INDEPENDENT AUDITOR'S REPORT

The Honorable Board of Education Keys School District I-006 Park Hill, Cherokee County, Oklahoma

I have audited the accompanying combined financial statements - regulatory basis - of Keys School District No. I-006, Cherokee County, Oklahoma as listed in the table of contents, as combined financial statements, as of and for the year ended June 30, 2015.

Management's Responsibility for the Financial Statements

Management if responsible for the preparation and fair presentation of these financial statements in accordance with the financial reporting regulations prescribed or permitted by the Oklahoma State Department of Education as described in Note 1, to meet the requirements of the Oklahoma State Department of Education. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit includes performing procedures to obtain evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risk of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my adverse and qualified opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As discussed in Note 1, these combined financial statements are prepared on a regulatory basis of accounting conforming with the accounting practices prescribed by the Oklahoma Department of Education and budget laws of the State of Oklahoma which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. The effect on the financial statement resulting from the use of their regulatory basis of accounting and presentation as compared to accounting principles generally accepted in the United States of America although not reasonably determined, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In my opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles paragraphs, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Keys School District No. I-006, Cherokee County, Oklahoma, as of June 30, 2015, or the revenues, expenses, and changes in net position and, where applicable, cash flows thereof for the year then ended.

Basis for Qualified Opinion on Regulatory Basis of Accounting

The financial statements referred to above do not include the general fixed asset account group, which should be included in order to conform with accounting and financial reporting regulations prescribed or permitted by the Oklahoma State Department of Education. The amount that should be recorded in the general fixed asset account group is not known.

Qualified Opinion on Regulatory Basis of Accounting

In my opinion, except for the effects of the omission of the general fixed assets account group, the combined financial statements referred to in the first paragraph present fairly, in all material respects, the assets, liabilities and fund balances - regulatory basis of the Keys School District No. I-006, Cherokee County, Oklahoma, as of June 30, 2015, and the revenues collected and expenditures paid and encumbered, of each fund type, for the year then ended, in accordance with the regulatory basis of accounting described in Note 1.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, I have also issued my reported dated September 21, 2015, on my consideration of the Keys School District No. I-006, Cherokee County, Oklahoma's internal control over financial reporting and my tests of its compliance with certain provisions of laws, regulations, contracts and grants agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*, and should be considered in assessing the results of my audit.

Other Matters

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining statements - regulatory basis, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of federal awards is presented for the purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements.

The combining statements - regulatory basis and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with generally accepted in the United States of America. In my opinion, the combined statements - regulatory basis and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

September 21, 2015

NOTES TO THE FINANCIAL STATEMENTS

.

.

.

.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Keys School District No. I-006 (the "District") have been prepared on a regulatory basis of accounting which is another comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Accordingly, the accompanying financial statements are not intended to present financial position and results of operations in conformity with accounting principles generally accepted in the United States of America. The accounting policies are prescribed by the Oklahoma Department of Education, and conform to the system of accounting authorized by the State of Oklahoma. The following is a summary of the more significant accounting policies.

A. REPORTING ENTITY

The District is a corporate body for public purposes created under Title 70 of the Oklahoma Statutes, and accordingly, is a separate entity for operating and financial reporting purposes. The District is part of the public school system of Oklahoma under the general direction and control of the State Board of Education, and is financially dependent on State of Oklahoma support. The general operating authority for the public school system is the Oklahoma School Code contained in Title 70, Oklahoma Statutes.

The governing body of the District is the Board of Education composed of elected members. The appointed superintendent is the executive officer of the District.

In evaluating how to define the District, for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria established by the Governmental Accounting Standards Board (GASB). The basic--but not the only--criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility included, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters. A second criterion used in evaluating potential component units is the scope of public service. Application of this criterion involves considering whether the activity benefits the District and/or its citizens, or whether the activity is conducted within the geographic boundaries of the District and is generally available to its patrons. A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the District is able to exercise oversight responsibilities. Based upon the application of these criteria, there are no potential component units included in the District's reporting entity.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

A. REPORTING ENTITY (continued)

The Board of School Trustees (Board), an elected five member group constituting an on-going entity, is the level of government which has governance responsibilities over all activities related to public school education within the jurisdiction of the Local Independent School District. The board receives funding from local, state, and federal government sources, and must comply with the requirements of these funding source entities. However, the Board is not included in any other governmental "reporting entity" as defined in Section 2100, <u>Codification of Governmental Accounting and Financial Reporting Standards</u>, since Board members are elected by the public and have decision making authority, the power to designate management, the responsibility to significantly influence operations, and primary accountability for fiscal matters.

