## INDEPENDENT AUDITOR'S REPORT

To the Honorable Board of Education  
Dover Independent School District No. 2  
Dover, Kingfisher County, Oklahoma

### *Report on the Financial Statements*

We have audited the accompanying combined fund type and account group financial statements-regulatory basis of Dover Independent School District No. 2, Oklahoma, as of and for the year ended June 30, 2016, and the related notes to the financial statements, as listed in the table of contents.

### *Management's Responsibility for the Financial Statements*

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the financial reporting provisions of the Oklahoma State Department of Education as described in Note 1. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### *Auditor's Responsibility*

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial

statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our modified audit opinions.

***Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles***

As described in Note 1, the financial statements are prepared by Dover Independent School District No. 2, Oklahoma, on the basis of the financial reporting provisions of the Oklahoma State Department of Education, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of the Oklahoma State Department of Education.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

***Adverse Opinion on U.S. Generally Accepted Accounting Principles***

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Dover Independent School District No. 2, Oklahoma, as of June 30, 2016, or changes in financial position, or cash flows thereof for the year then ended.

***Basis for Qualified Opinion on Regulatory Basis of Accounting***

As discussed in Note 1, the financial statements referred to above do not include the general fixed asset account group, which is a departure from the regulatory basis of accounting prescribed by the Oklahoma State Department of Education. The amount that should be recorded in the general fixed asset account group is not known.

***Qualified Opinion on Regulatory Basis of Accounting***

However, in our opinion, except for the effects of the matter discussed in the "Basis for Qualified Opinion on Regulatory Basis of Accounting" paragraph, the financial statements referred to above present fairly, in all material respects, the cash and unencumbered cash balances arising from regulatory basis transactions of each fund type and account group of Dover Independent School District No. 2, Oklahoma, as of June 30, 2016, and the revenues it received and expenditures it paid and encumbered for the year then ended, in accordance with the financial reporting provisions of the Oklahoma State Department of Education as described in Note 1.

*Other Matters*

*Other Information*

Our audit was conducted for the purpose of forming an opinion on the fund type and account group financial statements that collectively comprise Dover Independent School District No. 2, Oklahoma's basic financial statements. The accompanying Combining Financial Statements and Schedule of Expenditures of Federal Awards as listed in the accompanying Table of Contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Combining Financial Statements and the Schedule of Expenditures of Federal Awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the fund type and account group financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, except for the financial statements being prepared in compliance with the regulatory basis as prescribed by the Oklahoma State Department of Education as discussed in Note 1, such information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

*Other Reporting Required by Government Auditing Standards*

In accordance with Government Auditing Standards, we have also issued our report dated December 9, 2016, on our consideration of Dover Independent School District No. 2, Oklahoma's, internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Dover Independent School District No. 2, Oklahoma's internal control over financial reporting and compliance.

1. **Summary of Significant Accounting Policies**

The basic financial statements of the Dover Independent School District No. 2 (the "District") have been prepared in conformity with another comprehensive basis of accounting as prescribed by the Oklahoma State Department of Education. The more significant of the District's accounting policies are described below.

**A. Reporting Entity**

The District is a corporate body for public purposes created under Title 70 of the Oklahoma Statutes and accordingly is a separate entity for operating and financial reporting purposes. The District is part of the public school system of Oklahoma under the general direction and control of the State Board of Education and is financially dependent on state of Oklahoma support. The general operating authority for the public school system is the Oklahoma School Code contained in Title 70, Oklahoma Statutes.

The governing body of the District is the Board of Education composed of five elected members. The appointed superintendent is the executive officer of the District.

In evaluating how to define the district, for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria established by the Governmental Accounting Standards Board (GASB). The basic -- but not the only -- criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters. A second criterion used in evaluating potential component units is the scope of public service. Application of this criterion involves considering whether the activity benefits the District and/or its citizens, or whether the activity is conducted within the geographic boundaries of the District and is generally available to its patrons. A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the District is able to exercise oversight responsibilities. Based upon the application of these criteria, there are no potential component units included in the District's reporting entity.

