Independent Auditor's Report

The governing body of the
Town of East Duke

I have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Town of East Duke as of and for the twelve-month period ended June 30, 2010, which collectively comprise the Town's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Town of East Duke's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in "Government Auditing Standards", issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information as of June 30, 2010, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with "Government Auditing Standards", I have also issued my report dated May 16, 2014, on my consideration of the Town of East Duke's internal control over financial reporting and on my tests of compliance with certain laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with "Government Auditing Standards" and should be considered in assessing the results of my audit.

The management's discussion and analysis and budgetary comparison information are not a required part of the basic financial but are supplementary information required by accounting principles generally accepted in the United States of America. I have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, I did not audit the information and express no opinion on it.

Our discussion and analysis of the Town of Duke's financial performance provides an overview of the Town's financial activities for the fiscal year ended June 30, 2010. The Town's performance is discussed and analyzed within the context of the accompanying financial statements and disclosure following this section. This discussion focuses on the Town's primary government, and unless otherwise noted, component units reported separately from the primary government are not included. Please read it in conjunction with the Town's financial statements, which follow this section.

Financial Summary

- For the fiscal year ended June 30, 2010, the Town's total net assets increased by \$242,514 or 18% from the prior year net assets of 1,368,081.
- During the year, Town's expenses for governmental activities amounted to \$65,692 and were funded by program revenues of \$5,297 and further funded programs with taxes and other general revenues that totaled \$42,546.
- In the Town's business-type activities, revenues exceeded program expenses by \$251,504. This resulted in an increase in net assets over prior year of \$260,363 or 23%.
- At June 30, 2010, total governmental funds reported an unassigned fund balance of \$161,976, a decrease of 18% over prior year of \$197,475.

Overview of the Financial Statements

This discussion and analysis introduces the Town's basic financial statements. The basic financial statements include: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements.

Government-wide Financial Statements

The Town's annual report includes two government-wide financial statements. These statements provide both long-term and short-term information about the Town's overall status. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in full accrual accounting and elimination or reclassification of internal activities.

The first of these government-wide statements is the statement of net assets. This is the Town-wide statement of financial position presenting information that includes all of the Town's assets and liabilities, with the difference reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Town as a whole is improving or deteriorating. Evaluation of the overall economic health of the Town would extend to other non-financial factors such as diversification of the taxpayer base or the condition of Town infrastructure in addition to the financial information provided in this report.

The second government-wide statement is the statement of activities, which reports how the Town's net assets changed during the current fiscal year. All current year revenues and expenses are included regardless of when cash is received or paid. An important purpose of the design of the statement of activities is to show the financial reliance of the Town's distinct activities or functions of the revenues provided by the Town's taxpayers.

Both government-wide financial statements distinctively report governmental activities of the Town that are principally supported by taxes and intergovernmental revenues, such as grants, and business-type activities that are intended to recover all or a significant portion of their costs through user fees and charges. Governmental activities include general governments, public safety, public services, and culture and recreation. Business-type activities include water utilities, solid waste management, and wastewater utilities.

The Town's financial reporting entity includes the funds and blended organizations of the Town (primary government). These legally separate organizations operate like Town departments, serve as financing vehicles for Town services, or are governed by a Board of Trustees wholly comprised of the Town's

Mayor and Council. These organizations are blended into the primary government for financial reporting purposes. The Duke Municipal Authority is a blended organization.

Fund Financial Statements

A fund is an accountability unit used to maintain control over resources segregated for specific activities or objectives. The Town uses funds to ensure and demonstrate compliance with finance-related laws and regulations. Within the basic financial statements, fund financial statements focus on the Town's most significant funds rather than the Town as a whole. Major funds are separately reported while all others are combined into a single, aggregated presentation.

Governmental funds

Governmental funds are reported in the fund financial statements and encompass essentially the same functions reported as governmental activities in the government-wide financial statements. However, the focus is different with the fund statements reporting short-term fiscal accountability focusing on the use of spendable resources during the year and balances of spendable resources available at the end of the year. They are useful in evaluating accrual financing requirements of the governmental programs and the commitment of spendable resources for the near-term.

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in the fund balances provide a reconciliation to the government-wide statements to assist in understanding the differences between these two perspectives.

Proprietary funds

Proprietary funds are reported in the fund financial statements and generally report services for which the Town charges customers a fee. There are two kinds of proprietary funds. These are enterprise funds. Enterprise funds essentially encompass the same functions reported as business-type activities in the government-wide statements. Services are provided to customers external to the Town organization such as utilities.

