## INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and City Council  
City of Idabel  
Idabel, Oklahoma

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the City of Idabel, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise City of Idabel's basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

City of Idabel's management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting in Note 1; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the City of Idabel's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City of Idabel's internal control. Accordingly, we express no such opinion.

[www.SBAdvisors.com](http://www.SBAdvisors.com)

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### ***Unmodified Opinions***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position—modified cash basis of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Idabel, as of June 30, 2013, and the respective changes in financial position—modified cash basis, thereof for the year then ended in accordance with the basis of accounting described in Note 1.

### ***Emphasis of Matters***

#### ***Basis of Accounting***

We draw attention to Note 1 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion are not modified with respect to this matter.

#### ***Change in Basis of Accounting***

As discussed in Notes 1 to the financial statements, in 2013 the City adopted a new modified cash basis of accounting. Beginning net position was restated due to the implementation of the new modified cash basis of accounting. Our opinion is not modified with respect to this matter.

### ***Other Matters***

#### ***Report on Supplementary and Other Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The management's discussion and analysis, budgetary comparison information and other information, such as the non-major governmental funds combining schedules—modified cash basis, general fund combining schedules—modified cash basis, schedule of debt service coverage requirement, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The management's discussion and analysis and budgetary comparison information on pages 5 through 11, which are the responsibility of management, have not been subjected to the auditing procedures applied in the audit of the basic financial statements and accordingly, we do not express an opinion or provide any assurance on it.

The non-major governmental funds combining schedules—modified cash basis, general fund combining schedules—modified cash basis and schedule of debt service coverage requirement, are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements generally accepted in the United States. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

#### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated January 27, 2014 on our consideration of City of Idabel's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters.<sup>9</sup> The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City of Idabel's internal control over financial reporting and compliance.

*Hick & Company, PC*

Tulsa, Oklahoma  
January 27, 2014

The management of the City of Idabel is pleased to provide this annual financial report to its citizens, taxpayers and other report users to demonstrate its accountability and communicate the City's financial condition and activities as of and for the fiscal year ended June 30, 2013. Management of the City is responsible for the fair presentation of this annual report, for maintaining appropriate internal controls over financial reporting, and for complying with applicable laws, regulations, and provisions of grants and contracts. The City reports its financial statements and schedules on a modified cash basis which is a comprehensive basis of accounting other than generally accepted accounting principles. All of the financial analyses in this report must be considered within the context of the limitations of the modified cash basis of accounting.

#### **FINANCIAL HIGHLIGHTS**

- As reported on a modified cash basis, the City's total net position increased by \$402,565, and the assets of the City exceed its liabilities at June 30, 2013, by \$7,681,652 (net position). Of this amount, \$5,620,913 (unrestricted net position) is available to meet the government's ongoing needs.
- At June 30, 2013, the City's governmental funds reported combined ending fund balances on a modified cash basis of \$2,827,205.
- At the end of fiscal year 2013, unassigned fund balance on a modified cash basis for the General Fund was \$1,390,931 or 31.2% of General Fund revenues.
- The City has altered its modified cash basis of accounting to remove the modifications previously made related to capital asset and long-term debt activity. This new modified cash basis of accounting more closely aligns with the way the City prepares its annual budgets, and is a basis recommended by the Government Finance Officers Association (GFOA) for governments that are not required to prepare financial statements in accordance with Generally Accepted Accounting Principles (GAAP). For comparative purposes, all amounts in this MD&A that are reported for FY 2012's financial activity have been restated for the new modified cash basis presentation so that significant variances between the years presented can be elaborated upon.

#### **ABOUT THE CITY**

The City of Idabel is an incorporated municipality with a population of approximately 7,000 located in McCurtain County in southeastern Oklahoma. The City is an aldermanic form of government. Under this form of government, the City is governed by the Mayor and a four-member City Council and operates under state law and City ordinances through the three branches of democratic government:

- Legislative – the City Council is a four-member governing body elected by the citizens at large
- Executive – the City Mayor is the Chief Executive Officer and is elected by the people
- Judicial – the Municipal Judge is a practicing attorney appointed by the City Council

The City provides typical municipal services such as public safety, health and welfare, street and alley maintenance, parks and recreation, and through its Public Works Authority, certain utility services including water, wastewater, and sanitation.

