Independent Auditor's Report

To the Board of Trustees
Town of Fargo, Oklahoma

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities and the business-type activities of Town of Fargo, as of and for the years ended June 30, 2022 and 2021, and the related notes to the financial statements, which collectively comprise Town of Fargo's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities and the business-type activities of Town of Fargo as of June 30, 2022 and 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Town of Fargo and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Town of Fargo's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Town of Fargo's ability to continue as a going concern for one year after the date that the financial statements are issued [or when applicable, one year after the date that the financial statements are available to be issued].

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Town of Fargo's internal control. Accordingly, no such opinion is expressed.⁵
- Evaluate the appropriateness of accounting policies used and the

reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about [Entity Name]'s ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Required Supplementary Information

The board of trustees and management of the Town of Fargo have omitted management's discussion and analysis and budgetary comparison information that accounting principles generally accepted in the United States of America is required to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

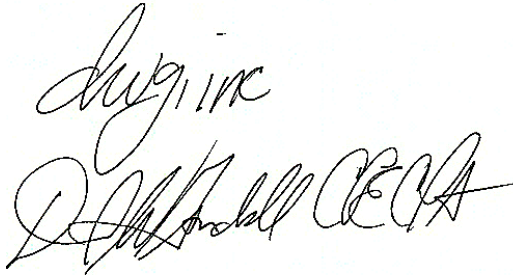

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Town of Fargo's basic financial statements. The accompanying Schedule of Expenditures of Federal and State Awards is presented for purposes of additional analysis as required by grantor agencies. This schedule is presented for the purposes of additional analysis and is not a required part of the basic financial statements.

The Schedule of Expenditures of Federal and State Awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal and State Awards is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated October 15, 2022 on our consideration of Town of Fargo’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Town of Fargo’s internal control over financial reporting and compliance.

Note 1 - Summary of Significant Accounting Policies

Financial Reporting Entity

The Town of Fargo, Oklahoma is a statutory town government under Oklahoma Statutes. The Town provides the following services: sanitation collection, water and sewer infrastructure.

The criteria used to determine which accounting entities, agencies, commissions, boards and authorities are part of the Town's operations include how the budget is adopted, whether debt is secured by general obligation of the Town, the Town's duty to cover any deficits that may occur, and supervision over the accounting functions. Any separate accounting entities would be considered component units. There are no agencies, organizations or activities meeting any of the above criteria that are excluded from the Town's reporting entity. As of June 30, 2022 and 2021, the Town had one component unit: Fargo Utilities Authority.

Basis of Presentation - Fund Accounting

The accounting system is organized and operated on a fund basis. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations.

As of June 30, 2022 and 2021, the Town consisted of one governmental general fund. The proprietary fund consisted of the Fargo Utilities Authority.

Basis of Accounting

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The statement of net position and the statement of activities display information about the Town, the primary government, as a whole. These statements distinguish between activities that are governmental and those that are considered business-type activities.

The government-wide statements are prepared using the economic resources measurement focus and the accrual basis of accounting. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Therefore, governmental fund financial statements include reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between expenses, both direct and indirect and program revenues for each segment of the business-type activities of the Town and for each governmental program. Direct expenses are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. Indirect expenses for centralized services and administrative overhead are allocated among programs, functions and segments using a full cost allocation approach and are presented separately to enhance comparability of direct expenses between governments that allocate direct expenses and those that do not. Program revenues include charges paid by the recipients of the goods or services offered by the programs and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program.

Revenues which are not classified as program revenues are presented as general revenues. The comparison of program revenues and expenses identifies the extent to which each program or business segment is self-financing or draws from the general revenues of the Town.

FUND FINANCIAL STATEMENTS

Fund financial statements report detailed information about the Town. The focus of governmental and enterprise fund financial statements is on major funds rather than reporting funds by type. Each major

Note 1 - Summary of Significant Accounting Policies (continued)

fund is presented in a separate column. Non-major funds are aggregated and presented in a single column.

GOVERNMENTAL FUNDS

All governmental funds are accounted for using modified accrual basis of accounting and the current financial resources measurement focus. Under this basis, revenues are recognized in the accounting period in which they become measurable and available. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable.