Proprietary fund statements and statements for discretely presented component units (reporting is similar to proprietary funds) provide both long-term and short-term financial information consistent with the focus provided by the government-wide financial statements but with more detail for major enterprise funds and individual component units.

Notes to the financial statements

The accompanying notes to the financial statements provide information essential to gain a full understanding of the government-wide and fund financial statements. The notes of the financial statements begin immediately following the basic financial statements.

Other information

Major funds and component units are reported in the basic financial statements as discussed.

Financial Analysis of the Town as a Whole

Changes in net assets may be observed and used to discuss the changing financial position of the Town as a whole. The Town's net assets at June 30, 2010 were \$1,610,595. This is a \$242,514 increase over June 30, 2009 net assets of \$1,368,081.

TOWN OF EAST DUKE, OKLAHOMA
MANAGEMENT DISCUSSION & ANALYSIS

Increase (decrease) in net assets	\$ (35,446)	\$ (17,849)	\$ 166,223	\$ 260,363	\$ 130,777	\$ 242,514	\$ 111,737	85%

Overall, total revenues increased 33% primarily from business-type activities grants.

Operating expenses increased 32% compared to prior year. The most significant increase was in the sewer department.

Graphic presentations of the Summary of Changes in Net Assets follow to assist in the analysis of the Town's activities for fiscal year 2010 and 2009.

Governmental Activities

Overall revenues from governmental activities decreased. The majority of this decrease was noted in taxes.

Business-type Activities

Business-type activities are shown comparing costs to revenues generated by related services. Sanitation, Sewer, and Water activities are intended to be self-supporting with user charges and other revenues designed to recover costs. Other activities provide services with no user charges.

Financial Analysis of the Town's Funds

Governmental funds

As discussed, governmental funds are reported in the fund statements with a short-term, inflow and outflow of spendable resources focus. This information is useful in assessing resources available at the end of the year in comparison with upcoming financing requirements. Governmental funds reported ending funds balance of \$161,976, which is considered unassigned indicating availability for continuing Town service requirements.

The total ending fund balance of governmental funds show a decrease of \$17,439. Refer to discussion above.

General Fund Budgetary Highlights

The Town did not adopt a General Fund budget for fiscal year 2010, which is not in compliance with the Oklahoma Municipal Budget Act.

Capital Asset and Debt Administration

Capital Assets

Town's investment in capital assets, net of accumulated depreciation, for governmental and business-type activities as of June 30, 2010 was \$1,716 and \$1,452,111, respectively. This is a 99% change year over year primarily related to the completion of the lagoon project.

Primary Government Capital Assets (net of accumulated depreciation)

	<u>Governmental</u>		<u>Business-type</u>		<u>Total</u>	
	<u>2010</u>	<u>2009</u>	<u>2010</u>	<u>2009</u>	<u>2010</u>	<u>2009</u>
Land	\$ -	\$ -	\$ 29,645	\$ 29,645	\$ 29,645	\$ 29,645

Long-Term Debt

At the end of the fiscal year, the Town had \$281,644 in long-term debt outstanding attributable to the business-type activities. The Town's changes in long-term debt by type of debt are as follows:

Primary Government Long-Term Debt

	Business-type Activities	
	<u>2009</u>	<u>2010</u>
Notes payable	\$ 210,831	\$ 206,944
Revenue bonds	<u>86,950</u>	<u>74,700</u>
subtotal	297,781	281,644
less current portion	<u>(16,138)</u>	<u>(17,466)</u>
Totals	<u>\$ 281,643</u>	<u>\$ 264,178</u>

ECONOMIC FACTORS AND NEXT YEARS'S BUDGET AND RATES

The economic outlook of the Town of East Duke is based, in a small way, of that of the Oklahoma City market area. In prior year, the state of Oklahoma felt the impact of the weak national economic conditions. This resulted in a flat economic environment for the City. The economic slowdown has impacted the Town in the current year.

The Town of East Duke (the "Town") is striving to continue to provide the best possible service with the limited resources available. During fiscal year 2010, sales tax collections noted a decrease of approximately 21%. However, the Town is still striving to continue to provide the best possible service with limited resources available. Utility revenues increased between years.

The Town will focus on priorities established by the elected officials in the future.

The source for the economic data is the Oklahoma State University Center for Applied Economic Research.

