**Mayes County Rural Water District No. 3
Management's Discussion and Analysis
For the Year Ended June 30, 2020**

Our discussion and analysis of the District's financial performance provides an overview of the District's financial activities for the fiscal year ended June 30, 2020. Please read it in conjunction with the District's financial statements.

FINANCIAL HIGHLIGHTS

- The assets of the District exceeded its liabilities at June 30, 2020 by \$2,110,428 representing an increase in net assets of \$69,892 from the prior fiscal year.
- Total operating revenues were \$562,300 this fiscal year while operating expenses were \$496,165 resulting in operating income of \$66,135.
- The District had \$2,536,237 (net of accumulated depreciation) invested in fixed assets as of June 30, 2020.

USING THIS ANNUAL REPORT

This annual report consists of two parts: Management's Discussion and Analysis and the Financial Statements. The Financial Statements also include notes that explain in more detail some of the information in the financial statements.

BASIS OF ACCOUNTING

The District presents its financial statements on the accrual basis of accounting. Accordingly, revenues are recorded when earned and expenses are recognized when incurred. This policy is in accordance with generally accepted accounting principles.

THE FINANCIAL STATEMENTS

The Financial Statements of the District report information about the District using accounting methods similar to those used by private sector companies. These statements offer short- and long-term financial information about its activities. The Balance Sheet includes all of the District's assets and liabilities and provides information about the nature and amounts of investments in resources (assets) and obligations to creditors (liabilities). It also provides the basis for computing rate of return, evaluation the capital structure of the District and assessing the liquidity and financial flexibility of the District. All of the current year's revenues and expenses are accounted for in the Statement of Revenues, Expenses and Changes in Net Assets. This statement measures the success of the District's operations over the past year and can be used to determine profitability, credit worthiness and whether the District has successfully recovered all its costs through its user fees and other charges. The final required financial statement is the Statement of Cash Flows. The primary purpose of the statement is to provide information about the district's cash receipts and cash payments during the reporting period. The statement reports cash receipts, cash payments, and net changes in cash resulting from operations. Investing, and capital and noncapital financing activities and provides answers to such questions as "from where did cash come?" "for what was cash used?," and "what was the change in cash balance during the reporting period?"

**Mayes County Rural Water District No. 3
Management's Discussion and Analysis
For the Year Ended June 30, 2020**

THE FINANCIAL STATEMENTS, CONTINUED

The District has only one type of fund or activity, which is defined as a *Business-type activity*. *Business-type activities* are considered proprietary funds. This means the District charges a fee to customers to help cover all or most of the cost of the services it provides.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

As of June 30, 2020, the District had \$2,536,237 (net of accumulated depreciation) invested in capital assets, including the water storage and distribution system, improvements, machinery, and equipment.

Debt

The District has three notes payable outstanding as of June 30, 2020. As a result of the normal repayment of principal on outstanding debt, The District's total obligations decreased by \$83,174 during the fiscal year. The balance of the notes payable was \$1,064,005 at the end of the fiscal year.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

A product of an ongoing examination of how the District does business, our budget emphasizes outcomes or results for the community and allows for longer-term financial planning decisions.

In considering the District's budget for the upcoming fiscal year, the Board estimates that revenues and expenses in the coming year will approximate actual revenues and expenses for the past fiscal year. Therefore, net assets are expected to increase slightly as long term debt is reduced by regularly scheduled principal payments.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the District at Mayes County Rural Water District No.3, P.O. Box 279, Disney, OK or call (918) 435-4361. Office hours are Monday through Friday 8 am to 4 pm.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
Mayes County Rural Water District No. 3
Mayes County, Ok

We have audited the accompanying financial statements of the business-type activities of Mayes County Rural Water District No. 3, County of Mayes, State of Oklahoma as of June 30, 2020, and the related notes to the financial statements, as listed in the table of contents.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

OPINIONS

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Mayes County Rural Water District No. 3, County of Mayes, State of Oklahoma as of June 30, 2020, and the respective changes in financial position and cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 2 through 3 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted budgetary data that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by Government Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated August 30, 2020, on our consideration of the Mayes County Rural Water District No 3's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Mayes County Rural Water District No 3's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Mayes County Rural Water District No 3's internal control over financial reporting and compliance.