***The City's Financial Reporting Entity***

This annual report includes all activities for which the City of Idabel City Council is financially accountable. These activities, defined as the City's financial reporting entity, are operated within separate legal entities that make up the primary government.

The City's financial reporting entity includes the following separate legal entities.

- **The City of Idabel** – an incorporated City that operates the public safety, streets and public works, health and welfare, culture and recreation, and administrative activities of the City – *reported as part of the primary government*
- **The Idabel Public Works Authority (IPWA)** – public trust created pursuant to 60 O.S. § 176 to operate the water, wastewater, and sanitation services of the City, with the City Council members serving as the trustees – *considered part of the primary government presentation for reporting purposes as a blended component unit*
- **The McCurtain County Regional Airport Authority (MCRA)** – public trust created pursuant to 60 O.S. § 176 to provide airports, aerodromes, landing fields for aircraft and related services and facilities of the City, with the City Council members serving as the trustees – *considered part of the primary government presentation for reporting purposes as a blended component unit*
- **The Idabel Industrial Development Authority (IIDA)** – public trust created pursuant to 60 O.S. § 176 to attract and develop industries within the City – *reported as a discretely presented component unit*
- **The Idabel Public Golf Authority (IPGA)** – public trust created pursuant to 60 O.S. § 176 to promote and develop golfing facilities within the City – *excluded as a discretely presented component unit*. Separate financial statements may be obtained at the IPGA's office.

In addition, as required by state law, all debt obligations incurred by the trusts must be approved by two-thirds vote of the City Council. This is considered sufficient imposition of will to demonstrate financial accountability and to include the trust within the City's financial reporting entity. Except for the Idabel Public Golf Authority, the public trusts do not issue separate annual financial statements.

**OVERVIEW OF THE FINANCIAL STATEMENTS**

Except for the exclusion of the Idabel Public Golf Authority, the financial statements presented herein include all of the activities of the City of Idabel (the "City"). Included in this report are government-wide statements for the governmental activities, business-type activities, and a discretely presented component unit.

The government-wide financial statements present the complete financial picture of the City from the modified cash basis of accounting. They present governmental activities, business-type activities, and a discretely presented component unit separately and combined. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the City's operations in more detail than the government-wide statements by providing information about the City's most significant funds.

## **Reporting the City as a Whole**

### ***The Statement of Net Position and the Statement of Activities***

One of the most frequently asked questions about the City's finances is, "Has the City's overall financial condition improved, declined or remained steady over the past year?" The Statement of Net Position and the Statement of Activities report information about the City as a whole and about its activities in a way that helps answer this question. You will need to consider other non-financial factors, however, such as changes in the City's sales tax base, the condition of the City's roads, and quality of service to assess the overall health of the City. You will also need to keep in mind that these government-wide statements are prepared in accordance with the modified cash basis of accounting and include only those City assets and liabilities resulting from cash transactions with selected modifications.

In the Statement of Net Position and the Statement of Activities, we divide the City into three kinds of activities:

- *Governmental activities* - Most of the City's basic services are reported here, including the police, fire, administration, and streets. Sales taxes, franchise fees, fines, and state and federal grants finance most of these activities.
- *Business-type activities* - Activities where the City charges a fee to customers to help cover all or most of the cost of certain services it provides are reported here. The City's water, sewer, and sanitation utilities are reported as business-type activities.
- *Discretely presented component unit* - This discretely presented component unit, the Idabel Industrial Development Authority, accounts for activities of the City's reporting entity that do not meet the criteria for blending.

## **Reporting the City's Most Significant Funds - Fund Financial Statements**

### ***Fund Financial Statements***

The fund financial statements provide detailed information about the City's most significant (major) funds -- not the City as a whole. Some funds are required to be established by State law and by debt covenants. However, the City Council may also establish certain other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money. The City's two kinds of funds -- *governmental and proprietary* - use different accounting approaches.

*Governmental funds* - All of the City's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. Governmental funds report their activities on a modified cash basis of accounting. For example, these funds report the acquisition of capital assets and payments for debt principal as expenditures and not as changes to asset and debt balances. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps you determine (through a review of changes to fund balance) whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. The differences of results in the governmental fund financial statements to those in the government-wide financial statements are explained in a reconciliation following each governmental fund financial statement.

