Independent Auditors' Report

Commissioners of the Land Office
State of Oklahoma:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of the Commissioners of the Land Office, State of Oklahoma, (the Agency), as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the Agency's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Commissioners of the Land Office, State of Oklahoma, as of June 30, 2014, and the respective changes in financial position thereof for the year then ended in accordance with U.S. generally accepted accounting principles.

Other Matters

Required Supplementary Information

U.S. generally accepted accounting principles require that the management's discussion and analysis and budgetary comparison information on pages 3 – 7 and 27 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Agency's basic financial statements. The combining balance sheet and schedules of distributions listed as supplementary information in the Table of Contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining balance sheet and schedules of distributions listed as supplementary information in the Table of Contents are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining balance sheet and schedules of distributions are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 22, 2014 on our consideration of the Agency's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Agency's internal control over financial reporting and compliance.

COMMISSIONERS OF THE LAND OFFICE
STATE OF OKLAHOMA

(An Agency of the State of Oklahoma)

Management's Discussion and Analysis

June 30, 2014

Our discussion and analysis of the Commissioners of the Land Office (the Agency), State of Oklahoma's financial performance provides an overview of the Agency's financial activity for the fiscal year ended June 30, 2014. It should be read in conjunction with the financial statements, which begin, on page 8.

Financial Highlights

- Net position is up approximately \$283.2 million. The increase was primarily due to the net increase in fair value of investments. Of the \$105.1 million in mineral revenue, royalties of \$75.2 million were added to the permanent fund and \$29.9 million in lease bonuses and delay rentals were apportioned.
- Interest from investments was down \$1.3 million, from \$56.5 million in fiscal year 2013 to \$55.2 million in fiscal year 2014.
- Actual cash distributions to beneficiaries were down \$.2 million, from \$134.3 million in fiscal year 2013 to \$134.1 million in fiscal year 2014 primarily due to the decrease in late interest settlements. Of the \$134.1 million in cash distributions during fiscal year 2014, \$32.8 million were to universities and colleges, \$93.6 million were to public schools, and \$7.7 million were to public buildings.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Agency's basic financial statements. The Agency's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the Agency's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the Agency's assets, deferred outflows, liabilities, and deferred inflows and the difference between them (Net Position). Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Agency is improving or deteriorating.

The *statement of activities* presents information showing how the government's net position, changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the changes occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The above financial statements report governmental activities. Most services normally associated with state government fall into this category, including support for both common public schools and higher education (apportionments).

The government-wide financial statements can be found on pages 8 and 9 of this report.

COMMISSIONERS OF THE LAND OFFICE
STATE OF OKLAHOMA

(An Agency of the State of Oklahoma)

Management's Discussion and Analysis

June 30, 2014

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Agency, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources as well as on balances of spendable resources available at the end of the fiscal year. Such information is useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Agency maintains two individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund and the permanent fund, both of which are considered to be major funds.

The Agency adopts an annual appropriated budget for its general fund. A budgetary comparison schedule has been provided as required supplementary information for the general fund to demonstrate compliance with this budget.

The governmental fund financial statements can be found on pages 10 and 11 of this report.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 12 through 26 of this report.

Government-Wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Agency, assets exceeded liabilities by \$2.36 billion at the close of the most recent fiscal year.

COMMISSIONERS OF THE LAND OFFICE
STATE OF OKLAHOMA

(An Agency of the State of Oklahoma)

Management's Discussion and Analysis

June 30, 2014

The largest portion of the Agency's net position (98%) is subject to external restrictions on how they may be used. The Agency uses these assets to provide apportionments to beneficiaries.

