# **INDEPENDENT AUDITOR'S REPORT**

The Board of Education Kiamichi Technology Center No. 7 Wilburton, Oklahoma

#### Report on the Financial Statements

I have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Kiamichi Technology Center No. 7, Latimer County, Oklahoma, as of and for the year ended June 30, 2019, which collectively comprise the basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

# Auditor's Responsibility

My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

#### Opinion

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Kiamichi Technology Center as of June 30, 2019, and the respective changes in its financial position and, where applicable, cash flows for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Auditing Standards Board who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

#### Other Supplementary Information

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The Schedule of Expenditures of Federal Awards is presented for additional analysis as required by U.S. Office of Management and Uniform Guidance, *Audits of States, Local Governments, and Nonprofit Organizations* and is not a required part of the basic financial statements.

The Schedule of Expenditures of Federal Awards is the responsibility of management and was derived from and relates directly to the underlying accounting records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial and other additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the supplementary information including the Schedule of Expenditures of Federal Awards is fairly stated in all material respects in relation to the financial statements taken as a whole.

# Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, I have also issued my report dated February 25, 2020, on my consideration of Kiamichi Technology Center No. 7, Latimer County, Oklahoma, internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of my audit.

Kerry John Patten, C.P.A. Broken Arrow, OK

MANAGEMENT DISCUSSION AND ANALYSIS

# MANAGEMENTS DISCUSSION & ANALYSIS Fiscal Year Ended June 30, 2019

In an effort to provide an overview of financial activities for Kiamichi Technology Centers This section of the annual financial report presents discussion and analysis of financial performance for fiscal year ending June 30, 2019. Please read it in conjunction with the School District's financial statements, which begin on page 7.

#### Organization

Kiamichi Technology Center School District No. 7 is part of the public-school system of Oklahoma under the general direction and control of the State Board of Career and Technology Education. The Kiamichi Technology Centers school district population is 249,921 based on census data, Our district offers educational opportunities to residents in all or part of 13 counties, serving the following public-school districts: Achille, Albion, Allen, Antlers, Arkoma, Atoka, Battiest, Bennington, Bokoshe, Boswell, Broken Bow, Buffalo Valley, Caddo, Calera, Calvin, Cameron, Canadian, Caney, Clayton, Coalgate, Colbert, Coleman, Cottonwood, Crowder, Denison, Durant, Eagletown, Eufaula, Fanshawe, Forest Grove, Fort Towson, Frink-Chambers, Glover, Haileyville, Harmony, Hartshorne, Haworth, Haywood, Heavener, Hodgen, Holly Creek, Howe, Hugo, Idabel, Indianola, Keota, Kinta, Kiowa, Krebs, Lane, LeFlore, Lukfata, McAlester, McCurtain, Monroe, Moyers, Nashoba, Panama, Panola, Pittsburg, Pocola, Poteau, Quinton, Rattan, Red Oak, Rock Creek, Savanna, Shady Point, Silo, Smithville, Soper, Spiro, Stidham, Stigler, Stonewall, Stringtown, Stuart, Swink, Talihina, Tannehill, Tushka, Tuskahoma, Valliant, Wapanucka, Whitefield, Whitesboro, Wilburton, Wister and Wright City.

#### Vision

KTC is recognized as a leader in CareerTech education and business excellence

#### Mission

Preparing People for Success

# **Using This Annual Report**

This annual report includes several sections divided into the management discussion and analysis, government-wide financial statements, Fund Financial Statements, notes to the Financial Statements and required supplementary information. The government-wide statements provide both long-term and short-term information about the School District's overall financial status. The statement of net position shows the district's assets compared to liabilities as well as the District's overall net financial position. While the statement of Activities shows the district's, revenues compared to expenditures. The Fund Financial Statements report the School District's operations in more detail than the government -wide statements by providing information about the School District's most significant funds. The remaining statements provide financial information about activities for which the School District acts solely as a trustee or agent for the benefit of those outside the government.

#### The Financial Statements

The financial statements presented herein include all of the activities of the Kiamichi Technology Center School District No. 7 (the "School District") using the integrated approach as prescribed by GASB Statement No. 34. Included in this report are governmental-wide statements for the governmental activities.

The government-wide financial statements present the complete financial picture of the School District from the economic resources measurement focus using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are recorded into accounts regardless of when cash is received or paid. These statements include all assets of the School District as well as all liabilities.

# Reporting the School District as a Whole

One of the most frequently asked questions about the School District's finances is, "is the School District better off than it was last year?" The Statement of Net Position and the Statement of Activities report information about the School District as a whole and about its activities in a way that helps answer this question. The Statement of Net Position and the Statement of Activities include all assets and liabilities using the accrual basis of accounting. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

The Statement of Net Position includes all of the School District's assets, deferred outflows of resources, liabilities and deferred inflows of resources, the difference reported as net position. You can think of the School District's net position as one way to measure the School District's financial condition, or financial health. Over time, increases or decreases in the School District's net position can be one indicator of whether its financial health is improving or deteriorating. However, you must consider other nonfinancial factors, such as changes in the School District's property tax base and the condition of the School District's assets, to assess the overall health of the School District.

The Statement of Activities list most of the School District's basic services, including the educational activities for secondary and post-secondary students, short term training for adults and services for business and industry as well as general administration.

# Reporting the School District's Most Significant Funds

#### **Fund Financial Statements**

The fund financial Statements provide detailed information about the most significant funds – not the School District as a whole. Some funds are required to be established by State law. However, management establishes other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes, grants and other money.

Governmental Funds – The School District's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the School District's programs. The differences of results in the Governmental Fund financial statements to those in the Government-Wide financial statements are explained in a reconciliation following each Governmental Fund Financial statement.

#### Financial Analysis of the School District as a Whole

#### **Net Position**

The School District accumulates year-to-year financial information on a consistent basis with the year ended. June 30, 2019 begins the seventeenth year of reporting using the integrated approach prescribed by GASB Statement No. 34. Since, the financial information is accumulated on a consistent basis; changes in the net position may be used to discuss the changing financial position of the School District as a whole.

The School District's total assets at fiscal year-end are \$65,941,604 which is an increase of \$1,049,025 over last year's total assets of \$64,892,579. The following table provides a summary of the School District's net position at June 30, 2019:

# **Condensed Statement of Net Position**

		<u>2019</u>	<u>2018</u>				<u>Amount</u>
Current/Other Assets	\$	25,569,165		\$	23,993,902	\$	1,575,263

Total Liabilities	\$	23,024,703		\$	25,907,663	\$	(2,882,960)
Net Position:	٠						
Capital Assets	\$	40,143,429		\$	40,736,784	\$	593,355
Unrestricted	\$	(2,799,516)		\$	(324,294)	\$	(2,475,222)
<b>Total Net Position</b>	\$	42,942,945		\$	41,061,078	\$	3,424,004

#### **Governmental Activities**

State funds suffered some budget cuts, however, slight increases in revenues in Ad Valorem allowed the School District's budget to maintain levels commensurate with the precious year.