*Proprietary funds* - When the City, through the Public Works Authority, charges customers for the services it provides, these services are generally reported in proprietary funds. Proprietary funds are also reported on the modified cash basis of accounting. The City's proprietary fund is the Idabel Public Works Authority that accounts for the operation of the water, sewer, and sanitation activities.

## **A FINANCIAL ANALYSIS OF THE CITY'S FUNDS**

As the City completed its 2013 fiscal year, the governmental funds reported a combined fund balance of \$2,827,205. For the year ended June 30, 2013, the General Fund's total fund balance decreased by \$204,350.

### **Budgetary Highlights**

Total revenues were less than the amount budgeted by \$525,076, while the total expenditures were under the amount budgeted by \$863,682. A planned streetscape project of approximately \$500,000 was not done during the fiscal year, due to lack of funding, which explains mostly why revenues and expenditures were under the budget amount.

## **ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES**

One of the primary responsibilities of City management is to prepare and submit to the City Council an annual budget for the upcoming fiscal year that is balanced, meets the needs and expectations of the City, and is appropriate to the economic conditions of the City. This management is committed to the fiduciary responsibility that we have in managing public resources.

- The City's General Fund revenues and expenses for the 2014 fiscal year are each budgeted to decrease approximately \$12,000.
- The IPWA revenues and expenses for the 2014 fiscal year are each budgeted to increase approximately \$256,000.

In accordance with state law, all debt obligations incurred by public trusts require 2/3 approval by the City Council.

**The component unit that is discretely presented in the City's report in a separate column is presented below:**

**The Idabel Industrial Development Authority**

The Idabel Industrial Development Authority (IIDA) meets the criteria for a component unit as approval is required of the City Council for any issuance of debt. Separate financial statements may be obtained at the IPGA's office.

## **B. Basis of Presentation and Accounting**

**Government-Wide Financial Statements:**

The statement of net position and activities are reported on a modified cash basis of accounting. The modified cash basis of accounting is based on the recording of cash and cash equivalents and changes therein, and only recognizes revenues, expenses, assets and liabilities resulting from cash transactions adjusted for modifications that have substantial support in generally accepted accounting principles. These modifications include adjustments for the following balances arising from cash transactions:

- cash-based interfund receivables and payables
- investments
- other cash-based receivables/payables
- utility deposit liabilities

As a result of the use of this modified cash basis of accounting, certain assets and their related revenues (such as accounts receivable and revenue for billed or provided services not yet collected, and accrued revenue and receivables) and certain liabilities and their related expenses (such as accounts payable and expenses for goods or services received but not yet paid, and accrued expenses and liabilities) are not recorded in these financial statements.

Program revenues within the statement of activities are derived directly from each activity or from parties outside the City's taxpayers. The City has the following program revenues in each activity:

- General Government—licenses and permits
- Public Safety—fines and forfeitures, operating and capital grants and contributions.
- Streets and Highways—commercial vehicle and gasoline excise tax shared by the State, operating and capital grants and contributions.
- Culture and Recreation—capital grants and contributions.
- Cemetery—cemetery revenues.
- Airport—fuel sales, hangar rentals and capital grants and contributions
- Sanitation—sanitation charges
- Community development—operating grants and contributions

Business-type activities are also reported on a modified cash basis.

**Governmental Funds:**

The City's governmental funds are comprised of the following:

**Major Funds:**

- General Fund—accounts for general operations of the City, including public safety, parks, public facilities, airport, sanitation, and street maintenance. This fund also includes the LETN, MCRA Fuel Farm, and Cemetery Maintenance Funds.
- Special Grant Project Fund—accounts for miscellaneous grants.

**Non-Major Funds (reported as Other Governmental Funds):**

**Special Revenue Funds:**

- Federal Nutrition Fund—accounts for annual Kiamichi Area Nutrition Program grants
- Emergency Shelter Grant Fund—accounts for grants received from the Emergency Shelter Program
- E-911 Fund—accounts for collections for the operation of 911 services.
- Idabel Library Fund—a special revenue fund that accounts for revenues associated with improvements of the Idabel Library.

**Capital Project Funds:**

- Transportation Enhancement Fund—accounts for funds associated for a City streetscape project
- McCurtain County Regional Airport (MCRA) Fund—accounts for money received related to grants received in prior periods for the airport capital projects.