B. FUND ACCOUNTING

The District uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain district functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. An account group, on the other hand, is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources.

Funds are classified into three categories: governmental, proprietary, and fiduciary. Each category, in turn, is divided into separate "fund types."

Governmental Fund Types

Governmental funds are used to account for all or most of a government's general activities, including the collection and disbursement of earmarked monies (Special Revenue Funds), the acquisition or construction of general fixed assets (Capital Projects Funds), and the servicing of general long-term debt (Debt Service Funds).

<u>General Fund</u> - The General Fund is used to account for all financial transactions except those required to be accounted for in another fund. Major revenue sources include state and local property taxes and state funding under the Foundation and Incentive Aid Program.

Expenditures include all costs associated with the daily operations of schools except for programs funded for building repairs and maintenance, school construction and debt service on bonds, and other long-term debt. The General Fund includes federal and state restricted monies that must be expended for specific programs.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

<u>Special Revenue Funds</u> - The first Special Revenue Fund is the District's Building Fund. The Building Fund consists of monies derived from property taxes levied for the purpose of erecting, remodeling, or repairing buildings and for purchasing furniture and equipment.

The second Special Revenue Fund is the Child Nutrition Fund, used to account for monies derived from federal and state reimbursement and local food service collections.

<u>**Debt Service Fund</u>** - The Debt Service Fund is the District's Sinking Fund used to account for the accumulation of financial resources for the payment of general long-term debt principal, interest, and related costs. The primary revenue sources are local property taxes levied specifically for debt service and interest earnings from temporary investments.</u>

<u>Capital Projects Fund</u> - The Capital Projects Fund is the District's Bond Fund used to account for the proceeds of bond sales to be used exclusively for acquiring school sites, constructing and equipping new school facilities, renovating existing facilities, and acquiring transportation equipment.

Proprietary Fund Types

Proprietary Funds are used to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful to sound financial administration. Goods or services from such activities can be provided either to outside parties (Enterprise Funds) or to other departments or agencies primarily within the District (Internal Service Funds). The District does not have any Proprietary Funds.

Fiduciary Fund Types

Fiduciary Funds are used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the District. When these assets are held under the terms of a formal trust agreement, either a nonexpendable trust fund or an expendable trust fund is used. The terms "nonexpendable" and "expendable" refer to whether or not the District is under an obligation to maintain the trust principal. Agency funds generally are used to account for assets that the District holds on behalf of others as their agent, and do not involve measurement of results of operations.

<u>Agency Fund</u> - The Agency Fund is the School Activities Fund which is used to account for monies collected principally through fund-raising efforts of the students and District sponsored groups. The administration is responsible, under the authority of the Board, for collecting, disbursing, and accounting for these activity funds.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Account Groups

Account groups are not funds, and consist of a self-balancing set of accounts used only to establish accounting control over long-term debt and general fixed assets not accounted for in proprietary Funds.

<u>General Long-Term Debt Account Group</u> - This account group was established to account for all long-term debt of the District, which is offset by the amount available in the Debt Service Fund and the amount to be provided in future years to complete retirement of the debt principal. It is also used to account for liabilities for compensated absences and early retirement incentives which are to be paid from funds provided in future years.

<u>General Fixed Asset Account Group</u> - This account group is used to account for property, plant, and equipment of the School District. The District does not maintain a record of its general fixed assets, and accordingly, a statement of general fixed assets, required by accounting principles generally accepted in the United states of America, is not included in the financial statements. Land, buildings, nonstructural improvements, and all other physical assets in all funds are considered expenditures in the year of acquisition, and are not recorded as assets for financial statement purposes.

Memorandum Only - Total Column

The total column on the financial statements is captioned "memorandum only" to indicate that it is presented only to facilitate financial analysis. Data on this column does not present financial position of results of operations in conformity with accounting principles generally accepted in the United States of America. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

C. BASIS OF ACCOUNTING

The District prepares its financial statements in a presentation format that is prescribed by the Oklahoma State Department of Education. This format is essentially the generally accepted form of presentation used by state and local governments prior to the effective date of GASB Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*. This format significantly differs from that required by GASB 34.