The School Education Foundation is not included in the reporting entity. The District does not appoint any of the board members or exercise any oversight authority over the Foundation.

**Summary of Significant Accounting Policies, (Continued)**

**B. Fund Accounting**

The District uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain district functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. An account group, on the other hand, is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources.

Funds are classified into three categories: governmental, proprietary and fiduciary. Each category, in turn, is divided into separate "fund types."

**Governmental Fund Types**

Governmental funds are used to account for all or most of a government's general activities, including the collection and disbursement of earmarked monies (special revenue funds), the acquisition or construction of general fixed assets (capital projects funds), and the servicing of general long-term debt (debt service funds).

**General Fund** - The general fund is used to account for all financial transactions except those required to be accounted for in another fund. Major revenue sources include state and local property taxes and state funding under the Foundation and Incentive Aid Program. Expenditures include all costs associated with the daily operations of the schools except for programs funded for building repairs and maintenance, school construction and debt service on bonds and other long-term debt. The general fund includes federal and state restricted monies that must be expended for specific programs.

**Special Revenue Fund** - The Special Revenue Fund of the District consists of the Building Fund, the Child Nutrition Fund, the Coop Fund, and the Insurance Fund.

**Building Fund** - The Building Fund consists of monies derived from property taxes levied for the purpose of erecting, remodeling, or repairing buildings and for purchasing furniture and equipment.

**Special Revenue Fund, (Continued)**

Child Nutrition Fund - The Child Nutrition Fund consists of monies collected from meals served to students and employees of the district and is expended on food, supplies and salaries. The district also deposits monies received from the National School Lunch and Breakfast programs into this fund.

Co-op Fund - The Co-op Fund consists of monies collected from certain federal grant program resources and contributions from other school districts that voluntarily choose to pool their resources for the purpose of coordinated, multi-district special education and related services.

Insurance Fund - The Insurance Fund consists of monies collected from insurance and is expended on erecting, remodeling, or repairs.

Debt Service Fund - The Debt Service Fund is the District's Sinking Fund and is used to account for the accumulation of financial resources for the payment of general long-term debt principal, interest and related costs. The primary revenue sources are local property taxes levied specifically for debt service and interest earnings from investments.

Capital Projects Fund - The Capital Projects Fund is the District's Bond Funds and are used to account for the proceeds of bond sales to be used exclusively for acquiring schools sites, constructing and equipping new school facilities, renovating existing facilities, and acquiring transportation equipment.

**Fiduciary Fund Types**

Fiduciary funds are used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the District. Agency funds generally are used to account for assets that the District holds on behalf of others as their agent and do not involve measurement of results of operations.

Agency Fund - The Agency Fund is the School Activities Fund which is used to account for monies collected principally through fundraising efforts of the students and District-sponsored groups. The administration is responsible, under the authority of the Board, for collecting, disbursing and accounting for these activity funds.

**Account Groups**

Account groups are not funds and consist of a self-balancing set of accounts used only to establish accounting control over long-term debt and general fixed assets not accounted for in proprietary funds.

**General Long-Term Debt Account Group** - This account group was established to account for all long-term debt of the District, which is offset by the amount available in the debt service fund and the amount to be provided in future years to complete retirement of the debt principal. It is also used to account for liabilities for compensated absences and early retirement incentives which are to be paid from funds provided in future years.

**General Fixed Asset Account Group** - This account group is used to account for property, plant and equipment of the school district. The District has not maintained the cost of fixed assets purchased in previous years. Thus the General Fixed Asset Account Group is not presented.

**Memorandum Only - Total Column**

The total column on the financial statements is captioned "memorandum only" to indicate that it is presented only to facilitate financial analysis. Data in this column does not present financial position, results of operations or cash flows in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

**C. Basis of Accounting**

The District prepares its financial statements in a presentation format that is prescribed by the Oklahoma State Department of Education. This format is essentially the generally accepted form of presentation used by state and local governments prior to the effective date of GASB Statement No. 34, *Basic Financial Statements - Management's Discussion and Analysis - for State and Local Governments*. This format differs significantly from that required by GASB Statement No. 34.