# Some of the individual line item revenues reported for each function are:

Taxes for current year and prior years, revenue in lieu of taxes Ad Valorem property tax

Tuition and Fees Tuition and fees for full-time adult classes, short-term adult classes,

safety training, and industry specific

Miscellaneous

Rental, Disposals & Commissions Rental of school facilities and property and sale of surplus equipment

Reimbursements Reimbursements for insurance loss recoveries, damages to school property,

rebates and fiscal agent expenses

Other Local Sources of Revenue

All other local revenue not classified above

Intergovernmental State Sources State aid formula grants, Tech Center That Work, DHS Child Care, OTAG,

Existing Industry Training, TIPS, Adult Training and Fire Fighting initiative

Intergovernmental Federal Sources TANF, Carl Perkins, and Federal Financial Aid

All other governmental revenues are reported as general. It is important to note that all taxes are classified as general revenue even if restricted for a specific purpose.

#### The individual line item expenses reported for each function are:

Instruction Expenditures for direct classroom activities

Support Services Expenditures for administrative, technical and logistical support to facilitate and

enhance education

Non-Instructional Services Activities concerned with providing non-instructional services to students, staff,

or community. An example would be child nutrition expenses.

Facilities Acquisition and Construction Activities involved with the acquisition of land, buildings, remodeling buildings,

construction of buildings and additions to building, initial installations or extension of service systems and other build-in equipment, acquisition of

equipment to furnish the buildings, and improvements to sites.

# **Capital Assets**

During this fiscal year the School District maintained program equipment and facilities at a level that ensured high quality technical education. District purchased from Durant public school a facility formerly known as George Washington elementary. Remolding plans began immediately to transform this to the Center for Workforce Development an all adult training center. The facility is expected to be completed FY-20.

The Poteau T & I programs, HVAC and Electrical received renovations that will ensure continuous education commensurate to industry standards. Construction began in preparation for the new heavy equipment program at the Hugo campus, which opened its first class in August 2019. In addition, Durant, Idabel and McAlester all opened new criminal justice programs this year.

At the end of June 30, 2019, the district had \$40,143,429 invested in capital assets including land, buildings, equipment, and vehicles. This amount represents a net decrease (including additions, deletions, and depreciation) of \$593,355 from June 30, 2018 net capital assets.

#### Capital Assets-Net of Depreciation

	2019
Land	\$ 2,927,500
Buildings	\$ 63,024,627
Equipment	\$ 10,386,018
Vehicles	\$ 3,429,755
Less: Accumulated Depreciation	\$39,624,471
Net Capital Assets	\$ 40,143,429

#### **ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS**

KTC expects a decrease in State and Federal sources. Property tax and tuition collections are expected to have a minimal increase going forward. While expecting a static appropriated revenue the school district does anticipate operating costs to continue to increase due to the rising cost of salaries, insurances, utilities and fuel. KTC is continues to implement new programs to meet the changes in workforce. Our district continues experience growth of areas of health care, criminal justice, and other workforce training needs. Our district remains committed to ensure quality services for the students of southeast Oklahoma and other areas across the state.

# Contacting the School District's Financial Management

Hilsey

This financial report is designed to provide our citizens, taxpayers, customers and creditors with a general overview of the school district's finances and to show the school district's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Kiamichi Technology Centers – Administration Office at 1004 Hwy 2 North, Wilburton, Oklahoma 74578 or phone at (918) 465-2324.

Respectfully Submitted

# KIAMICHI TECHNOLOGY CENTER NO. 7 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2019

Amounts reported for governmental activities in the statement of activities are different because: Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities those costs are shown in the statement of net assets and allocated over their estimated useful lives as annual depreciation expenses in the statement of activities. This is the amount by which capital outlays exceeds depreciation in the period. Capital outlay expenditures 2.154.545 Loss on disposal of assets Depreciation expense (2,747,900)(593, 355)Some property taxes and intergovernmental revenues receivable will be collected this year, but are not available soon enough to pay current period's expenditures, therefore they are deferred in the funds. These are not considered "available" revenues in the governmental funds until received. Change in amount deferred in fund statements. (222,217)Payment of compensated absences is reported as expenditures in

Payment of compensated absences is reported as expenditures in the governmental funds when actually paid. However, on the government-wide statement, changes in compensated absences are expensed as they are accrued. Change in the compensated absences liability.

435,489

1,625,471

Governmental funds report District pension contributions as expenditures. However, the Statement of Activities reports the cost of pension benefits earned net of employee contributions as pension expense.

636,479

Change in Net Position Governmental Activities

Net change in fund balances-governmental funds

1,881,867

The notes to the financial statements are an integral part of this statement.

NOTES TO THE FINANCIAL STATEMENTS

# 1. Summary of Significant Accounting Policies

The financial statements of the Kiamichi Technology Center No. 7 (the "Center") have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP") as applied to government units. The governmental Accounting Standards Board ("GASB") is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Center's accounting policies are described below.

# A. Reporting Entity

In accordance with the Governmental Accounting Standards Board Statement No. 14, "The Financial Reporting Entity," the Center has presented the entities, which comprise the primary government in the fiscal year 2019 basic financial statements.

The Center is a corporate body for public purposes created under Title 70 of the Oklahoma Statutes and, accordingly, is a separate entity for operating and financial reporting purposes. The Center is part of the public school system of Oklahoma under the general direction and control of the State Department of Career & Technology Board of Education and is financially dependent on the State of Oklahoma for support. The general operating authority for the public school system is the Oklahoma School Code contained in Title 70, Oklahoma Statutes.

The governing body of the Center is the Board of Education composed of seven elected members. The appointed superintendent is the executive officer of the Center.

As required by accounting principles generally accepted in the United States of America, the basic financial statements present the reporting entity which consists of the primary government, organizations for which the primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion could cause the Center's basic financial statements to be misleading or incomplete.

#### B. Basis of Presentation

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the Center. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities are normally supported by taxes and intergovernmental revenues.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) tuition or fees paid by students or citizens of the Center and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items, including state aid, that are not properly included among program revenues are reported as general revenues.

Separate financial statements are provided for governmental funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

#### **Fund Financial Statements**

The Technology Center segregates transactions related to certain functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Statements for governmental activities present each fund as a separate column on the fund financial statements.

Governmental funds are used to account for all or most of a government's general activities. The measurement focus of governmental funds is on the sources uses and balance of current financial resources. The Center has presented the following governmental funds:

# **Summary of Significant Accounting Policies (continued)**

# **Fund Financial Statements**

<u>General Fund</u> – The General Fund is used to account for all financial transactions except those required to be accounted for in another fund. Major revenue sources include state and local property taxes and state funding under Formula Operations. Expenditures include all costs associated with the daily operations of the schools except for programs funded for building repairs and maintenance, school construction and debt service on bonds and other long-term debt.