The basic financial statements are essentially prepared on a basis of cash receipts and disbursements modified as required by the regulations of the Oklahoma State Department of Education (OSDE) as follows:

- Encumbrances represented by purchase orders, contracts, and other commitments for the expenditure of monies and are recorded as expenditures when approved.
- Investments and inventories are recorded as assets when purchased.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

C. BASIS OF ACCOUNTING (continued)

- Capital assets in proprietary funds are recorded when acquired and depreciated over their useful lives.
- Warrants payable are recorded as liabilities when issued.
- Long-term debt is recorded when incurred.
- Accrued compensated absences are recorded as an expenditure and liability when the obligation is incurred.

This regulatory basis of accounting differs from accounting principles generally accepted in the United States of America, which require revenues to be recognized when they become available and measurable, or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred for governmental fund types; and, when revenues are earned and liabilities are incurred for proprietary fund types and trust funds.

D. BUDGETS AND BUDGETARY ACCOUNTING - ESTIMATE OF NEEDS

The District is required by state law to prepare an annual budget. A preliminary budget must be submitted to the Board of Education by December 31, for the fiscal year beginning the following July 1. If the preliminary budget requires an additional levy, the District must hold an election on the first Tuesday in February to approve the levy. If the preliminary budget does not require an additional levy, it becomes the legal budget. If an election is held and the taxes are approved, then the preliminary budget becomes the legal budget. If voters reject the additional taxes, the District must adopt a budget within the approved tax rate. A budget is legally adopted by the Board of Education for the General Fund and Special Revenue Funds (Building Fund and Child Nutrition Fund) that includes revenues and expenditures.

The 2014-2015 Estimate of Needs was approved by the Board and subsequently filed with the county clerk. The Estimate of needs was approved by the excise board, and the requested levies were made.

E. ENCUMBRANCES

Encumbrances represent commitments to unperformed contracts for goods or services. Encumbrance accounting--under which purchase orders and other commitments of resources are recorded as expenditures of the applicable fund--is utilized in all governmental funds of the District. Appropriations not used or encumbered lapse at the end of the year.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

F. ASSETS, LIABILITIES, AND FUND EQUITY

<u>Cash and Cash Equivalents</u> - The District considers all cash on hand, demand deposits, and highly liquid investments with an original maturity of three months or less when purchased to be cash and cash equivalents.

<u>Investments</u> - Investments consist of bank certificates of deposit with maturities greater than three months when purchased. All investments are recorded at cost, which approximates market value.

<u>Inventories</u> - The value of consumable inventories at June 30, 2015, is not material to the financial statements. Purchases for inventory items are considered expenditures at the time the items were encumbered.

Fixed Assets and Property, Plant, and Equipment - The General Fixed Asset Account Group is not presented. The amount that should be recorded in the General Fixed Asset Account Group is not known.

<u>Compensated Absences</u> - Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources has not been reported as an expenditure or a fund liability of the governmental fund that will pay it since the combined financial statements have been prepared on the regulatory basis of accounting. Vested accumulated rights to receive sick pay benefits have not been reported in the General Long-Term Debt Account Group since the combined financial statements have been prepared on the regulatory basis of accounting. These practices differ from accounting principles generally accepted in the United States of America.

In accordance with the provisions of Statement of Financial Accounting Standards No. 43, Accounting for Compensated Absences, no liability is recorded for nonvesting accumulating rights to receive sick pay benefits. Vested accumulated rights to receive sick pay benefits have been reported in the General Long-Term Debt Account Group since none of the vested sick leave is expected to be liquidated with expendable available financial resources.

Long-Term Debt - Long-term debt is recognized as a liability of governmental fund when due, or when resources have been accumulated in the Debt Service Fund for payment early in the following year. For other long-term obligations, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund. The remaining portion of such obligations is reported in the General Long-Term Debt Account Group when applicable.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fund Balance - Fund balance represents the funds not encumbered by purchase order, legal contracts, and outstanding warrants.

G. REVENUES, EXPENSES, AND EXPENDITURES

<u>Property Tax Revenues</u> - The District is authorized by state law to levy property taxes which consist of ad valorem taxes on real and personal property within the District. The county assessor, upon receipt of the certification of tax levies from the county excise board, extends the tax levies on the roll for submission to the county treasurer prior to October 1. The county treasurer must commence tax collection within fifteen days of receipt of the tax rolls. The first half of taxes are due prior to January 1. The second half is due prior to April 1.

If the first payment is not made timely, the entire tax becomes due and payable on January 2. Second half taxes become delinquent on April 1 of the year following the year of assessment. If not paid by the following October 1, the property is offered for sale for the amount of taxes due. The owner has two years to redeem the property by paying the taxes and penalty owed. If at the end of two years the owner has not done so, the purchaser is issued a deed to the property.