FOR THE YEAR ENDED JUNE 30, 2016**

**Summary of Significant Accounting Policies, (Continued)**

**C. Basis of Accounting, (Continued)**

The basic financial statements are essentially prepared on a basis of cash receipts and disbursements modified as required by the regulations of the Oklahoma State Department of Education as follows:

- Encumbrances represented by purchase orders, contracts and other commitments for the expenditure of monies are recorded as expenditures when approved.
- Investments are recorded as assets when purchased.
- Warrants payable are recorded as liabilities when issued.
- Long-term debt is recorded when incurred.

This regulatory basis of accounting differs from accounting principles generally accepted in the United States of America, which require revenues to be recognized when they become available and measurable, or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred for governmental fund types.

**D. Budgets and Budgetary Accounting**

The District is required by state law to prepare an annual budget. A preliminary budget must be submitted to the Board of Education by December 31 for the fiscal year beginning the following July 1. If the preliminary budget requires an additional levy, the District must hold an election on the first Tuesday in February to approve the levy. If the preliminary budget does not require an additional levy, it becomes the legal budget. If an election is held and the taxes are approved, then the preliminary budget becomes the legal budget. If voters reject the additional taxes, the District must adopt a budget within the approved tax rate.

The District may upon approval by a majority of the electors of the District voting on the question make the ad valorem levy, emergency levy and local support levy permanent.

Under current Oklahoma Statutes, a formal budget is required for all funds except for agency funds. Budgets are presented for all funds that include the originally approved budgeted appropriations for expenditures and final budgeted appropriations as adjusted for supplemental appropriations and approved transfers between budget categories.

**E. Assets, Liabilities and Fund Equity**

**Cash and Cash Equivalents** - For purposes of the statement of cash flows, the District considers all cash on hand, demand deposits and highly liquid investments, with an original maturity of three months or less when purchased to be cash and cash equivalents.

**Investments** - Investments consist of direct obligations of the United States Government and Agencies or certificates of deposit with maturities greater than three months when purchased. All investments are recorded at cost, which approximates market value.

**Property Tax Revenues** - The District is authorized by state law to levy property taxes which consist of ad valorem taxes on real and personal property within the District. The County Assessor, upon receipt of the certification of tax levies from the county excise board, extends the tax levies on the tax roll for submission to the county treasurer prior to October 1. The county treasurer must commence tax collection within fifteen days of receipt of the tax rolls. The first half of taxes is due prior to January 1. The second half is due prior to April 1. If the first payment is not made timely, the entire tax becomes due and payable on January 2. Second half taxes become delinquent on April 1 of the year following the year of assessment. If not paid by the following October 1, the property is offered for sale for the amount of taxes due. The owner has two years to redeem the property by paying the taxes and penalty owed. If, at the end of two years, the owner has not done so, the purchaser is issued a deed to the property.

**Inventories** - The value of consumable inventories at June 30, 2016 is not material to the basic financial statements.

**Fixed Assets and Property, Plant and Equipment** - The General Fixed Asset Account Group is not presented.

**Compensated Absences** - The school does not calculate a dollar value of compensated absences. Thus, compensated absences have not been presented.

**Long-Term Debt** - Long-term debt is recognized as a liability of a governmental fund when due, or when resources have been accumulated in the Debt Service Fund for payment early in the following year. For other long-term obligations, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund. The remaining portion of such obligations is reported in the General Long-Term Debt Account group. Long-term liabilities expected to be financed from proprietary fund operations are accounted for in those funds.

**Summary of Significant Accounting Policies, (Continued)**

**E. Assets, Liabilities and Fund Equity, Continued**

**Cash Fund Balance** - Cash fund balance represents the funds not encumbered by purchase order, legal contracts, and outstanding warrants.

**F. Revenue, Expenses and Expenditures**

**State Revenues** - Revenues from state sources for current operations are primarily governed by the state aid formula under the provisions of Article XVIII, Title 70, Oklahoma Statutes. The State Board of Education administers the allocation of state aid funds to school districts based on information accumulated from the districts. After review and verification of reports and supporting documentation, the State Department of Education may adjust subsequent fiscal period allocations of money for prior year errors disclosed by review. Normally, such adjustments are treated as reductions or additions of revenue of the year when the adjustment is made. The District receives revenue from the state to administer certain categorical educational programs. State Board of Education rules require that revenue earmarked for these programs be expended only for the program for which the money is provided and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same categorical programs. The State Department of Education requires that categorical, educational program revenues be accounted for in the general fund.