<u>Special Revenue Fund</u> – The Center's Building Fund is a Special Revenue Fund and consists of monies derived from property taxes levied for the purpose of creating, remodeling or repairing buildings and for purchasing furniture and equipment.

# Fiduciary Fund Types

Fiduciary funds are used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the Center. When these assets are held under the terms of a formula trust agreement, either a private purpose trust fund or a permanent fund is used.

The terms "permanent" and "private purpose" refer to whether or not the Center is under an obligation to maintain the trust principal. Agency funds generally are used to account for assets that the Center holds on behalf of others as their agent and do not involve measurement of results of operations.

The Center's Fiduciary Funds have been excluded from the government-wide financial statements.

<u>Agency Fund</u> – The Center's Agency Funds consists of the Activity Fund and the Federal Pell Grant Fund. The Center's Activity Fund is used to account for monies collected that are held on behalf of others as their agent and do not involve the measurement of results of operations. The Federal Pell Grant fund is used to account for student financial aid which is collected by the Center and disbursed to eligible students or to pay educational costs on their behalf. The administration is responsible under the authority of the Board, for collecting, disbursing and accounting for these funds.

#### Account Groups

GASB Statement No. 34 eliminates the presentation of account groups, but provides for these records to be maintained and incorporates the information into the governmental column in the government-wide statement of net position.

# C. Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

Property taxes and interest and certain state and federal grants associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

# **Summary of Significant Accounting Policies (continued)**

# D. Budgets and Budgetary Accounting

A budget is legally adopted by the Board of Education for the General Fund and Special Revenue Fund that includes revenues and expenditures. These budgets are prepared on a budgetary basis of accounting. Budgetary control is maintained by fund, function, and activity and budgeted expenditures may not exceed appropriations at the fund level. Amendments may be made to the budget without approval by the governing body at the function and activity levels. Fund level budgetary amendments require approval of the governing body.

Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrance accounting – under which purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable fund balance – is utilized in all governmental funds of the Center. Appropriations which are not spent lapse at the end of the fiscal year and encumbrances are reversed. On the first day of the following fiscal year, the encumbrances are reinstated and the expenditures are applied against that year's budget.

# E. Net Position and Fund Balances

The government-wide financial statements utilize a net position presentation. Net positions are categories of investment in fixed assets (net of related debt), restricted net position and unrestricted net position.

<u>Investment in Fixed Assets (net of related debt)</u> – is intended to reflect the portion of net position, which are associated with non-liquid capital related debt. The net related debt is debt less the outstanding liquid assets and any associated unamortized cost.

<u>Restricted Net Position</u> – are liquid assets generated from revenues and not bond proceeds, which have third party (statutory bond covenant or granting agency) limitations on their use. The Center would typically use restricted net assets first, as appropriate opportunities arise, but reserve the right to selectively defer the use thereof to a future project or replacement equipment acquisition.

Unrestricted Net Position – represent unrestricted liquid assets.

Governmental Fund Financial Statements – The Center has adopted Governmental Accounting Standards Board Statement No. 54, which redefined how fund balances of the governmental funds are presented in the financial statements. The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications available in the governmental fund financial statements are as follows:

Nonspendable – Amounts that are not in a spendable form such as prepaid expenses, inventory, or required to be maintained intact such as the corpus of permanent fund.

<u>Restricted</u> – Amounts that are designated for specific purposes by their providers such as bondholders, grantors, or imposed by law through constitutional provisions or enabling legislation. The Building Fund is restricted by statute to certain capital related costs.

<u>Committed</u> – Amounts designated for specific purposes by the Center's highest level of decision making authority (Board of Education) and cannot be used for any other purposes unless the same highest level (Board of Education) takes action to remove or change the designation.

The Center commits a portion of the fund balance to honor the commitments made by the District for encumbrances (purchase orders) for which goods or services have not yet been received. The fund balance committed to encumbrances will be equivalent to the purchase orders rolled forward from one fiscal year to the next fiscal year

<u>Assigned</u> – Amount the Center intends to use for specific purposes; intent can be expressed by the governing body or by an official to which the governing body delegates the authority.

# **Summary of Significant Accounting Policies (continued)**

The Center assigns a portion of the fund balance in both the general fund and building fund for funding the cash flow needs during the first half of each fiscal year. The Superintendent and the Chief Financial Officer will determine the amount of assigned fund balance at the end of each fiscal year.

<u>Unassigned</u> – Amounts that are available for any purposes; reported only in the general fund. Fund balance represents the funds not restricted in use by statute nor encumbered by purchase order or legal contract.

# F. Assets, Liabilities and Cash Fund Balances

<u>Cash</u> – Cash consists of currency and checks on hand and demand deposit accounts with banks and other financial institutions.

<u>Investments</u> – Investments consist of direct obligations of the United States Government and Agencies All investments are recorded at cost, which approximates market value.

<u>Property Tax Revenue and Receivables</u> — The Center is authorized by state law to levy property taxes which consist of ad valorem taxes on real and personal property within its' District. The County Assessor, upon receipt of the certification of tax levies from the county excise board, extends the tax levies on the tax roll for submission to the county treasurer prior to October 1. The county treasurer must commence tax collection within fifteen days of receipt of the tax rolls. The first half of taxes is due prior to January 1. The second half is due prior to April 1.

If the first payment is not made timely, the entire tax becomes due and payable on January 2. The second half of taxes becomes delinquent on April 1 of the year following the year of assessment. If taxes are delinquent and unpaid for a period of three (3) years or more the real estate may be sold for taxes.

Uncollected taxes assessed on valuations made each year are recorded in the Center's combined financial statements. Uncollectible personal and real property taxes are deemed to be immaterial because the property can be sold for the amount of taxes due.

<u>Inventories</u> – The cost of consumable materials and supplies on hand are immaterial to the financial statements, and the Technology Center has therefore chosen to report these items as expenditures/expenses at the time of purchase.

<u>Capital Assets</u> – Capital assets, which include property, plant and equipment, are reported in the government-wide financial statements.

All purchased capital assets are valued at cost when historical records exist and at an estimated historical cost where no historical records exist. Donated capital assets are valued at their fair market value on the date donated.

The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related fixed assets, as applicable.

Assets capitalized have an original cost of \$2,500 or more. Depreciation has been calculated on each class of depreciable property using the straight-line method. Estimated useful lives are as follows:

Buildings and structures 25-50 years
Improvements Remaining Life
Equipment 7-25 years
Furniture and fixtures 5-20 years

Compensated Absences – All full time twelve-month employees are entitled to vacation time with full pay of 15 working days per year. A certified employee contracted for half time or more receives leave time prorated according to the percentage of time contracted. An employee, upon separation of service with the Center, will be paid their regular rate of pay for unused annual vacation leave up to a maximum of 22 ½ days.