<u>State Revenues</u> - Revenues from state sources for current operations are primarily governed by the state aid formula under the provisions of Article XVIII, Title 70, Oklahoma Statutes. The State Board of Education administers the allocation of state aid funds to school districts based on information accumulated from the districts.

After review and verification of reports and supporting documentation, the State Department of Education may adjust subsequent fiscal period allocations of money for prior year errors disclosed by review. Normally, such adjustments are treated as reductions or additions of revenue of the year when the adjustment is made.

The District receives revenue from the State to administer certain categorical educational programs. State Board of Education rules require that revenue earmarked for these programs be expended only for the program for which the money is provided and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same categorical programs. The State Department of Education requires that categorical educational program revenues be accounted for in the General Fund.

<u>Interfund Transactions</u> - Quasi-external transactions are accounted for as revenues, expenditures, or expenses. Transactions that constitute reimbursements to a fund or expenditures/expenses initially made from it that are properly applicable to another fund are

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Interfund Transactions (continued)

recorded as revenues, expenditures, or expenses in the fund that is reimbursed. All other interfund transactions, except quasi-external transactions and reimbursements, are reported as transfers. Nonrecurring or nonroutine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers. There were no operating transfers or residual equity transfers during fiscal year 2015.

<u>Use of Estimates</u> - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

<u>**Risk Management</u>** - The District participates in a risk pool for worker's compensation coverage in which there is a transfer or pooling or risks among the participants of that pool. In accordance with GASB No. 10, the District reports that required contribution to the pool, net of refunds, as insurance expense.</u>

NOTE 2: CASH AND INVESTMENTS

The District's investment policies are governed by state statute. Permissible investments include direct obligations of the United States Government and Agencies, certificates of deposit of savings and loan associations, and bank and trust companies, savings accounts or savings certificates of savings and loan associations, and trust companies. Collateral is required for demand deposits and certificates of deposit for all amounts not covered by federal deposit insurance.

In accordance with state statutes, the District's investment policy:

<u>Deposits and Investments</u> - The District's cash deposits and investments at June 30, 2015, were completely insured or collateralized by federal deposit insurance, direct obligations of the United States Government, or securities held by the District or by its agent in the District's name.

Therefore, the District's cash deposits and investments at June 30, 2015, were not exposed to Custodial Credit Risk, Investment Credit Risk, Investment Interest Rate Risk, or Concentration of Investment Credit Risk.

٨

NOTE 4: INTERFUND RECEIVABLES AND PAYABLES

There were no interfund receivables or payables at June 30, 2015.

NOTE 5: GENERAL LONG-TERM DEBT

State statutes prohibit the District from becoming indebted in an amount exceeding the revenue to be received for any fiscal year without the approval by the District's voters. General long-term debt of the District consists of lease/purchase agreements and outstanding general obligation bonds.

The following is a summary of the long term debt transactions of the District for the year ended June 30, 2015:

		Capital Lease	
	Bonds Payable	<u>Obligations</u>	Total
Balance July 1, 2014	\$ 530,000.00	\$ 46,545.68	\$ 576,545.68
Additions	560,000.00	114,089.60	674,089.60
Retirements	(530,000.00)	(28,215.53)	(558,215.53)
Balance June 30, 2015	<u>\$_560,000.00</u>	\$ 132,419.75	<u>\$ 692,419.75</u>

A brief description of the outstanding general obligation issues at June 30, 2014, is set forth below:

Amount Outstanding

Independent School District No. I-006 Building Bonds Original Issue \$530,000.00. Interest rates of .950% due in installments of \$560,000.00 due May 1, 2017.

\$ 560,000.00

Total Outstanding

\$ 560,000.00

NOTE 5: GENERAL LONG-TERM DEBT (continued)

The annual debt service requirements of bond principal and payment of interest are as follows:

Year Ending		Dringing	Interest	Tatal
<u>June 30</u>	_	<u>Principal</u>	<u>Interest</u>	<u> </u>
2016	\$	0.00	\$ 5,320.00	\$ 5,320.00
2017	\$	560,000.00	\$ 5,320.00	\$565,320.00

Interest expense on general long-term debt incurred during the current year totals \$3,180.