**Interfund Transactions** - Quasi-external transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund or expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the fund that is reimbursed.

All other interfund transactions, except quasi-external transactions and reimbursements, are reported as transfers. Nonrecurring or non-routine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers. There were no operating transfers or residual equity transfers during the fiscal year ended June 30, 2016.

**G. Statement of Cash Flows**

Since the District does not currently have any Proprietary Fund Types, the statement of cash flows has not been presented in the fiscal year 2016 accompanying financial statements.

2. **Cash and Investments**

The District's investment policies are governed by state statute. Permissible investments include direct obligations of the United States Government and Agencies; certificates of deposit of savings and loan associations, and bank and trust companies; and savings accounts or savings certificates of savings and loan associations, and trust companies. Collateral is required for demand deposits and certificates of deposit for all amounts not covered by federal deposit insurance.

**Deposits** - The District's cash deposits at June 30, 2016, are categorized to give an indication of the level of risk assumed by the District at year end as follows:

**Deposit Categories of Credit Risk**

- (A) Insured or collateralized with securities held by the District or by its agent in the District's name.
- (B) Collateralized with securities held by the pledging financial institution's trust department or agent in the District's name.
- (C) Uncollateralized.

3. **General Long-Term Debt**

State Statutes prohibit the District from becoming indebted in an amount exceeding the revenue to be received for any fiscal year without approval by the District's voters. Bond issues have been approved by the voters and issued by the District for various capital improvements. These bonds are required to be fully paid serially within 25 years from the date of issue.

General long-term debt of the District consists of bonds payable. Obligations for capital leases, compensated absences, and early retirement incentives have not been presented. Debt service requirements for bonds payable are solely from fund balance and future revenues of the Debt Service Fund.

The following is a summary of the long-term debt transactions of the District for the year ended June 30, 2016:

		<u>Bonds Payable</u>
Balance 7-1-15	\$	350,000.00
Additions		855,000.00
Retirements		<u>175,000.00</u>
Balance 6-30-16	\$	<u><u>1,030,000.00</u></u>

A brief description of the outstanding bond issues at June 30, 2016 is set forth below:

		<u>\$ 1,030,000.00</u>	<u>\$ 62,556.25</u>	<u>\$ 1,092,556.25</u>

Interest expense on general long-term debt incurred during the current year totaled \$3,850.00.

**4. Employee Retirement System**

The District participates in the state-administered Oklahoma Teachers' Retirement System (the "System"), which is a cost-sharing, multiple-employer public employee retirement system (PERS). Under the System, contributions are made by the District, the State of Oklahoma, and the participating employees. Participation is required for all teachers and other certified employees and is optional for all other regular employees of public educational institutions who work at least 20 hours per week. A participant's date of membership is the date the first contribution is made to the System. The System is administered by a board of trustees which acts as a fiduciary for investing the funds and governing the administration of the System. The District has no responsibility or authority for the operation and administration of the System nor has it any liability, except for the current contribution requirements.

A participant with five years of creditable service may retire with a normal retirement allowance at the age of sixty-two or with reduced benefits as early as age fifty-five. The normal retirement allowance paid monthly for life and then to beneficiaries, if certain options are exercised, equals two percent of the average of the highest three earning years of contributory service multiplied by the number of years of credited service.

**KINGFISHER COUNTY, OKLAHOMA**  
**NOTES TO FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED JUNE 30, 2016**

**Employee Retirement System, (Continued)**

A participant leaving employment before attaining retirement age, but completing ten years of service, may elect to vest his accumulated contributions and defer receipt of a retirement annuity until a later date. When a participant dies in active service and has completed ten years of credited service, the beneficiary is entitled to a death benefit.