Revenue Recognition

In applying the susceptible to accrual concept under the modified accrual basis, the following revenue sources are deemed both measurable and available (i.e., collectible within the current year or within one month of year-end and available to pay obligations of the current period). This includes investment earnings, income taxes withheld by employers, estate taxes, fines and forfeitures and state-levied locally shared taxes (including motor vehicle fees). Reimbursement due for federally funded projects is accrued as revenue at the time the expenditures are made, or when received in advance, deferred until expenditures are made.

Other revenues, including licenses and permits, certain charges for services and miscellaneous income are recorded as revenue when received in cash because they are generally not measurable until actually received.

Expenditure Recognition

The measurement focus of governmental fund accounting is on decrease in net financial resources (expenditures) rather than expenses. Most expenditures are measurable and are recorded when the related fund liability is incurred. However, principal and interest on general long-term debt, which has not matured, are recognized when paid. Allocations of costs, such as depreciation and amortization, are not recognized in the governmental funds.

PROPRIETARY FUNDS

All proprietary funds are accounted for using the accrual basis of accounting. These funds account for operations that are primarily financed by user charges. The economic resource focus concerns determining costs as a means of maintaining the capital investment and management control. Their revenues are recognized when they are earned and their expenses are recognized when they are incurred. Allocation of costs of providing services, which include administrative expenses and depreciation, is recorded in proprietary funds. Other revenues and expenses are classified as non-operating in the financial statements. The proprietary funds use standards issued by the Financial Accounting Standard Board whenever possible. If no FASB ASC pronouncement is applicable then Government Accounting Standards Board pronouncements are used.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Town's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition. Restricted cash consists of meter deposits.

Property, Plant and Equipment

Fixed assets used in governmental fund type operations are accounted for in the Government Wide Financial statements and the Proprietary Fund Financial statements. Public domain (infrastructure) general fixed assets consisting of certain improvements other than buildings, such as roads, sidewalks, and bridges are not capitalized. Property, plant, and equipment acquired or constructed for general governmental operations are recorded as expenditures in the fund making the expenditure and capitalized at cost in the financial statements.

Note 1 - Summary of Significant Accounting Policies (continued)

Property, plant and equipment acquired for proprietary funds are capitalized at cost and depreciated over their estimated useful lives using the straight-line method of depreciation. Estimated useful lives have been estimated as follows:

Buildings	25 - 50 years
Machinery & equipment	3 - 20 years

Long-term Debt

Long-term debt to be repaid from governmental funds is recorded in the general long-term debt account group. Long-term debt to be repaid from proprietary funds is recorded in the fund. The current portion of long-term debt to be repaid within one year is recorded in the fund. As of June 30, 2022 there is no long-term debt.

Accounts Payable

The Town is responsible for outstanding obligations to vendors and others for operating materials, services or other charges.

Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditures of funds are recorded in order to reserve that portion of the applicable appropriation, is employed in the governmental funds. Encumbrances are not recognized as the equivalent of expenditures; therefore, the reserve for encumbrances is reported as part of the fund balance on the balance sheet. However, it should be noted that the Town did not recognize any outstanding reserves as of June 30, 2022 or 2021.

Interfund Balances

Generally, outstanding balances between funds reported as due to/from other funds include outstanding charges by one fund to another for services or goods or other miscellaneous receivables/payables between funds.

All activity between governmental and business-type activities is eliminated and any residual balances outstanding between the activities are reported in the government-wide financial statements as internal balances.

Budget

In accordance with Oklahoma Statutes, Title 68, Section 2483, the Town Board of Trustees formally adopts annual budgets which include substantially all funds. These annual budgets are adopted on a basis consistent with the guidelines established by the Oklahoma Municipal Code.

Risk Management

Significant losses are covered by commercial insurance for all Town operations.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Reclassifications

Certain reclassifications have been made to the prior year financial statements in order to conform to the current presentation.

Notes to the Financial Statements
 Town of Fargo
 For the Years Ended June 30, 2022 and 2021

Note 2 - Cash and Investments

Deposits and investments made by the Town are summarized below. The deposits are classified as to credit risk within the following three categories:

- Category 1 Insured or collateralized with securities held by the Town or its agent in the Town's name.
- Category 2 Collateralized with securities held by the pledging financial institution's trust department or agent in the Town's name.
- Category 3 Uncollateralized (this includes any bank balance that is collateralized with securities held by the pledging financial institution or by its trust department or agent, but not in the Town's name).