The governmental funds are reported on a modified cash basis of accounting. Only current financial assets and liabilities resulting from cash transactions are generally included on the fund balance sheets. The operating statements present sources and uses of available spendable financial resources during a given period. These fund financial statements use fund balance as their measure of available spendable financial resources at the end of the period.

Proprietary Funds:

The City's proprietary fund is comprised of the following:

- Idabel Public Works Authority (IPWA) – accounts for the operation of the water, wastewater, and sanitation activities.

For purposes of the statement of revenues, expenses and changes in fund net position, operating revenues and expenses are considered those whose cash flows are related to operating activities, while revenues and expenses related to financing, capital and investing activities are reported as non-operating or transfers and contributions.

All of the above noted funds are legally required to adopt annual budgets or appropriations. The public trust (or Authority) is not required to adopt legal annual appropriations. While each trust develops an annual budget, it is for financial management purposes and does not constitute legal appropriations.

**C. Cash, Cash Equivalents and Investments**

Cash and cash equivalents includes all demand and savings accounts, certificates of deposit, and any short-term investments with an original maturity of three months or less, and open-end government mutual funds. Investments consist of long-term certificates of deposits and are reported at cost.

**D. Capital Assets and Depreciation**

Due to the use of the modified cash basis of accounting, capital assets and related depreciation are not reported in the financial statements.

**E. Long-Term Debt**

Due to the use of the modified cash basis of accounting, long-term debt obligations are not reported in the financial statements. However, the amount of long-term debt issued and outstanding at the end of the fiscal year is reported as a commitment in Note 10.

**F. Compensated Absences**

As a result of the use of the modified cash basis of accounting, liabilities related to accrued compensated absences are not recorded in the financial statements. Expenditures/expenses related to compensated absences are recorded when paid. The amount of accrued compensated absences for accumulated, unpaid compensatory time that would be due employees upon termination is reported as a commitment in Note 10.

**G. Equity Classifications**

Government-Wide Statements:

Equity is classified as net position and displayed in two components:

- a. Restricted net position - Consists of net position with constraints placed on the use either by 1) external groups such as creditors, grantors, contributors, or laws and regulations of other governments, or 2) law through constitutional provisions or enabling legislation.
- b. Unrestricted net position - All other net position that does not meet the definition of "restricted."

It is the City's policy to first use restricted net position prior to the use of unrestricted net position when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

**CITY OF IDABEL, OKLAHOMA**  
**Notes to the Financial Statements**  
**For the Year Ended June 30, 2013**

**Fund Statements:**

Governmental fund equity is classified as fund balance. Fund balance is further classified as nonspendable, restricted, committed, assigned, and unassigned. The classifications are defined as:

- a. **Nonspendable** – includes amounts that cannot be spent because they are either 1) not in spendable form or 2) legally or contractually required to be maintained intact.
- b. **Restricted** – consists of fund balance with constraints placed on the use of resources either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments, or 2) law through constitutional provisions or enabling legislation.
- c. **Committed** – includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the City's highest level of decision-making authority. The City's highest level of decision-making authority is made by ordinance.
- d. **Assigned** – includes amounts that are constrained by the City's intent to be used for specific purposes but are neither restricted nor committed. Assignments of fund balance may be made by city council action or management decision when the city council has delegated that authority. Assignments for transfers and interest income for governmental funds are made through the budgetary process.
- e. **Unassigned** – represents fund balance that has not been assigned to other funds and has not been restricted, committed, or assigned to specific purposes within the general fund.

It is the City's policy to first use restricted fund balance prior to the use of unrestricted fund balance when an expense is incurred for purposes for which both restricted and unrestricted fund balance are available. The City's policy for the use of unrestricted fund balance amounts require that committed amounts would be reduced first, followed by assigned amounts and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

Proprietary fund equity is classified the same as in the government-wide statements.

**Prior Period Adjustments:**

Beginning net position was restated due to the adoption of a new modified cash basis of accounting as described in Note 1B.

**H. Internal and Interfund Balances and Transfers**

The City's policy is to eliminate interfund transfers and balances in the statement of activities and net position to avoid the grossing up of balances. Only the residual balances transferred between governmental and business-type activities are reported as internal transfers and internal balances then offset in the total column in the government-wide statements. Internal transfers and balances between funds are not eliminated in the fund financial statements.

