Library maintains worker's compensation coverage through the Oklahoma State Insurance

Fund, which is classified as a risk pool for this coverage.

Note C - Employee Benefits

1. Pension Trust Fund

During the year ended June 30, 1990, the Library initiated a pension plan for its employees. The Library is the trustee for this plan. The contributions for each plan year are based on the amount of the total salary reduction elections of all participants, which amount shall be deemed an employer elective contribution.

For each participant who is eligible to share in matching contributions for the plan year, a discretionary matching contribution is made equal to a uniform percentage of each such Participant's Deferred Compensation, the exact percentage, if any, to be determined each year by the Library.

To be eligible to contribute to the plan an employee must have been employed for six months and be a minimum age of 18. There is also a six year vesting schedule with 20 percent vesting each year after the employee's second year of service. A plan year is defined as 1,000 hours of service.

The Library uses MassMutual to help administer the retirement plan. The latest detailed annual report was prepared by Midwest PPSS, Inc. for the calendar year of 2013.

As contributions are made, they are credited to individual accounts set up for each employee. The employees, at the discretion of the administrator, may direct the trustee on the investment of these contributions. The total contribution by the Library for the year ended June 30, 2014, was \$271,936.

Benefits to be paid to employees upon retirement will be limited to the actual cash value of their individual accounts.

Plan assets at June 30, 2014 were \$3,542,595.

2. Compensated Absences

Compensated absence is paid for terminating employees up to 160 hours of accumulated vacation. No sick leave or holiday leave is vested. Total potential liability for compensated absences at June 30, 2014, was \$9,917.

Note D - Related Parties

In order to facilitate support for the Library in the local communities, local chapters known as Friends of the Library are established to receive contributions for library improvements. Each chapter has an advisory board. Some of these chapters have separately incorporated as IRS Code 501-(c)-(3) non-profit organizations. They raise funds for informational materials, fixtures and equipment, and construction funds for the local community library.

**Southeastern Public Library System of Oklahoma
Notes to Financial Statements - Continued
June 30, 2014**

Note E - Concentrations of Credit Risk

During the year, the Library maintained deposits of cash in excess of the federally insured amounts. However, the Bank has pledged sufficient collateral to secure the deposits. The following schedule discloses the insured and collateralized amounts.

The Library's bank deposits are categorized below per GASB Statement 3 to give an indication of the level of risk assumed at year-end. Deposits of the Library are carried at cost. The carrying amount of deposits is stated in the balance sheet as "cash" and "certificates of deposits."

Deposits by type at June 30, 2014, are as follows:

Deposits	Risk Category			Total Collateral	Bank Balance	Financial Statement
	1	2	3			Carrying Amount
Cash	\$ 79,712	\$ -	\$ -	\$ 79,712	\$ 223,105	\$ 79,712
Certificates of Deposit	589,632	4,144,001	-	4,733,632	4,540,148	4,733,632
Totals	\$ 669,344	\$ 4,144,001	\$ -	\$ 4,813,344	\$ 4,763,254	\$4,813,344

- (1) Insured or collateralized with securities held by the entity or by its agent in the entity's name.
(2) Collateralized with securities held by the pledging financial institution's trust department or agent in the entity's name.
(3) Uncollateralized.

Note F - Economic Dependency

The Library receives a substantial portion of its support from ad valorem tax levies in the counties in which it operates. Any change in Oklahoma statutes regarding library tax levies, were they to occur, might have a significant effect on the Library's operations. In addition, the Library receives significant amounts from the Oklahoma Department of Libraries. Any change in state funding might affect the Library's operations.

Note G – Subsequent Events

Management has evaluated all events subsequent to the balance sheet date of June 30, 2014 through the date of issuance of these financial statements, September 8, 2014, and has determined that there are no subsequent events that require disclosure under generally accepted accounting principles.

**Southeastern Public Library System of Oklahoma
Notes to Financial Statements - Continued
June 30, 2014**

Note F – Long Term Assets

Long-term assets are accounted for as capital assets. All long-term assets are valued at historical cost or estimated historical cost if actual is unavailable, except for donated fixed assets which are recorded at their estimated fair value at the date of donation.

Depreciation of all exhaustible fixed assets is recorded as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Assets. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

Office equipment	5 to 10 years
Furniture	10 to 20 years
Computer equipment	3 to 5 years
Vehicles	3 to 5 years
Other / informational materials	3 to 20 years

Fixed Assets – The following is a summary of changes in the general fixed assets account group during the fiscal year:

	<u>Equipment/ Furnishings</u>	<u>Accumulated Depreciation</u>	<u>Informational Materials</u>	<u>Accumulated Depreciation</u>
Balance, 7-01-13	\$ 2,882,231	\$ 2,250,455	\$ 8,338,436	\$ 3,947,037
Additions	479,738	334,560	550,980	182,117
Disposals / adjustments	<u>(220,599)</u>	<u>(197,191)</u>	<u>(205,163)</u>	<u>(139,343)</u>
Balance 6-30-14	<u>\$ 3,161,370</u>	<u>\$ 2,387,825</u>	<u>\$ 8,684,253</u>	<u>\$ 3,989,811</u>
Depreciation expense 6-30-14		<u>\$ 334,560</u>		<u>\$ 182,117</u>

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE
AND
OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Board of Trustees
Southeastern Public Library System of Oklahoma
McAlester, Oklahoma

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities of Southeastern Public Library System of Oklahoma (the Library) as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the Library's basic financial statements, and have issued our report thereon dated September 8, 2014.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Library's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Library's internal control. Accordingly, we do not express an opinion on the effectiveness of the Library's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Library's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose

Jackson and Fox PC