For the years ending June 30, 2022 and 2021, the Town and its component units had category 1 deposits up to the FDIC insurance limits.

The following table provides a reconciliation of cash, cash equivalents and restricted cash reported in the balance sheets and statements of financial position that sum to the amounts shown in the statements of net position:

Without restrictions:		<u>2022</u>		<u>2021</u>
Town of Fargo	\$	220,033	\$	178,883
Fargo Utility Authority		147,908		128,847
		<hr/>		<hr/>

Note 5 - Defined Benefit Pension Plans

The Town participates in the following employee pension system:

Oklahoma Firefighters Pension and Retirement System

Plan Description - The Town contributes to the Oklahoma Firefighters Pension and Retirement System (the System); a cost-sharing multiple-employer defined benefit pension plan administered by a 13-member board which acts as fiduciary for investment of funds and the application of plan interpretations. The System

Note 5 - Defined Benefit Pension Plans (continued)

provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. The System is a component unit of the State of Oklahoma and is authorized under Title 11, Oklahoma Statutes 1981, Section 48-101 et seq. The System issues a publicly available financial report that includes financial statements and required supplementary information for the plan and may be obtained from their office at 4545 N. Lincoln Blvd., Suite 265, Oklahoma City, OK 73105, or by calling 1-800-525-7461.

Funding Policy - Paid firefighters are required to contribute 8% of covered payroll, with the Town contributing 13% of covered payroll. Volunteer firefighters are not required to contribute, but the Town is required to contribute \$60 per volunteer, per year. The contribution requirements of the System are an established rate determined by Oklahoma Statute and are not based on actuarial calculations. The Town's contribution to the System for the years ended June 30, 2022 and 2021 was \$600 and \$780, respectively, equal to the required contribution for the years.

Note 6 - Risk Management

The Town is exposed to various risks of losses related to torts; thefts of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Town manages this risk through the purchase of commercial insurance policies. Risk management activities are accounted for by fund, and claims are recognized when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. In determining claims, events that might create claims, but for which none have been reported, are considered. February 10, 2022 the Fire Department building and both fire trucks were damaged when a cement truck struck the building. Claims submitted to Oklahoma Municipal Assurance Group to cover repairs totaled \$9,394.71. Payment of \$8,394.71 (deductible \$1,000.00) was received March 16, 2022.

Note 7 - Subsequent Events

In January 2020, the World Health Organization declared the novel coronavirus (COVID-19) as a "Public Health Emergency of International Concern". The long - term impact of COVID-19 is not known at this time, as the rapidly changing environment surrounding the virus continues to evolve. As of the date of these financial statements, The Town of Fargo has no particular concern to continue operating thanks to a health Net Position and a slow recovery to business. Nevertheless, the nature of the outbreak presents uncertainty and the risk to the future of The Town of Fargo.

On March 11, 2021 the U.S. Congress passed the American Rescue Plan Act (ARPA) which authorized the U.S. Department of Treasury to make payments to certain recipients from the Caronavirus State and Local Fiscal Recovery Funds (CSLFRF). The CSLFRF is considered to be other fiscal assistance to be recorded as unearned income, not as a grant or award. To receive CSLFRF, recipients must agree to certain terms and conditions, provide assurances of compliance with civil rights requirements, and complete a certification of CSLFRF allocation acceptance (Acceptance Documents).

The period of performance begins the date the Acceptance Documents are signed and end December 31, 2026. Recipients may use CSLFRF to cover eligible costs incurred during the period that begins March 3, 2021 and ends December 21, 2024. Costs can be incurred or obligated by December 31, 2024, however, they must be expended by December 31, 2026.

The State of Oklahoma made available to cities and counties, through the Office of Management and Enterprise Services, funding received through CSLFRF. The Town of Fargo was allocated \$30,040.72 March 31, 2022 to apply to eligible expenses. As of the report date funding has not been expended.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS**

Independent Auditor's Report

To the Board of Trustees
Town of Fargo
Fargo, Oklahoma

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and the business-type activities of the Town of Fargo as of and for the years ended June 30, 2022 and 2021, and the related notes to the financial statements, which collectively comprise the Town of Fargo's basic financial statements and have issued our report thereon dated October 15, 2022.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town of Fargo's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of Fargo's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town of Fargo's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town of Fargo's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