Sincerely,

A handwritten signature in black ink that reads "David Clanin, CPA". The signature is written in a cursive style.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

We have audited the accompanying financial statements of the business-type activities of Mayes County Rural Water District No. 3, County of Mayes, State of Oklahoma, as of and for the year ended June 30, 2020, which collectively comprise the District's basic financial statements and have issued our report thereon dated August 30, 2020. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

INTERNAL CONTROL OVER FINANCIAL REPORTING

In planning and performing our audit of the financial statements, we considered Mayes County Rural Water District No. 3, County of Mayes, State of Oklahoma's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Mayes County Rural Water District No. 3, County of Mayes, State of Oklahoma's internal control. Accordingly, we do not express an opinion on the effectiveness of Mayes County Rural Water District No. 3, County of Mayes, State of Oklahoma's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, material weaknesses may exist that have not been identified.

COMPLIANCE AND OTHER MATTERS

As part of obtaining reasonable assurance about whether Mayes County Rural Water District No. 3, County of Mayes, State of Oklahoma's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Mayes County Rural Water District No. 3
Notes to the Financial Statements
For the Year Ended June 30, 2020

The following notes to the financial statements are an integral part of Mayes County Rural Water District No. 3's financial statements.

I. Description of the Entity

Mayes County Rural Water District No. 3, (the "District") was organized by the Board of County Commissioners of Mayes County, Oklahoma. Its purpose is to process and provide for the use and benefit of its members a water processing and distribution system, including physical facilities for its operations and maintenance. The District is exempt from federal and state income taxes.

II. Summary of Significant Accounting Policies

The accounting policies of the District conform to generally accepted accounting principles applicable to governmental units. The District complies with generally accepted accounting principles and applies all relevant Government Accounting Standards Board (GASB) pronouncements. In addition, the District applies Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board opinions issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements, in which case, GASB prevails. The District has elected not to follow FASB pronouncements issued since that date.

A. Financial Reporting Entity

The District complies with GASB Statement No. 61, "*The Financial Reporting Entity*." This Statement establishes standards for defining and reporting on the financial reporting entity. It defines component units as legally separate organizations for which the elected officials of the primary government are financially accountable and other organizations for which the nature and significance of their relationship with a primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The District considered all potential component units in determining what organization should be included in the financial statements. Based on these criteria, there are no component units to include in the District's financial statements.

B. Basis of Presentation

The District's fund is an enterprise fund. Enterprise funds are proprietary funds used to account for business-like activities provided to the general public. These activities are financed primarily by user charges and the measurement of financial activity focuses on net income measurement similar to the private sector.

Mayes County Rural Water District No. 3
Notes to the Financial Statements
For the Year Ended June 30, 2020

C. Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe *which* transactions are recorded within the various financial statements. Basis of accounting refers to *when* transactions are recorded regardless of the measurement focus applied.

The proprietary funds utilize an “*economic resources*” measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net assets (or cost recovery), financial position and cash flows. All assets and liabilities (whether current or noncurrent) associated with their activities are reported. Proprietary fund equity is classified as net assets.

All proprietary funds utilize the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperational* items. Operating revenues and expenses generally result from providing services in connection with a proprietary fund’s principal ongoing operations. The principal operating revenues of the District’s enterprise fund is charges to customers for sales and services. The District also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperational revenues and expenses.

D. Assets, Liabilities and Net Assets

1. Cash and Cash Equivalents

For purposes of the statement of cash flows, the District considers all cash on hand, demand deposits, and highly liquid investments, with an original maturity of three months or less when purchased, to be cash and cash equivalents.

2. Investments

Investments consist of certificates of deposit maturing in the following fiscal year with interest paid quarterly or biannually at varying rates.

3. Fair Value of Financial Instruments

The District’s financial statements include cash and investments. The District’s estimates of the fair value of all financial instruments do not differ materially from the aggregate carrying values of its financial instruments recorded in the accompanying balance sheet. The carrying amount of these financial instruments approximates fair value because of the short maturity of these instruments.

4. Inventory of Supplies and Materials

The District has an inventory of pipe and other miscellaneous repair parts on hand at any one time, but no physical inventory is taken and accordingly, the inventory is not reflected in the financial statements.

Mayes County Rural Water District No. 3
Notes to the Financial Statements
For the Year Ended June 30, 2020

5. Accounts Receivable

Accounts receivable consists primarily of charges for water sales. Management has not established a provision for uncollectible accounts. Such amounts are written off in the month in which management determines they are uncollectible.

6. Capital Assets

The water storage and delivery system and equipment are recorded at cost. Donated capital assets are reported at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized. All reported capital assets are depreciated on the straight-line basis over the estimated useful lives ranging from five to fifty years.

Management determines on an item by item basis to capitalize or expense purchases.

7. Restricted Cash

Restricted assets include cash and investments of the proprietary fund that are legally restricted as to their use. Financial requirements of the promissory notes with Oklahoma Water Resource Board require that funds be held in a reserve accounts. Under the terms and provisions of the promissory notes, these funds are maintained in separate accounts and are not subject to lien or attachment by any other creditors. These funds are to be maintained so long as the notes are outstanding.