As disclosed in Note 1 to the Financial Statements, the District does not record fixed assets in the financial statements. Consistent with this, the District has not recorded the assets in the General Fixed Assets Account Group. The District has recorded the liability for future lease payments in the General Long-Term Account Group.

The schedule of future minimum lease payments under the capital lease and the present value of the net minimum lease payments at June 30, are as follows:

	Chevrolet	2011	2015	Band	
Year Ending June 30	Van	<u>Suburban</u>	Ford Truck	<u>Equipment</u>	<u> </u>
2016	7,389.96	7,148.76	7,962.36	16,022.64	38,523.72
2017	7,389.96	1,787.19	7,962.36	16,022.64	33,162.15
2018	7,389.96	0.00	7,962.36	16,022.64	31,374.96
2019	4,926.65	0.00	7,962.36	16,022.64	28,911.65
2020	0.00	0.00	3,981.18	2,670,46	<u>6.651.64</u>
Total Minimum Lease Payments	\$ 27,096.53	\$ 8,935.95	\$ 35,830.62	\$ 66,761.02	\$ 138,624.12
Less: Amount Representing Interes	t <u>2,046.73</u>	248.19	2,303.07	1,606.38	6,204.37

NOTE 6: OTHER POST EMPLOYMENT BENEFITS

The District does not offer any early retirement incentive plans.

NOTE 7: EMPLOYMENT RETIREMENT SYSTEM

The District participates in the state administered Oklahoma Teacher's Retirement System (The "System"), which is a cost-sharing, multiple employer public employee retirement system (PERS). Under the system contributions are made by the District, the State of Oklahoma, and the participating employees.

Participation is required for all teachers and other certified employees, and is optional for all other regular employees of public educational institutions who work at least 20 hours per week. A participant's date of membership is the date the first contribution is made to the System. The System is administered by a Board of Trustees which acts as a fiduciary for investing the funds and governing the administration of the System. The District has no responsibility or authority for the operation and administration of the System, nor has it any liability, except for the current contribution requirements.

A participant with five years of creditable service may retire with a normal retirement allowance at the age of sixty-two or with reduced benefits as early as age fifty-five. The normal retirement allowance paid monthly for life and then to beneficiaries, if certain options are exercised, equals two percent of the average of the highest earning years on contributory service multiplied by the number of years credited service. A participant leaving employment before attaining retirement age, but completing ten years of service, may elect to vest his accumulated contributions and defer receipt of a retirement annuity until a later date.

When a participant dies in active service and has completed ten years of credited service, the beneficiary is entitled to a death benefit of \$18,000.00 and the participant's contributions plus interest. If the beneficiary is a surviving spouse, the surviving spouse may, in lieu of the death benefit, elect to receive, subject to the surviving spousal options, the participant's retirement benefits accrued at the time of death.

The contribution rates for the District, which are not actuarial determined, and its employees are established by statute and applied to the employee's earnings, plus employer paid fringe benefits. The District is required by statute to contribute 9.5% of applicable compensation for the year ended June 30, 2015. The District is allowed by the Oklahoma Teacher's Retirement System to make the required contributions on behalf of the participating members. The required contribution for participating members is 7%.

NOTE 7: EMPLOYMENT RETIREMENT SYSTEM (continued)

The District's contributions to the System for the years ending June 30, 2015, 2014, and 2013 were \$407,454, \$344,661, and \$383,562, respectively.

The pension benefit obligation is a standardized disclosure measure of the present value of pension benefits. This pension valuation method reflects the present value of estimated pension benefits that will be paid in future years as a result of employee services performed to date, and is adjusted for the effect of projected salary increases. There are no actuarial valuations performed on individual school districts.

The Oklahoma Teacher Retirement System issues an independent financial report, financial statements, and required supplementary information that can be obtained in writing at the Oklahoma Teacher's Retirement System, P.O. Box 53524, Oklahoma City, OK 73152 or by calling 405-521-2387.

Ten year historical trend information is presented in the Teacher's Retirement System of the Oklahoma Annual Report for the year ended June 30, 2014. This information is useful in assessing the pension plan's accumulation of sufficient assets to pay pension benefits as they become due.

Actuarial Valuation Date	Actuarial Value of Assets(AVA) (a)	Actuarial Accrued Liability (AAL)(b)	Unfunded Actuarial Accrued Liability <u>(UAAL)(b-a)</u>	Funder <u>Ratio(a/b)</u>	Annual Covered <u>Payroll(c)</u>	UAAL as % of Covered Payroll <u>(b-a)/(c)</u>

Schedule of Funding Progress (dollars in millions) (unaudited)

NOTE 8: CONTINGENCIES AND OTHER COMMITMENTS

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

NOTE 9: INSURANCE COVERAGE

The District purchases commercial insurance policies covering property casualty loss, public liability, school board member and administrator liability, and worker's compensation.