Net Position

(In thousands)

| | 2014 | 2013 |
|----------------------------|---------------------|------------------|
| Current assets | \$ 2,386,037 | 2,113,736 |
| Capital assets, net | 7,842 | 6,905 |
| Total assets | <u>\$ 2,393,879</u> | <u>2,120,641</u> |
| Current liabilities | \$ 34,316 | 44,229 |
| Invested in capital assets | \$ 7,842 | 6,905 |
| Restricted | 2,310,448 | 2,036,649 |
| Unrestricted | 41,273 | 32,858 |
| Total net position | <u>\$ 2,359,563</u> | <u>2,076,412</u> |

There was an increase of \$283.2 million in net position, the key elements of the increase are as follows:

Changes in Net Position

(In thousands)

| | 2014 | 2013 |

COMMISSIONERS OF THE LAND OFFICE
STATE OF OKLAHOMA

(An Agency of the State of Oklahoma)

Management's Discussion and Analysis

June 30, 2014

- Apportionments increased from \$119.5 million in fiscal year 2013 to \$124.4 million during fiscal year 2014. The increase was primarily due to the increase in mineral lease bonus revenue. Actual cash distributions to beneficiaries were down \$.2 million, from \$134.3 million in fiscal year 2013 to \$134.1 million in fiscal year 2014.
- Investment earnings increased from \$188.7 million in fiscal year 2013 to \$293.0 million in fiscal year 2014. Most of the increase was due to the net fair value adjustment of the Agency's investments.
- Mineral income increased from \$90.4 million in fiscal year 2013 to \$105.1 million in fiscal year 2014. The increase was due to an incline in mineral leasing activity for the fiscal year.

Financial Analysis of the Government's Funds

As noted earlier, the Agency uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The focus of the Agency's governmental funds is to provide information on near-term inflows, outflows, and balances of resources available to spend. Such information is useful in assessing the Agency's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the Agency's governmental funds reported a combined ending fund balance of \$2.4 billion, an increase of \$300 million in comparison with the prior year. Approximately \$2.3 billion is nonspendable or restricted to indicate that it is not available for general purposes because it has already been committed to beneficiaries. The remainder of the fund balance is unassigned which is available for spending at the Agency's discretion.

The general fund is the administrative fund of the Agency. At June 30, 2014, the unassigned fund balance was \$41.7 million, or 368% of budgeted general fund expenditures. The unassigned fund balance of the general fund increased by \$8.4 million from June 30, 2013 primarily due to an increase in the Agency's 6% operational fees derived from the trust fund revenues.

The entire balance of the permanent fund is for the use and benefit of common education and thirteen Oklahoma colleges and universities. Total revenue, which includes the increase in fair market value of investments, was \$420.0 million compared to \$299.5 million of prior year. Cash apportionments distributed to beneficiaries during 2014 totaled \$134.1 million with \$32.8 million disbursed to universities and colleges, \$93.6 million disbursed to public schools, and \$7.7 million to public buildings. This was a decrease of \$.2 million from the cash apportionments distributed during fiscal year 2013.

General Fund Budgetary Highlights

For fiscal year 2014, general fund actual expenditures (including transfers) on a budgetary basis were \$6.2 million compared to the budget of \$11.3 million. The \$5.1 million variance was due to carryover funds from previous years that are set aside for onetime expenditures.

COMMISSIONERS OF THE LAND OFFICE
STATE OF OKLAHOMA

(An Agency of the State of Oklahoma)

Notes to Basic Financial Statements

June 30, 2014

(1) Summary of Significant Accounting Policies

(a) *Organization*

In 1906, the Government of the United States of America granted certain assets to the State of Oklahoma (the State) to be held in trust for the benefit of public education including the Common Schools of Oklahoma and other beneficiaries. The Constitution of the State of Oklahoma established the Commissioners of the Land Office (the Agency) to act as trustee for these trust assets (the Trust), which are held for the benefit of the following beneficiaries:

- Public Schools
- Public Building Fund
- University of Oklahoma
- Oklahoma State University
- Langton University
- Northern Oklahoma College
- Southeastern Oklahoma State University
- Northeastern Oklahoma State University
- University of Central Oklahoma
- East Central Oklahoma State University
- Southwestern Oklahoma State University
- Northwestern Oklahoma State University
- Cameron University
- Panhandle State University
- University of Science and Arts

(b) *Apportionment*

The primary goal of the Commissioners of the Land Office is to support education. To accomplish this goal, monthly distributions are made to both common schools and Oklahoma colleges. The amount that is distributed to the common school districts is calculated from the average daily attendance, which is provided from the Department of Education each fiscal year. Effective in FY2013, House Bill 2927 has enabled the CLO to implement a multiyear education distribution stabilization fund based on a five-year rolling average. This new legislation helps provide consistent distributions for the 517 common school districts. As with common schools, college apportionment is distributed monthly. The college distribution is divided on a percentage basis as outlined in Title 70, section 3904 of the Oklahoma Statutes.