8. Equity Classifications

Equity is classified as net assets and displayed in three components:

- a. Net invested in capital assets --- Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any mortgages, notes, or other borrowings that are attributable to the acquisition, construction or improvement of those assets.
- b. Restricted net assets --- Consists of net assets with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net assets --- All other net assets that do not meet the definition of “restricted” or “invested in capital assets, net of related debt.”

9. Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Mayes County Rural Water District No. 3
Notes to the Financial Statements
For the Year Ended June 30, 2020

III. Detailed Notes

A. Cash and Investments

Authorized investments – The District’s policy for eligible investments is governed by State statutes which, in general, allow the District to invest in obligations of the United States and insured or collateralized Certificate of Deposits.

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of a bank failure, the District’s deposits may not be returned to it. The District’s cash deposits, including interest-bearing certificates of deposit, are maintained in financial and all balances are covered by Federal Depository Insurance or by collateral held by the bank and pledged to the District. As of June 30, 2020, none of the District’s deposits were exposed to custodial credit risk.

B. Accounts Receivable

Accounts receivable is comprised of unpaid billings for services rendered as of the end of the fiscal year. Accounts are considered uncollectible and written off to bad debt after 90 days. After a member’s bill is determined to be uncollectible and written off the associated customer deposit is applied to the overdue bill and the associated membership is canceled.

C. Restricted Cash

The Oklahoma Water Resources Board has provided three notes to the District. The funds were used to finance expansions and major improvements to the water system. Bank of Oklahoma is the Trustee of all funds associated with the notes. Monthly payments are made to a debt service fund and semiannual or quarterly the monthly payments and investment earnings are used to make the principal and interest payments on the notes. Additionally, ten percent of the loan balance administered by the Trustee were set aside and used to fund a debt service reserve fund. The debt service reserve fund account was established to make up any potential future deficiency in debt service fund payments. All reserve funds are invested in government backed securities. As of June 30, 2020, Debt Service Fund balances totaled \$34,603 and Debt Service Reserve Fund balances totaled \$100,594.

Also included in restricted cash are the funds in checking and savings accounts for meter deposits held for customers in the approximate amount of \$53,365.

Mayes County Rural Water District No. 3
Notes to the Financial Statements
For the Year Ended June 30, 2020

D. Changes in Capital Assets

Capital Assets activity for the year was as follows:

	<u>July 1, 2019</u>	<u>Additions</u>	<u>Deletions</u>	<u>June 30, 2020</u>
Non-Depreciable				
Land	26,242	-	-	26,242
Land and buildings	153,922	-	-	153,922
Water system	4,028,048	1,715	-	4,029,763
Furniture and fixtures	9,363	-	-	9,363
Equipment	219,462	4,392	-	223,854
Vehicles	93,247	32,000	(20,505)	104,742
Total Depreciable Assets	4,504,042	38,107	(20,505)	4,521,644
Accumulated Depreciation	(1,932,790)	(99,364)	20,505	(2,011,649)
	<u>2,597,494</u>	<u>(61,257)</u>	<u>-</u>	<u>2,509,995</u>

E. Long-Term Debt

The District has three notes payable to the Oklahoma Water Resources Board. The notes require monthly payments to a debt service fund held by the Trustee, Bank of Oklahoma. The monthly payments are invested by the loan trustee and the trustee makes quarterly or semi-annual payments on the notes depending on the requirements of the note.

Below is a summary of the notes payable:

	<u>Original Amount</u>	<u>Origination Date</u>	<u>Monthly Payment</u>	<u>Maturity Date</u>	<u>Interest Rate</u>
Note #2	\$ 465,000.00	6/17/1998	\$ 1,767.57	8/15/2026	3.23%
Note #3	845,000.00	12/17/2003	2,679.22	9/15/2032	1.93%
Note #4	900,000.00	12/15/2009	3,411.51	9/15/2030	4.72%
	<u>Balance</u>			<u>Balance</u>	<u>Due Within</u>

Mayes County Rural Water District No. 3
Notes to the Financial Statements
For the Year Ended June 30, 2020

IV. Other Information

A. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and natural disasters. The District purchases commercial insurance to cover these risks, including general and auto liability, property damage, and public officials liability. There were no significant reductions in insurance coverage from the prior year. Settle claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

B. Contingent Liabilities

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

C. Subsequent Events

Management has evaluated subsequent events through the date of the auditor's report and have determined that no additional information needs to be added to the financial statements.