CONTACTING THE TOWN'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers and creditors with a general overview of the Town's finances and to show the Town's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Town Clerk's Office at PO Box 340, Duke, Oklahoma, 73532 or phone at (580) 679-3400.

(1) **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

A. Organization

The Town operates under the Statutory Town Board of Trustees form of government. The Town provides the following services: public safety, street maintenance, utility (sanitation, water and sewer), culture-recreation, public improvements, and general administrative services.

The Reporting Entity

The Town, for financial purposes, includes all of the funds and account groups relevant to the operation of the Town of Duke. The accompanying financial statements present the Town's primary government and component units over which the Town exercises significant influence. Significant influence or accountability is based primarily on operational or financial relationships with the Town. The financial statements presented herein do not include agencies which have been formed under applicable state laws or separate and distinct units of government apart from the Town of Duke.

Due to restrictions of the state constitution relating to the issuance of municipal debt, public trusts are created to finance Town services with revenue bonds or other non-general obligation financing and provide for multi-year contracting. Financing services provided by these public trusts are solely for the benefit of the Town. Public trusts created to provide financing services are blended into the Town's primary government as an integral part of Town operations although retaining separate legal identity. Component units that do not meet the criteria from blending are reported discretely.

Blended Component Unit Reported with Primary Government:

Duke Municipal Authority (the "Authority") – was created April 1, 1968 under provision of the Oklahoma Statutes by a Declaration of the Trust. The Town has beneficial interest and the trustees of the Town serve as Trustees of the Authority. Town employees carry on the activities of the Authority. The Authority provides water, sewer, and trash services to the citizens of East Duke. Accounts of the Authority are recorded in business-type activities.

B. Basis of Presentation

Government-Wide Financial Statements

The government-wide financial statements include the statement of net assets and statement of activities which display information about the reporting government as a whole. The statements distinguish between governmental and business-type activities. Individual funds are not displayed by the statements. The statements distinguish governmental activities, generally supported by taxes and Town general revenues, from business-type activities, generally financed in whole or in part with fees charged to external customers.

The statement of activities reports the expenses of a given function offset by program revenues directly connected with the functional program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity. Program revenues include: (1) charges for services with report fees, fines and forfeitures, and other charges to users of the Town's services; (2) operating grants and contributions which finance annual operating activities; and (3) capital grants and contributions which fund the acquisition, construction, or rehabilitation of capital assets. Taxes and other revenues sources not properly included with program revenues are reported as general revenues.

Certain reclassifications have been made to prior period balances in order to conform to the current period's presentation.

Fund Financial Statements

Fund financial statements of the reporting entity are organized into funds each of which is considered to be separate accounting entities. Each fund is accounted for by providing a separate set of self-balancing accounts which constitute its assets, liabilities, fund equity, revenues, and expenditures/expenses. Funds are organized into three major categories: governmental, proprietary, and fiduciary. The Town has no fiduciary funds.

Measurement Focus and Basis of Accounting

The financial statements of the Town are prepared in accordance with accounting principles generally accepted in the United States of America, GAAP. The Town's reporting entity applies all relevant Governmental Accounting Standards Board (GASB) pronouncements and applicable Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, unless they conflict with GASB pronouncements. The Town's reporting entity does not apply FASB pronouncements or APB opinions issued after November 30, 1989.

The government-wide statements report using the economic resources measurements focus and the accrual basis of accounting. Proprietary and fiduciary fund financial statements and financial statements of the Town's component units also report using the same focus and basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Governmental fund financial statements are reported using current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both measurable and available. Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or soon enough

thereafter to pay current liabilities. The Town considered revenues to be available if they are collected within 30 days of the end of the fiscal year. Expenses are recorded when the related fund liability is incurred.

Major revenue sources susceptible to accrual include: sales and use taxes, intergovernmental revenues, and investment income. In general, other revenues are recognized when cash is received.

Operating income reported in the proprietary fund financial statements includes revenues and expenses related to the primary, continuing operations of the fund. Principal operating revenues for proprietary funds are charges to customers for sales or services. Principal operating expenses are the costs of provided goods or services and include administrative expenses and depreciation of capital assets. Other revenues and expenses are classified as non-operating in the financial statements.

Restricted Assets

When both restricted and unrestricted resources are available for use, it is the Town's policy to use restricted resources first, then unrestricted resources as needed. Restricted assets and liabilities current in nature are reported with current assets and current liabilities in the financial statements.

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect certain reporting amounts and disclosures; accordingly, actual results could differ from those estimates.