COMMISSIONERS OF THE LAND OFFICE
STATE OF OKLAHOMA

(An Agency of the State of Oklahoma)

Notes to Basic Financial Statements

June 30, 2014

(c) Basis of Presentation

The accounting and reporting policies of the Agency conform to accounting principles generally accepted in the United States applicable to governmental units. Generally accepted accounting principles for state agencies are defined as those principles prescribed by the Governmental Accounting Standards Boards (GASB). The Agency has adopted GASB Statement No. 34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments*. GASB Statement No. 34 mandates government-wide financial statements of net assets and activities, which are presented on the economic resources measurement focus and accrual basis of accounting requiring that certain fixed assets be recorded at cost less accumulated depreciation and the reporting of long-term liabilities.

The Agency also presents fund financial statements for all of the funds relevant to the operations of the Agency. The Agency’s financial statements are included in the statewide financial statements of the State of Oklahoma.

The accounts of the Agency are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts, which are comprised of its assets, liabilities, fund balance, revenues, and expenditures. The various funds are grouped, in the financial statements of this report, into two funds as follows:

- **General Fund** – The General Fund is classified as a Governmental Fund Type and uses the current financial resources measurement focus and modified accrual basis of accounting whereby revenues are recognized when measurable and available and expenditures are recognized when liabilities are incurred except for compensated absences, which are recognized when the obligations are expected to be liquidated with expendable available financial resources. The General Fund consists of several individual accounts, including the Revolving 16 account, and the Commissioners of the Land Office (CLO) account. The Revolving 16 account contains certain fees expenditures for administration of the Trust. The CLO account receives six percent of the revenues earned by the Permanent Fund, with the exception of gains on the sale of permanent land.
- **Permanent Fund** – The Permanent Fund is classified as a Governmental Fund Type and is used to account for all Trust assets, liabilities, fund balances, revenues and distributions to beneficiaries. The permanent fund uses the current financial resources measurement focus and modified accrual basis of accounting whereby revenues are recognized when measurable and available and expenditures are recognized when incurred. The Permanent Fund represents the historic dollar value of the Permanent Fund assets, along with certain additions, and must be maintained in perpetuity. Additions to the Permanent Fund are made by the retention of a portion of the revenues generated by depletable assets that are considered a return of principal as a result of production.

COMMISSIONERS OF THE LAND OFFICE
STATE OF OKLAHOMA
(An Agency of the State of Oklahoma)

Notes to Basic Financial Statements

June 30, 2014

The Agency considers all revenues available if they are collected within the current period or soon enough thereafter to be used to pay liabilities of the current period. A thirty-day period is used for revenue recognition for all governmental fund type revenues. Those revenues susceptible to accrual are interest revenue, mineral revenue, and surface leases.

When both restricted and unrestricted resources are available for use, it is the Agency's policy to use restricted resources first, and then unrestricted resources as they are needed.

(d) Budget

The Agency operates on internally generated funds under a financial work program approved by the State Legislature and administered by the Office of Management Enterprise Services. The Agency does not receive any State general funds. A budgetary comparison is presented as required supplementary information on the cash basis of accounting.

(e) Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statement. Actual results could differ from those estimates.

(f) Cash and Cash Equivalents

The Agency considers highly liquid investments with original maturities of three months or less to be cash equivalents.

(g) Land

The Federal government granted the Agency upon statehood approximately 3.1 million acres of land, of which approximately 693,000 acres remain at June 30, 2014. This land is held in trust and is stated at \$1 per acre in the financial statements at June 30, 2014. The \$1 per acre was set as a nominal amount for recordkeeping purposes.