# **Summary of Significant Accounting Policies (continued)**

Any employee who retires with a minimum of 10 years of service with the Center and whose age and number of years of creditable service total 80 or 90 points, depending on date of employment, can receive their regular rate of pay for unused sick leave up to 60 days. Employees who have worked for the Center for at least 5 years can receive a lump sum payment of \$10 per day for up to 60 days accrued sick leave.

<u>Long-Term Debt</u> – Long-term debt is recognized as a liability of the applicable governmental activities statement on net assets.

<u>Fund Equity</u> – Reserves represent those portions of fund equity not appropriable for expenditure or legally segregated for a specific future use.

# G. Revenue, Expenses and Expenditures

Revenues are classified by source as follows:

<u>Local</u> – Revenue from local sources is revenue produced within the District, which includes ad valorem taxes. It is available for current educational expenses and for other purposes authorized by the Technology Center.

<u>Intermediate</u> – Revenue from intermediate sources is revenue from funds collected by an intermediate administrative unit or political sub-division, like a county or municipality, and redistributed to the Technology Center.

<u>State</u> – Those revenues received from the State, which are dedicated or are appropriated by the State legislature. Some of this aid is restricted for specific purposes.

The Center receives revenue from the State to administer certain categorical educational programs. State Department of Career & Technology Board of Education rules require that revenue earmarked for these programs be expended only for the program for which the money is provided and require that the money not expended, as of the close of the fiscal year, be carried forward into the following year to be expended for the same categorical programs. The State Department of Career & Technology Education requires that categorical educational program revenues be accounted for in the General Fund.

<u>Federal</u> – Revenue from Federal sources is money originating from the Federal government and made available to the Technology Center either as direct grants or under various programs passed-through the State Department of Career & Technology Education or other state agencies.

<u>Instruction Expenditures</u> – Instruction expenditures include the activities dealing directly with the interaction between teachers and students. Teaching may be provided for students in a school classroom, in another location, such as a home or hospital, and in other learning situations, such as those involving cocurricular activities. It may also be provided through some other approved medium, such as television, radio, telephone and correspondence. Examples of expenditures that might be included here are the activities of teacher assistant of any type (clerks, graders, teaching machines, etc.), which assist in the instructional process. The activities of tutors, translators and interpreters would be recorded here. Department chairpersons who teach for any portion of time are included here. Tuition/transfer fees paid to other LEAs would be included here.

<u>Support Services Expenditures</u> – Support services expenditures provide administrative, technical (such as guidance and health) and logistical support to facilitate and enhance instruction. These services exist as adjuncts for fulfilling the objective of instruction, community services and enterprise programs, rather than as entitles within them.

<u>Operation of Non-Instructional Services Expenditures</u> – Activities concerned with providing non-instructional services to students, staff, and the community.

<u>Facilities Acquisition and Construction Services Expenditures</u> – Consist of activities involved with the acquisition of land and buildings; remodeling buildings; the construction of buildings and additions to buildings; initial installation or extension of service systems and other built-in equipment; and improvement to sites.

# **Summary of Significant Accounting Policies (continued)**

<u>Other Outlays Expenditures</u> – A number of outlays of governmental funds are not properly classified as expenditures, but still require budgetary or accounting control. These are classified as Other Outlays. These include debt service payments (principal and interest).

<u>Other Uses Expenditures</u> – This includes scholarships provided by private gifts and endowments; student aid and staff awards supported by outside revenue sources (i.e., foundations). Also, expenditures for self-funded employee benefit programs administered either by the Center or a third party administrator.

<u>Repayment Expenditures</u> – Repayment expenditures represent checks/warrants issued to outside agencies for refund or restricted revenue previously received for overpayments, non-qualified expenditures and other refunds to be repaid from Center funds.

<u>Deferred outflows of resources</u> – Deferred outflows are the consumption of net position by the school district that are applicable to a future reporting period. At June 30, 2019, the school district's deferred outflows of resources were comprised of deferred outflows related to pensions and other post-employment benefits.

<u>Deferred inflows of resources</u> – Deferred inflows are the acquisition of net position by the school district that are applicable to a future reporting period. At June 30, 2019, the school district deferred inflows of resources were comprised of deferred inflows to pensions and other post-employment benefits.

# 2. Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

# 3. Deposit Categories of Credit Risk

Collateral is required for demand deposits and certificates of deposit for all amounts not covered by federal deposit insurance. The Center's investment policies are governed by state statute. Permissible investments include:

- 1. Direct obligations of the United States Government to the payment of which the full faith and credit of the government is pledged.
- 2. Obligations to the payment of which the full faith and credit of the state is pledged.
- 3. Certificates of deposits of banks when such certificates of deposits are secured by acceptable collateral as in the deposit of other public monies.
- 4. Savings accounts or savings certificates of savings and loan associations to the extent that such accounts or certificates are fully insured by the Federal Savings and Loan Insurance Corporation.
- 5. Repurchase agreements that have underlying collateral consisting of those items specified in paragraphs 1 and 2 of this section including obligations of the United States, its agencies and instrumentalities, and where collateral has been deposited with a trustee of custodian bank in an irrevocable trust or escrow account established for such purposes.
- 6. County, municipal or school district direct debt obligations for which an ad valorem tax may be levied or bond and revenue anticipation notes, money judgments against such county, municipality or school district ordered by a court of record or bonds or bond and revenue anticipation notes issued by a public trust for which such county, municipality or school district is a beneficiary thereof. All collateral pledged to secure public funds shall be valued at no more than market value.

# **Deposit Categories of Credit Risk (continued)**

- 7. Money market mutual funds regulated by the Securities and Exchange Commission and which investments consist of obligations of the United States, its agencies and instrumentalities, and investments in those items listed above.
- 8. Warrants, bonds or judgments of the school district.
- 9. Qualified pooled investment programs, the investments of which consist of those items specified above, as well as obligations of the United States agencies and instrumentalities, regardless of the size of the district's budget. To be qualified, a pooled investment program for school funds must be governed through an interlocal cooperative agreement formed pursuant to Title 70 Section 5-117b, and the program must competitively select its investment advisors and other professionals. Any pooled investment program must be approved by the board of education.

The Center's investment policy instructs the Treasurer to minimize risks by diversifying the investment portfolio; structuring investments so that securities mature in time to meet cash requirements; and by investing the full amount of all accounts of the Center.

#### Investments

The Center's investments at June 30, 2019, for all governmental funds included the following:

Investment		Amount	% To Total
Certificates of Deposit	\$	14,411,740	100%
Total		14.411.740	100.00%
Iotai	Ψ	14,411,740	100.0070

All investments of June 30, 2019, have investment maturities of twelve months or less.

# Custodial Credit Risk:

Deposits and Investments – The District's demand deposits are required by law to be collateralized by the amount that is not federally insured.