Interfund Balances

Generally, outstanding balances between funds reported and due to/due from other funds include outstanding charges by one fund to another for services or goods or miscellaneous receivables/payables between funds. Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year and are described as due to/due from other funds.

C. Fund Types and Major Funds

Major Governmental Funds

General Fund

The General Fund is the primary operating fund of the Town and is always classified as a major fund. It is used to account for all activities except those legally or administratively required to be accounted for in another fund.

Major Proprietary Funds

Duke Municipal Authority

The Duke Municipal Authority (DMA) accounts for transactions relating to utility services including water, sewer, and sanitation.

Management has elected to report all funds as major in the fund financial statements. This election is in accordance with GASB reporting models.

D. Budgets and Budgetary Accounting

Budget Basis of Accounting

The combined statement of revenues, expenditures and changes in fund balances (budget and actual) present comparisons of legally adopted budgets with actual data on a budgetary basis. The budgetary basis of accounting differs from GAAP in that the cash basis of accounting is used. Revenues are budgeted in the year receipt is expected; and expenditures, which include encumbrances, are budgeted in the year that the applicable purchase orders are expected to be issued. All appropriations (including encumbered) lapse at year-end; any open encumbrances to be honored in the subsequent budget year are reappropriated in the new year's budget. As a result, no reserve for encumbrances is reported at year-end.

E. Assets, Liabilities and Equity

Cash and Investments

For the purposes of the combined balance sheet and the statement of cash flows, "cash and cash equivalents" includes all demand deposits, savings accounts and certificates of deposits or short-term investments (including restricted assets) with an original maturity of three months or less. Deposits are stated at cost.

Investments are reported at fair value which is determined using market prices. Short-term investments are reported at cost, which approximates fair value.

Receivables and Uncollectible Accounts

Significant receivables include sales and use tax receivables and amounts due from customers primarily for utility services. These receivables are due within one year. Sales and use tax are considered fully collectable. Only customer receivables that were collected within 30 days of year end were recorded. No allowance for uncollectible accounts was recorded.

Property, Plant and Equipment

The accounting treatment over property, plant and equipment (fixed assets) depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

Government-Wide Statements:

In the government-wide financial statements, fixed assets are accounted for as capital assets. All fixed assets are valued at historical cost or estimated historical cost, if actual is unavailable, except for donated fixed assets which are recorded at their estimated fair value at the date of donation. The cost of normal maintenance and repairs that do not add to the asset value or materially extend the useful lives are not capitalized.

Depreciation of all exhaustible fixed assets is recorded as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Assets. Proprietary fund and similar component unit fixed assets are recorded in the respective funds or component units and depreciated using the straight-line method. When proprietary fund fixed assets are disposed, the cost and applicable accumulated depreciation is removed from the respective accounts, and the resulting gain or loss is recorded in operations. Estimated useful lives, in years, for depreciable assets are as follows:

- | | |
|-------------------------------------|-------------|
| • Buildings | 40-50 years |
| • Other improvements | 10-25 years |
| • Machinery, furniture & equipment | 3-20 years |
| • Utility property and improvements | 10-50 years |
| • Infrastructure | 25-50 years |

Fund Financial Statement

In the fund financial statements, fixed assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Fixed assets used in proprietary fund operations are accounted for the same as in the government-wide statements.

Long-Term Debt

In the government-wide, proprietary, and component unit financial statements, outstanding debt is reported as liabilities.

Equity Classifications

Governmental Fund Balances

The Governmental Accounting Standards Board (GASB) has issued Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions* (GASB 54). This Statement defines the different types of fund balances that a governmental entity must use for financial reporting purposes.

GASB 54 requires the fund balance amounts to be properly reported within one of the fund balance categories list below.

Nonspendable

Fund balance associated with inventories, prepaids, long-term loans and notes receivable, and property held for resale (unless the proceeds are restricted, committed, or assigned),

Restricted

Fund balance category includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation,

Committed

Fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the Town Council, the Town's highest level of decision-making authority,

Assigned

Fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as restricted or committed, and

Unassigned

Fund balance is the residual classification for the government's general fund and includes all spendable amounts not contained in the other classifications

Net Assets

Both proprietary fund financial statements and government-wide financial statements report net assets. Amounts invested in capital assets, net of related debt and legally restricted amounts are separated from unrestricted net assets.