If the beneficiary is a surviving spouse, the surviving spouse may, in lieu of the death benefit, elect to receive, subject to the surviving spousal options, the participant's retirement benefits accrued at the time of death.

The contribution rates for the Districts, which are not actuarially determined, and its employees are established by statute and applied to the employee's earnings, plus employer-paid fringe benefits. The District is required by statute to contribute 9.5% of applicable compensation effective July 1, 2010 and thereafter. The District is allowed by the Oklahoma Teacher's Retirement System to make the required contributions on behalf of the participating members. The required contribution for participating members is 7.0% of each member's total compensation.

For the year ended June 30, 2016, the total compensation covered by the Teacher Retirement System was \$875,172.14. The District's contributions to the System for the years ending June 30, 2016, 2015, and 2014 were \$101,707.90, \$100,030.06, and \$96,142.72, respectively.

The pension benefit obligation is a standardized disclosure measure of the present value of pension benefits. This pension valuation method reflects the present value of estimated pension benefits that will be paid in future years as a result of employee services performed to date and is adjusted for the effect of projected salary increases. There are no actuarial valuations performed on individual school districts. The non-funded pension benefit obligation of the System, as determined as part of the latest actuarial valuation dated June 30, 2015, is as follows:

Total Pension Benefit Obligation	\$20,692,630,888
Actuarial Value of Assets	<u>13,771,884,292</u>
Unfunded Actuarial Accrued Liability	<u>\$ 6,920,746,596</u>

The System's accounting records are maintained on the cash basis of accounting, except for accruals of interest income.

**Employee Retirement System, (Continued)**

Ten year historical trend information is presented in the Teacher's Retirement System of Oklahoma Annual Report for the year ended June 30, 2015. This information is useful in assessing the pension plan's accumulation of sufficient assets to pay pension benefits as they become due. The Oklahoma Teachers' Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for the System. That report may be obtained by writing to the Oklahoma Teachers' Retirement System, P.O. Box 53524, Oklahoma City, OK 73152 or by calling (405) 521-2387.

5. **Health Care Coverage**

During the year ended June 30, 2016, employees of the Dover Independent School District No. 2, Oklahoma, were covered by a health insurance plan (the plan). The teachers and support personnel may elect to be covered by the plan. The plan was authorized by House Bill 1731, 1988 Oklahoma Legislature (74 O.S. 1988, Supp. Section 1301-1322) with the Oklahoma State and Education Employers Group Insurance Board.

6. **Investment Income**

Investment income deposits are receipted as allocated by the Treasurer. School District Funds held by the Treasurer are required to be invested in accordance with Title 70 of the Oklahoma Statutes. Interest income on cash funds totaled \$48.37.

7. **Contingencies**

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time, although the District expects such amounts, if any, to be immaterial.

8. **Risk Management**

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees, employees' health and life, and natural disasters. The District manages these various risks of loss through the purchase of commercial insurance. Management believes such coverage is sufficient to preclude any significant uninsured losses to the District. Settled claims have not exceeded this insurance coverage in any of the past three fiscal years.

9. **Surety Bonds**

The District has a public employee position bond covering the Lunchroom Attendant for \$5,000.00, the Encumbrance Clerk for \$5,000.00, the Activity Fund Clerks for \$5,000.00, the Principal for \$5,000.00, the Minutes Clerk for \$5,000.00 and the Superintendent for \$100,000.00. The bond is written by Western Surety Company, bond number 18169306, for the penal sum of \$130,000.00 for the term of November 11, 2014 to November 11, 2015 and November 11, 2015 to November 11, 2016.

10. **Subsequent Events**

Management has evaluated subsequent events through December 9, 2016, which is the date the financial statements were available to be issued and have determined that no additional information needs to be added to the financial statements.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL  
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND  
OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL  
STATEMENTS PERFORMED IN ACCORDANCE WITH  
*GOVERNMENT AUDITING STANDARDS*

To the Honorable Board of Education  
Dover Independent School District No. 2  
Dover, Kingfisher County, Oklahoma

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the fund type and account group financial statements-regulatory basis of Dover Independent School District No. 2, Oklahoma, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise Dover Independent School District No. 2, Oklahoma's basic financial statements, and have issued our report thereon dated December 9, 2016. As stated in our report, our opinion was adverse with respect to the financial statements not being prepared in conformity with accounting principles generally accepted in the United States of America because the presentation followed the regulatory basis of the financial reporting provisions of the Oklahoma State Department of Education. In addition, our opinion was qualified because the omission of the General Fixed Assets Account Group results in an incomplete presentation with respect to the financial statements being prepared following the regulatory basis of the financial reporting provisions of the Oklahoma State Department of Education.