Securities pledged as collateral are held by a third party or Federal Reserve Bank. Joint custody safekeeping receipts are held in the name of the depositing institution, but are pledged to the Center. The security cannot be released, substituted, or sold without the school Treasurer's approval and release of the security.

Certificates of deposit are collateralized at least by the amount not federally insured. As of June 30, 2019, the Center had no deposits exposed to custodial credit risk.

The Center's investments consist of direct obligations of the U.S. government and agencies' securities.

#### Interest Rate Risk:

Investments are made based upon prevailing market conditions at the time of the transaction with the intent to hold the instrument until maturity. Investments may have maturities extending to twenty-four months, provided sufficient liquidity is available to meet major outlays, except that General Fund investments may not exceed twelve months

# Credit Risk:

The Center has no formal written policy addressing credit risk.

At June 30, 2019, the Center has no investments that are not guaranteed by the full faith and credit of the United States government.

### 4. Capital Assets

A summary of changes in general fixed assets for the year ended June 30, 2019, follows:

	Balance July1, 2018	÷	Additions	-	Transfer	.:	Retirements	Balance June 30, 2019
Land \$	2,927,500	\$		\$_	_	\$		\$ 2,927,500
Total Assets Not Being							•	
Depreciated	2,927,500			_	-	 -	-	2,927,500
Building & Improvements Machinery &	61,593,524		1,431,103		-		: 	63,024,627
Equipment	10,000,944		385,074		-		· · ·	10,386,018
Vehicles	3,091,387		338,368	_	_	_	<u>.</u>	3,429,755
Total Capital Assets Being Depreciated Less:	74,685,855		2,154,545	-	<u>-</u>		- ; ; ; ; ; ; ; ; ; ; ; ; ; ; ; ; ; ; ;	76,840,400
Accumulated Depreciation	36,876,571		2,747,900	_	_	· _		39,624,471
Total Capital Assets Being Depreciated - Net	37,809,284		(593,355)	_		· .		37,215,929
Total Capital Assets - Net \$	40,736,784	\$	(593,355)	-		\$ _		\$ 40,143,429

# 5. Interfund Transactions

Interfund transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund, or expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the fund that is reimbursed. Nonrecurring or nonroutine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers.

# 6. Accounts Receivable

Accounts receivable of the governmental activities consist of Ad Valorem tax, interest income, tuition, state grant programs, federal grant programs, and miscellaneous. Receivables detail by fund at June 30, 2019, is as follows:

# Governmental Funds

Accounts Receivable	General Fund	Building Fund
Ad valorem tax Due from activity fund Federal & State grants	\$ 1,098,767 725,467 738,800	\$ 252,114
Total accounts receivable	2,563,034	252,114
Less: Deferred revenue	781,508	190,475
Total accounts receivable (net)	\$ 1,843,165	\$ 61,639

# 7. Employee Retirement System

# Description of Plan

The District participates in the state-administrated Teacher's Retirement System of Oklahoma (the "system"), which is a cost-sharing multiple-employer public employee retirement system. The supervising authority for the management and operation of the System is a 13-member Board of Trustees, which acts as a fiduciary for investment of the funds and the application of plan interpretations. The System provides retirement and disability benefits, annual cost of living adjustments, death benefits and other benefits to plan members and beneficiaries. Oklahoma State Statutes establish benefit provisions and may be amended only through legislative action. The District has no responsibility or authority for the operation and administration of the system nor has it any liability, except for contribution requirements. The Oklahoma Teachers' Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for the System. The report may be obtained by writing to the Oklahoma Teachers' Retirement System, P.O. Box 53624, Oklahoma City, Oklahoma 73152.

#### Basis of Accounting

The System's financial statements are prepared using the cash basis of accounting, except for accruals of interest income. Plan member contributions are recognized in the period in which the contributions are made. Benefits and refunds are recognized when paid. The pension benefit obligation is a standardized disclosed measure of the present value of pension benefits. This pension valuation method reflects the present value of estimated pension benefits that will be paid in future years as a result of employee services performed to date and is adjusted for the effect of projected salary increases. There are no actuarial valuations performed on individual school districts. The System has an under-funded pension benefit obligation as determined as part of the latest actuarial valuation.

#### **Funding Policy**

The District, the State of Oklahoma, and the participating employee make contributions. The contribution rates for the District and its employees are established by and may be amended by Oklahoma Statutes. The rates are not actuarially determined. The rates are applied to the employee's earnings plus employer-paid fringe benefits. The required contribution for the participating members is 7.0% of compensation. Additionally, OTRS receives "federal matching contributions" for positions whose funding comes from federal sources or certain grants. The matching contribution rate for FY 2019 was 7.70%. The District and State are required to contribute 14.5% of applicable compensation. Contributions received by the System from the State of Oklahoma are from its revenues from sales tax, use taxes, corporate income taxes and individual income taxes. The District contributed 9.5% and the State of Oklahoma plus the federal contribution contributed the remaining 5.0% during this year. The District is allowed by the Oklahoma Teachers' Retirement System to make the required contributions on behalf of the participating members. The school is required to pay 16.5% for any compensated retired teachers already receiving retirement benefits.

#### **Annual Pension Cost**

The District's total contribution for 2019, 2018, and 2017 were \$2,644,299, \$2,648,325, and \$2,441,803, respectively. The District's total payroll for fiscal year 2018-19 amounted to \$16,497,312

# On Behalf Contributions

The State of Oklahoma makes retirement contributions each year for teachers employed by Oklahoma School Districts. The contribution amounts are based on the teacher's years of service and amounts paid are prescribed by O.S. 70 Section 17-108.2 subsection A. During fiscal year 2018-19, the State of Oklahoma's contribution was \$130,950 The District recognized revenue and expenditures of this amount during the year.

# **Employee Retirement System (continued)**

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions</u>

At June 30, 2019, the Center reported a liability of \$21,418,178 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2018. The center's proportion of the net pension liability was based on the center's contributions received by the pension plan relative to the total contributions received by pension plan for all participating employers as of June 30, 2018. Based upon this information, the Center's proportion was .35436435 percent.

For the year ended June 30, 2019, the Center recognized pension expense of \$1,620,715. At June 30, 2019, the school district reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	_	Deferred Outflows of Resources	: . -	Deferred Inflows of Resources
Differences between expected and actual experience	\$		\$	1,480,540
Changes of assumptions		2,007,876		1,097,030
Net difference between projected and actual earnings on pension plan investments		-		372,316
Changes in proportion		-		465,107
System Contributions during Measurement date				51,314
Center contributions subsequent to the measurement date	_	1,620,715		
Total	\$ _	3,628,591	\$_	3,466,307

# **Employee Retirement System (continued)**

Deferred pension outflows totaling \$1,620,715 resulting from the Center's contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the year ended June 30, 2019. Other deferred outflow amounts will be recognized in pension expense over five years. The deferred inflows will be recognized in pension expense using the average expected remaining service life of the plan participants. The average expected remaining life of the plan participants is determined by taking the calculated total future service years of the plan participants divided by the number of people in the Plan including retirees. The total future service years of the plan participants are estimated at 5.59 years at June 30, 2018 and are determined using the mortality, termination, retirement and disability assumptions associated with the Plan.