**I. New Accounting Pronouncements**

The City implemented the following accounting standards during the fiscal year ended June 30, 2013:

*Governmental Accounting Standards Board Statement No. 60 – Accounting and Financial Reporting for Service Concession Arrangements* – This has no impact on the city's financial report.

*Governmental Accounting Standards Board Statement No. 61 – The Financial Reporting Entity: Omnibus* – This statement has no impact on the city's financial report.

*Governmental Accounting Standards Board Statement No. 62 – Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements* – A few sentences were removed from "Section B – Proprietary Funds" note disclosure to eliminate references to FASB pronouncements and APB opinions issued on or before November 30, 1989.

*Governmental Accounting Standards Board Statement No. 63 – Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* – The only change required from the implementation of this statement was the elimination of the Statement of Net Assets, and the presentation of a new Statement of Net Position.

*Governmental Accounting Standards Board Statement No. 65 – Items Previously Reported as Assets and Liabilities* – Although early implemented, this has no impact on the city's financial report.

**2. Deposits and Investments**

For the year ended June 30, 2013, the City recognized \$115,945 of investment income. Due to the minimal rates of return on allowable investments in the current environment, most of the City's deposits are in demand and short-term time deposits.

*Primary Government*

At June 30, 2013, the primary government held the following deposits and investments:

**Custodial Credit Risk** -- Custodial credit risk is the risk that in the event of a bank failure, the government deposits may not be returned to it. The City is governed by the State Public Deposit Act which requires that the City obtain and hold collateral whose fair value exceeds the amount of uninsured deposits. Investment securities are exposed to custody credit risk if the securities are uninsured, are not registered in the name of the government, and if held by a counterparty or a counterparty's trust, department or agent, but not in the government's name.

As of June 30, 2013, the City was not exposed to custodial credit risk.

**Investment Credit Risk** —The City has no investment policy that limits its investment choices other than the limitations of state law that generally authorize investments in: 1) full faith and credit, direct obligations of the U.S. Government, its agencies and instrumentalities, and the State of Oklahoma and certain mortgage insured federal debt; 2) certificates of deposit or savings accounts that are either insured or secured with acceptable collateral; 3) negotiable certificates of deposits, prime bankers acceptances, prime commercial paper and repurchase agreements with certain limitations; 4) county, municipal or school district tax supported debt obligations, bond or revenue anticipation notes, money judgments, or bond or revenue anticipation notes of public trusts whose beneficiary is a county, municipality or school district; and government money market funds regulated by the SEC. Title 60 public trusts are not limited by the same investment limitations of their municipal beneficiary. These investment limitations do not apply to the City's public trusts.

Investment credit risk is the risk that an issuer or other counterpart to an investment will not fulfill its obligations. The City has no formal policy limiting investments based on credit rating, but discloses any such credit risk associated with their investments by reporting the credit quality ratings of investments in debt securities as determined by nationally recognized statistical rating organizations—rating agencies—as of year-end. Unless there is information to the contrary, obligations of the U.S. Government or obligations explicitly guaranteed by the U.S. Government are not considered to have credit risk and do not require disclosure of credit quality.

**Investment Interest Rate Risk** — Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The City has no formal policy limiting Investment Interest Rate Risk. The City discloses its exposure to interest rate risk by disclosing the maturity dates of its various investments.

As noted in the schedule of deposits and investments above, at June 30, 2013, the investments held by the City mature on May 15, 2016 and are subject to early call or redemption.

**Concentration of Investment Credit Risk** — Exposure to concentration of credit risk is considered to exist when investments in any one issuer represent a significant percent of total investments of the City (any over 5% are disclosed). Investment issued or explicitly guaranteed by the U.S. Government and investments in mutual funds, external investment pools, and other pooled investments are excluded from this consideration. The City has no formal investment policy which addresses concentration of investment credit risk.

**CITY OF IDABEL, OKLAHOMA****Notes to the Financial Statements****For the Year Ended June 30, 2013**

As of June 30, 2013, the City had no concentration of credit risk as defined above.