***Internal Control over Financial Reporting***

In planning and performing our audit of the financial statements, we considered Dover Independent School District No. 2, Oklahoma's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we do not express an opinion on the effectiveness of the entity's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### *Compliance and Other Matters*

As part of obtaining reasonable assurance about whether Dover Independent School District No. 2, Oklahoma's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* in the United States of America.

### *Purpose of this Report*

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**AUDIT COMMENTS**  
**JUNE 30, 2016**

CURRENT YEAR

- 2016-001      During our audit of the Activity Funds, we found that money being receipted by several of the Activity Fund sponsors was not being forwarded to the Activity Fund custodian on a timely basis or receipts were not present or receipts were not completely filled out to make the determination. Sponsors should turn in their receipts and money daily so that, per 70 O.S. 5-129, the Activity Fund custodian can determine if money is required to be deposited daily.
- 2016-002      During our audit of the Activity Funds, we noted instances where invoices were not signed to verify receipt of goods or services. The person receiving goods or services should sign the invoice, statement, or delivery ticket to indicate that the goods or services were received and in good condition.
- 2016-003      During our audit of the payroll records, we noted some additional pay where remunerations for services exceeding \$500.00 did not have a written extra duty contract as required by Title 70 Section 5-123 of the Oklahoma statutes. No expenditure involving an amount greater than Five Hundred Dollars (\$500.00) shall be made by a board of education except in accordance with the provisions of a written contract.
- 2016-004      During our audit of the federal programs, we noted that the District recorded expenses in the accounting system for federal projects that did not match the amount claimed and reimbursed or paid by federal monies. In addition, we noted one receipt for state revenues that was coded to a federal project and source code. Amounts reported in the Oklahoma Cost Accounting System for each federal project must match federal revenues. The District should put controls in place to ensure that OCAS expenditures match federal monies claimed and received.

**AUDIT COMMENTS**  
**JUNE 30, 2016**

PRIOR YEAR

- 15-1 During our audit of the Activity Fund, we noted instances where individual receipts should have been present but were not. Fundraisers, etc. should have individual receipts written to students turning in monies when possible. When not feasible, gates, raffles, carnivals, etc. should have a cash count sheet signed by two individuals and dated to account for all monies received. When applicable, tickets with beginning and ending numbers should be noted on the cash count sheet and retained. When possible, documentation such as a cash register printout receipt or other supporting documentation such as a fundraiser reconciliation should be attached where applicable.
- 15-2 During our audit of the Activity Fund, we noted instances where invoices were dated before the actual purchase orders were approved. All purchase orders must be approved by the purchasing agent to allow any purchases to be made, any service to be provided, or any order placed. Funds are not to be obligated without authorization by the purchasing agent.
- 15-3 During our audit of the General, Building, Child Nutrition and Activity Funds, we noticed instances where invoices were not signed to verify receipt of goods or services. The person receiving goods or services should sign the invoice, statement, or other documentation to indicate that the goods were received or services rendered and in good condition.
- 15-4 During our audit of the federal programs, we noted instances that equipment purchased with federal funds was not properly labeled or identified as purchased with federal monies as required by federal program guidelines. In a couple of instances, equipment could not be located. In some instances, we noted that when equipment was removed from its original location there were no procedures in place to track the location of the equipment. Federal program guidelines require that an inventory system be in place so that federally purchased equipment can be identified and located at all times.

The District implemented procedures and controls to correct audit comment numbers 15-1, 15-2, and 15-4 of the prior year's Audit Comments. However, there were instances of reoccurrence in the current fiscal year of audit comment number 15-3 in the Activity Fund.