Deferred outflows of resources and deferred inflows of resources will be recognized in pension expense as follows:

Year ended,	
2020	27,730
2021	62,758
2022	(1,227,387)
2023	(746,714)
2024	(68,818)
	\$ (1,952,431)

**Actuarial assumptions:** The total pension liability as of June 30, 2018, was determined based on an actuarial valuation prepared as of June 30, 2018 using the following actuarial assumptions:

- Actuarial Cost method-Entry Age Normal
- Inflation 2.50 percent
- Future Ad Hoc Cost-of-living Increases None
- Salary Increases-Composed of 3.25 percent wage inflation, including 2.50 percent price inflation, plus a service related component ranging from 0.00 to 8.00 percent based on years of service.
- Investment Rate of Return-7.50 percent
- Retirement Age-Experience-based table of rates based on age, service, and gender. Adopted by the Board in May 2015 in conjunction with the five year experience study for the period ending June 30, 2014
- Mortality Rates after Retirement Males: RP-2000 Combined Healthy mortality table for males with White Collar Adjustments. Generational mortality improvements in accordance with Scale BB from the table's base year of 2000. Females: GRS Southwest Region Teacher Mortality Table, scaled at 105%. Generational mortality improvements in accordance with Scale BB from the table's base year of 2012.
- Mortality Rates for Active Members RP-2000 Employee Mortality tables, with male rates multiplied by 60% and female rates multiplied by 50%.

Asset Class	Target <u>Allocation</u>	Long-Term Expected Real Rate of Return
Domestic Equity International Equity Fixed Income Real Estate* Alternative Assets	38.5% 19.0% 23.5% 9.0% 10.0%	7.5% 8.5% 2.5% 4.5% 6.1%
Total	100.00%	

# **Employee Retirement System (continued)**

\*The Domestic All Cap Equity total expected return is a combination of 3 rates – US Large cap, US Mid Cap and US Small Cap.

\*\*The Real Estate total expected return is a combination of US Direct Real Estate (unlevered) and US Value added Real Estate (unlevered).

<u>Discount rate</u> – A single discount rate of 7.50% was used to measure the total pension liability as of June 30, 2018. This single discount rate was based solely on the expected rate of return on pension plan investments of 7.5%. Based on the stated assumptions and the projection of cash flows, the pension plan's fiduciary net position and future contributions were projected to be available to finance all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine total pension liability.

Sensitivity of the Center's proportionate share of the net pension liability to changes in the discount rate

The following presents the Center's proportionate share of the net pension liability calculated using the discount rate of 7.5%, as well as what the Center's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.5%) or 1-percentage point higher (8.5%) than the current rate:

		Discount	
	1% Decrease <u>(6.5%)</u>	Rate (7.5%)	1% Increase (8.5%)
Center's proportionate share of the net			
pension liability	<u>\$ 30,455,360</u>	<u>\$ 21,418,178</u>	<u>\$ 13,852,531</u>

#### **Employee Retirement System (continued)**

Pension plan fiduciary net position – Detailed information about the pension plan's fiduciary net position is available in the separately issued TRS financial report that can be obtained at <a href="http://www.ok.gov/trs/">http://www.ok.gov/trs/</a> or by writing to the Oklahoma Teachers Retirement System, P.O. Box 53624, Oklahoma City, Oklahoma 73152 or by calling 405-521-2387.

# 8. Other Post-Employment Benefits OPEB

<u>Plan Description</u> – The District as the employer, participates in the Supplemental Health Insurance Program – a cost sharing multiple-employer defined benefit OPEB plan administered by the Oklahoma Teachers Retirement System (OTRS). Title 74 O. S. Sec. 1316.3 defines the health insurance benefits. The authority to establish and amend benefit provisions rests with the State Legislature. OTRS issues a publicly available financial report that can be obtained at <a href="https://www.ok.gov/OTRS"><u>www.ok.gov/OTRS</u></a>

<u>Benefits Provided</u> – OTRS pays a medical insurance supplement to eligible members who elect to continue their employer provided health insurance. The supplement payment is between \$100 and \$105 per month, remitted to the Oklahoma Management Enterprise Services Employees Group Insurance Division, provided the member has ten (10) years of Oklahoma service prior to retirement.

Contributions – Employer and employee contributions are made based upon the TRS Plan provisions contained in Title 70, as amended. However the statutes do not specify or identify any particular contribution source to pay the health insurance subsidy. Based on the contribution requirements of Title 70 employers and employees contribute a single amount based on a single contribution rate as described in Note 7; from this amount OTRS allocates a portion of the contributions to the supplemental health insurance program. The cost of the supplemental health insurance program averages 1.5% of normal cost, as determined by an actuarial valuation.

OPEB Liabilities (Assets), OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB – At June 30, 2019, the District reported an asset of \$229,010 for its proportionate share of the new OPEB asset. The net OPEB asset was measured as of June 30, 2019, and the total OPEB asset used to calculate the net OPEB asset was determined by an actuarial valuation as of June 30, 2019. The District's proportion of the net OPEB asset was based on the District's contributions received by the OPEB plan relative to the total contributions received by the OPEB plan for all participating employers as of June 30, 2019. Based upon this information, the District's proportion was 0.35436435% percent.

For the year ended June 30, 2019, the District recognized OPEB expense of \$10,934. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources			
Differences between expected and actual experience \$		\$	63,815		
Net difference between projected and actual earnings on OPEB plan investments	<u>-</u>	•	94,877		
Contributions during measurement date	596		-		
District contributions subsequent to the measurement date	10,934		<u>-</u>		
Total \$	22,452	\$	158,692		

# **OPEB** (continued)

The \$10,934 reported as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability (asset) in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended June 30:

2020	\$ (40,338)
2021	(40,338)
2022	(40,338)
2023	(18,669)
2024	(6,489)
Thereafter	(1,003)
	\$ (147,175)

<u>Actuarial Assumptions</u> – The total OPEB liability (asset) as of June 30, 2019, was determined based on an actuarial valuation prepared as of June 30, 2018 using the following actuarial assumptions:

- Actuarial Cost method-Entry Age
- Inflation 2.50%
- Future Ad Hoc Cost-of-living Increases None
- Salary Increases-Composed of 3.25% inflation, including 2.50% price inflation, plus a servicerelated component ranging from 0.00% to 8% based on years of service.
- Investment Rate of Return-7.50%
- Retirement Age-Experience-based table of rates based on age, service, and gender. Adopted by the Board in May 2015 in conjunction with the five year experience study for the period ending June 30, 2014
- Mortality Rates after Retirement Males: RP-2000 Combined Healthy mortality table for males with White Collar Adjustments. Generational mortality improvements in accordance with Scale BB from the table's base year of 2000. Females: GRS Southwest Region Teacher Mortality Table, scaled at 105%. Generational mortality improvements in accordance with Scale BB from the table's base year of 2012.
- Mortality Rates for Active Members RP-2000 Employee Mortality tables, with male rates multiplied by 60% and female rates multiplied by 50%.
- Health care trend rate not applicable as the benefit provided is a set dollar amount not impacted by health care costs.