**Restricted Cash and Investments** — The amounts reported as restricted assets on the statement of net position are comprised of amounts restricted for utility deposits (refunded upon termination of service or applied to final bill) and debt service held by the Public Works Authority. The restricted assets as of June 30, 2013 are as follows:

<u>Type of Restricted Assets</u>	<u>Current</u>		<u>Noncurrent</u>	
	<u>Cash and cash equivalents</u>	<u>Investments</u>	<u>Cash and cash equivalents</u>	<u>Investments</u>

<b>Total</b>	<u>\$ 635,341</u>	<u>\$ 82,000</u>	<u>\$ 240,310</u>	<u>\$ 326,028</u>

**Component Unit—Idabel Industrial Development Authority (IIDA)**

At June 30, 2013, of the bank balances for the IIDA, one had a balance of \$98,469 which is below the FDIC insured limit and one had a balance of \$948,717 which is above the FDIC insured limit. There was no additional collateral pledged to cover the uninsured balance. The IIDA has no formal policies designed to address custodial credit risk.

The IIDA had no investments as of June 30, 2013, and was thus not exposed to interest rate risk, credit risk, custodial credit risk, or concentration of credit risk inherent to investment portfolios.

**3. Sales Tax Revenue**

Sales tax revenue represents a 3 cent tax on each dollar of taxable sales, and is received and recorded in the General Fund. In 2006, the City Council adopted a resolution whereby the proceeds of the sales tax were to be appropriated (transferred) to the trustees of the Idabel Public Works Authority, as needed, for use in operating and maintaining the facilities and paying the debt secured by such facilities. During the year ending June 30, 2013, one-third (one cent) of the total sales tax was appropriated (transferred) to the Idabel Public Works Authority. The remaining two-thirds (two cents) of the sales tax remained in the General Fund.

**4. Property Tax Levy**

The City presently levies no property tax. In accordance with state law, a municipality may only levy a property tax to retire general obligation debt approved by the voters and to pay judgments rendered against the City.

**5. Customer Deposits**

Refundable customer deposits reported as a liability within the Statement of Net Position are comprised of utility customer deposits payable. The amount reported at June 30, 2013, was \$214,715.

**8. Risk Management**

The City and its public trusts are exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors and omissions; injuries to employees; employee health and life; and natural disasters. These risks are managed by securing commercial insurance for all risks. Management believes such insurance coverage is sufficient to preclude any significant uninsured losses. Settled claims have not exceeded this insurance coverage in any of the past three fiscal years.

**9. Pension Plan Participation**

The City of Idabel participates in three pension or retirement plans:

- Oklahoma Firefighter's Pension and Retirement System (OFFRS)—a statewide cost sharing plan

*Revenue Bonds Payable:*

2006 Revenue Bond Series—On March 1, 2006, the Idabel Public Works Authority issued Utility System Revenue Bonds, Series 2006, in the amount of \$1,725,000 in part for the purpose of retiring the Utility System Revenue Bonds, Series 1996, originally issued in the amount of \$2,700,000 for the purpose of enlarging and extending its water, sewer, and street systems. The advance refunding resulted in an in-substance defeasance of the revenue bonds described above by placing deposits in an irrevocable trust and escrow account for the purchase of U.S. Government securities to pay the principal and interest on the defeased bonds as they are due and payable. At year end, the remaining outstanding defeased bonds were zero.

	<u>                    </u>
Current portion	185,000
Noncurrent portion	400,000

The bonds are secured by a first mortgage on the entire water and sewer system owned by the City of Idabel and leased to the Authority, a first lien on the net revenues of the Authority and pledge sales tax.

**Debt Covenants**

The Idabel Public Works Authority is required to conform to numerous covenants related to the 2006 Series Bond Indenture, including (but not limited to) the following:

- Maintenance of a “sinking fund reserve fund requirement” of the lesser of:
  - 10% of Bond proceeds and proceeds of any additional indebtedness;
  - Maximum annual debt service on the Bonds and any additional indebtedness; or
  - 125% of the average annual debt service on the Bonds and any additional indebtedness
- “Maintenance of revenues” of 1.25 times the average annual amount required to be paid into the Sinking Fund, provided in the indenture, after payment of any amount required to replenish the “sinking fund reserve fund” and all costs and expenses of operation and maintenance of the aforesaid properties.

The Idabel Public Works Authority was in compliance with the above two covenants as of June 30, 2013.