The Agency has repossessed approximately 51,000 acres, which had been sold by the Agency, or on which the Agency held a first mortgage as collateral relating to farm loans made by the Agency in prior years. The land was recorded at lower of cost or market at date of foreclosure or repossession as determined by appraisals of the property. At June 30, 2014, repossessed land is carried at approximately \$4,906,000.

Land is considered capital assets and is reported at cost.

COMMISSIONERS OF THE LAND OFFICE
STATE OF OKLAHOMA
(An Agency of the State of Oklahoma)

Notes to Basic Financial Statements

June 30, 2014

(h) Depreciable Capital Assets

Capital assets, which include improvements and fixtures, furniture and equipment, are assets with an estimated useful life in excess of one year. Such assets are recorded at cost. Donated fixed assets are valued at their estimated fair value on the date of donation. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized, while improvements and betterments are capitalized.

Depreciation has been calculated on each class of depreciable property using the straight-line method. Estimated useful lives are as follows:

| | |
|------------------------------------|----------|
| Improvements | 25 years |
| Fixtures, furniture, and equipment | 5 years |

(i) Unearned Revenue

Unearned revenue represents lease billings not yet earned. This unearned revenue is recognized when earned in the following year.

(j) Income Taxes

Since the Agency is considered a governmental unit, it is not subject to income taxes, and no amount for taxes has been recorded in the accompanying statements.

(k) Investments

The Agency is allowed by state statutes to invest in equities, fixed income investments, and cash equivalents. Each type of investment has a minimum, maximum, and target percentage that has been established by the Agency's investment committee.

(l) Compensated Absences

In accordance with State policy, employees earn annual leave on a calendar-month basis at rates of 10 to 15 hours per month. Annual leave can be accumulated from 240 to 480 hours depending on the years of continuous service in State employment. At June 30, 2014, unpaid and accumulated benefits totaled \$386,539. The activity for the year is as follows:

| | | |
|-------------------|----|-----------------------|
| Beginning balance | \$ | 364,931 |
| Leave earned | | 234,317 |
| Leave used | | (212,709) |
| Ending balance | \$ | <u><u>386,539</u></u> |

COMMISSIONERS OF THE LAND OFFICE
STATE OF OKLAHOMA
(An Agency of the State of Oklahoma)

Notes to Basic Financial Statements

June 30, 2014

(m) Recently Issued Accounting Standards

For the year ended June 30, 2013, the Agency adopted GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*, and GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*. These statements provided financial reporting guidance for deferred outflows of resources and deferred inflows of resources, as well as, established accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognized, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. The objective of these statements is to clarify the appropriate use of deferred outflows of resources and deferred inflows of resources. The adoption of these statements resulted in no impact to net position of the Agency at June 30, 2014.

For the year ended June 30, 2013, the Agency adopted GASB Statement No. 62, *Codification of Accounting and Financial Reporting Guidance contained in pre-November 30, 1989 GASB and AICPA Pronouncements*. This statement had no impact on the Agency's accounting policies.

In June 2012, the GASB issued Statement No. 68, *Accounting and Financial Reporting for Pensions*. The objective of this statement is to improve the accounting and financial reporting by state and local governments for pensions. This Statement establishes standards for measuring and recognizing liabilities, deferred outflows of resources, and deferred inflows of resources, and expense/expenditures. For defined benefit pensions, this Statement identifies the methods and assumptions that should be used to project benefit payments, discount projected benefit payments to their actuarial present value, and attribute that present value to periods of employee service. In financial statements prepared using the economic resources measurement focus and accrual basis of accounting, a cost-sharing employer that does not have a special funding situation is required to recognize a liability for its proportionate share of the net pension liability. This Statement is effective for fiscal years beginning after June 15, 2014. Management is evaluating the impact of adopting this Standard; however, the impact could be material to the Agency's financial position.