Asset Class	Target Asset Allocation	Long-Term Expected Real Rate of Return				
Domestic Equity International Equity Fixed Income Real Estate** Alternative Assets	38.5% 19.0% 23.5% 9.0% 10.0%	7.5% 8.5% 2.5% 4.5% 6.1%				
Total	100.00%					

# **OPEB** (continued)

\*\* The Real Estate total expected return is a combination of US Direct Real Estate (unlevered) and US Value added Real Estate (unlevered).

<u>Discount Rate</u> – A single discount rate of 7.50% was used to measure the total OPRB liability (asset) as of June 30, 2019. This single discount rate was based solely on the expected rate of return on OPEB plan investments of 7.50%. Based on the stated assumptions and the projection of cash flows, the OPEB plan's fiduciary net position and future contributions were projected to be available to finance all projected future payments of current plan members. Therefore, the long term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability (asset). The projection of cash flows used to determine this single discount rate assumed that plan member and employer contributions will be made at the statutory levels and remain a level percentage of payrolls. The projection of cash flows also assumed that the State's contribution plus the matching contributions will remain a constant percent of projected member payroll based on the past five years of actual contributions.

<u>Sensitivity of the Net OPEB Liability (Asset) to Changes in the Discount Rate</u> – The following presents the net OPEB liability (asset) of the employer calculated using the discount rate of 7.5%, as well as what the Plan's net OPEB liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point higher (8.5%) than the current rate and 1-percentage point lower (6.5%) than the current rate:

	1% Decrease		Current Discount Rate			1% Increase
	(6.5%)		(7.5%)			(8.5%)
Employer's Net OPEB Liability (asset)	\$	(80,432)	\$	(229,010)	\$	(355,966)

<u>OPEB Plan Fiduciary Net Position</u> – Detailed information about the OPEB plan's fiduciary net position is available in the separately issued financial report of the OTRS; which can be located at <a href="https://www.ok.gov/OTRS">www.ok.gov/OTRS</a>.

### 9. Long-Term Debt

At June 30, 2019, the governmental long-term debt of the District consisted of the following:

	_	Balance July 1, 2018	 Additions	Retirements	 Balance June 30, 2019
Compensated Absences Less Current Portion	\$ -	765,223 	\$ 110,380	\$ -	\$ 875,603 545,866
Total -Long Term					\$ 329,737

#### 10. Operating Lease

The Center leases classroom space at Eufaula School needed to operate educational programs. The Center will pay the sum of \$40,000 during the year, also an additional amounts for insurance, equipment, utilities, and custodial services. The term of the lease began July 1, 2018, through June 30, 2019.

# 11. Litigation

Various claims and lawsuits are pending against the Technology Center. The settlement of such contingencies under the budgetary process would require appropriation of revenues yet to be realized and would not materially affect the financial position of the Center at June 30, 2019. In the opinion of the Technology Center management, after consultation with legal counsel, the potential loss on all claims and lawsuits will not materially affect The Center's financial position, results of operation, or cash flows.

#### KIAMICHI TECHNOLOGY CENTER NO. 7 LATIMER COUNTY, OKLAHOMA NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

### 12. Contingent Liabilities

The Center receives significant financial assistance from the United States government in the form of grants and other federal assistance. Entitlement to the resources is generally conditioned upon compliance with terms and conditions of the grant agreements and applicable federal regulations, including the expenditure of the resources for eligible purposes. Substantially all grants are subject to financial and compliance audits by the grantors. Any disallowances as a result of these audits become a liability of the Center. The Center estimates that no material liabilities will result from such audits.

### 13. Risk Management

The Center is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; or acts of God. The Center purchases commercial insurance to cover these risks, including general and auto liability, property damage, and public officials liability. Settled claims resulting from these risks have not exceeded the commercial insurance coverage in any of the past three fiscal years.

The Center also participates in a risk pool for Workers' Compensation coverage in which there is transfer or pooling of risks among the participants of that pool. In accordance with GASB No. 10, the school reports the required contribution to the pool, net of refunds, as insurance expense. The risk pool is the Oklahoma School Assurance Group (OSAG), an organization formed for the purpose of providing workers' compensation coverage to participating schools in the State of Oklahoma.

In that capacity, OSAG is responsible for providing loss control services and certain fiscal activities, including obtaining contract arrangements for the underwriting, excess insurance agreements, claims processing, and legal defense for any and all claims submitted to them during the plan year. As a member of OSAG, the Center is required to pay fees set by OSAG according to an established payment schedule. A portion of the fees paid by the Center goes into a loss fund for the Center. The fee for the loss fund is calculated by projecting losses based on the schools losses for the last five years. OSAG provides coverage in excess of the Loss Fund, so the Center's liability for claim loss is limited to the balance of the loss fund. If the Center does not use their loss fund in three years, it is returned to them with no interest.

### 14. Surety Bonds

The school Treasurer is bonded by Western Surety Company bond No. 61838914 in the amount of \$250,000 for the period July 1, 2018 to June 30, 2019.

The additional school Treasurer is bonded by Liberty Mutual Surety Company bond No. 601144673 in the amount of \$250,000 for the period of January 1, 2019 to January 1, 2020

The school also has a public employee blanket bond, with crime coverage, policy No. 105940205 with Travelers Insurance in the amount of \$300,000 covering the period May 21, 2019 through May 21, 2020. The policy has a \$5,000 deductible.

The school Clerk is bonded by Old Republic Surety Group bond number RP00556205 in the amount of \$1,000 covering the period April 26, 2018 to April 26, 2019. The school Minutes Clerk is bonded by RLI Insurance Company bond number LSM0903438 in the amount of \$1,000 covering the period July 1, 2018 through June 30, 2019. The Deputy Minutes Clerk is bonded by Old Republic Surety Group bond number W150228056 in the amount of \$1,000 covering the period July 1, 2018, to July 1, 2019.

#### KIAMICHI TECHNOLOGY CENTER NO. 7 LATIMER COUNTY, OKLAHOMA NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

### 15. Tax Abatement

The State of Oklahoma has authorized by Oklahoma Statute 62-850, the creation of tax increment financing (TIF) districts. These districts are intended to provide incentives and exemptions form taxation within certain areas to encourage investment, development, and economic growth. The City of Durant, the City of Heavener, and Carlton Landing have all created TIF districts. These TIF districts reduce the ad valorem taxes remitted to the Center over the term of the agreements.