Invested in capital assets, net of related debt

The amount restricted consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted net assets

Amounts reported as restricted consist of net assets with constraints placed on their use either by (1) external groups such as creditors, grantors, contributors, or laws and regulations of other governments; or (2) law through constitutional provisions or enabling legislation.

F. Revenues, Expenditures and Expenses

Revenues

Sales Tax

The Town levied a 2% sales tax on taxable sales within the Town. The sales tax is collected by the Oklahoma Tax Commission and remitted to the Town in the month following receipt by the Tax Commission. The sales tax received is recorded as sales tax revenue within the general fund.

Charges for Services

Program revenues reported with governmental activities include charges for services like permits and fees, park charges, and fines and forfeitures. Business-type activity charges for services include all operating income of proprietary funds.

Grants and Contributions

Governmental grants and contributions primarily consist of grants from Federal and state agencies. The nature of the grant determines if it is reported as operating or capital program revenues.

Business-type activity grants and contributions include donations from others as well as grants from Federal and state agencies.

Interfund Transfers

Permanent reallocation of resources between funds of the reporting entity is classified as interfund transfers. Recurring transfers for operational purposes are classified as "operating transfers", while non-recurring transfers of equity are reported as "residual equity transfers".

(2) STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Deficit Fund Net Assets/Fund Balance

Deficits resulting from accrual reporting do not constitute violations of Oklahoma State Statutes.

The Town had no deficit fund net assets or fund balances for the fiscal year.

B. Budget Requirements

For the year ended June 30, 2010, the Town did not adopt a budget.

C. Revenue Restrictions

The Town has various restrictions placed over certain revenue sources from state or local or administrative requirements. The primary restricted revenue sources include:

<u>REVENUE SOURCE</u>	<u>LEGAL RESTRICTIONS OF USE</u>
Gasoline Excise/Commercial Vehicle Tax	Street and Alley Purposes

(3) DETAIL NOTES ON TRANSACTION CLASSES/ACCOUNTS

A. Cash and Investments

Deposits

Custodial credit risk for deposits is the risk that in the event of a bank failure, the Town's deposits may not be returned or the Town will not be able to recover collateral securities in the possession of an outside party. The Town's deposits are secured by collateral values at market or par, whichever is lower, less the amount covered by the Federal Deposit Insurance Corporation (FDIC). Deposited funds may be invested in certificates of deposit in institutions with an established record of fiscal health and service. Collateral agreements must be approved prior to deposit of funds as provided by law. At June 30, 2010, the Town's deposits were properly collateralized.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Investments held for longer periods are subject to increased risk of adverse interest rate changes.

Investments

The Town invests primarily in certificates of deposit.

D. INTERFUND TRANSACTIONS AND BALANCES

There were no operating transfers for the year ended June 30, 2010.

(4) COMMITMENTS AND CONTINGENCIES

A. Litigation

The Town is not party to any legal proceedings.

B. Grant Program Involvement

In the normal course of operations, the Town participates in various federal or state grant/loan programs from year to year. The grant/loan programs are often subject to additional audits by agents of the granting or loaning agency, the purpose of which is to ensure compliance with the specific conditions of the grant or loan. Any liability for reimbursement, which may arise as a result of these audits, cannot be reasonably determined at this time, although it is believed the amount, if any, would not be material.

Report on Compliance and on Internal Control Over Financial Reporting Based on an Audit
of the Financial Statements Performed in Accordance with "Government Auditing Standards"

To the governing body of
the Town of East Duke

I have audited the financial statements of the governmental activities and each major fund and the aggregate remaining fund information of the Town of East Duke as of and for the year ended June 30, 2010, and have issued my report thereon dated May 16, 2014. I conducted my audit in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in "Government Auditing Standards", issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing my audit, I considered the Town of East Duke's internal control over financial reporting as a basis for designing my auditing procedures for the purpose of expressing my opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of East Duke's internal control over financial reporting. Accordingly, I do not express an opinion on the effectiveness of the Town of East Duke's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with accounting principles generally accepted in the United States such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

My consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. I did not identify any deficiencies in internal control over financial reporting that I consider to be material weaknesses, as defined above.

Compliance

As part of obtaining reasonable assurance about whether the Town of East Duke's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit and, accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under "Government Auditing Standards".

This report is intended solely for the information and use of management, the governing body, others within the entity, granting agencies and/or governments, and lenders, and is not intended to be and should not be used by anyone other than these specified parties.

A handwritten signature in black ink that reads "David O. Tate". The signature is written in a cursive style with a large initial 'D' and 'T'.