(2) Deposits, Investments, and Related Policies

(a) Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of a bank failure, the Agency's deposits may not be returned or the Agency will not be able to recover collateral securities in the possession of an outside party. Deposits are exposed to custodial credit risk if they are uninsured and uncollateralized. Investment securities are exposed to custodial credit risk if they are uninsured, are not registered in the name of the Trust, and are held by counterparty or the counterparty's trust department but not in the name of the Trust.

COMMISSIONERS OF THE LAND OFFICE
STATE OF OKLAHOMA

(An Agency of the State of Oklahoma)

Notes to Basic Financial Statements

June 30, 2014

(b) Deposits

The Agency uses a pooled cash concept in maintaining its bank accounts. Cash is pooled for operating and investing purposes and each fund has equity in the pooled amount. For reporting purposes, cash has been allocated to each fund based on its equity in the pooled amount. Currently, cash is deposited at the State Treasury. Since cash is deposited with the State Treasury, the cash is fully insured or collateralized by the Treasurer. Cash is also maintained by the Bank of Oklahoma's Trust Department as part of various investments accounts held in the name of the Agency. Investment policy requires that these deposits must be invested in fully collateralized interest bearing accounts.

The carrying amount and balance of the cash equivalents totaled \$45,964,347 at June 30, 2014 and consists of an investment in a mutual fund composed of short-term investments with an original maturity date of three months or less, which are readily convertible into cash.

(c) Investments

Investments are reported at fair value, which represents primarily stated market prices. Actual gains and losses realized by the Agency will be determined at the time of the sale and will be based on market conditions at that date. The Agency also has a policy that requires the Trust to have a current custodial agreement in the Agency's name with respect to investment collateral held by third-party custodians. In addition, the Bank of Oklahoma maintains a blanket bond insurance policy that covers all Trust assets.

Substantially all investments are held by Bank of Oklahoma Trust Department. At June 30, 2014, the Agency had the following investments:

Investments:

Stocks:

| | |
|---------------------|----------------|
| Common Stocks | \$ 849,249,865 |
| Pooled Equity Funds | 103,995,930 |

Fixed Income Securities:

COMMISSIONERS OF THE LAND OFFICE
STATE OF OKLAHOMA

(An Agency of the State of Oklahoma)

Notes to Basic Financial Statements

June 30, 2014

Credit risk exists when there is a possibility that the issuer or other counterparty to an investment may be unable to fulfill its obligations. The Agency is authorized by State statutes to invest in equities, fixed income investments, and cash equivalents. Each type of investment has a minimum, maximum, and target percentage that has been established by the Agency's investment committee. The Agency considers investment grade as the Aaa – Baa3 rating categories. Below investment grade corporate fixed income investments shall be limited to twenty percent of the investment manager's total portfolio. This restriction does not apply to dedicated high yield managers or convertible managers. As applicable, average credit quality ratings are disclosed in the table below to indicate associated credit risk.

Concentration of credit risk is the risk of loss attributed to the magnitude of the Agency's investments in a single issuer. It is generally considered that an increased risk of loss occurs as more investments are acquired from a single issuer. The Agency has formal written policies regarding the concentration of credit risk for both unsecured fixed income investments and equity-type investments. With the exception of U.S. Government and Agency issues, no more than 10% of the bond portfolio at market will be invested in the securities of a single issuer or 5% of the bond portfolio in an individual issue. Equity managers shall not invest more than 10% of its portfolio market value in any one company. Equity managers may invest up to 5% of their portfolio's market value at the time of the initial purchase in a single entity. At June 30, 2014, Federal National Mortgage Corp. represented 6.3% of the Agency's investments.

COMMISSIONERS OF THE LAND OFFICE
STATE OF OKLAHOMA
(An Agency of the State of Oklahoma)

Notes to Basic Financial Statements

June 30, 2014

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Investments held for longer periods are subject to increased risk of adverse interest rate changes. The Agency's policy provides that to the extent practicable, investments are matched with anticipated cash flows. Investments are diversified to minimize the risk of loss resulting from the over-concentration of assets in a specific maturity period, a single issuer, or an individual class of securities.