**Conduit Debt—2004 Series Revenue Bonds**—On September 1, 2004, the Idabel Public Works Authority issued School Support Revenue Bonds, Series 2004, in the amount of \$4,675,000 for the purpose of acquiring, constructing, renovating, furnishing, and equipping education facilities in Idabel, Oklahoma. Payments due with respect to the Series 2004 bonds are limited obligations of the Authority, payable solely from certain lease rental obligations payable by the School District (the District) under the terms of a lease and from other funds and accounts established under the indenture relating to the Series 2004 bonds. The 2004 Series bonds are not a debt of the City of Idabel, nor are they general obligations of the Authority, but are special limited obligations of the Authority and were issued without recourse to the Authority. The District, through a lease with the Authority, is required to pay to the Authority rent and lease purchase payments in amounts sufficient to pay the interest on the Series 2004 Bonds as it becomes due, during the lease term, and to pay to the Authority the principal of the Series 2004 Bonds when due or required to be redeemed prior to maturity during the lease term. Upon the District’s payment of a lease purchase payment, legal title to the portion of the improvements corresponding to that lease purchase payment, as described in the lease, shall vest with the District. Outstanding balance of conduit debt at June 30, 2013 was \$1,365,000.

## CITY OF IDABEL, OKLAHOMA

Notes to the Financial Statements  
For the Year Ended June 30, 2013

---

### **Pledge of Future Revenues**

*Sales Tax Pledge* - The City Council adopted a resolution whereby the proceeds of the City sales tax were appropriated to the trustees of the Idabel Public Works Authority for use in operating and maintaining the facilities and paying the debt secured by such facilities. This appropriation is to comply with the 2006 Bond Indenture. Any portion of the tax not needed may be transferred to the General Fund of the City of Idabel. During the year ending June 30, 2013, \$1,090,740 was appropriated to the Idabel Public Works Authority.

*Utility Net Revenues Pledge* - The City has pledged net utility revenues to repay the \$1,725,000 of the 2006 Revenue Bond. Proceeds from the revenue bond provided funding for enlarging and extending water, sewer and street systems. The revenue bond is payable through 2016. The total principal and interest payable for the remainder of the life of bond is \$635,413. Pledged net utility revenues were \$188,555. Debt service payments of \$211,963 for the current fiscal year were 16.57% of pledged sales taxes and net utility revenues.

### *Compensated Absences*

As a result of the City's use of the modified cash basis of accounting, accrued liabilities related to compensated absences (vacation and comp leave) earned but unpaid at year-end are not reflected in the basic financial statements. The compensated absence commitment at June 30, 2013, is \$91,522 for the General Fund and \$17,836 for the IPWA.

### *Litigation*

The City is party to various legal proceedings which normally occur in the course of governmental operations. The financial statements do not include accruals or provisions for loss contingencies that may result from these proceedings. State statutes provide for the levy of an ad valorem tax over a three-year period by a City sinking fund for the payment of any court assessed judgment rendered against the City. While the outcome of the above noted proceedings cannot be predicted, due to the insurance coverage maintained by the City and the State statute related to judgments, the City feels that any settlement or judgment not covered by insurance would not have a materially adverse effect on the financial condition of the City.

### *Federal and State Award Programs*

The City of Idabel participates in various federal and state grant/loan programs from year-to-year. In 2013, the City's involvement in federal and state award programs was significant. The grant/loan programs are often subject to additional audits by agents of the granting or loaning agency, the purpose of which is to ensure compliance with the specific conditions of the grant or loan. The City was aware of no such pending audits as of the date of the balance sheet.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND  
ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF  
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH  
GOVERNMENT AUDITING STANDARDS**

Honorable Mayor and City Council  
City of Idabel  
Idabel, Oklahoma

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Idabel, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise City of Idabel's basic financial statements, and have issued our report thereon dated January 27, 2014. The City's financial statements are presented on a modified cash basis of accounting.

***Internal Control over Financial Reporting***

In planning and performing our audit of the financial statements, we considered City of Idabel's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City of Idabel's internal control. Accordingly, we do not express an opinion on the effectiveness of City of Idabel's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### ***Compliance and Other Matters***

As part of obtaining reasonable assurance about whether City of Idabel's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### ***Purpose of this Report***

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