NOTE 10: SURETY BONDS

The District has the following surety bonds: Superintendent in the amount of 100,000.00 bond no. 61393999 dated 6/4/2014-7/1/2015. Co-Custodian of Activity Fund the amount of 25,000.00 bond no. 62205107 dated 11/1/2014-11/1/2015. Co-Custodian of Activity Fund and Encumbrance Clerk in the amount of 25,000.00 bond no. 61418824 dated 7/9/2014-7/14/2015. Minutes Clerk and Custodian Child Nutrition in the amount of 25,000.00 bond no. 15346114 dated 07/15/2014-7/14/2015. The Treasurer also had bond no. 71244437 dated 2/17/15-2/17/16 in the amount of 100,000.00. All were with Western Surety Company.

NOTE 11: SUBSEQUENT EVENTS

Subsequent events have been evaluated though September 21, 2015, which is the date the financial statements were available to be issued.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF COMBINED FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Honorable Board of Education Keys School District No. I-006 Park Hill, Cherokee County, Oklahoma

I have audited the accompanying fund type and account group financial statements regulatory basis of Keys School District No. I-006, Oklahoma as listed in the Table of Contents, as of and for the year ended June 30, 2015, and have issued my report thereon dated September 21, 2015, which was adverse with regard to the application of accounting principles generally accepted in the United States of America because the entity prepares its financial statements on a statutory (regulatory) basis of accounting that conforms with the accounting practices prescribed by the Oklahoma State Department of Education and budget laws of the State of Oklahoma. In my report my opinion with regard to the prescribed basis of accounting was qualified for the omission of the general fixed asset account group. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing my audit, I considered the District's internal control over financial reporting as a basis for designing my audit procedures for the purpose of expressing my opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, I do not express an opinion on the effectiveness of the District's internal control over financial control over financial reporting.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

My consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. I did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Keys School District No. I-006's financial statements are free of misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit and, accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the Board of Education, management, and all applicable federal and state agencies, and is not intended to be and should not be used by anyone other than these specified parties.

REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

The Honorable Board of Education Keys School District, No. I-006 Park Hill, Cherokee County, Oklahoma

Compliance for Each Major Federal Program

I have audited the compliance of Keys School District No. I-006 (District) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that is applicable to each of its major federal programs for the year ended June 30, 2015. Keys School District No. I-006 major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of Keys School District No. I-006's management.

Auditor's Responsibility

My responsibility is to express an opinion on Keys School District No. I-006's compliance based on my audit of the types of compliance requirement referred to above. I have conducted my audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and *OMB Circular A-133*, *Audits of States*, *Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that I plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about District's compliance with those requirements and performing such other procedures as I considered necessary in the circumstances. I believe that my audit provides a reasonable basis for my opinion on compliance for each major federal program. However, my audit does not provide a legal determination on the District's compliance.

Opinion on Each Major Federal Program

In my opinion, the District, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2015.

Internal Control Over Compliance

The management of the district, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements listed above. In planning and performing our audit, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control, or a timely basis. A significant deficiency in internal control over compliance with a type of compliance of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

My consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. I did not identify any deficiencies in internal control over compliance that I considered to be material weaknesses, as defined above.

This report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

KEYS SCHOOL DISTRICT NO. I-006 SCHEDULE OF FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED JUNE 30, 2015

<u>Section I - Summary of Auditor's Results:</u> <u>Financial Statements</u>

Type of Auditor's Report issued: I have audited the accompanying fund type and account group financial statements - regulatory basis - of Keys School District No. I-006, Cherokee County, Oklahoma as listed in the table of contents, as of and for the year ended June 30, 2015. In my opinion letter, my report was adverse on U.S. Generally Accepted Accounting Principles because the school district prepares its financial statements on a basis of accounting other than accounting principles generally accepted in the United States of America. This basis of accounting is prescribed by the laws of the State of Oklahoma. Also my report was qualified with regard to the prescribed basis of accounting because of the omission of the general fixed asset account group.

Internal Control Over Financial Reporting:

Material weaknesses identified?	NONE REPORTED
Reportable conditions identified not considered to be	
material weaknesses?	NONE REPORTED