The Agency's exposure to interest rate risk is as follows:

| | 2014 | |
|--|--------------------------------|-----------------------------------|
| | Fair value | Effective duration (years) |
| U.S. government securities: | | |
| U.S. Treasury Bond | \$ 3,118,000 | 17.970 |

| Total fixed income | <u><u>\$ 1,060,009,000</u></u> | |

COMMISSIONERS OF THE LAND OFFICE
STATE OF OKLAHOMA

(An Agency of the State of Oklahoma)

Notes to Basic Financial Statements

June 30, 2014

(3) Leasing Operations

The Agency leases to others approximately 743,500 acres of land belonging to the Trusts as of June 30, 2014, primarily for agricultural purposes.

The lease terms are generally for five-year periods (on a calendar-year basis) with rents prepaid one year in advance. The annual rental amount is determined by the lessee's maximum bid amount.

The following is a schedule of the future minimum rent due to the Agency under its noncancelable leases at June 30, 2014:

| | |
|------|----------------------|
| 2015 | \$ 10,388,908 |
| 2016 | 8,026,708 |
| 2017 | <u>5,236,636</u> |
| | <u>\$ 23,652,252</u> |

(4) Investment Property

In 2004, the Agency sought and received legislative authorization for an investment in a real estate property located at the Lake Texoma State Park area in southern Oklahoma. The Agency purchased 750 acres of real property from the state and federal government for the purpose of packaging the property as a resort development. The Agency paid approximately \$4.9 million as an initial investment. The Agency offered the property in a "Request for Proposal" format and received and accepted an offer of \$14.6 million over a six-year period. Two closings were executed in January and May 2008 and a total of \$5,600,000 cash and a \$9,000,000 note was received. The note receivable has no stated interest rate, but has been discounted by the Agency at 8%. The note has been paid in full as of January of 2014.

With the implementation of the House Bill 1022, the Commissioners of the Land Office have been authorized to acquire, purchase, exchange and grant any real property under its jurisdiction. The Agency shall invest up to 3% of the total value of the assets of the permanent school funds in connection with investment in real property. The Agency acquired the following property and is carried at fair value:

| <u>Property</u> | <u>Fair value</u> |
|-----------------|-------------------|
| 3017 N. Stiles | \$ 1,900,000 |

COMMISSIONERS OF THE LAND OFFICE
STATE OF OKLAHOMA

(An Agency of the State of Oklahoma)

Notes to Basic Financial Statements

June 30, 2014

(5) Other Receivables

Other receivables at June 30, 2014 consisted of the following:

| | |
|---------------------------|---------------|
| Accrued mineral revenue | \$ 18,625,250 |
| Surface leases | 647,186 |
| Gas marketing | 104,358 |
| Commercial RE Investments | 56,104 |
| Other | 23,162 |
| | <hr/> |
| Total | \$ 19,456,060 |
| | <hr/> |

(6) Investment in Land and Mineral Rights (Unaudited)

The Agency obtained the majority of the land held in trust from a grant of the United States prior to statehood. The land is mainly in the western portion of Oklahoma, with approximately 40% of the land being located in the Oklahoma Panhandle. Management estimates the market value of the land at June 30, 2014 is approximately \$642,000,000 using land values established by in-house appraisers. Each year, one-fifth (1/5) of the land is appraised and that value is carried for five years.

Currently, the Agency owns approximately 1,207,000 mineral acres. Valuation of such properties normally requires a property-by-property reserve study. As this is not feasible, an estimated market value of the mineral rights has not been determined.

(7) Related Party Transactions

During the course of normal operations, the Agency purchases goods and services from other State agencies. The expenditures made to other State agencies during the fiscal year ended June 30, 2014 was approximately \$226,000.