Oklahoma Statute Title 31 offers a homestead exemption of up to 1 acre of property in an urban area or 160 acres in a rural area. These homestead exemptions reduce the ad valorem taxes remitted to the Center.

For the year ended June 30, 2019, abated property taxes due to TIF Districts were \$468,828. Abated taxes due to Homestead Expemptions were \$884,952.

### KIAMICHI TECHNOLOGY CENTER NO. 7 LATIMER COUNTY, OKLAHOMA NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS FOR THE YEAR ENDED JUNE 30, 2019

- 1. For all federal programs, the Center uses the fund types prescribed by the Oklahoma State Department of Career and Technology Education and conforms to the system of accounting authorized by the State of Oklahoma. General and Building Funds are used to account for resources restricted, or designated for, specific purposes by a grantor. Federal and state financial assistance generally is accounted for in the General and Pell Fund.
- 2. The accounting and financial reporting treatment applied to a fund is determined by its' measurement focus. The Governmental Fund types are accounted for using a current financial measurement focus. All federal grant funds were accounted for in the General and Agency Funds. With this measurement focus, only current assets and current liabilities and the fund balance are included on the balance sheet. Operating statements of these funds present increases and decreases in net current assets.

The modified accrual basis of accounting is used for the Governmental Fund types and the accrual basis of accounting for Agency funds. This basis of accounting recognizes revenue in the accounting period in which revenues become susceptible to accrual, i.e. both measurable and available, and expenditures in the accounting period in which the fund liability is incurred, and certain compensated absences and claims and judgments, which are expected to be liquidated with expendable available resources.

- 3. The District has not elected to use the 10% de minimis cost rate.
- 4. The amount shown as receivable in the "Balance at June 30, 2019" column are federal claims made by the technology center which are being disputed by the federal agency to whom claimed. These amounts were not considered reasonably collectable at least 60 days subsequent to year end, therefore are not shown as "receivables" in the accompanying financial statements.
- 5. During FY 16-17, the District made a duplicate claim of \$38,099.56 to Choctaw Nation's PATH program. Choctaw Nation did not determine the error was made until after FY18 and made the adjustment to the claim during FY19.

REPORTS REQUIRED BY GOVERNMENT AUDITING STANDARDS

### KERRY JOHN PATTEN, C.P.A.

2101 N. Willow Ave. Broken Arrow, OK 74012 Phone Number (918) 250-8838 FAX Number (918) 250-9853

### INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Honorable Board of Education Kiamichi Technology Center No. 7 Latimer County, Oklahoma

I have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Kiamichi Technology Center No. 7, Latimer County, Oklahoma (Center), as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Center's financial statements, and have issued my report thereon dated, February 25, 2020.

### Internal Control over Financial Reporting

In planning and performing my audit of the financial statements, I considered the Center's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing my opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Center's internal control. Accordingly, I do not express an opinion on the effectiveness of the Center's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

My consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during my audit I did not identify any deficiencies in internal control that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Center's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

This report is solely to describe the scope of my testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Kerry John Patten, C.P.A.

Broken Arrow, OK February 25, 2020

### INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY UNIFORM GUIDANCE

The Honorable Board of Education Kiamichi Technology Center No. 7 Latimer County, Oklahoma

### Report on Compliance for Each Major Federal Program

I have audited the compliance of Kiamichi Technology Center No. 7, Latimer County, Oklahoma (Center's) compliance with the types of compliance requirements described in the U.S. Office of Management and Budget OMB Uniform Guidance that could have a direct and material effect on each of the Center's major federal programs for the year ended June 30, 2019. The Center's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

### Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

#### **Auditor's Responsibility**

My responsibility is to express an opinion on compliance for each of the District's major federal programs based on my audit of the types of compliance requirements referred to above. I conducted my audit of compliance in accordance with auditing standards generally accepted in the United States of America; and the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Those standards and Uniform Guidance require that I plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major program occurred. An audit includes examining on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as I consider necessary in the circumstances.

I believe that my audit provides a reasonable basis for my opinion on compliance for each major federal program. However, my audit does not provide a legal determination of the Center's compliance.

### **Opinion on Each Major Federal Program**

In my opinion, Kiamichi Technology Center No. 7, Latimer County, Oklahoma, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2019.

### **Report on Internal Control Over Compliance**

Management of Kiamichi Technology Center No. 7, Latimer County, Oklahoma (Center), is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing my audit of compliance, I considered the Center's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance with Uniform Guidance, but not for the purpose of expressing an opinion on effectiveness of internal control over compliance. Accordingly, I do not express an opinion on the effectiveness of the Center's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program, on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

My consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. I did not identify any deficiencies in internal control over compliance that I considered to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of my testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Kerry John Patten, C.P.A.

Broken Arrow, OK February 25, 2020

#### KIAMICHI TECHNOLOGY CENTER NO. 7 LATIMER COUNTY, OKLAHOMA SCHEDULE OF FINDINGS AND QUESTIONED COSTS YEAR ENDED JUNE 30, 2019

#### A. SUMMARY OF AUDIT RESULTS

- 1. The auditor's report expresses an unmodified opinion on the basic financial statements of Kiamichi Technology Center.
- 2. There were no audit findings reported of deficiencies in internal control, which the auditor considers to be "significant deficiencies" as defined in A.I.C.P.A. standards.
- 3. No instances of noncompliance material to the financial statements of Kiamichi Technology Center which would be required to be reported in accordance with Government Auditing Standards were disclosed during the audit.
- 4. There were no audit findings reported of deficiencies in internal control over major programs, which the auditor considers to be "significant deficiencies" as defined by A.I.C.P.A. standards.
- 5. The auditor's report on compliance for the major federal award programs for Kiamichi Technology Center expresses an unmodified opinion.
- 6. There were no audit findings relative to major federal award programs for Kiamichi Technology Center.
- 7. The programs tested as major programs included: Student Financial Aid Cluster (84.063; 84.007, & 84.033) and Carl Perkins (84.048).
- 8. The threshold for distinguishing Types A and B programs was \$750,000.00.
- 9. Kiamichi Technology Center did not qualify as a low risk auditee.

#### B. FINDINGS - FINANCIAL STATEMENTS AUDIT

No matters were reported.

### C. FINDINGS AND QUESTIONED COSTS – MAJOR FEDERAL AWARD PROGRAMS AUDIT

1. No matters were reported.

### KIAMICHI TECHNOLOGY CENTER NO. 7 LATIMER COUNTY, OKLAHOMA SUMMARY OF PRIOR AUDIT FINDINGS JULY 1, 2018 TO JUNE 30, 2019

The summary of prior audit findings is required to report the status of all audit findings reported in the prior audit's schedule of findings and questioned costs relative to federal awards.

The Center had no prior year audit findings relative to federal award programs.