## RESPONSE TO CURRENT YEAR AUDIT EXCEPTIONS AND RECOMMENDATIONS JUNE 30, 2015 TO JUNE 30, 2016

**2016-001** The Dover School Administration will review procedures with all staff who receive money. The recommended procedures will be as follows.

*Receipts must be given to anyone who gives you money. This includes sausage money, cookie dough money, shoes or equipment, carnival tickets, yearbook, and baseball banners, etc. Use a three part receipt book. The white part goes to the person who gives you the money, the yellow copy goes to the activity fund custodian with the money, and the pink copy goes in the book. Receipt books must be kept and turned in to the activity fund custodian on the last day of school.*

**2016-002** The Dover School Administration will review procedures with staff regarding documentation of received goods. The recommended procedures will be as follows.

Received goods will be processed through the superintendent's office. When a good or service is received the packing slip and or invoice must be signed to verify receipt of the good or service.

**2016-003** Staff received performance bonuses and retention bonuses pursuant to SMART goals that had been met through a School Improvement Grant. All compensation was approved by the school board. However, contracts were not amended to reflect that compensation.

The Dover School Administration will make it policy that all certified and non-certified personnel have addendums added to their contract for any duties they perform for additional compensation.

### **2016-004**

The entire amount of reimbursement for federal lunches and breakfasts were not coded to expenditures. In addition, the treasurer had one payment miscoded.

We corrected our data and resubmitted it to Financial Accounting. In the future, we will upload our data earlier in the year to check accuracy on a more frequent basis.

Sincerely,

A handwritten signature in black ink, appearing to read "Shannon Grimes". The signature is fluid and cursive, with a large initial "S" and a long, sweeping tail.

## RESPONSE TO CURRENT YEAR AUDIT EXCEPTIONS AND RECOMMENDATIONS JUNE 30, 2014 TO JUNE 30, 2015

15-1 The Dover School Administration will review procedures with all staff who receive money. The recommended procedures will be as follows.

*Receipts must be given to anyone who gives you money. This includes sausage money, cookie dough money, shoes or equipment, carnival tickets, yearbook, and baseball banners, etc. Use a three part receipt book. The white part goes to the person who gives you the money, the yellow copy goes to the activity fund custodian with the money, and the pink copy goes in the book. Receipt books must be kept and turned in to the activity fund custodian on the last day of school.*

15-2 The Dover School Administration will ensure that purchase orders are issued in the proper time/date sequence and are approved before purchases are made. The recommended procedures will be as follows.

A two part handwritten requisition form must be filled out by the person requesting the purchase. These must be filled out and approved prior to purchasing items. The handwritten po must be approved by the group advisor for the fund being used. For example, class sponsors, the athletic director, coaches, and the principal. Once approved by the sponsor, the PO will come to the activity fund custodian to be entered in the system for a computer generated purchase order. This form must have the superintendent's signature for approval. Purchases should only be made after these steps have been taken. Do not order until receiving confirmation from the activity fund custodian that final approval by the superintendent has been made.

15-3 The Dover School Administration will review procedures with staff regarding documentation of received goods. The recommended procedures will be as follows.

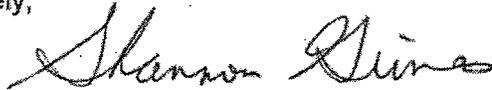

Received goods will be processed through the superintendent's office. When a good or service is received the packing slip and or invoice must be signed to verify receipt of the good or service.

We use an asset tracking software to manage our federal funds programs inventory. All equipment was in the system, but asset tags had not been placed on some of the equipment purchased last year in particular the smart TV's in the high school classrooms, some computer monitors and some I pads had not been tagged. We have rectified that problem, and the equipment has been tagged.

On the day of our audit we had difficulty locating a couple of laptops and I pads from our laptop and I pad carts. Those machines were located later that day and placed in the carts where they belong.

We have a check out system for our I pad and laptop carts with a sign in sheet identifying who has each device at a particular time. The Dover School Administration will review laptop and I pad check out procedures with the teachers and secretaries. The principal will make periodic checks to ensure that procedures are being followed.

Sincerely,