(8) Employee Benefit Plans

(a) Retirement Plan

The Agency contributes to the Oklahoma Public Employees Retirement Plan (the Plan), a cost-sharing multiple-employer public employee retirement system administered by the Oklahoma Public Employees Retirement System (the System). The Plan provides retirement, disability, and death benefits to plan members and beneficiaries. The benefit provisions are established and may be amended by the legislature of the State of Oklahoma. Title 74 of the Oklahoma Statutes, Sections 901-943, as amended, assigns the authority for management and operation of the Plan to the Board of Trustees of the System. The System issues a publicly available annual financial report that includes financial statements and required supplementary information for the Plan. That annual report may be obtained by writing to the System, 5801 N. Broadway Extension, Suite 400, Oklahoma City, Oklahoma 73118 or by calling 1-800-733-9008.

COMMISSIONERS OF THE LAND OFFICE
STATE OF OKLAHOMA
(An Agency of the State of Oklahoma)

Notes to Basic Financial Statements

June 30, 2014

Plan members and the Agency are required to contribute at a rate set by statute. The contribution requirements of plan members and the Agency are established and may be amended by the legislature of the State of Oklahoma. The contribution rate for the Agency and plan members is as follows:

| Fiscal year 2014 | |
|-------------------------|-------------------|
| Employees | Agency |
| All salary | All salary |
| 3.5% | 16.5% |

| Fiscal year 2013 | |
|-------------------------|-------------------|
| Employees | Agency |
| All salary | All salary |
| 3.5% | 16.5% |

The Agency and employee (combined) contributions to the Plan for the years ended June 30, 2014, 2013, and 2012 were approximately \$523,000, \$510,000, and \$480,000, respectively, and was equal to its required contribution for each year.

(b) *Deferred Compensation Plan*

The State offers to its own employees, state agency employees and other duly constituted authority or instrumentality employees a deferred compensation plan created in accordance with Internal Revenue Code (IRC) Section 457 and Chapter 45 of Title 74, Oklahoma Statutes. The Oklahoma State Employees Deferred Compensation Plan (the 457 Plan), also known as SoonerSave, is a voluntary plan that allows participants to defer a portion of their salary into the 457 Plan. Participation allows a person to shelter the portion of their salary that they defer from current federal and state income tax. Taxes on the interest or investment gains on this money, while in the 457 Plan, are also deferred. The deferred compensation is not available to employees until termination, retirement, death or approved unforeseeable emergency.

Under SoonerSave, the untaxed deferred amounts are invested as directed by the participant among various 457 Plan investment options. Effective January 1, 1998, a Trust and Trust Fund covering the 457 Plan assets was established pursuant to federal legislation enacted in 1996, requiring public employers to establish such trusts for plans meeting the requirements of Section 457 of the IRC. Under terms of the Trust, the corpus or income of the Trust Fund may be used only for the exclusive benefit of the 457 Plan participants and their beneficiaries. Further information may be obtained from the Oklahoma State Employees Deferred Compensation Plan audited financial statements for the years ended June 30, 2014 and 2013. The Agency believes that it has no liabilities in respect to the State's plan.

Notes to Basic Financial Statements

June 30, 2014

(b) Leases

The Agency leases various office equipment, as well as office space and computer equipment for 12-month terms, with options to renew each year. For the year ended June 30, 2014, total rent expense for these items was approximately \$245,000 for office space and \$61,000 for office equipment and other rents.

(11) Risk Management

The Agency participates in the Oklahoma Risk Management Division's (a division of the Department of Central Services) insurance pool, which covers all governmental tort, property, vehicle, and directors and officers liability claims against the Agency. The Agency pays a yearly premium to the Department of Central Services to participate in the insurance pool. Premiums paid are not subject to retroactive adjustment.

Oklahoma City, OK 73102-5683

**Independent Auditors' Report on Internal Control over Financial Reporting and on
Compliance and Other Matters Based on an Audit of Financial Statements Performed
in Accordance with *Government Auditing Standards***

Commissioners of the Land Office
State of Oklahoma:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of the Commissioners of the Land Office, State of Oklahoma, (the Agency), as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the Agency's basic financial statements, and have issued our report thereon dated October 22, 2014.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Agency's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Agency's internal control. Accordingly, we do not express an opinion on the effectiveness of the Agency's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Agency's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Agency's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Agency's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
